CODE OF ORDINANCES

CITY OF

CHATTANOOGA, TENNESSEE

Looseleaf Supplement

This copy of the Code of Ordinances of the City of Chattanooga, Tennessee, is issued as a "replacement" copy and contains all ordinances deemed advisable to be included at this time.

This copy replaces all existing copies of the Code as published by the City of Chattanooga. Future supplements will commence with "Supplement No. 1" by Municipal Code Corporation.

PREFACE

This Code constitutes a codification of the general and permanent ordinances of the City of Chattanooga, Tennessee.

Source materials used in the preparation of the Code were the ordinances adopted by the City. The source of each section is included in the history note appearing in parentheses at the end thereof. The absence of such a note indicates that the section is new and was adopted for the first time with the adoption of the Code. By use of the comparative tables appearing in the back of this Code, the reader can locate any section of any ordinance included herein.

The chapters of the Code have been conveniently arranged in alphabetical order, and the various sections within each chapter have been catchlined to facilitate usage. Notes which tie related sections of the Code together and which refer to relevant state law have been included. A table listing the state law citations and setting forth their location within the Code is included at the back of this Code.

Chapter and Section Numbering System

The chapter and section numbering system used in this Code is the same system used in many state and local government codes. Each section number consists of two parts separated by a dash. The figure before the dash refers to the chapter number, and the figure after the dash refers to the position of the section within the chapter. Thus, the second section of chapter 1 is numbered 1-2, and the first section of chapter 6 is 6-1. Under this system, each section is identified with its chapter, and at the same time new sections can be inserted in their proper place by using the decimal system for amendments. For example, if new material consisting of one section that would logically come between sections 6-1 and 6-2 is desired to be added, such new section would be numbered 6-1.5. New articles and new divisions may be included in the same way or, in the case of articles, may be placed at the end of the chapter embracing the subject, and, in the case of divisions, may be placed at the end of the article embracing the subject. The next successive number shall be assigned to the new article or division. New chapters may be included by using one of the reserved chapter numbers. Care should be taken that the alphabetical arrangement of chapters is maintained when including new chapters.

Page Numbering System

The page numbering system used in this Code is a prefix system. The letters to the left of the colon are an abbreviation, which represents a certain portion of the volume. The number to the right of the colon represents the number of the page in that portion. In the case of a chapter of the Code, the number to the left of the colon indicates the number of the chapter. In the case of an appendix to the Code, the letter immediately to the left of the colon indicates the letter of the appendix. The following are typical parts of codes of ordinances, which may or may not appear in this Code at this time, and their corresponding prefixes:

CODE	CD1:1
CODE APPENDIX	CDA:1
CODE COMPARATIVE TABLES	CCT:1

STATE LAW REFERENCE TABLE SLT:1

CHARTER INDEX CHTi:1

CODE INDEX CDi:1

Index

The index has been prepared with the greatest of care. Each particular item has been placed under several headings, some of which are couched in lay phraseology, others in legal terminology, and still others in language generally used by local government officials and employees. There are numerous cross references within the index itself that stand as guideposts to direct the user to the particular item in which the user is interested.

Looseleaf Supplements

A special feature of this publication is the looseleaf system of binding and supplemental servicing of the publication. With this system, the publication will be kept up-to-date. Subsequent amendatory legislation will be properly edited, and the affected page or pages will be reprinted. These new pages will be distributed to holders of copies of the publication, with instructions for the manner of inserting the new pages and deleting the obsolete pages.

Keeping this publication up-to-date at all times will depend largely upon the holder of the publication. As revised pages are received, it will then become the responsibility of the holder to have the amendments inserted according to the attached instructions. It is strongly recommended by the publisher that all such amendments be inserted immediately upon receipt to avoid misplacing them and, in addition, that all deleted pages be saved and filed for historical reference purposes.

Acknowledgments

This publication was under the direct supervision of Austin Bates, Editor, of the Municipal Code Corporation, Tallahassee, Florida. Credit is gratefully given to the other members of the publisher's staff for their sincere interest and able assistance throughout the project.

The publisher is most grateful to Mr. Wade A. Hinton, City Attorney, for his cooperation and assistance during the progress of the work on this publication. It is hoped that her efforts and those of the publisher have resulted in a Code of Ordinances which will make the active law of the City readily accessible to all citizens and which will be a valuable tool in the day-to-day administration of the City's affairs.

Checklist of Up-to-Date Pages

(This checklist will be updated with the printing of each Supplement)

From our experience in publishing Looseleaf Supplements on a page-for-page substitution basis, it has become evident that through usage and supplementation many pages can be inserted and removed in error.

The following listing is included in this Code as a ready guide for the user to determine whether the Code volume properly reflects the latest printing of each page.

In the first column all page numbers are listed in sequence. The second column reflects the latest printing of the pages as they should appear in an up-to-date volume. The letters "OC" indicate the pages have not been reprinted in the Supplement Service and appear as published for the original Code. When a page has been reprinted or printed in the Supplement Service, this column reflects the identification number or Supplement Number printed on the bottom of the page.

In addition to assisting existing holders of the Code, this list may be used in compiling an up-to-date copy from the original Code and subsequent Supplements.

SUPPLEMENT HISTORY TABLE

The table below allows users of this Code to quickly and accurately determine what ordinances have been considered for codification in each supplement. Ordinances that are of a general and permanent nature are codified in the Code Book and are considered "Included." Ordinances that are not of a general and permanent nature are not codified in the Code Book and are considered "Omitted."

In addition, by adding to this table with each supplement, users of this Code of Ordinances will be able to gain a more complete picture of the Code's historical evolution.

CHARTER PROLOGUE

The City of Chattanooga was established by the General Assembly of the State of Tennessee in 1839. Since that time the Private Acts establishing the City were amended many times. The Charter of the City was composed entirely of those private acts of the General Assembly as periodically compiled, until 1972 when the voters of the City adopted Home Rule as provided for by Article XI, Section 9 of the Constitution of Tennessee. Thereafter, pursuant to said section, amendments to the Charter have been in the form of Ordinances approved by the qualified voters of the City at general elections.

In November of 1987, a civil action captioned Brown, et al. v. Board of Commissioners of the City of Chattanooga, Tennessee, et al., Civil Action No. 1-87-388, was filed in the United States District Court for the Eastern District of Tennessee, Southern Division. The plaintiffs in the suit, twelve minority residents of the City, brought action against the Board of Commissioners of the City, seeking to have the City's at-large method of electing its Board of Commissioners set aside as being unconstitutional and/or in violation of Section 2 of the Federal Voting Rights Act of 1965, as amended in 1982 (the "Voting Rights Act"). On August 8, 1989, the court held the at-large voting provisions of the City Charter to be in violation of the Voting Rights Act and ordered that the defendant City officials and the City submit an acceptable remedial plan to bring the City into compliance with the Voting Rights Act. The court further held that pending further order of the court, the Board of Commissioners of the City would continue to operate as the governing body of the City.

Pursuant to the court's order, the City and the defendant City Commissioners submitted to the court an amended plan agreeable to counsel for the plaintiffs. With the consent of the parties, the court, by the Agreed Order, accepted and adopted the Defendants' Amended Plan (the "Defendants' Amended Plan") as a full and complete remedy for violations of the plaintiffs' rights in the case. The Agreed Order provided that the City Charter be amended as provided in the Defendants' Amended Plan.

The amendments to the City Charter provided for by the Agreed Order were extensive. Following are significant amendments to the City Charter; others are set forth in the Defendants' Amended Plan. Pursuant to the Agreed Order, the Board of Commissioners of the City and the present offices of the Mayor and the Commissioners were abolished as of noon, June 11, 1990. Under the Agreed Order, there was created the office of the Mayor, and all executive and administrative authority and responsibility vested in and executed by the Board of Commissioners and its individual members was vested exclusively in the Mayor. Further, there was created a City Council of the City, and all legislative and quasi-judicial authority and responsibility originally vested in and exercised by the Board of Commissioners was vested exclusively in the City Council. The Mayor is elected at-large and is not a member of the City Council, and the City Council is composed of nine members, each member being elected from one of nine districts within the geographic boundaries of the City.

Since June 11, 1990, at Noon, the City has operated under the Mayor/Council form of government.

The information set forth above is a summary of selected provisions of the Agreed Order and the Defendants' Amended Plan. The summaries of these documents do not purport to be complete and are qualified in their entirety by reference to the Agreed Order and Defendants' Amended Plan.

A copy of the Court's Judgment, the Agreed Order, the Defendants' Amended Plan, and two subsequent amendments thereto are included in the Appendix to the Charter Compilation.

In 2002, Ordinance No. 11272 was adopted by the Council and approved by the people, which Ordinance amended and restated the Charter so as to conform it to the decision in Brown.

Subsequently, the Charter has been amended by the adoption of Ordinances 11305, 11306, 11307, 1308, 11309, 11310, 11590, 11591, 11592, 11872, 11873, and 11877, and their respective approvals by the electorate.

PART I

CHARTER COMPILATION

Title 1

INCORPORATION

Sec. 1.1. Incorporation of city; corporate name; general powers and liabilities.
Sec. 1.2. City to have perpetual existence.

Sec. 1.1. Incorporation of city; corporate name; general powers and liabilities.

The inhabitants of the City of Chattanooga, in the County of Hamilton, are hereby constituted a corporation and body politic, by the name and style of "the City of Chattanooga, Tennessee"; and by the same may sue and be sued; plead and be impleaded, in all the courts of law and equity, and in all actions whatsoever; may purchase, receive and hold property, real and personal, within said city; and may sell, lease or dispose of the same for the benefit of said city; and may purchase, receive and hold property, real and personal, beyond the limits of the city, to be used for the burial of the dead, for the erection of water works, for the establishment of a hospital, poor house, workhouse or house of correction; and may sell, lease or dispose of said property for the benefit of the city; and do all other acts touching the same, as natural persons; and shall have a common seal and change it at pleasure.
(Priv. Acts 1869, Ch. 4, § 1; Priv. Acts 1911, Ch. 10, § 2; Priv. Acts 1969, Ch. 82, § 4)

Editor's note—Priv. Acts 1969, Ch. 68, § 4, amended the acts codified as § 1.1, by superseding the provision that "the same shall have succession for ninety-nine years."

Cross reference—For composite description of corporate limits and subsequent annexation ordinances, see Appendix A of Chattanooga City Code, Part II.

Sec. 1.2. City to have perpetual existence.

The City of Chattanooga, Tennessee, as a municipal corporation and body politic, shall have perpetual existence, and shall be considered for all purposes to have had perpetual existence since being first chartered by the General Assembly; and no act of said city, including the issuance of bonds, shall be affected in any manner by any prior charter provision to the contrary that may not have been expressly amended or repealed heretofore.
(Priv. Acts 1969, Ch. 82, § 4)

Editor's note—Part I of this Volume contains the compilation of the Acts of the Tennessee General Assembly and Home Rule amendments adopted by the voters of the City pursuant to Art. 11, § 9 of the Constitution of Tennessee. Historically, the Charter has been arranged according to subject matter and each provision assigned an arbitrary section number to facilitate referencing and indexing. Although major changes to the Charter were made prior to the 2013 publication of the Charter, the historic numbering system has been maintained to the extent practicable to facilitate cross-referencing and legal research.

The adoption of Home Rule was submitted to the voters to ratify Ordinance No. 6489, 9-19-72 pursuant to Art. 11, § 9 of the Constitution of Tennessee on November 7, 1972, and approved by a vote of 15,895 to 8,190. A list of Home Rule ordinances that have been duly ratified by the voters pursuant to Art. 11, § 9 set forth below. All amendments have been worked into their proper places and amended or repealed revisions deleted.

Legislation that has clearly been superseded by subsequent legislation has been deleted. This provision is set out in the language in which it was enacted, but the editors have added clarifying words or phrases in brackets where necessary. The bracketed material should not, of course, be considered authoritative, but is for convenience and clarity only.

Ordinance No. 11272, 5-2-02, approved by referendum amended and restated the Charter of the City in its entirety so as to conform to the decision of the United States District Court in *Brown v. Board of Commissioners*, U.S.D.C. No. CIV-1-87-388 and subsequent amendments thereto. The Court of Appeals of Tennessee held in the case of *Ron Littlefield v. Hamilton County Election Commission, et al*, No. 11C1520, that Ordinance No. 11272, was "*sufficient to 'enact' a 'contrary charter provision'* pursuant to Tennessee Code Annotated Section 2-5-151 (i)..." (page 17 of opinion). The editors are of the opinion that based upon this Court of Appeals decision that Ordinance No. 11272 is the baseline for the present charter.

Michael A. McMahan, City Attorney, 2009-2013, is the principal editor of this 2013 publication of the Charter of the City of Chattanooga. Thanks is given to Maria Sirchia for her ongoing efforts to accurately maintain the Charter and City Code.

The following Home Rule Ordinances approved by referendum have been compiled in this Charter of the City of Chattanooga:

Title 2

CORPORATE POWERS AND PROHIBITIONS GENERALLY

Sec. 2.1. General enumeration.
Sec. 2.2. Reserved.
Sec. 2.3. Reserved.
Sec. 2.4. Reserved.
Sec. 2.5. Parking meters.
Sec. 2.6. Lease contracts with federal government.
Sec. 2.7. Declaration of nuisances; abatement of same.
Sec. 2.8. Creation, discontinuance, etc., of offices not provided for by charter.
Sec. 2.9. Authority to subscribe to stock in railroad or turnpike companies.
Sec. 2.10. Reserved.
Sec. 2.11. Privilege tax on pleasure automobiles and motorcycles, taxicabs, buses, etc.
Sec. 2.12. Reserved.
Sec. 2.13. Reserved.
Sec. 2.14. Supplemental pension payments.

Sec. 2.1. General enumeration.

The city council of the City of Chattanooga shall have power by ordinance.

(1) Property taxes. To levy and collect taxes upon all property taxable by law for state purposes, but no property shall be exempt from taxation except property exempt from state taxes.

Cross reference—Property tax provisions generally, § 6.66.

(2) Privilege taxes; fees. To levy and collect taxes upon all privileges taxable by laws of the state; to impose any fee or charge reasonably necessary to the exercise of any of its powers.

Cross reference—Privilege taxes generally, § 6.44.

(3) Appropriations; payment of city debts. To appropriate money and provide for the payment of all debts and expenses of the city.

Cross reference—Appropriations generally, § 6.91.

(4) General health; abatement of nuisances. To make regulations to secure the general health of the inhabitants, and to prevent, abate and remove nuisances. The city shall have the power to abate and remove nuisances at the expense of the owner or owners and the expense shall be secured by a lien upon the property for which the expenditure is made, which lien shall be superior to all other liens, except liens for state, county and municipal taxes and special assessments, which lien may be enforced by suit in any court of competent jurisdiction of Hamilton County.

Cross reference—Declaration and abatement of nuisances, § 2.7.

(5) Contagious disease; quarantines. To make regulations to prevent the introduction of contagious disease in the city; to make quarantine laws for that purpose, and to enforce same within the corporate limits and within the city's police jurisdiction.

(6) Reserved.

Editor's note—Former § 6 relating to hospitals repealed by Ord. No. 12677, § 2, 12-18-12.

(7) Streets and sidewalks generally. To alter, abandon, widen, extend, establish, grade, pave or otherwise improve, clean and keep in repair streets, alleys and sidewalks or to have same done by the owners of adjacent property. The city shall have the power to require the owners abutting to construct, reconstruct, maintain and repair sidewalks in front of such property or the city may construct, reconstruct or repair such sidewalks at the expense of the owner or owners and the expense shall be secured by a lien upon the property for which the expenditure is made, which lien shall be superior to all liens except liens for state, county and municipal taxes, which lien may be enforced in any court of competent jurisdiction in Hamilton County.

Cross reference—Streets and sidewalks generally, Title 15.

(8) Bridges, culverts, sewers and gutters. To construct, erect, establish and keep in repair bridges, culverts, sewers and gutters.

(9) Lighting streets and public buildings. To provide for lighting the streets and public buildings.

(10) Markets and markethouses. To erect markethouses, establish markets and regulate the same.

(11) Erection of buildings by city. To provide for the erection of all buildings necessary for the use of the city.

(12) Public grounds. To provide for enclosing, improving and regulating all public grounds belonging to the city within or without the corporate limits.

(13) Public wharves. To construct, maintain and repair public wharves, and to regulate the use of wharves, docks and landings, and to fix the rate of wharfage and the rent of any buildings or structures.

(14) Gaming. To restrain and prohibit gaming.

(15) Licenses-Generally. To license, tax and regulate all businesses and occupations in accordance with the general laws of the state.

Cross reference—Privilege taxes generally, § 6.44.

(16) Same—Vehicles for hire. To license, tax and regulate taxicabs, automobiles for hire, trucks and buses; to fix a rate to be charged for the carriage of persons and property by any vehicle held out to the public use for hire within the city; to require indemnity bonds, issued by surety companies, or indemnity insurance policies to be filed with the city by the owner or operator of any such vehicle for the protection of the city or any person against loss by injury to person or damage to property, and to make all needful rules or regulations for the government of such conveyances and their operation within the city and for a distance of seven miles beyond the city limits; to issue certificates of convenience and necessity for the operation of taxicabs, automobiles for hire and buses, and to determine the number of taxicabs, automobiles or buses needed for the furnishing of transportation to the inhabitants of the city and the public in general.

(17) Same—Theatrical and other exhibitions; suppression of bawdy houses, gambling equipment, etc. To license, tax and regulate theatrical or other exhibitions, moving picture shows, amusements and to prohibit and suppress gambling houses, disorderly houses, bawdy houses, obscene pictures and literature; the sale, manufacture or transportation of intoxicating liquors in violation of the laws of the state or ordinances of the city, and to confiscate and destroy gambling equipment, stills and intoxicating liquors when manufactured, possessed or transported in violation of the federal or state laws or ordinances of the city.

Cross reference—Privilege taxes generally, § 6.44.

(18) Same—Machines used for sport or skill, jukeboxes, etc. To license, tax and regulate machines for use for sport, skill or exhibition, including pinball machines, marble tables or machines, plunger shooting tables or machines, high score games, digger or grabbing machines, video game machines and jukeboxes or other musical devices or machines.

Cross reference—Privilege taxes generally, § 6.44.

(19) Firearms, fireworks, fire hazards, etc. To provide for the prevention and extinguishment of fires. To regulate and prohibit and suppress the sale of firearms and the carrying of concealed weapons; to regulate, prohibit and suppress the sale and use of firecrackers, fireworks and toy pistols and any other business of any character which may be declared to be dangerous to the security and well-being of the inhabitants or to property. To regulate, restrain and prohibit the erection of wooden buildings in any part of the city; to regulate and prevent the carrying on of manufactories dangerous in causing or producing fires. To regulate the transportation, storage and use of combustible, explosive and inflammable materials and the use of lighting and heating equipment and to provide for the abatement and prevention of fire hazards of all kinds.

(20) Fire prevention bureau. To establish a fire prevention bureau for the enforcement of ordinances for the prevention of fires.

(21) Reserved.

Editor's note—Former § 21 relating to Weights and Measures repealed by Ord. No. 12677, § 2, 12-18-12.

(22) Reserved.

Editor's note—Former § 22, relating to Inspection, weighing, etc. of lumber, coal, fuel, etc. repealed by Ord. No. 12677, § 2, 12-18-12.

(23) Disorderly persons; breaches of the peace. To provide for the arrest, imprisonment and punishment of riotous and disorderly persons within the city, and for the punishment of all breaches of the peace, noise, disturbance or disorderly assemblies.

(24) Animals and fowls. To license, tax, regulate or suppress the keeping and going at large of all animals, including domestic fowls, within the city, to impound the same, and, in default of redemption, to sell or kill the same; to regulate the treatment of animals and provide for the punishment of cruelty to the same.

(25) Inspection department; buildings generally. To establish an inspection department for the inspection of the construction of buildings, plumbing, electrical, heating and other components and to license builders, electricians, plumbers, steamfitters, and other crafts people, and to impose license fees for permits for the construction of buildings, installation of electric wiring, plumbing, heating systems or other systems; to regulate the erection of buildings and other structures; to compel the owner to provide and maintain fire escapes and other safety features, and to provide fire districts or zones and building zones; to regulate, prohibit or suppress or provide for the destruction and removal of any building or other structure which may be or become dangerous or detrimental to the inhabitants or to the public.

(26) Eminent domain. To acquire by eminent domain land and grounds within the city for any municipal or corporate purpose when the public convenience and necessity require it.

(27) Acquisition of land beyond corporate limits. To provide for the taking and appropriating of lands and grounds beyond the corporate limits of the city by condemnation when the public necessity so requires for any municipal purpose.

(28) Acquisition of property for parks. To acquire all necessary property for park purposes within the corporate limits of the city, either by purchase, condemnation or otherwise.

(29) Reserved.

Editor's note—Former § 29 relating to acquisition of property in Moccasin Bend repealed by Ord. No. 12677, § 2, 12-18-12.

(30) Protection of children. To provide for the protection of children.

(31) Acquisition, disposition, etc., of public buildings, etc. To purchase, erect, construct, equip, maintain and operate; or sell, lease or dispose of any public building and equipment and appurtenances thereto within or without the corporate limits of the city.

(32) Acquisition, disposition, etc., of land or buildings for municipal purposes. To purchase, lease or otherwise acquire and hold any land or building for any municipal purpose.

(33) Disposition of surplus property. To authorize the sale, lease or disposition of any property belonging to the City of Chattanooga not needed for public purposes for the fair, reasonable market value thereof.

(34) Heating and air conditioning; stationary engineers. To regulate the installation of boilers, heating systems, air conditioning systems and to require permits for such installations, and to examine and license stationary engineers engaging in operating steam plants within the corporate limits.

(35) Loudspeakers and other noise making devices. To regulate, prohibit and suppress the operation of loudspeakers or other noise making devices on vehicles, aircrafts or buildings.

(36) Breaches of the peace. To prevent and punish by pecuniary penalties all breaches of the peace, noise, disturbances or disorderly assemblies in any street, house or place in the city by day or by night.

(37) Solicitors; distribution of handbills. To license and regulate solicitors and the distribution of handbills.

(38) Privilege taxes. To collect such privilege taxes and fees as may be authorized by state law.

Cross reference—Privilege taxes generally, § 6.44 et seq.

(39) Right-of-way for public utilities. To grant rights-of-way through the streets, alleys, thoroughfares and tunnels and over the bridges of the city for the use of public or quasi-public utilities, and to provide the terms under which said permits may be granted.

Cross references—Franchises, Title 7; public utilities generally, Title 14.

(40) Fines and civil penalties. To provide for fines, forfeitures and civil penalties for the breach of any ordinance of the city and for the enforcement, recovery and appropriation of the same.

Cross references—Courts, fines and imprisonments, Title 4; police and fire generally, Title 13 § 4.8; maximum fine for ordinance violations, § 4.50.

(41) Police and fire departments. To provide for a police force and fire department and the organization and maintenance of the same, and to provide all proper equipment, houses and stations for said police force and the said fire department.

Cross reference—Police and firefighters generally, Title 13.

(42) Anchoring and mooring of vessels. To regulate stationary anchorage and mooring of vessels, houseboats or rafts when in the city.

(43) Closing of wells, cisterns, etc. To provide for temporary or permanent closing of wells, cisterns and springs used by the public whenever the same are or are likely to be injurious to health.

(44) Creation of offices; appointment of officials. To create such offices and provide for the appointment or election of all officers as may be necessary for the good government of the city.

Cross reference—City officers and employees generally, Title 3.

(45) Bonds of certain city officials. To designate the positions in the city administration, where not otherwise provided by the Charter, in which the incumbent shall give bond, and to fix the amount of such bond.

Cross references—City officers and employees generally, Title 3; duty of officers to give bond before entering into office, § 3.2.

(46) Consolidation, etc., of services with county, state, etc. To consolidate any of the services of the city with similar services of any authority authorized by law, county, state or other municipality or to use the service of any authority authorized by law, county, state or other municipality or to cooperate with any authority authorized by law, county, state or other municipality in the construction, establishment, use or acquisition of any services for the city and its inhabitants, upon agreement with the other authorities authorized by law or jurisdictions as to the services to be provided by each and the respective shares of the cost involved.

(47) Tourist camps, trailers, hotels, etc. To license, tax and regulate tourist camps, trailer camps, tourist homes, rest homes, hotels, inns and boardinghouses and the use and occupancy of trailers.

(48) Tourist guides. To license, tax and regulate tourist guides within the city and within one mile of the corporate limits thereof.

Cross reference—Privilege taxes generally, § 6.44.

(49) Reserved.

Editor's note—Former § 49 relating to milk repealed by Ord. No. 12677, § 2, 12-18-12.

(50) Dangerous, etc., houses and walks. To impose penalties upon the owner or owners, occupants or agents of any house, walk or sidewalk or other structures which may be considered dangerous or detrimental unless, after due notice to be fixed by ordinance, the same be removed or repaired; and, in the event the city shall at its own expense be compelled to remove or repair such property, the cost of such repairs or removal shall be and constitute a lien against said property, and the city shall also be entitled to a personal judgment against the owner or occupant thereof, and said lien may be enforced in any court of competent jurisdiction in Hamilton County.

(51) Weeds, rubbish, etc. To impose penalties upon the owner or owners, occupants or agents of any lot or parcel of land in the city for permitting to remain thereon obnoxious weeds, rubbish, grass or leaves which may be considered dangerous or detrimental to the health or safety of the citizens unless, after due notice, to be fixed by ordinance, the same be removed; and, in the event the city shall at its own expense be compelled to remove such grass, rubbish, leaves or weeds from such lot or parcel of land the cost of such removal shall be and constitute a lien against said property, and the city shall also be entitled to a personal judgment against the owner or occupant thereof, and said lien may be enforced in any court of competent jurisdiction in Hamilton County.

(52) Acts, businesses, etc., detrimental to public health, safety, etc. To define, prohibit, suppress, prevent and regulate all acts, practices, conduct, business, occupation, callings, trades, uses of property, and all other things whatsoever detrimental to the health, morals, comfort, safety, convenience or welfare of the inhabitants of the city, and to exercise general police powers under the provisions of this Act and the general law.

(53) Golf driving ranges and archeries. To license and regulate golf driving courses and archeries in said city, and to require a license from all persons operating or maintaining a golf driving course or archery of thirty dollars ($30.00) per annum for each golf driving course or archery.

(54) Agents, etc., of boat manufacturers and jobber. To license all persons maintaining an office or place of business as agent or representative of any manufacturer or representative of any manufacturer or jobber of boats, or engaged in dealing in buying or selling boats, shall be classified as boat dealers, and shall pay a privilege tax for each place of business of fifty dollars ($50.00) per annum.

Cross reference—Privilege taxes generally, § 6.44.

(55) Gasoline filling stations. To, by ordinance, regulate the construction, maintenance and operation of gasoline filling stations; to require permits for the construction, opening and reopening of filling stations; to regulate and zone the streets on which gasoline filling stations may be hereafter erected and existing filling stations reopened, and to provide for the issuance or certificates of necessity and convenience for the construction of additional filling stations, and to determine the number of filling stations that may be permitted on any street or in any block of any street, and such other regulations as may be necessary for the public health, safety and welfare, and collect inspection fees therefor.

Cross reference—Zoning generally, § 12.21.

(56) Reserved.

Editor's note—Former § 56 relating to barbershops and barber schools repealed by Ord. No. 12677, § 2, 12-18-12.

(57) Reserved.

Editor's note—Former § 57 relating to barbering repealed by Ord. No. 12677, § 2, 12-18-12.

(58) Venereal disease. To pass an ordinance to prevent the spread of venereal diseases within said city and to quarantine all persons arrested for prostitution or vagrancy found to be infected with any venereal disease arrested within said city and to provide means and methods for examination of all such persons and means and methods of treating all persons so infected.

(59) Steam boilers, etc.; regulation of steam fitters. To, by ordinance, regulate the installation of steam boilers, pressure tanks, steam and hot water heating plants, and steam pipes of any character, and to create the office of steam fitter inspector and fix the compensation thereof, and the term of office, and require permits for the installation of steam boilers, pressure tanks, steam and hot water systems or the installation of steam pipes of any character. The provisions of this Act [subsection] shall not apply to any work done in connection with any manufacturing plant or assembly plant.

(60) Reserved.

Editor's note—Former § 60 relating to schools, repealed by Ord. 10079, 9-9-94, effective 6-30-97.

(61) Waterworks. To provide the city with water by waterworks or otherwise, within or beyond the boundaries of the city.

(62) Watchmen and security guards. To regulate watchmen and security guards by night.

(63) Ferries. To regulate ferries so as not to conflict with the laws of Tennessee.

(64) Disorderly, etc., houses. To protect and suppress disorderly houses and bawdy houses.

(65) Additional general powers. To pass all ordinances not contrary to the Constitution and laws of the state necessary for the health, convenience, safety and general welfare of the inhabitants of the city, and to carry out the full intent, corporate purposes and meaning of this Act as fully as if specifically authorized and as if the powers were expressly conferred.

Cross reference—General authority of city council to pass ordinances, § 11.1.

(66) General powers. To have and exercise all powers which now or hereafter would be competent for this charter specifically to enumerate, as fully and completely as though said powers were specifically enumerated herein; and such powers as may be authorized pursuant to general state law for a municipal government to exercise including, but not limited to, the power to sue or be sued, implead or be impleaded in all courts of law and equity; and no enumeration of particular powers by this charter shall be held to be exclusive.

(Acts 1839-40, Ch. 32, § 3; Priv. Acts 1869-70, Ch. 4, § 9; Priv. Acts 1937, Ch. 28; Priv. Acts 1939, Ch. 578, § 1; Priv. Acts 1941, Ch. 535, § 2; Priv. Acts 1949, Ch. 536, § 2, Ch. 715, § 2; Priv. Acts 1969, Ch. 82, §§ 2, 5; Ord. No. 11272, §§ 1, 2, 5-2-02; Ord. No. 11305 § 1, 8-22-02; Ord. No. 12677, § 2, 12-18-12)

Sec. 2.2. Reserved.

Editor's note—Former § 2.2 relating to wards repealed by Ord. No. 12677, § 2, 12-18-12.

Sec. 2.3. Reserved.

Editor's note—Former § 2.3 relating to municipal band repealed by Ord. No. 12677, § 2, 12-18-12.

Sec. 2.4. Reserved.

Editor's note—Former § 2.4 relating to opening and closing hours of merchants repealed by Ord. No. 12677, § 2, 12-18-12.

Sec. 2.5. Parking meters.

In order to promote public safety and relieve traffic congestion on the streets of the City of Chattanooga, said city be, and is hereby, authorized and empowered to provide by ordinance for the installation, operation, maintenance, policing and supervision of parking meters or parking devices on its streets as an aid to the regulation and control of the parking of vehicles thereon, and to fix and require the payment of a fee for the privilege of parking opposite such meters or devices when they are in operation, and to determine on what streets or parts of streets in said city parking meters shall be placed, and the hours during which same shall be in operation. The City may contract for operation of parking meters and devices and for enforcement. In event there is any revenue left after paying the cost of acquiring, maintenance and enforcement of the ordinances authorized herein, such net revenue shall become a part of the general fund of the city.

(Priv. Acts 1941, Ch. 416, §§ 2, 3; Ord. No. 12677, § 2, 12-18-12)

Sec. 2.6. Lease contracts with federal government.

The charter of the City of Chattanooga, Tennessee, and all acts heretofore passed amendatory, be, and the same are hereby amended so as to authorize the city council of said city to enter into lease contracts with the United States of America for the use of any property owned by said city for the purpose of constructing armories and auxiliary buildings in which to house its military forces, said lease contracts to be for such terms and upon such conditions as the city council may determine, and for such rental, including nominal rent, as may be agreed upon by the city council and representatives of the United States of America.
(Priv. Acts 1951, Ch. 532, § 1; Ord. No. 11272, § 1, 5-2-02)

Sec. 2.7. Declaration of nuisances; abatement of same.

The City of Chattanooga shall have power to make regulations to secure the general health and safety of the inhabitants, and to prevent and remove nuisances. In order to accomplish these objects, the city council may declare, by ordinance, what constitutes nuisances, and provide for the abatement of the same, and make or cause to be made all repairs and improvements necessary for the health, safety and convenience of the inhabitants; and all expenses or outlay of said city shall be reimbursed by the owner or owners, and shall be secured by a lien upon the property upon which the expenditure is made, which lien shall be superior to any other contractual lien and may be enforced by suit in the chancery court.
(Priv. Acts 1937, Ch. 830, § 2; Ord. No. 11272, § 1, 5-2-02)

Sec. 2.8. Creation, discontinuance, etc., of offices not provided for by charter.

Said city council and mayor shall have power from time to time to create, fill, and discontinue other offices and employments than those herein prescribed, according to their judgment of the needs of the city.

When said city council shall, as now authorized by law, create any new office, the ordinance creating such office may provide that it shall be filled by appointment by the Mayor with the approval of said city council.
(Priv. Acts 1869, Ch. 4, § 6; Priv. Acts 1901, Ch. 432, § 6; Priv. Acts 1911, Ch. 10, § 21; Priv. Acts 1913, Ch. 301, § 4; Ord. No. 11272, § 1, 5-2-02)

Sec. 2.9. Authority to subscribe to stock in railroad or turnpike companies.

The city shall have power to subscribe for stock in any railroad or turnpike company, and pay for the same with its bonds or otherwise; provided, that any subscription of stock herein provided for shall, before the same shall become valid and binding, be approved by a majority of the taxpayers of the city.
(Priv. Acts 1866, Ch. 8, § 28; Ord. No. 11272, 5-2-02)

Sec. 2.10. Reserved.

Editor's note—Former § 2.10 relating to construction, enlargement, etc., of joint City-County hospitals is repealed by Ord. No. 12766, § 2, 12-18-12.

Sec. 2.11. Privilege tax on pleasure automobiles and motorcycles, taxicabs, buses, etc.

The city council of the City of Chattanooga, Tennessee, shall have power by ordinance to levy a privilege tax on automobiles for hire, taxicabs, automobile passenger buses, and require indemnity bonds in surety companies or indemnity insurance policies to be filed with the Chief Financial Officer of said city by the owner or operator of any such vehicle for the protection of the city or any person against loss by injury to person or property. The said city council shall also have authority to levy a privilege tax upon the running of automobiles for pleasure and motorcycles, not to exceed five dollars ($5.00) per annum on automobiles

and two dollars ($2.00) per annum on motorcycles. Said license shall be renewable annually, and for said license and each renewal thereof a fee fixed by ordinance not to exceed five dollars ($5.00) for automobiles and not to exceed two dollars ($2.00) for motorcycles may be charged.
(Priv. Acts 1929, Ch. 652, § 3; Ord. No. 11272, § 1, 5-2-02)

Cross reference—Privilege taxes generally, § 6.44.

Sec. 2.12. Reserved.

Editor's note—Former § 2.12 relating to off street parking repealed by Ord. No. 11306, § 1, 8-22-02.

Sec. 2.13. Reserved.

Editor's note—Former § 2.13 relating to dog licenses repealed by Ord. No. 10741, § 1(1), 8-18-98.

Sec. 2.14. Supplemental pension payments.

The city council may by ordinance provide for supplemental payments to all persons who are receiving a pension from the City of Chattanooga, and the same shall be payable from the general funds of the city. (Ord. No. 6783, § 1, 8-13-74; Ord. No. 11272, § 1, 5-2-02)

CHAPTER I. IN GENERAL

Sec. 3.1. Eligibility for office.

No person shall be eligible to any popularly elected office under City government to the extent that political activity by such person would interfere with state business prohibited by Tennessee or Federal law or otherwise result in any disqualification from taking office pursuant to Tennessee Code Annotated §§ 2-19-201 through 2-19-208 under Tennessee or Federal law. No person shall have any interest, direct or indirect, in any contract with or franchise from the city while holding any popularly elected office under the city government. But stockholders in corporations having such relations with the city, may be eligible to membership on the city council, but shall not vote on or interfere directly or indirectly, with any matters or questions affecting a contract or franchise between such company and the city, or its right or duty under the same. If, while any person is holding any popularly elected office under the city government, such person shall cease to possess any or all of the qualifications, or become subject to any of the disqualifications herein prescribed, such person's office shall thereby become immediately vacant. No person, while in arrears to the city for money collected, shall be eligible to any popularly elected office under the city government.
(Acts 1899, Ch. 216, § 7; Priv. Acts 1901, Ch. 432, § 4; Priv. Acts 1968, Ch. 476, § 1; Ord. No. 11272, § 1, 5-2-02; Ord. No. 11833, § 1, 5-23-06; Ord. No. 11876, § 1, 8-29-06; Ord. No. 11877, § 1, 8-29-06; Ord. No. 13192, § 1, 7-11-17)

Sec. 3.1.1. Employees and appointed officials required to be residents or legally qualified voters.

All employees of the city shall be residents of the State of Tennessee. This section 3.1.1 shall only apply to those employees working in general government of the city. Those employees who were hired on or before January 18, 1990, and who have lived outside the State of Tennessee continuously since said date, shall be exempted from this section 3.1.1.
(Ord. No. 11272, § 1, 5-2-02; Ord. No. 13007, § 1, 12-15-15; Ord. No. 14168, § 1, 11-12-24)

Sec. 3.2. Bonds and oaths of officers.

All officers of the city, before assuming the duties of office, shall enter into bond, as now required by law, and take and subscribe an oath that they possess the qualifications and are free from the disqualifications prescribed by this Act [section 3.1 of this Charter] and to faithfully discharge the duties of their respective offices, and such other oath or affirmation as may be now or hereafter prescribed by ordinance.
(Priv. Acts 1901, Ch. 432, § 5)

Cross reference—Authority to establish bond of officers, § 2.1(45).

Sec. 3.3. Officers to serve until successors are elected and qualified.

All city officers shall serve until their successors are appointed, or elected and qualified.
(Priv. Acts 1901, Ch. 432, § 4)

Sec. 3.4. Reserved.

Editor's note—Former § 3.4 relating to warrants repealed by Ord. No. 11272, § 1, 5-2-02.

Sec. 3.5. Military leave.

Any employee of the City of Chattanooga who shall enter the military or naval service of the United States Government during the time designated by the president of the United States as a period of emergency shall be given a leave of absence for the duration of said military or naval service, and upon the

termination of said service the mayor, if said position exists. If said position has been abolished, he shall be given a position of equal rank and at a salary of not less than that which he received when given said leave of absence for military or naval service during such emergency. And said employee shall retain all rights and benefits which he had under any civil service or tenure law of said city, and shall retain all rights and benefits which he had under any insurance and pension law of the city at the time he entered said service of the United States Government, and shall be given credit for the years spent in the military or naval service in computing the time served for pension purposes.
(Priv. Acts 1941, Ch. 492, § 1; Ord. No. 11272, § 1, 5-2-02)

Sec. 3.6. Minimum salaries of City Judges.

The annual salaries for the city judges, respectively, shall each be not less than the annual salary paid to any of the city council, which salaries shall be payable to each of them in equal semimonthly installments.
(Priv. Acts 1965, Ch. 237, § 2; Priv. Acts 1970, Ch. 343, § 2; Ord. No. 11272, § 1, 5-2-02)

Editor's note—Priv. Acts 1970, Ch. 343, § 2, amended the acts codified as § 3.6, by substituting "salaries" in lieu of "salary" and "judges" in lieu of "judge."

Cross references—City judge generally, § 4.20 et seq.; salary of city judges to be paid semi-monthly, § 4.23.

Secs. 3.7—3.17. Reserved.

CHAPTER II. RECALL

Sec. 3.18. Recall authorized; procedure.

The Mayor or a City Judge elected at large may be recalled pursuant to the provisions of Tennessee Code Annotated Section 2-5-151. A member of the City Council elected by district may be recalled pursuant to the provisions of Tennessee Code Annotated Section 2-5-151 provided a recall petition instituted pursuant to the provisions of this statute is signed by fifteen (15%) of the registered voters in that district. The successor of any officer so removed shall hold office during the unexpired term of his or her predecessor.
(Priv. Acts 1911, Ch. 10, § 25; Priv. Acts 1911, Ch. 126, § 3; Priv. Acts 1913, Ch. 301, § 8; Priv. Acts 1917, Ch. 432, § 2; Priv. Acts 1939, Ch. 573, § 1; Ord. No. 8936, § 1(2), 4-26-88; Ord. No. 9435, § 1(2), 8-21-90; Ord. No. 12631, § 1, 7-24-12)

Editor's note—Sections 8-47-101 through 8-47-126 of the Tennessee Code Annotated provide an alternate procedure for the removal of public officers.

CHAPTER III. PENSIONS AND DEATH BENEFITS*

ARTICLE 1. GENERALLY

Secs. 3.26—3.34. Reserved.

***Cross reference—**Pensions for policemen and firemen, § 13.63 et seq.

ARTICLE 2. GENERAL PENSION PLAN

Sec. 3.35. General Pension Plan.

The General Pension Plan as established by the Private Acts of 1965, Chapter 254, as amended by private acts and Home Rule referenda, shall be transferred from the Charter compilation to the City Code compilation, but the vested rights of any participant or beneficiary shall not thereby be affected. No current provision of the General Pension Plan may be amended hereafter except pursuant to the provisions of section 3.36 below.
(Priv. Acts 1965, Ch. 254; Priv. Acts 1967, Ch. 169; Priv. Acts 1968, Ch. 430; Priv. Acts 1971, Ch. 137; Priv. Acts 1972, Ch. 402; Ord. No. 7408, 8-22-78; Ord. No. 8688, 8-19-86; Ord. No. 9766, 8-11-92; Ord. No. 10084, 8-16-94; Ord. No. 10463, 8-20-96; Ord. No. 10739, 8-18-98; Ord. No. 11011, 5-9-00; Ord. No. 11272, 4-30-02; Ord. No. 12677, 12-18-12)

Sec. 3.36. Amendments by ordinance.

The City Council of the City of Chattanooga, in its discretion, may upon recommendation of the Board of Trustees of the General Pension Plan, upon advice by the Mayor, and upon receipt of an actuarial report as to the costs and actuarial soundness of such changes, may amend by ordinance passed upon two separate meetings the provisions of the General Pension Plan providing such amendments are consistent with sound actuarial principles, methods and assumptions and further provided that such amendments shall not decrease any vested financial benefits accrued by any participant or beneficiary.
(Ord. No. 11101, § 1(12), 5-9-00; Ord. No. 12677, 12-18-12)

Secs. 3.37—3-60. Reserved.

CHAPTER IV. CITY ATTORNEY

Sec. 3.61. Qualifications.

The city attorney shall be a practicing attorney of at least one year's standing in Chattanooga.
(Priv. Acts 1901, Ch. 432, § 82; Priv. Acts 1911, Ch. 126, §§ 1, 2; Priv. Acts 1919, Ch. 76; Priv. Acts 1968, Ch. 468, § 1; Ord. No. 11272, § 1, 5-2-02)

Sec. 3.62. Appointment by mayor and council.

The mayor and the council shall each have the right to retain independent separate attorneys, from time-to-time. No later than the date the mayor appoints department heads, the mayor and council shall jointly appoint a city attorney for a term concurrent with the term of the mayor, and until he is discharged or his successor is appointed and qualified. The city attorney may be removed from office at any time by the affirmative vote of two-thirds of the entire membership of the city council, and the concurrence of the mayor. Any vacancy occurring in said office shall be filled by joint appointment of the mayor and the council.
(Ord. No. 9439, § 1(2), 8-2-90; Ord. No. 11272, § 1, 5-2-02)

Sec. 3.63. Duties generally.

It shall be the duty of the city attorney to give legal advice to the mayor and city council, and all other officers and boards of the city in the discharge of their official duties. If required, he shall give his opinions in writing, and they shall be preserved for reference. It shall be his duty to prosecute or defend all suits for or against the city and to attend to such other legal business as may be prescribed by the mayor and/or city council. It shall also be his duty, either in person or by an assistant, to appear and prosecute cases in the city

court when called upon by the mayor or any council member or the city judge. He shall prepare all contracts, bonds and instruments in writing when called upon by the mayor or any council member. He shall give his first time and attention to the city's legal business.
(Priv. Acts 1935, Ch. 687, § 2; Ord. No. 11272, § 1, 5-2-02)

Sec. 3.64. Reserved.
(Ord. No. 10745, § 1(2), 8-18-98)

Sec. 3.65. Reserved.
(Ord. No. 10745, § 1(1), 8-18-98)

Secs. 3.66—3.75. Reserved.

CHAPTER V. SUBORDINATE OFFICERS, EMPLOYEES AND LABORERS

ARTICLE 1. GENERALLY

Sec. 3.76. Reserved.
(Ord. No. 10745, § 1(1), 8-18-98)

Sec. 3.77. Reserved.
(Ord. No. 10745, § 1(1), 8-18-98)

Sec. 3.78. Reserved.
(Ord. No. 11018, § 1(1), 5-16-00)

Sec. 3.79. Dismissal, suspension or demotion and appeal therefrom.

All officers, agents and employees whose employment and employment rights are not otherwise specifically governed in this Charter, whether the same be under the administrative and executive branch, or under the legislative or judicial branches, shall be subject to dismissal, suspension or demotion by the authority which appointed them, but any such officer, agent, or employee so dismissed, suspended or demoted shall have the right of appeal of any disciplinary action to the extent provided by Ordinance.

The city council is authorized to establish administrative procedures to provide a fair and impartial method to hear such appeals. The administrative body or judge established by these administrative procedures shall have the right to determine whether such dismissal, suspension or demotion shall be effective, the employee should be reinstated or to otherwise modify the order of dismissal, suspension or demotion. As used herein, the term "hearing body or judge" shall mean the person or persons duly established by Ordinance of the City Council to conduct appeal hearings.
(Ord. No. 12424, § 1, 8-17-10)

Secs. 3.80—3.86. Reserved.

Editor's note—Former Sections 3.79 through 3.86 were repealed by Ord. No. 9437, § 1(2), 8-21-90.

Secs. 3.87—3.89. Reserved.

Editor's note—Former Sections 3.87 through 3.89 were repealed by Ord. No. 10745, § 1(1), 8-18-98.

Secs. 3.90—3.94. Reserved.

ARTICLE 2. CITY FINANCE OFFICER

Sec. 3.95. Qualifications.

No person shall be eligible to the office of finance officer if he shall hold any civil office under the federal, state or county government.
(Priv. Acts 1901, Ch. 432, § 4; Priv. Acts 1968, Ch. 476, § 1; Ord. No. 10742, § 1(1), 8-18-98)

Sec. 3.96. Duties generally.

The City Finance Officer of the City of Chattanooga shall be the general accounting and chief fiscal officer of the City. Additionally the City Finance Officer shall:

1. Maintain accounting and financial reporting records in accordance with standards and procedures established by the State of Tennessee.
2. Ensure that City funds are expended as appropriated by the City Council and that no expenditures are made in excess of the amount previously appropriated.
3. Perform such other duties as may be imposed upon him by other provisions of the Charter or by ordinance of the City.
4. Maintain and be the custodian of the City's official records, except when another custodian for specific records is designated by Charter or ordinance.

(Priv. Acts 1953, Ch. 105, § 2; Ord. No. 10742, § 1(2), 8-18-98)

Secs. 3.97—3.101. Reserved.

ARTICLE 3. CITY TREASURER

Sec. 3.102. Qualifications.

No person shall be eligible to the office of treasurer if he shall hold any civil office under the federal, state or county government.
(Priv. Acts 1901, Ch. 432, § 4; Priv. Acts 1968, Ch. 476, § 1; Ord. No. 11272, § 1, 5-2-02)

Cross reference—Residence and voting requirements, § 3.1.1.

Sec. 3.103. To serve as tax collector; duties generally.

The city treasurer shall act as tax collector. He shall collect all ad valorem taxes, privilege and other licenses. It shall be the duty of the city treasurer to receive and safely keep all taxes, privilege or other moneys due the city and receipt for the same; to keep a strict account of the same, and to pay same out on warrants drawn by the City Finance Officer. For all moneys paid into the treasury the treasurer shall execute duplicate receipts-one for the party paying and one for the city finance officer. His books shall at all times be open to the inspection of the mayor, city finance officer or any member of the city council. He shall report at the close of business each day to the city finance officer the balance in the treasury. He shall perform such other duties as may be imposed upon him by the provisions of the charter or ordinances of the city.

Receipts for the payment of taxes shall be recorded in a stub book kept for that purpose, filed with the City Finance Officer.

The city treasurer shall make a report of the condition of the treasury, which shall be addressed to the Mayor and City Council of the City of Chattanooga, and be submitted to them at the last regular meeting of said board in December of each year. Said report shall be verified by the treasurer, under oath, and shall

show: 1st. The amount of money received for taxes upon lands and town lots; 2nd. The amount of money received for license and special taxes of all kinds; 3rd. The amount of money received from other sources; 4th. The total receipts; 5th. Items of expenditures; 6th. Aggregate expenditures; 7th. Balance on hand; 8th. Amount due the city from all sources. The report of the treasurer shall be published six times in one of the city papers. Said treasurer shall turn over to his successor in office, or when such successor shall be elected and qualified, all books, papers, moneys, creditors or other property or evidence of indebtedness, pertaining to his said office.
(Priv. Acts 1866-67, Ch. 8, § 21; Priv. Acts 1901, Ch. 432, § 71; Priv. Acts 1901, Ch. 495, § 4; Priv. Acts 1911, Ch. 10, § 13; Priv. Acts 1919, Ch. 548; Priv. Acts 1953, Ch. 105, § 3; Ord. No. 11272, § 1, 5-2-02)

Cross reference—City taxes generally, see § 6.15 et seq.

Sec. 3.104. Oath and bond.

Before entering upon his duties, the city treasurer shall take and subscribe an oath faithfully, honestly and impartially to discharge the duties of said office, and shall give bond with good and sufficient sureties, approved by the City Council, payable to the City of Chattanooga, conditioned upon the faithful, honest and lawful discharge of his office; and when said bond has been accepted by the board, it, together with the oath herein prescribed, shall be filed by the city clerk. The bond of the treasurer shall be for the sum of twenty thousand dollars ($20,000.00).
(Priv. Acts 1866, Ch. 8, § 19; Priv. Acts 1911, Ch. 10, § 13; Ord. No. 11272, § 1, 5-2-02)

Sec. 3.105. Assistant city treasurer to sign checks when treasurer disabled or absent.

The charter of the City of Chattanooga, Tennessee, and all acts amendatory thereof, be, and the same are, hereby amended so as to authorize the assistant city treasurer to sign checks for and on behalf of the city in the event the city treasurer is absent or disabled.
(Priv. Acts 1945, Ch. 284, § 1)

Secs. 3.106—3.110. Reserved.

ARTICLE 4. OFFICE OF INTERNAL AUDIT, AUDIT COMMITTEE, AND CITY AUDITOR

Sec. 3.111. Establishment.

(A) There is hereby established the Office of Internal Audit of the City of Chattanooga. The Office of Internal Audit shall be independent and separate from any other agency, board or department of the City of Chattanooga and shall report to the Audit Committee, Mayor, Council and the citizens.

(B) The Audit Committee shall consist of five voting members. The members shall be residents of the City of Chattanooga. At least four of the members shall have experience in auditing and shall be Certified Public Accountants. The members shall be recommended two each by the local chapters of the Tennessee Society of Certified Public Accountants and the Institute of Internal Auditors, and one by the local chapter of the Association of Certified Fraud Examiners. Should any of these organizations cease to exist, the Council may name a replacement organization or that organization's recommendation may be made by the Council. The recommendations shall be approved by a majority vote of the current members of the Audit Committee. The members shall serve five year staggered terms. Three members shall constitute a quorum. Members of the current Audit Committee shall serve as if appointed under this section. Members shall serve until their successors are approved. No member shall be an employee of the City or any City board or agency. No member shall have a direct or indirect interest in any contract with the City during their term

of service, nor for one year after their term of service. Nor shall any member, member of their immediate family, or regular member of their household, be employed by the City or any agency that obtains more than ten percent of its annual funding from the City. The Audit Committee shall meet at least quarterly.

(C) The Office of Internal Audit shall be provided a separate budget to carry out the responsibilities and functions established in this section. Budget reductions shall only be made when proportional to reductions in the City's budget for ordinary expenses.

(D) The Chief Audit Executive shall have the title City Auditor. The City Auditor shall establish the internal organization of the office and shall organize it as deemed necessary to perform the functions, powers, and duties of the office. The City Auditor shall have the power to appoint, employ, and remove staff following the same administrative processes established for City personnel practices. The City Auditor shall be a resident of the City of Chattanooga.

(E) The existing functions, personnel, funds, equipment, facilities and records of the Internal Audit Division established as an executive office of the Mayor shall be transferred to the Office of Internal Audit as established herein.
(Ord. No. 12566, § 1, 1-24-12)

Sec. 3.112. Appointment and Removal of City Auditor.

The City Auditor shall be appointed by the Audit Committee and approved by the Council. If a vacancy occurs in the City Auditor position, a replacement shall be appointed within six months. The City Auditor shall receive a salary set by the Audit Committee using established market data. The City Auditor may be removed from office for just cause by the affirmation vote of two-thirds of the entire membership of the Audit Committee and approval by the Council. The current Director of Internal Audit on August 11, 2011 shall serve as City Auditor as if appointed under the terms of this section.
(Ord. No. 12566, § 1, Item 1, 1-24-12)

Sec. 3.113. Qualifications of City Auditor.

The City Auditor shall be a Certified Public Accountant knowledgeable in governmental auditing, public administration, and government financial and fiscal practices.
(Ord. No. 12566, § 1, 1-24-12)

Sec. 3.114. Scope.

The Office of Internal Audit shall have authority to conduct audits, special projects, inspections, investigations, or audit-related functions of all departments, offices, boards, activities and agencies of the City of Chattanooga or chartered under the City of Chattanooga. The Office of Internal Audit shall conduct audits in accordance with government auditing standards promulgated by the Comptroller General of the United States. The City Auditor shall not be denied independent legal counsel. The Office of Internal Audit shall assert no direct responsibility or authority over City activities reviewed. Its review and appraisal of activities does not relieve other persons in the City of any responsibilities assigned to those activities.
(Ord. No. 12566, § 1, 1-24-12)

Sec. 3.115. Access to Employees, Records, and Property.

(A) All officers and employees of the City of Chattanooga, its agencies or any entity chartered under the City of Chattanooga shall cooperate with and furnish the Office of Internal Audit unrestricted access to employees and information regarding powers, duties, activities, organization, assets, financial transactions, contracts, and methods of business, as well as all facilities, property, and records including automated data and digital information.

(B) All contracts with outside contractors and subcontractors shall provide for the Office of Internal Audit to have access to all financial and performance related records, property and equipment related to City of Chattanooga contracts.
(Ord. No. 12566, § 1, 1-24-12)

Sec. 3.116. Irregularities.

The Office of Internal Audit shall be informed of any special investigation, fraud, theft, or other suspected cases of misappropriation occurring within the City government.
(Ord. No. 12566, § 1, 1-24-12)

Sec. 3.117. Audit Committee Responsibilities.

(A) The Audit Committee shall review the annual audit plan provided by the City Auditor and recommend additional audits it deems advisable. The Audit Committee shall monitor follow-up reports on audit findings and recommendations and may require any manager who has not successfully completed corrective actions to appear before the committee. Any employee of the City shall appear before the Audit Committee when summoned.

(B) The Audit Committee shall meet with the external auditor at least three times per year: During the planning stage, during the field work stage, and after completion of the audit.

(C) The Audit Committee shall provide for and oversee the annual external audit. The Audit Committee shall administer and manage a request for proposal process to select the external auditor.

(D) The Audit Committee should ensure the continuing independence of the external auditor and review the external auditor's peer review report.

(E) The Audit Committee shall review the Office of Internal Audit's peer review report that shall be conducted as required by government auditing standards referenced in Section 3.114.

(F) The Audit Committee shall report to the Council and Mayor on problems or problem areas as deemed appropriate.

(G) The Audit Committee shall maintain and have oversight of the City's fraud, waste and abuse prevention program.

(H) The City Auditor shall provide staff resources as needed by the Audit Committee to fulfill its responsibilities.
(Ord. No. 12566, § 1, 1-24-12)

Sec. 3.118. Orientation.

The City Auditor shall develop and provide an orientation training program for all newly elected City officials. The training shall be provided within 60 days of the date such officials take office. All newly elected City officials shall attend. The training shall include, but not be limited to, an overview of the City's administrative code and relevant sections of state law.
(Ord. No. 12566, § 1, 1-24-12)

Title 4

COURTS, FINES AND IMPRISONMENTS*

Chapter I. In General

Sec. 4.1. Jurisdiction and appeals from city court for ordinance violations; contempt.
Sec. 4.2. Court costs; litigation tax not required.
Sec. 4.3. Judge and clerk of city court may administer oaths.
Secs. 4.4—4.19. Reserved.

Chapter II. City Judge

Sec. 4.20. Qualifications.
Sec. 4.21. Vacancies in office.
Sec. 4.22. Oath of office; bond.
Sec. 4.23. Salaries to be paid semi-monthly.
Sec. 4.24. Special city judge—Election; to act in absence of city judge.
Sec. 4.25. Same—Powers; compensation.
Sec. 4.26. Same—Clerk to enter on minutes call and result of election, etc.
Sec. 4.27. Divisions of city court; presiding judge of first division.
Sec. 4.28. Judge of second division; powers, jurisdiction, compensation.
Sec. 4.29. Reserved.
Sec. 4.30. Emergency special judges.
Secs. 4.31—4.36. Reserved.

Chapter III. Clerk of City Court

Sec. 4.37. Reserved.
Sec. 4.38. Clerk.
Sec. 4.39. Keeping of minutes and dockets.
Sec. 4.40. Duties pertaining to functioning of court.
Secs. 4.41—4.49. Reserved.

Chapter IV. Fines, Penalties and Forfeitures

Sec. 4.50. Maximum fine for violation of ordinance.
Sec. 4.51. Suits for and recovery of fines, penalties and forfeitures.
Sec. 4.52. Deductions from sentence of city prisoners for good conduct.

***Cross reference—**Election of city judge, Title 5.

CHAPTER I. IN GENERAL*

Sec. 4.1. Jurisdiction and appeals from city court for ordinance violations; contempt.

The city court shall have original and exclusive jurisdiction of all violations of municipal ordinances. In all city cases in which the fine imposed does not exceed ten dollars ($10.00), the judgment of the city court shall be final, and no appeal shall be had therefrom. In all other cases, an appeal may be taken to the circuit court of Hamilton Comity, as now provided by law.

The city court and the judge thereof shall have and exercise the same jurisdiction in cases of contempt of court as is now provided by statute.
(Ord. No. 13344, § 2, 8-7-18)

Sec. 4.2. Court costs; litigation tax not required.

In all cases tried in the city court of Chattanooga for the violation of ordinances of said city, fees shall be taxed by the clerk of the city court in an amount to be set by state law or city ordinance for all matters and services.

Such part of said fees as may accrue in each case shall be taxed by the clerk as a part of the cost and collected from the defendant in addition to the fine imposed by the court. Court costs shall take precedence over fines for partial payments by defendants.

The clerk of the city court shall remit collections to the City Treasury daily, but in no event later than three (3) business days after collection. A report providing a detailed description of the collections by type shall be submitted with said collections as support and proof of completeness of all collections received.

The city judge shall not in cases involving violations of the parking ordinance impose court costs in fining a violator, provided that in the event the violator of the ordinance shall willfully fail to appear to answer a parking ticket, the costs provided in this section shall be taxed as costs against such violator.

The City Council shall establish by ordinance a fee to be added as and in the nature of court cost to the cost incurred in the city court on all forfeitures of fines or monies for or on conviction for violation of any city ordinances. Said increase in court costs for the city court shall be collected by the clerk of said court and deposited in the City Treasury. The City Finance Officer shall remit said funds to the trustees of the firemen's and policemen's insurance and pension fund, together with all other monies properly collected for credit to said fund as set forth herein.
(Ord. No. 13344, § 2, 8-7-18)

Sec. 4.3. Judge and clerk of city court may administer oaths.

Both the judge and clerk of the city court shall be authorized to administer oaths and affirmations.
(Ord. No. 13344, § 2, 8-7-18)

Secs. 4.4—4.19. Reserved.

***Editor's note—**Ord. No. 1334, § 1, adopted Aug. 7, 2018, repealed the former Ch. 1, §§ 4.1—4.9, and enacted a new Ch. 1 as set out herein. The former Ch. 1 pertained to similar subject matter and derived from Priv. Acts 1901, Ch. 432, §§ 77, 78, 81; Priv. Acts 1901, Ch. 495, § 5; Priv. Acts 1915, Ch. 221; Priv. Acts 1929, Ch. 652, § 2; Priv. Acts 1937, Ch. 868, §§ 1—3; Priv. Acts 1945, Ch. 425, §§ 2—6; Priv. Acts 1969, Ch. 165, § 1; Ord. No. 10742, § 1(1), 8-18-98; Ord. No. 11272, § 1, 5-2-02; Ord. No. 11308, § 1, 8-22-02; Ord. No. 11310, § 1, 8-22-02.

CHAPTER II. CITY JUDGE*

Sec. 4.20. Qualifications.

No person shall be eligible to the office of city judge unless he shall have been for at least one year next before his election a citizen of Tennessee and a resident of said city.
(Priv. Acts 1911, Ch. 10, §§ 4, 22; Priv. Acts 1919, Ch. 76)

Sec. 4.21. Vacancies in office.

Any vacancy occurring in the office of the city judge shall be filled by appointment of the mayor, concurred in by the city council, which appointment shall be valid only until the next primary or general election or referendum which is held in the city after the vacancy occurs.
(Priv. Acts 1911, Ch. 10, § 22; Ord. No. 11010, § 1, 5-9-00)

Sec. 4.22. Oath of office; bond.

The city judge shall take an oath of office and enter into a bond, with good security, to be approved by the City Council, in the sum of five thousand dollars ($5,000.00), payable to the City of Chattanooga, and conditioned for the faithful discharge of the duties of his office, and in addition thereto, shall give bond, as required by law, as a justice of the peace, to account for fines and forfeitures due to the State of Tennessee.
(Priv. Acts 1868, Ch. 45, § 15; Priv. Acts 1911, Ch. 10, § 13; Ord. No. 11272, § 1, 5-2-02)

Sec. 4.23. Salaries to be paid semi-monthly.

The annual salaries so fixed for all such city officials shall be payable in equal semi-monthly installments.
(Priv. Acts 1949, Ch. 627, § 3; Priv. Acts 1970, Ch. 343, § 3)

Editor's note—Prior to the enactment of Private Acts 1970, Ch. 343, § 3, § 4.23 provided: "The salary of the city judge shall be payable in monthly installments."

Sec. 4.24. Special city judge—Election; to act in absence of city judge.

If for any reason the judge of the city court should fail to attend any daily session of said court, it shall be the duty of the clerk of said court to open court and hold an election, to be participated in by the attorneys present for the selection of a special judge to preside during the absence of the regular judge. Such election shall be governed by the same rules as now prevail for the election of special judges in the circuit and criminal courts of the state.
(Priv. Acts 1917, Ch. 713)

Sec. 4.25. Same—Powers; compensation.

Such special judge shall take the same oath and be clothed with the same powers pro tempore, as the regular judge. If he shall serve for a longer period than five (5) days he shall be paid such compensation as the City Council by ordinance may allow, not exceeding the salary for the same time as the regular judge, and the ordinance shall also provide how much, if any, of the compensation shall be deducted from the salary of the regular judge.
(Priv. Acts 1901, Ch. 432, § 78; Priv. Acts 1911, Ch. 10, § 13; Ord. No. 11272, § 1, 5-2-02)

***Cross reference—**Minimum salary of city judges, § 3.6.

Sec. 4.26. Same—Clerk to enter on minutes call and result of election, etc.

It shall be the duty of the clerk to enter upon his minutes the call and result of such election and the administering of the oath of office by said clerk to such special judge.
(Priv. Acts 1917, Ch. 713)

Sec. 4.27. Divisions of city court; presiding judge of first division.

The city court is hereby divided into two (2) divisions, and a first division and a second division are hereby created. The present city judge shall preside over the first division of the city court.
(Priv. Acts 1969, Ch. 102, § 2)

Sec. 4.28. Judge of second division; powers, jurisdiction, compensation.

The judge of the second division shall possess the same powers and jurisdictions as are now possessed by the city court and the city judge, and shall receive such compensation as the City Council shall provide by ordinance.
(Priv. Acts 1969, Ch. 102, § 3; Ord. No. 11272, § 1, 5-2-02)

Sec. 4.29. Reserved.
(Ord. No. 11014, § 1, 5-9-00)

Sec. 4.30. Emergency special judges.

The mayor is hereby authorized and empowered to appoint emergency special judges of the city court during any period of emergency proclaimed by the mayor or any other state or municipal official authorized to proclaim a state of emergency in the city. Such emergency special judges shall possess all the judicial power and jurisdiction now conferred on the city court or city judge; may hold court sessions at such place or places as the judge of the first division may designate, either at the city courtroom or elsewhere, as the exigencies of the situation may demand; and the authority of such emergency special judges shall cease at the termination of the state of emergency.
(Priv. Acts 1969, Ch. 102, § 7; Priv. Acts 1969, Ch. 180, § 3)

Secs. 4.31—4.36. Reserved.

CHAPTER III. CLERK OF CITY COURT

Sec. 4.37. Reserved.
(Ord. No. 11018, § 1(1), 5-16-00)

Sec. 4.38. Clerk.

The mayor shall appoint the city court clerk at the time (s)he appoints all other department heads, subject to confirmation by a majority vote of the entire membership of the council. The term of the clerk shall be concurrent with that of the mayor and until the clerk's successor is appointed and qualified. The mayor may remove the clerk at any time with the approval of a majority vote of the entire membership of the council.
(Priv. Acts 1901, Ch. 432, § 76; Ord. No. 10742, § 1(1), 8-18-98; Ord. No. 11018, § 1(1), 5-16-00)

Sec. 4.39. Keeping of minutes and dockets.

The clerk of said court shall keep the minutes of the court in the same manner that the minutes of the circuit courts of said state are required by law to be kept. He shall also prepare for each session of the court a docket of all cases not previously disposed of.
(Priv. Acts 1901, Ch. 432, § 80)

Sec. 4.40. Duties pertaining to functioning of court.

The clerk of the city court is hereby authorized to issue all writs and processes necessary to the functioning of said court; to administer oaths and to take acknowledgments; and to accept appearances, waivers and pleas of guilty to citations issued for traffic violations.
(Priv. Acts 1969, Ch. 102, § 5)

Secs. 4.41—4.49. Reserved.

CHAPTER IV. FINES, PENALTIES AND FORFEITURES

Sec. 4.50. Maximum fine for violation of ordinance.

The City Council shall have power by ordinance (a) to provide for fines, forfeitures and penalties for the breach of any ordinance of the city and for the enforcement, recovery and appropriation of the same, and (b) to provide for confinement in a workhouse for failures to pay any fine.
(Priv. Acts 1901, Ch. 432, § 11; Priv. Acts 1911, Ch. 10, § 13; Priv. Acts 1969, Ch. 82, § 2; Ord. No. 11272, § 1, 5-2-02; Ord. No. 11305, § 1, 8-22-02)

Editor's note—Prior to the enactment of Priv. Acts 1969, Ch. 82, § 2, § 4.50 provided: "The board of commissioners shall have power by ordinance to impose fines not to exceed fifty dollars ($50.00) for the violation of any ordinance."

Sec. 4.51. Suits for and recovery of fines, penalties and forfeitures.

All fines, penalties or forfeitures imposed by the bylaws and ordinances of said corporation, shall be sued for and recovered as other moneys are under the existing laws of the state, by the City Council of said corporation, and for the use of said town [city].
(Acts 1839, Ch. 32, § 5; Priv. Acts 1911, Ch. 10, § 13; Ord. No. 11272, § 1, 5-2-02)

Sec. 4.52. Deductions from sentence of city prisoners for good conduct.

The City Council may, for good conduct, authorize deductions from the time of city prisoners under its control.
(Priv. Acts 1901, Ch. 432, § 48; Priv. Acts 1911, Ch. 10, § 13; Ord. No. 11272, § 1, 5-2-02)

Sec. 5.52. Bribery.

***Cross references—**City court generally, Title 4; mayor and city council generally, Title 8; recall of elective officers, § 3.18 et seq.; initiative and referendum, § 11.24 et seq.

CHAPTER I. IN GENERAL

Sec. 5.1. Which district voters to vote in.

The voters shall vote by ballot, and only in the districts in which they may have resided thirty (30) days next preceding the election. Only persons who are residents of the City of Chattanooga shall be eligible to vote in City elections.
(Acts 1889, Ch. 29, § 2; Ord. No. 11272, § 1, 5-2-02; Ord. No. 12677, 12-18-12)

Sec. 5.2. Primary elections—Required.

Candidates to be voted for in all municipal elections at which the mayor and council members and city judges are to be elected under the provisions of this Title shall be nominated by a primary election to be held by the commissioners of election at Hamilton County, Tennessee, of the legally qualified voters of said city at large, and no other names shall be placed upon the official ballot or be voted for at such regular election except those selected in the manner hereinafter prescribed.
(Priv. Acts 1911, Ch. 10, § 5; Priv. Acts 1911, Ch. 126, § 2; Ord. No. 11272, § 1, 5-2-02)

CHAPTER II. MAYOR AND COUNCIL ELECTIONS

Sec. 5.3. Same—When held; hours polls open.

Elections for Mayor and City Council members shall be held on the first Tuesday in March, 1993, and every four (4) years thereafter. The Mayor and each City Council member shall be elected by a majority of the votes cast for the office he or she seeks. If no candidate for Mayor or no candidate for one or more City Council seats attains a majority in the March elections, a run-off election shall be held on the second Tuesday in April. The run-off election shall be held between the two candidates in each such contest who received the highest number of votes. Those candidates elected either in the first election in March or in the run-off election in April shall file a bond, take the oath of office and assume their respective duties on the first Monday after the second Tuesday in April following the initial March elections, each to serve until the first Monday after the second Tuesday in April, 1997, or until a successor is elected and qualified. A Mayor and all City Council members shall be elected to four (4) year terms of office in the same manner thereafter.

Said primary election shall be held, as far as possible, at the voting places in the various districts, and the polls shall be opened at 9:00 o'clock a.m. and closed at 7:00 o'clock p.m.
(Priv. Acts 1911, Ch. 10, § 5; Priv. Acts 1951, Ch. 327, § 1; Ord. No. 11272, § 1, 5-2-02; Ord. No. 12677, 12-18-12)

Sec. 5.4. Same—Supplemental registration.

The primary elections herein provided for shall be deemed elections within the meaning of the provisions of the election laws, requiring a supplemental registration preceding each election, so that there shall be such supplemental registration before each primary election and again before each regular election; and registration as now provided by law, shall be a prerequisite to voting in either primary or other elections under this Act.
(Priv. Acts 1911, Ch. 10, § 5)

Sec. 5.5. Same—Candidates to file petitions.

Any person desiring to become a candidate for mayor or city council member shall, at least thirty (30) days prior to said primary election, file with said board of election commissioners and over his own signature a statement of his candidacy; that he has the qualifications prescribed by this Act, and that he requests that

his name be printed upon the official primary ballot and at the same time he shall file with said board of election commissioners the petition of at least twenty-five (25) qualified voters of said city requesting such candidacy. Each petition shall be verified by one or more persons as to the qualifications and residence, with street number of each of the persons so signing the said petition.
(Priv. Acts 1911, Ch. 10, § 6; Priv. Acts 1911, Ch. 126, § 2; Priv. Acts 1939, Ch. 85, § 1; Ord. No. 11272, § 1, 5-2-02)

Sec. 5.6. Same—Publication of names of candidates; distribution of ballots, etc.

Upon the expiration of the time of filing the statements and petitions for candidates, the said board of election commissioners shall cause to be published once a week for three (3) consecutive weeks in one or more daily newspapers published in the city the names of the persons that will appear upon the primary ballots for mayor and city council, respectively, and the said board of election commissioners shall thereupon cause the primary ballots to be printed and distributed, the primary held, the vote canvassed, and certified as now required by law in cases of regular municipal elections.
(Priv. Acts 1911, Ch. 10, § 7; Priv. Acts 1911, Ch. 126, § 2; Priv. Acts 1915, Ch. 398, § 1; Priv. Acts 1939, Ch. 85, § 2; Priv. Acts 1957, Ch. 73, § 5; Ord. No. 11272, 5-2-02)

Sec. 5.7. Reserved.
(Ord. No. 11272, 5-2-02)

Sec. 5.8. Reserved.
(Ord. No. 11272, 5-2-02)

Sec. 5.9. Same—Certification of names of two candidates receiving highest vote for each administrative post.

In each city primary election hereafter held, the board of election commissioners shall certify in writing to the city finance officer the names of the two (2) candidates for each administrative post receiving the largest number of votes therefor, or such candidate, if less than two (2).
(Priv. Acts 1957, Ch. 73, § 5; Ord. No. 10742, § 1(1), 8-18-98)

Sec. 5.10. Same—Persons receiving majority vote in primary deemed elected.

In each city primary election hereafter held if any candidate for mayor, city judge or city council member shall receive a majority of the votes cast for all candidates for the office or administrative post for which (a) he was a candidate,(b) he shall be declared elected, and given a certificate of election, and his name shall not be placed on the ballot in the regular election.

If, under the provisions of this section, said primary election shall result in the election of candidates to fill all of the offices to be filled, no further election shall be held, and the term of office of all officers elected as the result of said primary election shall begin at the time it would have begun if they had been elected at the regular or second election provided for in the Charter of the City of Chattanooga.
(Priv. Acts 1957, Ch. 73, § 6; Priv. Acts 1959, Ch. 13, § 1; Ord. No. 11272, 5-2-02)

Sec. 5.11. Same—Inspectors at voting places.

Each of the candidates to be voted for in said primary shall, upon conferring that authority in writing, have, from the opening of the polls until the votes shall have been counted and certified by the primary officers, an inspector at each voting place to watch the primary election.
(Priv. Acts 1911, Ch. 10, § 8)

Sec. 5.12. Same—Expense of primary election.

The said board of election commissioners shall also certify to the City of Chattanooga for payment such expense as shall have been properly incurred in holding said primary election, and said amount of expense shall be a charge against said city, and shall be paid by it in like manner as other miscellaneous expenses.
(Priv. Acts 1911, Ch. 10, § 7)

Sec. 5.13. Purpose of regular election.

Any regular election hereafter shall be held for the purpose of filling such offices and not otherwise filled as the result of the primary and in accordance with the provisions of section 6 of this act [section 5.10 hereof].
(Priv. Acts 1957, Ch. 73, § 7; Ord. No. 11272, 5-2-02)

Sec. 5.13.1. When regular election to be held; beginning of terms.

When under the charter it shall be necessary to conduct a regular election for the purpose of filling such offices (mayor and council) not otherwise filled as a result of the primary election, such regular election shall be held on the second Tuesday in April after the primary election. The terms of office shall continue to begin on the first Monday after the second Tuesday in April.
(Ord. No. 7036, § 1, 5-11-76; Ord. No. 11272, 5-2-02)

Sec. 5.14. Candidates on ballot in regular election.

In each regular election hereafter held, the two (2) candidates who received the largest number of votes for mayor and for city council, respectively, in the primary, who received the largest number of votes in the primary shall be the candidates, and the only candidates, whose names shall be placed upon the ballot.
(Priv. Acts 1957, Ch. 73, § 7; Ord. No. 11272, 5-2-02)

Sec. 5.15. Reserved.

Editor's note—Former § 5.15 relating to compensation of election commission repealed.
(Ord. No. 12677, 12-18-12)

Secs. 5.16—5.25. Reserved.

Sec. 5.26. Council to be judge of eligibility and election of members of board.

Said city council shall judge the eligibility and the election of its members.
(Priv. Acts 1911, Ch. 10, § 14; Ord. No. 11272, 5-2-02)

Sec. 5.27. Effect of redistricting on residency requirement.

Any reorganization and adjustment of district boundaries shall not affect any candidate's eligibility for City office in a redistricted area where the candidate has resided in the new district for at least one year.
(Ord. No. 9724, § 1(2), 5-19-92)

Secs. 5.28—5.37. Reserved.

CHAPTER III. CITY JUDGE

Sec. 5.38. Term of office.

The term of office for the term of the city judge commencing in April, 1999, shall be until August 31, 2006. Thereafter, the term of office of the city judge of Chattanooga, Tennessee, shall be for a term of eight (8) years and until a successor is elected and qualified.
(Priv. Acts 1949, Ch. 192, § 3; Ord. No. 10740, § 1(1), 8-18-98)

Sec. 5.39. Manner of nomination and election.

Candidates to be voted for the office of city judge shall be nominated by a primary election to be held by the commissioners of election at Hamilton County, Tennessee, of the legally qualified voters of said city at large, and no other names shall be placed upon the official ballot or be voted for at such regular election except those selected in the manner hereinafter prescribed.

The primary election for such nomination shall be held on the first Tuesday in May before the August elections. Qualification of candidates, certification of petitioners, and the conduct of the election shall be as set forth in the state's "Election Code."

In each primary election hereafter held, if any candidate for city judge shall receive a majority of the votes cast for all candidates for the office, (s)he shall be declared elected, given a certification of election, and no further election for the office shall be held at the following August general election, and the term of office shall begin at the time it would have begun if the regular August election for city judge had been held.

If no candidate receives a majority of all votes cast at the May primary for the office of city judge, a regular election shall be held for the purpose of filling the office on the following first Thursday of August. In any such regular election hereafter held, the two (2) candidates who receive the largest number of votes for city judge in the primary shall be the candidates, and the only candidates whose names shall be placed upon the ballot. (The term of office shall begin on September 1, after the August election.)
(Priv. Acts 1949, Ch. 192, § 4; Priv. Acts 1969, Ch. 102, § 2; Ord. No. 10740, § 1(2), 8-18-98)

Secs. 5.40—5.49. Reserved.

CHAPTER IV. ELECTION OFFENSES

Sec. 5.50. Offenses in state elections declared to be offenses in city elections.

Every act or deed, whether of commission or omission, denounced by law as an offense in the case of regular state elections is hereby declared to be a like offense in the case of any primary, regular or removal election held under this Act, and to be punishable in like form and manner.
(Priv. Acts 1911, Ch. 10, § 10)

State law reference—Prohibited practices under state election code, T.C.A. § 2-19-101 et seq.

Sec. 5.51. Offering reward, etc., for vote prohibited.

Any candidate for nomination or election under this Act who shall to any person pay, give, or offer to pay or give, directly or indirectly, money or anything of value, or who shall knowingly suffer any person to do so, for the purpose of obtaining the vote or influence of an elector, or of obtaining his vote or influence against an opposing candidate, shall be disqualified as mayor or council member [or city judge], and this section shall be so construed as to prohibit any candidate for nomination or election under this Act from promising to appoint or use his influence for the appointment of any person to a position of income.
(Priv. Acts 1911, Ch. 10, § 11; Ord. No. 11272, 5-2-02)

Sec. 5.52. Bribery.

Any person who shall agree to perform any services in the interest of any candidate for any office provided in this Act, in consideration of any money or other valuable thing for such services performed in the interest of any candidate, shall be punished by a fine not exceeding three hundred dollars ($300.00) or be imprisoned in the county jail not exceeding thirty (30) days.
(Priv. Acts 1911, Ch. 10, § 12)

CHAPTER II. CITY TAXES*

ARTICLE 1. GENERALLY

Sec. 6.15. Levy and collection of taxes.

The City Council may by ordinance levy taxes on all property, real and personal or business related, as authorized under state law. The City Treasurer and delinquent tax attorneys shall collect any unpaid taxes due to the City.
(Priv. Acts 1935, Ch. 647, § 3; Ord. No. 12677, § 8, 12-18-12)

Sec. 6.16. Authority of city as to license taxes on privileges, businesses, occupations, etc.

The city council of said city, may, by ordinance, impose license taxes on any and all privileges, businesses, occupations, vocations, pursuits, trades or calling, or on any class thereof, now or hereafter subject to such taxation under the laws of the State of Tennessee.
(Priv. Acts 1935, Ch. 647, § 4; Ord. No. 11272, § 1, 5-2-02)

***Cross references—**Authority to tax for municipal band, § 2.3; treasurer to act as tax collector, § 3.103.

Sec. 6.17. Designation of due date of taxes.

Taxes on property and privileges shall become due and payable to such officers and at such times as the city council may, by ordinance or resolution, designate, and also provide the date such taxes shall become delinquent.
(Priv. Acts 1935, Ch. 647, § 5; Ord. No. 11272, § 1, 5-2-02)

Sec. 6.18. Penalties for nonpayment of taxes.

In order to enforce the collection of taxes when due, the City Council is empowered, by ordinance, to affix both interest and penalty for the non-payment of taxes when due as provided by state law. The interest and penalty shall be paid to the City Treasurer at the same time the taxes are paid. Nothing herein shall preclude the imposition of such additional collection fees, penalties, and costs as may be authorized by law if the delinquent taxes are placed in the hands of an attorney for collection or if any legal proceeding is instituted to collect such taxes.
(Priv. Acts 1935, Ch. 674, § 5; Ord. No. 11307, § 1, 8-22-02; Ord. No. 12677, § 8, 12-18-12)

Sec. 6.19. Distress warrants.

The city shall have power to issue distress warrants and alias pluries distress warrants in the name of the City of Chattanooga to enforce the collection of privileges, ad valorem and property taxes, and any other tax, respectively, and such warrants when issued may be served by a police officer, sheriff or such other person as may be designated by the city council. Such distress warrants shall be ample authority for the officer having same to distrain and sell a sufficient amount of the personal property of any delinquent taxpayer to satisfy his taxes, interest, penalties and costs. Such officer to whom the distress warrants are delivered may proceed against said delinquent taxpayers by garnishment proceedings, returnable before the General Sessions Court, the Circuit Court, or the Chancery Court of Hamilton County. The officer for each collection made under such warrant in case of a levy or garnishment shall receive the same fees as allowed by law for collecting under execution and garnishment, the same to be taxed as a part of the cost of collection and to be paid by the delinquent taxpayer; provided, however, that the issuance and return nulla bona of a distress warrant shall not be a condition precedent to the filing and maintaining of a bill to enforce the tax lien. Ten days' notice of the time and place of the sale of personalty shall be given by advertisement placed in three (3) public places in the city, one of which shall be in the district in which the property is located and one in the lobby of the municipal building.
(Priv. Acts 1935, Ch. 647, § 6; Ord. No. 12677, § 8, 12-18-12)

Sec. 6.20. Reserved.

Editor's note—Former § 6.20 relating to islands and towheads repealed.
(Ord. No. 12677, § 8, 12-18-12)

Secs. 6.21—6.25. Reserved.

ARTICLE 2. DELINQUENT TAXES

Sec. 6.26. Taxes lien on property.

Assessed taxes on realty shall be and remain a lien on the property until the same are paid, and such lien may after return of nulla bona, be enforced as other liens.
(Priv. Acts 1919, Ch. 548, § 2)

Sec. 6.27. Publication of delinquent tax notice.

At least thirty (30) days prior to filing suit to collect delinquent ad valorem taxes, the City Treasurer shall cause to be published in a daily newspaper published in the City of Chattanooga a notice substantially in the following form:

"WARNING TO DELINQUENT TAXPAYERS.

On _____(date), unpaid city real estate and personal property taxes will be placed in the hands of delinquent tax attorney for collection by legal proceedings. On said date, an additional penalty of ten percent (10%) will be imposed on the gross amount of taxes, interest and penalties, as now provided by law. Delinquent taxes may be paid at my office prior to _____(date) without the aforementioned additional penalty.

_____

City Treasurer"

(Ord. No. 11307, § 1, 8-22-02; Ord. No. 12677, § 9, 12-18-12)

Sec. 6.28. Publication of Delinquent Tax Notice.

After publication of a notice as required by Section 6.27, the City Treasurer shall furnish the Delinquent Tax Attorney a list showing the unpaid real estate taxes for said year, and it shall be the duty of said attorney to prepare and file suit in the Chancery, Circuit or Sessions Court of Hamilton County for collection of said delinquent taxes by enforcing the lien of such taxes, such lien being hereby declared to be subordinate only to the lien of state and county taxes in lien of a abutting property and/or improvement district assessments. When the delinquent tax lists are placed in the hands of said attorney, the additional penalty of ten percent (10%) of the gross amount of taxes, interest and penalties due on the date of payment shall be added for the purpose of defraying the cost of collecting such delinquent taxes.
(Priv. Acts 1933, Ch. 640, § 3; Priv. Acts 1967, Ch. 170, § 2; Ord. No. 11307, § 1, 8-22-02; Ord. No. 12677, § 9, 12-18-12)

Sec. 6.29. Filing and prosecution of suits.

(a) The attorney designated by the Mayor shall after file suit in the Chancery, Circuit or Sessions Court for collection of delinquent taxes due the City, as well as the interest, penalties and costs attached to and a part of such taxes, which taxes, interest penalties and costs are declared a lien upon the property; and, for enforcement of this lien, suits shall be brought in the name of the City, in its own behalf and for the use and benefit of the state.

(b) The procedure for collecting municipal ad valorem taxes shall be the same as now provided for the collection set forth in Tennessee Code Annotated §§ 67-5-2405, 67-5-2410, 67-5-2411, and 67-5-2414 through 67-5-2421.
(Priv. Acts 1933, Ch. 640, § 5; Ord. No. 11307, § 1, 8-22-02; Ord. No. 12677, § 9, 12-18-12)

Sec. 6.30. Authority of courts relative to title to real property; evidence of certain facts; and procedure.

(a) The court in which such proceedings are filed shall be vested with the authority to render judgments and decrees divesting and vesting title and ordering writs of possession for the purpose of placing the purchaser of such property in possession thereof, and after the time for redemption, hereinafter fixed, shall have expired the court in which said cause is heard shall divest out of the defendants all their interest in such real estate so sold for delinquent taxes and vest in the purchaser of such land at such sale absolute title to the property in fee simple, subject only to unpaid state and county taxes, unpaid street improvement

assessments, and such other taxes and/or assessments as by law may be prior or paramount to the lien for municipal taxes. A duly certified copy of the final decree of the court vesting title in the purchaser of said land at such tax sale shall be entitled to record as other conveyances of land under the laws of this state, and shall be *prima facie* evidence that the property was subject to the tax assessed and that the assessment was made in the manner required by law; that the taxes were not paid before the entry of the final decree of sale; that the grantee named in the final decree was the purchaser of his assignee; that the sale was conducted in the manner required by law; that the property had not been redeemed from sale; and no such conveyance shall be invalidated in any court except upon satisfactory proof that the land was not liable to sale for taxes, or that the taxes for which the land was sold had been paid before said sale, and, if any part of the taxes for which said land was sold was not legally chargeable against such land, that fact shall not affect the sale or invalidate the conveyance unless it appears to the court that, before the sale, the amount legally chargeable against the land was paid or tendered to the clerk of the court, and no other objection to the sale of the title thereunder shall be valid in any controversy involving the same.

(b) Any person who buys real estate at a sale for delinquent taxes which were a lien thereon, and who, for any cause shall fail to receive a good title or obtain possession of said land, shall be subrogated to all liens which secured the taxes, interest, penalties, fees and costs, and shall have the right to enforce the same at law or in equity for reimbursement of all sums paid by him for said land and all improvements placed thereon by him; and the chancery court shall have jurisdiction of such cause, even though the amount sued for be less than fifty dollars ($50.00).

(c) The procedure for collecting municipal taxes shall be the same as now provided for the collection set forth in Tennessee Code Annotated §§ 67-5-2405, 67-5-2410, 67-5-2411, and 67-5-2414 through 67-5-2421.
(Priv. Acts 1933, Ch. 640, § 5; Ord. No. 11307, § 1, 8-22-02)

Sec. 6.31. Reserved.

Editor's note—The deleted section dealt with consolidation of suits against same person.
(Ord. No. 11307, § 1)

Sec. 6.32. City may purchase property at tax sales.

(a) The City of Chattanooga is authorized and empowered to bid at such sale the amount of taxes, interest, penalties and costs, and if such property is purchased by such municipality, the title of such municipality thereto shall be in fee simple, and the municipality shall have full right and power to sell, lease or dispose of such real estate and execute conveyance thereof.

(b) If the city council determines that environmental risk are such that it is not in the best interest of the city for a minimum bid to be offered at this tax sale, the clerk shall not offer a bid on the property at tax sale. In such event, the delinquent tax attorney shall use other procedures authorized by law to collect the tax from the owner.
(Priv. Acts 1933, Ch. 640, § 7; Ord. No. 11307, § 1, 8-22-02; Ord. No. 12677, § 9, 12-18-12)

Sec. 6.33. Reserved.

Editor's note—The deleted section dealt with consolidation of suits against same parcel of land.
(Ord. No. 11307, § 1)

Sec. 6.34. Appointment of receivers for income producing property upon which taxes are delinquent.

Wherever property involved in tax suits is producing an income and no substantial part of such income is being applied to the payment of delinquent taxes on such property, the court in which any tax suit is pending is authorized to and shall appoint receivers to take charge of the property in question and collect

the rents and profits thereon to the end that such rents and profits, after paying the receiver reasonable compensation, shall be applied to the delinquent taxes, penalties, interest and costs, and upon the payment of all taxes, interest, penalties and costs involved in said cause such receivers shall be discharged.
(Priv. Acts 1933, Ch. 640, § 9; Ord. No. 12677, § 9, 12-18-12)

Sec. 6.35. Delinquent tax attorney—Appointment.

The Mayor shall appoint some practicing attorney or attorneys as Delinquent Tax Attorney(s) who shall proceed with the collection of delinquent taxes as provided by the provisions of this article and applicable laws. The City Attorney's office may be appointed to collect delinquent taxes.
(Priv. Acts 1933, Ch. 640, § 11; Priv. Acts 1967, Ch. 170, § 4; Ord. No. 11307, § 1, 8-22-02; Ord. No. 12677, § 9, 12-18-12)

Sec. 6.36. Penalty added.

When ad valorem taxes, real or personalty are delinquent or other delinquent taxes or assessments are delivered to the delinquent tax attorney, a penalty of ten percent (10%) or such other amount as may be authorized by state law shall be added to defray the cost of collection.
(Priv. Acts 1933, Ch. 640, § 10; Ord. No. 11307, § 1, 8-22-02; Ord. No. 12677, § 9, 12-18-12)

Sec. 6.37. Same—Authority of mayor to withdraw tax, etc., collections from attorney if collections not made within five years.

If delinquent ad valorem taxes, personalty taxes, or delinquent special benefit assessments heretofore or hereafter turned over by the mayor to a private attorney for collection are not collected or the property against which such taxes and benefits are assessed sold for such taxes or benefit assessments within a period of five (5) years from the date they are turned over to such attorney, the mayor shall have authority to recall and withdraw such tax collections from the attorney, and such attorney shall forfeit all rights to fees or commissions that he has for the filing of suits against property for the collection of such taxes or benefit assessments. The attorney shall deliver to the mayor upon demand any and all records that he may have with reference to such taxes and benefit assessments, and the mayor thereafter may appoint another attorney to collect the taxes and benefit assessments or to sell the property for such taxes or benefit assessments who shall be entitled to all fees or commissions on all taxes or benefit assessments collected or on property sold for such taxes or benefit assessments by him.
(Priv. Acts 1949, Ch. 760, § 2; Ord. No. 12677, § 9, 12-18-12)

Sec. 6.38. Compensation for contracted attorney.

Private attorneys to whom delinquent ad valorem taxes, special benefits assessments, or other taxes which may hereafter be turned over for collection shall receive a fee or commission on all such taxes or benefit assessments collected by them. The amount of the fee shall be reached by agreement, provided that the fee shall not exceed maximum amount authorized by state law.
(Priv. Acts 1933, Ch. 640, § 11; Priv. Acts 1949, Ch. 760, § 3; Ord. No. 11307, § 1, 8-22-02; Ord. No. 12677, § 9, 12-18-12)

Sec. 6.39 Supplemental powers; legal construction; Interlocal Agreement.

Neither the provisions of this article nor anything herein contained shall be construed as a restriction or a limitation upon any powers which the city might otherwise have under any laws of this state, but shall be construed as cumulative of and supplemental to any such powers. The City Council may provide by ordinance for any supplemental or additional provisions it deems advisable to collect delinquent taxes or to

take advantage of or conform to future changes in state laws. Nothing in this article may be construed as limiting the authority of the city to contract with the county trustee to collect both current and delinquent municipal taxes pursuant to an interlocal agreement.
(Ord. No. 11307, § 1, 8-22-02; Ord. No. 12677, § 9, 12-18-12)

Secs. 6.40—6.43. Reserved.

ARTICLE 3. PRIVILEGE TAXES*

Division I. Generally

Sec. 6.44. Authority of city generally.

Privileges shall be taxed and collected, as may be provided by city ordinance.
(Priv. Acts 1919, Ch. 548)

Secs. 6.45—6.65. Reserved.
(Ord. No. 12677, § 10, 12-18-12)

Editor's note—Sections 6.45 through 6.52 inclusive dealing with alcoholic beverages sold at retail repealed.

ARTICLE 4. PROPERTY TAXES†

Sec. 6.66. City to use property valuation of county tax assessor.

For the purpose of fixing and determining the valuation for tax purposes of real and personal property within the City of Chattanooga, Tennessee, the valuation of said property as assessed by the tax assessor of Hamilton County, Tennessee, shall govern, and the valuation assessed by said tax assessor, and no other valuation, shall be the valuation upon which the said city may assess, levy and collect taxes on real and personal property within said city.
(Priv. Acts 1945, Ch. 553, § 3)

Secs. 6.67—6.69 Reserved.

Editor's note—Sections 6.67 to 6.69 dealing with assessments of property repealed.
(Ord. No. 12677, § 11, 12-18-12)

Secs. 6.70—6.79. Reserved.

CHAPTER III. BUDGET‡

Sec. 6.80. Annual budget not to exceed estimated revenue except in cases of extraordinary emergencies.

It shall be the duty of the mayor and city council elected under this act to prepare and pass an annual budget each year. The budget for the ordinary and extraordinary expenses of the city for any one year shall

‡**Cross reference—**Budgets of planning commission, § 12.10.

not exceed the estimated amount of revenue to be collected for said year; and in no event shall there be appropriated by the city council any sum or sums in excess of the estimated revenues of said city, for the fiscal year in which said appropriation is made. Provided, however, the city council may make appropriations from fund balance to the extent allowed under established guidelines and state law.
(Priv. Acts 1911, Ch. 10, § 19; Priv. Acts 1911, Ch. 621; Priv. Acts 1917, Ch. 42, § 9; Ord. No. 12677, § 12, 12-18-12)

Sec. 6.81. Information to be a part of the annual budget.

The annual budget ordinance shall contain at least as much information as that required by Tennessee Code Annotated § 6-56-203(1) and (3) as the same may be amended from time to time.
(Ord. No. 11591, 8-3-04)

Secs. 6.82—6.90. Reserved.

CHAPTER IV. APPROPRIATIONS*

Sec. 6.91. Levy and appropriations for departments.

In fixing the annual tax rate the ordinance shall designate what amount of the total appropriation is made for various departments, for debt service, and for such other purposes as may require an appropriation for the ensuing year. It is not intended, however, that it shall be obligatory upon the city council to make a levy and appropriation for all the purposes above enumerated, but only for such as may be necessary, in its judgment. It shall not be lawful to use any funds appropriated to a particular fund for any other fund unless the same shall have been previously directed by ordinance. In making appropriations for the various departments the city council shall not be bound by the estimates submitted by the officer or board in charge of such departments, but shall appropriate only as much as it shall deem necessary. It shall not be lawful to expend in any year a greater amount in any fund than shall have been appropriated for that fund.
(Priv. Acts 1901, Ch. 432, § 15; Priv. Acts 1911, Ch. 10, § 13; Ord. No. 12677, § 13, 12-18-12)

CHAPTER V. BORROWING POWER OF CITY*

ARTICLE 1. GENERALLY

Sec. 6.107. General debt limit.

Hereafter no bonds shall be issued by the City of Chattanooga in such an aggregate amount as will create or increase the total bonded indebtedness of said city more than ten per cent (10%) of the assessed valuation for the preceding year of all taxable property in said city.

Provided, that bonds payable out of funds derived from special assessments for public improvements, or designated revenue sources other than property taxes, or bonds payable wholly from revenue derived from the operation of any utility owned or controlled by the city and the amount in the sinking fund shall be deducted in computing the amount of the net bonded debt of said city. Provided, further, that the provisions of this Act [section] shall not apply to refunding bonds issued for the purpose of paying or to be exchanged for outstanding bonds of the city, or to bonds issued for funding any floating indebtedness of said city now outstanding.
(Priv. Acts 1941, Ch. 251, § 1; Ord. No. 12677, § 15, 12-18-12)

Secs. 6.108—6.151. Reserved.

Editor's note—Deleted §§ 6.108 through 6.155 inclusive dealing with borrowing power of City repealed.
(Ord. No. 12677, § 16, 12-18-12)

CHAPTER VI. AID TO RAILROADS†

Secs. 6.152—6.155. Reserved.

Editor's note—Deleted §§ 6.152 through 6.155 dealing with aid to railroads repealed.
(Ord. No. 12677, § 17, 12-18-12)

Secs. 6.156—6.165. Reserved.

***Cross references—**Borrowing for public works and improvements generally, Title 15; general authority to provide for payment of debts, § 2.1(3); bonds for electrical system, § 10.3 et seq.; issuance of bonds for water and gas systems, § 14.2 et seq.; issuance of bonds for sewer improvements, § 15.20 et seq.

†**Cross reference—**Railroads generally, Title 16.

CHAPTER VII. LEGAL LIABILITY FUND

Sec. 6.166. Purpose.

The purpose of the legal liability fund is to provide for the City's legal liabilities and for the defense of and prosecution of claims for the City.
(Ord. No. 12677, § 18, 12-18-12)

Editor's note—Former § 6.166 based upon Priv. Acts 1965, Ch. 165 establishing tort liability and moral claims fund replaced by this section.

Sec. 6.167. Appropriations for, use of legal liability fund.

There shall be included in the budget and appropriated to the legal liability reserve fund an amount which the city council reasonably anticipates will be needed to create and maintain the fund at a level to meet any liability of the city under the Tennessee Governmental Tort Liability Act and any other laws that may create liability resulting from acts or omissions of any officials, officers or employees of the city while engaged in the exercise of any of their functions, governmental or proprietary. Disbursements from the fund shall be made only for this purpose and the cost of litigation relating to claims for or against the city. Neither the creation of this fund, nor the appropriation of money to the fund from whatever source, shall constitute a waiver of any legal immunity from suit for acts or omissions of officers and employees of the city, and the city council shall not have the power to waive such immunity. The city attorney may settle or compromise and authorize payments from the legal liability fund, which does not exceed ten thousand ($10,000.00) dollars per claim. The city council may increase this amount by ordinance. All payments in excess of ten thousand ($10,000.00) dollars or larger amounts, as may be subsequently amended by ordinance, are subject to approval by the city council.
(Acts 1923, Ch. 580, § 2; Ord. No. 12677, § 18, 12-18-12)

Sec. 6.168. Permanent nature of fund.

The liability fund shall be a permanent fund and at the end of the fiscal year the same shall not be appropriated for any other municipal purpose, nor shall the same revert to surplus or a contingency fund.
(Priv. Acts 1965, Ch. 165, § 5; Ord. No. 12677, § 18, 12-18-12)

Editor's note—Former §§ 6.168 and 6.169 based upon Priv. Acts. 1965, Ch. 165, § 3 and § 4 repealed.

Sec. 6.169. Insurance not barred.

Nothing herein shall be construed as prohibiting the city from contracting for any form of insurance, including but not limited to coverage for motor vehicles, buildings, or other insurable risks, whether as to one department, agency or division of city government, or for more than one, or for all divisions of city government.
(Priv. Acts 1965, Ch. 165, § 6; Ord. No. 12677, § 18, 12-18-12)

Editor's note—Former § 6.171.

(Priv. Acts 1965, Ch. 165, § 6; repealed by Ord. No. 12677, § 18, 12-18-12)

Sec. 6.172. Reserved.

Editor's note—Former § 6.172 repealed (Ord. No. 12677, § 18, 12-18-12)

Title 7

FRANCHISES

Sec. 7.1. Maximum term for franchises, etc.
Sec. 7.2. Ordinances granting franchises.

Sec. 7.1. Maximum term for franchises, etc.

The power of the city council in the granting of franchises or rights to use, or easements in, or to, any public property of said City of Chattanooga, to any corporation or corporations, individual or individuals, is hereby restricted, so that the said city council shall be, and is hereby, prohibited from hereafter granting to any corporation or corporations, individual or individuals, any special grant, right, easement or franchise in or to any public property, way, street, alley or thoroughfare for a longer period than forty (40) years.
(Priv. Acts 1899, Ch. 216, § 6; Priv. Acts 1907, Ch. 388; Priv. Acts 1911, Ch. 10, § 13; Ord. No. 11272, § 1, 5-2-02)

Sec. 7.2. Ordinances granting franchises.

The grant of all franchises shall be subject to the limitations and restrictions now prescribed by law, and in addition, no ordinance granting any kind of franchise shall be passed by the city council on more than one reading at the same meeting, or by the city council on any reading at any but a regular meeting. Nor shall any ordinance granting a franchise be valid unless published in full at least five days before final passage in some daily newspaper published in said City of Chattanooga.
(Priv. Acts 1901, Ch. 432, § 10; Priv. Acts 1911, Ch. 10, § 15; Ord. No. 11272, § 1, 5-2-02)

Sec. 8.53. Disqualification for elective office.

CHAPTER I. LEGISLATIVE

Sec. 8.1. City Council created.

There is hereby created a city council of the City of Chattanooga, Tennessee, and all legislative and quasi-judicial authority and responsibility now vested in and exercised by the board of commissioners shall be vested exclusively in the city council. All references to the "board of commissioners" or "board" or "city commission" or "commissioners" or "commission" where the same refers to the board of commissioners acting in its or their legislative or quasi-judicial capacity in the present city charter are hereby deleted and there is inserted in lieu thereof the phrase "city council" or "council" or "council members" except as otherwise specified herein.
(Ord. No. 11272, § 1, 5-2-02)

Sec. 8.2. Qualifications of council members.

The City shall be divided into nine (9) districts within the geographic boundaries of the city. The city council shall be composed of nine (9) members with each member elected from one of such single districts. The candidate for each council position who receives the majority of his or her district shall be elected. No person shall be elected or appointed as a member of the council who is not at least 21 years of age and who has not been a resident of the district for at least one year preceding his or her election.
(Ord. No. 11272, § 1, 5-2-02)

Sec. 8.3. Officers of council.

At its initial meeting, the council shall elect from its membership a chairperson who shall preside over council meetings. The council shall also elect a vice-chairperson who shall preside in the chairperson's absence. Terms of the chairperson and vice-chairperson shall be for one year. No council person may serve more than two years as chairperson, nor more than two years as vice chairperson within any council term. The council may when necessary elect from their members a chairperson pro tempore to preside at a particular meeting in the absence of the chairperson and vice-chairperson.
(Ord. No. 11272, § 1, 5-2-02)

Sec. 8.4. Chairperson as interim mayor.

The chairperson of the council shall ascend to the office of the mayor as interim mayor on a temporary basis in the event of a vacancy in the office of the mayor by reason of death, resignation, removal, or otherwise, all as specified in Section 8.5 hereof. During service as interim mayor, the council chairperson shall step down from his or her position as a member of the council. However, the temporary ascension of the council chairperson to the office of the mayor will not create a vacancy on the council to be filled by the council.
(Ord. No. 11272, § 1, 5-2-02)

Sec. 8.5. Rules and meetings.

The council shall from time to time establish and publish such procedures and rules for its organization and orderly operation as the council deems appropriate so long as the procedures and rules do not conflict with provisions of the Charter, state or federal law. The council shall have the power to issue subpoenas and administer oaths. The council's rules shall specify the schedule for its regular meetings, which shall be held at least twice a month, and the procedures for calling special meetings. In the event that a member of the

council shall be absent from all council meetings during three (3) consecutive months without proper and reasonable explanation acceptable to the council, his or her office may be declared vacated by a majority vote of the remaining membership of the council and such vacancy shall be filled as provided herein.
(Ord. No. 11272, § 1, 5-2-02)

Sec. 8.6. Same—To be open to public; place.

All meetings of said council shall be public, and shall be held at the place provided for such meetings, and said place cannot be changed except by ordinance.
(Priv. Acts 1911, Ch. 10, § 14; Ord. No. 11272, § 1, 5-2-02)

Sec. 8.7. Same—Attendance of members.

The attendance of members may be enforced by rules or ordinances with appropriate fines.
(Priv. Acts 1911, Ch. 10, § 14; Ord. No. 11272, § 1, 5-2-02)

Sec. 8.8. Same—Adjourned meetings.

If the business of any regular or special meeting be not concluded on the day when the same convenes, the board may adjourn such meeting to any subsequent day of the week. Any number of council members, even less than a quorum, may adjourn a regular council meeting from day to day.
(Priv. Acts 1911, Ch. 10, § 14; Ord. No. 11272, § 1, 5-2-02)

Sec. 8.9. Redistricting.

Following publication of each new official decennial federal census, the council shall reorganize and adjust by ordinance the boundaries of the districts currently established. The council's reorganization and adjustment of the district boundaries shall be completed no later than one (1) year prior to the next city election; provided, however, that the council shall have not less than six (6) calendar months within which to reorganize the districts. The adjusted districts shall be as equal in population as practicable. Such reorganization and adjustment of district boundaries shall not affect the qualifications of any council member to fulfill his or her remaining unexpired term.
(Ord. No. 11272, § 1, 5-2-02)

Sec. 8.10. Quorum and Majority.

A majority of the entire membership of the council shall constitute a quorum for the transaction of business. The affirmative votes of a majority of the members of the entire council shall be necessary to enact any ordinance or adopt any resolution or take any affirmative action. Every ordinance enacted by the council shall be signed by the council chairperson, vice-chairperson or chairperson pro tempore and shall also be approved or vetoed by the mayor as provided by the Charter and shall then be delivered to the clerk of the city council.
(Ord. No. 11272, § 1, 5-2-02)

Sec. 8.11. Vacancies.

Removal of residence by a member of the council from that member's district shall constitute a vacancy in that member's council position. Any vacancy occurring on the council, including any vacancy in the office of chairperson of the council, shall be filled by a vote of a majority of all of the remaining members of the council. Any person elected to fill such a vacancy shall possess the same qualifications as a council

member elected by the people. Any person elected or appointed as a member of the council shall serve until his or her successor is elected and qualified; provided, however, that if any general statute requires an earlier election, then such general statute shall apply.
(Ord. No. 11272, § 1, 5-2-02)

Sec. 8.12. Salaries.

Members of the council shall be paid fifteen percent (15%) of the mayor's salary as may be adjusted from time to time. The chairperson shall be paid an additional Five Thousand Dollars ($5,000.00) per annum, and the vice-chairperson shall be paid an additional Twenty-five Hundred Dollars ($2,500.00) per annum. Such salaries shall be payable on a monthly basis.
(Ord. No. 11272, § 1, 5-2-02)

Sec. 8.13. Committees and clerk.

The council may from time to time establish such committees, committee responsibilities, and the manner of committee appointment as the council deems appropriate. The council shall employ a clerk whose duty it shall be to preserve, keep and retain all of the records of the council and shall have the authority to certify the correctness of such records when necessary or requested by a citizen.
(Ord. No. 11272, § 1, 5-2-02)

Sec. 8.14. Expenses.

Members of the council may be reimbursed their reasonable, necessary and actual expenses incurred in the performance of their official duties. The council shall adopt procedures and guidelines for documentation and reimbursement of expenses of members of the council and of all the officials and employees of the government after receiving appropriate recommendations on the same from the mayor.
(Ord. No. 11272, § 1, 5-2-02)

Sec. 8.15. Reserved

Editor's note—Ord. No. 13039, § 1, adopted April 19, 2016, repealed § 8.15, which pertained to management analysis and derived from Ord. No. 12566 § 1, adopted Jan. 24, 2012.

Secs. 8.16—8.25. Reserved.

CHAPTER II. EXECUTIVE

Sec. 8.26. Office of mayor created.

There is hereby created the office of the mayor, and all executive and administrative authority and responsibility now vested in and exercised by the board of commissioners and its individual members shall be vested exclusively in the mayor. All references in the Charter to individual commissioners or the board of commissioners acting in their administrative or executive capacity are hereby deleted and the word "mayor" substituted therefore.

The mayor shall be elected at-large and shall not be a member of the city council. The mayor shall not have a vote in any matter considered by the city council. The mayor shall have a veto over any ordinance enacted or resolution adopted by the city council, but the city council may override the veto of the mayor at the next regular meeting of the council but only by a majority of the entire membership of the city council.
(Ord. No. 11272, § 1, 5-2-02)

Sec. 8.27. Qualifications of mayor.

No person shall be elected to the office of mayor unless he or she has been a resident of the city of Chattanooga for at least one year prior to his or her election and unless he or she shall be at least thirty (30) years of age.
(Ord. No. 11272, § 1, 5-2-02)

Sec. 8.28. Executive officer.

The chief executive officer of the city of Chattanooga shall be the mayor. The mayor shall be authorized to administer oaths and shall supervise and control all of the divisions of the city, except as otherwise provided, and shall see that the ordinances of the City and the provisions of the Charter are observed. The mayor shall devote his or her entire time and attention to the duties of the office of the mayor. The mayor may attend any meeting of the council or any of its committee meetings and may address the council or its committee meetings subject to recognition by the chairperson.
(Ord. No. 11272, § 1, 5-2-02)

Sec. 8.29. Term limits of mayor.

No person shall be eligible to be elected as mayor for more than two (2) consecutive four (4) year terms.
(Ord. No. 11272, § 1, 5-2-02)

Sec. 8.30. Succession to office of mayor.

In the case of the mayor's death, resignation, inability to serve for any reason, recall or removal of his or her residence from the city, upon such fact being certified by resolution of the council, the chairperson of the council shall become the interim mayor upon being administered the oath and making bond. Such person shall hold the office of the mayor on an interim basis until a new mayor is elected as provided in this Charter and qualified. The interim mayor shall have the authority to cast a vote to break a tie in the city council. A vacancy in the office of the mayor shall be filled by election at the next regularly scheduled election to be held in the city not less than ninety (90) days but not more than one hundred twenty (120) days after the vacancy is certified by the council. If no such election is scheduled, a special election shall be held within not less than ninety (90) nor more than one hundred twenty (120) days. The person so elected shall serve the remainder of the term vacated by the mayor.
(Ord. No. 11272, § 1, 5-2-02)

Sec. 8.31. Organization of government.

Within sixty (60) days after taking office, the mayor shall recommend to the council any revisions to the names, functions, and organization of city departments that the mayor deems appropriate. The council shall adopt a plan of reorganization within thirty (30) days after receiving recommendations for the same from the mayor, which recommendations the council may accept, modify or reject.
(Ord. No. 11272, § 1, 5-2-02)

Sec. 8.32. Department heads.

The mayor shall appoint all department heads, subject to confirmation by a majority vote of the entire membership of the council. The mayor may remove department heads at any time with the approval of a majority of the entire membership of the council. The city council may remove department heads and/or city officials (but not the mayor) for cause after notice and hearing, and pursuant to a vote of two-thirds of the entire membership of the council.
(Ord. No. 11272, § 1, 5-2-02)

Sec. 8.33. Charter officials*

(a) No later than the date he or she appoints department heads, the mayor shall appoint, with the approval of a majority vote of the entire membership of the council, persons to fill the positions of fire chief and police chief for terms concurrent with the mayor and until they are discharged or their successors are appointed and qualified. The mayor, with the approval of a majority vote of the entire membership of the council, may discharge any of these officials prior to the expiration of their terms of office. Thereafter, vacancies shall be filled by appointment of the mayor with the approval of a majority vote of the entire membership of the council.

(b) No later than the date the mayor appoints department heads, the mayor shall appoint, with the approval of a majority vote of the entire membership of the council, a city finance officer and a city treasurer, for terms concurrent with the terms of the mayor, and until they are discharged or their successors are appointed and qualified. The mayor may discharge the city finance officer or city treasurer with the approval of a majority vote of the entire membership of the council. Any vacancy occurring in said offices shall be filled by appointment of the mayor with the approval of a majority vote of the entire membership of the council.
(Ord. No. 11272, § 1, 5-2-02; Ord. No. 11873, § 1, 8-22-06; Ord. No. 12566, § 2, 1-24-12)

Sec. 8.34. Salaries.

(a) The salary of the mayor shall be at all times the same as is received by the county executive of Hamilton County.

(b) The annual salary fixed for all city officials shall be payable in equal semi-monthly installments.
(Priv. Acts 1959, Ch. 10, § 12; Priv. Acts 1965, Ch. 237, § 1; Priv. Acts 1967, Ch. 45, § 1; Priv. Acts 1968, Ch. 461, § 1; Priv. Acts 1970, Ch. 343, §§ 1, 3, 4; Ord. No. 7368, § 1, 5-16-78)

Sec. 8.35. Control, etc., of city buildings.

The preliminary and primary control over the planning erection, repairs and maintenance of all public buildings belonging to the city of Chattanooga, and all public buildings of said city to be hereafter erected, shall be under the supervision and control of the mayor.
(Ord. No. 11272, § 1, 5-2-02)

Sec. 8.36. Bond.

The mayor shall be required to execute and file with the city finance officer a bond in the sum of ten thousand dollars ($10,000.00) for the faithful discharge of his duties.
(Priv. Acts 1911, Ch. 10, § 16; Ord. No. 10742, § 1(1), 8-18-98)

Sec. 8.38. Enforcement of laws and ordinances; report on condition of city; general supervision over officers of city.

It shall be the duty of the mayor to be vigilant and active in causing the ordinances of the city and the laws of the state to be executed and enforced within the city; to communicate to the city council at least once a year a statement of the finances and general condition of the city, and also such information in relation to the same as said council may, from time to time, request; to recommend to the council by message in writing, all such measures connected with the affairs of the city, as he shall deem expedient; to exercise a general supervision over all the executive and ministerial officers of the city, and see that their

***Cross reference—**The provisions for the city attorney are set forth in Section 3.62.

official duties are honestly and faithfully performed, and he may require from them statements in writing and under oath or affirmation concerning the discharge of their duties, and shall at all times have access to the books of all executive officers and boards.
(Priv. Acts 1901, Ch. 432, § 26; Priv. Acts 1911, Ch. 10, § 13)

Editor's note—Refer to 1953 Private Acts, Chapter 105, 1957 Private Acts, Chapter 73 and 1965 Private Acts, Chapter 207; Ord. No. 11272, § 1, 5-2-02.

Sec. 8.39. Examination of affairs and accounts of city.

The mayor may, as often as he may deem necessary, appoint not more than three (3) competent persons to examine without notice the affairs and accounts of any city officer or board, and the money, securities and property belonging to the city and in the possession or charge of such officer or board. The compensation of such person[s] shall be paid out of the general or the miscellany fund, appropriated by the council on the warrant of the mayor, stating on its face for what purpose it is drawn, and countersigned by the finance officer.
(Priv. Acts 1901, Ch. 432, § 29; Ord. No. 10742, § 1(1), 8-18-98)

Sec. 8.40. Authority to administer oaths.

The mayor shall have the same power to administer oaths and affirmations that justices of the peace in this state now have.
(Priv. Acts 1901, Ch. 432, § 32 and Ord. No. 11272, § 1, 5-2-02)

Sec. 8.41. Temporary disability of the mayor.

(a) Whenever the mayor transmits to the clerk of the city council and the city finance officer his written declaration that he is unable to discharge the powers and duties of his office, and until he transmits to them a written declaration to the contrary, such powers and duties shall be discharged by the chairperson of the council as acting mayor.

(b) Whenever the chairperson of the council and a majority of the department heads of the executive department transmit to the clerk of the council and the city finance officer their written declaration that the mayor is unable to discharge the powers and duties of his office, the chairperson of the council shall immediately assume the powers and duties of the office as acting mayor.

Thereafter, when the mayor transmits to the clerk of the council and the city finance officer his written declaration that no inability exists, he shall resume the powers and duties of his office.

(c) In the event the chairperson of the council serves as acting mayor, the vice chairperson shall temporarily assume the chairmanship and the chairperson (acting mayor) shall temporarily step down from his or her position as a member of the council. However, the temporary ascension of the council chairperson to acting mayor will not create a vacancy on the council to be filled by the council. The compensation of the acting mayor, if any, shall be determined by the council.
(Ord. No. 10746, § 1(1), 8-18-98)

Secs. 8.42—8.50. Reserved.

CHAPTER III. GENERALLY

Sec. 8.51. Oath of Office.

The mayor of said city shall, before entering upon the duties of his office, take and subscribe an oath before some justice of the peace of said county to faithfully, uprightly and honestly demean himself as

mayor of said corporation during his continuance in office; and that he possesses the qualifications and is free from the disqualifications prescribed in section 3.1 of this Charter; and to faithfully discharge the duties of his office, and such other oath or affirmation as may be now or hereafter prescribed by ordinance.

Each member of said city council, before assuming the duties of office, shall take and subscribe an oath that he possesses the qualifications and is free from the disqualifications prescribed in section 3.1 of this Charter, and to faithfully discharge the duties of his office, and such other oath or affirmation as may be now or hereafter prescribed by ordinance.
(Priv. Acts 1839, Ch. 32, § 9; Priv. Acts 1901, Ch. 432, § 5; Priv. Acts 1911, Ch. 10, §§ 13, 16; Ord. No. 11272, § 1, 5-2-02)

Sec. 8.52. Annual Budget.

The mayor shall propose an annual budget and present it to the city council. The council shall enact a budget ordinance after receiving recommendations for the same from the mayor, which recommendations the council may accept, modify or reject.
(Ord. No. 11272, § 1, 5-2-02)

Sec. 8.53. Disqualification for elective office.

No person who has been convicted of a felony may serve in an elective office of the city of Chattanooga unless his full rights of citizenship, including the right to suffrage, have been restored according to law.
(Priv. Acts 1911, Ch. 10, § 14, Ord. No. 11009, § 1, 5-9-00)

Editor's note—This section was adopted as a new § 8.21 in Ordinance No. 1009, but renumbered at discretion of editors.

CHAPTER I. IN GENERAL

Sec. 10.1. Authorization for city to purchase, construct, acquire, etc., electric light, power and distribution stations, etc., within and without city.

The City of Chattanooga in its corporate capacity is hereby authorized and empowered to purchase, construct, lease or otherwise acquire, and to maintain, operate and regulate, either within or without the corporation limits of said city, and [an] electric light and power plant and distribution system and substations, together with all necessary or appropriate equipment, appliances and appurtenances for the proper operation thereof, for the purpose of lighting public buildings, streets, parks and other municipal property, and for any and all other purposes; and for the sale of electric current for light, heat, power, or any other purpose whatever, within the corporate limits of said city and the territory adjacent thereto.
(Priv. Acts 1935, Ch. 455, § 2)

Sec. 10.2. Authorization for city to purchase, construct, acquire, etc., electric light, power and distribution system, etc., within and without city and in State of Georgia; city may sell, advertise, etc., electrical current and portions of electric distribution system.

The City of Chattanooga in its corporate capacity, is hereby authorized and empowered to purchase, construct, lease, or otherwise acquire, and to maintain, operate, and regulate an electric light and power plant and distribution system and substations, together with all necessary and appropriate equipment, appliances, and appurtenances, for the proper operation thereof, within the corporate limits of said city, and within the territory of Hamilton County, Tennessee, and adjoining counties, and within the territory of Catoosa County and Walker County, in the State of Georgia, for the purpose of sale of electric current for light, heat, power, or any other purposes; and that the said City of Chattanooga is hereby authorized and empowered, in its corporate capacity, to expend such moneys as may be deemed necessary to further the sale of electric energy, including educational work, advertising, sales promotion and such other means as may be deemed necessary for the efficient operation of said electric distribution system and the furthering of sales of electric current; and the said City of Chattanooga is hereby authorized and empowered, in its corporate capacity, to lease, sell, and convey, any part or portion of said electric power plant and distribution system, lying outside of the corporate limits of the City of Chattanooga, that may be deemed necessary and expedient for the efficient and successful operation of said electric distribution system.
(Priv. Acts 1939, Ch. 538, § 1)

Sec. 10.3. Bonds—Authority to issue.

The said City of Chattanooga be and it is hereby authorized, in its corporate capacity, to issue and sell its bonds to be signed by the mayor and countersigned by the finance officer of said city in an amount not exceeding fourteen million dollars ($14,000,000.00) for the purpose of acquiring an existing electric power plant and distributing system, or of constructing, equipping, maintaining and operating an electric power plant and distribution system.
(Priv. Acts 1935, Ch. 455, § 3; Priv. Acts 1939, Ch. 348, § 1; Ord. No. 10742, § 1(1), 8-18-98)

Sec. 10.4. Same—Denominations; to be issued as serial bonds; interest; how payable; signatures; tax levy when bonds issued as general obligations of city; sale to federal agencies; private sales.

The bonds herein authorized shall be payable in lawful money of the United States of America and shall be executed in denominations of one hundred dollars ($100.00) or multiples thereof, no single bond to exceed one thousand dollars ($1,000.00), said bonds shall be issued as serial bonds, maturing in such amounts and at such times not less than three (3) nor more than thirty (30) years from the date of the issuance thereof as the city council may determine, and shall bear interest at the rate of not more than six per cent (6%) per annum, payable semiannually, said interest installments to be evidenced by coupons attached to the

bonds, which coupons shall bear the printed or lithographed facsimile of the signatures of the mayor and finance officer of said city; and said bonds and coupons shall be payable to bearer and the bonds shall be sold at the best price obtainable and shall in no case be sold for less than par and accrued interest. Said bonds shall be issued from time to time in such amounts, and shall bear dates, as the electric power board hereinafter created shall direct; and it shall be the duty of the mayor and city council of the city to provide by resolution or ordinance for the issuance of said bonds as directed by said electric power board. Said bonds shall be known as electric power bonds of the City of Chattanooga and they may be issued either as direct and general obligations of the city, payable out of its general income and revenue, or at the election and subject to the determination of said power board they may be made payable only out of the revenue from said power plant and distribution system. In case the bonds are issued as general obligations of the city, it shall be the duty of the governing board of said city to levy a tax each year over and above the taxes levied for general municipal purposes, to pay the interest and principal of said bonds as they mature, provided, however, that in case the revenue derived from the operation of the electric plant and distribution system herein provided for is sufficient to pay the interest and principal of said bonds, as they severally mature, then, in that event it will not be necessary to make a special levy for the payment of said interest and principal, but the city shall each year levy a sufficient amount which, when added to the amount of revenue derived from the operation of the electric power plant and distribution system, will be sufficient to pay the interest on said bonds and the installments of principal maturing during the year.

The mayor of said city, with the approval of the city council, shall have power and authority to sell the bonds issued under the provisions of this Act to the Reconstruction Finance Corporation, Public Works Administration, Tennessee Valley Authority or any federal agency at private sale, without any public advertisement. Unless the bonds are sold to a federal agency, said bonds shall be sold at public sale in accordance with the provisions of section 3707, Tennessee Code of 1932 [T.C.A. § 6-57-209], and the mayor and city council shall have power and authority to hypothecate any or all of the bonds issued under the provisions of this Act and to borrow thereon funds from the Reconstruction Finance Corporation, the Public Works Administration, or any other similar government agency or board, or from any bank. Said bonds shall contain a recital that they are issued pursuant to and in accordance with this Act, and such recital shall be conclusive of their legality.
(Priv. Acts 1935, Ch. 455, § 4; Ord. No. 10742, § 1(1), 8-18-98; Ord. No. 11272, § 1, 5-2-02)

Sec. 10.5. Same—Statutory mortgage lien created on power plant and distribution system purchased with bonds.

In event the power board shall elect to have bonds issued payable only out of the revenue from the operation of said power plant and distribution system they shall notify the city council of such determination. If revenue bonds are issued for the construction or acquiring of an existing power plant and distribution system there is hereby created a statutory mortgage lien upon the power plant and distribution system constructed or acquired to and in favor of the holders of said revenue bonds. Any holder of any of said bonds may either at law or in equity by suit, action, mandamus or other proceedings protect and enforce the statutory mortgage lien hereby conferred, and may by suit, action, mandamus, or other proceedings enforce and compel performance of all the duties required by this Act.
(Priv. Acts 1935, Ch. 455, § 4; Priv. Acts 1937, Ch. 899, § 1; Ord. No. 11272, § 1, 5-2-02)

Sec. 10.6. Same—City Council authorized to do certain acts to secure payment of revenue bonds.

In order to secure the payment of revenue bonds issued pursuant to this Act and the interest thereon, the city council shall have the power as to such bonds, to the extent not inconsistent with the mandatory provisions of this Act:

(a) After the payment of operating expenses from the gross revenue to pledge all or any part of the remaining revenue derived from the operation of the electric power plant and distribution system to secure the payment of the bonds and interest thereon.

(b) The covenant as to the rates and charges to be imposed and the amounts to be raised in each year by such rates and charges and the use and disposition thereof, and the electric power board shall carry out the provisions of this covenant.

(c) To set aside a reserve or sinking fund and the relation and disposition thereof and to provide for the redemption of revenue bonds and to provide the terms and conditions thereof.

(d) To covenant and prescribe as to what happenings or occurrences shall constitute "default" and the terms and conditions upon which any or all of such bonds shall become or may be declared due before maturity and as to the terms and conditions upon which such declaration and its consequences may be waived.

(e) To covenant as to the right, liabilities, and powers and duties arising upon the breach by it of any covenant, condition or obligation.

(f) To vest in a trustee or trustees the right to receive all or any part of the income assigned to, or for the benefit of, the holder or holders of bonds issued hereunder, and to hold, apply and dispose of the same and the right to enforce any covenant made to secure or pay or in relation to the bonds; to execute and deliver a trust agreement or trust agreements which may set forth the powers and duties and the remedies available to such trustee or trustees and limiting the liabilities thereof, and describing what occurrences shall constitute default, and prescribing the terms and conditions upon which such trustee or trustees or the holder or holders of bonds of any specified amount or percentage of such bonds may exercise such rights and enforce any and all of such covenants and resort to such remedies as may be appropriate.

(g) To make covenants other than, and in addition to, the covenants herein authorized, of like or different character, necessary or advisable to effectuate the purpose of this Act.

(h) To execute all instruments necessary or convenient in the exercise of the powers herein granted or in the performance of its covenants or duties.

(i) To provide for the replacement of lost, destroyed or mutilated bonds.

(j) The electric power board shall carry out the agreements and covenants made by the city council with the holder or holders of revenue bonds as herein provided.

(Priv. Acts 1937, Ch. 899, § 1; Ord. No. 11272, § 1, 5-2-02)

Note—(Paragraph 4 of the Amended Plan appended to the Agreed Order, dated 1-18-90, in the case of Brown v. Board of Commissioners, U.S.D.C., No. CIV-1-87-388).

Sec. 10.7. Same—Rights of holders of revenue bonds.

Any holder or holders of revenue bonds, including a trustee or trustees for holders of such bonds, shall have the right, in addition to all other rights:

(a) By mandamus or other suit, action or proceedings in any court of competent jurisdiction to enforce his or their rights against the City of Chattanooga, the city council thereof, and the electric power board of said city and any other proper officer, agent or employee of any of them, including, but without limitation, the right to require the electric power board and any proper officer, agent or employee thereof to fix and collect rates and charges adequate to carry out any agreement as to the electric power plant and distribution system revenues.

(b) By action or suit in equity to enjoin any acts or things which may be unlawful or a violation of the rights of such holders of bonds.

(Priv. Acts 1937, Ch. 899, § 1; Ord. No. 11272, § 1, 5-2-02)

Sec. 10.8. Same—City Council authorized to confer certain rights upon bond holders.

The City of Chattanooga shall have power by resolution of its city council to confer upon any holder or holders of a specified amount or percentage of bonds the right in event of default as defined in such resolution or as may be defined in any agreement with the holder or holders of such bonds or the trustee or trustees therefor:

(a) By suit, action or proceedings in any court of competent jurisdiction to obtain the appointment of a receiver of the electric power plant and distribution system or any part or parts thereof. If such receiver be appointed he may enter and take possession of such electric power plant and distribution system or any part or parts thereof and operate and maintain the same, and collect the revenue thereafter arising therefrom in the same manner as the electric power board or City of Chattanooga might do and shall deposit such moneys in a separate account or accounts and apply the same in accordance with the obligations of the City of Chattanooga as the court shall direct.

(b) By suit, action or proceedings in any court of competent jurisdiction, to require the city council of the City of Chattanooga and the electric power board of said city to account as if they were the trustee on an express trust.

(Priv. Acts 1937, Ch. 899, § 1; Ord. No. 11272, § 1, 5-2-02)

Sec. 10.9. Same—Use of proceeds from sale of bonds.

All moneys received from bonds issued under this Act shall be used solely for the purpose of defraying the cost of acquiring or constructing an electric power and distribution system, and extension thereof, and the equipment, appliances and appurtenances necessary or appropriate thereto; provided, however, that such moneys may be also used to pay interest maturing on said bonds during negotiations for the acquiring of an existing electric power and distribution system, or during the construction of such power plant and distribution system, and until the system has been put into operation. The board hereinafter created is authorized to incur expenses for the making of surveys and estimates of costs and of revenues, and to certify the expense thereof to the city council of said city, who shall pay the same from the general funds of the city; and such payments from the general funds shall be considered as temporary loans, and shall be repaid, upon sale and delivery of said bonds, out of said bond fund.

(Priv. Acts 1935, Ch. 455, § 5; Ord. No. 11272, § 1, 5-2-02)

Sec. 10.10. What cost of electric power plant and distribution system to include.

The cost of the electric power plant and distribution system shall be deemed to include all necessary expenses of preliminary surveys, estimates of costs and of revenues, and all the cost of acquiring such power plant and distribution system or of the construction thereof also the cost of all necessary or suitable property; rights-of-way, casements [easements] and franchises; and also to include interest in bonds issued under this Act maturing prior to and during the construction or acquisition of the plant for six (6) months thereafter, together with engineering and legal expenses, expenses for plans, specifications and surveys, administrative expenses and all such other expenses as may be necessary or incidental to the financing of, acquiring or constructing and equipping an electric power and distribution system as herein authorized, and the placing of such power plant and distribution system is [in] operation.

(Priv. Acts 1935, Ch. 455, § 6)

Sec. 10.11. Statutes fixing maximum indebtedness of city not to apply to bonds issued under act.

No statute, general or special, fixing the maximum indebtedness of the said City of Chattanooga, or prohibiting the issuance of bonds, notes or other indebtedness, shall apply to or limit the amount of bonds that may be issued or the amount of money that may be borrowed under this Act and all acts or provisions of the Charter of said city in conflict with the provisions of this Act are hereby repealed.

(Priv. Acts 1935, Ch. 455, § 17)

Secs. 10.12—10.21. Reserved.

CHAPTER II. ELECTRIC POWER BOARD OF CHATTANOOGA

Sec. 10.22. Created; membership; term of office of members.

There is hereby created a board to be known and designated as the "Electric Power Board of Chattanooga," consisting of five (5) members, all of whom shall be residents of Hamilton County, Tennessee. Two (2) members of said board shall be appointed for a period of four (4) years; two (2) for a period of six (6) years, and one for a period of eight (8) years, and each of the members of the board shall serve until his successor is appointed and qualified. The first board shall consist of the following named persons, to wit: Stanton Smith and L.J. Wilhoite, who are appointed for a period of four (4) years; J.C. Twinam and George H. Patton, who are appointed for a term of six (6) years; and Harold C. Fiske, who is appointed for a period of eight (8) years, and who shall act as chairman of said board.

When the term of the first appointee, hereinabove named, expires, his successor shall be appointed to serve for a period of two (2) years or until his successor is elected and qualified, and thereafter, his successor shall be appointed for a period of five (5) years or until his successor is elected and qualified. Upon the expiration of the term of the second appointee, his successor shall serve for a period of four (4) years or until his successor is elected and qualified, and, thereafter, his successor shall be appointed for a period of five (5) years or until his successor is elected and qualified. Upon the expiration of the term of the third appointee, his successor shall be appointed for a term of three (3) years or until his successor is elected and qualified, and, at the expiration of said term of three (3) years, his successor shall be appointed for a term of five (5) years or until his successor is elected and qualified. Upon the expiration of the term of the fourth appointee, his successor shall be appointed for a term of five (5) years or until his successor is elected and qualified, and, thereafter, his successor shall be appointed for a term of five (5) years or until his successor is elected and qualified. On or about April 15, 2007 and every year thereafter, the members of the Electric Power Board shall elect from among their number a chairperson and a vice chairperson to serve for a year's term. The current chairperson shall continue as a member of the Board until the normal expiration of his five (5) year term as a Board member and thereafter his successor shall be appointed in the same manner and for the same length of term as other Board members.
(Priv. Acts 1935, Ch. 455, § 7; Priv. Acts 1941, Ch. 455, § 1; Ord. No. 11872, § 1, 8-22-06)

Sec. 10.23. Vacancies in office of board.

When the term of appointment of any member or members of said board shall have expired, or when any vacancy in the board occurs by reason of death, resignation, removal or other cause, the vacancy or vacancies shall be filled by appointments made by the mayor, subject to confirmation by the city council of the City of Chattanooga, and if any appointment made by the mayor shall not be confirmed by the city council within a period of ten (10) days after notice of the appointment has been given to the city council, such appointment shall be null and void, and thereupon it will be the duty of the mayor to make a new appointment or appointments, which shall likewise be subject to confirmation by the city council of the City of Chattanooga.
(Priv. Acts 1935, Ch. 455, § 7; Ord. No. 11872, § 1, 8-22-06; Ord. No. 11272, § 1, 5-2-02)

Sec. 10.24. General counsel—Position created; appointment of assistants.

There is hereby created the position of general counsel of said electric power board for a period of eight (8) years. The first general counsel of said board shall be Will F. Chamblee, who shall serve for a period of

eight (8) years from and after the passage of this Act, or until his successor is appointed and qualified. Provided, further, that said general counsel shall have full authority to select and appoint his legal assistants subject, however, to approval of the board.
(Priv. Acts 1935, Ch. 455, § 7)

Sec. 10.25. Same—Vacancy in office.

When the term of appointment of the general counsel of said board shall have expired, or when any vacancy occurs by reason of death, resignation or other cause, the vacancy in the position of general counsel shall be filled by appointment made be [by] the board.
(Priv. Acts 1935, Ch. 455, § 7)

Sec. 10.26. Compensation; duties of chairman; selection, duties of vice-chairman.

The compensation of the chairman shall be nine thousand dollars ($9,000.00) per annum, and he shall have immediate charge of the operating departments, the financial department, and the management of the electric distribution system, plant, equipment and other property belonging to the system, and shall be chargeable with the enforcement and execution of all rules and regulations, programs, plans and decisions made and adopted by the board.

The board shall elect one of its members vice-chairman, who, in the absence of the chairman or his inability to act, shall discharge the duties of the chairman and such other duties as may be prescribed by the board. The compensation of the vice-chairman of the board shall be eighteen hundred dollars ($1,800.00) per annum and the compensation of the other members of the board shall be twelve hundred dollars ($1,200.00) per annum.

The compensation of the general counsel shall be in such amount or amounts as the board shall determine from time to time, and all compensation of the general counsel and assistants and the members of said board shall be payable monthly out of the revenue derived from the operation of said power plant and distribution system, provided however, that the compensation of said board and the general counsel and assistants prior to the time that said power plant and distribution system shall be put into operation and is earning sufficient revenue to pay the same, may be paid out of the proceeds of the bonds issued and sold under this Act, and provided further that the compensation of the general counsel and assistants and of the other members of said board prior to the issuance and sale of said bonds, shall be paid out of the general funds of the city, and such payment from the general funds shall be considered as a temporary loan and shall be refunded out of the proceeds of the sale of the bonds when realized.
(Priv. Acts 1935, Ch. 455, § 7; Priv. Acts 1941, Ch. 455, § 2; Priv. Acts 1951, Ch. 27, § 1; Priv. Acts 1970, Ch. 280, § 1; Priv. Acts 1970, Ch. 318, § 1)

Editor's note—Private Acts 1970, Ch. 280, § 1, and Private Acts 1970, Ch. 318, § 1, amended the acts codified as § 10.26 by increasing the salaries. Formerly the chairman received $6,000.00; the vice-chairman, $1,800.00; each board member, $900.00; the general counsel, not less than $6,000.00 nor more than $7,500.00.

Sec. 10.27. Organization of board.

Said board shall organize immediately after the passage of this Act, and enter upon the discharge of its duties, and the board may, in its discretion, employ someone not a member of the board to act as secretary.
(Priv. Acts 1935, Ch. 455, § 7)

Sec. 10.28. Oath and bond of members of board.

The members of said board hereinbefore designated and all subsequent members before entering upon the discharge of the duties of their office, shall take and subscribe to an affidavit before any person authorized

to administer an oath that they will faithfully and honestly discharge the duties of their office, and they shall file said affidavit with the mayor and city council of said city, and each member of the board shall execute and file with the mayor and city council a bond in the sum of five thousand dollars ($5,000.00), payable to the City of Chattanooga, Tennessee, conditioned for the faithful performance of his duties.
(Priv. Acts 1935, Ch. 455, § 8; Ord. No. 11272, § 1, 5-2-02)

Sec. 10.29. Removal of members of board from office.

Any member of said board who shall knowingly or willfully neglect to perform any duty enjoined upon him by virtue of the provisions of this Act or of the laws of the State of Tennessee, or who shall prove incompetent to perform or shall fail to perform the duties of his office, or who shall be guilty of any act involving moral turpitude shall be removed from office, as hereinafter provided.

It shall be the duty of the city attorney of the said City of Chattanooga, on notice being filed with him in writing that any member of said board is subject to removal on the grounds set forth in the last preceding section [paragraph], to forthwith investigate such complaint and if upon such investigation he shall find there is reasonable cause for the complaint he shall forthwith institute proceedings by filing a petition in the circuit, criminal or chancery court of Hamilton County, Tennessee, to oust such member from said board. The accused member shall be named as defendant to the petition or complaint, which shall state the charges against the defendant with reasonable certainty and shall be verified by affidavit.

Upon the filing of the petition, a summons shall issue, requiring the defendant to appear and answer the petition within twenty (20) days from the service thereof, and there shall accompany the summons and be served upon the defendant a copy of the petition so filed against him. The petition and answer shall constitute the only pleadings allowed, and all allegation[s] in the answer inconsistent with or contradictory of the allegations of the petition shall be deemed controverted, and any and all questions as to the sufficiency of the petition shall be raised and determined on the trial; and if such petition or complaint is held to be insufficient in form the same shall be amended at once and such amendment shall not delay the trial of the case. The proceedings, whether in the circuit, criminal, or chancery court, shall be conducted in accordance with the procedure of courts of chancery, and each of said courts is hereby given the full jurisdiction and powers of courts of equity with respect to such proceedings.

Such proceedings shall be given precedence over all other civil and criminal cases, and shall be tried at the first term after the filing of the petition, provided the answer to the petition shall have been filed at least ten (10) days before the day of trial. If the defendant shall fail to answer said petition within twenty (20) days after the service thereof or if on trial he shall be found guilty as charged in the petition, judgment of ouster shall be rendered against him and he shall be ousted and removed from his office and forever disqualified from again being a member of the board. Either party may appeal or prosecute a writ of error to the supreme court from the final judgment or decree rendered in such cause, but such appeal or writ of error shall not operate to suspend or vacate the judgment or decree of the trial court, but the same shall remain in full force until vacated, reversed or modified by the supreme court. Upon petition being filed as herein provided against any member of said board praying for his ouster or removal, the court in which the petition is filed may suspend the defendant from acting as a member of the board or performing any of the duties thereof pending the final determination of the case; and the vacancy caused by such suspension shall be filed as provided in this Act for the filling of other vacancies on said board and the person filling such vacancy shall act as a member of the board until the ouster proceedings shall be finally determined or until the successor of the member so suspended shall be appointed and qualified as provided in this Act. If upon the final hearing of such ouster proceeding the defendant is not found to be subject to removal or ouster he shall be immediately restored as a member of said board if he has been suspended in the meantime, and he

shall be allowed his full salary during the time of his suspension. The person temporarily filling the office of member of the board, as herein provided, shall receive compensation during the time of his service at the same rate provided by this Act, to be paid to the member so suspended.
(Priv. Acts 1935, Ch. 455, §§ 9, 10)

Sec. 10.30. Authority of power board to purchase, construct, etc., electric power plant, distribution system, etc.; authority to contract with Tennessee Valley Authority, etc.

Said Electric Power Board of Chattanooga be and they are hereby authorized to purchase, construct, erect or otherwise acquire and to maintain and operate the electric power plant, distribution system, substations, etc., hereinbefore provided for; and said board shall have full power and authority to purchase, rent, lease or otherwise acquire any and all kinds of property, real or personal, for the said City of Chattanooga, in order to carry out the powers herein granted, and also to enter into any and all contracts with the Tennessee Valley Authority or others for the furnishing of electric current to the City of Chattanooga, and to enter into any other contracts with any other persons, partnerships, associations or public or private corporations which may be by said board deemed necessary or expedient in exercising said powers; and said board shall have full control over the erection, construction, maintenance and operation of said plants and properties with full power to make rules for the control and maintenance of said plants and properties, the manner of operation, and the employment of officials and employees of every kind. Said board may acquire by purchase and [an] existing electric power plant and distribution system with substation appurtenances, equipment, etc., and it is authorized to carry on all necessary or proper negotiations therefor; and in the event the board is unable to acquire an existing power plant and distribution system within a reasonable time and on terms which it considers to be fair and reasonable, it is authorized to make the necessary surveys and enter into contracts for the construction of such power plant, districution [distribution] system, substations, etc., and the equipment and appliances necessary or appropriate thereto. The board is also authorized to enter into contracts with the Tennessee Valley Authority or other agencies for the furnishing of electric current to the said City of Chattanooga to be used by said city for its own purposes and, also to sell the same for light, power, heating or any other purpose, and to agree on rates for the sale of such current.
(Priv. Acts 1935, Ch. 455, § 11)

Sec. 10.31. Power board to have exclusive management and control of operation of power plant, distribution system, etc.; authority to engage, fix salaries, etc., of employees; semiannual financial statement to be filed with City Council.

Said Electric Power Board of Chattanooga shall have exclusive management and control of the operation of said electric power plant and distribution system, with authority to engage, determine the number, and fix the salaries and duties of, all employees and to remove employees at their discretion; provided, said board may in its discretion delegate to a manager or superintendent to be chosen by it the power and authority to employ and remove subordinate employees. The board shall provide an accounting system, and all revenues collected from the operation of the said power plant and distribution system shall be deposited in the name of the City of Chattanooga and kept in a separate fund and shall be dispersed upon warrants of the said board drawn on the city treasurer, the warrants to be signed by the secretary of the board and approved by the general manager of the power plant and distribution system. Said board shall make and file with the mayor and city council of said city on the first day of January and first day of July of each year a financial statement showing the financial operations during the preceding six (6) months and the financial condition of the said power and distribution plant.
(Priv. Acts 1935, Ch. 455, § 12; Ord. No. 11272, § 1, 5-2-02)

Sec. 10.32. Board to charge city for services.

The said Electric Power Board of Chattanooga shall charge the said city for any electric service furnished it at rates applicable to other customers served under similar conditions; and the revenue derived from such services shall be treated as all other revenues of said board or power system.
(Priv. Acts 1935, Ch. 455, § 13)

Sec. 10.33. Use of revenue derived from operation of electric power plant and distribution system.

The revenues derived from the operation of said electric power plant and distribution system shall be used for the following purposes:

(1) Current electric system operating expenses, including, without limitation salaries, wages, cost of materials and supplies, power at wholesale, and insurance;

(2) Current payments of interest on electric system indebtedness, and the payment of principal amounts, including sinking fund payments, when due;

(3) From any remaining revenues, reasonable reserves for renewals, replacements, and contingencies, and cash working capital adequate to cover operating expenses for a reasonable number of weeks; and

(4) From any revenues then remaining, tax and tax equivalent payments to taxing districts (defined for purposes hereof as governmental bodies, including without limitation the City of Chattanooga, and other taxing jurisdictions in which the tangible property used in board's electric operations is located) as follows:

(a) The board shall determine as of the first day of January 1969, and as of the first day of January each and every year thereafter from the general books of the board, the depreciated original cost of the board's tangible property, including materials and supplies, used or usable in electric operations in each taxing district, including the City of Chattanooga, in which the board has such property.

(b) The board shall create each year as soon as current ad valorem tax rates are available a tax equivalent fund for that year by applying the current ad valorem tax rate in each taxing district to the depreciated original cost of the board's tangible property, including materials and supplies, used or usable in electric operations with such taxing district.

(c) The board shall make payments from this tax equivalent fund within the period allowed for tax payments without penalty the following as taxes or tax equivalents:

(1) To each taxing district the amount of taxes assessed against the board as legally assessed taxes;

(2) To each other taxing district where no taxes are legally assessed against the board an amount arrived at by applying the current ad valorem tax rate in that district to the depreciated original cost of the board's tangible property, including materials and supplies, used or usable in electric operations in that district; and

(3) To the City of Chattanooga as the owner of the board's electric system (no matter where located), in addition to the amount determined under clause (2) of paragraph (c) above, any remaining amount of the tax equivalent fund not paid out in accordance with clauses (1) and (2) of paragraph (c) above; provided, however, that with respect to taxing districts other than those which levy taxes against the board the amount to which the current ad valorem tax rate of any taxing district is applied under paragraph (b) and clause (2) of paragraph (c) above, shall not be less than the amount to which said district's tax rate was applied for purposes of determining the tax equivalent for that district for the year 1968; and provided, further, that the payments in lieu of taxes hereunder shall be in lieu of all taxes and other charges on the property or operations of board's electric system, or upon the sale, purchase, use, or consumption of electric power and energy, and such payments shall be made only so long as

the respective taxing districts do not levy such taxes or other charges. In the event that any taxing district is hereafter authorized to and does levy any such tax or charge, the amount payable as a tax equivalent to that taxing district and the total amount payable into the tax equivalent fund created by board shall be reduced by the amount of such tax or charge; provided, however, that in no event shall any such reduction resulting from such tax or charge levied by any taxing district other than Chattanooga cause the sum of (1) the amount paid hereunder to the City of Chattanooga and (2) any portion of such tax or charge received directly or indirectly by the City of Chattanooga to be less than an amount calculated by applying the prevailing tax rate of said city to the depreciated original cost of the tangible property used in board's electric operations within the corporate limits of the city; provided further that nothing herein or in the provisions of this Act, as amended, shall have the effect of limiting or restricting the powers of the City of Chattanooga and the Electric Power Board of Chattanooga to contract otherwise with respect to payments in lieu of taxes either with any supplier of wholesale power or with purchasers or holders of its bonds issued for electric system purposes.

(5) The determination by the board of the respective amounts of the payments in lieu of taxes to be made to the taxing districts and of the funds available for such payments shall be final.

(Priv. Acts 1935, Ch. 455, § 14; Priv. Acts 1939, Ch. 538, § 2; Priv. Acts 1941, Ch. 455, § 3; Priv. Acts 1945, Ch. 53, § 1; Priv. Acts 1968, Ch. 310, § 1)

Sec. 10.34. Board to have control and supervision of expenditure of funds from sale of bonds.

Said board shall have control and supervision of the expenditure of the funds realized from the sale of the bonds herein authorized, which fund shall be disbursed upon warrants of said board signed by the secretary of the board and approved by the chairman thereof.

(Priv. Acts 1935, Ch. 455, § 15)

Sec. 10.35. Power of eminent domain.

Said board is expressly authorized to exercise the power of eminent domain on behalf and in the name of the City of Chattanooga within the said city and the boundaries of Hamilton County, Tennessee, in order to require [acquire] any property, real or personal, necessary or useful in exercising the power and authority conferred by this Act; and any property so acquired shall be paid for out of the earnings of the power plant and system herein provided for, or from the proceeds of the bond issue authorized by this Act. The title to all property taken for the purpose of exercising the powers conferred by this Act whether acquired by contract or by exercise of the power of eminent domain, shall be taken in the name of the City of Chattanooga, Tennessee; and such condemnation proceedings as may be deemed necessary or proper shall be pursuant to and in accordance with the provisions of Section 3109 and Section 3134, inclusive, of the 1932 Code of Tennessee. [T.C.A. §§ 29-16-101—29-16-124].

(Priv. Acts 1935, Ch. 455, § 16)

Title 11

ORDINANCES AND RESOLUTIONS*

Chapter I. In General

Sec. 11.1. General authority of City Council.
Sec. 11.2. Required readings; subject matter.
Sec. 11.3. Introductory clause.
Sec. 11.4. When ordinances take effect.
Sec. 11.5. Signing of ordinances, maintenance of ordinances, and resolutions.
Sec. 11.6. Veto power of mayor-generally.
Sec. 11.7. Same—Item veto.
Sec. 11.8. Ordinances may become valid without signature of mayor.
Sec. 11.9. Vote required for passage of ordinances, etc.
Sec. 11.10. Existing ordinances saved; amendment and repeal.
Sec. 11.11. Codification—Authority of city generally.
Sec. 11.12. Same—Amendment, repeal, etc., of existing ordinances; Code conclusive as to law in city; use of evidence.
Sec. 11.13. Same—Severability of sections, etc., of City Code.
Secs. 11.14—11.23. Reserved.

Chapter II. Initiative and Referendum

Sec. 11.24. Initiative.
Sec. 11.25. Referendum.

*__Cross reference—__Requirements for ordinances granting franchises, § 7.2.

CHAPTER I. IN GENERAL

Sec. 11.1. General authority of City Council.

The city council shall have power to pass for the government of the city any ordinance not in conflict with the Constitution of the United States or the Constitution of the State of Tennessee or the statutes thereof.
(Priv. Acts 1901, Ch. 432, § 9; Priv. Acts 1911, Ch. 10, §§ 13, 15; Ord. No. 11272, § 1, 5-2-02)

Cross reference—Powers of city enumerated generally, § 2.1.

Sec. 11.2. Required readings; subject matter.

No ordinance shall be valid unless passed on two (2) separate readings after an opportunity for free discussion thereof; however, this prohibition shall not apply to a motion, a motion in the nature of a resolution, or a resolution not having the force and effect of an ordinance, and such motions and resolutions shall be effective upon passage by the city council. No ordinance shall be valid if passed on the first and final reading on the same day. This section shall not apply to a franchise ordinance. No ordinance of any kind shall be invalid if it should embrace more than one (1) subject. All resolutions heretofore passed by the city which were motions in the nature of a resolution, or were resolutions not having the force and effect of an ordinance, are hereby validated notwithstanding they were passed and executed after one (1) reading.
(Priv. Acts 1901, Ch. 432, § 9; Priv. Acts 1911, Ch. 10, §§ 13, 15; Priv. Acts 1969, Ch. 82, § 3; Ord. No. 11272, § 1, 5-2-02; Ord. No. 11590, § 1, 8-3-04)

Editor's note—Ordinance No. 11590, Section 1, amended Section 11.2 to read as herein set out. Formerly, said section said required three readings of ordinances.

Sec. 11.3. Introductory clause.

The style or introductory clause of all ordinances shall be: "Be it ordained by the City Council of the City of Chattanooga."
(Priv. Acts 1911, Ch. 10, § 15; Ord. No. 11272, § 1, 5-2-02)

Sec. 11.4. When ordinances take effect.

Ordinances shall take effect upon becoming law or at such other and subsequent time as the Council may designate within the Ordinance.
(Priv. Acts 1911, Ch. 15, § 3, Ord. No. 11592, § 1, 8-3-04; Ord. No. 11272, § 1, 5-2-02)

Sec. 11.5. Signing of ordinances, maintenance of ordinances, and resolutions.

Every ordinance upon final passage shall be signed by the council chairperson, vice-chairperson or chairperson pro tempore, and shall also be approved or vetoed by the mayor and shall then be delivered to the clerk of the city council whose duties it shall be to maintain same as required by law. Resolutions are not required to be signed but shall be numbered and maintained by the Clerk of the Council for such period as may be required by applicable laws and regulations or directive of the City Council.
(Ord. No. 12677, § 21, 12-18-12)

Sec. 11.6. Veto power of mayor-generally.

All resolutions and ordinances passed by the board, except resolutions calling for information from the mayor and ordinances fixing the compensation of a mayor pro tem, shall be subject to approval or disapproval of the mayor. If the mayor should disapprove of any ordinance or resolution, he shall specify

his objection thereto in writing by the next regular meeting of the city council. Such ordinance or resolution so disapproved or vetoed by the mayor shall not be valid unless passed over said veto by a majority vote, to be taken by ayes and nays, and a record thereof entered on the minutes.
(Priv. Acts 1901, Ch. 432, §§ 17, 28; Priv. Acts 1911, Ch. 10, § 15; Ord. No. 11272, § 1, 5-2-02)

Sec. 11.7. Same—Item veto.

The mayor may disapprove any item or items in an ordinance making appropriations, and the part or parts of such ordinance approved by him shall be valid, but the item or items disapproved shall not be effective unless again passed as required for the passage of an ordinance, notwithstanding the mayor's veto.
(Priv. Acts 1901, Ch. 432, § 28)

Sec. 11.8. Ordinances may become valid without signature of mayor.

Should the mayor withhold any such resolution or ordinance beyond the day for the next regular meeting, and the city council actually meets, if three (3) days shall have intervened between the presentation to the mayor and said meeting, it shall be obligatory as if signed.
(Priv. Acts 1901, Ch. 432, § 28; Priv. Acts 1911, Ch. 10, § 13; Ord. No. 11272, § 1, 5-2-02)

Sec. 11.9. Vote required for passage of ordinances, etc.

The affirmative votes of five (5) members shall be necessary to adopt any motion, resolution or ordinance or pass any measure.
(Priv. Acts 1911, Ch. 10, § 14; Ord. No. 11272, § 1, 5-2-02)

Sec. 11.10. Existing ordinances saved; amendment and repeal.

All ordinances now in force and not in conflict with this Act or the constitution or statutes of the state, are continued in force, but the city council shall have power to amend or repeal any of them by ordinance.
(Priv. Acts 1901, Ch. 432, § 11; Priv. Acts 1911, Ch. 10, § 13; Ord. No. 11272, § 1, 5-2-02)

Sec. 11.11. Codification—Authority of city generally.

The city attorney and his assistants shall cause to be prepared a codification of the City Charter of the City of Chattanooga and all amendments thereto, and all ordinances and resolutions of said city of general application or having regulatory effect, which are in force and effect as of the date of such codification. Said codification shall be known and designated as the City Code of the City of Chattanooga. The Code shall carry notes and cumulative reference indicating prior amendments to any section thereof and all case citations. The City Code shall be updated at least annually and then current copies shall be maintained in the Office of the City Attorney and in the Office of the Clerk of Council.

Copies of said official Code and all annual supplements shall be certified by the city attorney, and when so certified shall be competent evidence as to the matters contained therein. Copies of the official Code shall be maintained electronically on the city's website or upon any technologically advanced electronically accessible site maintained on behalf of the city.

The codification of the city charter and ordinances shall be in two volumes. PART I shall contain the codification of the provisions of the charter, with separate index; PART II, shall contain the ordinances of the city, with separate index. PART II, shall contain ordinances and resolutions adopted in the form of an ordinance in the same form and manner as now provided for the passage of ordinances by the city. The city council of the city shall designate PART II, as the Official Code of Chattanooga, and shall have authority to amend, and to enact additional ordinances other than those contained in such official code, from time to time. The codification of the City Charter in Part I and the ordinances and resolutions in Part II or copy

thereof which is duly certified by the city attorney or the clerk of the city council as a true and correct copy of said Charter, Code, or supplement may be read in evidence in any court in this state without further proof of passage.
(Priv. Acts 1957, Ch. 193, § 2; Priv. Acts 1961, Ch. 341, § 1; Ord. No. 12677, § 22, 12-18-12)

Sec. 11.12. Same—Amendment, repeal, etc., of existing ordinances; Code conclusive as to law in city; use of evidence.

The City of Chattanooga, in the preparation of any digest of its local laws and ordinances is hereby empowered and authorized to codify, revise and collect in the form of a Code all ordinances of a general nature, and in so doing, the city council shall have full power and authority without special ordinance referring to each ordinance amended, altered, repealed or modified, to amend, alter, repeal or modify any ordinance of a general nature other than contract ordinances, franchise ordinances, ordinances relating to bond issues or other ordinances in or by which the city has assumed such contract obligations as are protected by the Constitution of the United States or the State of Tennessee. Such Code shall be in the form of an ordinance and shall be published by the city council in the same form and manner as is now provided for the passage of other ordinances. The provisions of any such Code shall be conclusively held to be the law of the City of Chattanooga from and after its passage with respect to any subject or provision contained therein. Such Code or any copy thereof which purports to be published by authority of the City of Chattanooga may be read in evidence in any court in this state without further proof of its passage.
(Priv. Acts 1939, Ch. 572, § 2; Ord. No. 11272, § 1, 5-2-02)

Sec. 11.13. Same—Severability of sections, etc., of City Code.

The invalidity of any section or part of section of such Code shall not affect the validity of any part of such Code, and only such invalid part shall be elided from such Code.
(Priv. Acts 1939, Ch. 572, § 5)

Secs. 11.14—11.23. Reserved.

CHAPTER II. INITIATIVE AND REFERENDUM

Sec. 11.24. Initiative.

Any proposed ordinance may be submitted to the city council of the City of Chattanooga by petition signed by the qualified voters of said city equal in number to twenty-five per centum (25%) of the votes cast for all the candidates for mayor at the last preceding general municipal election, with the request that said ordinance be submitted to a vote of the people, if not passed by the city council. The signatures, verification, inspection, amendment and certification of each petition shall be the same as provided in section 23 of the Act hereby amended [section 3.18 hereof]. If the commissioners of election certify to the sufficiency of the petition, the proposed ordinance and petition shall be filed, with the city finance officer, and thereupon either (1) the city council shall pass such ordinance without alteration within six (6) weeks after it is so filed, or, if they fail or refuse to do so, (2) the city finance officer shall transmit said ordinance and petition, together with his certificate that the city council fail or refuse to pass such an ordinance, to the commissioners of election, whose duty it shall then be to call special election to be held as soon as may be done conformably to law, unless a general municipal election is fixed to be held within ninety (90) days; and at said special election, if one is so fixed, said ordinance shall be submitted without alteration to the vote of the qualified voters of said city. The ballots used when voting upon said ordinance shall contain these words: "For the Ordinance" (stating the nature of the proposed ordinance) and "Against the Ordinance" (stating the nature of the proposed ordinance). If a majority of the qualified voters voting on the proposed ordinance shall vote

in favor thereof, such ordinance shall thereupon become as valid and binding an ordinance of the city as if duly passed by the board of commissioners; and any ordinance proposed by petition or which shall be adopted by a vote of the people, cannot be repealed or amended except by a vote of the people.

Any number of proposed ordinances may be voted upon at the same election in accordance with the provisions of this section, but there shall not be more than one special election in any period of six (6) months for such a purpose.

The city council may submit a proposition for the repeal of any such ordinance or for amendments thereto, to be voted upon at any succeeding general city election; and should such proposition so submitted receive a majority of the votes cast thereon at such election, such ordinance shall thereby be repealed or amended accordingly. Whenever any ordinance or proposition is required by this Act to be submitted to the voters of the city at any election, the city finance officer shall cause such ordinance or proposition to be published in each of the daily newspapers published in said city, such publication to be not more than twenty (20) nor less than five (5) days before the submission of such proposition or ordinance to be voted on.
(Priv. Acts 1911, Ch. 15, § 2; Ord. No. 9433, § 1, 8-21-90; Ord. No. 10742, § 1(1), 8-18-98; Ord. No. 11272, § 1, 5-2-02)

Sec. 11.25. Referendum.

No ordinance passed by the city council, except an ordinance which the public peace, health or safety shall require to take effect immediately and which shall contain a statement of such urgency and be passed by a vote of more than five (5) of the city council, shall go into effect before two (2) weeks from its final passage; and if, during said two (2) weeks a petition such as is hereinafter described to be filed with the city finance officer protesting against the passage of said ordinance, the same shall be suspended from going into operation, and it shall be the duty of the city council to reconsider such ordinance; and if the same is not entirely repealed, the city finance officer shall transmit said petition with his certificate of the action of the city council thereon to the commissioners of election, whose duty it shall then be to submit said ordinance to a vote of the qualified voters of said city at a general election or a special election called for that purpose in like manner as provided in the second section of this Act [section 11.24 hereof], and said ordinance shall not go into effect or become operative unless a majority of the qualified voters voting upon the same shall vote in favor thereof. Said petition shall be in all respects in accordance with the provisions of the second section of this Act [section 11.24 hereof], but it shall be the duty of the said commissioners of election to examine and certify the same within said period of two (2) weeks.
(Priv. Acts 1911, Ch. 15, § 3; Ord. No. 10742, § 1(1), 8-18-98; Ord. No. 11272, § 1, 5-2-02)

CHAPTER I. PLANNING*

Sec. 12.1. Municipal Planning.

The legislative body of the City is authorized to create and establish a Municipal Planning Commission with full authority to act on all zoning plans, plots, replots, recommendations, dedications, and utilities pursuant to laws of the State of Tennessee, including Priv. Acts 1923, Ch. 397, §§ 1 - 9 and as the same may have been amended, and other Private Acts of the Tennessee General Assembly and General Laws of the State which are applicable to the City of Chattanooga, and to provide appropriating funding and hiring of staff to perform duties of the Municipal Planning Commission. The legislative body of the City is further authorized to enter into Interlocal Agreements pursuant to State law for the funding of a Regional Planning Commission and/or Regional Planning Agency as authorized by State law.
(Ord. No. 12677, § 23, 12-18-12)

Secs. 12.2—12.20. Reserved.

CHAPTER II. ZONING†

Sec. 12.21. Zoning.

The legislative body of the City has been empowered with full authority pursuant to laws of the State of Tennessee, pursuant to Priv. Acts 1923, Ch. 402, §§ 1 - 7 and as the same may have been amended, including other Private Acts of the Tennessee General Assembly and General Laws of the State to establish zoning or land use regulations applicable to the City of Chattanooga, which regulate the location, height, bulk, number of stories and size of buildings and other structures, the percentage of the lot which may be occupied, the sizes of yards, courts and other open spaces, the density of population, and the uses of buildings, structures and land for trade, industry, residence, recreation, public activities and other purposes, and to identify areas where there are inadequate or nonexistent publicly or privately owned and maintained services and facilities which the planning commission may determine that services are necessary in order for development to occur. The legislative body of the City has further been empowered to establish Special districts or zones in those areas deemed subject to seasonal or periodic flooding, and such regulations may be applied therein as will minimize danger to life and property, and as will secure City residents eligibility for flood insurance under State and federal laws, as may be amended, or subsequent related laws or regulations promulgated thereunder. The legislative body has further been empowered to provide for the protection and encouragement of access to sunlight for solar energy systems which may be considered in promulgating zoning regulations and any other appropriate land use regulations which are authorized by the General Laws of the State. The legislative body may establish a Board of Appeals as authorized by State law to hear appeals from decisions by the City on zoning and land use decisions.
(Ord. No. 12677, § 24, 12-18-12)

Sec. 12.22. Height, area regulations authorized generally; purposes.

Such legislative body may regulate by ordinance and limit the height and the bulk of the buildings hereafter erected, or hereafter altered as provided in the fifth section [section 12.25] hereof, and regulate and determine the percentage of land area to be devoted to yards, courts, and other open spaces, and for said

†**Cross reference—**Zoning of filling stations, § 2.1(55).

State law reference—Zoning generally, T.C.A. §§ 13-7-201 et seq.

purposes may divide the municipality into districts of such number, shape and area as may be deemed best suited to carry out the purpose of this section. Such regulations shall be uniform for each class of buildings throughout each district, but the regulations in one or more districts may differ from those in another district.

Such regulations shall be made in accordance with a comprehensive plan, and designed to lessen congestion in the streets; to secure safety from fire, panic and other dangers; to provide adequate light and air; to prevent the overcrowding of land; to avoid undue concentration of population; to facilitate the adequate provisions of transportation, water, sewerage, schools, parks, and other public requirements, and otherwise to promote the public safety, health, convenience, and the general welfare. Such regulations shall be further made with reasonable consideration to the character of the district, the character of the buildings then existing therein, and the value of the land therein, and the peculiar suitability of the district for particular uses, and with a further view to conserving the value of the buildings, stabilizing the value of land and encouraging the most appropriate use of land throughout such municipality, all for the purpose of promoting the public health, safety, convenience, and the general welfare.
(Priv. Acts 1923, Ch. 402, § 2)

Sec. 12.23. Repealed.
(Ord. No. 11309, § 1, 8-22-02)
Editor's note—The repealed section dealt with recommendations of planning commission.

Sec. 12.24. Repealed.
(Ord. No. 11309, § 1, 8-22-02)
Editor's note—The repealed section dealt with changes in regulations

Sec. 12.25. Pre-existing uses and structures.

The lawful use of premises existing at the time of the adoption of an ordinance under the provisions of this Act [chapter], although such use does not conform to the provisions of such ordinance, may be continued; and the lawful use of a building existing at such time, although such use does not conform to the provisions of such ordinance, may be continued throughout the life of the building; provided, that no alteration thereof to a greater extent than fifteen per cent (15%) of the then value of such building, except those required or permitted by an ordinance adopted hereunder, are made therein; but if such nonconforming use is discontinued, any future use of said premises shall be in conformity with the provisions of ordinance and regulations adopted under the authority of this Act [chapter].

When structural alterations greater in extent than fifteen per cent (15%) of the then value of the building are made in a building of nonconforming use, such building shall be altered in conformity with the provisions of ordinances and regulations adopted under the authority of this Act [chapter], for the district in which such building is located, and thereafter the use of such building shall be in accordance with ordinances adopted hereunder.

When the boundary line of any such district divides a parcel of ground in common ownership at the time of the adoption of an ordinance under the provisions of this Act [chapter], nothing herein shall be construed to prevent the extension of the use existing on either portion of such parcel of ground, to the entire parcel, but for a distance of not greater than twenty-five (25) feet from such boundary line.

Nothing in this Act [chapter] shall be taken to prevent: (a) the erection of a building for which a permit shall have been issued previous to the passage of an ordinance under the provisions of this Act [chapter]; (b) the restoration of a building destroyed to the extent of not more than seventy-five per cent (75%) of its

reasonable value, by fire, explosion, or other casualty, or act of God, or the public enemy, nor the continued occupancy or use of such building or part thereof after restored, which existed at the time of such partial destruction; (c) the restoration of a wall declared unsafe by the building inspector.
(Priv. Acts 1923, Ch. 402, § 5)

Sec. 12.26. Advisory and appeals board.

The legislative body of such municipality may create a board whose duty it shall be to advise the mayor of such municipality or other officer having control over the enforcement of the provisions of an ordinance adopted under this Act [chapter], with reference to the proper enforcement and application of the provisions of such ordinance. Such board may be given power to hear appeals from the action of such building commissioner or other officer aforesaid, and determine the rights of such applicant. The decision of such board, however, shall be subject to review by the city council of such municipality. The board herein provided for may consist of the city planning commission, where such commission exists in any municipality, or any portion thereof as provided for by ordinance, such portion thereof to be selected by the mayor, by and with the consent of the legislative body of the municipality.
(Priv. Acts 1923, Ch. 402, § 6; Ord. No. 11272, § 1, 5-2-02)

Sec. 12.27. Penalties and enforcement.

The legislative body of such municipality may fix such penalty or fine for the violation of any ordinance adopted hereunder as it may be authorized to do by charter or the general law, to be enforced and collected as provided by charter or general law; and in addition, such municipality shall have power to file a bill to restrain such threatened violation or to abate it once initiated or carried on.
(Priv. Acts 1923, Ch. 402, § 7)

Secs. 12.28—12.37. Reserved.

CHAPTER III. PLATS AND SUBDIVISIONS

Sec. 12.38. Plats and subdivisions.

The legislative body of the City has been authorized to provide for the development of plats and subdivisions for registration in the office of the County Register pursuant to Priv. Acts 1923, Ch. 405, §§ 1 - 2 and as the same may have been amended, including other Private Acts of the Tennessee General Assembly and General Laws of the State which are applicable to plats and subdivisions which are developed within the City of Chattanooga.
(Ord. No. 12677, § 25, 12-18-12)

Chapter IV. Fire and Police Pension

Sec. 13.63. Fire and Police Pension Fund.
Sec. 13.64. Amendments by ordinance.
Secs. 13.65—13.86. Reserved.

CHAPTER I. IN GENERAL

Sec. 13.1. Reserved.

Editor's note—Ord. No. 10743, § 1(1), adopted August 18, 1998, proposed an amendment to the charter, subsequently approved at a referendum of the electorate November 3, 1998. Said ordinance repealed Priv. Acts 1901, Ch. 432, § 57, as amended by Priv. Acts 1911, Ch. 10, § 13, relating to the powers of the chief of police generally.

Sec. 13.2. Reserved.

Editor's note—Ord. No. 10743, § 1(1), 8-18-98, repealed Priv. Acts 1901, Ch. 432, § 58, relating to the powers of policemen generally.

Sec. 13.2.1. Reserved.

Editor's note—Ord. No. 10743, § 1(1), 8-18-98, repealed Priv. Acts 1969, Ch. 155, § 2, relating to a table of organization for the fire department.

Sec. 13.3. Special policemen.

The chief of police, with the approval of the city council, may, in case of need, appoint special policemen to do special duty at any place within the city, and on such terms as the city council may deem proper. (Priv. Acts 1901, Ch. 432, § 59; Priv. Acts 1911, Ch. 10, §§ 13, 17, 20; Ord. No. 10743, § 1(2), 8-18-98)

Sec. 13.4. Reserved.

Editor's note—Ord. No. 10743, § 1(1), 8-18-98, repealed Priv. Acts 1901, Ch. 432, § 56, as amended by Priv. Acts 1911, Ch. 10, § 13, relating to qualifications for firemen and policemen.

Sec. 13.5. Reserved.

Editor's note—Former Sec. 13.5 relating to maximum age of new employees was repealed by Ord. No. 9767, § 1, 8-11-92.

Sec. 13.6. Reserved.

Editor's note—Ord. No. 10743, § 1(1), 8-18-98, repealed Priv. Acts 1967, Ch. 299, § 3, relating to requiring persons employed by the City as firemen or policemen to furnish a birth certificate.

Sec. 13.7. Political activities.

No officer or any member of the fire or police department shall be called on for any contribution or assessment by any political organization or member or committee thereof. No officer or member of either of said departments shall be allowed to solicit any contribution, or to sell any ticket, or to procure money by any device from the public without consent of the city council. Any person violating any of the provisions of this section shall, upon conviction in the city court, be fined not exceeding fifty dollars ($50.00). (Priv. Acts 1901, Ch. 432, § 60; Priv. Acts 1901, Ch. 495, § 3; Priv. Acts 1911, Ch. 10, § 13; Ord. No. 11272, § 1, 5-2-02)

Sec. 13.8. Gratuities prohibited.

No policeman, fireman or other officer in either of said departments shall, without the consent of the city council, receive any money or gratuity or compensation in addition to his salary, for any service he may render as an officer.
(Priv. Acts 1901, Ch. 432, § 61; Priv. Acts 1911, Ch. 10, § 13; Ord. No. 10743, § 1(2), 8-18-98)

Sec. 13.9. Reserved.

Editor's note—Ord. No. 10743, § 1(1), 8-18-98, proposed an amendment to the charter, subsequently approved at a referendum of the electorate November 3, 1998. Said ordinance repealed Priv. Acts 1923, Ch. 580, § 1, relating to requiring two platoon systems for the fire department and setting maximum hours of service per day.

Sec. 13.10. Reserved.

Editor's note—Former § 13.10 relating to vacation for fire department members deleted.
(Ord. No. 12677, § 26, 12-18-12)

Sec. 13.11. Reserved.

Editor's note—Ord. No. 10743, § 1(1), 8-18-98, repealed Priv. Acts 1967, Ch. 52, § 2, relating to the work week and vacations for policemen and detectives.

Sec. 13.12. Reserved.

Editor's note—Ord. No. 10743, § 1(1), 8-18-98, repealed Priv. Acts 1949, Ch. 127, § 2, relating to giving members of the police and fire departments one day per week off with pay.

Sec. 13.13. City to pay for repairs of uniforms damaged in discharge of duty.

The Charter of the City of Chattanooga and all acts amendatory thereof be and the same are hereby amended to require the city to pay the expenses of repairing or replacing the uniform of any policeman or fireman damaged while engaged in the performance of his duty.
(Priv. Acts 1941, Ch. 472, § 1)

Sec. 13.14. Uniform and equipment allowance.

The City of Chattanooga shall provide in each fiscal budget hereafter a uniform and equipment allowance for every city fireman and policeman, and that same be paid annually thereafter to each and every city fireman and policeman beginning July 1, 1963.
(Priv. Acts 1963, Ch. 30, § 2; Ord. No. 10743, § 1(4), 8-18-98)

Sec. 13.15. Reserved.

Editor's note—Ord. No. 10743, § 1(1), 8-18-98, repealed Priv. Acts 1901, Ch. 432, § 56, as amended by Priv. Acts 1911, Ch. 10, § 13, relating to a manual of instructions.

Sec. 13.16. Political activities of members of the fire and police departments.

No officer or any member of the fire or police department(s) shall be called on for any contribution or assessment by any political organization or member or committee thereof. No officer or member of either of said departments shall be allowed to solicit any contribution, or to sell any ticket, or procure money by

any device from the public while on duty or while in uniform. Any person violating any of the provisions of this Section shall, upon conviction in the City Court, be fined not exceed fifty dollars ($50.00) and shall be subject to disciplinary action.
(Ord. No. 10743, § 1(3), 8-18-98; Ord. No. 12677, § 27, 12-18-12)

Sec. 13.17. Title and authority for the police advisory and review committee.

(a) There is hereby created the Police Advisory and Review Committee for the City of Chattanooga.

(b) The Police Advisory and Review Committee is established pursuant to Council's authority under Sections 13.44 and 13.49 of the Charter of the City of Chattanooga to provide for the safe tenure of officers on their jobs so long as they properly and efficiently fulfill the duties of their positions and pursuant to the Council's authority under Section 16-43 of the Chattanooga City Code to ratify and adopt rules and regulations for the government and discipline of the police department. This Committee shall further have all powers of a Community Oversight Board consistent with Tennessee state law.

(c) The purpose of the Police Advisory and Review Committee is to strengthen the relationship between the citizens of the City of Chattanooga and the Chattanooga Police Department, to assure timely, fair and objective review of citizen complaints while protecting the individual rights of police officers, and to make recommendations concerning citizen complaints to the Chief of Police, the Mayor and to the City Council.

(d) The Committee shall have no authority to direct the Police Chief to alter or to impose any disciplinary action against any employee of the Chattanooga Police Department. In all cases, the Police Chief will be the final authority on case dispositions and discipline of police officers.
(Ord. No. 13555, § 1, 5-19-20)

Secs. 13.18—13.25. Reserved.

CHAPTER II. SALARIES

Secs. 13.26—13.30. Reserved.

Editor's note—Ord. No. 10743, § 1(1), 8-18-98, repealed Priv. Acts 1951, Ch. 139, relating to minimum salaries for certain members of the fire and police departments.

Secs. 13.31—13.43. Reserved.

Editor's note—Section 1, Ch. 155, Private Acts 1969 repealed: Priv. Acts 1951, Ch. 9; Priv. Acts 1963, Ch. 150; Priv. Acts of 1967, Ch. 51, formerly codified as §§ 13.31 through 13.33, pertaining to the salary and additional pay for police and fire personnel.

CHAPTER III. TENURE

Sec. 13.44. Grant of tenure; arbitrary, etc., dismissal, etc., prohibited; effective date.

All firemen and policemen of the City of Chattanooga shall have safe tenure on their jobs so long as they properly and efficiently fulfill the duties of their respective positions. They shall not be discharged, or suspended for political or religious reasons or for any other unjust or arbitrary cause. This Act [chapter]

shall apply to all firemen and policemen of the City of Chattanooga serving as of the effective date of this Act [chapter]; provided, however, that this Act [chapter] shall apply only to those firemen and policemen who have been employed for more than one year.
(Priv. Acts 1953, Ch. 141, § 2; Ord. No. 10744, § 1(1), 8-18-98)

Sec. 13.45. Maximum period of suspension.

No suspension of any such employee [fireman or policeman] shall be of a longer period than thirty (30) days.
(Priv. Acts 1953, Ch. 141, § 2; Ord. No. 10744, § 1(1), 8-18-98)

Sec. 13.46. Political activity.

Each fireman and policeman shall be free to vote for and support any political candidate he or she chooses, without interference, coercion, pressure or dictation by any superior of such employee. No fireman or policeman shall engage in political activities while on duty or while wearing his uniform. As private citizens, and while not on official duty and not in uniform, firemen and policemen shall have a right to work for and support any political candidate whom they choose so long as they do not use their official positions in connection therewith.
(Priv. Acts 1953, Ch. 141, § 2; Ord. No. 10744, § 1(1), 8-18-98)

Sec. 13.47. Dismissal, suspension, etc.—To be in accord with chapter.

No fireman or policeman shall be dismissed, or suspended, except as provided herein.
(Priv. Acts 1953, Ch. 141, § 2; Ord. No. 10744, § 1(1), 8-18-98)

Sec. 13.48. Same—Written charges to be filed.

Any fireman or policeman who shall be discharged, suspended, or laid off, shall be furnished with written charges within twenty-four (24) hours from such discharge, suspension, or layoff action, specifically stating the offense or offenses with which he is charged, which shall be signed by the department head.
(Priv. Acts 1953, Ch. 141, § 2; Ord. No. 9437, § 1(3), 8-21-90; Ord. No. 10744, § 1(1), 8-18-98)

Sec. 13.49. Same—Hearing.

Any fireman or policeman who is discharged, suspended, or laid off and who claims that such discharge, suspension, or lay off, was made for political or religious reasons, or otherwise in violation of the provisions of this Act [chapter], may request, and shall have the right to have a hearing as established by the administrative procedures authorized by the City Council, and such employee, or employees will have the right to have witnesses subpoenaed for such hearing without discrimination, or coercion being used against them for serving as witnesses in such hearing. A copy of said request shall be furnished to the department head. Said administrative procedures shall require that a time and place for the hearing be set within fifteen (15) days after said appeal. Upon such hearing both the employee and his superior authority whose action is reviewed shall have the right to appear at the hearing and plead his cause in person or by counsel; and the right to present proof. The administrative hearing body or judge shall have the right and duty to administer oaths, subpoena witnesses, compel the production of books and papers pertinent to any hearing, and shall have the right to file proceedings in the circuit court of Hamilton County for appropriate action for contempt against any person failing or refusing to answer or obey a summons, and to give and produce testimony before said hearing body. Any person who shall fail to appear in response to a subpoena

or to answer any questions or produce any books or papers pertinent to any such proceeding or proceedings, or hearing or who shall knowingly give false testimony in connection therein shall be guilty of a misdemeanor.

The hearing may be private or public, in the discretion of the hearing body or judge. If the hearing body or judge finds that the employee was discharged, suspended, or laid off for a political or a religious motive, or in violation of the provisions of this Act, the appealing employee shall be reinstated without loss of faith. The hearing body or judge shall have the duty and power to affirm, reverse, set aside or modify the order of discharge, suspension or layoff, as theretofore made by the superior officer of such employee. Any and all employees discharged, or suspended in the event that such employee or employees are proven innocent of said charges by the hearing body or judge or any other of the courts will be reinstated at his position he held when charges were made, with full retroactive pay for the time lost. A copy of the order of the hearing body or judge shall be furnished to the proper city official. In the event said order directs the reinstatement of said employee, or retroactive pay, it shall be the ministerial duty of the cognizant officials of the City of Chattanooga to comply with the terms thereof. As used herein, the term "hearing body or judge" shall mean the person or persons duly established by the City Council to conduct appeal hearings of employees.
(Priv. Acts 1953, Ch. 141, § 2; Ord. No. 9437, § 1(3)(4), 8-21-90; Ord. No. 10744, § 1(1), 8-18-98; Ord. No. 12424, § 2, 8-17-10)

Sec. 13.50. Reinstated employees.

Nothing in this Act will prohibit any discharged employee from being reinstated to his former position and rank at the same salary he was receiving when discharged.
(Priv. Acts 1953, Ch. 141, § 2)

Sec. 13.51. Rights of appeal under general state law.

No employee will be discharged or suspended without full rights of appealing the case in accordance with section 9008 of the Tennessee Code [T.C.A. §§ 27-9-101—27-9-103].
(Priv. Acts 1953, Ch. 141, § 3)

Sec. 13.52. Applicability of chapter.

All provisions of the Charter of the City of Chattanooga in conflict herewith be, and the same hereby are repealed. This Act shall not be construed to amend, repeal, supersede or modify chapter 301, Private Acts of 1913, except to the extent of irreconcilable conflict therewith.
(Priv. Acts 1953, Ch. 141, § 4)

Secs. 13.53—13.62. Reserved.

CHAPTER IV. FIRE AND POLICE PENSION

Sec. 13.63. Fire and Police Pension Fund.

The Fire and Police Pension Fund formerly called "Firemen's and policemen's insurance and pension fund" as established by the Private Acts of 1949 Chapter 165, as amended by private acts and Home Rule referenda, shall be transferred from the Charter compilation to the City Code compilation, but the vested

rights of any participant or beneficiary shall not thereby be affected. No current provision of the Fire and Police Pension Fund may be amended hereafter except pursuant to the provisions of section 13.64 below. (Priv. Acts 1949, Ch. 165; Priv. Acts 1953, Ch. 90; Priv. Acts 1961, Ch. 222; Priv. Acts 1969, Ch. 165; Priv. Acts 1971, Ch. 149; Priv. Acts 1972, Ch. 406; Ord. No. 8688, 8-19-86; Ord. No. 9778, 8-19-92; Ord. No. 9839, 2-9-93; Ord. No. 10463, 8-20-96; Ord. No. 11012, 5-9-00; Ord. No. 11272, 4-30-02; Ord. No. 12677, § 28, 12-18-12)

Sec. 13.64. Amendments by ordinance.

The City Council, City of Chattanooga, in its discretion, only after a recommendation of the Board of Directors of the Fire and Police Pension Fund, upon advice by the Mayor, may, by ordinance, passed on two separate readings, amend any section of the Private Acts of 1949, as amended; provided that such amendment is not inconsistent with sound actuarial principles, methods, and actuarial assumptions and further provided that such amendment shall not in any way decrease any vested financial benefits accrued by any participant or beneficiary of the Fire and Police Pension Fund.
(Ord. No. 11012, 5-9-00; Ord. No. 12677, § 28, 12-18-12)

Secs. 13.65—13.86. Reserved.

Editor's note—Former §§ 13.65 to 13.86 transferred to City Code, Chapter 2, Division 18, Fire and Police Pension Fund, §§ 2-400 to 2-422 pursuant to Ord. No. 12677, § 28, 12-18-12.

Title 14

PUBLIC UTILITIES*

Sec. 14.1. Definitions.
Sec. 14.2. Authority for city to acquire water and gas systems; sell water and gas; issue bonds, etc.
Sec. 14.3. Bonds—Election required prior to issuance.
Sec. 14.4. Same—May be authorized by resolutions; interest; how payable; execution; signatures; negotiable; tax exempt.
Sec. 14.5. Same—Debt limitations not applicable.
Sec. 14.6. Same—Valid when signed by offices holding office at time of signature; statement in resolution as to validity and regularity of issuance.
Sec. 14.7. Same—To have lien on revenue of systems.
Sec. 14.8. Same—City authorized to do certain acts to secure bonds.
Sec. 14.9. Same—Rights of bondholders.
Sec. 14.10. Same—Bondholders may not compel city to use taxing power to pay bonds.
Sec. 14.11. Same—Proceeds to be used to acquire, expand, etc., systems.
Sec. 14.12. Bond proceeds, income from systems, etc., to be kept in separate account.
Sec. 14.13. Action by board to be by resolution.
Sec. 14.14. Act supplementary to prior Acts.

***Cross references—**Municipal electrical system, Title 10; authority to grant right-of-way for public utilities, § 2.1(39); removal, relocation and installation of utilities in connection with public improvements, § 15.44 et seq.; gas, water, sewer and other connections by the city, § 15.61 et seq.

Sec. 14.1. Definitions.

The following terms whenever used or referred to in this Act [Title] shall have the following meaning, unless a different meaning appears from the context:

(a) The term "city" shall mean the City of Chattanooga, Tennessee.

(b) The term "board" shall mean the city council of the City of Chattanooga, Tennessee.

(c) The term "federal agency" shall include the United States of America, the President of the United States of America, the Reconstruction Finance Corporation or any other agency, instrumentality or corporation of the United States of America which has heretofore been or may hereafter be designated, created or authorized by or pursuant to any Act or Acts of Congress of the United States of America to mane [make] loans or grants to municipalities.

(d) The term "water system" includes all or any part of the following: Source of supply, pumping facilities, purification works, storage facilities, distribution facilities and mains, together with all necessary parts and appurtenances for the proper operation of a water distribution system.

(e) The term "gas system" shall be construed to include all or any part of the following: Gas plant for the manufacture of gas, mains, pumping facilities, and complete system for the distribution of either natural, artificial or by-product gas, together with all parts and appurtenances necessary for the proper operation of a gas distribution system.

(Priv. Acts 1949, Ch. 201, § 2; Ord. No. 11276, 5-2-02)

Sec. 14.2. Authority for city to acquire water and gas systems; sell water and gas; issue bonds, etc.

The city, acting by and through its board, shall have power and is hereby authorized to:

(a) Acquire an existing water system or gas system, and to extend, enlarge, improve, equip, operate and maintain, within or partially within and partially without the corporate limits of the city a water system or a gas system, as the case may be, for the purpose of providing water and gas to the city and persons, firms and corporations which are situated or whose residence or places of business are within the city or without the corporate limits of the city but within Hamilton County, Tennessee, and within a radius of twenty (20) miles for the corporate limits of the city.

(b) Contract with persons, firms and corporations for the sale and distribution of water and gas to be used for domestic, commercial and industrial purposes.

(c) Accept from any federal agency grants for or in aid of the acquisition, extension, enlargement and improvement of a water system or a gas system.

(d) Contract debts for the acquisition of an existing water system or gas system, or extension, enlargement or improvement thereof, to borrow money, and to issue its bonds for such acquisition, extension, enlargement or improvement, and to provide for the rights of the holders of the bonds, and to secure the bonds as hereinafter provided.

(e) Fix, levy and collect fees, rents or other charges for water services or gas services furnished by the city.

(f) Acquire, by purchase or the exercise of eminent domain, an existing water system or gas system and property or easements or other right or interest in property necessary for the extension, enlargement or improvement of a water system or gas system whether such property be within or without the city or partially within and partially without the city.

(g) Make contracts and execute instruments containing such terms, provisions and conditions as in the discretion of the board may be necessary, proper or advisable for the purpose of obtaining a grant, loan or other financial assistance from any federal agency by virtue of any Act of Congress; to make

all contracts and execute all other instruments necessary, proper and advisable in or for the furtherance of the acquisition of an existing water system or gas system, and for the extension, enlargement and improvement of same.

(h) Require the owner, tenant or occupant of each lot or parcel of land who is obligated to pay the charges made for water or gas services furnished to make a reasonable deposit in advance to insure the payment of such charges, and to discontinue service upon failure or refusal to do so.

(i) Employ engineers, superintendents and other employees for the operation and maintenance of a water system or gas system.

(j) Perform any and all acts authorized under this Act [Title] through or by its own officers, agents and employees or by contracts with private corporations, firms or individuals.

(k) Do all acts and things necessary or convenient to carry out the powers expressly given in this Act [Title].

(Priv. Acts 1949, Ch. 201, § 3)

Sec. 14.3. Bonds—Election required prior to issuance.

The bonds herein authorized shall not be issued nor sold unless there first shall have been held an election to ascertain the will of the voters of the city respecting the issuance of said bonds and a majority of the legal votes cast at such election shall be in favor of the issuance of the bonds proposed to be issued. The board may at any time after the passage of this Act [Title] adopt a resolution fixing the amount of bonds to be issued, the purposes for which they are issued and the date for such election, and on such date the election commissioners of Hamilton County shall hold an election at the regular voting precincts in the city, and shall name and designate the officials of said election, and shall call said election in the way and manner general municipal elections are called. All persons qualified to vote for mayor and city council of the city who are otherwise qualified may vote at said election. The election commissioners shall prepare ballots for each ward and precinct on which shall be printed the words:

"For the issuance of $_____ of _____ Revenue Bonds."

"Against the issuance of $_____ of _____ Revenue Bonds."

And voters shall indicate their desire by putting a cross (X) mark opposite their choice. The result of such election shall be certified by the officers thereof to the election commissioners of Hamilton County within five (5) days after such election is held, and the county election commissioners shall then canvass and declare and certify the result of such election to the board. The board may submit the question of the issuance of bonds for a water system and a gas system to the voters at the same election or the question may be submitted at a different time or times, it being the intent of this Act [Title] to authorize the city, acting through its board, to acquire an existing water system and issue its revenue bonds therefor or to acquire an existing gas system and issue its revenue bonds therefor, and it may acquire one system without acquiring the other. In the event at an election held a majority of the legal votes cast are against the issuance of revenue bonds for either of the systems the board may, after the expiration of one year, by resolution, call and have another election held for the purpose of submitting the question again to the voters of the city.
(Priv. Acts 1949, Ch. 201, § 5)

Sec. 14.4. Same—May be authorized by resolutions; interest; how payable; execution; signatures; negotiable; tax exempt.

The revenue bonds provided for under the provisions of this Act [Title] may be authorized by resolution or resolutions of the board, which resolution or resolutions may be adopted at the same meeting at which they are introduced, and may be adopted by a majority vote of the members of said board, and shall take effect immediately upon adoption. Such bonds shall bear interest at such rate or rates, not to exceed five per

cent (5%) per annum, payable semiannually, may be issued all at one time or from time to time, may be payable at such place or places, may carry such registration privileges, may be executed in such manner, may contain such terms, covenants and conditions, and may be in such form, either coupon or registered, as such resolution or subsequent resolutions may provide. Said bonds shall bear such date or dates, may mature at such time or times, not less than thirty (30) years from their respective dates, as the board may direct. Such bonds shall not be sold for less than par and accrued interest, and shall be signed by the mayor and countersigned by the city finance officer, and, if coupon bonds are issued, such coupons may bear the printed or lithographed facsimile signature of the mayor and finance officer. Unless the bonds are sold to a federal agency the bonds authorized to be issued by the provisions of this Act [title] shall be sold at public sale in accordance with the provisions of section 3707, Code of Tennessee of 1932 [T.C.A. § 6-57-209]. Bonds may be sold at private sale without any public advertisement to any federal agency. The bonds shall be fully negotiable for all purposes and said bonds and the income therefrom shall be exempt from all state, county and municipal taxation, except inheritance, transfer and estate taxes.
(Priv. Acts 1949, Ch. 201, § 6; Ord. No. 10742, § 1(1), 8-18-98)

Sec. 14.5. Same—Debt limitations not applicable.

Revenue bonds may be issued under the provisions of this Act [Title] notwithstanding, and without regard to any limit on indebtedness of the city provided by the provisions of the charter or other law.
(Priv. Acts 1949, Ch. 201, § 7)

Sec. 14.6. Same—Valid when signed by offices holding office at time of signature; statement in resolution as to validity and regularity of issuance.

Bonds bearing the signature of officers in office on the date of the signing thereof shall be valid and binding obligations notwithstanding that before delivery thereof and payment therefor any and all of the persons whose signatures appear thereon shall have ceased to be officers of the city. The validity of said bonds shall not be dependent on nor affected by the validity or regularity of any proceeding relating to the acquisition of a water system or gas system, or the extension, enlargement and improvement of a water system or gas system for which the bonds are issued. The resolution authorizing said bonds may provide that the bonds shall contain a recital that they are issued pursuant to this Act [Title] which recital shall be conclusive evidence of their validity and of the regularity of their issuance.
(Priv. Acts 1949, Ch. 201, § 8)

Sec. 14.7. Same—To have lien on revenue of systems.

All bonds of the same issue shall, subject to the prior and superior rights of outstanding bonds, claims or obligations, have a prior and paramount lien on the revenue of the water system or gas system, as the case may be, over and ahead of all bonds of any issue payable from said revenue of the water system or gas system, as the case may be, which may be subsequently issued, and over and ahead of any claims or obligations of any nature against said revenue subsequently arising or subsequently incurred. All bonds of the same issue for either a water system or gas system shall be equally and ratably secured without priority by reason of number, date of bonds, of sale, of execution, or of delivery by a lien on such revenue in accordance with the provisions of this Act [Title] and the resolution or resolutions authorizing said bonds.
(Priv. Acts 1949, Ch. 201, § 9)

Sec. 14.8. Same—City authorized to do certain acts to secure bonds.

In order to secure the payment of the bonds issued pursuant to this Act [Title] and interest thereon the city shall have power as to such bonds to:

(a) After the payment of operating expenses from the gross revenue of either a water system or gas system, as the case may be, pledge all or any part of the remaining revenue derived from the

operation of the water system or gas system to secure the payment of the bonds and interest thereon, and to covenant against thereafter pledging any such rents, fees or other charges to any other bonds or any other obligations of the city for any other purpose.

(b) Provide for the term, form, registration, exchange and execution of such bonds.

(c) Provide for the replacement of lost, destroyed or mutilated bonds.

(d) Covenant as to the use and disposition of the proceeds from the sale of such bonds, the use and disposition of the revenue of the water system or gas system.

(e) Covenant as to the fees, rents or charges in connection with the operation of the water system or gas system, as the case may be, for which such bonds are to be issued.

(f) The operation and maintenance of such water system or gas system, as the case may be.

(g) The insurance to be carried on the water system or gas system, as the case may be, and the use and distribution of insurance monies.

(h) Covenant to set aside or pay other reserves and sinking funds for such bonds and as to the disposition thereof, and provide for a working fund.

(i) Redeem such bonds and to covenant for their redemption and to provide the terms and conditions thereof.

(j) Covenant as to its books of account and as to the inspection and audit thereof and as to the accounting methods.

(k) Covenant and prescribe as to what happenings or occurrences shall constitute "events of default" and the terms and conditions upon which any or all of such bonds shall become or may be declared due before maturity, and as to the terms and conditions upon which such declaration and its consequences may be waived.

(l) Covenant as to the rights, liabilities, powers and duties arising upon the breach by it of any covenant, condition or obligation.

(m) Vest in any trustee or trustees the right to receive all or any part of the income pledged and assigned to or for the benefit of the holder or holders of bonds issued hereunder for either a water system or gas system, and to hold, apply and dispose of the same, and the right to enforce any covenant made to secure or pay in relation to bonds, to execute and deliver a trust agreement or trust agreements which may set forth the powers and duties and remedies available to such trustee or trustees, and limiting the liabilities thereof, and prescribing what occurrences shall constitute default, and prescribing the terms and conditions upon which such trustee or trustees or the holder or holders of bonds of any specified amount or percentage of such bonds may exercise such rights, and enforce any or all of such covenants and resort to such remedies as may be appropriate.

(n) Execute all instruments necessary or convenient in the exercise of the powers herein granted or in the performance of its covenants or duties.

(Priv. Acts 1949, Ch. 201, § 11)

Sec. 14.9. Same—Rights of bondholders.

Any holder or holders of the bonds, including a trustee or trustees for holders of such bonds, shall have the right, in addition to all others, to:

(a) By mandamus, or other suit, action or proceeding, in a court of competent jurisdiction, to enforce his or their rights against the city or board and any officer, agent or employee of the city, including, but not limited to, the right to require the city and the board to fix and collect rents, fees or other charges for the furnishing of either water or gas adequate to carry out any agreement as to such fees,

rents or other charges, and to require the city and board and any officer, agent and employee of the city to carry out any other covenant and agreement and to perform its and their duties under this Act [Title].

(b) By action or suit in equity, to enjoin any acts or things which may be unlawful or a violation of the rights of such holder or holders of bonds.

(c) By suit, action or proceeding in the chancery court of Hamilton County, Tennessee, to require the board to account as if it were the trustee of any express trust.

(Priv. Acts 1949, Ch. 201, § 12)

Sec. 14.10. Same—Bondholders may not compel city to use taxing power to pay bonds.

No holder or holders of any bonds issued under this Act [Title] shall ever have the right to compel any exercise of taxing power of the city to pay said bonds or the interest thereon. Each bond issued under this Act [Title] shall recite, in substance, that said bond, including interest thereon, is payable from the revenue of the water system or gas system, as the case may be, pledged to the payment thereof, and that said bond does not constitute a debt of the municipality within the meaning of any statutory limitation.
(Priv. Acts 1949, Ch. 201, § 10)

Sec. 14.11. Same—Proceeds to be used to acquire, expand, etc., systems.

The proceeds derived from the sale of said bonds shall be used for the purpose of paying all the cost of the city in acquiring a water system or a gas system, as the case may be, the cost of constructing extensions, enlarging and improving a water system or gas system, the cost of appraisals, engineering, legal, and other expenses incurred in the acquisition of either a water system or a gas system prior to the issuance of bonds, the cost of acquiring any additional land, easements or other property necessary for the extension, enlargement or improvement of a water system or gas system acquired, the expense of issuing and selling bonds, and the interest on the outstanding bonds during the construction of any extension, enlargement or improvement of either a water system or gas system.
(Priv. Acts 1949, Ch. 201, § 13)

Sec. 14.12. Bond proceeds, income from systems, etc., to be kept in separate account.

All proceeds received from the sale of bonds issued under this Act [Title], and all fees, rents or other charges received by the city from the operation of a water system or a gas system, and all monies received from any federal agency shall be paid to the city treasurer, who shall not commingle any money so received with any other monies of the city, but the monies received shall be deposited in a separate bank account, or bank accounts, in the name of the city.

The funds derived for and from the water system or gas system shall be kept separate.
(Priv. Acts 1949, Ch. 201, § 4)

Sec. 14.13. Action by board to be by resolution.

Any and all action required or authorized to be taken under this Act [Title] by the board may be by resolution, which resolution may be adopted at the meeting of the board at which such resolution is introduced, and shall take effect immediately upon adoption.
(Priv. Acts 1949, Ch. 201, § 14)

Sec. 14.14. Act supplementary to prior Acts.

Power to issue bonds and acquiring a water system or gas system under the provisions of this Act [Title] is hereby declared to be supplementary to and not in derogation of the right and power to issue bonds for and the acquisition of a water system or gas system, as the case may be, or the extension, enlargement or improvement of same under any existing law or laws.
(Priv. Acts 1949, Ch. 201, § 15)

Title 15

PUBLIC WORKS, STREETS, SEWERS AND AIRPORTS*

Chapter I. In General

Sec. 15.1. Authority of city relative to public works, streets, generally.
Sec. 15.2. Authority to establish, operate airports.
Sec. 15.3. Adjustment of assessments for public improvements.

Chapter VIII. Improvement Act of 1931

Secs. 15.106—15.115. Reserved.

CHAPTER I. IN GENERAL

Sec. 15.1. Authority of city relative to public works, streets, generally.

Said City of Chattanooga shall have full control, authority and power over all streets, alleys, sidewalks and sewers, and the building, altering, repairing, cleaning and improving the same, including the power to fix and change the grades of all streets, alleys, sidewalks and sewers, to determine their with width, size, location and grade, and to order and enforce by law the grading, laying down, repairing and cleaning of sidewalks by the owners of abutting property, and to procure for the benefit of said city, by condemnation in the name of the city council, as now provided by law for such condemnation proceedings by purchase or otherwise, as now provided by law, any and all necessary property for widening or extending streets, and for enlarging and extending sewers when necessary to do so.

Said council shall also have the absolute control of the expenditure of all moneys and funds arising from taxation or any other source, for street and sewer purposes; and the mayor shall also have control and management over all gangs, forces or individuals condemned to, or in any way placed on street or sewer work by conviction and judgment of any court or order or judgment of any court or order or judgment of any other lawful authority; and over all scavenger and street cleaning forces.
(Pub. Acts 2nd Sess. 1890, Ch. 1, § 8; Priv. Acts 1911, Ch. 10, §§ 13, 17, 20; Ord. No. 11272, 5-2-02)

Sec. 15.2. Authority to establish, operate airports.

The City of Chattanooga, Tennessee, is hereby empowered in its corporate capacity to establish, construct, equip, maintain and operate an airport for the use of aeroplanes and other aircraft, and may through its city council lease or acquire real property for such use either within or without the corporate limits of said city.

The city council of the said city are hereby authorized to acquire in the name of the said city all necessary property for airports or landing fields, and parks or parkways, either within or without the corporate limits of said city, by purchase or by condemnation proceedings as now provided by law for the condemnation of property for school sites and street purposes by municipalities.
(Priv. Acts 1929, Ch. 2, §§ 2, 3; Ord. No. 11272, 5-2-02)

Sec. 15.3. Adjustment of assessments for public improvements.

The city council of the City of Chattanooga is hereby authorized and empowered to adjust assessments heretofore or hereafter made for public improvements where, in the opinion of said council, on account of changed conditions the assessments are materially in excess of the benefits which have accrued to the property so assessed. Provided, however, that the person applying for an adjustment shall agree to pay promptly the installment assessments after such adjustment shall have been made.
(Priv. Acts 1935, Ch. 647, § 8; Ord. No. 11272, 5-2-02)

Sec. 15.4. New assessments when original assessment declared invalid.

If any assessment heretofore or hereafter made by said city of property, or any special assessment made pursuant to any improvement act shall be declared invalid by a court of competent jurisdiction the city council are hereby empowered to make a new assessment on property for the year, or years, so declared to be invalid and shall adopt the assessment made by the tax assessor of Hamilton County, Tennessee, as the assessment of said property by said city. The reassessment of improvement assessments shall be made as provided in the Improvement Act authorizing the original assessment.
(Priv. Acts 1935, Ch. 647, § 9; Ord. No. 11272, 5-2-02)

Sec. 15.5. Reserved.
(Ord. No. 11013, § 1, 5-9-00)

Sec. 15.6. Negotiations with lowest responsible bidder for work to be done on cost-plus, etc., basis.

After bids have been advertised and received for making any public improvement the mayor may negotiate with the lowest responsible bidder to have such bidder make such public improvement by force account or on a cost-plus basis, if, in the opinion of the mayor, the making of such agreement is advantageous to the city, and such agreement shall be in writing and approved by the city council.
(Priv. Acts 1949, Ch. 607, § 3; Ord. No. 11272, 5-2-02)

Sec. 15.7. City authorized to condemn property of railroads and other corporations for street, etc., widening purposes.

The city council of the City of Chattanooga are hereby specifically authorized and empowered to condemn and take the property, buildings, privileges, rights and easements, etc., of railway companies, or other corporations, their lessees, trustees and receivers, and any other person, firm or corporation that may be in possession of, using or controlling all or any part of the rights-of-way and properties of such railway companies or other corporations, and to condemn and acquire other property for the purpose of relocating tracks, buildings and other structures of such railway companies or other corporations, all in the manner and mode and upon the terms provided in sections 3397 to 3401 of the Code of Tennessee for the year 1932 [T.C.A. §§ 7-31-108—7-31-111], when it is necessary that the property of such railway companies or other corporations be acquired in order to widen any street, alley or sidewalk within the corporate limits of the City of Chattanooga.
(Priv. Acts 1947, Ch. 548, § 2; Ord. No. 11272, 5-2-02)

Sec. 15.8. Authority of water company to contract for collection of sewer charges.

Chapter No. 91, Public Acts of Tennessee of 1867 and 1868, entitled as set out in the caption hereof, be, and the same is hereby amended so as to authorize the City Water Company of Chattanooga (successor to the Chattanooga Water Company) and its successors and assigns, to enter into contracts with the City of Chattanooga, or other public agency owning and operating a sewerage system, to bill and collect sewer service charges as an added designated item on its water service bills, or otherwise, and to contract with the City of Chattanooga, or other public agency, not to accept payment of water service charges without the simultaneous payment of sewer service charges, and to discontinue water service to sewer users who fail and refuse to pay sewer service charges, and not to re-establish water service until such time as sewer service charges due have been paid.
(Priv. Acts 1951, Ch. 249, § 1)

Editor's note—Public Acts 1867-68, Ch. 91, which is not set out in this compilation, is the act chartering the Chattanooga Water Company.

Cross reference—Authority of city to enter into contracts with water company for collection of sewer charges, § 15.20(m).

Secs. 15.9—15.18. Reserved.

CHAPTER II. SEWERAGE SYSTEM

Sec. 15.19. Definitions.

The following terms, wherever used or referred to in this Act [chapter], shall have the following meaning, unless a different meaning appears from the context:

(a) The term "city" shall mean the City of Chattanooga, Tennessee.

(b) The term "board" shall mean the city council of the City of Chattanooga, Tennessee.

(c) The term "federal agency" shall include the United States of America, the President of the United States of America, the Reconstruction finance Corporation, or any other agency, instrumentality or corporation of the United States of America which has heretofore been or may hereafter be designated, created or authorized by or pursuant to any Act of Congress of the United States of America to make allowances or grants to municipalities.

(d) The term "sewerage system" shall be construed to include all or any part of the following: The collecting system, intercepting and out-fall sewers, pumping facilities, and treatment, purification and disposal plants, the disposition of sewage and industrial waste.

(Priv. Acts 1949, Ch. 602, § 2; Ord. No. 11272, 5-2-02)

Sec. 15.20. Powers of city generally.

The city, acting by and through its board, shall have power, and is hereby authorized to:

(a) Construct a sewerage system within or partially within and partially without the corporate limits of the city.

(b) Operate and maintain a sewerage system for its own purposes or for the benefit and use of its inhabitants, and also to operate and maintain such sewerage system for the benefit and use of persons, firms and corporations within the corporate limits of the city, and persons, firms and corporations, including municipal corporations, which are situated or whose residence or places of business are situated outside the corporate limits of the city but within Hamilton County, Tennessee, and within a radius of twenty (20) miles from the corporate limits of the city.

(c) Contract with the City of Rossville, Georgia, to jointly construct and operate a sewerage system, and to agree with said city for the apportionment of the construction and operating cost between the two (2) municipalities.

(d) Contract with Hamilton County, Tennessee, or any county adjacent to the city located in another state, for the furnishing of sewerage service to the county or to the inhabitants thereof where by furnishing such service the public health of the city will be protected and stream pollution eliminated.

(e) Accept from any federal agency or from the State of Tennessee or any agency of said state grants for or in aid of the construction of a sewerage system.

(f) Contract debts for the construction of a sewerage system; to borrow money and to issue its bonds to finance such construction, and to provide for the rights of the holders of the bonds, and to secure the bonds as hereinafter provided.

(g) Fix, levy and collect fees, rents, tolls or other charges for connecting to and for the use of the sewerage system, including the use for industrial waste.

(h) Acquire, by purchase or the exercise of the right of eminent domain, any property or easements or other right or interest in property necessary for the construction, reconstruction, extension or enlargement of a sewerage system whether such property be within or without the city or partially within and partially without the city.

(i) Make contracts and execute instruments containing such terms, provisions and conditions as in the discretion of the board may be necessary, proper or advisable for the purpose of obtaining a grant, loan or other financial assistance from any federal agency or from the State of Tennessee by virtue of any Act of Congress or Act of the Legislature of Tennessee; to make all contracts and execute all other instruments necessary, proper or advisable in or for the furtherance of the construction of the sewerage system.

(j) Enter on any lands, waters and premises for the purpose of making surveys, soundings and examinations in or for the furtherance of the construction of a sewerage system.

(k) Require the owner, tenant or occupant of each lot or parcel of land which abuts upon a street or other public way containing a sanitary sewer upon which lot or parcel a building exists for residential, commercial or industrial use to connect such building with such sanitary sewer and to cease to use any other means for the disposal of sewage, sewage waste or other polluting matter.

(l) Require the owner, tenant or occupant of each lot or parcel of land who is obligated to pay the charges made for the service furnished by the sewerage system to make a reasonable deposit in advance to insure the payment of such charges.

(m) Contract with the city water company of Chattanooga, its successors and assigns, for the billing and collection from each water user as an added and designated item on its water service bill the sewer service charges of the city, and to contract with said water company for it not to accept payment of water service charges without payment of the city sewer service charge, and for the company to discontinue water service to users who fail and refuse to pay sewer service charges, and not to re-establish water service until such time as sewer service charges due have been paid.

Cross reference—Authority of water company to contract for collection of sewer charges, § 15.8.

(n) Employ engineers, superintendents and other employees for the operation and maintenance of the sewerage system.

(o) Perform any acts authorized under this Act [chapter] through or by means of its own officers, agents and employees or by contracts with private corporations, firms or individuals.

(p) Do all acts and things necessary convenient to carry out the powers expressly given in this Act [chapter].

(Priv. Acts 1949, Ch. 602, § 3; Priv. Acts 1951, Ch. 230, § 1)

Sec. 15.21. Proceeds from bonds, rents, fees, etc., to be deposited in separate account in city's name.

All proceeds received from the sale of bonds issued under this Act [chapter] and all fees, rents, tolls, or other charges received by the city from the operation of the sewerage system, and all monies received from any federal agency or the State of Tennessee or state agency shall be paid to the city treasurer, who shall not commingle any money so received with any other monies of the city, but the monies received shall be deposited in a separate bank account, or accounts, in the name of the city.

(Priv. Acts 1949, Ch. 602, § 4)

Secs. 15.22—15.33. Repealed.

Editor's note—Former §§ 15.22 through 15.33 inclusive relating to issuance of bonds relating to the sewer system repealed by Ord. No. 12766, § 29, adopted December 18, 2012. These Charter provisions have been superseded by the "Local Government Public Obligations Act of 1986," T.C.A. § 9-21-101 *et seq.*

Secs. 15.34—15.43. Reserved.

CHAPTER III. REMOVAL, RELOCATION AND INSTALLATION OF UTILITIES IN CONNECTION WITH PUBLIC IMPROVEMENTS

Sec. 15.44. Removal of poles, cables, etc., prior to widening, etc., of streets—City may require companies to do work.

The City of Chattanooga, Tennessee, shall have the power to require the removal, in advance, by public service companies concerned, including the electric power board of Chattanooga, of all telephone, telegraph,

light and power poles, towers, cables or lines and all water and gas mains or pipes which may be necessary or advisable in any street widening, straightening, paving, repaving or other street improvement project within said city.
(Priv. Acts 1947, Ch. 604, § 2)

Sec. 15.45. Same—City may do work when company fails to do so.

The City of Chattanooga, Tennessee, shall have the power to remove, or have removed, all telephone, telegraph, light and power poles, towers, cables, or lines and all water and gas mains and pipes, at the expense of the public service company concerned (including the electric power board of Chattanooga) in event of the failure or refusal of any public service company, after notice, to remove same, and to assess such public service company (including the electric power board of Chattanooga) for the cost and expense thereof, plus a penalty of ten per cent (10%).
(Priv. Acts 1947, Ch. 604, § 4)

Sec. 15.46. Same—Assessment and penalty to constitute lien on property.

Assessment made to cover the cost or expense incurred by the City of Chattanooga, Tennessee, in removing or having removed, telephone, telegraph, light and power poles, towers, cables or lines, water and gas mains or pipes, as provided in section 4 of this Act [15.45. of this compilation], together with the penalty of ten per cent (10%), shall operate as a levy and is hereby declared to be a lien upon any and all property of the public service company concerned located within said city, which lien shall be superior to all other liens, except liens for state, county and city ad valorem taxes and special assessments.
(Priv. Acts 1947, Ch. 604, § 6)

Sec. 15.47. Installation of utilities by abutting property owners—City may require work to be done.

The City of Chattanooga, Tennessee, shall have the power to require all abutting property owners on any street being widened, straightened, paved, repaved or otherwise improved, within said city to make such sewer, water, gas or other utility connections as may be necessary or advisable in advance of construction.
(Priv. Acts. 1947, Ch. 604, § 3)

Sec. 15.48. Same—City may do work when owner fails to do so.

The City of Chattanooga, Tennessee, shall have the power to make or have made all sewer, water, gas or other utility connections at the cost and expense of the abutting property owner concerned in the event of the owner's failure or refusal, after notice, to make such connections, and to assess such owner with the cost and expense thereof, plus a penalty of ten per cent (10%).
(Priv. Acts 1947, Ch. 604, § 5)

Sec. 15.49. Same—Assessment and penalty to constitute lien on property.

Any assessment made to cover the cost or expense incurred by the City of Chattanooga, Tennessee, in making sewer, gas, water or other utility connections, as provided in section 5 of this Act [15.48 of this compilation], together with the penalty of ten per cent (10%), shall operate as a levy and is hereby declared to be a lien upon that property of the abutting owner concerned where the connection or connections were made, which lien shall be superior to all other liens, except liens for state, county and city ad valorem taxes and special assessments.
(Priv. Acts 1947, Ch. 604, § 7)

Sec. 15.50. Certification and collection of assessments.

The assessments authorized in sections 4 and 5 of this Act [15.45 and 15.48 of this compilation] shall be certified and collected in such manner as the city council may, by resolution, provide.
(Priv. Acts 1947, Ch. 604, § 8; Ord. No. 11272, 5-2-02)

Secs. 15.51—15.60. Reserved.

CHAPTER IV. GAS, WATER, SEWER AND OTHER CONNECTIONS BY CITY

Sec. 15.61. City authorized to make connections at expense of abutting property owners.

Without impairing the powers it already has with respect to requiring property owners to construct and connect sewers, gas, water and other connections, said city shall hereafter have the power to construct and connect sewers, gas, water and other connections at the expense of the abutting property owners in the manner hereinafter provided.
(Priv. Acts 1929, Ch. 790, § 2)

Secs. 15.62—15.65. Repealed.

Editor's note—Former §§ 15.62 through 15.65 inclusive relating to sewer districts repealed by Ord. No. 12677, § 30, 12-18-12.

Secs. 15.66—15.75. Reserved.

CHAPTER V. ABUTTING PROPERTY LAW OF 1907 RELATIVE TO STREETS AND SIDEWALKS*

Secs. 15.76—15.85. Reserved.

CHAPTER VI. SIDEWALK IMPROVEMENT ACT OF 1915†

Secs. 15.86—15.95. Reserved.

CHAPTER VII. METROPOLITAN IMPROVEMENT ACT OF 1927‡

Secs. 15.96—15.105. Reserved.

***Editor's note—**The abutting property law of 1907, consisting of Priv. Acts 1907, Ch. 149, is not set out in this compilation in order to conserve space and because of its limited interest. Various titles and names of officers and departments in said act are changed by Priv. Acts 1911, Ch. 10, adopting the commission form of government. The 1907 act has been specifically amended, as of Nov. 1, 1967, by the following: Priv. Acts 1909, Ch. 484; Priv. Acts 1915, Ch. 574; Priv. Acts 1917, Ch. 432, 3, 4; Priv. Acts 1919, Ch. 548; Priv. Acts 1921, Ch. 302; Priv. Acts 1921, Ch. 920.

†**Editor's note—**The sidewalk improvement act of 1915, consisting of Priv. Acts 1915, Ch. 131, is not set out in this compilation in order to conserve space and because of its limited interest. Said act has been amended, as of Nov. 1, 1967, by the following: Priv. Acts 1919, Ch. 548.

‡**Editor's note—**The Metropolitan Improvement Act of 1927, consisting of Priv. Acts 1927, Ch. 457, is not set out in this compilation in order to conserve space and because of its limited interest. Said Act has been amended, as of Nov. 1, 1967, by Priv. Acts 1929, Ch. 482 and Priv. Acts 1929, Ch. 665.

CHAPTER VIII. IMPROVEMENT ACT OF 1931*

Secs. 15.106—15.115. Reserved.

***Editor's note—**The Improvement Act of 1931, consisting of Priv. Acts 1931, Ch. 727, is not set out in this compilation in order to conserve space and because of its limited interest. Said Act has not been amended as of Nov. 1, 1967.

Title 16

RAILROADS*

Sec. 16.1. Railroad companies may be required to build and maintain bridges, etc., over tracks, etc.
Sec. 16.2. Railroad companies may be required to keep watchmen at dangerous crossings.

***Cross references—**Authority to subscribe to railroad stock, § 2.9; aid to railroads, § 6.152 et seq.; authority to condemn railroad property for street widening, § 15.7.

Sec. 16.1. Railroad companies may be required to build and maintain bridges, etc., over tracks, etc.

The power is hereby conferred upon the city council of the City of Chattanooga, in its corporate capacity, to require by ordinance, railroad companies to build maintain, repair, or replace, at their own expense, such bridges and approaches, tunnels or other conveniences over their tracks when the same cross any streets of said city, as the city council may deem necessary to the safety and convenience of the public traveling on said streets, and said city council may prescribe all reasonable regulations touching the kind and character of bridges to be built and the manner of maintaining them.
(Priv. Acts. 1907, Ch. 149, § 25; Priv. Acts 1911, Ch. 10, §§ 2, 3; Ord. No. 11272, 5-2-02)

Sec. 16.2. Railroad companies may be required to keep watchmen at dangerous crossings.

The Charter of the City of Chattanooga, Tennessee, and all acts heretofore passed amendatory thereof be, and they are hereby amended so as to confer on the city council of said city the power to require railroad companies to place and maintain watchmen, at their own expense, at such railroad street crossings as the city council may deem dangerous or a menace to public travel.
(Pub. Acts 1909, Ch. 420; Priv. Acts 1911, Ch. 10, §§ 3, 13; Ord. No. 11272, 5-2-02)

RESERVED*

***Editor's note—**Former Title 17 captioned "Schools and Education" repealed by Ord. No. 10079, 9-9-94, effective 6-30-97.

RESERVED*

***Editor's note—**Title 18, §§ 18.1—18.8 derived from Priv. Acts 1970, Ch. 303, § 1, and Priv. Acts 1970, Ch. 307, §§ 1-8, was repealed by Ord. No. 12677, § 31, 12-18-12. Former Tit. 18, §§ 18.1—18.8 pertained to transportation. This section further provided "that the City shall retain the authority to operate public transportation systems under state laws of general application."

CHARTER APPENDICES

Appendix No. 1 Judgment

Appendix No. 2 Agreed Order

Appendix No. 3 Order

Appendix No. 4 Charter Comparative Table (Private Acts)

APPENDIX NO. 1 JUDGMENT*

The agreed order and defendants' amended plan, both of which this Court has approved and filed this date, shall be the judgment of the Court in accordance with Rule 58, Federal Rules of Civil Procedure.

Under the plan, this Court will retain jurisdiction for the purpose of (1) reviewing, in accordance with 42 U.S.C. § 1973a(c), the first redistricting plan based on 1990 Census figures if such a plan is submitted to this Court, and (2) the assessment of costs and attorneys' fees, which are hereby awarded to the plaintiffs in accordance with 42 U.S.C. § 1973(e). Counsel for the plaintiffs are reminded of the provisions of L.R. 10.6, EDTN, which requires that all petitions for attorneys' fees must be filed within thirty (30) days after the entry of judgment.

SO ORDERED.

UNITED STATES DISTRICT JUDGE

***Case law reference—**Filed in Brown, et al. v. Board of Commissioners, et al., No. CIV-1-87-388, in the United States District Court for the Eastern District of Tennessee, Southern Division, on January 18, 1990.

AGREED ORDER*

Pursuant to the Order of the Court of August 8, 1989, directing the Defendants to submit an acceptable remedial plan to bring the City of Chattanooga, Tennessee, into compliance with the Voting Rights Act of 1965, as amended, and after the submission by Defendants of a proposed plan and following an evidentiary hearing pursuant to Section 2 of the Voting Rights Act, 42 U.S.C. Sec. 1973, the parties have agreed upon a remedy for the voting rights violation in this case, which is described more fully in Defendants' Amended Plan, a copy of which is attached hereto as Exhibit A and made a part hereof by reference. With the consent of the parties and for good cause shown, the Court accepts and adopts Defendants' Amended Plan as a full and complete remedy for the violation of Plaintiffs' rights in this case.

The Court's retention of jurisdiction over this case is limited by the agreement of the parties (which is contained in Paragraphs nineteen (19) and twenty (20) of said Amended Plan) pursuant to Section 3(c) of the Voting Rights Act, 42 U.S.C. Sec. 1973a(c). The Court retains jurisdiction over Plaintiffs' request for costs and attorneys' fees, and this case remains on the docket for this purpose only.

This Order shall be binding upon the parties, their successors, agents and assigns.

AND IT IS SO ORDERED.

EXHIBIT A

DEFENDANTS' AMENDED PLAN

AMENDED PLAN TO REORGANIZE THE GOVERNING BODY OF THE CITY OF CHATTANOOGA AS ORDERED BY THE UNITED STATES DISTRICT COURT, EASTERN DISTRICT, SOUTHERN DIVISION, AT CHATTANOOGA, TENNESSEE IN THE CASE OF BROWN, ET AL. V. CITY, ET AL., CIVIL ACTION NO. 1-87-388.

1. The Charter of the City of Chattanooga, Tennessee (which is a compilation of various acts of the Tennessee General Assembly as well as certain ordinances enacted by the Board of Commissioners and ratified by a vote of the people pursuant to the Constitution of Tennessee) shall be amended as provided herein when approved and implemented by a final order of the United States District Court for the Eastern District of Tennessee, Southern Division sitting at Chattanooga, Tennessee, in the case of Brown, et al. v. City, et al., Civil Action No. 1-87-388.

2. The Board of Commissioners of the City of Chattanooga and the present offices of the Mayor and the Commissioners are hereby abolished as of noon, June 11, 1990. A special municipal election for the office of Mayor and members of the City Council of the City of Chattanooga shall be held on May 1, 1990. If there is to be a run-off election held pursuant to this Plan, then such election shall be held on Thursday, June 7, 1990. All persons duly elected to a City office hereunder shall file the appropriate bond, take the prescribed oath and assume the duties of office at noon on Monday, June 11, 1990.

3. There is hereby created the office of the Mayor, and all executive and administrative authority and responsibility now vested in and exercised by the Board of Commissioners and its individual members shall be vested exclusively in the Mayor. All references in the Charter to individual Commissioners or the Board of Commissioners acting in their administrative or executive capacity are hereby deleted and the word 'Mayor' substituted therefor.

4. There is hereby created a City Council of the City of Chattanooga, Tennessee, and all legislative and quasi-judicial authority and responsibility now vested in and exercised by the Board of Commissioners shall be vested exclusively in the City Council. All references to the 'Board of Commissioners' or 'Board' or 'City Commission' or 'Commissioners' or 'Commission' where the same refers to the Board of Commissioners acting in its or their legislative or quasi-judicial capacity in the present City Charter are hereby deleted and there is inserted in lieu thereof the phrase 'City Council' or 'Council' or 'Council Members' except as otherwise specified herein.

5. The Mayor shall be elected at-large and shall not be a member of the City Council. The Mayor shall not have a vote in any matter considered by the City Council. The Mayor shall have a veto over any ordinance enacted or resolution adopted by the City Council, but the City Council may override the veto of the Mayor at the next regular meeting of the Council but only by a majority vote of the entire membership of the City Council.

6. No person shall be elected to the office of Mayor unless he or she has been a resident of the City of Chattanooga for at least one year prior to his or her election and unless he or she shall be at least thirty (30) years of age. The residency and age requirements must be met at the time (s)he qualifies to run for office. Each candidate, at the time of qualification, shall sign an oath that (s)he meets the residency and age requirements.

Editor's note—Modified by Ord. No. 9432, § 1(2), adopted 8-21-90, and was approved by the voters of the city on 11-6-90.

7. The Chief Executive Officer of the City of Chattanooga shall be the Mayor. The Mayor shall be authorized to administer oaths and shall supervise and control all of the divisions of the City, except as otherwise provided, and shall see that the ordinances of the City and the provisions of the Charter are observed. The Mayor shall devote his or her entire time and attention to the duties of the office of the Mayor. The Mayor may attend any meeting of the Council or any of its committee meetings and may address the Council or its committee meetings subject to recognition by the Chairperson.

8. No person shall be eligible to be elected as Mayor for more than two (2) consecutive four (4) year terms.

9. In the case of the Mayor's death, resignation, inability to serve for any reason, recall or removal of his or her residence from the City, upon such fact being certified by resolution of the Council, the Chairperson of the Council shall become the interim Mayor upon being administered the oath and making bond. Such person shall hold the Office of the Mayor on an interim basis until a new Mayor is elected as provided in this Charter and qualified. The interim Mayor shall have the authority to cast a vote to break a tie in the City Council. A vacancy in the Office of the Mayor shall be filled by election at the next regularly scheduled election to be held in the City not less than ninety (90) days but not more than one hundred twenty (120) days after the vacancy is certified by the Council. If no such election is scheduled, a special election shall be held within not less than ninety (90) nor more than one hundred twenty (120) days. The person so elected shall serve the remainder of the term vacated by the Mayor.

10. The Mayor shall appoint all department heads, subject to confirmation by a majority vote of the entire membership of the Council. The Mayor may remove department heads at any time with the approval of a majority vote of the entire membership of the Council. The City Council may remove department heads and/or City officials (but not the Mayor) for cause after notice and hearing, and pursuant to a vote of two-thirds of the entire membership of the Council.

11. Within sixty (60) days after taking office, the Mayor shall recommend to the Council any revisions to the names, functions, and organization of City departments that the Mayor deems appropriate. The Council shall adopt a plan of reorganization within thirty (30) days after receiving recommendations for the same from the Mayor, which recommendations the Council may accept, modify or reject.

12. The existing City departments as specified in Pr. Acts 1911, Ch. 10, Sec. 17, as modified directly or indirectly by Pr. Acts 1953, Ch. 105; Pr. Acts 1955, Ch. 56; Pr. Acts 1957, Ch. 73; and, Pr. Acts 1965, Ch. 207, will be retained and will continue to perform their respective duties pending the reorganization of the departmental structure described herein.

13. (a) No later than the date he or she appoints department heads, the Mayor shall appoint, with the approval of a majority of the entire membership of the City Council, persons to fill the positions of Fire Chief and Police Chief for terms concurrent with the Mayor and until they are discharged or their

successors are appointed and qualified. The Mayor, with the approval of a majority vote of the entire membership of the Council, may discharge any of these officials prior to the expiration of their terms of office. Thereafter, vacancies shall be filled by appointment of the Mayor with the approval of a majority vote of the entire membership of the Council.

Editor's note—Modified by Ord. No. 10745, § 1(3), adopted 8-18-98, approved by the voters of the city on 11-3-98.

(b) The persons holding the offices of City Auditor and City Treasurer on the operative date of these Charter amendments shall continue in those offices on an interim basis and until their successors are appointed and qualified. No later than the date the Mayor appoints department heads, the Mayor shall appoint, with the approval of a majority vote of the entire membership of the Council, a City Finance Officer in place of the City Auditor, and a City Treasurer, for terms concurrent with the terms of the Mayor, and until they are discharged or their successors are appointed and qualified. The Mayor may discharge the City Finance Officer or City Treasurer with the approval of a majority vote of the entire membership of the Council. Any vacancy occurring in said offices shall be filled by appointment of the Mayor with the approval of a majority vote of the entire membership of the Council.

(c) An Internal Auditor shall be appointed by the Council, independent of the Mayor, and may be removed and replaced at any time by the affirmative vote of a majority of the Council. The Internal Auditor's responsibilities will include, but not be limited to, auditing expenditures of the executive and administrative departments and verifying that all revenues due the City are properly collected and accounted for.

(d) The Mayor and Council shall jointly appoint a City Attorney for a four (4) year term from the date of appointment to said four (4) year term. The City Attorney may be removed from office at any time by the affirmative vote of two-thirds of the entire membership of the City Council, and the concurrence of the Mayor.

Editor's note—Subsection (d) herein has been amended by Ord. No. 9439, § 1(2), adopted 8-21-90, approved by the voters of the city on 11-6-90, and which is codified as § 3.62 of the City Charter.

14. The salary of the Mayor shall be at all times the same as the salary of the County Executive of Hamilton County.

15. The City shall be divided into nine (9) districts within the geographic boundaries of the City. The City Council shall be composed of nine (9) members with each member elected from one of such single districts. The candidate for each Council position who receives the majority of votes cast for that Council position shall be elected or appointed as a member of the Council who is not at least 21 years of age and who has not been a resident of the district for at least one year preceding his or her election. The residency and age requirements must be met at the time (s)he qualifies to run for office. Each candidate, at the time of qualification, shall sign an oath that (s)he meets the residency and age requirements.

Editor's note—Modified by Ord. No. 9432, § 1(2), adopted 8-21-90, and approved by the voters of the city on 11-6-90.

16. At its initial meeting, the Council shall elect from its membership a Chairperson who shall preside over Council meetings. The Council shall also elect a Vice-Chairperson who shall preside in the Chairperson's absence. Terms of the Chairperson and Vice-Chairperson shall be for one year or until the end of the Council's term, whichever is shorter. No Council person may serve more than two years as Chairperson, nor more than two years as Vice-Chairperson, within any Council term. The Council may when necessary elect from their members a Chairperson *pro tempore* to preside at a particular meeting in the absence of the Chairperson and Vice-Chairperson.

Editor's note—Modified by Ord. No. 10090, § 1(2), adopted 08-23-94, and approved by the voters of the city on 11-8-94.

17. The Chairperson of the Council shall ascend to the Office of the Mayor as interim Mayor on a temporary basis in the event of a vacancy in the office of the Mayor by reason of death, resignation, removal, or otherwise, all as specified in paragraph 9 hereof. During service as interim Mayor, the Council Chairperson shall step down from his or her position as a member of the council. However, the temporary ascension of the Council Chairperson to the Office of the Mayor will not create a vacancy on the Council to be filled by the Council.

18. The following districts are hereby established for the various Council positions:

District No.	*Precincts*
District 1	Mountain Creek, Northwoods North, Northwoods South, Valleyview East, and Wauhatchie City.
District 2	Lupton City, Moccasin Bend, North Chattanooga, Northgate, Riverview, and Stuart Heights.
District 3	Dupont, Hixson, Kings Point, Lake Hills, Murray Hills, Hixson 2 and East Chattanooga.
District 4	Brainerd Hills, Concord, East Brainerd, and Tyner.
District 5	Airport, Bonny Oaks, Dalewood, Eastdale, and Woodmore.
District 6	Brainerd, Eastgate, Eastside, Missionary Ridge N, Missionary Ridge S, Ridgedale, and Sunnyside.
District 7	Alton Park, Cedar Hill, East Lake, Piney Woods, and St. Elmo.
District 8	Amnicola, City Hall, Clifton Hills, Courthouse, Downtown, and Howard.
District 9	Avondale, Bushtown, Highland Park, Glenwood, and Orchard Knob.

19. Following publication of each new official decennial federal census, the Council shall reorganize and adjust by ordinance the boundaries of the districts currently established. The Council's reorganization and adjustment of the district boundaries shall be completed no later than one (1) year prior to the next City election; provided, however, that the Council shall have not less than six (6) calendar months within which to reorganize and adjust the districts. The adjusted districts shall be as equal in population as practicable. Such reorganization and adjustment of district boundaries shall not affect the qualifications of any Council member to fulfill his or her remaining unexpired term.

Editor's note—This section is augmented by Ord. No. 9724, § 1(2), adopted 5-19-92 and approved by the voters of the city on 8-6-92, and which is codified as § 5.28 of this Charter.

20. The first and only the first redistricting plan (based on the 1990 census figures only) prepared pursuant to paragraph 19 hereof, prior to its implementation, shall be submitted by the Mayor and Council, or the Chief Legal Officer (pursuant to Section 3(c) of the Voting Rights Act, 42 U.S.C. Sec. 1973 a(c)), to the District Court for the Eastern District of Tennessee, Southern Division, or in the alternative to the Attorney General of the United States for preclearance under Section 5 of the Act, 42 U.S.C. Sec. 1973c.

21. A majority of the entire membership of the Council shall constitute a quorum for the transaction of business. The affirmative votes of a majority of the members of the entire Council shall be necessary to enact any ordinance or adopt any resolution or take any affirmative action. Every ordinance enacted by the council shall be signed by the Council Chairperson, Vice-Chairperson or Chairperson *pro tempore* and shall also be approved or vetoed by the Mayor as provided by the Charter and shall then be delivered to the Clerk of the City Council. Except as provided herein, wherever in the Charter more than three (3) votes of the present Board of Commissioners is required to take any action, it shall mean more than five (5) votes of the entire membership of the City Council.

22. Removal of residence by a member of the Council from that member's district shall constitute a vacancy in that member's Council position. Any vacancy occurring on the Council, including any vacancy in the office of Chairperson of the Council, shall be filled by a vote of a majority of all of the remaining members of the Council. Any person elected to fill such a vacancy shall possess the same qualifications as a Council member elected by the people. Any person elected or appointed as a member of the Council shall serve until his or her successor is elected and qualified; provided, however, that if any general statute requires an earlier election, then such general statute shall apply.

23. Members of the Council shall be paid fifteen percent (15%) of the Mayor's salary as may be adjusted from time to time. The Chairperson shall be paid an additional Five Thousand Dollars ($5,000.00) per annum, and the Vice-Chairperson shall be paid an additional Twenty-Five Hundred Dollars ($2,500.00) per annum. Such salaries shall be payable on a monthly basis.

24. The Council shall from time to time establish and publish such procedures and rules for its organization and orderly operation as the Council deems appropriate so long as the procedures and rules do not conflict with provisions of the Charter, state or federal law. The Council shall have the power to issue subpoenas and administer oaths. The Council's rules shall specify the schedule for its regular meetings, which shall be held at least twice a month, and the procedures for calling special meetings. In the event that a member of the council shall be absent from all Council meetings during three (3) consecutive months without proper and reasonable explanation acceptable to the Council, his or her office may be declared vacated by a majority vote of the remaining membership of the Council and such vacancy shall be filled as provided herein.

25. The Council may from time to time establish such committees, committee responsibilities, and the manner of committee appointment as the Council deems appropriate. The Council shall employ a Clerk whose duty it shall be to preserve, keep and retain all of the records of the Council and shall have the authority to certify the correctness of such records when necessary or requested by a citizen.

26. Members of the Council may be reimbursed their reasonable, necessary and actual expenses incurred in the performance of their official duties. The Council shall adopt procedures and guidelines for documentation and reimbursement of expenses of members of the Council and of all the officials and employees of the government after receiving appropriate recommendations on the same from the Mayor.

27. Only persons who are residents of the City of Chattanooga shall be eligible to vote in City elections.

28. Subsequent elections for Mayor and City Council members shall be held on the first Tuesday in March, 1993, and every four (4) years thereafter. The Mayor and each City Council member shall be elected by a majority of the votes cast for the office he or she seeks. If no candidate for Mayor or no candidate for one or more City Council seats attains a majority in the March elections, a run-off election shall be held on the second Tuesday in April. The run-off election shall be held between the two candidates in each such contest who receive the highest number of votes. Those candidates elected either in the first election in March or in the run-off election in April shall file a bond, take the oath of office and assume their respective duties on the first Monday after the second Tuesday in April following the initial March elections, each to serve until the first Monday after the second Tuesday in April, 1997, or until a successor is elected and qualified. A Mayor and all City Council members shall be elected to four (4) year terms of office in the same manner thereafter.

29. The current Chairman of the Board of Education shall serve until February 1, 1991. Thereafter, the Chairman of the Board of Education shall be elected by the Board from among its members, which Chairman shall have full voting rights on all matters and questions coming before the Board of Education.

30. Current members of the Board of Education shall serve until their terms expire. Elections shall be held in the general election in November, 1990 for Districts 1, 3, 5, 7 and 9 as defined herein. The candidates receiving the most votes (plurality) in his or her district shall be elected. Those candidates

elected shall take the oath of office and assume their respective duties February 1, 1991, for four (4) year terms. Thereafter, elections shall be held in the general election of November, 1994 and every four (4) years thereafter with terms of office to begin the following February first. An election shall be held in the general election of November, 1992 for Districts 2, 4, 6 and 8 as defined herein. Those candidates receiving the most votes (plurality) in his or her district shall be elected. The candidates elected shall take the oath of office and shall assume their respective duties on February 1, 1993. Thereafter, elections for Districts 2, 4, 6 and 8 shall be held in the general election of November, 1996 and every four (4) years thereafter with terms of office to begin the following February first. Members of the Board of Education shall be paid two and one-half percent (2.5%) of the Mayor's salary as adjusted from time to time. Qualifications for Board membership shall be the same as those for members of the City Council. Any vacancy occurring on the Board of Education shall be filled by appointment of the Mayor with the approval of a majority of the Council. Any person chosen to fill such a vacancy shall possess the same qualifications as that of a Board member elected by the people. Any person elected or appointed as a member of the Board of Education shall serve until his or her successor is elected and qualified; provided, however, that if any general statute requires an earlier election, then such general statute shall apply.

Editor's note—This section is superseded by the Agreed Order entered August 9, 1990 in Brown v. Board of Commissioners, which was thereafter amended by Ord. No. 9713, § (1)(2), adopted 5-5-92, approved by the voters of the City on 8-6-92, and codified as part of § 17.28 of this Charter.

31. All employees of the City shall either be registered voters in the State of Tennessee, or eligible to vote in the State of Tennessee, except that those employees currently employed and living outside the State of Tennessee shall be exempted from this provision.

32. The Board of Trustees of the General Pension Plan is hereby expanded to seven (7) members. The Mayor shall be an ex officio member of the Board of Trustees and shall have the right to vote on all matters. The other six (6) Trustees shall be appointed by the Mayor with the approval of a majority vote of the entire membership of the City Council. (The City Auditor and City Treasurer shall no longer serve as ex officio members of the Board of Trustees.) The Mayor and Council shall ensure in the exercise of their appointment powers as vacancies occur on the Board of Trustees that black representation thereon will be consistent with the percentage of the black population in the City. No person shall be eligible to be a Trustee unless he or she (a) is a trust or investment officer, or has the qualifications of a trust or investment officer as determined from the requirements for those positions by prevailing custom in local government, and among the banks, insurance companies or licensed stock or bond brokers who have offices in Chattanooga, Tennessee, and (b) is a resident of the City of Chattanooga, Tennessee, or is employed within the corporate boundaries of the City of Chattanooga, Tennessee. Of the six (6) appointed members of the Board, no more than two (2) may be employed by the same employer. Two (2) of the members of the Board shall be appointed to initial terms of five (5) years, two (2) of the members shall be appointed to initial terms of four (4) years and two (2) of the members shall be appointed to initial terms of three (3) years. Thereafter, all terms shall be for five (5) years. The City Personnel Director (by whatever title) shall be the keeper of the records of the Board of Trustees.

33. The Mayor shall propose an annual budget and present it to the City Council. The Council shall enact a budget ordinance after receiving recommendations for the same from the Mayor, which recommendations the Council may accept, modify or reject.

34. On June 11, 1990, the current Mayor and Commissioners of the City of Chattanooga, shall act as consultants to the new Mayor and Council until April 15, 1991. As consultants they shall perform any duties specified by the Mayor and Council in keeping with their former positions and duties. Nothing herein shall prohibit any Commissioner from being elected or appointed to any position in City government. Any Commissioner who shall be elected or appointed to a position in City government shall receive for the remainder of his current elective term the greater of either the prior salary or the City salary to which such official shall be entitled by election or appointment. In addition to the prior salary, a Mayor

or former Commissioner as a consultant shall be entitled to all the benefits to which said Mayor or Commissioner had been previously entitled, including health insurance, pension, and retirement benefits. Any Mayor's or Commissioner's entitlement shall terminate upon such Commissioner's establishment of residence outside the City or rejection of the offer of a position in the City government having a salary of not less than that of the former office held by such person.

35. Nothing herein shall preclude persons who are receiving benefits from any of the City's pension plans from serving on the City Council without loss of previously accrued pension benefits; provided, however, such service by such retired employees shall not constitute additional credited service toward greater pension benefits.

36. Any existing provision of the Charter of the City of Chattanooga not directly amended or materially and substantially affected by the foregoing amendments shall remain in full force and effect, but all provisions of the existing Charter that are in conflict or are not consistent with the foregoing amendments shall be considered repealed by implication.

APPENDIX NO. 2 AGREED ORDER*

It appearing to the Court that the parties are in agreement, that paragraph 30 of the Agreed Order entered January 18, 1990, be revised pursuant to Rule 60, Federal Rules of Civil Procedure, to provide for the election of school board members for the City of Chattanooga as set forth in Resolution No. 18691, adopted by the City Counsel [Council] of the City of Chattanooga on June 19, 1990, and for other good cause shown, it is hereby

ORDERED, that paragraph 30 of the Judgment Order entered January 18, 1990 be amended to include a new paragraph 30 as set forth in Resolution No. 18691 of the Chattanooga City Council dated June 19, 1990, a certified copy of which is attached hereto and incorporated herein by reference.

ENTER this 9th day of August, 1990.

RESOLUTION NO. 18691

A RESOLUTION RATIFYING, CONFIRMING AND APPROVING A PROPOSED AMENDMENT TO PARAGRAPH 30 OF THE AMENDED PLAN TO REORGANIZE THE GOVERNING BODY OF THE CITY OF CHATTANOOGA AS ORDERED BY THE UNITED STATES DISTRICT COURT, EASTERN DISTRICT, SOUTHERN DIVISION, IN THE CASE OF BROWN, ET AL. V. CITY OF CHATTANOOGA, ET AL., CIVIL ACTION NO. 1-87-388.

BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF CHATTANOOGA, TENNESSEE, That a proposed amendment submitted to the Court by the City Attorney to Paragraph 30 of the amended plan to reorganize the governing body of the City of Chattanooga as referred to in the caption hereof be and is hereby ratified, confirmed and approved, which paragraph as amended would read as follows:

30. Current members of the Board of Education shall serve until their terms expire. Elections shall be held in the general election in November, 1990, for Districts 1, 4, 5, 7 and 8 as defined herein. The candidates receiving the most votes (plurality) in his or her district shall be elected. Those candidates shall take the oath of office and assume their respective duties February 1, 1991, for four (4) year terms. Thereafter, elections for Districts 1, 4, 5, 7 and 8 shall be held in the general election of November, 1994, and every four (4) years thereafter with terms of office to begin the following February 1. An election shall be held in the general election of November, 1992, for Districts 2, 3, 6 and 9 as defined herein. Those candidates receiving the most votes (plurality) in his or her district shall be elected. The candidates elected shall take the oath of office and shall assume their respective duties on February 1, 1993. Thereafter, elections for Districts 2, 3, 6 and 9 shall be held in the general election of November, 1996, and every four (4) years thereafter with terms of office to begin the following February 1. Members of the Board of Education shall be paid two and one-half percent (2.5%) of the Mayor's salary as adjusted from time to time. Qualifications for board membership shall be the same as those for members of the City Council. Any vacancy occurring on the Board of Education shall be filled by appointment of the Mayor with the approval of a majority of the Council. Any person chosen to fill such a vacancy shall possess the same qualifications as that of a board member elected by the people. Any person elected or appointed as a member of the Board of Education shall serve until his or her successor is elected and qualified; provided, however, that if any general statute requires an earlier election, then such general statute shall apply.

ADOPTED: 6/19/90

MAM:cjc

APPENDIX NO. 3 ORDER*

This case is before the Court pursuant to the motion of defendant City of Chattanooga for approval of the Redistricting Plan for Elections of Members of the City Council ("Redistricting Plan") which the Chattanooga City Council approved as Ordinance 9640 on third and final reading on November 26, 1991. The Redistricting Plan is based on 1990 census figures and has been submitted to this Court for review pursuant to paragraph 20 of the Amended Plan which was a part of the Agreed Order entered by this Court on January 18, 1990. This Court retained jurisdiction for the limited purpose of reviewing this Redistricting Plan pursuant to 42 U.S.C. § 1973a(c).

No opposition has been filed to the City's motion. A review of the Redistricting Plan reveals on its face that it is in compliance with the Voting Rights Act of 1965, as amended, 42 U.S.C. §§ 1973 — 1973ff-6, as well as the Equal Protection Clause of the Fourteenth Amendment of the United States Constitution.

It is, therefore, ORDERED that the Redistricting Plan (Ordinance 9640) be, and it hereby is, APPROVED. Therefore, the judgment previously entered in this case is now in all respects FINAL.

R. ALLAN EDGAR
UNITED STATES DISTRICT JUDGE

***Case law reference—**Filed in Brown, et al. v. Board of Commissioners, et al. in the United States District Court for the Eastern District of Tennessee, Southern Division, on January 17, 1992.

ORDINANCE NO. 9640

AN ORDINANCE REAPPORTIONING THE NINE DISTRICTS FOR CITY COUNCIL AND SCHOOL BOARD POSITIONS AND AUTHORIZING THE CITY ATTORNEY TO SUBMIT THIS REAPPORTIONMENT PLAN TO THE UNITED STATES DISTRICT COURT FOR THE EASTERN DISTRICT OF TENNESSEE, CHATTANOOGA DIVISION.

SECTION 1. WHEREAS, Section 19 of the Court Order in the case of Brown v. Board of Commissioners of the City of Chattanooga, Tennessee, No. Civ-1-87-388, in the United States District Court for the Eastern District of Tennessee requires that following the publication of each new official decennial federal census, the Council shall reorganize and adjust by ordinance the boundaries of the council districts; and

WHEREAS, the same section requires that the adjusted districts shall be as equal in population as practicable; and

WHEREAS, the City has now received the official results of the 1990 decennial federal census and is therefore required to redistrict;

NOW, THEREFORE,

BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF CHATTANOOGA, TENNESSEE, That the nine districts for City Council and School Board positions be and are hereby reapportioned and redistricted so as to provide that the following districts are hereby established for the various council positions:

CHARTER COMPARATIVE TABLE (ORDINANCES)

This table gives the location within this Charter of those ordinances adopted since the 1995 Chattanooga City Code (and its Supplement No. 1 thereto) and ratified by the vote of the people. Ordinances adopted prior to such date were incorporated into the 1995 Chattanooga City Code. Ordinances not listed herein have been omitted as repealed, superseded, or not of a general and permanent nature.

PART II

CITY CODE

Chapter 1

GENERAL PROVISIONS

Sec. 1-1. How Code designated and cited.
Sec. 1-2. Definitions and rules of construction.
Sec. 1-3. Provisions considered continuations of existing ordinances.
Sec. 1-4. Catchlines of sections.
Sec. 1-5. Repeal of ordinance not to affect liabilities.
Sec. 1-6. Repeal not to revive former ordinance.
Sec. 1-7. Severability of provisions of Code.
Sec. 1-8. General penalty; exceptions; continuing violations.
Sec. 1-9. Reserved.
Sec. 1-10. Enforcement of city's right-of-entry.
Sec. 1-11. Supplementation of Code.
Sec. 1-12. Ordinances not affected by adoption of Code.

Sec. 1-1. How Code designated and cited.

The ordinances embraced in the following chapters and sections shall constitute and be designated as the "City Code of the City of Chattanooga, Tennessee" and may be so cited. The Code may also be cited as "Chattanooga City Code."
(Code 1986, § 1-1)

Sec. 1-2. Definitions and rules of construction.

In the construction of this Code and of all ordinances of the city, the following definitions and rules of construction shall be observed, unless they are inconsistent with the manifest intent of the city council or the context clearly requires otherwise:

Bond. When a bond is required, an undertaking in writing shall be sufficient.

City. The words "city" or "the city" shall mean the City of Chattanooga, in the County of Hamilton and State of Tennessee.

Computation of time. The time within which an act is to be done shall be computed by excluding the first and including the last day, unless the last day is a Saturday, a Sunday or a legal holiday, and then it shall also be excluded.
State law reference—Similar provisions, T.C.A., § 1-3-102.

Council. The words "council" or "city council" shall mean the City Council of the City of Chattanooga.

County. The word "county" shall mean the County of Hamilton in the State of Tennessee.

Gender. Words importing the masculine gender shall include the feminine and neuter.
State law reference—Similar provisions, T.C.A., § 1-3-104.

In the city. The words "in the city" shall mean and include any territory jurisdiction over which the exercise of its regulatory power has been conferred on the city by public or private law.
State law reference—Police powers outside city, T.C.A., § 6-54-301.

Joint authority. All words giving a joint authority to three (3) or more persons or officers shall be construed as giving such authority to a majority of such persons or officers.
State law reference—Similar provisions, T.C.A., § 1-3-106.

Month. The word "month" shall mean a calendar month.
State law reference—Similar provisions, T.C.A., § 1-3-105(16).

Number. Words used in the singular shall include the plural and the plural shall include the singular number.
State law reference—Similar provisions, T.C.A., § 1-3-104.

Oath. The word "oath" shall include an affirmation in all cases in which, by law, an affirmation may be substituted for an oath, and in such cases the words "swear" and "sworn" shall be equivalent to the words "affirm" and "affirmed."
State law reference—Similar provisions, T.C.A., § 1-3-105(18).

Or, and. The word "or" may be read as "and" and the word "and" as "or," where the sense requires it.

Owner. The word "owner," applied to a building or land, shall include any part owner, joint owner, tenant in common, joint tenant or tenant by the entirety, of the whole or a part of such building or land.

Person. The word "person" shall include a corporation, firm, partnership, association, organization and any other group acting as a unit, as well as an individual.
State law reference—Similar provisions, T.C.A., § 1-3-105(19).

Personal property. The words "personal property" include money, goods, chattels, things in action, evidences of debt on every species of property except real property, as defined in this section.

State law reference—Similar provisions, T.C.A., § 1-3-105(20).

Preceding, following. The words "preceding" and "following" shall mean next before and next after respectively.

Property. The word "property" shall mean both personal and real property.

State law reference—Similar provisions, T.C.A., § 1-3-105(23).

Real property. The words "real property" shall mean lands, tenements and hereditaments and all rights thereto and interests therein, equitable as well as legal.

State law reference—Similar provisions, T.C.A. § 1-3-105(20).

Shall. The word "shall" shall be deemed to be mandatory.

Sidewalk. The word "sidewalk" shall mean any portion of a street between the curb line and the adjacent property line intended for the use of pedestrians.

Signature, subscription. The words "signature" and "subscription" shall include a mark when a person cannot write, the name being written near the mark and witnessed.

State law reference—Similar provisions, T.C.A., § 1-3-105(25,27).

State. The word "state" shall mean the State of Tennessee.

Street. The word "street" shall mean and include streets, avenues, boulevards, highways, roads, alleys, lanes, viaducts, bridges and the approaches thereto and all other public thoroughfares in the city.

Tenant, occupant. The words "tenant" and "occupant" applied to a building or land, shall mean any person who occupies the whole or a part of such building or land, whether alone or with others.

Tense. Words used in the past or present tense shall include the future as well as the past and present, and the future tense includes the present.

State law reference—Similar provisions, see T.C.A. § 1-3-104.

Writing, written. The words "writing" and "written" shall include printing, typewriting, engraving, lithography and any other mode of representing words and letters.

State law reference—Similar provisions, see T.C.A. § 1-3-105(30).

Year. The word "year" shall mean a calendar year.

State law reference—Similar provisions, T.C.A. § 1-3-105(31).

(Code 1986, § 1-2; Ord. No. 9654, §§ 1, 2, 1-6-92)

Sec. 1-3. Provisions considered continuations of existing ordinances.

The provisions appearing in this Code, so far as they are the same as those of the City Code and ordinances existing at the time of adoption of this Code, shall be considered as a continuation thereof and not as new enactments.

(Code 1986, § 1-3)

Sec. 1-4. Catchlines of sections.

The catchlines of the sections of this Code printed in boldface type are intended as mere catchwords to indicate the contents of the sections and shall not be deemed or taken to be titles of such sections, nor as any part of any section, nor, unless expressly so provided, shall they be so deemed when any section, including its catchlines, is amended or reenacted.

(Code 1986, § 1-4)

Sec. 1-5. Repeal of ordinance not to affect liabilities.

No new ordinance shall be construed to repeal a former ordinance as to any offense committed against the former ordinance or as to any act done or penalty, forfeiture or punishment incurred, or as to any right accrued or claim arising under the former ordinance, or in any way whatever to affect any such offense or act committed or done, penalty, forfeiture or punishment incurred, right accrued, or claim arising before the new ordinance takes effect, save only that the proceedings thereafter had shall conform, so far as practicable, to the ordinance in force at the time of such proceedings.
(Code 1986, § 1-5)

Sec. 1-6. Repeal not to revive former ordinance.

When an ordinance which has repealed another shall itself be repealed, the previous ordinance shall not be revived without express words to that effect.
(Code 1986, § 1-6)

Sec. 1-7. Severability of provisions of Code.

In any part, section, subsection, sentence, clause, or phrase of this Code or any code adopted by reference in this Code is for any reason declared to be unconstitutional or otherwise invalid by any court of competent jurisdiction, such decision shall not affect the validity of the remaining portions of this Code or any code adopted by reference in this Code.
(Code 1986, § 1-7)

Sec. 1-8. General penalty; exceptions; continuing violations.

(a) Wherever in this Code or in any ordinance or rule or regulation promulgated by any officer of the city under authority vested in him by law or ordinance, any act is prohibited or is declared to be unlawful or a misdemeanor, or the doing of any act is required, or the failure to do any act is declared to be unlawful, the violation of any such provision of this Code or any such ordinance, rule or regulation shall be punished by a monetary penalty and forfeiture not exceeding five hundred dollars ($500.00).

(b) Notwithstanding the provisions of subsection (a), the penalties set forth in Chapter 4 and in Sections 24-304, 24-322 and 24-329 of this Code are not affected by this Section 1-8.

(c) Each day any violation of this Code or any such ordinance, rule or regulation continues shall constitute a separate offense.
(Code 1986, § 1-8; Ord. No. 9802, § 1, 10-20-92)

State law reference—Penalty for violation of home rule municipal ordinances, T.C.A. § 6-54-306.

Sec. 1-9. Reserved.

Editor's note—Ord. No. 13386, § 1, adopted Oct. 23, 2018, repealed § 1-9, which pertained to commitment required for nonpayment of fine and costs and derived from Code 1986, § 1-9.

Sec. 1-10. Enforcement of city's right-of-entry.

If the owner, occupant or person in charge of any premises in the city, to which the city is given a right-of-entry for enforcement or administration purposes by any provision of this Code or any code or regulation adopted by this Code, refuses entry to the person responsible for enforcement of such provision, such person shall seek a warrant or use such other legal procedures as shall be advisable and reasonably necessary to discharge his duties.
(Code 1986, § 1-10)

Sec. 1-11. Supplementation of Code.

(a) By contract or by city personnel, supplements to this Code shall be prepared and printed whenever authorized or directed by the city council. A supplement to the Code shall include all substantive parts of permanent and general ordinances passed by the city council during the period covered by the supplement and all changes made thereby in the Code. The pages of a supplement shall be so numbered that they will fit properly into the Code and will, where necessary, replace pages which have become obsolete or partially obsolete, and the new pages shall be so prepared that, when they have been inserted, the Code will be current through the date of the adoption of the latest ordinance included in the supplement.

(b) In preparing a supplement to this Code, all portions of the Code which have been repealed shall be excluded from the Code by the omission thereof from reprinted pages.

(c) When preparing a supplement to this Code, the codifier (meaning the person, agency or organization authorized to prepare the supplement) may make formal, nonsubstantive changes in ordinances and parts of ordinances included in the supplement, insofar as it is necessary to do so to embody them into a unified Code. For example, the codifier may:

(1) Organize the ordinance material into appropriate subdivisions;

(2) Provide appropriate catchlines, headings and titles for sections and other subdivisions of the Code printed in the supplement, and make changes in such catchlines, headings and titles;

(3) Assign appropriate numbers to sections and other subdivisions to be inserted in the Code and, where necessary to accommodate new material, change existing section or other subdivision numbers;

(4) Change the words "this ordinance" or words of the same meaning to "this chapter," "this article," "this division," etc., as the case may be or to "sections _____ to _____" (inserting section numbers to indicate the sections of the Code which embody the substantive sections of the ordinance incorporated into the Code); and

(5) Make other nonsubstantive changes necessary to preserve the original meaning of ordinance sections inserted into the Code; but, in no case shall the codifier make any change in the meaning or effect of ordinance material included in the supplement or already embodied in the Code.

(Code 1986, § 1-11)

Sec. 1-12. Ordinances not affected by adoption of Code.

The repeal provided for in section 2 of the ordinance adopting this Code shall not affect any of the following:

(1) Any offense or act committed or done or any penalty or forfeiture incurred or any contract or right established or accruing before the effective date of the ordinance adopting this Code;

(2) Any ordinance or resolution promising or guaranteeing the payment of money for the city, or authorizing the issuance of any bonds of the city or any evidence of the city's indebtedness, or any contract or obligation assumed by the city;

(3) Any ordinance or resolution fixing salaries or compensation of officers or employees of the city;

(4) Any appropriation ordinance or resolution;

(5) Any right or franchise granted by the council to any person, firm or corporation;

(6) Any ordinance or resolution dedicating, naming, establishing, locating, relocating, opening, closing, paving, widening, vacating, etc., any street or public way in the city;

(7) Any ordinance or resolution establishing and prescribing the street grades of any streets in the city;

(8) Any ordinance or resolution providing for local improvements or assessing taxes therefor;

(9) Any ordinance annexing property to the city;

(10) Any zoning ordinance of the city or amendments thereto;

(11) Any ordinance levying taxes;

(12) Ordinance No. 7034, providing regulations for professional fund solicitors, and any amendments thereto;

(13) Any subdivision ordinance or amendments thereto;

(14) Any ordinance enacted after February 11, 1986;

nor shall such repeal be construed to revive any ordinance or part of an ordinance that has been repealed by a subsequent ordinance which is repealed by the ordinance adopting this Code.
(Code 1986, § 1-12)

Chapter 2

ADMINISTRATION*

Article I. In General

Sec. 2-1. Corporate seal.
Sec. 2-2. Mayor to report neglect or misconduct of city officers.
Sec. 2-3. Hours of operation; Holidays; Work Schedules; and Meal Periods.

ARTICLE I. IN GENERAL

Sec. 2-1. Corporate seal.

(a) The official seal of the city shall be circular, bearing in circular form around the outer portion thereof the words "Corporation Seal" and a drawing presenting a view of downtown Chattanooga and a part of Moccasin Bend as seen from the vantage of Point Park on Lookout Mountain, such vantage being represented by the drawing of a cannon on a rock within the lower left-hand quadrant of the outer and inner portion of the seal. It shall be unlawful for any person to use any other seal as the corporate seal of the City of Chattanooga, Tennessee; provided, however, that, it shall be lawful for the city finance officer and other officers of the city to use the former seal of the City of Chattanooga, Tennessee, as authorized by Ordinance No. 618, until such time as the seal described in this section is prepared; and the presence, after the effective date of this section [June 15, 1975], of such former seal on any document, correspondence, affidavit, certification, bond, voucher or other instrument on which the seal must be affixed according the law shall not affect the validity of such instrument.

(b) The official seal of the city adopted and described in this section shall be reproduced for all purposes in substantially the same form and appearance as shown on the copy of the artist's rendering of the original made a part hereof by reference.
(Code 1986, § 2-1; Ord. No. 9654, § 8, 1-6-92)

Sec. 2-2. Mayor to report neglect or misconduct of city officers.

The mayor shall report to the city council any violation or neglect of duty on the part of any officer which may come to his knowledge.
(Code 1986, § 2-2; Ord. No. 9654, § 2, 1-6-92)

Sec. 2-3. Hours of operation; Holidays; Work Schedules; and Meal Periods.

(a) Offices of City government shall be opened for transaction of public business from 8:00 a.m. until 4:30 p.m. except on Saturday, Sunday and when City Hall and related offices are closed unless otherwise designated.

(b) City Hall and related offices shall be closed on the following City recognized holidays:

PAID HOLIDAY SCHEDULE

1) New Year's Day January 1
2) Martin Luther King's Birthday Third Monday in January
3) Good Friday Friday preceding Easter Sunday
4) Memorial Day Last Monday in May
5) Juneteenth Independence Day June 19
6) Independence Day July 4
7) Labor Day First Monday in September
8) Veteran's Day November 11
9) Thanksgiving Day Fourth Thursday in November
10) Friday After Thanksgiving Day in November
11) Christmas Eve December 24

12) Christmas Day December 25

When holidays fall on a Saturday, then City Hall and related offices shall be closed on the preceding day (Friday). When holidays fall on a Sunday, then City Hall and related offices shall be closed the next day (Monday).

(c) All employee work weeks and work periods as required by the Fair Labor Standards Act shall be established by department administrators and made available in writing to employees and filed with the Departments of Finance and Personnel.

(d) Each employee shall have a minimum of a thirty (30) minute unpaid meal period (one (1) hour maximum) if scheduled to work six (6) hours consecutively. The meal period shall not be scheduled within the first or last hour of the scheduled work day or shift unless specifically authorized by the immediate supervisor on a sporadic basis.

(e) Department heads are to ensure that all regular employees work their scheduled standard hours.
(Code 1986, § 2-3; Ord. No. 12414, § 1, 7-20-10; Ord. No. 13671, § 1, 5-18-21)

Sec. 2-4. Officer to furnish new bond where original bond defective or security insufficient.

If at any time an official bond becomes defective for any reason or the sureties thereon have become insufficient, the internal auditor shall notify at once the officer whose duty it is to furnish a new bond in accordance with the provisions of section 2-3. If such officer fails to comply within ten (10) days after being so notified, his office shall automatically become vacant, and such vacancy shall be filled as provided by law.
(Code 1986, § 2-4; Ord. No. 9654, § 3, 1-6-92)

Sec. 2-5. Departmental inventories of city property.

Each department and agency of the city shall, under the supervision of the city finance officer, keep a perpetual inventory of the city property under its control, and shall furnish such reports in relation thereto as the city finance officer may require.
(Code 1986, § 2-5; Ord. No. 9654, § 4, 1-6-92)

Sec. 2-6. Records, documents open to public inspection.

All accounts and records, including papers, books, documents, memoranda and reports of all kinds in any departments or offices of the city shall be open to public inspection at all reasonable times except as otherwise provided by state statutes.
(Code 1986, § 2-6)

Sec. 2-7. City authorized to contribute to pension funds created, operated by labor organizations.

Contributions during each fiscal year, in the sum of twenty cents ($0.20) per hour, fifteen cents ($0.15) per hour, and fifteen cents ($0.15) per hour, may be paid to the Central Pension Fund of the International Union of Operating Engineers and Participating Employers; Central States Southeast and Southwest Areas Pension Fund; and Laborers' International Union of North America National (Industrial) Pension Fund, respectively, for pensions coverage of certain hourly employees of the city. Specific payments, whether past due or to become due, or contracts for future payments, shall be authorized by resolution adopted by the city council.
(Code 1986, § 2-7; Ord. No. 9654, § 2, 1-6-92)

Cross references—City personnel regulations generally, § 2-136 et seq.; social security for city employees generally, § 2-231 et seq.; social security for educational personnel, § 2-251 et seq.; supplemental pension benefits, § 2-661 et seq.

Sec. 2-8. City and employees contribution rate for general pension plan.

(a) The city contribution rate for the general pension plan shall be and is hereby established at four and one-half percent (4½%) of the salaries and wages of the covered participants in the general pension plan.

(b) The employee contribution rate shall be and is hereby set at an amount equal to two percent (2%) of the amount of salary and wages covered by social security and five percent (5%) of the amount of salaries and wages not covered by social security.
(Code 1986, § 2-8)

Cross references—City contribution to firemen's and policemen's insurance and pension fund, § 16-8; increase in pension benefits, § 16-8.1.

Sec. 2-9. Reserved.

Editor's note—Ord. No. 13386, § 2, adopted Oct. 23, 2018, repealed § 2-9, which pertained to City relief bureau—Duties of mayor and derived from Code 1986, § 2-9; Ord. No. 9654, § 5, 1-6-92.

Sec. 2-10. Reserved.

Editor's note—Ord. No. 13386, § 2, adopted Oct. 23, 2018, repealed § 2-10, which pertained to Same—Truthfulness of applicant's statements; certification; penalty for violation and derived from Code 1986, § 2-10.

Sec. 2-11. Alternate site for City Council meetings.

The Hamilton County Board of Commissioners Assembly Room, located at the Courthouse at 7th and Georgia Avenues, is hereby designated by the City Council of the City of Chattanooga as an alternate site for meetings of the City Council of the City when in joint session with the Hamilton County Board of Commissioners.
(Code 1986, § 2-11; Ord. No. 9654, § 2, 1-6-92)

Editor's note—Ordinance No. 8646, enacted June 10, 1986, provided for amendment of Part II of the Chattanooga City Code, but did not specify the manner of such amendment; hence, codification of the substantive provisions of § 1 of the ordinance as § 2-11 was at the discretion of the editor.

Sec. 2-12. Boards and commissions—Removal of members.

(a) The chairman of any duly authorized board or commission shall notify the Mayor in writing of any member's failure to attend three (3) consecutive meetings, or if a member misses more than fifty percent (50%) of the meetings in any twelve (12) month period.

(b) Any duly appointed member of a board or commission may be removed by the Mayor, after notice to the City Council, for neglect of duty, or, malfeasance. Neglect of duty may be determined if a member of a board or commission fails to attend three (3) consecutive meetings or misses more than fifty percent (50%) of the meetings during any twelve (12) month period.
(Ord. No. 10849, § 1, 05-11-99)

Secs. 2-13—2-25. Reserved.

ARTICLE II. OFFICERS*

DIVISION 1. GENERALLY

Secs. 2-26—2-40. Reserved.

DIVISION 2. CITY ATTORNEY†

Sec. 2-41. Attendance and services at meetings of city council.

The city attorney shall attend all regular special meetings of the city council and shall give his advice and counsel to the council whenever it is requested.
(Code 1986, § 2-41; Ord. No. 9654, § 6, 1-6-92)

Sec. 2-42. To be notified of service of process or notices.

Whenever any process or notice shall be served on the mayor in any legal proceeding against the city, he shall immediately deliver the same to the city attorney or notify him that he has been served therewith.
(Code 1986, § 2-42)

Sec. 2-43. Docket and opinion book.

The city attorney shall keep a docket containing a complete record of all suits in which the city may be interested, and shall keep a further book in which shall be recorded such opinions as he may be called upon to furnish to any of the departments or agencies of the city.
(Code 1986, § 2-43)

Sec. 2-44. When other counsel to represent city.

The city attorney, when any suit is brought against the city which he is incompetent to defend because of former connection with the plaintiffs or for any other reasons, shall report the fact at once to the mayor, and the city attorney shall engage the services of competent counsel to defend such suit.
(Code 1986, § 2-44; Ord. No. 9654, § 7, 1-6-92)

Sec. 2-45. Qualifications, duties of assistants.

Each assistant city attorney shall be a practicing attorney, and shall be a resident of the state licensed to practice in the state. The assistant city attorney shall be subordinate to and shall assist the city attorney in the performance of the duties incident to his office.
(Code 1986, § 2-45)

Sec. 2-46. Appointment of subordinates.

The city attorney shall appoint and/or contract for the services of assistants, special counsel, agents and stenographers, or other employees who shall serve at the pleasure of the city attorney.
(Code 1986, § 2-46)

***Cross references—**City court clerk, § 12-36 et seq.; fire and police departments, Ch. 16; city traffic engineer, § 24-96 et seq.

†**Charter reference—**City attorney generally, § 3.61 et seq.

Cross reference—City attorney to assist in investigation of suspected arson, § 17-31.

Sec. 2-47. Investigator for office of city attorney.

The office investigator for the office of the city attorney is hereby created and established, which shall be composed of one (1) or more persons on a full-time, part time, temporary or contractual basis, who shall be subordinate to and shall assist the city attorney in the performance of the duties incident to his office. The appointment and services shall be pursuant to section 2-46. Upon appointment, such person shall comply with section 16-42; and shall have and possess the authority contained in section 16-45 and the last sentence of section 5-43, together with any other applicable ordinances or laws, but such appointment shall not be subject to the personnel policies of the city.
(Code 1986, § 2-47)

Sec. 2-48. Payment for legal services.

The city attorney is authorized to execute contracts for professional legal services pursuant to sections 2-46 and 2-356, whereby such attorneys will be paid a maximum retainer, whether, as periodic fees or as a salary, against which charges for legal services rendered for general corporate legal counseling, advising and drafting, etc., on behalf of the city will be debited and any credit balance shall be applied against additional fees for legal services relating to litigation involving the city, including matters involving administrative tribunals, title search and certifications, and security transactions; and all of such compensation shall not be inconsistent with Rule 8, Canon 2-106(B)1-8, of the Tennessee Supreme Court; and, further, that such arrangement is authorized for all other or subsequent attorneys in the office of the city attorney; provided, however, that any such additional payments as fees for legal services rendered by a special counsel relative to litigation shall be within budgetary limitations, and in order to comply with such budgetary limitations any such professional legal service contracts with special counsel shall provide that all retainer and/or fee determinations shall be made by the city attorney and his judgment on such questions shall be final and conclusive.
(Code 1986, § 2-48)

Sec. 2-49. Legal liability claims.

Pursuant to Section 6.167 of the City Charter, the City Council has been authorized to maintain a legal liability reserve fund. The City Attorney may settle or compromise and authorize payments from the legal liability fund for any expenditures, contracts, requisitions, and vouchers in the amounts set forth in Chattanooga City Code §§ 2-549 or 2-551 without seeking City Council approval.
(Ord. No. 13212, § 1, 8-22-17; Ord. No. 13450, § 1, 4-2-19)

Secs. 2-50—2-60. Reserved.

DIVISION 3. CITY FINANCE OFFICER*

Sec. 2-61. Oath of office.

The city finance officer shall, before entering upon the discharge of the duties of his office, take an oath to faithfully and honestly discharge such duties.
(Code 1986, § 2-61; Ord. No. 9654, § 8, 1-6-92)

Sec. 2-62. Official bond.

The city finance officer shall execute a guaranty bond in the penal sum of one hundred thousand dollars ($100,000.00) before entering upon the duties of his office, conditioned that he will faithfully and fully discharge all the duties imposed on him by law or ordinance, and will well, truly and faithfully pay over and account for, according to law, all money or funds that may come into his hands, or under his control, by virtue of his office.
(Code 1986, § 2-62; Ord. No. 9654, § 8, 1-6-92)

Sec. 2-63. Custody of public records.

The city finance officer shall be responsible for the care and protection of all public records kept at the city hall whose custody is not assigned to another officer by law or ordinance.
(Code 1986, § 2-63; Ord. No. 9654, § 8, 1-6-92)

***Charter reference—**City finance officer [auditor] generally, § 3.95 et seq.

Sec. 2-64. Resolution book.

The clerk of the city council shall maintain a suitable well bound book, to be called "resolution book," in which he shall copy all resolutions passed by the city council. He shall place at the head of each resolution entered an appropriate caption indicating the nature of such resolution, with the name of the mover, and shall properly enter the caption in the index of the book, with the number of such resolution, and the number of the page in the book on which it is copied. He shall not be required to spread any resolution in full on the minute book or journal of the board, but when reference to any resolution is made in the minutes, it shall be by caption or number and the number of the page of the resolution book where such resolution is copied.
(Code 1986, § 2-64; Ord. No. 9654, § 9, 1-6-92)

Sec. 2-65. Payment for publication of ordinances granting franchises.

The cost of advertising ordinances granting franchises shall be paid by the grantees of the franchise rights as a condition precedent to the publication of the notice of such ordinances and before the passage thereof on the second and final reading. The clerk of the city council, before the publication by him or her of any ordinance granting any franchise, shall ascertain the cost of notice publication thereof in a daily newspaper published in the county and shall collect from the grantee of the franchise the cost of publication before delivering the ordinance to such newspaper for publication.
(Code 1986, § 2-65; Ord. No. 9654, § 10, 1-6-92; Ord. No. 13267, § 1, 1-30-18)

Charter reference—Requirements of ordinances granting franchises, § 7.2.

Sec. 2-66. Franchise book.

The clerk of the city council shall keep in a separate book known as the "franchise book," a record of franchises granted by the city, the date of passage of the ordinance granting any franchise, the limitation as to time in which rights-of-way, as defined under Chattanooga City Code Section 32-231 or as amended, may be built upon, if any, and the motive power to be employed in the exercise of such franchise, if any.
(Code 1986, § 2-66; Ord. No. 9654, § 10, 1-6-92; Ord. No. 13267, § 1, 1-30-18)

Sec. 2-67. Assistant city finance officer.

The office of assistant city finance officer is hereby created. The assistant city finance officer shall exercise the same authority as the city finance officer relative to countersigning vouchers, certifying the availability of funds, and certifying the correctness of public records, and he shall perform such other duties as may be imposed upon him from time to time by the city finance officer; however, the assistant city finance officer at all times shall be subordinate to and shall assist the city finance officer in the performance of the duties incident to his office. When the office of the city finance officer is vacant, or when the city finance officer is absent or unable to perform his duties, the assistant city finance officer shall act for and in the stead of the city finance officer. The assistant city finance officer shall be appointed by the city finance officer with the approval of the mayor and city council, but shall serve at the pleasure of the city finance officer, and shall give bond with good and sufficient sureties in the sum of fifty thousand dollars ($50,000.00).
(Code 1986, § 2-67; Ord. No. 9654, § 11, 1-6-92)

Sec. 2-68. Budget officer; assistant budget officer.

(a) The office of budget officer is hereby created. He shall be appointed by the city finance officer with the approval of the mayor and city council, but shall serve at the pleasure of the city finance officer, and shall give bond with good and sufficient sureties in the sum of fifty thousand dollars ($50,000.00). The budget officer, under the direction of the city finance officer, shall be responsible for the formulation and

the keeping of all records relating to the annual budget and any capital budget of the city; the certification that funds are available to meet expenditures covered by purchase orders; the approval of vouchers for payment of purchases pursuant to a prior purchase order; and for countersigning vouchers and requisitions drawn for the payment of funds when such voucher has been signed by the officer of the department, agency, board or commission or other division who is responsible by law for the expenditure of the appropriation against which such voucher or requisition is drawn. The budget officer shall be subordinate to and shall assist the city finance officer and the assistant city finance officer in the performance of their respective duties. The

budget officer shall act for and in the stead of the city finance officer when both the city finance officer and the assistant city finance officer are absent or unable to perform their respective duties or there is a vacancy in both of such offices.

(b) The office of assistant budget officer is likewise created, who shall have the same authority as the budget officer but shall be subordinate to and assist the budget officer as well as the superiors of the budget officer.
(Code 1986, § 2-68; Ord. No. 9654, § 11, 1-6-92)

Secs. 2-69—2-80. Reserved.

DIVISION 4. ENGINEER*

Sec. 2-81. Duty to prepare map.

The city engineer shall prepare a map of the city on which the town lots and their numbers shall be designated in such manner as to be of assistance in assessing such property for taxation.
(Code 1986, § 2-81)

Sec. 2-82. Duty to survey streets.

The city engineer shall survey accurately all the streets in the city and keep a record of such survey.
(Code 1986, § 2-82)

Sec. 2-83. Duty to establish, keep record of grades.

The city engineer shall establish the permanent grade of all streets and sidewalks in the city and shall prepare a suitable map of the city, showing such grades, which shall be kept for reference in his office, and shall keep a record of such grades in a book provided for that purpose.
(Code 1986, § 2-83)

Sec. 2-84. Reserved.

Sec. 2-85. Maps showing rights-of-way granted by city.

The city engineer shall, upon request of the clerk of the city council, prepare and place on file in the franchise book of the city a map or plat showing the streets over which a right-of-way granted by the city is to extend, the number of tracks, if any, whether single or double, and the location of all switches and turnouts.
(Code 1986, § 2-85; Ord. No. 9654, § 14, 1-6-92)

Sec. 2-86. Profile of grades to be made.

Whenever the grade is ordered to be established on any street in the city, the city engineer shall give such grade, under the direction of the mayor, and shall make a profit thereof and preserve the same in the city engineer's office for public use. Under the direction of the mayor, he shall give the owners of abutting property the grade of sidewalks. No fees or other allowance shall be made him for such work.
(Code 1986, § 2-86; Ord. No. 9654, § 15, 1-6-92)

Secs. 2-87—2-100. Reserved.

***Charter reference—**City engineer generally, § 3.111.
Cross reference—City traffic engineer, § 24-96 et seq.

DIVISION 5. TREASURER*

Sec. 2-101. Offices of treasurer and tax collector consolidated.

The offices of city treasurer and city tax collector are hereby consolidated. The duties pertaining to both offices shall devolve upon and be discharged by one (1) officer who shall be known as the city treasurer.
(Code 1986, § 2-101)

Sec. 2-102. Official bond.

The city treasurer shall execute a guaranty bond in at least the penal sum of five hundred thousand dollars ($500,000.00), conditioned that he will faithfully and fully discharge all the duties imposed on him by law or ordinance and will well, truly and faithfully pay over and account for, according to law, all money or funds that may come into his hands or under his control by virtue of his office.
(Code 1986, § 2-102)

Sec. 2-103. Extra compensation prohibited.

The city treasurer shall receive no extra compensation for any service performed which the mayor deems to be within the legitimate function of his office.
(Code 1986, § 2-103; Ord. No. 9654, § 13, 1-6-92)

Sec. 2-104. Tax collections and receipts.

The city treasurer shall collect all taxes due the city and shall issue to each taxpayer a receipt for taxes paid by him, which shall contain a clear description of the property taxed and the amount of tax assessed.
(Code 1986, § 2-104)

Sec. 2-105. Assistant treasurer—office created; appointment.

The office of assistant city treasurer is hereby created as a subordinate position in the department of public affairs and finance. Such office shall be filled by appointment by the mayor, with the consent of the city council.
(Code 1986, § 2-105; Ord. No. 9654, § 2, 1-6-92)

Sec. 2-106. Same—Duties.

The assistant city treasurer shall keep books in connection with the issuance and retirement of paving bonds and the collection of taxes as they mature against owners of property in the various paving districts. In addition he may, under the direction of the city treasurer, receive taxes and receipt for the same. He shall prepare and file with the mayor, on the tenth day of each month, a trial balance of the paving tax funds for the preceding month.
(Code 1986, § 2-106)

Sec. 2-107. Official bonds of assistant treasurer and deputies.

The assistant city treasurer and each deputy in the office of the city treasure shall execute a guaranty bond in the penal sum of fifty thousand dollars ($50,000.00), conditioned that he will faithfully and fully discharge all the duties imposed on him by law or ordinance and will well, truly and faithfully pay over and account for all city funds received by him, or that come into his possession.
(Code 1986, § 2-107)

***Charter references—**City treasurer generally, § 3.102; finance and taxation generally, Title 6.

Sec. 2-108. Licenses and permits—Issuance; posting.

The city treasurer shall, unless otherwise provided, issue all licenses and permits required under the provisions of this Code or any ordinance. Each person to whom a license is issued pursuant to the payment of a privilege tax shall keep such license posted conspicuously in his place of business for the entire year for which such license was issued. The city treasurer shall collect an administrative charge of five dollars ($5.00) for the issuance of each such license and permit in addition to the fees imposed therefor under the provisions of this Code or any ordinance.
(Code 1986, § 2-108; Ord. No. 9202, § 1, 07-25-89)

Cross reference—Businesses, trades and occupations generally, Ch. 11.

Sec. 2-109. Licenses and permits.

(a) Failure to obtain. It shall be unlawful for any person who engages in any vocation, occupation or business for which a privilege license is required or a permit is required to fail to pay the license fee or permit fee and obtain a license or permit for such vocation, occupation or business. Each day's violation shall constitute a separate offense.

(b) Settlement upon termination or transfer of business.

(1) If any person liable for any tax, penalty or interest levied hereunder shall sell out the person's business or stock of goods, or shall quit the business, the person shall make a final return and payment within fifteen (15) days after the date of selling or quitting the business.

(2) The person's successor, successors, or assigns, if any, shall withhold sufficient of the purchase money to cover the amount of such taxes, interest and penalties due and unpaid until such former owner shall produce a receipt from the proper city tax collector stating that no taxes, interest or penalties are due.

(3) If the purchaser of a business or stock of goods shall fail to withhold the purchase money as above provided, the purchaser shall be personally liable for the payment of the taxes, interest and penalties accruing and unpaid on account of the operation of the business by any former owner, owners, or assigns.

(4) (i) Nothing in this section shall apply to any license transferring a business from one (1) location to another, within the municipality, on a one-time basis during any annual taxable period.

(ii) In this event a licensee shall notify the local tax collector at least five (5) days prior to the last day of business at the old location, submitting information and payment of a five dollar ($5.00) recording fee for the new location.

(iii) Succeeding transfers by the same licensee, with the same annual taxable period, shall be subject to a final return and payment within fifteen (15) days, plus a new minimum business license and recording fee for the new location.

(Code 1986, § 2-109; Ord. No. 10561, § 1, 04-29-97)

Sec. 2-110. Partial Payments of property taxes and water quality fees.

(a) The City Treasurer shall accept partial payments of annual property taxes and water quality fees beginning October 1. Notwithstanding the following schedule, the entire amount of taxes and fees due must be paid in full prior to the first day of March following the year of levy otherwise interest and penalties will be applied on balance on March 1.

(b) No penalties, fines, interest or other fees shall be assessed against the payer of taxes or fees except as provided by the Chattanooga City Code and/or the laws of the State of Tennessee.

(c) Prior to the final reading of this ordinance, the City Treasurer shall transmit to the State Comptroller of the Treasury a copy of this ordinance which shall serve as the plan required by T.C.A. § 6-56-109(b). To fulfill this requirement, the City hereby declares that:

1. The City has the appropriate accounting technology to implement this program; and
2. The City can implement this program within existing resources.

(d) The City's Partial Payment Plan will be as follows:

1. Current year property tax bills are mailed in September with a due date of October 1. Taxes may be paid without penalty and interest through February of the following year.
2. Prepayments for current year taxes and water quality fees may be made any time during the calendar year in which assessed. Payments made prior to billing for a calendar year must be made in person at the City Treasury.
3. Any partial payment or property taxes other than electronic transfer made within ten (10) days of the delinquency date, or at any time following such delinquency date, may subject the property to a tax lien and enforcement by tax sale or other legally authorized procedures.
4. Partial payments of **PROPERTY TAXES** and **WATER QUALITY FEES** are subject to the following:
    - A. This plan shall NOT apply to the following:
        - i. Properties that have applied for bankruptcy;
        - ii. Escrow accounts.
    - B. No more than one (1) partial payment shall be made in one (1) calendar month.
    - C. May not be made in installments of less than fifty dollars ($50.00), except for final payment.
    - D. Cancelled Check will serve as a receipt for taxpayers who mail in payments by check.
    - E. Payments received March 1 or later following year of levy are subject to penalty and interest.
    - F. Any voucher issued pursuant to a tax relief program shall be used as all or a portion of the final payment.
    - G. Payments made after the delinquency date or after the last day of February will be applied as outlined below in Item K.
    - H. Partial payments received on or after the first day of any month following the last day of February will decrease the penalty and interest for the following month only.
    - I. Partial payment may be made by cash (except for mail in payments), credit card (including online payments), debit card, check or money order.
    - J. Partial payments will be applied to the oldest year with delinquent amounts due not in bankruptcy.
    - K. Partial payments will be applied in the following order:
        - i. Property taxes
            - a. Oldest year first not filed in Chancery Court:
                - 1- Interest and Penalty
                - 2- Tax
        - ii. Payment of Water Quality fee
            - 1- Interest

2- Fee

3- Oldest year first for current owner.

L. Any partial payments except electronic payments must be remitted to: Office of City Treasurer, 101 East 11th Street, Suite 100, Chattanooga, TN 37402.

(Ord. No. 12535, 8-9-11; Ord. No. 14148, § 1, 8-27-24)

Sec. 2-111. Senior tax freeze program.

The City of Chattanooga adopts the property tax freeze program for elderly low-income homeowners authorized by Tennessee Code Annotated, Section 67-5-705, and all of the qualifications, requirements, and procedures contained therein as amended from time to time.
(Ord. No. 13213, § 2, 9-12-17)

Secs. 2-112—2-230. Reserved.

ARTICLE III. HUMAN RESOURCES—MISCELLANEOUS*

DIVISION 1. OTHER POST-EMPLOYMENT BENEFITS PROGRAM†

Sec. 2-231. Definitions.

For the purposes of this Declaration, the following terms shall have the respective meanings set forth below unless otherwise expressly provided:

(a) *Account* means the investment recordkeeping account established to fund post-retirement welfare benefits on behalf of Employer's Employees, their Spouses, Dependents and Beneficiaries.

(b) *Administrator* means the Employer, acting by and through its City Finance Officer. The Employer acting through its Administrator or its Trustees may secure such administrative services as are necessary to implement a Plan.

(c) *Beneficiary* means the Spouse, Dependents, or the person or persons designated by a Participant pursuant to the terms of a Plan, who will receive any benefits payable under a Plan in the event of the Employee's death. In the case where there is no designated Beneficiary, any amount of contributions, plus accrued earnings thereon, remaining in a Participant's Account must, under the terms of a Plan, be returned to the Trust.

(d) *Code* means the Internal Revenue Code of 1986, as amended from time to time.

(e) *Dependent* means an individual who is a person described in Code Section 152(a).

***Editor's note—**Ord. No. 12983, §§ 2, 3, adopted August 25, 2015, amended art. III, in its entirety, to read as set out herein. Former art. III was titled "Personnel Ordinance." See Code Comparative Table for the complete history of derivation.

Cross references—City authorized to contribute to pension funds created and operated by labor organizations, § 2-7; mayor authorized to prescribe rules and regulations for police department, § 16-43; superintendent authorized to issue rules and regulations for administration of garbage and refuse chapter, § 18-4; superintendent's authority to make rules and regulations for identification of private garbage collectors, § 18-67; minimum pension for teachers with 25 years service, § 30-1; pension for personnel for whom city receives reimbursement, § 30-2.

†**Note—**This division creates an irrevocable "City of Chattanooga Post-Employment Benefits Other than Pension Trust" which is sometimes referred to as an OPEB Trust.

(f) *Employee* means an individual who performs services for the Employer, and who has been designated as eligible to participate in, and received benefits under a Plan.

(g) *Investment Fund* means any investment vehicle selected by the Employer in which all or a portion of the Trust assets may be invested as herein provided.

(h) *Non-Forfeitable Interest* means the interest of a Participant or the Participant's Spouse, Dependent or Beneficiary (whichever is applicable) in the percentage of Employer Contributions that has vested pursuant to the vesting schedule in a Plan sponsored by the Employer. A Participant shall, at all times, have a one hundred percent (100%) Non-Forfeitable Interest in the Participant's own contributions, if Participant contributions are permitted pursuant to the terms of the Plan.

(i) *Participant* means an Employee of the Employer who satisfies the requirements for participation in a Plan sponsored by the Employer.

(j) *Participant Account* means an individual recordkeeping account maintained under a Plan to record the contribution, if any, and earnings of a Participant in the Plan in accordance with Section 7.4.

(k) *Plan* or *Plans* means one (1) or more post-employment welfare benefits established by Employer for the Employer's Employees, their Spouses, Dependents, and Beneficiaries. Plan or Plans shall include such post-employment welfare benefit plans established by Employer prior to or subsequent to the adoption of this Division as the same maybe adopted, amended or repealed from time to time.

(l) *Spouse* means the Participant's lawful spouse as determined under the laws of the state in which the Participant has his primary place of residence.

(m) *Trust* means the trust established by this Declaration.

(n) *Trustees* means the Trustees of the General Pension Plan of the City of Chattanooga who shall act as designees of the Employer to administer the Investment Fund.
(Ord. No. 12983, §§ 2, 3, 8-25-15)

Sec. 2-232. Establishment of trust.

The Trust is hereby established as of the effective date of this Division for the exclusive purpose of providing a funding mechanism for post-employment welfare benefits for the Employer's Employees, their Spouses, Dependents and Beneficiaries.
(Ord. No. 12983, §§ 2, 3, 8-25-15)

Sec. 2-233. Construction.

(a) This Trust and its validity, construction and effect shall be governed by the laws of the State of Tennessee.

(b) Pronouns and other similar words used herein in the masculine gender shall be read as the feminine gender where appropriate, and the singular form of words shall be read as the plural where appropriate.

(c) If any provision of this Trust shall be held illegal or invalid for any reason, such determination shall not affect the remaining provisions, and such provisions shall be construed to effectuate the purpose of this Trust.
(Ord. No. 12983, §§ 2, 3, 8-25-15)

Sec. 2-234. Benefits.

(a) *Benefits.* This Trust may be used to fund benefits on behalf of a Participant, the Participant's Spouse and Dependents pursuant to the terms of a Plan.

(b) *Form of Benefits.* Assets held in this Trust may be used to reimburse a Participant, his Spouse and Dependents for insurance premiums or other payments expended for permissible benefits described under a Plan. This Trust may reimburse the Employer, or the Administrator for insurance premiums or other payments pursuant to the Plan.
(Ord. No. 12983, §§ 2, 3, 8-25-15)

Sec. 2-235. General duties.

(a) It shall be the duty of the Trustees to hold title to assets held in respect of the Account and Plan or Plans in the Trustees' name, as directed by the Employer or its designees in writing. The Trustees shall not be under any duty to compute the amount of contributions to be paid by the Employer or to take any steps to collect such amounts as may be due to be held in trust under the terms of a Plan. The Trustees shall not be responsible for the custody, investment, safekeeping or disposition of any assets comprising the Trust, to the extent such functions are performed by the Employer or the Administrator, or both.

(b) It shall be the duty of the Employer, subject to the provisions of a Plan, to pay over to the Administrator or other person designated hereunder from time to time the Employer's contributions, and to keep accurate books and records, or cause its designee to keep accurate books and records with respect to the Account and a Plan.
(Ord. No. 12983, §§ 2, 3, 8-25-15)

Sec. 2-236. Investments.

(a) The Employer shall appoint an investment committee that will, as a minimum, develop an investment policy.

(b) The Employer delegates to its Trustees the authority to appoint one (1) or more delegates and Trustees shall notify Employer in writing of any such appointment.

(c) To the extent directed by the Employer (or Participants, their Spouses, Dependents or Beneficiaries, to the extent provided herein), the Trustees are authorized and empowered with the following powers, rights and duties, each of which the Trustee shall exercise in a non-discretionary manner:

(1) To cause stocks, bonds, securities, or other investments to be registered in its name as Trustee or in the name of a nominee, or to take and keep the same unregistered;

(2) To employ such agents and legal counsel as it deems advisable or proper in connection with its duties. The Trustees shall not be liable for the acts of such agents and counsel or for the acts done in good faith and in reliance upon the advice of such agents and legal counsel, provided it has used reasonable care in selecting such agents and legal counsel;

(3) To exercise where applicable and appropriate any rights of ownership in any contracts of insurance in which any part of the Trust may be invested and to pay the premiums thereon; and

(4) At the direction of the Employer (or Participants, their Spouses, Dependents or Beneficiaries or the investment manager, as the case may be) to sell, write options on, convey or transfer, invest and reinvest any part thereof in each and every kind of property, whether real, personal or mixed, tangible or intangible, whether income or non-income producing and wherever situated, including but not limited to, time deposits, shares of common and preferred stock, mortgages, bonds, leases, notes, debentures, equipment or collateral trust certificates, rights, warrants, convertible or exchangeable securities and other corporate, individual or government securities or obligations, annuity, retirement or other insurance contracts, mutual funds or in units of any other common, collective or commingled trust fund.

(d) Notwithstanding anything to the contrary herein, the assets of the Account shall be held by the Trustees as title holders only. Persons holding custody or possession of assets titled to the Trust shall include the Employer, the Administrator, the investment manager, and any agents and subagents, but not the Trustees. The Trustees shall not be responsible or liable for any loss or expense which may arise from or result from compliance with any direction from the Employer, Administrator, the investment manager, or such agents to take title to any assets nor shall the Trustees be responsible or liable for any loss or expense which may result from the Trustees' refusal or failure to comply with any direction to hold title, except if

the same shall involve or result from the Trustees' negligence or intentional misconduct. The Trustees may refuse to comply with any direction from the Employer, the Administrator, the investment manager, or such agents in the event that the Trustees, in their sole and absolute discretion, deem such direction illegal.

(e) The Employer, to the extent permitted by the Tennessee Governmental Tort Liability Act, 29-20-201 *et seq.*, particularly, Section 29-20-310, or other applicable law hereby indemnifies and holds the Trustees harmless from any and all actions, claims, demands, liabilities, losses, damages or reasonable expenses of whatsoever kind and nature in connection with or arising out of (i) any action taken or omitted in good faith by the Trustees in accordance with the directions of the Employer or its agents and subagents hereunder; or (ii) any disbursements of any part of the Trust made by the Trustees in accordance with the directions of the Employer; or (iii) any action taken by or omitted in good faith by the Trustees with respect to an investment managed by an investment manager in accordance with any direction of the investment manager or any inaction with respect to any such investment in the absence of directions from the investment manager. Notwithstanding anything to the contrary herein, the Employer shall have no responsibility to the Trustees under the foregoing indemnification if the Trustees fail intentionally or recklessly to perform any of the duties undertaken by it under the provisions of this Trust.

(f) Notwithstanding anything to the contrary herein, the Employer or, if so designated by the Employer, the Administrator and the investment manager or another agent of the Employer or Trustees, will be responsible for valuing all assets so acquired for all purposes of the Trust and of holding, investing, trading and disposing of the same. The Employer will indemnify and hold the Trustees harmless, to the extent permitted by law, against any and all claims, actions, demands, liabilities, losses, damages, or expenses of whatsoever kind and nature, which arise from or are related to any use of such valuation by the Trustee or holding, trading, or disposition of such assets.

(g) The Trustees shall and hereby do indemnify and hold harmless the Employer from any and all actions, claims, demands, liabilities, losses, damages and reasonable expenses of whatsoever kind and nature in connection with or arising out of (a) the Trustees' failure to follow the directions of the Employer, the Administrator, the investment manager, or agents thereof, except as permitted by the last sentence of Section (4) above; (b) any disbursements made without the direction of the Employer, the Administrator, the investment manager, or agents thereof; and (c) the Trustees' willful misconduct, or recklessness with respect to the Trustee's duties under this Declaration.
(Ord. No. 12983, §§ 2, 3, 8-25-15)

Sec. 2-237. Contributions.

(a) *Employer Contributions.* The Employer shall contribute to the Trust such amounts as specified in a Plan or by resolution.

(b) *Participant Contributions.* If specified in a Plan, each Participant may make voluntary after-tax contributions. Under no circumstances shall Participant Contributions exceed an insubstantial amount. These contributions shall be collected by the Employer and remitted to the Trust for deposit at such time or times as required under the terms of the Plan.

(c) *Accrued Leave.* If the Employer's Plan includes contributions from accrued leave, the plan must contain a forfeiture provision that will prevent Participants from receiving the accrued leave in cash in lieu of a contribution to the Trust.

(d) *Accounts.* Employer contributions, and if provided under the terms of a Plan, Participant contributions and contributions of accrued leave, and all investment income and realized and unrealized gains and losses, and forfeitures allocable thereto will be deposited into one (1) or more Accounts in the

name of the Employer for the exclusive purpose of funding benefits on behalf of Participants, their Spouses, Dependents and Beneficiaries under a Plan. The assets in each Account may be invested in Investment Funds as directed by the Trustees from among the Investment Funds selected by the Trustees.

(e) *Receipt of Contributions.* The Employer or, if so designated by the Employer, the Administrator or investment manager or another agent of the Employer, shall receive all contributions paid or delivered to it hereunder and shall hold, invest, reinvest and administer such contributions pursuant to this Declaration, without distinction between principal and income. The Trustee shall not be responsible for the calculation or collection of any contribution under the Plan, but shall hold title to property received in respect of the Plan in the Trustee's name as directed by the Employer or its designee pursuant to this Declaration.

(f) *Spend Thrift Clause.* No amount in any Account or Participant Account maintained under this Trust shall be subject to transfer, assignment, or alienation, whether voluntary of involuntary, in favor of any creditor, transferee, or assignee of the Employer, the Trustees, any Participant, his Spouse, Dependent or Beneficiaries.
(Ord. No. 12983, §§ 2, 3, 8-25-15)

Sec. 2-238. Multiple plans.

If the Employer hereafter adopts one (1) or more other Plans and designate the Trust hereby created as part of such other Plan, the Employer or, if so designated by the Employer, the Trustees shall, subject to the terms of this Declaration, accept and hold hereunder contributions to such other Plans. In the event (a) the Employer or, if so designated by the Employer, the Administrator or the Trustees, may commingle for investment purposes the contributions received under such Plan or Plans with the contributions previously received by the Trust, but the books and records of the Employer or, if so designated by the Employer, the Administrator or Trustees or another agent of the Employer, shall at all times show the portion of the Trust Fund allocable to each Plan; (b) the term "Plan" as used herein shall be deemed to refer separately to each other Plan; and (c) the term "Employer" as used herein shall be deemed to refer to the person or group of persons which have been designated by the terms of such other Plans as having the authority to control and manage the operation and administration of such other Plan.
(Ord. No. 12983, §§ 2, 3, 8-25-15)

Sec. 2-239. Disbursements and expenses.

(a) The Employer or its designee shall make such payments from the Trust at such time to such persons and in such amounts as shall be authorized by the provisions of a Plan provided, however, that no payment shall be made, either during the existence of or upon the discontinuance of the Plan, which would cause any part of the Trust to be used for or diverted to purposes other than the exclusive purpose of funding post-employment welfare benefits for Employees, their Spouses, Dependents and Beneficiaries pursuant to the provisions of a Plan. Provided, however, the investment and administrative expenses of the Trust can be funded from the assets of the Trust.

(b) All payments of benefits under the Plan shall be made exclusively from the assets of the Accounts or Participant Accounts of Participants to whom or to whose Spouse, Dependents or Beneficiaries such payments are to be made, and no person shall be entitled to look at any other source for such payments.

(c) The Employer, Trustee and Administrator may be reimbursed for expenses reasonably incurred by them in the administration of the Trust. All such expenses, including, without limitation, reasonable fees of accountants, investment managers, and legal counsel to the extent not otherwise reimbursed, shall constitute a charge against and shall be paid from the Trust upon the direction of the Employer.
(Ord. No. 12983, §§ 2, 3, 8-25-15)

Sec. 2-240. Accounting.

(a) All accounts, books, and records relating thereto shall be maintained by the Employer or its designee.

(b) As promptly as possible following the close of each year, the Trustees shall file with the Employer a written account setting forth assets titled to the Trust as reported to the Trustees by the Employer or its designee.
(Ord. No. 12983, §§ 2, 3, 8-25-15)

Sec. 2-241. Miscellaneous provisions.

(a) The Trustees shall not be required to give any bond or to qualify before, be appointed by, or account to any court of law in the exercise of its powers hereunder.

(b) No person transferring title or receiving a transfer of title from the Trustees shall be obligated to look to the propriety of the acts of the Trustees in connection therewith.

(c) The Employer may engage the Trustees as their agent in the performance of any duties required of the Employer under a Plan, but such agency shall not be deemed to increase the responsibility or liability of the Trustees under this Declaration.

(d) The Employer shall have the right at all reasonable times during the term of this Declaration and for three (3) years after the termination of this Declaration to examine, audit, inspect, review, extract information from, and copy all books, records, accounts, and other documents of the Trustees relating to this Declaration and the Trustees' performance hereunder.

(e) The Trust shall be subject to audit by the State Comptroller.
(Ord. No. 12983, §§ 2, 3, 8-25-15)

Sec. 2-242. Amendment and termination.

(a) *Plan Alteration, Amendment or Termination.* The Employer reserves the right to alter, amend, or (subject to Section 9.1) terminate this Declaration at any time for any reason without the consent of the Trustees or any other person, provided that no amendment affecting the rights, duties, or responsibilities of the Trustees shall be adopted without the execution of the Trustee to the amendment. Any such amendment shall become effective as of the date provided in the amendment, if requiring the Trustees' execution, or on delivery of the amendment to the Trustees, if the Trustees' executive is not required.

(b) *Rights Upon Plan Termination or Substantial Modification.* In the event the other post-employment benefits plan is terminated or substantially modified rendering the assets of the trust to be unnecessary to fund the plan, the assets will be distributed pursuant to section 2-241(3).

(c) *Employee and Beneficiary Vested Rights.* (a) If the plan is terminated the employees and former employees who have met all the conditions for other post-employment benefits as set out in the plan document in existence immediately preceding plan termination, to include retirees or their surviving beneficiaries shall be vested in a proportionate share of the accumulated assets based on the present value of the previous plan benefit as determined by an independent consulting actuary; (b) If substantial plan modification is adopted that because a reduction of benefits or eligibility results in the plan moving from a funded status of less than seventy-five percent (75%) to an over-funded status of at least one hundred fifty percent (150%) and continues in such over-funded level for two (2) consecutive actuarial valuations, then such action shall be considered a plan termination and the excess assets shall be distributed in the same manner as in subsection (a) above.

(d) *Actuarial Valuations.* Actuarial valuations contemplated by this section shall be performed by the plan's independent consulting actuary in accordance with actuarial methods recognized by the Governmental Accounting Standards Board for other post- employment benefits.
(Ord. No. 12983, §§ 2, 3, 8-25-15)

Sec. 2-243. Trustees and successor trustees.

(a) The Trustees of the General Pension Plan of the City of Chattanooga are designated as Trustees of the City of Chattanooga Post-Employment Benefits Other than Pension Trust. The General Pension Plan trustees shall not commingle the assets of the OPEB Trust Plan(s) and shall maintain separate and apart OPEB assets and liabilities from the assets and liabilities of the General Pension Plan, provided that this shall not preclude the use of the same investments providing that the books and records for such investments shall separately account for the OPEB investment. The Trustees may elect but are not required to utilize the same attorneys, actuaries, investment managers, custodians, and other supporting services as used by the General Pension Plan.

(b) The Employer reserves the right to change Trustees for any or no reason, at any time by giving ninety (90) days' advance written notice.

(c) The Employer reserves the right to change Trustees for cause by giving thirty (30) days advance written notice.

(d) The Trustees reserve the right to resign at any time by giving ninety (90) days' advance written notice to the Employer; provided that individual General Pension Plan Trustees may resign from time to time in their discretion.

(e) In the event of a change or resignation of a Trustee, the Employer may appoint a successor Trustee who shall succeed to all rights, duties, and responsibilities of the former Trustee under this Declaration and the terminated Trustee shall be deemed discharged of all duties under this Declaration and responsibilities for the Trust.
(Ord. No. 12983, §§ 2, 3, 8-25-15)

Sec. 2-244. Limited effect of trust.

(a) Neither the establishment of the Trust or any modification thereof, the creation of any fund or account, nor the payment of any benefits, shall be construed as giving to any person any legal or equitable right against the Trustees, the Administrator, the Employer or any officer or employee thereof, except as may otherwise be expressly provided in a Plan or in this Declaration.

(b) The creation of this trust shall not be deemed to create rights beyond the assets of the trust. Any non-forfeitable rights beyond this trust must be bestowed in the employment contract, plan document, ordinance, resolution, or statute.
(Ord. No. 12983, §§ 2, 3, 8-25-15)

Sec. 2-245. Protective clause.

Neither the Administrator, the Employer, nor the Trustees shall be responsible for the validity of any contract of insurance or other arrangement maintained in connection with a Plan, or for the failure on the part of the insurer or provider to make payments provided by such contract, or for the action of any person which may delay payment or render a contract void or unenforceable in whole or in part.
(Ord. No. 12983, §§ 2, 3, 8-25-15)

Secs. 2-246—2-250. Reserved.

DIVISION 2. SOCIAL SECURITY GENERALLY*

Sec. 2-251. Policy and purpose.

It is hereby declared to be the policy and purpose of the city to extend, at the earliest date, to the employees and officials thereof, not excluded by law or this division, and whether employed in connection with a governmental or proprietary function, the benefits of the system of Federal Old Age and Survivors Insurance as authorized by the Federal Social Security Act and amendments thereto, including Public Law 734—81st Congress, and Public Law 761—83rd Congress. In pursuance of such policy, and for that purpose, the city shall take such action as may be required by applicable state or federal laws or regulations.
(Ord. No. 12983, §§ 2, 3, 8-25-15)

Sec. 2-252. Agreements authorized.

The mayor of the city is hereby authorized and directed to execute all necessary agreements and amendments thereto with the state executive director of Old Age and Survivors Insurance, as agent or agency, to secure coverage of employees and officials as provided in this division.
(Ord. No. 12983, §§ 2, 3, 8-25-15)

Sec. 2-253. Withholdings.

Withholdings from salaries or wages of employees and officials for the purpose provided in Section 2-251 are hereby authorized to be made in the amounts and at such times as may be required by applicable state or federal laws or regulations and shall be paid over to the state or federal agency designated by such laws or regulations.
(Ord. No. 12983, §§ 2, 3, 8-25-15)

Sec. 2-254. Appropriations.

There shall be appropriated from available funds such amounts at such times as may be required by applicable state or federal laws or regulations for employer's contributions, which shall be paid over to the state or federal agency designated by such laws or regulations.
(Ord. No. 12983, §§ 2, 3, 8-25-15)

Sec. 2-255. Records, reports.

The city shall keep such records and make such reports as may be required by applicable state and federal laws or regulations.
(Ord. No. 12983, §§ 2, 3, 8-25-15)

Sec. 2-256. Employees excluded.

There is hereby excluded from this division any authority to make any agreement with respect to position or any employee or official now covered or authorized to be covered by any retirement system for any employee or official of the city, other than any position, employee or official covered by the general

---

employees retirement system who have heretofore, by a majority vote in a referendum, duly held as provided by Public Law 761—83rd Congress, voted in favor of accepting the benefits offered by the Federal Social Security Act.
(Ord. No. 12983, §§ 2, 3, 8-25-15)

Secs. 2-257—2-260. Reserved.

DIVISION 3. SOCIAL SECURITY FOR EDUCATIONAL PERSONNEL*

Sec. 2-261. Policy and purpose.

It is hereby declared to be the policy and purpose of the city to extend, at the earliest date, to the employees and officials of the department of education who are employed in positions covered by such department's insurance and pension fund, not excluded by law or this division, and whether employed in connection with a governmental or proprietary function, the benefits of the system of Federal Old Age and Survivors Insurance as authorized by the Federal Social Security Act and all amendments thereto. In pursuance of such policy, and for that purpose, the city shall take such action as may be required by applicable state or federal laws or regulations.
(Ord. No. 12983, §§ 2, 3, 8-25-15)

Sec. 2-262. Agreements authorized.

The mayor of the city is hereby authorized and directed to execute all necessary agreements and amendments thereto with the state executive director of Old Age and Survivors Insurance, as agent or agency, to secure coverage of employees and officials as provided in section 2-261 of this division.
(Ord. No. 12983, §§ 2, 3, 8-25-15)

Sec. 2-263. Reserved.

Sec. 2-264. Appropriations.

There shall be appropriated from available funds such amounts at such times as may be required by applicable state or federal laws or regulations for employer's contributions, which shall be paid over to the state or federal agency designated by such laws or regulations.
(Ord. No. 12983, §§ 2, 3, 8-25-15)

Sec. 2-265. Records, reports.

The city shall keep such records and make such reports as may be required by applicable state and federal laws or regulations.
(Ord. No. 12983, §§ 2, 3, 8-25-15)

***Cross references—**City authorized to contribute to pension funds created and operated by labor organizations, § 2-7; social security for city employees generally, § 2-251 et seq.; minimum pension for teachers with twenty-five (25) years' service, § 30-1; pension for personnel for whom city receives reimbursement, § 30-2.

Sec. 2-266. Employees excluded.

There is hereby excluded from this division any authority to make any agreement with respect to any position or any employee or official now covered or authorized to be covered by any retirement system for any such employee or official of the city, other than any position, employee or official covered by the insurance and pension fund of the department of education of the city.
(Ord. No. 12983, §§ 2, 3, 8-25-15)

Sec. 2-267. Paid leave for active-duty training.

Employees shall be granted twenty (20) scheduled work days of paid leave each calendar year for active-duty service, inactive duty service, and required annual training. After the twenty (20) days of military pay has been exhausted, the employee activated for military service may elect to use accrued PTO balance (all or in part) or immediately commence leave without pay. Every employee returning from military leave shall submit to his/her Department Head proof of the number of days spent on duty.
(Ord. No. 13710, § 15, 9-28-21; Ord. No. 13840, § 15, 6-14-22)

Secs. 2-268—2-300. Reserved.

DIVISION 4. GENERAL PENSION PLAN

Sec. 2-301. General Pension Plan.

The General Pension Plan as established by the Private Acts of 1965, Chapter 254, as amended by private acts and Home Rule referenda, shall be transferred from the Charter compilation to the City Code compilation, but the vested rights of any participant or beneficiary shall not thereby be affected. No current provision of the General Pension Plan may be amended hereafter except pursuant to the provisions of section 2-318.
(Priv. Acts 1965, Ch. 254; Priv. Acts 1967, Ch. 169; Priv. Acts 1968, Ch. 430; Priv. Acts 1971, Ch. 137; Priv. Acts 1972, Ch. 402; Ord. No. 7408, 8-22-78; Ord. No. 8688, 8-19-86; Ord. No. 9766, 8-11-92; Ord. No. 10084, 8-16-94; Ord. No. 10463, 8-20-96; Ord. No. 10739, 8-18-98; Ord. No. 11011, 5-9-00; Ord. No. 11272, 4-30-02; Ord. No. 12677, 12-18-12)

Editor's note—The General Pension System initially created by the Priv. Acts 1965, Ch. 254 moved from Charter to City Code pursuant to Ordinance No. 12677, § 3, 12-18-12. The City Attorney has been authorized pursuant to § 33 of Ordinance No. 12677 to rearrange, regroup, and renumber titles, chapters, and parts thereof to change reference numbers to correlate with any renumbered chapter or heading. Such changes are necessary to assimilate the General Pension System into the City Code and such changes will be referenced in Editor's notes. The notes will reflect the previous references to the Priv. Acts and to the Charter.

Sec. 2-302. Contents of Plan.

The City Council of the City of Chattanooga, in its discretion, may upon recommendation of the Board of Trustees of the General Pension Plan, upon advice by the Mayor, and upon receipt of an actuarial report as to the costs and actuarial soundness of such changes, may amend by ordinance passed upon two (2) separate meetings the provisions of the General Pension Plan providing such amendments are consistent with sound actuarial principles, methods and assumptions and further provided that such amendments shall not decrease any vested financial benefits accrued by any participant or beneficiary.
(Ord. No. 12983, §§ 2, 3, 8-25-15), 5-9-00; Ord. No. 12677, 12-18-12)

Cross reference—Identical provision codified at Chattanooga City Charter, Sec. 3.52.

Sec. 2-303. Definitions.

As used herein the following words and phrases shall have the meaning indicated, unless otherwise defined or required by the context:

(1) Plan shall mean the "General Pension Plan" as contained herein.

(2) Former plan shall mean any other pension plan created for the benefit of employees of the City of Chattanooga now in existence, whether open or closed to current or further participation, including but not limited to the Employees' Insurance and Pension Fund created by Chapter 678 of the Private Acts of 1937; the Department of Education Insurance and Pension Fund created by Chapter 221 of

the 1937 Private Acts; Salaried Employees' Insurance and Pension Fund created by Chapter 298 of the 1961 Private Acts; Officials Pension System created by Chapter 300 of the 1961 Private Acts; and all Acts amendatory of any of said Acts.

(3) Board of trustees or board or trustees shall mean the board of trustees appointed in accordance with Section 2-311, charged with the administration of the Plan as provided in Sections 2-311 and 2-313 hereof.

Editor's note—Section 2-311 was formerly numbered 3.44 in the City's Charter and Article 8 in the Priv. Acts 1965. Section 2-313 was formerly numbered 3.46 in the City's Charter and Article 10 in Priv. Act. 1965, references to Art. 8 and 10 of Priv. Acts 1965 changed for codification.

(4) City council shall mean the governing body of the City of Chattanooga.

(5) City shall mean the City of Chattanooga, Tennessee, a Municipal Corporation chartered under the laws of the State of Tennessee.

(6) Employee shall mean any person regularly employed by the City and paid on an hourly basis or on a weekly, semimonthly or monthly salary (but not including temporary or seasonal employees or persons rendering a service under a contract) whether employed on a full-time or a part-time basis. However, the term "employee" shall not include (i) any person employed by the City in the Department of Fire or Police who is eligible for or is participating in the [Firemen's and Policemen's Insurance and Pension Fund, created by Chapter 165 of the 1949 Private Acts], as amended in § 2-400, *et seq.* hereof, (ii) any person who is eligible for or who is participating in the Tennessee Teachers Retirement System, as contained in Section 49-1501, *et seq.* [repealed], of Tennessee Code Annotated, or (iii) any Active Retired Participant as herein defined in subsection (24). In all cases of doubt, the Board of Trustees shall determine whether or not a person is an employee as herein defined.

Editor's note—In the opinion of the City Attorney, § 3 (1.06) of the Priv. Acts. 1965, Ch. 254, § 3 (1.06) has been effectively repealed by the assimilation of the former Tennessee Teachers Retirement System into the Tennessee Consolidated Retirement System. T.C.A. § 8-34-101, *et seq.* The Firemen's and Policemen's Insurance and Pension Fund is now named the Fire and Police Pension Fund codified at sections 2-400 *et seq.* of this City Code.

(7) Participant shall mean any employee or any of the 2013 Active Retirees as defined in subsections (6) and (23) of this Section 2-303 or a former employee who completed five (5) years of credited service and thereby has a vested interest in the general pension plan.

Editor's note—Prior reference to Charter Section 3.38 changed to § 2-303 for codification.

(8) Participant in a former plan shall mean any employee who, on the day prior to the effective date, was covered under a former plan or then had a right to receive a benefit from a former plan.

(9) Retired participant shall mean any participant who is retired from the city and is entitled to receive retirement benefits provided by the plan.

(10) Credited service shall mean the length of time a person participated in this plan or any former plan prior to the date as of which credited service is being determined. Credited service shall be expressed in years and a decimal fraction of a year based on completed calendar months. Credited service shall include that period of time that such person was an employee, whether continuous or not, while a former plan(s) was in force and he was not a participant in such former plan(s); but it shall not include any time a person is on leave of absence without pay or for any time for which a refund was paid in accordance with Section 2-312. Prior reference to Priv. Acts 1965 Section 4.98 and prior reference to 3.45(3) of the Charter changed to § 2-312 for codification.

Editor's note—The following sentence which was the last sentence in this subsection has in the opinion of the editors been removed from this compilation as having been repealed by Ord. No. 8688. [Such

credited service for any period of time that he was not a participant will be granted only if and on the condition that the employee pay to the city an amount as determined in accordance with the provisions for reinstatement of prior service (Section 4.09) [Section 3.45.1 hereof], the social security law.]

(11) Earnings shall mean the total compensation paid by the city to an employee by a weekly, semimonthly or monthly salary for his personal services that are subject to federal income tax but excluding any payment for personal services made by virtue of any contract.

A. Notwithstanding any other provision of law, the amount of Earnings used to determine the benefits payable under the Plan must not exceed the amount of compensation permitted to be taken into account under Code Section 401(a)(17) as such existed on January 1, 1986.

B. Earnings, for purposes of the limitations under Code Sections 415 and 401(a)(17), the computation of benefits payable from the Plan and contrihutions, shall include any elective deferral, as defined under Code Section 402(g)(3), and any amount that is contributed or deferred by the City of Chattanooga at the election of a member and which, by reason of sections 125 and 457 of the Code, is not includible in his gross income.

The Earnings described in Subsection B. above, taken into account in determining benefit accruals in any year beginning after December 31, 2001 shall not exceed the limit set out in Code Section 401(a)(17). For this purpose, annual compensation means compensation during the calendar year or such other consecutive twelve (12) month period over which compensation is determined under the plan (the "determination period"). The limit on annual compensation shall be adjusted for cost-of-living increases in accordance with Code Section 401(a)(17)(B). The cost-of-living adjustment in effect for a calendar year applies to annual compensation for the determination period that begins with or within such calendar year.

(12) Average shall mean an arithmetic average determined for the highest paid three (3) full calendar years of a participant preceding the date as of which such average is being determined, or based on such lesser number of full calendar years of credited service actually completed by the participant.

(13) Effective date shall mean the effective date of the plan which shall be January 1, 1965.

(14) Normal retirement date shall mean the first day of the month next following the sixty-second (62nd) birthday of a participant.

(15) Beneficiary shall mean the recipient or recipients, last designated by the participant in writing on form acceptable to the board who shall receive any death benefits payable under the plan.

(16) Plan year shall mean the fiscal year adopted from time to time by the city; but the first plan year shall mean the eighteen (18) month period ending June 30, 1966.

(17) Fund shall mean the cash or other property held and maintained in trust in accordance with Section 2-313 hereunder and Sections 2-302 to 2-314.

Editor's note—Prior references to Article 10 and Section 3 of Priv. Acts 1965 and to former Charter provisions 3.46 and 3.36 through 3.47 have been changed to Section 2-313 hereof and 2-302 to 2-314 respectively for codification.

(18) Early retirement date shall mean the first day of the month next following the fifty-fifth (55th) birthday of a participant; provided that if the sum of a participant's age and years of credited service is at least eighty (80), the early retirement date shall be the first day of the month after the participant attains said eighty (80) years of age and credited service.

(19) Primary insurance amount shall mean the amount payable to a person at sixty-two (62) under the social security law.

Editor's note—This definition is utilized in calculations for social security offset in Section 2-308 hereof for employees hired or vested prior to 8-19-86 pursuant to Ord. No. 8688.

(20) Refund shall mean a refund of a participant's contributions in lieu of all other benefits to which he may be entitled, payable one (1) year after a participant's termination of employment as an employee or at such earlier date approved by the board of trustees, together with interest at the refund interest rate from the date of termination to the date the refund is to be made.

(21) Refund interest rate shall mean the rate of six percent (6%) per annum.

(22) Part-time Employee shall mean an employee whose job description provides for one thousand five hundred (1,500) hours per year or more is eligible to be a participant, but this term shall not apply to an official of the city elected by popular vote who is also eligible to be a participant.

(23) 2013 Active Retirees shall mean those retired participants who (i) have terminated their employment with the City, (ii) are receiving retirement benefits provided by the plan, and (iii) were re-employed by the City between April 15, 2013 and April 1, 2014; and (iv) are paid on an hourly basis or on a weekly, semimonthly or monthly salary (but not including temporary or seasonal employees or persons rendering a service under a contract) whether employed on a full-time or a part-time basis. However, the term "2013 Active Retirees" shall not include (i) any person employed by the City in the Department of Fire or Police who is eligible for or is participating in the [Firemen's and Policemen's Insurance and Pension Fund, created by Chapter 165 of the 1949 Private Acts], as amended in § 2-400, *et seq.* hereof, or (ii) any person who is eligible for or who is participating in the Tennessee Teachers Retirement System, as contained in Section 49-1501, *et seq.* [repealed], of Tennessee Code Annotated.

(24) Active Retired Participant shall mean any retired participant who (i) has terminated his/her employment with the City, (ii) is receiving retirement benefits provided by the plan, (iii) is re-employed by the City on or after April 1, 2014, and (iv) is paid on an hourly basis or on a weekly, semimonthly or monthly salary (but not including temporary or seasonal employees or persons rendering a service under a contract) whether employed on a full-time or a part-time basis. However, the term "Active Retired Participant" shall not include (i) any person employed by the City in the Department of Fire or Police who is eligible for or is participating in the [Firemen's and Policemen's Insurance and Pension Fund, created by Chapter 165 of the 1949 Private Acts], as amended in § 2-400, *et seq.* hereof, or (ii) any person who is eligible for or who is participating in the Tennessee Teachers Retirement System, as contained in Section 49-1501, *et seq.* [repealed], of Tennessee Code Annotated. In all cases of doubt, the trustees shall determine whether or not a person is an Active Retired Participant as herein defined.

(25) The term Code means the Internal Revenue Code of 1986, as amended.

(Ord. No. 12983, §§ 2, 3, 8-25-15)—(1.12), (1.17)—(1.22); Priv. Acts 1967, Ch. 169, §§ 2—5; Priv. Acts 1968, Ch. 430, § 1; Priv. Acts 1971, Ch. 137, § 5; Priv. Acts 1972, Ch. 402, § 1; Ord. No. 7408, §§ 1(2)—(4), 8-22-78; Ord. No. 9766, §§ 1(3), (7), 8-11-92; Ord. No. 8688, §§ 1(3), (23), 8-19-86; Ord. No. 10739, § 1(1), 8-18-98; Ord. No. 11011, §§ 1(1), (4), 5-9-00; Ord. No. 11272, § 1, 5-2-02; Ord. No. 12852, §§ 1, 2, 8-26-14; Ord. No. 13023, §§ 1, 2, 1-26-16; Ord. No. 14017, § 1, 8-15-23)

Sec. 2-304. Conditions of eligibility; non-eligibility.

(a) Except for an Active Retired Participant as that term is defined in Section 2-303(24), each employee hired after February 1, 1979, and each of the 2013 Active Retirees shall be a participant of this plan as a condition of employment. Participation in the plan shall commence with the first payroll period.

(b)* Each of the 2013 Active Retirees as that term is defined in Section 2-303(23) shall be allowed to either (i) opt out of participation in the plan for their current re-employment, receive a refund of all contributions made for their current re-employment and be eligible to participate in the deferred compensation program offered by the City or (ii) make the mandatory employee contributions at the plan's stated percentage rate and be entitled to accrue credited service for the period of-re-employment in the same manner and subject to the same vesting rules applicable to newly hired employees with any benefit earned being treated as a new and independent retirement benefit.

(c) Except for an Active Retired Participant as that term is defined in Section 2-303(24), each employee or 2013 Active Retiree shall continue to be a participant as long as he/she continues employment with the City.

(d) Beginning April 1, 2014, and continuing thereafter, any Active Retired Participant who has terminated his/her employment with the City and who is receiving pension benefit payments during his/her re-employment period with the City (which represents benefits accrued for periods of employment before his/her re-employment) shall continue to receive his/her pension benefit payments but shall not be entitled to participate in the plan during the period of re-employment with the City. However, during the period of re-employment, an Active Retired Participant may participate in the deferred compensation program offered by the City.
(Ord. No. 12983, §§ 2, 3, 8-25-15); Ord. No. 7408, §§ 1(6), (16), 8-22-78; Ord. No. 8688, § 1(5), 8-19-86; Ord. No. 10084, § 1(6), 8-16-94; Ord. No. 12852, § 3, 8-26-14)

Sec. 2-305. Financing of plan.

(1) Employee contributions. Each participant shall pay to the city by payroll deduction an amount which shall be two percent (2%) of their earnings. Employee contributions shall be payable by a participant each payroll period during which he or she is a participant. The City Council, in its discretion, after, and only after, a recommendation has been received from the board of trustees, may by ordinance passed on three (3) separate readings, increase or decrease such employee contributions on or after July 1, 1969, and annually thereafter; provided, however, that such increase or decrease specified in said ordinance is the same as recommended by the board of trustees and is not inconsistent with any recommendation or report rendered by a qualified and accredited actuary as required by subsection (2) below.

Editor's note—Former reference to § 3.02 of Priv. Acts 1965 and to Charter § 3.39(2) changed to subsection (2) below for codification.

(2) City contributions. The city shall contribute monthly to the fund for the first plan year an initial amount equal to nine percent (9%) of the annual payroll of participants, such percentage being known as the "city contribution rate." The city must also contribute, commencing with the fiscal year of 1966-67, an amount that will amortize the past service liabilities over a period not in excess of thirty (30) years from December 31, 1978. Thereafter the city contribution rate applicable for any plan year shall be determined actuarially on the basis of an annual actuarial valuation of the plan made as of December 31 in the preceding plan year. The city contribution rate, and the past service liability, shall be determined by a qualified or accredited actuary, selected by the board of trustees, according to accepted and sound actuarial principles, methods and actuarial assumptions. Such city contributions, as are so determined by said actuary and when approved by the board of trustees and certified to the Human Resources Director on or before June 1, must be appropriated by the city in the annual budget ordinance for the immediately following fiscal year.

***Note—**It is the opinion of the City Attorney that this provision is not inconsistent with Chattanooga City Charter, Appendix 1, ¶ 35.

(3) City to levy tax. The city is hereby empowered, authorized, and required to levy a sufficient annual tax upon all taxable property and taxable privileges within the City of Chattanooga for the purpose of raising revenue in order to make its contributions to the plan and for the payment of pensions to participants in the plan, and it shall appropriate same for such purposes.

(4) Picking up of contributions. Notwithstanding the provisions hereof employee contributions may be "picked up" by the city pursuant to Section 414(h) of the Internal Revenue Code.
(Ord. No. 12983, §§ 2, 3, 8-25-15)—(3.03); Priv. Acts 1967, Ch. 169, §§ 8—10; Priv. Acts 1972, Ch. 402, § 2; Ord. No. 7408, §§ 1, 1(7), 8-22-78; Ord. No. 9766, §§ 1(5), (7), 8-11-92; Ord. No. 10084, § 1(2), 8-16-94)

Sec. 2-306. Benefits; conditions.

(1) Application forms. Payment of all benefits under the plan shall be subject to written application by the participant or beneficiary, as the case may be, submitted in such form as the board may direct from time to time.

(2) Normal retirement-conditions. Each participant in the employment of the city on his normal retirement date shall be eligible to retire on that date and to receive a benefit as provided in Section 2-307 hereof.

Editor's note—Former reference to Section 5.01 of the Priv. Acts 1965 and to § 3.41 of the Charter has been changed to Section 2-307 for codification.

(3) Early retirement, vesting-conditions. A participant who has at least five (5) years of credited service as provided in this plan and whose employment is terminated for whatever reason, including resignation or for cause, may elect not to receive a refund and thereby be eligible for any of the benefits provided under this plan.

(4) Death before retirement benefits are payable. If a participant dies before he has completed five (5) years of credited service and before he has attained age sixty-two (62), his beneficiary shall receive a refund of all the deceased participant's contributions to the plan, without interest, payable within fifteen (15) days after date of death. If a participant dies after he has completed five (5) years of credited service or after he has attained age sixty-two (62), any option he may have elected, in lieu of his otherwise retirement benefit, shall be payable as though he had been entitled to have such optional benefit commence on his date of death; and in the event such a participant has not elected any option prior to his death, a benefit shall be payable to the deceased participant's surviving spouse, if any, as though he had elected Option A. However, a beneficiary entitled to receive any optional benefit in accordance with this subsection shall be eligible to elect to receive a full refund, without interest, of the deceased participant's contributions to this plan in lieu of all other benefits payable in accordance with this subsection, or may elect to receive a monthly benefit payable for life to commence at or after age sixty-two (62) which has an actuarial value equal to and in lieu of the amount of optional benefit to which she is otherwise entitled.

Editor's note—Change in original text from reference of "section" to "subsection" made for accuracy.

(5) Death after retirement benefits are payable. No death benefit shall be payable to a participant's beneficiary under the plan other than a refund of the amount by which the deceased participant's contributions exceed benefits that have been paid to him or his beneficiary in the case of a participant who dies after retirement benefits are payable, unless an optional form of retirement benefit has been elected which specifically provides for another method of payment.

(6) Disability pensions.

(a) The board of trustees shall establish a disability pension plan for persons who become disabled in the line of duty or not in the line of duty. The trustees may fulfill this obligation by purchasing a commercial disability insurance policy, by establishing a self-funded disability plan administered

by an insurance company or other qualified administrator, or by any combination thereof. This disability program may provide for partial disability payments for employees who recover sufficiently to become gainfully employed, but who are not recovered sufficiently to return to their normal employment or occupation.

(b) For the purposes hereof, the phrase "disabled in the line of duty" shall generally relate to those disabilities proximately caused by acts or incidences occurring as a result of employment with the city; however, the trustees may purchase insurance policies with different definitions. The trustees are also authorized to adopt a more specific definition of disability with respect to a self-funded program.

(c) For the purposes hereof, the phrase "disabled not in the line of duty" shall refer to those disabilities that do not qualify as "disabled in the line of duty." The trustees may purchase insurance policies with different definitions of "disabled not in the line of duty" or may establish a more specific definition with respect to a self-funded program.

(d) For the purposes hereof, the words "disabled" or "disability," shall refer to a medically determinable bodily injury, disease, or condition or mental disorder so that during the continuation thereof the person is unable to perform the duties of his occupation or employment. The trustees may purchase insurance policies with different definitions, including definitions of "partial disability," or adopt more specific definitions in a self funded disability program.

(e) For the purposes hereof, the phrases "partial disability" or "partially disabled" shall refer to those medically determinable bodily injury, disease, or condition or mental disorder which prevents a person from following his normal employment or occupation, but which does not disable the employee from other employment or occupations for which he or she is qualified by reasons of education, training, or experience or for which he or she can be reasonably trained. The trustees may purchase insurance policies with different definitions or adopt a more specific definition in a self funded disability program.

(f) Employees who become totally disabled as a result of an injury in the line of duty continue to accrue credited service for those periods of time in which they are totally disabled. The accrual of such credited service shall end at the normal retirement date of the employee.

(g) Except to the extent otherwise provided by any policy or self-funded program, no employee shall be entitled to disability benefits under the section if the disability may be corrected by competent medical treatment, and said employee fails or refuses to be so treated. Employees may be required to undergo medical examinations by physicians selected by the insurance carrier or Trustee to establish eligibility for a disability pension. If a disability pension is approved, employees shall thereafter be subject to periodic medical examinations by physicians selected by the Trustees or the insurance carrier to maintain their eligibility for disability pension payments.

(h) Except as hereinafter provided, no employee shall be entitled to disability benefits under this section as a result of injury or disease sustained by the participant while serving in the Armed Forces or as a result of warfare. Notwithstanding the foregoing, in the case of a death or disability occurring on or after January 1, 2007, if a member dies while performing qualified military service (as defined in section 414(u) of the Internal Revenue Code of 1986), as amended, the survivors of the participant are entitled to any additional benefits (other than benefit accruals relating to the period of qualified military service) provided under the plan as if the participant had resumed and then terminated employment on account of death.

(7) Physical examination. The trustees or insurance carrier, before granting any disability pension, may require the applicant to submit to a physical examination by one (1) or more physicians designated by said trustees or insurance carrier. Each person drawing any disability pension shall be subject to periodic examination by a physician selected by the trustees or insurance carrier at the expense of the fund or carrier.

(8) Other termination of employment. If the employment of a participant is terminated for any reason, and he or his beneficiary is not eligible to receive a benefit under subsections (2) through (6) above, he shall receive a refund without interest of his contributions to this plan, and any former plan, without interest, payable ninety (90) days thereafter, if he so requests.

(Ord. No. 12983, §§ 2, 3, 8-25-15)—(4.05), (4.08); Priv. Acts 1967, Ch. 169, §§ 11—13; Priv. Acts 1972, Ch. 402, § 4; Ord. No. 7408, §§ 1, 1(8), 8-22-78; Ord. No. 9766, § 1(2), 8-11-92; Ord. No. 10739, § 1(1), 8-18-98; Ord. No. 11011, § 1(9), 5-9-00; Ord. No. 13023, § 4, 1-26-16)

Editor's note—Former reference to Sections 4.02, 4.03, 4.04, 4.05 or 4.06 of Priv. Acts 1965 changed to "subsection (2) through (6) above" for codification.

Sec. 2-307. Benefits; methods of calculation.

(1) Normal retirement benefit. Any participant may upon retirement at his or her normal retirement date or early retirement date receive as an annual pension, payable in monthly installments beginning upon the last day of the first month following retirement and on the last day of each month thereafter during his lifetime, the sum of two percent (2%) of average earnings multiplied by years of credited service up to twenty (20) years plus one percent (1%) of average earnings multiplied by years of credited service in excess of twenty (20) years. Provided that any employee who shall be vested as of the effective date of this amendment may have his or her normal retirement benefit calculated pursuant to the provisions of 2-308, but the remaining applicable provisions of this 2-307 shall apply.

Editor's note—Ord. No. 11011 changed the method of calculating benefits to eliminate the "social security offset" except for employees who were vested. The "social security offset" calculation was retained as an optional method of calculation of benefits for those vested as provided in Section 2-307. Former reference to Sections 5.01 and 5.01.1 of Priv. Acts 1965 were changed to Sections 2-307 and 2-308 respectively for codification.

(2) Early retirement benefit. A participant upon retirement on their early retirement date, shall as they may elect, receive either (a), (b), or (c) as follows:

(a) A monthly deferred early retirement benefit, which shall be payable on his normal retirement date, provided he is then living and on the first day of each month thereafter during his lifetime, computed in the manner set forth in 2-307(1) hereof, except that such computation shall be made as of his early retirement date.

Editor's note—Former reference to 5.01 of Priv. Acts 1965 and 3.41(1) of the Charter changed to 2-307(1) for codification.

(b) An immediate early retirement benefit shall be payable on the last day of the month after retirement and monthly thereafter during their lifetime, the amount of which shall be the amount of the benefit provided in subparagraph (a) above reduced by two and one-half (2½) divided by twelve (12) of one percent (1%) thereof for each full month in the period of time between their early retirement date and their normal retirement date. However, if the sum of the participant's age and years of credited service is at least eighty (80) at the time of retirement, there shall be no reduction in the immediate early retirement benefit.

(c) Provided that any participant who shall be vested upon the effective date hereof, may have his or her early retirement benefits calculated pursuant to Section 2-308(2). The remaining applicable provisions of this 2-307 shall apply to employees selecting the calculation of benefits pursuant to 2-308(2).

Editor's note—Former reference to Section 5.01, 5.02.1 of Priv. Acts 1965 and 3.41.1(2) of Charter changed to 2-307, 2-308(2), and 2-308(2) respectively for codification.

(3) Reduction of benefits. Notwithstanding any provision in this plan to the contrary, any benefit payable to the participant determined in accordance with this section on account of service as an employee of the city shall be reduced actuarially to reflect any pension benefit or other benefit attributed to the same service and payable from any other pension plan (other than Social Security), including but not limited to labor union pension plan(s), to which the city has contributed and under which an employee has a right to receive a benefit. The actuarial method to be used to effect the actuarial reduction shall be to determine the benefit which has the same single sum value as the single sum value of pension benefits otherwise payable under this plan less the single sum value of the pensions received from said other pension plan.

(4) Cost-of-living adjustments to pension benefits. Effective January 1, 2000, any benefit payable under this plan to or on account of a retired participant shall be increased by a three percent (3%) cost-of-living adjustment and such benefits shall be increased each subsequent year on January 1 by three percent (3%); provided that the City Council may by ordinance upon recommendation from the Board of Trustees of the General Pension, and upon receipt of a report of the actuarial consequences of a change either increase or decrease future cost of living increases for any subsequent year. Once a cost-of-living benefit has been added to a benefit, it shall never be reduced thereafter. Provided, further, that the cost of living increase payable to any surviving beneficiary of a participant receiving optional benefits shall be determined by multiplying the applicable cost-of-living percentage by the benefit payable to the participant at the time of his death and the benefit payable to the beneficiary shall thereafter be adjusted in accordance with the applicable cost-of-living percentage payable on the optional benefits received by the beneficiary commencing on the January 1 following the participant's date of death.

(5) Transfer to Firemen's and Policemen's Insurance and Pension Plan. Notwithstanding any provisions to the contrary, the General Pension Plan is hereby amended to provide that a Participant in the Firemen's and Policemen's Insurance and Pension Plan [Fire and Police Pension Fund] who has transferred employment from the provisions of the General Pension Plan shall have the right to have his service under the General Pension Plan vested if it amounts to five (5) years or more and said Participant has more than five (5) years credited service under the Firemen's and Policemen's Insurance and Pension Plan. Such employee shall be entitled to receive, if no longer employed by the City, a proportionate pension from the General Pension Plan based upon either the Early Retirement or Normal Retirement Provisions, provided such employee is eligible to retire under either of such provisions. Such pension shall be calculated according to salary history and method used at the time of such transfer from the General Pension Plan. If a Participant leaves the employment of the City with less than five (5) years credited service in each plan, unless disabled in the line of duty or entitled to any pension benefits under either plans, then said person shall receive a Refund of the contributions made by such person to either or both of said pension plans.
(Ord. No. 12983, §§ 2, 3, 8-25-15); Ord. No. 7408, §§ 1(10), (11), 8-22-78; Ord. No. 8688, § 1(2)(b)(c), 8-19-86; Ord. No. 10084, §§ 1(1), 1(2), 8-16-94; Ord. No. 11011, §§ 1(2), (5), 5-9-00)

Editor's note—Firemen's and Policemen's Pension Plan is now called Fire and Police Pension Fund and is set forth in this Code at § 2-400 et seq.

Sec. 2-308. Benefits; method of calculation with Social Security Offset.

(1) Normal retirement benefit. A participant, upon retirement on his normal retirement date, shall receive a monthly retirement benefit which shall be payable on the last day of the month after retirement and on the last day of each month thereafter during his lifetime. Unless an optional benefit under Section 2-309 is selected, the amount of such monthly benefit, computed as of his normal retirement date, shall be one-twelfth (1/12) of (a) multiplied by (b) as follows:

(a) Sixty percent (60%) of average earnings, less fifty percent (50%) of any primary insurance amount payable to him as a benefit under the Social Security law at age sixty-two (62), but not including that portion of Social Security benefits attributable to his having a spouse and/or dependents. If a participant has credited service at retirement in excess of twenty-five (25) years, the sixty percent (60%) in the preceding sentence will be increased in increments of one percent (1%) for each full year of such credited service in excess of twenty-five (25) years. (Ord. No. 11011, § 1(6), 5-9-00)

(b) Credited service not in excess of twenty-five (25) years divided by twenty-five (25). The amount of such primary social security shall be computed by the board of trustees in accordance with the method by which the primary insurance amount is determined under the social security law as such law existed on the date of termination of the participant's employment; except that the primary insurance amount shall be based on the amount of his average earnings on such date, and shall be assumed to commence on such date; provided further, however, that if the participant proves to the satisfaction of the board of trustees that the actual amount of his monthly primary social security, not reduced by reason of any earnings, is less than the amount computed by the board of trustees, then the board shall thereupon adjust upward his benefit provided by this plan to reflect appropriately his actual amount of primary social security.

Editor's note—Former reference to Article 6 of Priv. Acts 1965 and Section 3.42 of Charter changed to Section 2-309 for codification.

(2) Early retirement benefit. A participant, upon retirement on his early retirement date, shall as he may elect, receive either (a) or (b), as follows:

(a) A monthly deferred early retirement benefit, which shall be payable on his normal retirement date, provided he is then living, and on the first day of each month thereafter during his lifetime, computed in the manner set forth in Section 2-307, except that such computation shall be made as of his early retirement date and the deduction for social security shall be based upon an estimate of the primary insurance amount payable at age sixty-two (62), subject to adjustment of future payments based upon the primary insurance amount actually payable at age sixty-two (62).

Editor's note—Former reference to Section 5.01 of Priv. Acts 1965 and Section 3.41(1) of Charter changed to Section 2-307 for codification.

(b) An immediate early retirement benefit shall be payable on the last day of the month after retirement and monthly thereafter during their lifetime, the amount of which shall be the amount of the benefit provided in subparagraph (a) above reduced by two and one-half (2½) divided by twelve (12) of one percent (1%) thereof for each full month in the period of time between their early retirement date and their normal retirement date. However, if the sum of the participant's age and years of credited service is at least eighty (80) at the time of retirement, there shall be no reduction in the immediate early retirement benefit.

(Ord. No. 12983, §§ 2, 3, 8-25-15), (5.02); Priv. Acts 1967, Ch. 169, §§ 14, 15; Priv. Acts 1972, Ch. 402, § 3; Ord. No. 8688, § 1(4), 8-19-86; Ord. No. 10084, §§ 1(4), (5), 8-16-94; Ord. No. 11011, §§ 1(3), (7), 5-9-00)

Sec. 2-309. Optional retirement benefits.

(1) Election of optional retirement benefits. A participant entitled to a retirement benefit may elect, subject to written notice of his election filed with or prior to his application for retirement to which the participant may be entitled and subject to such requirements as the trustees may establish, to have a

retirement benefit payable under one (1) of the options hereinafter set forth in lieu of all other retirement benefits he is otherwise entitled to receive. The benefit shall be paid in accordance with the terms of the option elected. The participant may revoke his election of an option and make a new election, subject to written notice of his new election filed with or prior to his application for retirement and subject to such requirements as the trustees may establish. Election of any optional retirement benefit shall be approved by the trustees and must be made by the participant in writing in such manner and form as the trustees may require.

(2) Description of optional retirement benefits. The amount of any optional retirement benefit set forth below shall be the actuarial equivalent of the amount of benefit that would otherwise be payable to the retired participant under Section 2-307; provided, however, that an optional retirement benefit in lieu of the deferred early retirement benefit shall not be less than the benefit that would have been payable if retirement had occurred at the normal retirement date.

OPTION A: 120 PAYMENTS CERTAIN AND LIFE OPTION. A decreased retirement benefit payable for life with the first one hundred twenty (120) payments guaranteed. Any guaranteed payments due after the death of the retired participant shall be payable to his designated beneficiary, if any, who survives the retired participant, or to the estate of the retired participant if there is no surviving, designated beneficiary.

OPTION B: JOINT AND SURVIVOR OPTION. A decreased retirement benefit payable to the retired participant for life which shall continue after his death to his surviving beneficiary in the same amount as that payable to the retired participant.

OPTION C: MODIFIED JOINT AND SURVIVOR OPTION. A decreased retirement benefit payable to the retired participant for life, fifty percent (50%) (or some other percent that is less than one hundred percent (100%)) of which shall continue after his death to his surviving beneficiary for life.

OPTION D: MODIFICATION OF OPTION B. A decreased retirement benefit, subject to an actuarial reduction, payable to the retired participant for life which shall continue after his or her death to their surviving beneficiary in the same amount as that payable to the retired participant provided, that if such designated beneficiary shall predecease the retired participant, the retirement benefit payable to the participant after death of the designated beneficiary, shall be equal to the retirement benefit, which would have been payable had the participant not elected an option.

OPTION E: MODIFICATION OF OPTION C. A decreased retirement benefit, subject to an actuarial reduction, payable to the retired participant for life fifty percent (50%) (or some other percent that is less than one hundred percent (100%)) of which shall continue after his or her death to their surviving beneficiary for life. Provided, that if such designated beneficiary shall predecease the retired participant, the retirement benefit payable to the participant after death of the designated beneficiary, shall be equal to the retirement benefit, which would have been payable had the participant not elected an option.

Editor's note—Former reference to Article 5 of Priv. Acts 1965 and Section 3.41 of Charter changed to Section 2-307 for codification.

(3) In the event of a divorce of a participant who retired under an optional retirement plan, where the spouse is the designated beneficiary, the beneficiary may be cancelled upon the written request of the member and proper documentation, which shall include the final decree and marital dissolution agreement of the parties; provided, that such cancellation is not in conflict with the decree or marital dissolution agreement. The retirement allowance payable to the retiree after the cancellation of the designated beneficiary shall not be affected by such cancellation.

(Ord. No. 12983, §§ 2, 3, 8-25-15)—(6.03); Ord. No. 8688, § 1(2)(d), 8-19-86; Ord. No. 10463, §§ 1(5), (6), 8-20-96)

Sec. 2-310. Amendment and termination of plan.

In the event that the plan is amended, no such amendment shall cause or permit any part of the plan assets to be used for, or diverted to, purposes other than for the exclusive benefit of the participants and retired participants, or their beneficiaries; no amendment shall have the effect of revesting in the city any portion of such funds; and no amendment, unless it is necessary to meet the requirements of any state or federal law or regulation, shall operate to deprive any participant of any benefits which have vested in him prior to such amendment.
(Ord. No. 12983, §§ 2, 3, 8-25-15))

Sec. 2-311. Administration of plan.

(1) Administration. The Board of Trustees of the General pension Plan is hereby expanded to seven (7) members. The Mayor or his/her designee shall be an ex-officio member of the Board of Trustees and shall have the right to vote on all matters. The other six (6) Trustees shall be appointed by the Mayor with the approval of a majority vote of the entire membership of the City Council. (The City Auditor and City Treasurer shall no longer serve as ex officio members of the Board of Trustees.) The Mayor and Council shall ensure in the exercise of their appointment powers as vacancies occur on the Board of Trustees that black representation thereon will be consistent with the percentage of the black population in the City. No person shall be eligible to be a Trustee unless he or she (a) is a trust or investment officer, or has the qualifications of a trust or investment officer as determined from the requirements for those positions by prevailing custom in local government, and among the banks, insurance companies or licensed stock or bond brokers who have offices in Chattanooga, Tennessee, and (b) is a resident of the City of Chattanooga, Tennessee, or is employed within the corporate boundaries of the City of Chattanooga, Tennessee. Of the six (6) appointed members of the Board, no more than two (2) may be employed by the same employer. Two (2) of the members of the Board shall be appointed to initial terms of five (5) years, two (2) of the members shall be appointed to initial terms of four (4) years and two (2) of the members shall be appointed to initial terms of three (3) years. Thereafter, all terms shall be for five (5) years. The City Human Resources Director (by whatever title) shall be the keeper of the records of the Board of Trustees.

It shall establish written rules, regulations and procedures to be followed by participants and beneficiaries in filing applications for benefits, in furnishing and verifying proof necessary to determine age, and in any other matters required to administer this plan or as required by law. Before any such rule, regulation or procedure is operative it shall be approved by the city attorney as to legality and form, and shall then be filed with the city finance officer.

The Board of Trustees shall receive all applications for benefits and shall determine all facts necessary to establish the right of the applicant to benefits under the provisions of the plan and the amount thereof as herein provided, and it will afford any applicant the right of a hearing with respect to any findings of fact or determination.

The Board of Trustees shall prepare and distribute information concerning the plan to the participants at the expense of the fund and in such manner as it shall deem appropriate.

The Board of Trustees shall be entitled to rely upon all tables, valuations, certificates, and reports furnished by a consultant or actuary appointed by it. The trustees may require opinions from the city attorney or any special counsel selected by the city attorney. The board of trustees and the city shall be fully protected in respect of any action taken or suffered by them in good faith in reliance upon the advice or opinion of any such consultant, actuary of [or] counsel, and all action so taken or suffered shall be binding upon each of them and upon all participants or other persons interested in the plan. The trustees shall pay from the fund the fees, charges or expenses for consultant, actuary or said legal services.

(2) Records. All acts and determinations of the Board shall be duly recorded and all such records, together with such other documents as may be necessary for the administration of the plan, shall be preserved in its custody and kept by the City Human Resources Director. Such records and documents shall at all reasonable times be open for inspection and for the purpose of making copies by any person duly authorized by the Board.

(3) Exemption from liability. The members of the Board, and each of them, shall be free from all liability, joint or several, for their acts, omissions and conduct, and for the acts, omissions and conduct of their duly constituted agents, in the administration of the plan, and the city shall indemnify and save them, and each of them, harmless from effects and consequences of their acts, omissions and conduct in their official capacity, except to the extent that such effects and consequences shall result from their own willful misconduct or gross negligence.
(Ord. No. 12983, §§ 2, 3, 8-25-15)—(8.03); Ord. No. 9766, § 1(7), 8-11-92; Ord. No. 11272, 5-2-02; Ord. No. 14017, § 2, 8-15-23)

Sec. 2-312. Additional rights and powers.

(1) Supplemental contributions. Any person who was an employee on January 1, 1965, upon becoming a participant in this plan, shall be eligible to receive credited service for (a) all of the time he was a participant in a former plan, plus (b) a period of time not to exceed ten (10) prior years that he was an employee, whether continuous or not, while a former plan(s) was in force and he was not a participant in such former plan(s); but only if, and on the condition that, he pay to the city before January 1, 1966, such amounts as he would have paid as employee contributions under this plan had it been in existence during such time. The City shall likewise pay into this plan nine percent (9%) of the gross compensation for the same period of time of said employee who, as aforesaid, shall pay for said past service while not a participant in a former plan(s).

(2) [Determination of service for charter officials.] With regard only to the computation of benefits as provided in Section 2-307 hereof, credited service for the charter officials of the city who are elected by the voters shall mean and be equal to the sum of credited service as defined in Section 2-303(10), plus an additional amount of service equal to fifty percent (50%) of the number or years of service as such official. This credited service also shall apply to such official who is appointed to the city council or to a city judgeship to fill a vacancy.

Editor's note—Former references to Article 5 and Section 1.10 of Priv. Acts 1965 and of Section 3.37(10) of the Charter changed to 2-307 and 2-303(10) for codification.

(3) Employees who terminated employment under the salaried employees insurance and pension fund prior to the effective date of this plan. In the event that an employee, who was covered by the salaried employees' insurance and pension fund (Private Acts of 1961, Chapter 298), ceased to be employed by the city after December 31, 1965, and was eligible to receive a refund of a portion of his contributions from the aforesaid salaried employees' insurance and pension fund, he shall receive a refund of his total contributions without interest. Such amount shall be deducted and payable from the fund of the salaried employees' insurance and pension fund before any transfer of funds is made to the plan.

Editor's note—In the opinion of the City Attorney, this provision is archaic and no employees or beneficiaries of this plan are affected; however, it is retained in this codification for historic reference.

(4) Reserved.

(4.1) Reserved.

(5) Minimum benefit for participants who were participants in a former plan. Notwithstanding any other provision of this plan to the contrary, eligibility for and the amount of benefits under any former plan(s), in which the participant under this plan was a member may be paid in the manner provided for in

such former plan(s) if requested by the participant or his beneficiary, but such selection, once made, shall be irrevocable; provided, however, that any person who was under the Department of Education Insurance and Pension Fund Act, and who has elected to become a member of this plan, shall also be eligible for retirement benefits under the salaried employees' insurance and pension fund act if said benefits are not less than the benefits under this plan.

(6) Reserved.

(Ord. No. 12983, §§ 2, 3, 8-25-15)—(9.06); Priv. Acts 1967, Ch. 169, §§ 16, 17; Priv. Acts 1971, Ch. 137, §§ 6, 7; Priv. Acts 1972, Ch. 403, § 1; Ord. No. 8688, § 1(2)(d), 8-19-86; Ord. No. 9766, §§ 1(b), 1(7), 8-11-92)

Sec. 2-313. Trust management.

(1) Establishment of trust. The fund under this plan shall initially consist, as of January 1, 1965, of the current appropriations, if any, and/or the assets less any benefits or expenses incurred between January 1, 1965, and when this Act is ratified, of said existing pension systems whether now open or closed by law, known as-

(a) Employees' Insurance and Pension Fund (Private Acts of 1937, Chapter 678),

(b) Department of Education Insurance and Pension Fund (Private Acts of 1937, Chapter 221),

(c) Salaried Employees' Insurance and Pension Fund (Private Acts of 1961, Chapter 298), and

(d) Officials Pension System (Private Acts of 1961, Chapter 300), all as may have been heretofore amended.

Editor's note—In the opinion of the City Attorney, these references to prior pension plans are archaic and that no current participant or beneficiary is affected; however, these provisions are maintained in this codification for historic reference.

(2) Contributions to trustee. Contributions shall be paid to the trustees from time to time in accordance with the terms of this Act [division]. It shall be the duty of the trustees to receive, hold, invest, reinvest and distribute the fund in accordance with the provisions of this Act [division]. The trustees shall be under no duty to enforce payment of any contribution to the fund and shall not be responsible for the adequacy of the fund to meet and discharge any liabilities under this plan.

(3) Management of fund. The trustee shall be authorized and empowered to manage the fund and invest and reinvest the principal and income thereof in its discretion, subject to the terms and provisions of Chapter Two, Chapter Three, Chapter Seven and Chapter Nine of Title Thirty-five of the Tennessee Code Annotated as said statutes now exist or as they may be hereafter amended, repealed or interpreted by the courts.

(4) Disbursements. The trustees shall be authorized to direct the city Human Resources Director to make payments from the fund and shall maintain a written account of all payments from the fund. The trustees shall be fully protected in acting upon any action decided up by the board in good faith without inquiry or investigation, and shall have the duty and authority to determine the right or benefits of any employee or beneficiary under the plan. The board of trustees may give directions in writing signed by such person or persons as the trustees may authorize in writing from time to time.

(5) Spendthrift clause. Except for obligations which may be owed to the city by an employee at the time of his termination or retirement, no benefit under the plan shall be subject in any manner to anticipation, alienation, sale, transfer, assignment, pledge, encumbrance, or charge; and any attempt to anticipate, alienate, sell, transfer, assign, pledge, encumber or charge shall be void. No such benefit shall in any manner be liable for or subject to the debts, contracts, liabilities, engagements or torts of the person entitled to such benefit except as specifically provided in the plan.

(6) Accounting by trustee. The trustees shall keep accurate and detailed accounts of all investments, receipts, disbursements and other transactions hereunder; and all accounts, books and records relating thereto shall be open to inspection and audit at all reasonable times by any certified public accountant designated by the city council and the expense thereof shall be paid by the city. The city council shall have an annual audit made as aforesaid.

(7) Expenses. The expenses incurred by the city in the installation and in the administration of this plan, and the expenses incurred by the trustees in the performance of their duties, and all other proper charges and disbursements of the trustees, shall be paid from the fund unless paid by the city. The compensation of each of the seven (7) trustees for his services as such trustee shall be fixed from time to time by the city council, and paid from the fund. Taxes of any and all kinds whatsoever that might be levied or assessed under existing or future laws upon the fund, or the income thereof, shall be paid from the fund.

(8) Resignation and removal of trustee. Any elected trustee may resign at any time upon written notice delivered to the board. Any elected trustee may be removed at any time for cause by the city council upon thirty (30) days' prior written notice delivered to said trustee and after an open hearing. Upon such resignation or removal of any trustee, the Mayor of the city shall, for the unexpired term of such trustee, appoint a successor trustee, subject to the approval of the Council, who shall have the same powers and duties as those conferred upon the trustees hereunder; and, upon acceptance of such election by the successor trustee, the funds and properties then constituting the fund shall thereby automatically be assigned, transferred and paid over to the board of trustees as then constituted.
(Ord. No. 12983, §§ 2, 3, 8-25-15)—(10.03), (10.05)—(10.09); Ord. No. 9766, § 1(7), 8-11-92; Ord. No. 11272, § 1, 5-2-02)

Sec. 2-314. Miscellaneous.

(1) Headings. The headings and subheadings in this Act [division] have been inserted for convenience of reference only, and are to be ignored in any construction of the provisions hereof.

(2) Construction. In the construction of this Act [division], the masculine shall include the feminine and the singular the plural in all cases where such meanings would be appropriate. The plan shall be construed in accordance with the laws of the State of Tennessee.

(3) Claims. Any payment to or for a participant, retired participant, or beneficiary, or to their legal representatives, in accordance with the provisions of this plan, shall, as to the extent of the method of computation as well as the amount thereof, constitute full satisfaction of all claims arising hereunder against the trustees and/or the city, and the trustees may require such participant, retired participant, or beneficiary or legal representative, as a condition precedent to such payment, to execute a receipt and release therefor in such form as shall be determined by the trustees.

(4) Legally incompetent. If any participant, retired participant, or beneficiary is a minor, or is in the judgment of the trustees otherwise legally incapable of personally receiving and giving a valid receipt for any payment due him hereunder, the trustees may, unless and until claim shall have been made by a guardian or conservator of such person duly appointed by a court of competent jurisdiction, direct that payment or any part thereof be made to such person or to such person's spouse, child, parent, brother or sister, or other person deemed by the board to be a proper person to receive such payment. Any payment so made shall be a complete discharge of any liability under the plan for such payment.

(5) Vested right based on credited service. Any participant whose credited service has been five (5) years or more shall not be deprived of a pension if discharged because of a change of administration, political or any other reason. Without prejudice to the foregoing vested right based on credited service, any employee may be discharged for legal cause after charges have been preferred in writing and he has been given a reasonable opportunity to have a public hearing and the charges are sustained by competent evidence.

(6) Correction of errors. If any change in records or error results in any retired participant or beneficiary receiving from the plan more or less than he would have been entitled to receive had the records been correct or had the error not been made, the board, upon discovery of such error, shall correct the error by adjusting, as far as practicable, the payments in such a manner that the benefits to which such person was correctly entitled shall be paid.

(7) Teacher benefits. A participant in this plan or former plan who is a teacher, whether now retired or who hereafter retires, shall receive an annuity that shall be twice the amount of the actuarial equivalent of his accumulated contributions to this plan plus any amount paid to this plan under Section 49-1542, Tennessee Code Annotated, as amended, or as it may be amended hereafter; but the total amount received from this plan and/or the Tennessee Teachers Retirement System by any such participant who hereafter retires on or after his normal retirement date shall not be less than the retirement benefit payable under Article 4 [section 3.04 hereof] (Benefits); provided, however, that the total amount received by such participant who is now retired from this plan and/or the Tennessee Teachers Retirement System, if any, shall not be less than the amount said participant is receiving from this plan and/or the Tennessee Teachers Retirement System, if any, at the time when this Act shall become operative by ratification by the city council.

As used in the preceding paragraph the following words and phrases shall have the following meaning:

(a) TEACHER shall mean any person employed in a public school as a teacher, helping teacher, librarian, principal, or supervisor, and shall include any superintendent or administrative officer of the department of education.

(b) TEACHER ANNUITY shall mean payment for life derived from the accumulated contributions of a participant.

(c) ACTUARIAL EQUIVALENT shall mean a benefit of equal value when computed upon the basis of mortality tables and rates of interest as shall be adopted by the board of trustees.

(d) ACCUMULATED CONTRIBUTIONS shall mean the sum of all the amounts deducted from the compensation of a participant together with interest compounded annually at the rate of three percent (3%).

Editor's note—It is the opinion of the City Attorney that no participants or beneficiaries remain in the plan that would be affected by this subsection; however, it is retained in this codification as a historic reference.

(8) Rights of survivors to pension. Should any participant die as a result of any medically determinable bodily injury, disease or condition resulting, directly or indirectly, from an act occurring, or a thing done, or a known or unknown risk taken in the performance of his duty with the city and shall be survived by a spouse, then his or her spouse shall receive the pension to which such deceased participant would have been entitled as if he had retired at age sixty-two (62) with twenty-five (25) years credited service so long as she remains his or her spouse and does not re-marry; if not survived by a spouse but is survived by a child or children under twenty-one (21) years of age, or if the spouse of such deceased participant should thereafter leave a surviving child or children of the deceased participant under twenty-one (21) years of age, the child shall receive said pension until he reaches the age of twenty-one (21) years or said children shall receive a pro rata amount of said pension until each becomes twenty-one (21) years of age. As each surviving child reaches age twenty-one (21), the pension shall be reapportioned among the then living children under age twenty-one (21). Further, in the event such participant is not survived by a spouse, or child or children under twenty-one (21) years of age, but is survived by a parent(s) solely dependent on the deceased participant, the parent(s) shall receive the pension to which a spouse would have been entitled as aforesaid so long as there is no other means of support.

(Ord. No. 12983, §§ 2, 3, 8-25-15)—(11.08); Priv. Acts 1971, Ch. 137, §§ 2—4; Priv. Acts 1972, Ch. 402, § 2; Ord. No. 9766, § 1(7), 8-11-92; Ord. No. 10739, § 1(1), 8-18-98; Ord. No. 11011, § 1(10), 5-9-00)

Sec. 2-315. Other pension systems closed to new employees.

Upon the date when this Act is ratified by the board of commissioners of the City of Chattanooga the pension systems known as Employees' Insurance and Pension Fund (Private Acts of 1937, Chapter 678), Salaried Employees' Insurance and Pension Fund (Private Acts of 1961, Chapter 298), and Officials Pension System (Private Acts of 1961, Chapter 300), shall be closed to all persons now or thereafter employed by the city who would otherwise have been eligible to participate therein, but the foregoing provision closing said pension systems to all future employees or elected officials, as the case may be, shall not effect or impair the right of any person who may now or hereafter receive a retirement or a full or disability pension therefrom.
(Ord. No. 12983, §§ 2, 3, 8-25-15)

Editor's note—The acts referred to in the above subsection are not included in this compilation, since they are closed to future employees. It is the opinion of the City Attorney that no participants or beneficiaries remain in the plan that would be affected by this section; however, it is retained in this codification as a historic reference.

Sec. 2-316. Amendment to Ch. 73, Priv. Acts 1959; effect of plan thereon.

Chapter 73 of the 1959 Private Acts, the title of which is set forth in the caption hereof, shall apply to this plan, and the age of children specified in said Act as being "sixteen (16) years of age" shall be changed, amended, or deleted and the words and figures "eighteen (18) years of age" shall be substituted in lieu thereof wherever they appear in said Chapter 73, Private Acts of 1959, but this amendment shall not affect or impair the existing right of any person who is receiving benefits provided under said 1959 Act.
(Ord. No. 12983, §§ 2, 3, 8-25-15)

Editor's note—Ch. 73, Priv. Acts 1959, is set out as § 3.29 of this compilation. The caption of Priv. Acts 1965, Ch. 254, which comprises this division, is not set out in this compilation. It is the opinion of the City Attorney that no participants or beneficiaries remain in the plan that would be affected by this section; however, it is retained in this codification as a historic reference.

Sec. 2-317. Repeal of Ch. 397, Priv. Acts 1961.

Chapter 397, Private Acts of 1961, the title of which is set forth in the caption hereof, be and the same is hereby repealed, but this repeal shall not affect or impair the existing right of any person who is now receiving the benefits provided by said Act to continue to receive benefits under said Act.
(Ord. No. 12983, §§ 2, 3, 8-25-15)

Editor's note—The caption to Priv. Acts 1965, Ch. 254, which comprises this division, is not set out herein. Ch. 397, Priv. Acts 1961 is not set out in this compilation. It is the opinion of the City Attorney that no participants or beneficiaries remain in the plan that would be affected by this section; however, it is retained in this codification as a historic reference.

Sec. 2-318. Deferred Retirement Option Plan ("DROP").

(a) A deferred retirement option plan ("DROP") is hereby created. A DROP is an optional retirement plan elected by the participants. A one (1) year DROP provides a lump sum payment to the participant at retirement based upon twelve (12) times the monthly benefit amount that the participant would be eligible to receive at retirement calculated prior to any actuarial reductions for other retirement options elected. Two (2) or three (3) year DROP payments shall be based upon twenty-four (24) or thirty-six (36) times said monthly benefit amount. The amount of the DROP lump sum elected shall be deducted from the actuarial value of the participant's pension and the reduced actuarial equivalent balance shall be payable in monthly periodic pension payments dependent upon the participant's elected retirement option.

(b) Only participants with twenty-six (26) or more years of service shall be eligible to participate in the DROP. A participant with twenty-six (26) years of service may elect a one (1) year DROP payment, a participant with twenty-seven (27) years of service may elect a one (1) or two (2) year DROP, and a participant with twenty-eight (28) or more years of service may elect a one (1) to three (3) year DROP. DROP elections shall be made in whole years only. The election shall be made at the time of retirement.

(c) The DROP payment elected shall be paid as soon as practicable after the retirement of the participant.

(d) Actuarial equivalents shall be based upon the age of the participant, the age of beneficiaries, if any, the retirement option selected, the amount of the DROP elected, the mortality tables and rates of interest then adopted by the Trustees of the General Pension Plan and upon such rules as may be adopted by said Trustees.

(e) A participant's right to participate in the DROP plan shall not be vested until a participant retires and elects to receive DROP lump sum payments. The DROP plan may be discontinued at any time or modified in any manner.
(Ord. No. 12983, §§ 2, 3, 8-25-15)

Sec. 2-319. Amendments by ordinance.

The City Council of the City of Chattanooga, in its discretion, may upon recommendation of the Board of Trustees of the General Pension Plan, upon advice by the Mayor, and upon receipt of an actuarial report as to the costs and actuarial soundness of such changes, may amend by ordinance passed upon two (2) separate meetings the provisions of the General Pension Plan providing such amendments are consistent with sound actuarial principles, methods and assumptions and further provided that such amendments shall not decrease any vested financial benefits accrued by any participant or beneficiary.
(Ord. No. 12983, §§ 2, 3, 8-25-15), 5-9-00; Ord. No. 12677, 12-18-12)

Cross reference—Identical provision codified in Chattanooga City Charter, Sec. 3.52.

Sec. 2-320. Compliance with requirements of Internal Revenue Code.

The following provisions are intended to cause the Plan to comply with the requirements of the Internal Revenue Code of 1986, as amended, and the regulations thereunder.

A. Exclusive benefit to employees. All assets in the plan must be used exclusively for the benefit of participants or their beneficiaries or to defray the reasonable expenses of administration of the plan.

B. Mandatory commencement of benefits. Notwithstanding any provision of the plan to the contrary, the plan will begin benefit payments to a participant by the required beginning date, whether or not he/she applies for benefits. The "required beginning date" is April 1 of the calendar year following the calendar year in which the member attains age 70 ½.

C. Maximum limitation.

   a. Aggregate limits. For any limitation year the annual benefit cannot exceed the limitations set forth under Code Section 415(b) and the regulations thereunder, as applicable to a governmental plan (as defined in Code Section 414(d)), as indexed in accordance with Code Section 415(d), which are hereby incorporated by reference, including the definition of compensation under Code Section 415(c). The limitation year shall be the calendar year.

      If the plan must be aggregated with another plan to determine the effect of Code Section 415 on a participant's annual benefit, and if the benefit must be reduced to comply with Code Section 415, then such reduction shall be made pro rata between the two plans, in proportion to the participant's credited service in each plan.

b. Definition. The participant's accrued benefit shall not exceed the maximum permissible benefit, as defined below.

1. Defined benefit dollar limitation. The "defined benefit dollar limitation" is $160,000.00, as adjusted, effective January 1 of each year, under Code Section 415(d) in such manner as the Secretary of the Treasury shall prescribe, and payable in the form of a straight life annuity. A limitation as adjusted under Code Section 415(d) will apply to calendar years ending with or within the calendar year for which the adjustment applies.

2. Maximum permissible benefit. The "maximum permissible benefit" is the defined benefit dollar limitation, adjusted where required, as provided in subparagraphs (a), (b) and (c) below.

(a) Fewer than 10 years of participation. If the participant has fewer than 10 years of participation in the plan, the defined benefit dollar limitation shall be multiplied by a fraction, the numerator of which is the number of years (or part thereof) of participation in the Plan and the denominator of which is 10.

(b) Benefits beginning after age 65. If the benefit of a participant begins after the member attains age 65, the defined benefit dollar limitation applicable to the participant at the later age is the annual benefit payable in the form of a straight life annuity beginning at the later age that is actuarially equivalent to the defined benefit dollar limitation applicable to the participant at age 65 (adjusted under subparagraph (a) above, if required).

(c) Benefits not payable as a straight life annuity. Where a benefit from the plan is payable in a form other than a straight life annuity, the benefit shall be adjusted to an actuarially equivalent straight life annuity that begins at the same time as such other form of benefit.

For purposes of subparagraphs (a), (b), and (c) above, the determination of actuarial equivalent shall be made in accordance with the applicable provision of Code Section 415(b)(2)(E) and related regulations and rulings.

D. Qualified military service. Notwithstanding any provision of this Plan to the contrary, contributions, benefits and service credit for the purpose of vesting with respect to qualified military service will be provided in accordance with and to the extent required by the Uniformed Services Employment and Reemployment Rights Act of 1994 (USERRA) and Code Section 414(u), under rules adopted hy the Board.

(Ord. No. 13023, § 3, 1-26-16)

Sec. 2-321. Amendments at request of Internal Revenue Service.

The following provisions are intended to cause the Plan to comply with the requirements of the Internal Revenue Code of 1986, as amended, and the regulations thereunder, pursuant to the request of the Internal Revenue Service in connection with the Plan's Application for Determination for Employee Benefit Plan (Form 5300), filed with the IRS on January 29, 2016.

(a) For years beginning after December 31, 2008: (i) an individual receiving a differential wage payment, as defined by Code § 3401(h)(2), is treated as an employee of the employer making the payment; (ii) the differential wage payment is treated as compensation for purposes of Code § 415(c)(3) and Treasury Reg. § 1.415(c)-2; and (iii) the Plan is not treated as failing to meet the requirements of any provision described in Code § 414(u)(1)(C) by reason of any contribution or benefit which is based on the differential wage payment.

(b) Notwithstanding any provision of the Plan to the contrary, a distributee may elect to have all or only a portion of an eligible rollover distribution paid directly to an eligible retirement plan specified by the distributee in a direct rollover. However, if less than the entire amount of an eligible rollover distribution is paid directly to an eligible retirement plan, the minimum partial rollover must equal at least five hundred dollars ($500.00).

(c) For purposes of subsections (b)—(e) of this Section 2-321, the following definitions shall apply:

(1) *Eligible rollover distribution.* An "eligible rollover distribution" means any distribution described in Code § 402(c)(4) and generally includes any distribution of all or any portion of the balance to the credit of the distributee, except that an eligible rollover distribution does not include any distribution that is one of a series of substantially equal periodic payments (not less frequently than annually) made for the life (or life expectancy) of the distributee or the joint lives (or joint life expectancies) of the distributee and the distributee's designated beneficiary, or for a specified period of ten (10) years or more; any distribution to the extent such distribution is required under Code § 401(a)(9); the portion of any other distribution(s) that is not includible in gross income; and any other distribution that is reasonably expected to total less than two hundred dollars ($200.00) during a year.

(2) *Eligible retirement plan.* An "eligible retirement plan" is an individual retirement account described in Code § 408(a), an individual retirement annuity described in Code § 408(b) (other than an endowment contract), a qualified trust (an employees' trust) described in Code § 401(a) which is exempt from tax under Code § 501(a) and which agrees to separately account for amounts transferred into such plan from this Plan, an annuity plan described in Code § 403(a), an eligible deferred compensation plan described in Code § 457(b) which is maintained by a state, political subdivision of a state, or any agency or instrumentality thereof which agrees to separately account for amounts transferred into such plan from this Plan, and an annuity contract described in Code § 403(b) that accepts the distributee's eligible rollover distribution. The definition of eligible retirement plan shall also apply in the case of a distribution to a surviving spouse, or to a spouse or former spouse who is an alternate payee. Effective for distributions after December 31, 2006, in the case of a "distributee" who is a non-spouse designated beneficiary, (1) the direct rollover may be made only to a traditional or Roth individual retirement account that is established on behalf of the designated non-spouse beneficiary for the purpose of receiving that distribution and that will be treated as an inherited IRA pursuant to the provisions of Code § 402(c)(11), and (2) the determination of any required minimum distribution required under Code § 401(a)(9) that is ineligible for rollover shall be made in accordance with IRS Notice 2007-7, Q&A 17 and 18.

Roth IRA rollover. For distributions made after December 31, 2007, a participant may elect to roll over directly an eligible rollover distribution to a Roth IRA described in Code § 408A(b).

(3) *Distributee.* A "distributee" includes an Employee or former employee. In addition, the employee's or former employee's surviving spouse and the employee's or former employee's spouse or former spouse who is an alternate payee, are distributees with regard to the interest of the spouse or former spouse.

(4) *Direct rollover.* A "direct rollover" is a payment by the Plan to the "eligible retirement plan" specified by the distributee.

(d) For distributions after December 31, 2006, a non-spouse beneficiary who is a "designated beneficiary" under Code § 401(a)(9)(E) and the Regulations thereunder, by a direct trustee-to-trustee transfer ("direct rollover"), may roll over all or any portion of his or her distribution to an

individual retirement account the beneficiary establishes for purposes of receiving the distribution. In order to be able to roll over the distribution, the distribution otherwise must be an "eligible rollover distribution."

(1) Any distribution made prior to January 1, 2010 is not subject to the "direct rollover" requirements of Code § 401(a)(31) (including Code § 401(a)(31)(B)), the notice requirements of Code § 402(f) or the mandatory withholding requirements of Code § 3405(c)).

(2) If the participant's named beneficiary is a trust, the Plan may make a direct rollover to an IRA on behalf of the trust, provided the trust satisfies the requirements to be a "designated beneficiary."

(e) A participant entitled to an eligible rollover distribution must receive a written explanation of his/her right to a direct rollover, the tax consequences of not making a direct rollover, and, if applicable, any available special income tax elections. The notice must be provided no less than thirty (30) days and no more than 180 days (90 days for Plan Years beginning before January 1, 2007) before such distribution. The direct rollover notice must be provided to all participants, unless the total amount the participant will receive as a distribution during the calendar year is expected to be less than two hundred dollars ($200.00).

(f) In case of termination of the Plan, the rights of participants to the benefits accrued under the Plan to the date of termination, to the extent then funded, shall be nonforfeitable.

(Ord. No. 13274, § 1, 1-30-18)

Sec. 2-322. Qualified domestic relations orders and orders for assignment of support.

(a) The Plan will honor claims presented under a qualified domestic relations order ("QDRO") as provided in T.C.A. Section 26-2-105. A QDRO is defined in Section 414(p) of the Internal Revenue Code. If a QDRO pertains to a participant who has not commenced receiving benefits at the time the QDRO is received by the Board of Trustees, the alternate payee under said QDRO will begin receiving a portion of the benefits otherwise payable to the participant, as specified by the order, at the time the participant commences benefits. If a QDRO pertains to a participant who is already receiving benefits under the Plan at the time the QDRO is received by the Board of Trustees, the alternate payee shall receive a portion of the payments being made to the participant, as specified by the order, at the time the order is determined by the Board of Trustees to be a QDRO that complies with T.C.A. Section 26-2-105. In no event will the alternate payee be allowed to change the payment method or the timing of the payments.

(b) As provided in T.C.A. Section 26-2-105, the Plan shall honor orders for assignment of support issued under T.C.A. Section 36-5-501.

(Ord. No. 13274, § 1, 1-30-18)

Secs. 2-323—2-399. Reserved.

DIVISION 5. FIRE AND POLICE PENSION FUND

Sec. 2-400. Appropriation to pension fund of percentage of salaries; control of fund; investments.

The City Council of said city, after it has adopted a budget for the salaries of the departments of fire and police each year, shall add a sum to be fixed by a majority vote of the City Council of said city, which shall not be less than ten percent (10%) of each monthly payroll of those persons who are participants in the pension system, which sum so added shall be placed in the Fire and Police Pension Fund. Said pension and trust fund from all sources herein provided shall be paid to the Custodian Bank. The Custodian Bank shall be a national or state chartered bank, under a suitable bond, designated, from time to time, as Custodian

Bank of this Fund by the Board of Trustees. The Custodian Bank shall hold said funds for the purposes stated in this Article. The funds coming into the hands of the Custodian Bank shall be under the direction and control of the Board of Trustees of the Fire and Police Pension Fund. Any and all investments made under the direction and control of the Board of Trustees, and all other acts done in the administration of the plan in good faith, shall be without liability on their part.
(Priv. Acts 1949, Ch. 165, § 2; Priv. Acts 1971, Ch. 149, § 1; Priv. Acts 1972, Ch. 406, § 1; Ord. No. 8688, § 1(7), 8-19-86; Ord. No. 9778, § 14, 8-19-92; Ord. No. 11377, § 1, 2-4-03; Ord. No. 13318, § 1, 6-5-18)

Sec. 2-401. Tax levy for pensions.

The City Council of said city be and is hereby required to levy a sufficient annual tax upon all taxable property and taxable privileges within the City of Chattanooga for the purposes of raising revenue for the payment of pensions to members of said department of fire and police and appropriate same for such purpose.
(Ord. No. 12983, §§ 2, 3, 8-25-15)

Sec. 2-402. Assessment of employees.

(a) Beginning on the effective date of this ordinance and continuing until June 30, 2015, each Member will be assessed a contribution to the Fund in an amount, fixed by majority vote of the Board, not less than nine percent (9%) of the Member's Base Salary. However, each Member eligible for and who has elected to participate in the DROP provided for in Section 2-422 will be assessed a contribution to the Fund in an amount, fixed by majority vote of the Board, not less than ten percent (10%) of the Member's Base Salary.

(b) Beginning July 1, 2015, and continuing until June 30, 2016, each Member will be assessed a contribution to the Fund in an amount, fixed by majority vote of the Board, not less than ten percent (10%) of the Member's Base Salary. However, each Member eligible for and electing to participate in the DROP provided for in Section 2-422 will be assessed a contribution to the Fund in an amount, fixed by majority vote of the Board, not less than eleven percent (11%) of the Member's Base Salary.

(c) Beginning July 1, 2016, and continuing thereafter, each Member will be assessed a contribution to the Fund in an amount, fixed by majority vote of the Board, not less than eleven percent (11%) of the Member's Base Salary. However, each Member eligible for and electing to participate in the DROP provided for in Section 2-422 will be assessed a contribution to the Fund in an amount, fixed by majority vote of the Board, not less than twelve percent (12%) of the Member's Base Salary.

(d) Notwithstanding the provisions of subsection (a), (b), and (c), a Member hired prior to July 1, 1999, whose Average Base Salary as of that date was less than forty-one thousand one hundred thirty-eight dollars ($41,138.00) and whose Average Base Salary as of July 1, 2007, was less than forty-one thousand one hundred thirty-eight dollars ($41,138.00), will be assessed a sum, beginning July 1, 2007 and continuing thereafter, to be fixed by a majority vote of the Board, which will not be less than eight percent (8%) of that Member's Base Salary, and in no event will be less than eight percent (8%) of forty-one thousand one hundred thirty-eight dollars ($41,138.00), annually.

(e) The contribution amounts set forth in this Section 2-402 will be deducted and withheld from the salary of each Member during the time that the Member is employed by the Chattanooga Fire or Police Department. The city officer responsible for disbursing salary payments to Members will make the appropriate deductions and withholdings of contribution amounts and will pay all such amounts to the Fund at the time deducted and withheld to be kept by its Custodian Bank in accordance with the provisions of Section 2-400 of the Chattanooga City Code.
(Priv. Acts 1949, Ch. 165, § 4; Priv. Acts 1953, Ch. 90, § 1; Priv. Acts 1961, Ch. 222, § 1; Priv. Acts 1969, Ch. 165, § 1; Priv. Acts 1972, Ch. 406, § 1; Ord. No. 8688, § 1(8), 8-19-86; Ord. No. 9778, § 1(5), 8-18-92; Ord. No. 10463, § 1(2), 8-20-96; Ord. No. 11012, § 1(1), 5-9-00; Ord. No. 11377, § 1, 2-4-03; Ord. No. 12813, § 1, 3-11-14; Ord. No. 13318, § 2, 6-5-18)

Sec. 2-403. Sum to be collected, paid over to Custodian Bank when employee contribution deducted.

An amount equal to the sum fixed by the City Council, as provided in Section 2-400 of this Article, shall be collected by the tax collector and treasurer and paid over to said Custodian Bank when the contribution by the employees as provided in Section 2-402 is deducted from the payroll.
(Priv. Acts 1949, Ch. 165, § 7; Priv. Acts 1969, Ch. 82, § 6; Priv. Acts 1971, Ch. 149, § 1; Priv. Acts 1972, Ch. 406, § 1; Ord. No. 9778, § 1(12), 8-18-92; Ord. No. 11377, § 1, 2-4-03; Ord. No. 13318, § 3, 6-5-18)

Sec. 2-404. Proceeds from sale of unclaimed property to be placed in pension fund.

If any personal property comes into the possession of the departments of fire and police, if the owner cannot be found, or if no person shall claim such property after six (6) months, the property shall be sold, the net proceeds derived from the sale thereof shall be turned over to said Custodian Bank to be placed in said special Fire and Police Pension Fund, as provided in Sections 2-400 and 2-402 of this Article.
(Ord. No. 12983, §§ 2, 3, 8-25-15; Ord. No. 13318, § 4, 6-5-18)

Sec. 2-405. Reserved.
(Ord. No. 12983, §§ 2, 3, 8-25-15)

Editor's note—Former Charter § 13.69, a prior State Act, was repealed by Charter § 1(12) of Ord. No. 8688, enacted Aug. 19, 1986. The repealed provisions derived from Priv. Acts 1949, Ch. 165, § 9.

Sec. 2-406. Board of Trustees of pension fund-created; membership; term of office; vacancies.

(a) The Board of Trustees of the Chattanooga Fire and Police Pension Fund consists of a total of eight Trustees. Three Trustees must be Members in Active Service with the Fire Department; three Trustees must be Members in Active Service with the Police Department; one Trustee must be the Mayor, by virtue of his office, or if the Mayor so chooses, a City employee knowledgeable of pensions, investments, and financial matters appointed by the Mayor; and one Trustee, who cannot be a City employee, must be appointed by the City Council and must be knowledgeable of pensions, investments, and financial matters.

(b) If a Firefighter or Police Officer Trustee becomes ineligible to serve as a Trustee as outlined in Sec. 2-407(d), the Trustee must resign from the Board effective as of the date the Trustee became ineligible. The Trustees appointed by the Mayor and City Council will serve until they resign or are replaced by the Mayor or City Council.

(c) Alignment of Terms of Office. On Tuesday, September 5, 2023, an election will be held to choose one Trustee from the Fire Department and one Trustee from the Police Department for a term of three years. On Tuesday, September 3, 2024, an election will be held to choose one Trustee from the Fire Department and one Trustee from the Police Department for a term of four years. On Tuesday, September 2, 2025, an election will be held to choose one Trustee from the Fire Department and one Trustee from the Police Department for a term of five years. On Tuesday, September 1, 2026, and thereafter every two years on the first Tuesday in September, an election will be held to choose one Trustee from the Fire Department and one Trustee from the Police Department for a term of six years. If a Firefighter's or Police Officer's candidacy is unopposed, the election will be held at the Pension Fund office only, during hours established by the Board. For contested elections of Firefighters, a monitored ballot box will also be provided at the Fire Department training center during hours established by the Board. For contested elections of Police Officers, a monitored ballot box will also be provided at police headquarters during hours established by the Board. All votes will be counted openly and publicly, and the Firefighter and Police Officer who receive the highest number of votes will be elected for the given term.

(d) Firefighters and Police Officers who hold appointed positions in the Fire Department or Police Department are not eligible to be elected, to serve, or to continue to serve as a Trustee of the Board. If a Firefighter or Police Officer Trustee on the Board becomes unable or ineligible to serve as a Trustee, the Board will appoint a replacement Trustee to serve until the first Tuesday in September of the next election year. If the election cycle following the appointment is not for the Trustee position to which the Board made an appointment, a special election will be held at that time to elect a Trustee to serve the remaining duration of the term of the Trustee who was replaced. A vacancy of a Trustee appointed by the Mayor will be filled by appointment by the Mayor, and a vacancy of a Trustee appointed by the City Council will be filled by appointment by the City Council.
(Ord. No. 12983, §§ 2, 3, 8-25-15), 8-19-86; Ord. No. 9778, § 1(11), 8-18-92; Ord. No. 11377, § 1, 2-4-03; Ord. No. 11863, § 1, 8-8-06; Ord. No. 12155, § 1, 9-2-08; Ord. No. 13318, § 5, 6-5-18; Ord. No. 14013, § 1, 8-1-23)

Sec. 2-407. Same—Organization; officers; compensation of secretary.

As soon as may be practical following a regular election of Trustees, the Board will meet and elect from among the Firefighter and Police Officer Trustees the following officers: (a) a President, (b) a Vice-President, and (c) a Secretary, each of whom will discharge the customary duties of such offices until the next regular election of officers has been completed. The Secretary and President will receive pay for their services in an amount to be fixed by the Board, commensurate with the amount of time and work required to fulfill their duties. The Secretary shall maintain a record of retired Firefighters, Police Officers, and their spouses, including a complete record of all pensions being paid and the actions of the Board in retiring any and all persons under this Division 5, including the names, dates of employment, dates of retirement, and reasons for retirement. The compensation of each Trustee, except for the Secretary and President, shall be fixed from time to time by the City Council and paid from the Fund. The Board will pay from the Fund the fees, charges, and expenses for consultants, actuarial services, and legal services as well as such expenses as may be necessary for the administration of the Fund, including compensation of the Secretary and President for duties they perform on behalf of the Fund.
(Ord. No. 12983, §§ 2, 3, 8-25-15), 8-19-87; Ord. No. 9778, § 1(17), 8-18-92; Ord. No. 11377, § 1, 2-4-03; Ord. No. 13318, § 6, 6-5-18; Ord. No. 14013, § 1, 8-1-23)

Sec. 2-408. Same—To hear and decide applications for pensions and benefits.

The said Board of Trustees shall hear and decide all applications for pensions and death benefits under this Article, and its decision on such applications shall be final and conclusive. The said Board shall have the power to make and enforce such reasonable rules and regulations, not inconsistent with the Article, as in its opinion may be necessary or desirable for the carrying out of its duties and shall have the authority to interpret the provisions of the Article.
(Ord. No. 12983, §§ 2, 3, 8-25-15; Ord. No. 13318, § 7, 6-5-18)

Sec. 2-409. Same—Supervision of retired, disabled, etc., employees.

Upon organization of the Board of Trustees, the Board shall assume supervision of all members of the Fire Department and Police Department who have heretofore been placed on the existing pension roll, including the ones placed thereon as the result of a disability or injuries causing disability, and said Board, on the advice of competent physicians, shall determine whether or not such members have again become able to perform duties in the Fire Department and Police Department and are eligible for reinstatement. In the event the Board of Trustees shall determine, on the advice of competent physicians, that an employee retired on disability is again able to work, then such employee shall be removed from the pension rolls and his or her disability pension discontinued.
(Priv. Acts 1949, Ch. 165, § 14; Ord. No. 8688, § 1 (11), 8-19-86; Ord. No. 9778, § 1(16), 8-18-92; Ord. No. 11377, §1, 02-04-03; Ord. No. 12983, §§ 2, 3, 8-25-15; Ord. No. 13318, § 8, 6-5-18; Ord. No. 13414, § 1, 1-8-19; Ord. No. 13530, § 1, 1-28-20)

Sec. 2-410. Disability or death benefits.

(a) *Categories of disability and applicable rules and procedures.* There are three (3) categories of disability for which disability benefits may be available:

(1) A disability from injury or illness not resulting from performance of duties, hereafter referred to as a "non-job related disability",

(2) A disability from injury or illness resulting from performance of duties, hereafter referred to as a "job related disability", and

(3) Permanent and total disability;

and rules, policies, and procedures for the investigation, adjudication, and determination of a claim for such benefits are set forth in subsection (f) of this Section.

(b) *Cause not resulting from performance of duties, a non-job related disability.*

(1) Any member of the Fire Department or Police Department with not less than three (3) years nor more than ten (10) years of active service in said department who becomes disabled while employed, but from causes arising outside of and unrelated to the course of his or her employment with said department, shall so long as he or she remains disabled be paid a monthly sum equal to thirty percent (30%) of the Average Base Salary of such member during the three (3) years of member's service which yields the highest average. The benefit of any such member with more than ten (10) years of active service shall be increased by two percent (2%) of the above defined Average Base Salary for each year's active service in the said department over ten (10) years but not to exceed sixty percent (60%) of the above defined Average Base Salary. Payment under this Section shall commence after the member's sick days, annual days, accumulated days, compensatory days, and annual leave days have been exhausted.

(2) Any member with less than three (3) years of service, who becomes disabled while employed, but from causes arising outside of the course of his or her employment with the said department, shall be refunded his or her contributions under the provisions of Section 2-413. In the event of death of any member with less than three (3) years of service, the ten thousand dollars ($10,000.00) death benefit shall be paid to his or her beneficiary and his or her contributions shall be refunded to his or her estate.

(3) If any member with more than three (3) years of active service, but less than ten (10) years of active service dies before retirement from any disability occurring while employed, but from causes arising outside of the course of his or her employment with the said department, there shall be paid to his or her beneficiary the death benefit of ten thousand dollars ($10,000.00) and to the surviving spouse an amount equal to $500.00 per month, increased by all appropriate cost of living adjustments from and after July 1, 1999 until death, subject to the conditions of this Section.

(4) If a member has more than ten (10) years of active service but less than the time required for a service retirement pension and dies before retirement from any disability occurring while employed, but from causes arising outside of the course of his or her employment with the said department, there shall be paid to his or her beneficiary a death benefit of ten thousand dollars ($10,000.00) and to the surviving spouse until death that benefit which said spouse would have been entitled to receive under Option D, Section 2-418 of this Article, subject to the conditions of this Section

(c) *Cause resulting from performance of duties, a job related disability.*

(1) Any member of the Fire Department and Police Department who, while engaged in the discharge of his or her duties, becomes disabled, he or she shall be placed on a pension and paid sixty percent (60%) of the member's Base Salary as computed over the highest three (3) years of Base Salary during the member's years of active service, regardless of the length of time served.

(2) No member may be retired on a pension under this subsection (c) until at least six (6) months after such disability was incurred.

(3) (i) If any member shall die prior to retirement from any injury suffered, or receive a disability while engaged in the performance of his or her duties resulting in death within six (6) months thereafter, and shall leave a surviving spouse, said surviving spouse shall be entitled, unless receiving benefits under Section 2-418, to receive until his or her death the benefit herein provided for a member receiving a disability benefit under this Section. Said

surviving spouse shall in no event receive a monthly benefit of less than Five Hundred Dollars ($500.00), increased by all appropriate cost of living adjustments from and after July 1, 1999.

(ii) If there be no surviving spouse, then the dependent child or children shall each receive five hundred dollars ($500.00) per month increased by all appropriate cost of living adjustments from and after July 1, 1999, during the minority, provided that the total amount payable to all of such children shall not exceed the member's maximum pension. If such deceased member is not survived by spouse or minor children, but is survived by two (2) parents solely dependent upon said member, each parent so long as he or she has no other means of support, shall receive one-half (½) of the benefits which a surviving spouse would receive under this Section. If there is only one (1) parent dependent upon such member for support, such parent shall be paid the same benefits which a surviving spouse would receive under this Section.

(4) Notwithstanding the provisions of subsection (c)(3), if any Member employed by the Fire Department or Police Department on or after April 1, 2011, is killed as a direct and proximate result of a personal and traumatic injury involving external forces sustained in the line of duty, the Member's surviving spouse will be placed on an annual pension calculated as one hundred percent (100%) of the average Base Salary paid to the Member during his or her three (3) highest-earning years of Active Service in the Chattanooga Fire or Police Department. This pension will be distributed in twelve (12) equal payments as benefits become payable each month until the death of the Member's surviving spouse. Notwithstanding the foregoing, if a member's spouse receives a federal death benefit, as determined under the Public Safety Officers' Benefits Act (generally codified at 34 U.S.C. sections 10281 - 10288) and under related regulations promulgated by the U.S. Department of Justice (codified at 28 C.F.R. sections 32.0 - 32.55 (2018)) he or she shall be entitled to the benefit described in this subsection (4).

(5) Upon the death of any member who retires under the provisions of subsection (c)(1), there shall be paid to his or her beneficiary or beneficiaries the sum of ten thousand dollars ($10,000.00).

(d) *Permanent and Total Disability, either non-job related or job related.*

(1) From and after July 1, 1999, if an active member of the Fire Department or Police Department shall become Permanently and Totally Disabled, he or she shall be placed on a pension and paid sixty-eight and seventy-five-hundredths percent (68.75%) of the member's Base Salary as computed over the highest three (3) years of Base Salary during the member's years of active service, regardless of the length of time served. Notwithstanding the foregoing, in no event shall a retired member's monthly benefit be less than Seven Hundred Fifty Dollars ($750.00).

(2) In the event that a member who was Permanently and Totally Disabled recovers to the extent that he or she is able to engage in gainful employment again, he or she must notify the Board of such change of condition and such Permanent and Total Disability retirement pension shall be discontinued. Such member may reapply for such other disability pension for which such member may be eligible.

(3) In addition to any other Permanent and Total Disability Benefit to which a member is entitled under this Section, if a member has one (1) or more minor children at the time he or she begins to receive a Permanent and Total Disability retirement pension, he or she shall receive Five Hundred Dollars ($500.00) per month, per minor child, not to exceed a total of One Thousand Dollars ($1,000.00) per month during the minority of such children.

(e) *Death benefits.*

(1) If a member dies before retirement and has reached the conditions for a service retirement pension, there shall be paid to the beneficiary of said member a death benefit of ten thousand dollars ($10,000.00) and the benefits elected under Section 2-418.

(2) If there be no surviving spouse, then the member's minor child or children shall each receive an amount equal to five hundred dollars ($500.00) per month, increased by all appropriate cost of living adjustments from and after July 1, 1999, during their minority, provided that the total amount payable to all of such children shall not exceed the member's maximum pension. If such deceased member is not survived by spouse or minor children, but is survived by two (2) parents solely dependent upon said member, each parent, so long as he or she has no other means of support, shall receive one-half (½) of the benefits which a surviving spouse would receive under this Section. If there is only one (1) parent dependent upon such member for support, such parent shall be paid the same benefits which a surviving spouse would receive under this Section.

(3) At the death, hereafter, of any retired employee of the departments of Fire and Police, who was a participant in the Fire and Police Pension Fund, and whose beneficiaries for any reason do not receive the ten thousand dollars ($10,000.00) death benefit in Section 2-411, or the monthly spouse's benefit, there shall be paid from the said Fire and Police Pension Fund to the member's Estate, whichever said benefits have not been received.

(f) *Rules, policies, and procedures for benefit claims.*

(1) A member seeking benefits under this Section 2-410 shall submit to the Board on a form to be provided by the Board an application accompanied by objective proof satisfactory to the Board of facts entitling the member to such benefits. Receipt of the application shall be recorded by the Secretary, and the applicant shall be notified five (5) days in advance, unless waived by applicant, of any hearing by the Board on his or her application.

(2) It is the applicant's burden and responsibility to prove entitlement to benefits by providing satisfactory, objective proof of disability to the Board and to cooperate fully in the Board's investigation and adjudication of the claim for benefits. Taking into consideration that each claim for benefits is unique and based on the individual circumstances and personal medical history of the claimant, the Board may request proof of disability from one (1) or more competent physicians selected by the Board, in addition to any medical information provided by the member, and otherwise investigate the claim for benefits as the Board determines is reasonable under the circumstances.

(3) At its sole discretion and from time to time, such as, but not limited to, prior to a member's being retired on a pension, the Board may require satisfactory, objective proof of continued disability and require up-to-date, current medical examinations of the disabled member.

(4) No member shall be given disability benefits under this Section if the Board finds that said disability could probably be successfully corrected by competent medical treatment, and said member refuses to cooperate or otherwise fails or refuses to be so treated.

(5) The term "disabled" or "disability" in this Section shall, for purposes of a non-job related disability, mean a medically determinable impairment proven by satisfactory, objective proof, which, in the sole opinion of the Board, prevents such member from meeting the normal and reasonable demands of his or her regularly assigned job or any other job which the City, or officials of the Fire Department or Police Department, may offer said member for which he or she is reasonably qualified by experience, training, or education. For purposes of a job related disability, the term "disabled" or "disability" shall mean a medically determinable impairment proven by satisfactory, objective proof, which in the sole opinion of the Board prevents such

member from performing duties in the Fire or Police Department. Notwithstanding the foregoing, if a member is granted a disability for a mental health disorder, including but not limited to Post-Traumatic Stress Disorder, such member shall be removed from the pension rolls if such member goes to work, either on a paid or volunteer basis, as a paramedic, emergency medical technician, rescuer or in any other position referred to as a "first responder".

(6) The term "Permanently and Totally Disabled" or "Permanent and Total Disability" in this Section shall have the same meaning as found in Section 2-419(8).

(7) Any member retired on a pension because of a disability, in the event of recovery to the extent that he or she is again able to perform any duty required of him or her by the Fire Department or Police Department, shall be removed from the pension roll; if such member refuses to cooperate with the Board in its investigation of the disability, the Board shall have the right to suspend his or her pension until such time as he or she cooperates with the Board and provides satisfactory proof of continued disability.

(8) A member will not be eligible for disability benefits nor the member's spouse eligible for periodic death benefits under this Section if disability or death is a result of any of the following:

(i) Excessive and habitual use by the member of drugs, intoxicating liquors, or narcotics unless, at the time of disability or death, such member is actively and continuously undergoing treatment for substance abuse at an approved clinic or treatment center for drug addicts and alcoholics;

(ii) Injury or disease sustained by the member while willfully and illegally participating in acts of violence, riots, or civil insurrections, or while committing an unlawful act;

(iii) Except as hereinafter provided, injury or disease sustained by the Pension Fund member while serving in any Armed Forces or as the result of warfare. Notwithstanding the foregoing, in the case of a death or disability occurring on or after January 1, 2007, if a member dies while performing qualified military service (as defined in Section 414(u) of the Internal Revenue Code of 1986, as amended), the survivors of the member are entitled to any additional benefits (other than benefit accruals relating to the period of qualified military service) provided under the Fund as if the member had resumed and then terminated employment on account of death;

(iv) Injury or disease sustained by the member after his or her employment has been terminated or while the member has been on leave without pay for a period exceeding forty-five (45) consecutive days; or

(v) Intentional, self-inflicted injury.

If a member is not qualified for benefits under this Section, he or she shall receive a refund of his or her contributions. In the event of the death of a member, when the death is a direct result of any of the above stipulations, his or her contributions shall be refunded to his or her estate.
(Ord. No. 12983, §§ 2, 3, 8-25-15), 8-18-92; Ord. No. 9785, 9-8-92; Ord. No. 11012, §§ 1(2)—(4), 5-9-00; Ord. No. 11377, § 1, 2-4-03; Ord. No. 12674, § 1, 12-11-12; Ord. No. 12813, § 2, 3-11-14; Ord. No. 13024, § 2, 1-26-16; Ord. No. 13414, § 2, 1-8-19; Ord. No. 13530, § 2, 1-28-20)

Sec. 2-411. Service retirement pension; maximum pension benefits; death benefit.

(a) Minimum Age and Service Requirements for Service Retirement Pension.

(1) Any Member who has completed ten (10) or more years of Active Service with the Chattanooga Fire or Police Department as of the effective date of this ordinance may, at his or her election, retire upon completing twenty-five (25) years of Active Service with the Chattanooga Fire or

Police Department and, upon notifying the Board of his or her election pursuant to this subsection, will be entitled to receive the annual Service Retirement Pension provided in subsection (b) to be distributed in twelve (12) equal payments as benefits become payable each month.

(2) Any Member who has completed fewer than ten (10) years of Active Service with the Chattanooga Fire or Police Department as of the effective date of this ordinance, including, for purposes of this subsection, any person who is a fire or police academy cadet as of the effective date of this ordinance and subsequently becomes a Member, may, at his or her election, retire upon (i) completing twenty-five (25) years of Active Service with the Chattanooga Fire or Police Department and attaining the age of fifty (50) years or (ii) completing twenty-eight (28) years of Active Service with the Chattanooga Fire or Police Department and, upon notifying the Board of his or her election pursuant to (i) or (ii) of this subsection, will be entitled to receive the annual Service Retirement Pension provided in subsection (b) to be distributed in twelve (12) equal payments as benefits become payable each month.

(3) Any Member hired by the Chattanooga Fire or Police Department after the effective date of this ordinance (except current fire and police academy cadets covered under subsection (a)(2)) may, at his or her election, retire upon (i) completing twenty-five (25) years of Active Service with the Chattanooga Fire or Police Department and attaining the age of fifty-five (55) years or (ii) completing thirty (30) years of Active Service with the Chattanooga Fire or Police Department and, upon notifying the Board of his or her election pursuant to (i) or (ii) of this subsection, will be entitled to receive an annual Service Retirement Pension. The total annual pension for the Member will be an amount equal to two-and-one-half percent (2½%) of the average Base Salary paid to the Member during his or her three (3) highest-earning years of Active Service in the Chattanooga Fire or Police Department multiplied by the Member's years of Active Service up to a maximum annual payment equal to no more than seventy-five percent (75%) of the average Base Salary paid to the Member during his or her three (3) highest-earning years of Active Service in the Chattanooga Fire or Police Department. The annual pension will be distributed in twelve (12) equal payments as benefits become payable each month.

(4) Notwithstanding the foregoing, the age and service requirements of paragraphs (1), (2), and (3) of this subsection (a) must comply with the rules and regulations of the Internal Revenue Service relating to normal retirement as they may change from time to time. If the age and service requirements do not comply with these rules and regulations, then they will change automatically to comply.

(b) From and after July 1, 1999, a member of the Fund who was employed in the Fire Department or Police Department may at his or her election retire upon completion of twenty-five (25) years of active service in the Fire or Police Departments, and upon notifying the Board in writing of such election, receive an annual Service Retirement Pension to be distributed in twelve (12) equal payments as benefits become payable each month in an amount equal to two and three-quarters percent (2¾%) of the average pay for such member during the highest three (3) years that such member is employed in the Fire or Police Department multiplied by said member's years of active service up to twenty-five (25) years of active service plus one and one-quarter percent (1¼%) of the aforesaid average pay for each year of active service between twenty-five (25) and thirty (30) years. Such benefit shall be based upon such member's Average Base Salary.

(c) Upon the death of any member employed on November 3, 1992, who is retired under the provisions of this Section, or upon the death of such member prior to retirement, but eligible for benefits under this Section, there shall be paid to said member's beneficiary a death benefit of ten thousand dollars ($10,000.00), and the benefits under Section 2-418, and the surviving spouse shall be paid the sum of five hundred dollars ($500.00) per month, increased by all appropriate cost of living adjustments under this Division from and after July 1, 1999, until death if said spouse is not a beneficiary under one of the options

listed in Section 2-418. Effective January 1, 2013, upon the death of such member who is eligible for benefits under this Section, there shall be paid to said member's beneficiary a death benefit of ten thousand dollars ($10,000.00), and the benefits, if any, elected by the member under Section 2-418. If the member has not elected any option prior to his or her death, a benefit shall be payable to the deceased's surviving spouse, if any, as though he or she had elected Option D., Section 2-418. Notwithstanding the foregoing, if a member who is employed on November 3, 1992, but is not eligible for benefits under this Section on January 1, 2013, or is employed after November 3, 1992, shall die before retirement and after reaching the conditions to be eligible for benefits under this Section or shall die after retirement, there shall be paid to his or her beneficiary or beneficiaries the benefit of ten thousand dollars ($10,000.00) and such benefits elected under Section 2-418.

(d) The City Council, City of Chattanooga, in its discretion, only after a recommendation of the Board of Trustees of the Fire and Police Pension Fund, upon advice by the Mayor, may, by ordinance, passed on three (3) separate readings, amend any section of the Private Acts of 1949, as amended, or this Article XIII; provided that such amendment is not inconsistent with sound actuarial principles, methods, and actuarial assumptions and further provided that such amendment shall not in any way decrease any vested financial benefits accrued by any participant or beneficiary of the Fire and Police Pension Fund.

(e) Those benefits payable to participants retired prior to July 1, 1999, or beneficiaries of those members retired prior to July 1, 1999, shall continue under the provisions in effect at the time such benefit was granted except where specifically amended or modified to include such participants or beneficiaries. No participant or beneficiary vested as of July 1, 1999, will receive an amount that would be less than the amount payable to a participant or beneficiary with equivalent service retiring as of July 1, 1999.

(f) For years beginning after December 31, 2008, (i) a member receiving a differential wage payment, as defined by Section 3401(h)(2) of the Internal Revenue Code of 1986, as amended, shall be treated as an employee of the City of Chattanooga, (ii) the differential wage payment shall be treated as compensation, and (iii) the Pension Fund shall not be treated as failing to meet the requirements of any provision described in Section 414(u)(1)(C) of the Internal Revenue Code of 1986, as amended, by reason of any contribution or benefit which is based on the differential wage payment.
(Ord. No. 12983, §§ 2, 3, 8-25-15), 8-18-92; Ord. No. 11012, §§ 1(2), 1(5)—(8), 5-9-00; Ord. No. 11377, § 1, 2-4-03; Ord. No. 12674, §§ 2, 3, 12-11-12; Ord. No. 12813, § 3, 3-11-14; Ord. No. 13318, § 9, 6-5-18)

Sec. 2-412. Reserved.

Editor's note—Ord. No. 13414, § 4, adopted Jan. 8, 2019, repealed § 2-412, which pertained to disability or death benefits from cause resulting from performance of duty and derived from Ord. No. 12983, §§ 2, 3, 8-25-15), 8-18-92; Ord. No. 10747, § 1(1), 8-18-98; Ord. No. 11012, §§ 1(3), 1(9), 1(10), 5-9-00; Ord. No. 11377, § 1, 2-4-03; Ord. No. 12813, § 4, 3-11-14.

Sec. 2-413. Refund to member terminating employment.

Except as otherwise provided in the Uniform Services Employment and Re-Employment Rights Act of 1994, if the employment of a member is terminated for any reason, or if the member is on leave without pay for a period in excess of ninety (90) consecutive days, said member shall be entitled to receive at the time of said termination or leave one hundred percent (100%) of whatever sums he or she contributed to the Pension Fund. If such member is subsequently reemployed in the Fire or Police Department, he or she may at the time of reemployment reimburse the Pension Fund to the full extent of the amount he or she received from the Pension Fund upon said termination with interest compounded annually and computed at the rate utilized in the actuarial evaluation of the Pension Fund during their periods of absence from the date of said withdrawal to the date of reemployment. Any reimbursement of amounts received upon prior

termination shall be made by the date of reemployment and may not be reimbursed thereafter. If a member who is subsequently reemployed does not reimburse the Pension Fund, such member shall be treated as a newly hired member for purposes of the Pension Fund.
(Ord. No. 12983, §§ 2, 3, 8-25-15), 8-18-92; Ord. No. 11377, § 1, 2-4-03; Ord. No. 12674, § 4, 12-11-12)

Sec. 2-414. Benefits exempt from debts of employee, may not be garnished, etc.

The Pension Fund, either before or after its distribution by the trustee to disabled or retired employees of said fire and police department, and their widows, or the beneficiary of any deceased employee, shall be exempt from the debts of such employee and shall not be assignable nor subject to attachment, garnishment, execution or other legal process, but the same shall be received by such employee or beneficiary, free from debts, judgments and demands of such employee or beneficiary.

Notwithstanding the foregoing, effective July 1, 2016, the language of this Section 2-414 shall not apply to an "alternate payee" under a "qualified domestic relations order" as defined in Section 414(p) of the Code. The Board shall establish a written procedure to determine the qualified status of domestic relations orders and to administer distributions under such qualified domestic relations orders.
(Ord. No. 12983, §§ 2, 3, 8-25-15), 8-18-92; Ord. No. 11377, § 1, 2-4-03; Ord. No. 13239, § 4, 11-14-17)

Sec. 2-415. Termination of employment after ten (10) years of service; vesting; death after termination.

(a) Except as otherwise provided in the Uniform Services Employment and Re-Employment Rights Act of 1994, a member who has completed ten (10) or more years of active service at the time of his or her termination of employment, or at the time he or she has been on leave without pay for a period in excess of ninety (90) consecutive days, shall have the right to either (1) or (2) as follows:

(1) A right to receive a one hundred percent (100%) refund of whatever sums he or she contributed to the Pension Fund. If such member is subsequently reemployed in the Fire or Police Department, he or she may at the time of reemployment reimburse the Pension Fund to the full extent of the amount he or she received from the Pension Fund upon said termination with interest compounded annually and computed at the rate utilized in the actuarial valuation of the Pension Fund from the date of withdrawal to the date of reemployment. Any reimbursement of amounts received upon prior termination shall be made by the date of reemployment and may not be reimbursed thereafter. If a member who is subsequently reemployed does not reimburse the Pension Fund, such member shall be treated as a newly hired member for purposes of the Pension Fund.

(2) A right to leave his or her contribution in the Pension Fund and be eligible to receive after reaching fifty-five (55) years of age a monthly deferred vested retirement benefit equal to two and four-tenths percent ($2^4/_{10}$%) of his or her Average Base Salary as computed over the highest three (3) years of pay during the member's years of service for each year of active service, subject to a maximum of twenty-five (25) years.

(b) If the death of such member occurs prior to commencement of the payment of any benefits under this Section, a refund of whatever sums such member contributed to the Pension Fund shall be paid to the member's estate, and his or her beneficiary shall be paid a death benefit sum of ten thousand dollars ($10,000.00). If death occurs following the commencement of eligibility to receive benefits under this Section, benefits shall be payable according to the terms elected under Section 2-418.

(c) (1) If all or any portion of the distribution payable to a member or beneficiary under this section or any other section shall remain unpaid because the board has been unable to ascertain the whereabouts of the member or beneficiary after sending a registered letter, return receipt requested, to the last known address of such member or beneficiary, the amount so distributable

may be forfeited and used to reduce the cost of the fund. Notwithstanding the foregoing, if a claim is subsequently made by the member or beneficiary for the forfeited benefit, and such claim is determined to be valid by the board, in its sole discretion, such benefit shall be reinstated without any other actuarial adjustment.

(2) Claims for reinstated benefit payments shall only be payable to the member or beneficiary to whom the payment was originally payable. Eligibility for benefits ends with the death of the member or beneficiary.

(Ord. No. 12983, §§ 2, 3, 8-25-15), 8-19-86; Ord. No. 9778, § 8, 8-18-92; Ord. No. 9839, § 3, 2-9-93; Ord. No. 11377, § 1, 2-4-03; Ord. No. 12674, § 5, 12-11-12; Ord. No. 13024, § 1, 1-26-16)

Sec. 2-416. Reserved.

Editor's note—Ord. No. 13414, § 5, adopted Jan. 8, 2019, repealed § 2-416, which pertained to permanent and total disability and derived from Ord. No. 12983, §§ 2, 3, 8-25-15.

Sec. 2-417. Cost of living adjustments to pension benefits.

(a) The annual pension to a Member retired before the effective date of this ordinance, or to any qualified survivor or beneficiary of such Member will be increased in the manner described in subsection (b) or (c), whichever is applicable, each January 1 after the twelfth monthly benefit payable.

(b) Any time the Fund is less than eighty percent (80%) funded on a market value basis as determined by the Fund's most recently completed annual actuarial valuation and review, the total amount payable from the Fund to eligible recipients will be increased effective each January 1, beginning as soon as practicable after January 1, 2015, by one and one-half percent (1½%). This increase will be allocated among eligible retired Members receiving annual pensions and the qualified survivors or beneficiaries of such Members by the Board, after consultation with the Fund's actuary, to provide higher cost of living adjustments to those receiving lower monthly benefits payable. In no event, however, will any annual pension be increased by greater than two percent (2%) or less than one percent (1%) of the monthly benefit payable.

(c) Any time the Fund is at least eighty percent (80%) funded on a market value basis as determined by the Fund's most recently completed annual actuarial valuation and review, all cost of living adjustments beginning the following January 1 will correspond to the Consumer Price Index up to a maximum cost of living adjustment of three percent (3%), provided that the Fund, inclusive of this change, would not be less than eighty percent (80%) funded on a market value basis.

(d) The cost of living adjustment for the annual pension to a Member retiring on or after the effective date of this ordinance, or to any qualified survivor or beneficiary of such Member, will be as follows:

(1) The annual pension to a Member retiring on or after the effective date of this ordinance, or to any qualified survivor or beneficiary of such Member, will not be increased until the January 1 after the thirty-sixth (36th) monthly benefit payable, at which time the annual pension will be increased in the manner described in subsection (b) or (c), whichever is applicable, except as provided in subsection (d)(2).

(2) If after the twelfth monthly benefit payable but before the thirty-sixth (36th) monthly benefit payable to a Member retiring on or after the effective date of this ordinance, or to any qualified survivor or beneficiary of such Member, the Fund is at least seventy percent (70%) funded on a market value basis as determined by the Fund's most recently completed annual actuarial valuation and review, the annual pension will be increased, beginning the following January 1, in the manner described in subsection (b) or (c), whichever is applicable, so long as the increase would not cause the Fund to fall below seventy percent (70%) funded on a market value basis. If

the increase is applied, but the Fund subsequently falls below seventy percent (70%) funded on a market value basis before the thirty-sixth (36th) monthly benefit payable, then the increase for these Members will be discontinued until the January 1 following the first thirty-sixth (36th) monthly benefit payable.

(e) For individuals eligible for cost of living adjustments effective January 1, 2015, and January 1, 2016, such cost of living adjustments will be dividend cost of living adjustments and will not be compounded or placed into the base pension amount in subsequent years. Nothing in this Section 2-417 should be construed to affect benefits payable as of the effective date of this ordinance.
(Ord. No. 12983, §§ 2, 3, 8-25-15), 8-18-92; Ord. No. 11012, § 1(11), 5-9-00; Ord. No. 11377, § 1, 2-4-03; Ord. No. 12813, § 6, 3-11-14)

Sec. 2-418. Optional retirement benefits.

1. When a member reaches the conditions for retirement benefits under Section 2-411; or qualifies to reach the conditions for retirement benefits under Section 2-411 and qualified for retirement benefits under Section 2-410; or is eligible to commence receiving retirement benefits under Section 2-415, he or she may elect to have the pension benefits under said Sections converted into an optional retirement benefit which is the actuarial equivalent of such benefit based upon mortality basis approved from time to time by the Board, and the age of the member and of the beneficiary as of the date the member becomes eligible to exercise the election.

The optional retirement benefits may take one (1) of the forms listed below and for members who become employed after November 3, 1992 there shall be paid to the beneficiary the option selected by such member under this Section; but for a member who was an employee on November 3, 1992, and eligible to retire on or before December 31, 2012, the surviving spouse shall receive the sum of seven hundred fifty dollars ($750.00), increased by all appropriate cost of living adjustments under this Division, if the said member has not designated the spouse as a beneficiary under one (1) of the option forms listed below:

OPTION A: 120 Payments Certain and Life Option

A decreased retirement benefit payable for life with the first one hundred twenty (120) payments guaranteed. Any guaranteed payments due after the death of the retired participant shall be payable to the designated beneficiary, if any who survives the retired participant, or the estate of the retired participant if there is no surviving designated beneficiary.

OPTION B: Joint and Survivor Option

A decreased retirement benefit payable to the retired participant for life shall continue after his or her death to their surviving beneficiary at one hundred percent (100%) of that payable to the retired participant.

OPTION C: Modified Joint and Survivor Option

A decreased retirement benefit payable to the retired participant for life which shall continue after his or her death to their surviving beneficiary at seventy-five percent (75%) of that payable to the retired participant.

OPTION D: Modified Joint and Survivor Option

A decreased retirement benefit payable to the retired participant for life which shall continue after his or her death to their surviving beneficiary at fifty percent (50%) of that payable to the retired participant.

OPTION E: Modification of Option B

A decreased retirement benefit, subject to an actuarial reduction, payable to the retired participant for life shall continue after his or her death to their surviving beneficiary at one hundred percent

(100%) of that payable to the retired participant provided, that if such designated beneficiary shall predecease the retired participant, the retirement benefit payable to the participant after death of the designated beneficiary, shall be equal to the retirement benefit, which would have been payable had the member not elected an option.

OPTION F: Modification of Option C

A decreased retirement benefit, subject to an actuarial reduction, payable to the retired participant for life shall continue after his or her death to their surviving beneficiary at seventy-five percent (75%) of that payable to the retired participant provided, that if such designated beneficiary shall predecease the retired participant, the retirement benefit payable to the participant after death of the designated beneficiary, shall be equal to the retirement benefit, which would have been payable had the member not elected an option.

OPTION G: Modification of Option D

A decreased retirement benefit, subject to an actuarial reduction, payable to the retired participant for life shall continue after his or her death to their surviving beneficiary at fifty percent (50%) of that payable to the retired participant provided, that if such designated beneficiary shall predecease the retired participant, the retirement benefit payable to the participant after death of the designated beneficiary, shall be equal to the retirement benefit, which would have been payable had the member not elected an option.

2. Application for any optional retirement benefit shall be in writing, duly executed, and filed with the Board. Such application shall contain all information required by the Board, including such proofs of age as are deemed necessary by the Board. A retirement option selected at the time of eligibility may only be changed by written notice of the new election filed with or prior to his or her application for retirement and subject to such requirement as the Board may require.

3. If an active member dies after he or she has reached the aforesaid conditions for retirement benefits, any option they may have elected, in lieu of their otherwise retirement benefit, shall be payable as though he or she had been entitled to have such optional benefit commence on their date of death.

4. In the event of a divorce of a member who retired under an optional retirement plan, where the spouse is the designated beneficiary, the beneficiary may be cancelled upon the written request of the member and proper documentation, which shall include the final decree and marital dissolution agreement of the parties; provided, that such cancellation is not in conflict with the decree or marital dissolution agreement. The retirement allowance payable to the retiree after the cancellation of the designated beneficiary shall not be affected by such cancellation.
(Ord. No. 12983, §§ 2, 3, 8-25-15), 8-18-92; Ord. No. 10463, §§ 1(3), (4), 8-20-96; Ord. No. 11377, § 1, 2-4-03; Ord. No. 12813, § 7, 3-11-14; Ord. No. 13530, § 3, 1-28-20)

Sec. 2-419. Definition of terms.

1. The term "Member" shall mean an employee of the Chattanooga Fire or Police Department who is a sworn Firefighter or Police Officer. An employee hired into the said department to be a sworn Firefighter or Police Officer shall not become a member until he or she completes all training required for the position and is sworn, nor shall he or she be eligible for participation in the General Pension Plan.

2. The term "Board" shall mean the Board of Trustees of the Chattanooga Fire and Police Pension Fund.

3. The term "Fund" shall mean the Chattanooga Fire and Police Pension Fund, formerly called the Firemen's and Policemen's Insurance and Pension Fund, created by Chapter 165 of the Private Acts of 1949, as amended.

4. The term "Average Base Salary" or "Base Salary" shall mean the regular wages or salary paid on a monthly basis, but shall not include overtime pay or any supplements, including but not limited to supplements for years of service or education.

A. Notwithstanding any other provision of law, the amount of Average Base Salary or Base Salary used to determine the benefits payable under the Fund must not exceed the amount of compensation permitted to be taken into account under Code Section 401(a)(17) as such existed on January 1, 1986.

B. Average Base Salary or Base Salary, for purposes of the limitations under Code Sections 415 and 401(a)(17), the computation of benefits payable from the Fund and contributions, shall include any elective deferral, as defined under Code Section 402(g)(3), and any amount that is contributed or deferred by the City of Chattanooga at the election of a member and which, by reason of Sections 125 and 457 of the Code, is not includible in his gross income.

The annual Base Salary described in Subsection B. above, taken into account in determining benefit accruals in any year beginning after December 31, 2001 shall not exceed the limit set out in Code Section 401(a)(17). For this purpose, annual compensation means compensation during the calendar year or such other consecutive twelve (12) month period over which compensation is determined under the Fund (the "determination period"). The limit on annual compensation shall be adjusted for cost-of-living increases in accordance with Code Section 401(a)(17)(B). The cost-of-living adjustment in effect for a calendar year applies to annual compensation for the determination period that begins with or within such calendar year.

5. The term "Active Service" shall mean that period of time after the date of permanent employment as a sworn officer with POST certification in the Chattanooga Police Department or a sworn officer with permanent employment in the Chattanooga Fire Department, that the member serves and is paid from the payroll of the said departments.

6. The term "Service Retirement Pension" means the annual pension that a Member who has elected to retire upon meeting the applicable minimum age and service requirements of Section 2-411(a) is entitled to receive and which will be distributed in twelve (12) monthly benefits payable subject to adjustment as provided in Sections 2-418, 2-422, and 2-423, if applicable.

7. The term "Surviving Spouse" shall mean the spouse who is married to a member at the member's death and who has been continuously married to the member for a period of at least eighteen (18) months prior to the date of the member's death. Effective April 1, 2013, the term "Surviving Spouse" shall mean any spouse who meets the requirements of the preceding sentence and who is married to a member on April 1, 2013, or, the spouse who is married to a member at the member's retirement and who has been continuously married to the member for a period of at least eighteen (18) months prior to the date of the member's death and who is married to the member upon his or her death.

8. The term "Permanent and Total Disability" or "Permanently and Totally Disabled" shall mean the medically determinable consequences of a catastrophic injury or illness that permanently prevents a member from performing any gainful work.

9. The term "Consumer Price Index" means the percent change in the Chained Consumer Price Index for All Urban Consumers (C-CPI-U) as reported by the Bureau of Labor Statistics of the United States Department of Labor for the twelve (12) months ending the previous September.

10. The term "Code" means the Internal Revenue Code of 1986, as amended.
(Ord. No. 12983, §§ 2, 3, 8-25-15; Ord. No. 13024, §§ 3, 4, 1-26-16; Ord. No. 13318, § 10, 6-5-18)

Sec. 2-420. City court costs for benefit of Fire and Police Pension Fund.

A sum determined by the City of Chattanooga, but in no event less than five dollars ($5.00) shall be added as and in the nature of court costs to the cost incurred in the City Court of the City of Chattanooga on all forfeitures of fines or monies for or on conviction for violation of any city ordinances and that said increase in court costs for the City Court of the City of Chattanooga be collected by the clerk of said court and paid over to the treasurer of the City of Chattanooga who will account for said funds and pay same over to the Custodian Bank of the Fire and Police Pension Fund together with all other monies properly collected for credit to said Fund as herein before set out.
(Ord. No. 12983, §§ 2, 3, 8-25-15; Ord. No. 13318, § 11, 6-5-18; Ord. No. 13414, § 6, 1-8-19)

Sec. 2-421. Credited service under general pension plan.

A participant in the General Pension Plan who has transferred employment from the provisions of the Fire and Police Pension Plan shall have the right to have his service under the Fire and Police Pension Plan vested if it amounts to five (5) years or more and said participant has more than five (5) years credited service under the General Pension Plan. Such employee shall be entitled to receive at age fifty-five (55), if not employed by the City of Chattanooga, ten percent (10%) of the pension he or she could have received if employed for twenty-five (25) years that was paid at the time of transfer, for five (5) years of service, and if any employee transfers after serving more than five (5) years and less than ten (10) years, the vested percent of said pension paid at the time of transfer shall be increased by three percent (3%) for each additional year of service up to ten (10) years of service.
(Ord. No. 12983, §§ 2, 3, 8-25-15)(a), 8-19-86; Ord. No. 11377, § 1, 2-4-03)

Sec. 2-422. Deferred Retirement Option Provision.

(a) Only Members who have completed at least twenty-four (24) years of Active Service with the Chattanooga Fire Department or Police Department as of the effective date of this ordinance and filed a written election with the Board on or before December 31, 2008, agreeing to contribute an additional one percent (1%) of their Average Base Salary to the Fund will be eligible for the Deferred Retirement Option Provision (DROP) described in this Section 2-422 so long as the Member complies with the contribution requirements of Section 2-402.

(b) From and after July 1, 1999, a member of the Fire Department or Police Department with more than twenty-five (25) years of active service, but no more than thirty (30) years of active service, may elect the Deferred Retirement Option Provision (DROP) at the time of retirement, to cover a retroactive period not to exceed thirty-six (36) months.

(c) A member shall elect to take the DROP by completing a written form provided by the Board of Trustees. If a member elects to take the DROP, his or her Service Retirement Pension shall be adjusted as follows: Upon retirement, the eligible member's Service Retirement Pension shall be calculated as provided in Section 2-411 above, and further adjusted as provided in Section 2-418, if applicable, except that, for purposes of the calculation under Section 2-411, the member's active service shall be reduced by the number of months elected by the member hereunder. The number of months elected by the member hereunder shall not exceed the lesser of: (A) the number of months of active service accumulated by the member beginning on the date the member attains twenty-five (25) years of active service and ending on the member's actual retirement date; and (B) thirty-six (36) months.

(d) The member's monthly Service Retirement Pension, calculated in accordance with the provisions of subsection (c), above, shall be added together with an amount that is equal to the average of the member's monthly employee assessment, required by Section 2-402, above, for the thirty-six (36) month period immediately prior to the member's retirement. The resulting sum shall then be multiplied by the number of

months elected by the member pursuant to subsection (c), above. The resulting product shall be credited with interest at seven percent (7%) annually, compounded monthly, for the same number of months. The total amount so derived shall constitute the DROP benefit, which shall be paid in a single lump sum.

(e) The DROP payment shall be paid as soon as practicable after the retirement of the member.

(f) A member's right to participate in the DROP shall not be vested until the member retires and elects to take the DROP. The DROP may be discontinued or modified at any time.
(Ord. No. 12983, §§ 2, 3, 8-25-15; Ord. No. 13318, § 12, 6-5-18)

Sec. 2-423. Modified Deferred Retirement Option Provision.

(a) Members who do not meet the requirements of Section 2-422(a) are eligible only for the DROP described in this Section 2-423. A Member may elect to receive, and may receive, only one (1) DROP. Any Member not eligible for the DROP described in Section 2-422 who, as of the effective date of this ordinance, filed a written election with the Board on or before December 31, 2008, agreeing to contribute an additional one percent (1%) of their Average Base Salary to the Fund will have the total amount of their additional one percent (1%) contributions refunded to them as soon as practicable after the effective date of this ordinance.

(b) Beginning on the effective date of this ordinance, a Member of the Chattanooga Fire Department or Police Department currently employed in such capacity with the City who serves at least twenty-five (25) years of Active Service, but no more than thirty-three (33) years of Active Service (the DROP Period), may elect to receive the DROP described in this Section 2-423. Any Member hired by the Chattanooga Fire or Police Department after the effective date of this ordinance who reaches the age and service requirement for a normal retirement as noted in section 2-411(a)(3), but has achieved no more than thirty-three (33) years of Active Service (the DROP Period), may elect to receive the DROP described in this Section 2-423. The Service Retirement Pension for a Member who has elected to receive the DROP described in this Section 2-423 will be adjusted as follows: Upon retiring and providing written notice of retirement to the Board, the Member's Service Retirement Pension will be calculated as provided in Section 2-411, and further adjusted as provided in Section 2-418, if applicable, except that, for purposes of the calculation under Section 2-411, the Member's Active Service will be reduced by the number of months elected by the Member on his or her DROP election form. The number of months elected by the Member may not exceed

the lesser of (i) the number of months of Active Service accumulated by the Member beginning on the date the Member completes twenty-five (25) years of Active Service and ending on the Member's actual retirement date or (ii) thirty-six (36) months.

(c) The DROP will be calculated by multiplying the number of months elected by the Member as provided in subsection (b) by the Member's Average Base Salary at the time the Member first becomes eligible to elect to receive the DROP as provided in subsection (b). The resulting dollar amount will be paid, in a single lump sum, from the Fund as soon as practicable after the Member's retirement. No cost of living adjustment or interest will be applied to or earned by the DROP payment.

(d) To elect to receive the DROP described in this Section 2-423, an eligible Member must complete a written election form provided by the Board and file it with the Board during the DROP Period. The right of a Member who elects to receive the DROP described in this Section 2-423 will not accrue or vest until the Member retires.

(e) A member's right to participate in the DROP shall not be vested until the member retires and elects to take the DROP. The DROP may be discontinued or modified at any time.
(Ord. No. 12983, §§ 2, 3, 8-25-15)

Sec. 2-424. Actuarial and Experience Study Review.

(a) Immediately upon the effective date of this ordinance and once every five (5) years thereafter, the Board will commission a full actuarial study of the financial impact and cost neutrality of the DROPs on the Fund. The study will be performed by a third party actuary (an actuary or actuarial firm holding membership in the Academy of American Actuaries that does not serve as actuary for either the Board or the Fund), which will prepare a report of the study and its findings. The study and report will be submitted to the Mayor, the City Council, and the Board and will include an assessment of whether the DROP provided for in Section 2-423 is cost neutral to the Fund. The first report required by this subsection (a) is due as soon as practicable after the effective date of this ordinance. In the event that a report indicates that the DROP provided for in Section 2-423 is not cost neutral to the Fund, the Board will modify the DROP to ensure its cost neutrality to the Fund.

(b) The Board will submit to the Mayor and City Council quarterly performance evaluations of the Fund.
(Ord. No. 12983, §§ 2, 3, 8-25-15)

Sec. 2-425. Compliance with requirements of Internal Revenue Code.

The following provisions are intended to cause the Fund to comply with the requirements of the Internal Revenue Code of 1986, as amended, and the regulations thereunder.

A. Exclusive benefit to employees. All assets in the Fund must be used exclusively for the benefit of members or their beneficiaries or to defray the reasonable expenses of administration of the Fund.

B. Actuarial methods. In establishing the liabilities under the Fund and contributions thereto, the enrolled actuary will use such methods and assumptions as will reasonably reflect the cost of the benefits. The assets of the Fund are to be valued on the last day of the year (or on any other date determined by the Administrator) using any reasonable method of valuation that takes into account fair market value pursuant to regulations. There must be an actuarial valuation of the Fund at least once every year.

C. Mandatory commencement of benefits. Notwithstanding any provision of the Fund to the contrary, the Fund will begin benefit payments to a member by the Required Beginning Date, whether or not he applies for benefits. The "Required Beginning Date" is April 1 of the calendar year following the calendar year in which the member attains age seventy and one-half (70 ½).

D. Claims procedure. The Board shall make all determinations as to the right of any person to a benefit. Any denial by the Board of a claim for benefits under the Fund by a member or his beneficiary shall be stated in writing by the Board and delivered or mailed to the member or his beneficiary, and such notice shall set forth the specific reasons for the denial, reference pertinent Fund provisions, describe any additional information needed and the steps to be taken to submit the claim for review, all written to the best of the Board's ability in a manner that may be understood without legal or actuarial counsel. Should the member or his beneficiary receive no response to a claim for benefits within ninety (90) days of making the claim, it shall be deemed to be denied and the member or his beneficiary may proceed to have the claim reviewed. The claimant may, within sixty (60) days after receiving such denial notice, request a repeal of the denial in writing, submit issues and comments, and may review pertinent documents. The Board shall reach a decision as to the claimant's appeal not later than sixty (60) days after receiving the request for review.

E. Maximum limitation.

a. Aggregate limits. For any limitation year the annual benefit cannot exceed the limitations set forth under Code Section 415(b) and the regulations thereunder, as applicable to a governmental plan (as defined in Code Section 414(d)), as indexed in accordance with Code Section 415(d), which are hereby incorporated by reference, including the definition of compensation under Treas. Reg. Section 1.415(c)-2(d)(2). The definition of compensation shall include any differential wage payments made after December 31, 2008. The limitation year shall be the calendar year.

If the Fund must be aggregated with another plan to determine the effect of Code Section 415 on a member's annual benefit, and if the benefit must be reduced to comply with Code Section 415, then such reduction shall be made pro rata between the two (2) plans, in proportion to the member's credited service in each plan.

b. Definition. The member's accrued benefit shall not exceed the maximum permissible benefit, as defined below.

1. Defined benefit dollar limitation. The "defined benefit dollar limitation" is one hundred sixty thousand dollars ($160,000.00), as adjusted, effective January 1 of each year, under Code Section 415(d) in such manner as the Secretary of the Treasury shall prescribe, and payable in the form of a straight life annuity. A limitation as adjusted under Code Section 415(d) will apply to calendar years ending with or within the calendar year for which the adjustment applies.

2. Maximum permissible benefit. The "maximum permissible benefit" is the defined benefit dollar limitation, adjusted where required, as provided in subparagraphs (a), (b) and (c) below.

(a) Fewer than ten (10) years of participation. If the member has fewer than ten (10) years of participation in the Fund, the defined benefit dollar limitation shall be multiplied by a fraction, the numerator of which is the number of years (or part thereof) of participation in the Fund and the denominator of which is ten (10).

(b) Benefits beginning after age sixty-five (65). If the benefit of a member begins after the member attains age sixty-five (65), the defined benefit dollar limitation applicable to the member at the later age is the annual benefit payable in the form of a straight life annuity beginning at the later age that is actuarially equivalent to the defined benefit dollar limitation applicable to the member at age sixty-five (65) (adjusted under subparagraph (a) above, if required).

(c) Benefits not payable as a straight life annuity. Where a benefit from the Fund is payable in a form other than a straight life annuity, the benefit shall be adjusted to an actuarially equivalent straight life annuity that begins at the same time as such other form of benefit.

For purposes of subparagraphs (a), (b), and (c) above, the determination of actuarial equivalent shall be made in accordance with the applicable provision of Code Section 415(b)(2)(E) and related regulations and rulings.

F. Qualified military service. Notwithstanding any provision of this Fund to the contrary, contributions, benefits and service credit for the purpose of vesting with respect to qualified military service will be provided in accordance with and to the extent required by the Uniformed Services Employment and Reemployment Rights Act of 1994 (USERRA) and Code Section 414(u), under rules adopted by the Board.

G. Direct rollover.

a. Notwithstanding any provision of the Fund to the contrary that would otherwise limit a "distributee's" election under this Section, a "distributee" may elect, at the time and in the manner prescribed by the Board, to have any portion of an "eligible rollover distribution" that is equal to at least one thousand dollars ($1,000.00) paid directly to an "eligible retirement plan" specified by the "distributee" in a "direct rollover".

b. For purposes of this Subsection the following definitions shall apply:

1. An "eligible rollover distribution" is any distribution of all or any portion of the balance to the credit of the "distributee", except that an "eligible rollover distribution" does not include: any distribution that is one (1) of a series of substantially equal periodic payments (not less frequently than annually) made for the life (or life expectancy) of the "distributee" or the joint lives (or joint life expectancies) of the "distributee" and the "distributee's" designated beneficiary, or for a specified period of ten (10) years or more; any distribution to the extent such distribution is required under Code Section 401(a)(9); the portion of any other distribution that is not includible in gross income (determined without regard to the exclusion for net unrealized appreciation with respect to employer securities); and any other distribution that is reasonably expected to total less than five hundred dollars ($500.00) during a year.

2. An "eligible retirement plan" is an individual retirement account described in Code Section 408(a), (other than an endowment contract), a qualified trust (an employees' trust) described in Code Section 401(a) which is exempt from tax under Code Section 501(a), an annuity plan described in Code Section 403(a), an eligible deferred compensation plan described in Code Section 457(b) which is maintained by an eligible employer described in Code Section 457(e)(1)(A), and an annuity contract described in Code Section 403(b), that accepts the "distributee's" "eligible rollover distribution". However, in the case of an "eligible rollover distribution" to the surviving spouse, an "eligible retirement plan" is an individual retirement account or individual retirement annuity. In addition, a member may elect to roll over directly an eligible rollover distribution to a Roth IRA described in Code Section 408A, or to a qualified plan or a 403(b) plan that agrees to account separately for amounts and the portion of such distribution which is not includible in gross income.

3. A "distributee" includes a member or former member. In addition, the member's or former member's surviving spouse and the member's or former member's spouse or former spouse who is the alternate payee under a qualified domestic relations order, as defined in Code Section 414(p), are "distributees" with regard to the interest of the

spouse or former spouse. In addition, a non-spouse beneficiary who is a "designated beneficiary" under Code Section401(a)(9)(E) and the regulations thereunder, may by a direct trustee-to-trustee transfer ("direct rollover") roll over all or any portion of his or her distribution to an individual retirement account the beneficiary establishes for purposes of receiving the distribution. In order to be able to roll over the distribution, the distribution otherwise must satisfy the definition of an eligible rollover distribution. If the member's named beneficiary is a trust, the Fund may make a direct rollover to an individual retirement account on behalf of the trust, provided the trust satisfied the requirements to be a designated beneficiary within the meaning of Code Section401(a)(9)(E).

4. A "direct rollover" is a payment by the Fund to the "eligible retirement plan" specified by the "distributee".

c. Member notice. A member entitled to an eligible rollover distribution must receive a written explanation of his/her right to a direct rollover, the tax consequences of not making a direct rollover, and, if applicable, any available special income tax elections. The notice must be provided within 30-to-180 days of the date of distribution. The direct rollover notice must be provided to all members, unless the total amount the member will receive as a distribution during the calendar year is expected to be less than two hundred dollars ($200.00). The description of a member's right, if any, to defer receipt of a distribution also will describe the consequences of failing to defer receipt of the distribution, in a manner consistent with Treasury Department requirements.

H. Vesting upon Fund termination. Upon termination of the Fund or upon the complete discontinuance of contributions, under the Fund, the rights of all members to benefits accrued to the date of such termination or discontinuance, to the extent then funded, are nonforfeitable.

(Ord. No. 13024, § 5, 1-26-16; Ord. No. 13239 , §§ 1—3, 11-14-17)

Secs. 2-426—2-500. Reserved.

(Ord. No. 12983, §§ 2, 3, 8-25-15)

See footnote below.*

ARTICLE IV. FINANCE†

Sec. 2-501. Fiscal year.

The fiscal year of the city shall be computed and reckoned from the first day of July of each year. All annual reports relating to the city's finances, as well as those of all departments, officers and agencies of the city, shall be made up to and including the thirtieth day of June of each year.

(Code 1986, § 2-301; Ord. No. 11103, § 2, 11-28-00)

Sec. 2-502. Reserved.

***Note—**The specific intent of the City Council in passing this ordinance is to create a structure for the Fund that ensures its long-term actuarial integrity and ability to pay benefits while preserving the City's fiscal health. This ordinance must be construed to effectuate this specific intent.

†**Charter reference—**Finance and taxation, Title 6.

Cross references—City finance officer, § 2-61 et seq.; city treasurer, § 2-101 et seq.; purchases, contracts and property disposition, § 2-541 et seq.; businesses, trades and occupations, Ch. 11; free public library fund created, § 22-7.

(Ord. No. 11103, § 2, 11-28-00)

Sec. 2-503. Transfer of unencumbered balances.

At the close of each fiscal year any unencumbered balance of an appropriation, except special funds duly created, shall revert to the general fund. The city council may transfer the unencumbered balance of one (1) general fund appropriation to any other; provided that such action shall only be taken during the last two (2) months of the fiscal year.
(Code 1986, § 2-303; Ord. No. 9654, § 2, 1-6-92; Ord. No. 11103, § 2, 11-28-00)

Sec. 2-504. Supervisory powers of city finance officer.

The city finance officer shall supervise and have charge of the keeping of all accounts and financial records for every department and agency of the city, the preparation of all financial reports and statements, the audit of all claims, and budgetary and auditing control over the city's revenues and expenditures.
(Code 1986, § 2-304; Ord. No. 9654, § 8, 1-6-92; Ord. No. 11103, § 2, 11-28-00)

Sec. 2-505. Accounting procedure; weekly reports.

The method of installing and keeping all general and departmental accounts and financial records of the city and of rendering all financial reports shall be prescribed by the city finance officer and, unless otherwise directed by him, such accounts and records shall be kept in his office. He shall establish the city accounting procedure in such a way that his accounts will show the financial transactions of every branch of the city government and the financial transactions relating to all appropriations and funds, all revenues accrued and liabilities incurred, all cash receipts and disbursements and all transactions affecting the acquisition, custody, and disposition of assets. He shall secure a weekly report from each department and agency of the city showing all money received by it and the disposition thereof, and shall see that all such money is paid promptly into the treasury.
(Code 1986, § 2-305; Ord. No. 9654, § 8, 1-6-92; Ord. No. 11103, § 2, 11-28-00)

Sec. 2-506. Monthly and annual reports.

(a) The city finance officer shall prepare and submit a report to the mayor and city council not later than the tenth day of each month, showing revenues accrued and expenditures incurred, giving details as to appropriations and funds in such manner as to show the exact financial condition of the city and of each department and agency thereof as of the last day of the previous month. Such monthly report shall also show actual revenue receipts of the city as compared with the estimated receipts set up in the annual budget, and

[The next page is CD2:111]

it shall be his responsibility to call the fact to the attention of the council in writing whenever actual receipts are falling behind estimated receipts in order that the council may curtail original budget appropriations in accordance with the new situation.

(b) At the close of the fiscal year, the city finance officer shall have prepared an annual report showing the financial condition and transactions of the city and file the same with the council.
(Code 1986, § 2-306; Ord. No. 9654, § 38, 1-6-92; Ord. No. 11103, § 2, 11-28-00)

Sec. 2-507. Audits required.

(a) At least once each year the city finance officer shall audit the accounts of all officials and employees of the city who have the custody of, collect or disburse funds.

(b) Upon the resignation, removal or expiration of the term of any city officer other than the city finance officer, the city finance officer shall make an audit and investigation of the accounts of such officer and shall report the condition thereof to the mayor and city council.

(c) Either the mayor or the council may at any time require the city finance officer to make other audits or investigations of the accounts of any officer, department or agency of the city.
(Code 1986, § 2-307; Ord. No. 9654, § 38, 1-6-92; Ord. No. 11103, § 2, 11-28-00)

State law reference—Audits required, T.C.A. § 6-56-101.

Sec. 2-508. Audit of finance officer's accounts.

In case of the death, resignation or removal of the city finance officer, the mayor shall cause an audit to be made of his accounts. The mayor and council shall provide for an independent annual audit of the city finance officer's accounts, records and transactions, and may provide for such an audit at any other time. All audits provided by this section shall be made by certified public accountants holding certificates issued by the state board of accountancy or by a similar agency in some other state maintaining an equal standard of professional requirements.
(Code 1986, § 2-308; Ord. No. 9654, § 38, 1-6-92; Ord. No. 11103, § 2, 11-28-00)

Sec. 2-509. Action where audit or investigation reveals indebtedness by officer.

If, as a result of any audit or investigation made as provided in this article, an officer is found to be indebted to the city, the city finance officer or other person making such audit shall immediately give notice thereof to the mayor and city council and the city attorney, and the city attorney shall proceed forthwith to collect such indebtedness.
(Code 1986, § 2-309; Ord. No. 9654, § 38, 1-6-92; Ord. No. 11103, § 2, 11-28-00)

Sec. 2-510. Accounts for appropriations and loan authorizations.

Accounts shall be kept by the city finance officer for each appropriation and loan authorization made by the city council and every warrant issued for payment shall state specifically against which of such accounts it is drawn. The city finance officer's accounts shall show in detail the appropriations or loan authorizations made by the city council, the amount drawn thereon, the unpaid obligations charged against each and the unencumbered balance to the credit of each.
(Code 1986, § 2-310; Ord. No. 9654, § 40, 1-6-92; Ord. No. 11103, § 2, 11-28-00)

Sec. 2-511. Records of status of city's bank accounts.

When city funds are paid out for any purpose or on any account or withdrawn from one (1) bank and deposited in another bank, an account of the transaction shall be recorded in the city finance officer's

accounts so that at any time there may be determined by a reference to his records the exact status and condition of all bank accounts of the city and their nature, whether general or special funds, and, if special, the rate of interest they are earning on time deposits, if any.
(Code 1986, § 2-311; Ord. No. 9654, § 40, 1-6-92; Ord. No. 11103, § 2, 11-28-00)

Sec. 2-512. Finance officer to keep record of city treasurer's receipts and disbursements.

All funds paid to the city treasurer for any purpose or from any source and all funds paid out by the city treasurer shall be reported by him to the city finance officer, whose accounts shall show the amounts reported as received, from what source they were derived, the amounts reported as paid out and for what purposes they were so paid.
(Code 1986, § 2-312; Ord. No. 9654, § 40, 1-6-92; Ord. No. 11103, § 2, 11-28-00)

Sec. 2-513. Special accounts with respect to state and federal moneys received.

The city finance officer shall set up and maintain special accounts with respect to moneys received for designated purposes from the state or the federal government.
(Code 1986, § 2-313; Ord. No. 9654, § 40, 1-6-92; Ord. No. 11103, § 2, 11-28-00)

Sec. 2-514. Treasurer's accounts.

(a) The city finance officer shall maintain an account with the city treasurer as tax collector. He shall charge to the city treasurer, as such collector the full amount of the annual tax levy and all uncollected back tax levies, and credit him with all sums reported by him as collected. When the city treasurer goes out of office as such collector, the city finance officer shall credit him with all uncollected balances and releases made by proper authority and shall charge him with all sums reported as coming into his hands as tax collector.

(b) The city finance officer shall maintain another account with the city treasurer as such, in which he shall charge him with all sums coming into his hands as city treasurer, and shall credit him with such sums as are shown to be paid out by him on warrants issued as provided herein.
(Code 1986, § 2-314; Ord. No. 9654, § 40, 1-6-92; Ord. No. 11103, § 2, 11-28-00)

Sec. 2-515. Custody of cash book and tax duplicates.

The city's cash book and tax duplicates shall be under the immediate control and supervision of the city treasurer and he shall be responsible for the safekeeping of the same.
(Code 1986, § 2-315; Ord. No. 11103, § 2, 11-28-00)

Sec. 2-516. Record of daily cash balance.

The city treasurer shall bring down and show on his cash book the city's daily cash balance at the close of each day's business.
(Code 1986, § 2-316; Ord. No. 11103, § 2, 11-28-00)

Sec. 2-517. Deposit of checks received; dishonored checks.

(a) All checks or money orders received by the City as payment for taxes, license fees or permit fees, or received for any other purpose shall be deposited within three (3) days after they are received.

(b) If for any reason any check or money order is not honored by the bank on which it is drawn, in addition to other penalties by law, there shall be paid as a penalty by the person who tendered such check or money order, upon written notice and demand by the City, an amount equal to one percent (1%) of the

amount of such check or money order, except that if the amount of the check or money order is less than two thousand dollars ($2,000.00), the fee under this section shall be twenty dollars ($20.00) or the amount of the check, whichever is less.

(c) A record shall be made by the officer handling such check or money order showing the disposition thereof.
(Code 1986, § 2-317; Ord. No. 9209, 8-15-89; Ord. No. 11103, § 2, 11-28-00; Ord. No. 12078, 2-19-08; Ord. No. 12644, § 1, 9-18-12)

Sec. 2-518. Duplicate deposit slips required; where filed.

When making deposits of funds for any purpose, the city treasurer shall prepare duplicate slips, one (1) to be filed with the city finance officer and one (1) to be kept in the office of the city treasurer.
(Code 1986, § 2-318; Ord. No. 9654, § 40, 1-6-92; Ord. No. 11103, § 2, 11-28-00)

Sec. 2-519. Record and report of bank balances.

The city treasurer shall keep a book showing the amount of public money on deposit with each bank and which deposits are made, and shall file with the mayor at such times as the mayor may require a report of the bank balances for all funds on deposit, showing each fund separately.
(Code 1986, § 2-319; Ord. No. 11103, § 2, 11-28-00)

Sec. 2-520. Issuance of warrants; withdrawal of funds.

(a) No money shall be paid out of the city treasury except by means of a warrant on the treasury issued by the city finance officer. The city finance officer shall examine all payrolls, bills and other claims and demands against the city and shall issue no warrant for payment unless he has found by diligent investigation that the claim is in proper form, correctly computed and duly approved, and that it is justly due and payable. He may investigate any claim and for that purpose may summon before him any officer, agent or employee of the city, the claimant or other person, and examine him upon oath or affirmation administered by him relative to such claim. If he finds that a claim is fraudulent, erroneous or otherwise invalid, he shall not authorize the payment of such claim.

(b) No warrant shall be issued by the city finance officer to satisfy any claim unless the claim is approved in the department or agency to which the claim pertains by the official of such department or agency authorized by the mayor or department head to approve such claim. Every warrant shall set out the purpose for which it is issued.

(c) When a warrant is issued, as provided herein, the city treasurer or the assistant city treasurer shall issue a check for the amount called for in such warrant payable to the person named therein.
(Code 1986, § 2-320; Ord. No. 9654, §§ 40-41, 1-6-92; Ord. No. 11103, § 2, 11-28-00)

Sec. 2-521. Withholding percentage of salary or claims due, for payment of delinquent taxes.

The city finance officer shall retain twenty-five percent (25%) of the salary due any person on the payroll of the city who is indebted to the city for delinquent taxes until the amount of such taxes, with penalties and interest, has been paid in full. He shall retain twenty-five percent (25%) of any amount due by the city to any person indebted to the city for delinquent taxes on each claim or bill due such person, until a sufficient amount has been withheld from such claim or bill to pay such taxes, with penalties and interest, in full.
(Code 1986, § 2-321; Ord. No. 9654, § 40, 1-6-92; Ord. No. 11103, § 2, 11-28-00)

Sec. 2-522. Checks to be countersigned by mayor or city finance officer.

All checks issued by the city treasurer or assistant city treasurer shall be countersigned by the city finance officer or the mayor before they will be payable at any bank in which deposits are kept by the city. (Code 1986, § 2-322; Ord. No. 9654, § 40, 1-6-92; Ord. No. 11103, § 2, 11-28-00)

Sec. 2-523. Debt service fund.

A fund to be known as the debt service fund is hereby created and designated as the fund from which all expenditures relating to the bonded debt or other long term obligations of the city shall be made as herein provided, and in which all revenues therefor shall be deposited. Transactions involving the city's funding and refunding bonds outstanding on July 1, 1948, shall be handled through the funding and refunding sinking fund under the administration of the sinking fund commission, but all other debt service transactions shall be administered by the finance officer through the debt service fund, and disbursement warrants therefor shall be prepared by the city finance officer in the manner provided for all other city funds. The amount necessary to finance debt service requirements shall be provided and set up in the budget of the city general fund and disbursements shall be made from the general fund to the debt service fund as need may arise. (Code 1986, § 2-323; Ord. No. 9654, §§ 40, 42, 1-6-92; Ord. No. 11103, § 2, 11-28-00)

Sec. 2-524. Manpower development and training fund.

There hereby is established a special fund known as the manpower development and training fund for the purpose of implementing federal laws and to authorize expenditures from such fund in the carrying out of the purposes of federal law pending receipt of funds from the federal government in reimbursement therefor. (Code 1986, § 2-324; Ord. No. 11103, § 2, 11-28-00)

Sec. 2-525. Capital expenditures.

(a) *Requests.* All requests for capital expenditures by all departments, agencies and branches of the city government wherein city funds are to be expended shall be presented to the office of the mayor prior to the beginning of each calendar year. Such requests shall be on forms supplied by the office of the mayor and shall include detailed requests for capital funds for the ensuing calendar year and forecasts and estimates of capital expenditures or needs for each of the next five (5) calendar years.

(b) *Submittal of proposed annual capital improvements budget and program.* The office of the mayor shall prepare and submit to the city council a proposed annual capital improvements budget and program for consideration after adoption of the annual budget ordinance for the city. Such capital improvements program shall include a detailed budget recommendation for the ensuing calendar year and recommendations for a capital improvements program for the subsequent five (5) calendar years. A schedule of submission by the various departments, agencies, and branches of government shall be set by the mayor and distributed each year with materials for the departmental submissions.

(c) *Action upon capital improvements budget and program.* It is intended that the capital improvements budget and program should be acted upon by the council not later than January 30 of each year.

(d) *Review of ordinance by planning commission staff.* Before adoption of the annual capital improvements ordinance, or any amendments thereto, such ordinance or amendments shall first be submitted to the staff of the Chattanooga-Hamilton County Regional Planning Commission for review and recommendation prior to the passage by the city council and such staff shall make a report to the mayor and city council on any proposed amendments within sixty (60) days of submission.

(e) *Compliance with budget ordinance.* All capital expenditures of the city shall be in accordance with the capital improvements budget ordinance except that the city council may make an appropriation, allocation or authorization for a project in order to meet an emergency.
(Code 1986, § 2-325; Ord. No. 9654, §§ 2, 43, 44, 1-6-92; Ord. No. 11103, § 2, 11-28-00)

Sec. 2-526. Appropriation and disbursement of municipal funds to nonprofit charitable and civic organizations.

(a) The City Council may appropriate funds for the financial aid of any non-profit charitable organization or any non-profit civic organization as set forth in Tenn. Code Ann. § 6-54-111. Such appropriated funds may be used for the purpose of promoting the common good and general welfare of the people of the city by bringing about civic betterments and social improvements including efforts to maintain and increase employment opportunities in the city by promoting industry, trade, commerce, tourism and recreation by introducing manufacturing, industrial, governmental, educational, financial, service, commercial, recreational and agricultural enterprises to locate in or remain in the city or to locate nearby so as to provide jobs for residents of the city.

(b) Appropriated funds may be expended to carry out any activity which promotes the above-mentioned purpose so long as such activity is approved by the city council based on the guidelines established by the legislative body directing for what purpose the appropriated money may be spent in conjunction with the guidelines and procedures of the comptroller of the treasury.

(c) Any non-profit organization that desires financial assistance from the City shall file a copy of an annual report of its business affairs and transactions with the City Council Clerk in the manner set forth in Tenn. Code Ann. § 6-54-111 (c) for any proposed project before any city funds are appropriated in connection with such project in order to assure compliance with these guidelines.

(d) The annual budget of the city shall specify each recipient non-profit organization by name as beneficiary of the appropriated funds and the amount appropriated therefor.

(e) Any non-profit organization requesting funds from the City of Chattanooga shall furnish the Chief Financial Officer, prior to any consideration of monetary appropriation, with the following information:

(1) The name and address of the non-profit organization;

(2) The name, address, and telephone number of a specific contact person within the non-profit organization relative to any request for appropriation of funds;

(3) A description of the specific programs of the non-profit organization which serve the residents of the City of Chattanooga;

(4) A signed statement by the chief executive officer of the non-profit organization indicating that the non-profit organization will, upon request, provide the following:

a. Detailed accounting of how and for what purpose municipal funds were spent by the non-profit organization;

b. List of accomplishments or outcomes achieved through the use of municipal funds;

c. Copies of annual audits of the non-profit organization (performed by an independent Certified Public Accountant in accordance with Generally Accepted Auditing Standards)

(5) A copy of the entity's most recently completed annual audit or an annual report detailing all receipts and expenditures in a form prescribed by the comptroller of the treasury and prepared and certified by the chief financial officer of such non-profit organization as set forth in Tenn. Code Ann. § 6-54-111(c) at the time of the request for appropriation of funds from the City of Chattanooga;

(6) A copy of the charter of the non-profit organization filed with the Tennessee Secretary of State;

(7) A copy of the document indicating non-profit tax exemption status for the non-profit organization under the Internal Revenue Code, such as an IRS Determination Letter;

(8) A copy of the most recent IRS Form 990 as filed with the IRS;

(9) A copy of the most recent annual audit of the non-profit organization, prepared by an independent Certified Public Accountant in accordance with Generally Accepted Auditing Standards;

(10) A description of the proposed usage, proposed outcomes, and proposed budget related to request for appropriation of funds (template to be provided);

(11) Other financial and operational information upon request;

(12) Each non-profit organization requesting appropriation of funds from the City of Chattanooga shall pay an application fee which shall be expended to cover the costs of advertising notices pursuant to T.C.A. Section 6-54-111 and to defray clerical time and supplies associated with the application.

(f) For each nonprofit application, the Chief Financial Officer shall submit a verification form to the City Council Clerk certifying that all items required in subsection (e) have been received and reviewed prior to the budget recommendations for each fiscal year and before any appropriation is made by the City Council in the annual budget ordinance.

(g) Each organization receiving such funds from the city shall comply with the requirements of Tennessee Code Annotated section 6-54-111, as amended, by filing with the Chief Financial Officer a copy of an annual report of its business affairs and transactions, which includes a copy of an annual audit, its program which serves the residents of the city and the proposed use of the municipal assistance before any monetary appropriation is made

(h) Funds appropriated by the city may not be utilized for advertising commercial, social, industrial or any other advantages of the city in excess of the amount authorized to be appropriated annually from city funds for this purpose by Tennessee Code Annotated section 6-54-201.

(i) The City or its agent may audit all financial and related records (including digital) associated with the terms of the contract or agreement including timesheets, reimbursable out of pocket expenses, materials, goods, and equipment claimed by the organization. The City may further audit any organization records to conduct performance audits (to identify waste and abuse or to determine efficiency and effectiveness of the contract or agreement) or to identify conflicts of interest. Costs of any audits conducted under the authority of this section and not addressed elsewhere will be borne by the City unless the audit identifies significant findings that would benefit the City. The recipient organization shall reimburse the City for the total costs of an audit that identifies significant findings that would benefit the City.

(j) Appropriations to nonprofit organizations other than charitable organizations may be made only upon meeting the following conditions:

(1) Notices shall be published in a newspaper of general circulation in the city of the intent to make an appropriation to a non-profit but not charitable organization specifying the intended amount of the appropriation and the purposes for which the appropriation will be spent; and

(2) The city council must approve the appropriation at two (2) consecutive regularly scheduled meetings.

(Code 1986, § 2-326; Ord. No. 9654, § 2, 1-6-92; Ord. No. 9693, § 1, 4-7-92; Ord. No. 11103, § 2, 11-28-00; Ord. No. 12872, § 1, 11-4-14; Ord. No. 13671, § 1, 5-25-21)

Secs. 2-527—2-540. Reserved.
(Ord. No. 11103, § 2, 11-28-00)

ARTICLE V. PURCHASES, CONTRACTS AND PROPERTY DISPOSITION*

Sec. 2-541. Purchasing department created; supervision; subordinate personnel.

There is hereby created a department of the city to be known as the purchasing department. The head of such department shall be known as the purchasing agent. He or she shall be elected by the mayor to serve at the pleasure of the mayor. The mayor may appoint such deputy or assistant purchasing agents as may be necessary to carry out the efficient and orderly functions of the department.
(Code 1986, § 2-341; Ord. No. 9654, § 45, 1-6-92; Ord. No. 11103, § 2, 11-28-00)

Cross references—Inspection department, § 2-621 et seq.; Chattanooga Youth and Family Development Department, § 2-641 et seq.; fire department, § 16-26 et seq.; police department, § 16-41 et seq.

Sec. 2-542. Duties, powers of purchasing agent.

The purchasing agent as head of the purchasing department shall possess the following powers and perform the following duties:

(1) He shall contract for and purchase all supplies, materials and equipment necessary for the conduct and operation of all departments and agencies of the city; except, the department of education may establish its own purchasing department subject to the city charter and applicable ordinances enacted pursuant thereto. Such purchases shall include those for all jointly financed agencies (such as civil defense, the Chattanooga-Hamilton County Health Department, the metropolitan planning commission, and any other joint operations with the county, other municipalities or the state or the federal government) when payment for such supplies and the accounting function therefor is a responsibility of the city.

(2) He may transfer from one (1) department or agency to any other departments or agencies such supplies, materials and equipment or other personal property not needed by one (1) but necessary to the conduct and operation of the other; or may sell any personal property belonging to the city which is declared surplus by the head of a department or agency, or by the city council.

(3) When established by the mayor, he shall have charge of and supervision over all storerooms and storage places and may distribute to the departments and agencies of the city on requisition any supplies, materials or equipment available for distribution from such storerooms.

(4) He may inspect or supervise inspection of all deliveries of supplies, materials and equipment to determine their conformity to the specifications as to quantity and quality stated in the contract therefor.

(5) He may, subject to the approval of the mayor and city council, advertise for and enter into requirements, blanket, annual orders or indefinite quantity contracts, or term contracts. No such contract shall be let unless the same shall have been first advertised for bids as required by section 2-552. Such contracts must contain a provision giving the city the right of cancellation at any time

---

***Charter references—**Power to purchase property, § 1.1; authority to dispose of surplus property, § 2.1(33).

Cross references—City finance officer, § 2-61 et seq.; city treasurer, § 2-101 et seq.; city finance generally, § 2-501 et seq.; businesses, trades and occupations, Ch. 11.

State law reference—Municipal purchasing, T.C.A. § 6-56-301 et seq.

with no more than one (1) year's notice, and at the end of any fiscal year without notice in the event that funds to support the contract become unavailable and no such contract may be let for periods of time in excess of sixty (60) months.

(6) He may, subject to the approval of the mayor and city council, establish standard specifications as to quantity and quality for all supplies, materials and equipment generally needed by the departments or agencies of the city, and may make use of existing laboratories or other agencies belonging to the city for testing samples and inspecting deliveries.

(7) The purchasing agent may establish rules and regulations for the operation, procedures and functions of the purchasing department. Before submission to the city council, such rules and regulations shall first be submitted to the mayor, city finance officer and to the city attorney. The city finance officer shall advise whether or not such rules and regulations are consistent with the prevailing accounting practices of the city and are fiscally feasible. The city attorney shall approve such rules and regulations as to legality and form. When and if approved by the city council, such rules and regulations shall be spread upon the minutes of the city council and filed in the office of the city finance officer. The purchasing agent shall then publish such rules and regulations in the form of a purchasing manual for the benefit of the various departments, agencies and divisions of the city, persons dealing with the city and the general public.

(Code 1986, § 2-342; Ord. No. 9654, §§ 2, 13, 46, 47, 1-6-92; Ord. No. 11103, § 2, 11-28-00; Ord. No. 12204, § 1, 1-13-09)

Sec. 2-543. Emergency purchases.

(a) In the event of an apparent emergency which requires immediate procurement of supplies, material and equipment, or contractual services, the mayor shall be empowered to authorize the purchasing agent to procure, at the lowest available price, any supplies or contractual services, regardless of the amount of the expenditure. A full report of the circumstances of an emergency purchase shall be filed by the purchasing agent with the city council at its next meeting, and shall be entered on the minutes of the city council.

(b) In the event of actual emergency and with the consent of the purchasing agent and the approval of the mayor, the head of any department may procure directly at the lowest available price any supplies, material and equipment, or contractual services, whose immediate procurement is essential to prevent delays in the work of a department which may vitally affect the life, health, safety or convenience of the public. The head of such department shall send to the purchasing agent a requisition and a copy of the delivery record, together with a full written report of the circumstances of the emergency. The report shall be filed with the city council and spread upon its minutes.

(c) When it is necessary to purchase from a single source, a report thereon shall be filed with the mayor and city council before its next meeting.

(Code 1986, § 2-343; Ord. No. 9654, §§ 2, 48, 1-6-92; Ord. No. 11103, § 2, 11-28-00)

Sec. 2-543.5. Fuel purchase in the open market.

Fuel and fuel products may be purchased in the open market without public advertisement, but shall whenever possible be based on at least three (3) competitive bids. Fuel and fuel products may be purchased from the state department of general services contract where available.

(Code 1986, § 2-343.5; Ord. No. 11103, § 2, 11-28-00)

Sec. 2-544. Unclaimed personal property—Forfeiture; notice to owner.

(a) All unclaimed personal property which comes into the possession of the City Court or other department of the City shall, if it remains unclaimed for a period of sixty (60) days, be delivered to the purchasing agent to be forfeited and disposed of as surplus property. Prior to disposal of the unclaimed personal property, the purchasing agent shall make reasonable efforts to notify the owner, including mailing notice to the owner of such personal property by certified mail to such owner's last known address if such has not been done by the department that came into possession of such unclaimed/abandoned property before delivery to the purchasing agent.

(b) All unclaimed/abandoned personal property from any citizen or business which comes into the possession of the Chattanooga Police Department and which remains unclaimed for a period of sixty (60) days thereafter shall be declared abandoned and all rights, interests, and/or ownership shall be forfeited by the owner. The Chief of Police shall declare such unclaimed personal property abandoned and may dispose of such property by the following means: (a) internet auction; (b) destruction; or (c) may be diverted to city property. Any articles declared by the Chief of Police to be sold at auction shall have a complete inventory list prepared which shall be delivered to the city purchasing agent. Prior to disposal of the unclaimed personal property, the purchasing agent shall make reasonable efforts to notify the owner, including mailing notice to the owner of such personal property by certified mail to such owner's last known address if such has not been done by the department that came into possession of such unclaimed/abandoned property before delivery to the purchasing agent.
(Code 1986, § 2-344; Ord. No. 11103, § 2, 11-28-00; Ord. No. 12075, § 1, 2-12-08)

Sec. 2-545. Methods of disposal of Unclaimed Personal Property.

(a) The purchasing agent shall dispose of unclaimed/abandoned personal property which comes into the possession of the Police Department, City Court and/or other departments of the City, by any method of disposal authorized pursuant to T.C.A. § 12-2-403. Methods of disposal shall include sales at public auction, publicly advertised and held; sale under sealed bids, publicly advertised, opened and recorded; sale by internet auction; negotiated contract for sale, at arms length; but only in those instances in which the availability of the property is recurring or repetitive in character, such as marketable waste products, for disposal of the property as it is generated in the most economically feasible, fiscally sound, and administratively practicable method for the City to utilize; trade-in, where such is permitted due to the nature of the property or equipment and under the terms and conditions of the contract by which the City replaces the property as authorized by T.C.A. § 12-2-403.

(b) Notice of any public auctions and sales under sealed bids, as provided in this part, shall be publicly advertised and publicly held. Notice of intended disposal by public auction or sale under sealed bid shall be entered by the purchasing agent in at least one (1) newspaper of general circulation in Hamilton County or the county in which the disposal is to be made. Such notice shall specify and reasonably describe the property to be disposed of, the date, time, place, manner, and conditions of disposal, all as previously determined by the purchasing agent in accordance with the regulations of the City. The advertisement shall be entered in the public notice or equivalent section of the newspaper and shall be run not less than one (1) day. Disposal shall be made not sooner than seven (7) days after the last day of publication nor later than fifteen (15) days after the last day of publication of the required notice, excluding Saturdays, Sundays, and holidays. Prominent notice shall also be conspicuously for ten (10) days prior to the date of disposal, excluding Saturdays, Sundays, and holidays, in at least two (2) public places in Hamilton County or the County where the disposal is to be made. Furthermore, notice shall be sent to the County Clerk of Hamilton County and such notice shall be posted in the Hamilton County Courthouse unless otherwise directed by the purchasing agent.

(c) Notice of intended disposal by internet auction shall be posted on the city's web site and the Police Departments web page notifying the public of such intend sale. Such notice shall specify the site and provide a link to the online auction site in which any citizen may view and/or bid on any article. The Web Page notice shall be displayed on a basis of twenty-four (24) hours a day, seven (7) days per week. Such Web Page notice shall serve as a permanent notice thereby excluding section 2 requirements and reasonably describe the property to be disposed of, the date (s), time, manner and conditions of disposal, all as previously determined by the internet auction provider in accordance with the contract and/or signed agreement with the Police Department.

(d) The purchasing agent shall furnish the City Finance Officer a list of all articles disposed of by surplus, the method of disposal of such surplus property, and the price obtained as a result of the sale of any surplus property disposed of in accordance with T.C.A. § 12-2-403.

(e) The Chief of Police or his designee shall obtain from the contract vendor a list of all abandoned/unclaimed items disposed of by the vendor for the department, the method of disposal and the price obtained as a result of the sale of any unclaimed/abandoned property. Documentation of disposed items of shall be furnished to the Purchasing agent by the police department.
(Code 1986, § 2-345; Ord. No. 9654, § 8, 1-6-92; Ord. No. 11103, § 2, 11-28-00; Ord. No. 12075, § 1, 2-12-08)

Sec. 2-546. Same—Disposition of proceeds of sale.

(a) Any money received from the sale of unclaimed personal property of the Chattanooga Police Department, as provided in this article, shall be paid to the Chattanooga Police Department by the contract vendor. The Police Chief or his designee shall deposit all such monies received by the department to the City Treasurer's office upon receipt of any payments from the vendor.

(b) Any money received from sales of unclaimed/abandoned personal property which has been in the possession of the departments of fire and/or police shall be kept in a separate account by the city treasurer and, quarterly, the city treasurer shall pay the amount of these proceeds into the firemen's and policemen's insurance and pension fund.

(c) If the owner of any article of unclaimed/abandoned personal property sold shall, present satisfactory proof to the city that he was the owner of any article sold within a period of thirty (30) days after the sale, he shall be entitled to the proceeds of the sale thereof, less his proportionate share of the expenses of the sale.

(d) All funds received from the sale of unclaimed, abandoned or surplus property from any other city departments shall be paid by the purchasing agent into the city treasury and shall certify to the city treasurer. The purchasing agent shall certify to the city treasurer the expense incurred in making the sale or otherwise disposing of such property, including the costs and expenses of storage during the period such property was in the possession of the city. All funds received from the sales of unclaimed/abandoned personal property in all other city departments except Fire and Police shall be paid into the city general fund.
(Code 1986, § 2-346; Ord. No. 11103, § 2, 11-28-00; Ord. No. 12075, § 1, 2-12-08)

Sec. 2-547. Purchase requisitions required; approval of form.

All purchases made under the provisions of this article shall be made pursuant to a written requisition from the head of a department, agency or division of the city. The city finance officer shall approve the form of any requisition.
(Code 1986, § 2-347; Ord. No. 9654, § 8, 1-6-92; Ord. No. 11103, § 2, 11-28-00)

Sec. 2-548. Signing, custody of contracts.

(a) Contracts for the purchase of supplies, materials and equipment shall be signed for and on behalf of the city by the purchasing agent. Contracts for construction, services and all other contracts shall be signed for and on behalf of the city by the purchasing agent or the head of a department, agency or division of the city where the contract originates, or as otherwise provided by ordinance or resolution.

(b) The original of all contracts shall be delivered to and kept by the city finance officer.
(Code 1986, § 2-348; Ord. No. 9654, § 8, 1-6-92; Ord. No. 11103, § 2, 11-28-00)

Sec. 2-549. Approval not required for expenditures not exceeding fifty thousand dollars ($50,000.00).

Where the amounts of requisitions or contracts approved by the Purchasing Agent do not exceed fifty thousand dollars ($50,000.00), approval by the City Council shall not be necessary for the issuance of a purchase order, payment of an invoice, or the execution of a contract. All amounts over the fifty thousand dollars ($50,000.00) threshold shall require public advertisement and sealed competitive bids or proposals for nonemergency or nonproprietary purchases. In no event shall a requisition, invoice, or contract be split or divided into two (2) or more purchases with the intent of evading the necessity for having competitive bids or proposals and/or the necessity of obtaining the approval of the City Council.
(Code 1986, § 2-349; Ord. No. 9590, § 1, 8-6-91; Ord. No. 9654, § 2, 1-6-92; Ord. No. 10903, § 1, 9-14-99; Ord. No. 11103, § 2, 11-28-00; Ord. No. 12794, § 1, 01-7-14 ; Ord. No. 13854, § 1, 7-12-22)

Sec. 2-550. Petty cash funds.

The mayor and every other official who has the responsibility of expending an appropriation is hereby authorized to maintain a petty cash fund not to exceed five hundred dollars ($500.00) from which purchases or payments may be made not to exceed fifty dollars ($50.00) each, and receipts shall be attached to the warrant voucher replenishing or reimbursing the petty cash fund, provided, that the city treasurer and golf course managers are hereby authorized to maintain petty cash funds not to exceed two thousand dollars ($2,000.00). From said funds, purchases or payments may be made not to exceed said amount by the city treasurer and not to exceed one thousand dollars ($1,000.00) each by the golf course managers and receipts shall be attached to the warrant voucher replenishing or reimbursing the petty cash fund.
(Code 1986, § 2-350; Ord. No. 9943, § 1, 9-7-93; Ord. No. 11103, § 2, 11-28-00)

Sec. 2-551. Approval of expenditures exceeding fifty thousand dollars ($50,000.00).

Whenever any requisition, invoice, or contract calls for the expenditure of more than fifty thousand dollars ($50,000.00), the issuance of a purchase order, the payment of an invoice, or the award of a contract shall be subject to the approval of the City Council and shall not be binding on or create any liability against the city until approved by the City Council. Such approval shall be by resolution or by motion adopted by majority vote of the City Council; provided, however, that such approval shall not be necessary where an invoice or requisition is issued pursuant to a prior lawful contract or pursuant to an ordinance authorizing such expenditure and spending will be approved annually prior to passage of the budget.
(Code 1986, § 2-351; Ord. No. 9590, § 1, 8-6-91; Ord. No. 9654, § 2, 1-6-92; Ord. No. 10903, § 1, 9-14-99; Ord. No. 11103, § 2, 11-28-00; Ord. No. 12794, § 1, 1-7-14 ; Ord. No. 13854, § 2, 7-12-22)

Sec. 2-552. When bids required; advertisements for bids.

Whenever any requisition, invoice or contract calls for an expenditure exceeding fifty thousand dollars ($50,000.00), there shall be public advertisement for competitive bids or proposals; provided, however, purchases under fifty thousand dollars ($50,000.00) shall also be subject to advertisement and bids in the case of purchases of like items which individually cost less than fifty thousand dollars ($50,000.00), but

which are customarily purchased in lots of two (2) or more, if the total purchase price of such items would exceed fifty thousand dollars ($50,000.00) during any fiscal year. Notice for bid invitations and/or requests for proposals shall be advertised at least once in one (1) or more daily newspapers published in the City at least ten (10) days prior to the time set for a public opening of bids and/or proposals. The Purchasing Agent, in collaboration with the head of any department, will issue such invitations to bid and/or requests for proposals to vendors in the items or services to be purchased in addition to, but not in lieu of the advertisement required under this section. Secondhand equipment or specialized equipment or equipment purchased from any federal, state, or municipal agency, where it is not practicable to take bids, may be purchased without taking bids, but such purchases shall be subject to the requirements of sections 2-549 and 2-551.

No public advertisement nor competitive bidding or proposals shall be required for purchases up to forty percent (40%) of the above amount established for purchases requiring full public advertisement and competitive bidding or proposals. For purchases between forty percent (40%) and one hundred percent (100%) of said amount, such purchases shall be based upon three (3) written quotes.
(Code 1986, § 2-352; Ord. No. 9590, § 1, 8-6-91; Ord. No. 10903, § 1, 9-14-99; Ord. No. 11103, § 2, 11-28-00; Ord. No. 11834, § 1, 5-30-06; Ord. No. 12795, § 1, 1-7-14 ; Ord. No. 13854, § 3, 7-12-22)

Sec. 2-553. Submission, opening, acceptance of bids.

(a) All bids shall be sealed and submitted to the official authorized herein to request bids on or before the specified time when such bidding is to be closed. The official receiving bids shall open them publicly on the date and at the hour specified. A purchase order may be issued, and/or a contract may be awarded, to the bidder presenting the best value after approval by the city council. The city council may reject any and all bids submitted regardless of the amount involved. In determining the best value for the City, the purchase price and whether the goods or services meet specifications are the most important considerations. However, the purchasing agent may consider other relevant factors including, but not limited to the following:

(1) The ability, capacity and skill of the bidder to perform the contract or provide the service required;

(2) Whether the bidder can perform the contract or provide the service promptly or within the time specified, without delay or interference;

(3) The character, integrity, reputation, judgment, experience and efficiency of the bidder;

(4) The quality of performance of previous contracts or services;

(5) The previous and existing compliance by the bidder with laws and ordinances relating to the contract or service;

(6) The sufficiency of the financial resources and ability of the bidder to perform the contract or provide the service;

(7) The quality, availability and adaptability of the supplies, material and equipment, or contractual services to the particular use required;

(8) The ability of the bidder to provide future maintenance and service for the use of the subject of the contract, and the proposed warranty or guaranty;

(9) The number and scope of conditions attached to the bid;

(10) The approach of the bidders to issues raised in the solicitation for bids;

(11) The peculiar capabilities of the bidders to perform the contract;

(12) The proprietary features of the bid;

(13) The overall responsiveness of the bid to the needs of the City;

(14) Installation Costs;

(15) Life Cycle Costs;

(16) Delivery Terms;

(17) The cost of employee training associated with the purchase;

(18) The effect of the Purchase on Productivity; and

(19) Other factors relevant to determining Best Value for the City in the context of a particular purchase with the approval of the purchasing agent.

(b) If only one (1) bid is received, the bid shall not be opened and the contract or service to be performed shall be re-bid. If after having re-bid the contract or service only one (1) bid is received, the bid may be accepted. Provided, a re-bid shall not be required when there is only one (1) local supplier to perform the contract or provide the service required, or for the purchase of a unique or proprietary product. (Code 1986, § 2-353; Ord. No. 9654, § 2, 1-6-92; Ord. No. 10903, § 2, 9-14-99; Ord. No. 10913, § 1, 9-28-99; Ord. No. 11103, § 2, 11-28-00; Ord. No. 12795, § 2, 1-7-14)

Sec. 2-554. Competitive sealed proposals.

(a) The Purchasing Agent may recommend to the governing body to use competitive sealed proposals to purchase goods and services rather than competitive sealed bids after determining that the use of competitive sealed bidding is either not practicable or not advantageous for the City. In actual emergencies caused by unforeseen circumstances, such as natural or human-made disasters, delays by contractors, delays in transportation, or unanticipated volume of work, purchases through competitive sealed proposals may be made without specific authorizing action of the City Council. A record of any emergency purchase shall be made by the Purchasing Agent when authorizing the emergency purchase, specifying the amount paid, the items and services purchased, from whom the purchase was made, and the nature of the emergency. A report of the emergency purchase through competitive sealed proposals containing all relevant information shall be made as soon as possible by the Purchasing Agent to the City Council.

(b) In the decision to use competitive sealed proposals, the governing body shall follow the criteria set forth in this section for purchasing through competitive sealed proposals and procedures.

(c) Competitive sealed proposals may be used only when City Council determines qualifications, experience, or competence are more important than price in making the purchase and:

(1) When there is more than one (1) solution to a purchasing issue and the competitive sealed proposals will assist in choosing the best solution; or

(2) When there is no readily identifiable solution to a purchasing issue and the competitive sealed proposals will assist in identifying one (1) or more solutions.

(d) The City Council shall adopt as part of its procurement code a process to guide the City Council and Purchasing Agent in making purchases through requests for competitive sealed proposals. The model procurement code shall contain provisions allowing an aggrieved respondent to protest the intended award to another respondent if the protest is filed within seven (7) calendar days after the intended award is announced. The protest shall be filed with and decided by the municipal governing body.

(e) Adequate public notice of the request for competitive sealed proposals shall be given in the same manner provided for competitive sealed bids.

(f) Competitive sealed proposals shall be opened in a manner that avoids disclosure of contents to competing proposers during the negotiation. The proposals shall be open for public inspection after the intent to award the contract to a particular proposer is announced.

(g) The request for competitive sealed proposals shall be reviewed and approved by City Council prior to issuance and state the relative importance of price and other evaluation factors.

(h) As provided in the request for competitive sealed proposals and in the Procurement Instructional Manual, discussions may be conducted for clarification to assure full understanding of, and responsiveness to, the solicitation requirements with responsible proposers who submit proposals determined by the Purchasing Agent to be reasonably susceptible of being selected. The proposers shall be accorded fair and equal treatment with respect to any opportunity for discussion and revision of proposals, and revisions may be permitted after submission and before the intent to award to a particular proposer is announced to obtain the best and final offers. In conducting discussions, the Purchasing Agent and other City personnel shall make no disclosure to any proposer of any information derived from proposals submitted by competing proposers.

(i) The competitive sealed proposal award shall be made to the responsible proposer whose proposal the City Council determines is the most advantageous to the City, taking into consideration price and the evaluation factors set out in the request for competitive sealed proposals. No other factor may be used in the evaluation. The Purchasing Agent shall place in the contract file a statement containing the basis on which the award was made.
(Code 1986, § 2-354; Ord. No. 9590, § 1, 8-6-91; Ord. No. 9654, § 2, 1-6-92; Ord. No. 10903, § 1, 9-14-99; Ord. No. 11103, § 2, 11-28-00; Ord. No. 12676, § 1, 12-18-12; Ord. No. 13663, § 1, 4-13-21)

Sec. 2-555. Exception for utility charges.

Nothing in this article shall preclude the head of any department, agency or division of the city from arranging for reasonable utility services to be charged against its appropriation account.
(Code 1986, § 2-355; Ord. No. 11103, § 2, 11-28-00)

Sec. 2-556. Exception for professional services.

Contracts for professional services shall not be subject to competitive bidding. Tennessee Code Annotated, section 12-4-106.
(Code 1986, § 2-356; Ord. No. 11103, § 2, 11-28-00)

Sec. 2-557. Contents of bid proposals.

All bid proposals for contracts to furnish supplies, materials or equipment, or do construction work, shall set forth with particularity the nature of the work to be performed, how it shall be done, the type and quality of the material to be used and any other details necessary for the guidance of the contractor and the protection of the city.
(Code 1986, § 2-357; Ord. No. 11103, § 2, 11-28-00)

Sec. 2-558. Specifications attached to contracts.

The purchasing agent, or the department head in whose department the contract is to be executed, may have the city engineer or other competent city officer or employee, or private consultant, draw specifications in detail which shall be attached to the contract and construed to be a part thereof. Such specifications shall be made in duplicate, one (1) copy to be furnished to the contractor and the other retained by the department head and filed in his office as a part of the records of the city.
(Code 1986, § 2-358; Ord. No. 9654, § 49, 1-6-92; Ord. No. 11103, § 2, 11-28-00)

Sec. 2-559. Compliance prerequisite to paying warrants.

No warrant shall be approved for the payment of any contract of the city unless provisions of this article shall have been complied with and unless the original of the contract is on file with the city finance officer and the minutes of the city council show that the contract has been ratified or approved by the board where necessary.
(Code 1986, § 2-359; Ord. No. 9654, §§ 2, 8, 1-6-92; Ord. No. 11103, § 2, 11-28-00)

Sec. 2-560. Public improvement contracts.

All contracts of the city for any public improvement, when the cost shall exceed ten thousand dollars ($10,000.00) shall be let to the bidder providing the best value, the city council to be the judge thereof, and the council shall have the right to reject any and all bids. All contracts of the city shall be in writing, and may be signed on behalf of the city by the mayor or head of the department in whose department such contract originates. All contracts shall be subject to the approval of the city council. Whenever a requisition or contract calls for an expenditure exceeding twenty-five thousand ($25,000.00), notice to bidders shall be given by publication in a daily newspaper published in the city, giving the date, hour and place bids will be received and publicly opened, which publication notice shall be at least ten (10) days before the bids are to be received.
(Code 1986, § 2-360; Ord. No. 9654, § 50, 1-6-92; Ord. No. 10903, § 3, 9-14-99; Ord. No. 11103, § 2, 11-28-00; Ord. No. 12795, § 3, 1-7-14)

Sec. 2-561. Force account or cost-plus contracts for public improvements.

After bids have been advertised and received for making any public improvement, the mayor may negotiate with the lowest responsible bidder to have such bidder make such public improvement by force account or on a cost-plus basis if, in the opinion of the mayor, the making of such agreement is advantageous to the city. Contracts for repair of buildings or structures may be let on a cost-plus basis which shall include the cost of labor, material, insurance or other legitimate expenses of the contractor and a fixed fee or percentage for profit with a maximum cost to the city of such contract. All such agreements shall be in writing and approved by the city council.
(Code 1986, § 2-361; Ord. No. 9654, § 51, 1-6-92; Ord. No. 11103, § 2, 11-28-00)

Sec. 2-562. Contractor's bond.

No contract shall be let for any public construction project until the contractor shall have first executed a good and solvent bond to the effect that he/she will pay for all the labor and materials used by such contractor, or any immediate or remote subcontractor under him/her, in such contract, in lawful money of the United States. The bond to be so given shall be for one hundred percent (100%) of the contract price on all contracts in excess of twenty-five thousand dollars ($25,000). Where advertisement is made, the condition of the bond shall be stated in the advertisement; provided, that this section shall not apply to contracts of twenty-five thousand dollars ($25,000) or less. In lieu of the bond required by this section, the following securities or cash may be substituted at the percentage rate required for such bond:

(1) United States treasury bonds, United States treasury notes and United States treasury bills;

(2) General obligation bonds in the State of Tennessee;

(3) Certificates of deposit or evidence of other deposits irrevocably pledged from:

   a. A state or national bank having its principal office in Tennessee; or

   b. A state or federal savings and loan association having its principal office in Tennessee.

(4) A letter of credit from a state or national bank or state or federal savings and loan association having its principal office in Tennessee. The terms and conditions of any letter of credit shall be

subject to the approval of the city. The form of such letter of credit shall be provided by the bank or savings and loan association and may be based on either the Uniform Commercial Code, title 47, chapter 5, or the ICC Uniform Customs and Practice for Documentary Credits. All letters of credit shall be accompanied by an authorization of the contractor to deliver retained funds to the bank issuing the letter; or

(5) Cash.

(Code 1986, § 2-362; Ord. No. 11103, § 2, 11-28-00; Ord. No. 12973, § 1, 7-28-15)

Sec. 2-563. Certificate that funds available required.

No contract, purchase order, order on stores, agreement or other obligation involving the expenditure of any money shall be issued or entered into or be valid unless the city finance officer first certifies thereon that there is in the city treasury to the credit of the appropriation or loan authorization for which it is to be paid on unencumbered balance in excess of all other unpaid obligations. Before so certifying, the city finance officer shall encumber the proper appropriation or loan authorization with the amount of such contract, purchase order, order on stores, agreement or obligation until the city is discharged therefrom.
(Code 1986, § 2-363; Ord. No. 9654, § 8, 1-6-92; Ord. No. 11103, § 2, 11-28-00)

Sec. 2-564. Obligations without funds declared void; liability.

(a) All contracts. purchase orders, orders on stores, agreements and obligations issued or entered into contrary to the provisions of the preceding section shall be void and no person shall have any claim or demand whatever against the city thereunder, nor shall any official or employee of the city waive or qualify the limitation fixed by the preceding section or fasten upon the city any liability whatever contrary to such limitation.

(b) If any official or employee of the city authorizes or incurs an obligation against the city without first securing the city finance officer's certification as required by the preceding section, such official or employee and his sureties shall be individually liable for the amount of such obligation.
(Code 1986, § 2-364; Ord. No. 9654, § 8, 1-6-92; Ord. No. 11103, § 2, 11-28-00)

Sec. 2-565. Determination of available funds.

All unencumbered money actually in the treasury to the credit of a fund from which they may be drawn, all money anticipated to be received from taxes or other sources to the extent of the amounts stated in the annual budget, all money to be derived from bonds, notes and certificates of indebtedness, either then or previously authorized and either sold or authorized to be sold, shall, for the purpose of the city finance officer's certification, be deemed to be in the treasury to the credit of the appropriate fund and subject to certification.
(Code 1986, § 2-365; Ord. No. 9654, § 8, 1-6-92; Ord. No. 11103, § 2, 11-28-00)

Sec. 2-566. Disposal of surplus real property.

(a) When the head of any department, agency, office, board or commission of the city shall determine that any real property used in that department is no longer useful or required for the operations of such department, he shall certify this fact to the mayor and city council, together with a full description of the property in question; its former use or uses; and whether it has or may have any future use for any other department or agency, etc., of the city. Upon receipt of such certification, the city council shall determine in its sound discretion whether to declare the property to be surplus and whether to be sold or disposed of or whether to be held or transferred to other branches of the city.

(b) Upon a determination by the city council, by motion to be spread upon the minutes of the council, that such real property is surplus and no longer required for the present use of any branch of the city, or in the foreseeable future, the city council, subject to the limitations hereinafter set out, may direct the mayor to cause the purchasing agent of the city to advertise for bids for the sale of such real property or to engage the services of a licensed realtor for the sale of the real property.

(c) The purchasing agent, when so directed, shall prepare an advertisement to be published in all the daily newspapers of the city at least ten (10) days before the date set for the submission of bids. Such advertisement shall clearly state that the property is to be sold to the highest and best bidder with the right retained by the city to reject any or all bids or to waive any informalities or immaterial defects contained in such bids. The full and complete legal description of the property shall be included in the advertisement; the street address, if any, together with a full and complete disclosure of any liens, encumbrances, easements, restrictions or known defects in title and the zoning classification of the property on the date of advertisement thereof.
(Code 1986, § 2-366; Ord. No. 9654, § 52, 1-6-92; Ord. No. 11103, § 2, 11-28-00; Ord. No. 14057, § 1, 11-28-23)

Sec. 2-567. When negotiated or private sales authorized.

Nothing in this article shall be construed to limit the right of the mayor, subject to city council approval, to make a negotiated or private sale of property without advertisement, where such appears to be advantageous to the city; or where the property in question is of such a specialized nature as not to be of general market-ability; or where the prospective purchaser is an agency of the United States, this state or any political subdivision thereof.
(Code 1986, § 2-367; Ord. No. 9654, § 53, 1-6-92; Ord. No. 11103, § 2, 11-28-00)

ARTICLE VII. MUNICIPAL PLANNING COMMISSION†

Sec. 2-601. Designated.

The Chattanooga-Hamilton County Regional Planning Commission, a regional planning commission established by the state planning commission in accordance with Tennessee Code Annotated, section 13-3-101, is designated as the municipal planning commission of the city in accordance with Tennessee Code Annotated, section 13-3-301.
(Code 1986, § 2-401; Ord. No. 11103, § 2, 11-28-00)

***Editor's note—**Ord. No. 1333, § 1, adopted June 3, 2018, repealed Art. VI, §§ 2-581—2-586, which pertained to memorial auditorium and derived from [Code 1986, §§ 2-381—2-384; Ord. No. 9386, § 1, 5-29-90; Ord. No. 9654, § 2, 1-6-92; Ord. No. 10010, § 1, 2-8-94; Ord. No. 10541, § 1, 2-25-97; Ord. No. 10826, § 1, 2-9-99; Ord. No. 11103, § 2, 11-28-00; Ord. No. 11175, § 15, 9-11-01; Ord. No. 11581, § 15, 7-6-04; Ord. No. 12362, §§ 1, 2, 3-2-10; Ord. No. 12736, § 6, 7-2-13

†**Charter reference—**Planning generally, § 12.1 et seq.

Cross reference—Zoning regulations, Ch. 38.

State law references—Regional planning commission, T.C.A. §§ 13-3-101—13-3-105; regional planning regulations, T.C.A. §§ 13-3-401—13-3-408.

Sec. 2-602. Membership.

The commission referred to in section 2-401 shall consist of fifteen (15) members (as specified in Tennessee Code Annotated, section 13-3-101 designated by the director of the state planning office with the approval of the local government planning advisory committee in accordance with the bylaws of the Chattanooga-Hamilton County Regional Planning Commission, and Tennessee Code Annotated, section 13-3-101.
(Code 1986, § 2-402; Ord. No. 11103, § 2, 11-28-00)

Sec. 2-603. General duties.

It shall be the duty of the commission referred to in section 2-401 to make and adopt a general plan for the physical development of the territory of Hamilton County, including the territory within the municipalities; to develop a land use plan for all property within the county, including the municipalities; and to develop a major street plan so as to coordinate the streets and highways in the county and municipalities; and to perform other such duties and make such plans as directed by the city council and the planning commission.
(Code 1986, § 2-403; Ord. No. 9654, § 2, 1-6-92; Ord. No. 11103, § 2, 11-28-00)

Sec. 2-604. Disbursement of funds.

The city finance officer will disburse the funds which are appropriated by the city and county for the operation of the municipal planning commission, the disbursements to be made upon vouchers signed by the chairman and countersigned by the mayor or county executive.
(Code 1986, § 2-404; Ord. No. 9654, § 54, 1-6-92; Ord. No. 11103, § 2, 11-28-00)

Sec. 2-605. Authority to adopt bylaws; purchases and contracts regulated.

The municipal planning commission is hereby authorized to adopt bylaws governing its internal operations relative to the employment, discharge, promotion or demotion of personnel. All purchases and all contracts shall be made or executed pursuant to the provisions of sections 2-341 through 2-367, inclusive, of this Code or as the same may be hereafter amended.

(Ord. No. 11103, § 2, 11-28-00)

ARTICLE VIII. INSPECTION DEPARTMENT*

Sec. 2-621. Composition.

The personnel of the inspection department, under the general administrative supervision of the Director of the Land Development Office, shall consist of inspections as determined to be needed. Such employees shall be appointed by the mayor.
(Code 1986, § 2-421; Ord. No. 9654, § 55, 1-6-92; Ord. No. 11103, § 2, 11-28-00; Ord. No. 12966, § 1, 6-30-15)

***Cross references—**Buildings, Ch. 10; electrical regulations, Ch. 14; fire prevention and protection, Ch. 17; gas, Ch. 19; housing, Ch. 21; mechanical code, Ch. 22.5; plumbing regulations, Ch. 27.

Sec. 2-622. Building inspector and assistant—Powers and duties.

The building inspector shall supervise inspections of buildings. He and his assistant may enter any building in the city in the performance of their duties and may issue such orders as may be necessary to secure compliance with the ordinances of the city relating to buildings and structures. Failure, neglect or refusal of any person to comply with any such order shall be unlawful. Any duty or act required of or authorized to be done by the building inspector may be performed by the assistant building inspector, subject to the approval of the building inspector.
(Code 1986, § 2-422; Ord. No. 11103, § 2, 11-28-00)

Sec. 2-623. Same—Conflict of interest prohibited.

The building inspector and his assistant shall not, during their tenure in office, be employed or engaged directly or indirectly in any building business, enter into any contract for building for others or furnish materials, specifications or plans for buildings for others in the city.
(Code 1986, § 2-423; Ord. No. 11103, § 2, 11-28-00)

Sec. 2-624. Plumbing inspector.

The office of plumbing inspector is hereby created. Such officer shall be appointed by the mayor for a term of one (1) year from the first Monday in June until his successor is elected and qualified; provided, that he shall be subject to removal at any time by the mayor. When a vacancy in such office occurs, it shall be filled by the mayor. The plumbing inspector shall be a capable man of good moral character experienced in plumbing work. He shall enforce the provisions of this Code and other ordinances of the city relating to the installation and maintenance of plumbing. Before entering upon the discharge of the duties of his office, he shall take and subscribe before the mayor an oath faithfully and impartially to perform his duties.
(Code 1986, § 2-424; Ord. No. 9654, § 13, 1-6-92; Ord. No. 11103, § 2, 11-28-00)

Sec. 2-625. Construction Board of Adjustment and Appeals for Building, Residential, Electrical, Fire, Fuel Gas, Life Safety, Mechanical and Plumbing codes.

(a) There hereby is created a Construction Board of Adjustment and Appeals for all of the adopted building codes of the city. Such Board shall consist of nine (9) members, who shall be active in the field of construction and shall serve without compensation. One (1) member of the board shall be a building contractor; one (1) member shall be a plumbing contractor; one (1) member shall be an electrical contractor; one (1) member shall be a mechanical, heating, ventilation, and air conditioning contractor; one (1) member shall be a realtor; one (1) member shall be an architect; one (1) member shall be an engineer; one (1) member shall be a building supply dealer; and one (1) member shall be a person who is qualified by experience and training with the hazards of fire, explosions, hazardous conditions or fire protection systems. The members shall be appointed by the mayor, subject to city council approval, for terms of four (4) years each. The board shall organize by electing one (1) of its members as chair. The chair or the chair's designee shall act as secretary to the Board.

(b) The Construction Board of Adjustment and Appeals shall meet once monthly on a date to be determined by its chair, to consider appeals from the decisions of the various enforcement officers of the various construction codes of the city and to consider adjustments in the various construction codes. The Board shall also have the power to determine questions of administrative interpretations of the code, questions of the use of materials and types of construction, to hear proof of performance of new materials or materials not specifically covered in the codes, and to determine the usability of such materials and the safety and permanence of various types of construction.

(c) Every decision of the Board shall be final, subject however to such remedy as any aggrieved party might have at law or in equity from the Hamilton County Chancery Court.

(d) The Construction Board of Adjustment and Appeals shall also have power to make recommendations for revisions or modifications of all existing construction codes to the mechanical codes review committee.

(e) Five (5) members of the Construction Board of Adjustment and Appeals shall constitute a quorum. In varying the application of any provisions of this Code or in modifying an order of the building official, affirmative votes of the majority present, but not less than three (3) affirmative votes, shall be required. No board member shall act in a case in which that board member has a personal interest.

(f) Powers. The Construction Board of Adjustment and Appeals shall have the power, as further defined in (g), to hear appeals of decisions and interpretations of the building official and consider variances of the technical codes.

(g) Appeals of a Decision of the Building Official. The owner of a building, structure or service system, or a duly authorized agent, may appeal a decision of the building official to the Construction Board of Adjustment and Appeals whenever any one (1) of the following conditions are claimed to exist:

1. The building official rejected or refused to approve the mode or manner of construction proposed to be followed or materials to be used in the installation or alteration of a building, structure or service system.
2. The provisions of this code do not apply to this specific case.
3. That an equally good or more desirable form of installation can be employed in any specific case.
4. The true intent and meaning of this code or any of the regulations thereunder have been misconstrued or incorrectly interpreted.

(h) Variances. The Construction Board of Adjustment and Appeals, when so appealed to and after a hearing, may vary the application of any particular case when, in its opinion, the enforcement thereof would do manifest injustice and would be contrary to the spirit and purpose of this or the technical codes or public interest, and also finds all of the following:

1. That special conditions and circumstances exist which are peculiar to the building, structure or service system involved and which are not applicable to others.
2. That granting the variance requested will not confer on the applicant any special privilege that is denied by this code to other buildings, structures or service system.
3. That the variance granted is the minimum variance that will make possible the reasonable use of the building, structure or service system.
4. That the grant of the variance that will be in harmony with the general intent and purpose of this code and will not be detrimental to the public health, safety and general welfare.

   Conditions of the variance. In granting the variance, the board may prescribe a reasonable time limit within which the action for which the variance is required shall be commenced or completed or both. In addition, the board may prescribe appropriate conditions and safeguards in conformity with this code. Violation of the conditions of a variance shall be deemed a violation of this code.

(i) Procedures of the Board.

1. Rules and regulations. The board shall establish rules and regulations for its own procedure not inconsistent with the provisions of this code. The board shall meet once monthly, if applications are submitted, on a date to be determined by the chairman. The board shall meet within thirty (30) calendar days after notice of appeal has been received. No applications for any appeal shall be accepted if filed less than five (5) days before a scheduled monthly meeting.

2. Decisions. The Construction Board of Adjustment and Appeals shall, in every case, reach a decision without unreasonable or unnecessary delay. Each decision of the Board shall also include the reasons for the decision. If a decision of the Board reverses or modifies a refusal, order, or disallowance of the building official or varies the application of any provision of this code, the building official shall immediately take action in accordance with such decision. Every decision shall be promptly filed in writing in the office of the building official and shall be open to public inspection. Every decision of the Board shall be final, subject however to such remedy as any aggrieved party might have at law or in equity.

(Code 1986, § 2-425; Ord. No. 9654, §§ 2, 53, 1-6-92; Ord. No. 11041, § 5, 7-25-00; Ord. No. 11103, § 2, 11-28-00; Ord. No. 11721, § 5, 7-26-05)

Sec. 2-626 Mechanical codes review committee.

(a) There is hereby created a mechanical codes review committee. The committee shall have twelve (12) members which shall include all members of the Construction Board of Adjustment and Appeals for building, residential, electrical, fire, fuel gas, life safety, mechanical and plumbing codes for the city, and the Building Official, the Fire Marshall, and the City Attorney.

(b) The review committee shall meet, as needed, whenever the City considers the adoption of any new building, residential, electrical, fire, fuel gas, life safety, mechanical or plumbing codes as amendments to those codes become available. The review committee shall submit a recommendation any new code amendments which shall be presented to the City Council whenever new codes are considered for adoption.

(Code 1986, § 2-426; Ord. No. 9654, § 56, 1-6-92; Ord. No. 11103, § 2, 11-28-00; Ord. No. 11721, § 5, 7-26-05)

Sec. 2-627. Charge for issuance of permits.

The personnel of the inspection department shall collect an administrative charge of five dollars ($5.00) for the issuance of each permit issued by the department as required under the provisions of this Code or any ordinance or state statute in addition to the fees imposed therefor by the provisions of this Code or any ordinance or state statute.

(Code 1986, § 2-427; Ord. No. 9545, § 1, 4-30-91; Ord. No. 11103, § 2, 11-28-00)

Secs. 2-628—2-640. Reserved.

(Ord. No. 11103, § 2, 11-28-00)

ARTICLE IX. CHATTANOOGA DEPARTMENT OF EARLY LEARNING*

Sec. 2-641. Created; purpose.

There be and is hereby created and established the Department of Early Learning. This department will manage the City of Chattanooga Head Start and Early Head Start programs, manage the City of Chattanooga Foster Grandparent program, and manage partnerships with Hamilton County Schools and early learning centers throughout Chattanooga.
(Ord. No. 13786, § 1, 2-22-22)

Sec. 2-642. City council designated policy body; powers.

The city council is hereby appointed as the policy body for human services programs. Such body shall also have the power to grant final approval of all programs, proposals, and budgets; to enforce compliance with all conditions made by federal agencies; and to determine, subject to such federal regulations and policies, the rules of procedure for the policy-making body.
(Ord. No. 13786, § 1, 2-22-22)

Sec. 2-643. Head Start Governing Board—Created; function; composition.

(a) As part of the Department of Early Learning, there is hereby created the Head Start Governing Board (the "Board"). Pursuant to the Head Start Act, 42 USC § § 9801, et seq., this Board shall: 1) be the governing body for the City of Chattanooga Head Start and Early Head Start Programs; 2) be directly responsible for overseeing the legal and fiscal affairs of the City of Chattanooga Head Start and Early Head Start programs; and 3) fulfill the responsibilities and requirements set forth in 42 USC § 9837 and other applicable federal, state, and local laws, rules, and regulations.

(b) The Board shall be composed of fifteen (15) members. The Mayor of the City of Chattanooga (also referred to herein as the "City Mayor") shall appoint five (5) members to the Board, each member of the City Council shall appoint one (1) member to the Board, and the Hamilton County Mayor shall appoint one (1) member to the Board. Prospective members who are appointed by City Council shall live in the district of the Council member who appointed them. The prospective Board members appointed by the City Mayor and by each City Council member shall be subject to confirmation by a majority of the City Council.

(c) Not less than one (1) member shall have a background and expertise in fiscal management or accounting; not less than one (1) member shall have a background and expertise in early childhood education and development; and not less than one (1) member shall be a licensed attorney familiar with issues that come before the Board. Additional members shall (I) reflect the community to be served and include parents of children who are currently, or were formerly, enrolled in Head Start programs; and (II) are selected for their expertise in education, business administration, or community affairs from the following categories: private social service agencies; educational institutions; child services; business organizations; veteran organizations; religious institutions; and low income residents of the City. At any meeting of this Board eight (8) members shall constitute a quorum to conduct business.
(Ord. No. 13786, § 1, 2-22-22)

***Editor's note—**Ord. No. 13786, § 1, adopted Feb. 22, 2022, repealed the former Art. IX, §§ 2-641—2-650, and enacted a new Art. IX as set out herein. The former Art. IX pertained to Chattanooga Youth and Family Development Department and derived from Code 1986, §§ 2-441—2-446, 2-448—2-450; Ord. No. 9496, §§ 2, 3, adopted Dec. 11, 1990; Ord. No. 9654, §§ 2, 8, 57, 59, adopted Jan. 6, 1992; Ord. No. 11103, § 2, adopted Nov. 28, 2000; Ord. No. 12148, §§ 1, 2, adopted July 22, 2008; Ord. No. 12736, § 1, adopted July 2, 2013.

Cross references—City relief bureau, § 2-9 et seq.; fair housing regulations, § 21-81 et seq.

Sec. 2-644. Same—Terms; vacancies.

The terms of the members of the Head Start Governing Board shall be for two (2) years. Initially, the members of the Board shall be appointed so that they hold office for staggered terms. The members appointed from City Council districts 1, 3, 5, 7, and 9, and three (3) of the City Mayor appointments shall be initially appointed for one (1) year terms. The members appointed from City Council districts 2, 4, 6, and 8, and two (2) of the City Mayor appointments and the one (1) County Mayor appointment shall be initially appointed for two (2) year terms. Upon the expiration of the term of any appointed member, a successor shall serve a term of two (2) years. The failure of any member to attend two (2) consecutive meetings or three (3) meetings within any calendar year shall be the basis for removal by the City Mayor and reappointment of another member by the City Mayor, subject to the confirmation of a majority of the City Council. Should any vacancy occur on the Board by death, resignation, or removal of a member, the member's unexpired term shall be filled by appointment of a member residing in the same district as the member vacating the Board, if possible. No member, other than an elected official or his designee, may serve more than two (2) consecutive terms on the Board.
(Ord. No. 13786, § 1, 2-22-22)

Sec. 2-645. Same—Limited scope of board function.

The governance authority of the Head Start Governing Board shall be limited to the City of Chattanooga Head Start and Early Head Start programs only. The Board shall not have any governance, administrative, nor operational authority over the Department of Early Learning, its administrator, directors, managers, or staff. All administrative and operational authority over the Department of Early Learning shall be vested in the City Mayor and in the administrator of the department, as set forth in Sec. 2-649 below, and her or his executive leadership team.
(Ord. No. 13786, § 1, 2-22-22)

Sec. 2-646. Same—Bylaws; officers; executive committee.

The Head Start Governing Board shall adopt and may amend bylaws for the regulation of its meetings and proceedings. It shall also elect officers. At the same time officers are elected, the Board shall appoint an executive committee, not to exceed five (5) in number. The executive committee shall have as members the Board chairman, vice chairman, secretary, and two (2) members elected by the board from among its number. The executive committee shall have power to function between formal board meetings and power to act on behalf of the Board.
(Ord. No. 13786, § 1, 2-22-22)

Sec. 2-647. Reserved.
(Ord. No. 13786, § 1, 2-22-22)

Sec. 2-648. Administrator.

There shall be an administrator of the Department of Early Learning who shall be appointed by the Mayor of the City of Chattanooga subject to confirmation by a majority of the City Council. If the administrator position becomes vacant, the vacancy shall be filled by the Mayor of the City of Chattanooga, and be subject to confirmation by a majority of the City Council.
(Ord. No. 13786, § 1, 2-22-22)

Sec. 2-649. Administrative control of department; powers of mayor, administrator.

The City Mayor and the administrator of the Department of Early Learning shall have respective levels of administrative authority over the Department of Early Learning. The City Mayor shall be empowered to

employ, discharge or suspend the administrator of the department subject to confirmation by a majority of the City Council. The administrator shall be empowered to employ, discharge or suspend all other employees of the department subject to confirmation of the mayor and city council.
(Ord. No. 13786, § 1, 2-22-22)

Sec. 2-650. Financial affairs; receipts and disbursements.

All fiscal and financial affairs of the Department of Early Learning shall be conducted by the city finance officer. All receipts and disbursements shall be handled in accordance with the applicable provisions of the charter and ordinances of the city.
(Ord. No. 13786, § 1, 2-22-22)

Secs. 2-651—2-660. Reserved.

ARTICLE X. SUPPLEMENTAL PENSION BENEFITS*

Sec. 2-661. Reserved.

Editor's note—Ord. No. 13386, § 2, adopted Oct. 23, 2018, repealed § 2-661, which pertained to special fund created and derived from Code 1986, § 2-461; Ord. No. 11103, § 2, 11-28-00.

Sec. 2-662. Administration of fund by board of directors.

The supplemental pension fund shall be administered by a board to be known as the board of directors of the supplemental pension fund. Such board shall be composed of five (5) persons to be appointed by the mayor subject to confirmation by the city council. The board members shall serve for three (3) year terms or until their successors have been duly appointed. Any member may be reappointed. The mayor, subject to confirmation by the city council, shall designate a chairman, vice-chairman and a secretary of the board. The board members shall serve either at the pleasure of the mayor or the city council.
(Code 1986, § 2-462; Ord. No. 9654, § 2, 1-6-92; Ord. No. 11103, § 2, 11-28-00)

Sec. 2-663. Procedure for determining supplemental benefit.

Any retiree or person who is being paid a pension by the city, or from the firemen's and policemen's insurance and pension fund, who is or will be at least sixty-five (65) years of age on any entitlement date, as defined in section 2-467, shall be entitled to receive as a supplemental pension benefit two hundred fifty dollars ($250.00) per month less the total amount such person is now receiving per month from any pension or retirement benefit paid by any government entity (whether federal, any state, county or city), including the amount such person is or would be entitled to receive as social security benefits or any annuity income that has been or is being provided in whole or in part by contributions from any government entity, but excluding earned or investment income.
(Code 1986, § 2-463; Ord. No. 11103, § 2, 11-28-00)

***Charter reference—**Pensions and death benefits, §§ 3.35—3.52.

Cross references—City authorized to contribute to pension funds created and operated by labor organizations, § 2-7; social security for city employees generally, § 2-231 et seq.; minimum pension for teachers with twenty-five (25) years' service, § 30-1.

Sec. 2-664. Application for supplemental benefit; termination of benefits.

(a) Before any person shall be entitled to a supplemental pension benefit such person shall file an application with the city finance officer on a form provided by the city finance officer stating under oath or affirmation the required information or facts as would show that such person may be entitled to a supplemental pension benefit, and there shall be filed with such application proof as to the amount of social security or pension income being received by or to which the applicant may be entitled. If the city finance officer at any time shall not be satisfied as to the accuracy or truthfulness of the contents of the application, whether before or after a supplemental pension benefit may have been granted, he shall be and is hereby empowered to subpoena such person or other witnesses and examine them under oath or affirmation as to the facts contained in such application, or as to any such matters as should have been contained therein. If the city finance officer is of the opinion that such application is false, fraudulent, erroneous, inaccurate or invalid, he shall report such finding to the board of directors which shall then conduct a hearing after at least fourteen (14) days' notice to all parties in interest. The city attorney or his representative may attend and examine or cross-examine any witness. The chairman, vice-chairman or secretary of the board of directors shall have the authority to summon witnesses and administer oaths or affirmations. The decision of the board of directors shall be final and conclusive, but subject to review by any court of competent jurisdiction as may be provided by law. The applicant may be represented by counsel before the city finance officer and/or before the board of directors at any such hearing.

(b) If at any time the board of directors has reason to believe that any person is not entitled to a supplemental pension benefit that may have been previously granted, or that any person is no longer entitled thereto, it shall be the duty of the board of directors to have a notice served on the recipient of such supplemental pension benefit, either by certified mail or otherwise, requiring such person to appear, not less than fourteen (14) days after service of such notice, before the board of directors and show cause, if any there be, why such supplemental pension benefit should not be terminated. If the board of directors finds that such person has previously received supplemental pension benefits to which such person was not entitled under the provisions of this article, or that an application of such person contains false or materially inaccurate information or false testimony was given before either the city auditor or the board of directors, or before a court, then in such event the recipient shall be liable to repay the total of such illegally received money and the city attorney is authorized in his discretion to file suit on behalf of the city to collect same. Furthermore, if any person files a willfully false or materially inaccurate application, such person shall be fined not more than fifty dollars ($50.00) upon conviction by the city court. Any person found by the board of directors to have filed a false or materially inaccurate application, or to have given false testimony, or who is convicted by the city court as aforesaid, shall forfeit any right to any future supplemental pension benefits under this article.
(Code 1986, § 2-464; Ord. No. 9654, § 8, 1-6-92; Ord. No. 11103, § 2, 11-28-00)

Sec. 2-665. Application filing date; payment of benefit.

Applications for supplemental pension benefit by any person who is entitled thereto as of January 1, 1975, shall be filed on or before May 1, 1975; and if granted by the board of directors of the supplemental pension fund, then supplemental pension benefit payments shall be paid in a lump sum retroactive to and for the month of January, 1975; otherwise, such person shall be entitled to a supplemental pension benefit the first of the month following the filing of an application, provided the same is granted.
(Code 1986, § 2-465; Ord. No. 11103, § 2, 11-28-00)

Sec. 2-666. Annual reapplication required.

On or before October 1, 1975, and each year thereafter, each person receiving a supplemental pension benefit shall refile an application similar to the original application, setting forth under oath or affirmation

the pertinent information relative to pension or retirement income as referred to in section 2-463. Such annual reapplication shall be subject to examination by the city finance officer in the same manner as provided in section 2-464(a) and (b) and the review procedure shall be the same as provided therein.
(Code 1986, § 2-466; Ord. No. 9654, § 8, 1-6-92; Ord. No. 11103, § 2, 11-28-00)

Sec. 2-667. "Entitlement date" defined.

The phrase "entitlement date," as used in section 2-463 shall mean January 1, 1975, and the first day of the month following the applicant's sixty-fifth (65th) birthday.
(Code 1986, § 2-467; Ord. No. 11103, § 2, 11-28-00)

Cross reference—Definitions and rules of construction generally, § 1-2.

Sec. 2-668. When benefits payable.

Supplemental pension benefits shall be payable on the first of each month for the preceding month.
(Code 1986, § 2-468; Ord. No. 11103, § 2, 11-28-00)

Sec. 2-669. Termination upon death of recipient.

Any supplemental pension benefits shall terminate as of the date of death of any person receiving same.
(Code 1986, § 2-469; Ord. No. 11103, § 2, 11-28-00)

Sec. 2-670. Studies of city pension systems; purpose.

It shall be the duty of the city finance officer to conduct an ongoing study of all the pension systems of the city, and he is authorized to employ from time to time the services of actuarial or other consultants to make any necessary and relevant studies that may now or hereafter be needed. The results of any such studies by the city finance officer and/or any consultant, together with any recommendations, shall be reported annually to the mayor and city council. It shall be the purpose of such studies to accomplish equity and fairness of treatment among all retirees relative to retirement benefits, including those retirees who will not, it the time of the enactment of this article, receive supplemental pension benefits under the provisions of this article.
(Code 1986, § 2-470; Ord. No. 9654, §§ 8, 38, 1-6-92; Ord. No. 11103, § 2, 11-28-00)

Sec. 2-671. Benefit increases.

(a) Every person receiving or hereafter entitled to receive a supplemental pension benefit, and every person who retired on or before July 1, 1972, receiving or hereafter entitled to receive a pension from any pension plan of the city, shall receive as a supplemental pension benefit a sum equal to five percent (5%) more than such person is now [August 12, 1975] receiving or would otherwise hereafter be entitled to receive. Such additional five percent (5%) shall commence with the payment due for the month of September, 1975, and thereafter.

(b) Every person receiving or hereafter entitled to receive a supplemental pension benefit, and ever, person who retired on or before July 1, 1973, receiving or now entitled to receive, or hereafter entitled to receive, a pension from any pension plan of the city, shall receive as a supplemental pension benefit an additional four percent (4%) over and above and in addition to the amount so provided in prior ordinances. Such additional four percent (4%) shall commence with the payment due for the month of October, 1976 and thereafter.
(Code 1986, § 2-471; Ord. No. 11103, § 2, 11-28-00)

Secs. 2-672—2-690. Reserved.
(Ord. No. 11103, § 2, 11-28-00)

ARTICLE XI. SUSPENSION AND DEBARMENT OF CONTRACTORS*

Sec. 2-691. Authority of city to take action; grounds for debarment or suspension.

In addition to other provisions of law for rejecting bids and debarring or suspending bidders, the city may take the following actions to debar or suspend persons not otherwise debarred from city contracts by Tennessee Code Annotated, section 12-4-602 or other applicable law:

(1) Any person who has, since January 1, 1979, performed services as a contractor or subcontractor under, or bid on, a city contract, may be debarred from bidding on, or subcontracting for all or any part of, or entering any partnership or joint venture with respect to, or other-wise participating in, city contracts for a period of not more than five (5) years, if in connection with any federal, state or local government contract (including without limitation, the submission of bids or proposals therefor) the person has at any time since January 1, 1979:

a. Violated or participated in a violation of the Sherman Act (15 U.S.C. §§ 1, 2), or the Racketeer Influenced and Corrupt Organizations Act (18 U.S.C. §§ 1961-1968), or the Hobbs Act (18 U.S.C. § 1951), or the mail or wire fraud statutes (18 U.S.C. §§ 1341, 1343), or the false statement statute (18 U.S.C. § 1001) or other similar provision of federal or state law, as evidenced by (i) a plea of guilty or nolo contendere or a conviction in a criminal action; (ii) a judgment of liability in a civil action (whether public or private); or (iii) other competent evidence; or

b. Committed or participated in any other acts of such a serious nature as to affect the person's responsibility as a contractor or subcontractor on city contracts.

(2) a. Any person who has since January 1, 1979, performed services as a contractor or subcontractor under, or bid on, a city contract may be suspended from bidding on, or subcontracting for all or any part of, or entering any partnership or joint venture with respect to, or otherwise participating in, city contracts if there are reasonable grounds for suspecting that such person has committed any of the acts or conduct stated in subparagraph (1) of this section and the public interest requires that the person be immediately temporarily disqualified from bidding. Reasonable grounds shall consist of, but are not limited to, the return of an indictment or the filing of criminal information.

b. A suspension shall be for a temporary period, pending investigation, legal proceedings or other events which would be a basis for a debarment, or pending the completion of a debarment proceeding. A suspension shall not continue more than twelve (12) months, unless criminal or civil legal proceedings or debarment proceedings are in progress, in which case the suspension may be extended until the completion of such legal or debarment proceedings.

(3) For purposes of determining whether a basis for debarment or suspension exists under subparagraphs (1) and (2) of this section (and the scope of such debarment or suspension under this article), the term "person" shall include (i) in the case of a corporation: the corporation, its

***Editor's note—**The Court of Appeals of Tennessee, Eastern Section, in the case of CFW Construction Company, Inc., et al. v. City of Chattanooga and McDowell Contractors, Inc., et al. v. City of Chattanooga, dated February 21, 1985, reversed and dismissed the decision of the Hamilton County Chancery Court which had held that Ordinance No. 8259, codified in this article, violated the Tennessee Constitution's prohibition on retrospective laws and was preempted by T.C.A. § 12-4-601 et seq. The Court of Appeals ruled that the ordinance violated no vested right or contractual obligation. The Court also held that the statute cited did not preempt local ordinances on the subject, noting that T.C.A. § 6-56-306 gives municipalities authority to adopt regulations for competitive bidding on municipal contracts.

Cross reference—City purchases, contracts and property disposition, § 2-541 et seq.

officers, directors, shareholders, employees and agents, and its parents, subsidiaries or affiliates, whether in existence at the time of the event referred to in subparagraph (1) of this section or subsequently formed or acquired; (ii) in the case of a partnership or joint venture: the partnership or joint venture, its general or limited partners and joint ventures, its officers, employees and agents; and (iii) in the case of a sole proprietorship: the individual proprietor and his employees and agents. Where a partner or joint venture is a corporation, the partnership or joint venture shall have attributed to it the actions of persons attributable to the corporation under paragraph (i) of this subsection.

(Code 1986, § 2-491; Ord. No. 11103, § 2, 11-28-00)

Sec. 2-692. Instituting debarment process.

(a) The debarment process shall begin with the issuance of a notice to debar which may be issued by the mayor. The notice to debar shall specify the grounds, set forth in section 2-691, for the debarment, and advise the person considered for debarment that he may request a hearing thereon, and shall be served on the person named therein or on his duly authorized agent.

(b) Debarment shall be effective at 12:00 noon upon the twentieth day after the notice to debar is issued unless within that time the bidder has requested in writing a hearing on the notice, in which event debarment shall not be effective until or unless so ordered by the mayor. A request for a hearing shall be effective only if it is received by the city finance officer before 12:00 noon on the twentieth day after issuance.

(c) If a timely request for a hearing is made, a hearing shall be scheduled as soon as practicable before a hearing officer who shall promptly report his findings and recommendation to the city council. Based on these findings, the city council shall determine whether the person should be debarred and the period of such debarment. In the event of debarment, the period thereof shall begin on the day following such determination.

(Code 1986, § 2-492; Ord. No. 9654, §§ 2, 8, 61, 64, 1-6-92; Ord. No. 11103, § 2, 11-28-00)

Sec. 2-693. Instituting suspension process.

(a) The suspension process shall begin with the issuance of a notice to suspend which may be issued by the mayor. The notice to suspend shall specify the grounds set forth in section 2-691, for suspension, and advise the person suspended that he may request a hearing thereon, and shall be served on the person named therein or on his duly authorized agent.

(b) Suspension shall be effective as of the date of the notice to suspend. A suspended bidder may request a hearing if he files a request therefor with the clerk of the city council by 12:00 noon on the twentieth day after issuance of the notice to suspend.

(c) If a timely request for a hearing is made, a hearing shall be scheduled before a hearing officer within twenty (20) days of receipt of the request therefor, and the hearing officer shall, within ten (10) days of the hearing, report his findings and recommendation to the city council. Based on these findings, the city council shall determine whether the suspension shall remain in effect.

(Code 1986, § 2-493; Ord. No. 9654, §§ 2, 10, 61, 1-6-92; Ord. No. 11103, § 2, 11-28-00)

Sec. 2-694. Debarment or suspension hearing.

(a) Any hearing convened under this article shall be presided over by a hearing officer appointed by the mayor, subject to confirmation by the city council. The hearing officer shall be an attorney or former judge, licensed to practice law in this state, who has never represented the persons subject to debarment or suspension proceedings. Such attorney or former judge shall be entitled to a reasonable fee for his services rendered. The hearing officer shall be a notary public authorized to administer oaths in the county.

(b) At any hearing convened pursuant to this section, the party requesting the hearing shall have the burden of demonstrating that it is not subject to debarment under section 2-691(1) or suspension under section 2-691(2), as the case may be.

(c) The party requesting the hearing shall have the right to be represented by counsel and to present evidence. Such party shall (i) produce testimony under oath from all persons under its control and (ii) produce all documents in its possession, custody or control, which shall be requested by the hearing officer, or by the attorney for the city, which are relevant to the issues before it. All witnesses shall be subject to cross-examination by the hearing officer and the attorneys for the parties, including the attorney for the city.

(d) The hearing officer shall regulate proceedings in hearings before him and may receive any evidence which is probative and trustworthy, without being bound by judicial rules of evidence. If evidence requested by the hearing officer pursuant to paragraph (c) of this section is not produced, the hearing officer may draw such adverse inferences therefrom as may be warranted under the circumstances.
(Code 1986, § 2-494; Ord. No. 9654, § 2, 1-6-92; Ord. No. 11103, § 2, 11-28-00)

Sec. 2-695. Debarred and suspended bidders list.

The city finance officer shall maintain a current list of debarred and suspended bidders which shall be circulated to all city contracting personnel.
(Code 1986, § 2-495; Ord. No. 9654, § 8, 1-6-92; Ord. No. 11103, § 2, 11-28-00)

Sec. 2-696. Petition for early lifting of debarment.

(a) Any debarred bidder may petition at any time to have the debarment lifted or the term of debarment reduced by filing a petition in writing with the city finance officer. Upon any such petition which shows, by affidavits or otherwise, substantial facts which may warrant lifting of the debarment or reduction of its term, the mayor may schedule a hearing thereon under the procedures of section 2-694. A petition which does not set forth substantial facts under oath which may warrant lifting of the debarment or reduction in its term under the standards of this section shall not be effective, and no such hearing shall be scheduled thereon.

(b) The debarment may be lifted, or reduced in term, only if the petitioner proves that there is no significant risk that the petitioner will commit any of the acts described in section 2-691 on city contracts in the future, and the relief requested otherwise serves the public interest under the circumstances, taking into account the following factors:

(1) Whether petitioner has taken adequate and specific steps to insure that these acts are unlikely to occur in the future;

(2) Whether all individuals responsible for the prior violations have been removed from responsibility for the relevant matters;

(3) Whether petitioner has adopted a compliance program designed and implemented so as to educate its personnel about these violations and substantially to reduce the risk that they will recur;

(4) Whether petitioner has had its relevant personnel, and will take steps to assure that new personnel will, execute and file with the city a non-collusion affidavit in form acceptable to the city;

(5) Whether petitioner has cooperated in any investigation of the relevant violations by city, the state and the federal government;

(6) The degree of culpability on the part of the petitioner;

(7) The degree of continuity of the petitioner's business, assets or personnel;

(8) Whether petitioner has made monetary restitution to the city for the violations which affected city contracts; and

(9) Any other factor significantly affecting the public interest.

(Code 1986, § 2-496; Ord. No. 11103, § 2, 11-28-00)

Secs. 2-697—2-710. Reserved.

(Ord. No. 11103, § 2, 11-28-00)

ARTICLE XII. DEPARTMENT OF EQUITY AND COMMUNITY*

Sec. 2-711. Created.

There be and is hereby created and established the Department of Equity and Community Engagement ("ECE").

(Ord. No. 13909, § 1, 11-8-22)

Sec. 2-712. Purpose; functions.

The Department of Equity and Community Engagement assists Chattanooga residents who experience discriminatory practices by working to remove City wide barriers that inhibit personal and communal financial stability and growth, hinder professional/career opportunities and advancement, and impede social inclusion and well-being. ECE will aim to connect Chattanooga residents to economic, educational, and civic resources, influence local policy, and promote advocacy. At its core, ECE will serve as a bridge that connects people to resources, support, information, and community. The three (3) functions and focus areas of ECE are as follows:

a. Community Engagement will lead community engagement efforts for the City of Chattanooga that are equitable and effective. Community Engagement will collaborate with diverse groups of local neighborhood leaders, non-profit organizations, faith leaders, advocates, organizers, and Chattanooga residents to elevate the voices and participation of our entire community. Such collaborations will assist Community Engagement in building trust through strong relationships and partnerships with community members and influencers, nonprofit partners, faith leaders, and industry partners, and facilitate authentic community engagement to uplift underrepresented voices to meaningfully involve them in decisions that affect their lives and communities.

b. Supplier Diversity will work to assist diverse business owners who encounter economic and professional barriers by creating strategic partnerships and cultivating networking opportunities with local business leaders by building a community of support and resources.

c. The Office of New Americans ("ONA") is charged with connecting local immigrant and refugee communities to resources and opportunities to foster a greater sense of belonging in Chattanooga. ONA will create strategies, programs, and projects that seek to facilitate the elimination of barriers that prevent immigrant and refugee residents from engaging as thriving members of the Chattanooga community. ONA's goal is to welcome and embrace the diverse cultures and backgrounds of immigrant and refugee residents by creating and offering equitable access to opportunities and city programs and services and connecting people to communities. ONA will

***Editor's note—**Ord. No. 13909, § 1, adopted Nov. 8, 2022, repealed the former Art. XII, §§ 2-711—2-716, and enacted a new Art. XII as set out herein. The former Art. XII pertained to office of multicultural affairs and derived from Code 1986, §§ 2-511—2-515; Ord. No. 9654, §§ 2, 38, 56, 1-6-92; Ord. No. 10703; § 1, 5-19-98; Ord. No. 11103, § 2, 11-28-00; Ord. No. 11767, § 2, 11-22-05; Ord. No. 12243, §§ 1, 2, 5-19-09.

also endeavor to work with and support the existing immigrant and refugee ecosystem, helping it to better serve Chattanooga's immigrant and refugee community and their accessible opportunities.

(Ord. No. 13909, § 1, 11-8-22)

Sec. 2-713. Equity board—created; function; composition.

a. As part of the Department of Equity and Community Engagement, there is hereby created the Equity Board (the "Board"). This Board shall advise, promote, and advocate for the various initiatives, projects, and goals of ECE.

b. The Board shall be composed of no more than fifteen (15) members. The Mayor of the City of Chattanooga (also referred to herein as the "Mayor") shall appoint at least four (4) members to the Board and each member of the City Council shall appoint one (1) member to the Board. Prospective members who are appointed by City Council shall live in the district of the Council member who appointed them. The prospective Board members appointed by the Mayor and by each City Council member shall be subject to confirmation by a majority of the City Council.

c. Board members shall reflect the diversity of Chattanooga and shall have experience being actively engaged in the Chattanooga community and/or a strong interest in advocating on behalf of all demographics of Chattanooga residents. Members shall be committed to assisting ECE fulfill its goals of working towards building an equitable, tolerant, and prosperous community for all Chattanooga residents.

(Ord. No. 13909, § 1, 11-8-22)

Sec. 2-714. Same—Terms; vacancies.

The terms of the members of the Board shall be for three (3) years. Initially, the members of the Board shall be appointed so that they hold office for staggered terms. The members appointed from City Council districts 1, 3, 5, 7, and 9, and at least two (2) of the Mayor appointments shall be initially appointed for one (1) year terms. The members appointed from City Council districts 2, 4, 6, and 8, and at least two (2) of the Mayor appointments shall be initially appointed for two (2) year terms. Upon the expiration of the term of any appointed member, a successor shall serve a term of three (3) years. The failure of any member to attend two (2) consecutive meetings or three (3) meetings within any calendar year shall be the basis for removal by the Mayor and reappointment of another member by the Mayor, subject to the confirmation of a majority of the City Council. Should any vacancy occur on the Board by death, resignation, or removal of a member, the member's unexpired term shall be filled by appointment of a member residing in the same district as the member vacating the Board, if possible. No member may serve more than two (2) consecutive terms on the Board.

(Ord. No. 13909, § 1, 11-8-22)

Sec. 2-715. Same—Limited scope of Board function.

The advisory responsibilities of the Board shall be limited to the City of Chattanooga Department of Equity and Community Engagement programs and initiatives only. The Board shall not have any governance, administrative, nor operational authority over the Department of Equity and Community Engagement, including its four divisions, its administrator, directors, managers, or staff. All administrative and operational authority over the Department of Equity and Community Engagement shall be vested in the Mayor and in the administrator of the department, as set forth in Sec. 2-717 below, and her or his executive leadership team.

(Ord. No. 13909, § 1, 11-8-22)

Sec. 2-716. Same—Bylaws; officers; executive committee.

The Equity Board shall adopt and may amend bylaws for the regulation of its meetings and proceedings. It shall also elect as officers, a Chairperson, Vice Chairperson, and Secretary, who will serve as the executive committee for the Board.
(Ord. No. 13909, § 1, 11-8-22)

Sec. 2-717. Administrator.

There shall be an administrator of the Department of Equity and Community Engagement who shall be appointed by the Mayor of the City of Chattanooga subject to confirmation by a majority of the City Council. If the administrator position becomes vacant, the vacancy shall be filled by the Mayor of the City of Chattanooga and be subject to confirmation by a majority of the City Council.
(Ord. No. 13909, § 1, 11-8-22)

Sec. 2-718. Administrative control of department; powers of mayor, administrator.

The City Mayor and the administrator of the Department of Equity and Community Engagement shall have respective levels of administrative authority over the Department of Equity and Community Engagement. The City Mayor shall be empowered to employ, discharge, or suspend the administrator of the department. The administrator shall be empowered to employ, discharge, or suspend all other employees of the department.
(Ord. No. 13909, § 1, 11-8-22)

Sec. 2-719. Financial affairs; receipts and disbursements.

All fiscal and financial affairs of the Department of Equity and Community Engagement shall be conducted by the city finance officer. All receipts and disbursements shall be handled in accordance with the applicable provisions of the charter and ordinances of the city.
(Ord. No. 13909, § 1, 11-8-22)

Secs. 2-720—2-749. Reserved.

ARTICLE XIII. CODE OF ETHICS*

Sec. 2-750. Applicability.

This Article is the code of ethics for personnel of the City of Chattanooga ("City"). It applies to all full-time and part-time employees, including individuals serving on any separate board, commission, committee, authority, corporation, or other instrumentality appointed or created by the City, whether compensated or not.
(Ord. No. 11985, § 2, 6-26-07; Ord. No. 12804, § 1, 2-18-14)

Sec. 2-751. Definition of "personal interest."

A. For purposes of Sections 2-752 and 2-753, "personal interest" means:

1. Any financial, ownership, or employment interest in the subject of a vote by a municipal board not otherwise regulated by state statutes on conflicts of interests; or

2. Any financial, ownership, or employment interest in a matter to be regulated or supervised; or

---

***Editor's note—**Formerly entitled "Boards and Commissions," which was created by Ord. No. 11769, § 1, 12-6-05 and repealed by Ord. No. 11985, § 2, 6-26-07.

3. Any such financial, ownership, or employment interest of the official's or employee's spouse, parent(s), stepparent(s), grandparent(s), sibling(s), child(ren), or stepchild(ren).

B. "Employment interest" includes, but is not limited to, a situation in which an official or employee or an immediate family member is negotiating possible employment with a person or entity that is the subject of the vote or that is to be regulated or supervised.

C. In any situation in which a personal interest is also a conflict of interest under state law, the provisions of the state law take precedence over the provisions of this chapter.
(Ord. No. 11985, § 2, 6-26-07; Ord. No. 12804, § 1, 2-18-14)

Sec. 2-752. Disclosure of personal interest by official with vote.

An official with the responsibility to vote on a measure shall disclose during the meeting at which the vote takes place, before the vote and so it appears in the minutes, any personal interest that affects or that would lead a reasonable person to infer that it affects the official's vote on the measure. In addition, the official shall not lobby any official or employee of the City of Chattanooga or vote on matters in which they have a personal interest.
(Ord. No. 11985, § 2, 6-26-07; Ord. No. 12804, § 1, 2-18-14)

Sec. 2-753. Disclosure of personal interest in nonvoting matters.

An official or employee who must exercise discretion relative to any matter, other than casting a vote, and who has a personal interest in the matter that affects or that would lead a reasonable person to infer that it affects the exercise of discretion shall disclose, before the exercise of the discretion when possible, the interest on a form provided by and filed with the Office of the City Attorney. In addition, the official or employee shall not participate in any way on matters in which they have a personal interest.
(Ord. No. 11985, § 2, 6-26-07; Ord. No. 12804, § 1, 2-18-14)

Sec. 2-754. Acceptance of gratuities, etc.

A. An official or employee may not accept, directly or indirectly, any money, gift, gratuity, or other consideration or favor of any kind from anyone other than the City:

1. For the performance of an act, or refraining from performance of an act, that he or she would be expected to perform, or refrain from performing, in the regular course of his or her duties; or

2. That might reasonably be interpreted as an attempt to influence his or her action, or reward him or her for past action, in executing business of the City.

B. No official or employee shall solicit or accept, directly or indirectly, on behalf of himself or any member of the employee's household, any gift, including but not limited to any gratuity, service, favor, food, entertainment, lodging, transportation, loan, loan guarantee or any other thing of monetary value from any person or entity that:

1. Has or is seeking to obtain contractual or other business or financial relations with the City;

2. Conducts operations or activities that are regulated by the City; or

3. Has interests that may be substantially affected by the performance or nonperformance of the official's or employee's duties.

C. Exceptions. The prohibition of accepting gifts does not apply to:

1. A gift or gratuity that is not cash or a cash equivalent (such as a check or gift card), and which has a value of Fifty Dollars ($50.00) or less, shall not be interpreted as an attempt to influence the action of an official or employee;

2. A gift given by a member of an official's or employee's immediate family, or by an individual if the gift is given for a non-business purpose and is motivated by a close personal relationship;

3. Informational materials, such as books, periodicals, audio or video, or sample merchandise helpful as a part of the employee's or official's duties in determining the appropriateness of the product for use as a part of city business;

4. Unsolicited tokens or awards of appreciation, honorary degrees or bona fide awards in recognition of public service, provided that any such item cannot be readily converted to cash;

5. Food, refreshments, foodstuffs, entertainment or beverages provided as a part of a meal or other event in which the employee or official is attending or is a speaker or part of a panel discussion at a scheduled meeting of an established or recognized membership organization;

6. Loans from established financial institutions made in the ordinary course of business on usual and customary terms; and

7. Voluntary, legally disclosed political campaign contributions given in accordance with applicable federal and state statutes to an individual covered by the provisions of this section who has announced his intention to seek elected office.

Except as provided in subsection C. above, an official or employee shall not accept any gift from anyone for any service or duty performed as an official or employee of the City without the express consent of the City Council.
(Ord. No. 11985, § 2, 6-26-07; Ord. No. 12804, § 1, 2-18-14; Ord. No. 12863, § 1, 10-14-14)

Sec. 2-755. Use of information.

A. An official or employee shall not disclose any information obtained in his or her official capacity or position of employment that is made confidential under state or federal law except as authorized by law.

B. An official or employee shall not use or disclose information obtained in his or her official capacity or position of employment with the intent to result in financial gain for himself or any other person or entity.
(Ord. No. 11985, § 2, 6-26-07; Ord. No. 12804, § 1, 2-18-14)

Sec. 2-756. Use of municipal time, facilities, etc.

A. An official or employee shall not use or authorize the use of municipal time, facilities, equipment, or supplies for private gain or advantage to himself or herself.

B. An official or employee shall not use or authorize the use of municipal time, facilities, equipment, or supplies for private gain or advantage to any private person or entity, except as authorized by legitimate contract or lease that is determined by the governing body to be in the best interests of the municipality.
(Ord. No. 11985, § 2, 6-26-07; Ord. No. 12804, § 1, 2-18-14)

Sec. 2-757. Use of position or authority.

A. An official or employee shall not make or attempt to make private purchases, for cash or otherwise, in the name of the municipality.

B. An official or employee shall not use or attempt to use his or her position for personal financial gain or to secure any privilege or exemption for himself, herself, or others that is not authorized by the charter, general law, or ordinance or policy of the municipality.
(Ord. No. 11985, § 2, 6-26-07; Ord. No. 12804, § 1, 2-18-14)

Sec. 2-758. Outside employment.

An official or employee shall not accept or continue any outside employment if the work unreasonably inhibits the performance of any affirmative duty of the municipal position or conflicts with any provision of the municipality's charter or any ordinance or policy and outside employment must comply with Sections 2-431 and 2-432 of this chapter.
(Ord. No. 11985, § 2, 6-26-07; Ord. No. 12804, § 1, 2-18-14)

Sec. 2-759. Ethics Officer.

A. Authority. The city attorney is designated as the Chief Ethics Officer of the City. Upon the written request of an official or employee potentially affected by a provision of this chapter, the city attorney may render an oral or written advisory ethics opinion based upon this chapter and other applicable law.

B. Conflicts of Interest. Except as otherwise provided in this subsection, the Chief Ethics Officer shall investigate any credible complaint against an appointed official or employee charging any violation of this chapter, or may undertake an investigation on his or her own initiative when he or she acquires information indicating a possible violation and make recommendations for action to end or seek retribution for any activity that, in the attorney's judgment, constitutes a violation of this code of ethics.

C. Conflicts of Interest for the Chief Ethics Officer. When a conflict of interest exists in a particular matter, the Chief Ethics Officer may request that the governing body hire another attorney, individual, or entity to act as Chief Ethics Officer.
(Ord. No. 11985, § 2, 6-26-07; Ord. No. 12804, § 1, 2-18-14)

Sec. 2-760. Ethics Committee.

A. Creation and membership. There is created the Ethics Committee for the City. The Ethics Committee shall consist of the Director of Human Resources, the Chief Financial Officer, and the Chair of the City Council or his or her designee.

B. Duties of the Ethics Committee. The Ethics Committee shall work with the Chief Ethics Officer to review ethics opinions as provided in subsection C of this section and to perform such other duties as provided in this Article.

C. Ethics opinions.

1. An official or employee subject to this Article may request an ethics opinion; provided, however, that the Ethics Committee or the Chief Ethics Officer shall retain sole discretion concerning whether such a formal ethics opinion should be issued.

2. The Chief Ethics Officer shall place and publish formal ethics opinions on the Office of City Attorney's website for public access.

(Ord. No. 11985, § 2, 6-26-07; Ord. No. 12804, § 1, 2-18-14)

Sec. 2-761. Complaints and Complaint Procedures.

A. Complaints against an official or employee.

1. Any citizen of the City, including but not limited to officials or employees, may submit a complaint in writing and under oath, alleging that one (1) or more officials or employees have violated or may have violated any provision of this Article within ninety (90) days following of the alleged violation.

2. The complaint must be signed by the complainant and notarized, and must contain the following:

   (i) The complainant's legal name and current mailing address;

(ii) The name or names of any officials or employees who committed or may have committed the alleged violation;

(iii) A summary of the facts giving rise to the complaint; and

(iv) Some explanation of why those facts constitute or may constitute a violation of this Article.

3. Anyone filing a false complaint will be subject to the penalties for perjury.

4. The Chief Ethics Officer, or his or her designee, may assist complainants in completing the form of a complaint.

5. The complaint must be filed with the Chief Ethics Officer. Upon receipt, the Chief Ethics Officer shall promptly provide a copy of the complaint to the official or employee named therein and to the Ethics Committee. As used in this section, unless otherwise noted, the term "provide" means to send by U.S. mail or to hand deliver.

6. The Chief Ethics Officer will evaluate the complaint, applying the law of the standards of conduct to the facts alleged in the complaint.

7. Within twenty-one (21) days from receipt of the complaint, the Chief Ethics Officer shall issue a report and recommendation, including a copy of the complaint, to the Ethics Committee. The report should provide a conclusion as to whether the facts alleged in the complaint, if true, would give rise to a violation of this Article.

8. After receiving the Chief Ethics Officer's report, the Ethics Committee shall review the Chief Ethics Officer's report, and may accept or reject the Chief Ethics Officer's recommendation. Based on its findings, the Ethics Committee is authorized to dismiss the complaint or make certain recommendations to the official, administrator, or chair of the board, commission, or committee on which an employee or official serves.

9. Any decision shall require the affirmative concurring vote of at least two (2) members of the Ethics Committee. The decision shall be filed with the Chief Ethics Officer, who shall within a reasonable amount of time place all such decisions on City Attorney's office website for public access, and provide to the complainant and to the official or employee named in the complaint.

10. From the time a complaint has been received by the members of the Ethics Committee, until a written decision has been issued, no member of the Ethics Committee shall participate in any communication regarding the allegations or merits of the complaint, outside of the Ethics Committee's public meetings or hearings, except as contemplated by these procedures.

11. If a complaint is filed against a member of the Ethics Committee, that member shall recuse himself or herself from any discussion contemplated by this article pursuant to the process outlined herein.

B. Complaints against members of City Council. When a complaint of a violation of any provision of this Article is lodged against a member of City Council, the Chief Ethics Officer shall present such complaint at the next regularly scheduled meeting of the City Council. Upon hearing the nature of the complaint, by a majority vote, the City Council shall determine that the complaint has merit, determine that the complaint does not have merit, or determine that the complaint has sufficient merit to warrant further investigation. If by a majority vote, the City Council determines that a complaint warrants further investigation, it shall authorize an investigation by the Chief Ethics Officer or another individual or entity chosen by the City Council.

(Ord. No. 11985, § 2, 6-26-07; Ord. No. 12804, § 1, 2-18-14)

Sec. 2-762. Reporting; whistleblower protection; abuse of process; complicity.

A. It is the duty of every employee of the City to report, directly and without delay, to their supervisor, Chief Ethics Officer, or City Auditor any and all information concerning conduct which they know or should reasonably know to involve corrupt or other criminal activity, by an official or employee, which concerns his or her office or employment or by persons dealing with the City, which concerns their dealings with the City. The knowing failure of any official or employee to report as required above shall subject the official or employee to disciplinary action. For purposes of this Subsection A, a report made to the ethics hotline shall be considered a report to the City Auditor.

B. Officials and employees are encouraged to report suspected ethical violations to the Ethics Committee.

C. No official or employee shall use or threaten to use any official authority or influence to discourage, restrain or interfere with any other person for the purpose of preventing such person from acting in good faith to report or otherwise bring to the attention of the Ethics Committee information relating to an ethics violation or investigation.

D. No official or employee shall use or threaten to use any official authority or influence to effect any action to retaliate against any person who reports or initiates a complaint, or otherwise assists in the investigation of an ethics complaint.

E. No official or employee shall file a complaint with the Chief Ethics Officer absent a good-faith basis for the allegations.

F. An official or employee shall not falsely accuse another official or employee of failing to comply with this Article.

G. No official or employee may knowingly induce, encourage, or aid anyone to violate any provision of this Article.

H. Any violation of this subsection shall be subject to investigation and action by the Chief Ethics Officer and the Ethics Committee.
(Ord. No. 11985, § 2, 6-26-07; Ord. No. 12804, § 1, 2-18-14)

Sec. 2-763. Violations.

An elected official or appointed member of a separate municipal board, commission, committee, authority, corporation, or other instrumentality who violates any provision of this Article is subject to punishment as provided by the Charter, City Code, or other applicable law and, in addition, is subject to censure by the governing body, which censure shall be made a part of the minutes of the governing body. Additionally, an appointed official or an employee who violates any provision of this Article is subject to disciplinary action.
(Ord. No. 12804, § 1, 2-18-14)

Sec. 2-764. Conduct during meetings.

Conduct of individual members during meetings of any municipal board, commission, committee, authority, corporation, or other instrumentality is expected to reflect a total sense of respect for the office held by those assembled to conduct business. Members shall be courteous to one another, to any member of the administrative staff, as well as to other persons who may address the municipal board, commission, committee, authority, corporation, or other instrumentality. A member may not speak until recognized by the Chair and shall not be recognized the second time on the same subject matter until all members who

wish to speak have had an opportunity to do so. Any disorderly conduct shall be noted by the Chair, and the offending member shall forfeit the privilege of the floor for the remainder of the meeting, except for the purpose of casting his or her vote.
(Ord. No. 12804, § 1, 2-18-14)

Sec. 2-765. Meeting attendance.

Municipal board, commission, committee, authority, corporation, or other instrumentality members shall be prompt and regular in attendance for scheduled meetings. Failure of a member to be present at three (3) consecutive scheduled meetings for a calendar year shall constitute grounds for terminating his/her membership. The removal of City Council members for failure to attend meetings is provided for in Title 8, Section 8.5 of the City of Chattanooga Charter and therefore not governed by this section.
(Ord. No. 12804, § 1, 2-18-14)

Sec. 2-766. Ethics Training.

The ethics training program to be provided by the Ethics Committee in accordance with the City's ethics ordinance shall be mandatory for all City personnel described in Section 2-750. The training should not simply be a review of this ethics ordinance, policy or law. Instead, training should emphasize ethical decision making in complex and/or high pressure situations.
(Ord. No. 12804, § 1, 2-18-14)

Sec. 2-767. Ethics Pledge.

The following persons shall comply with the requirements of this section:

(1) Any employee who serves in the Office of the Mayor;

(2) Any Administrator or Director reporting to the Mayor;

(3) Any employee who serves City Council; and

(4) Any person who is appointed by the Mayor or the City Council to a statutory board, commission, authority, or agency on or after February 4, 2014.

As a condition of employment or appointment, any person meeting the requirements of this section shall sign, and upon signing shall be contractually committed to, the following pledge:

> "As a condition, and in consideration, of my employment or appointment by the City of Chattanooga in a position of the public trust, I hereby acknowledge and agree to abide by the City of Chattanooga's Code of Ethics as set forth in City Code Section 2-750 et seq. which I understand is binding on me. I understand that the terms of this pledge are in addition to any statutory or other legal restrictions applicable to me by my government service."

Any person required to sign a pledge under this section shall file such pledge with the Chief Ethics Officer within fourteen (14) days of commencing employment or appointment.
(Ord. No. 12804, § 1, 2-18-14)

Secs. 2-768—2-774. Reserved.

ARTICLE XIV. AUDIT COMMITTEE

Sec. 2-775. Audit Committee.

(a) There is hereby established an Audit Committee of the City of Chattanooga (the "Audit Committee"). The Audit Committee shall consist of five (5) voting members. There shall be at least three (3) members with expertise in auditing, such as, but not limited to, a Certified Public Accountant, Certified Internal Auditor, or Certified Information Systems Auditor. The City Council shall appoint two (2) members who shall be experienced in business, law, information systems, or government. All members shall be residents of the City. Initially, members shall serve terms as follows: one (1) member for one (1) year, two (2) members for two (2) years, and two (2) members for three (3) years. Thereafter, appointments shall be for a term of three (3) years. Future appointees will be nominated by the Council Chair and require approval of a majority of the Council. All members shall continue to serve until their successors are appointed. Three (3) members shall constitute a quorum. No member of the Audit Committee shall have a direct or indirect interest in any contract with the City during their term of service, nor for one (1) year after their term of service. Nor shall any member, member of their immediate family, or regular member of their household, be employed by any City Department or any agency that obtains more than ten percent (10%) of its annual funding from the City.
(Ord. No. 12250, 6-9-09)

Sec. 2-776. Duties of Audit Committee.

The Audit Committee shall meet as needed to perform its duties but shall not meet less than once quarterly and shall:

(a) Review any audit plan prepared by the Internal Audit Division and recommend to the City Council additional audits that it deems advisable;

(b) Monitor follow-up on reported findings of the Internal Audit Division to assure corrective action is taken;

(c) Report to the legislative body on problems or problem areas at such times as deemed appropriate;

(d) Provide oversight of the external audit;

(e) Evaluate findings and recommendations of any peer review as required by recognized government auditing standards; and

(f) Provide advice to the City Council Auditor, in performing audits or procuring contracted audit services.

(Ord. No. 12250, 6-9-09)

Sec. 2-277. Subversion of Audit Process.

Any efforts or attempts to subvert the audit process shall be reported to the Audit Committee. Any effort or attempt to subvert the audit process by an employee of the City shall be grounds for dismissal. Each Audit Committee member shall be required to certify annually to the City Council that they are unaware of any efforts or attempts to subvert the audit process or alternatively to report any known or suspected attempts to subvert the audit process.
(Ord. No. 12250, 6-9-09)

Sec. 2-778. City Council Auditor.

The City Council shall appoint a person to be the City Council Auditor, provided that this person may also be assigned other duties. The City Council Auditor shall have the authority to conduct audits and

request funding for additional contract audit services based on need. Funding shall not to be withheld absent substantial cause. The City Council Auditor shall meet with the Audit Committee to assist with the development of an audit plan. In addition to planned audits, the City Council Auditor shall conduct special audits or investigations upon receiving reports of fiscal mismanagement or misappropriation.
(Ord. No. 12250, 6-9-09)

Secs. 2-779, 2-780. Reserved.

ARTICLE XV. WHISTLE BLOWER PROTECTION

Sec. 2-781. Purpose.

The purpose of this Article is to establish protection by confidentiality for City employees who report illegal, improper, wasteful or fraudulent activity in good faith.
(Ord. No. 12376, 4-13-10)

Sec. 2-782. Audit Committee.

The Audit Committee appointed by the City Council shall be responsible for oversight of the provisions of this Article. It shall recommend to the mayor, administrators, and department heads internal controls or procedures that will tend to reduce fraud, waste, abuse, and illegal or unethical behavior. It shall recommend to the City Council policies and procedures needed to implement this article. It shall when warranted recommend to the City Council changes to the City Code or ordinances of the City.
(Ord. No. 12376, 4-13-10)

Sec. 2-783. Confidential Reports.

(a) All City officials, appointees, and employees are required to report any instances of suspected waste, abuse, fraud or other illegal acts upon becoming aware of such suspect activity or issues within City government.

(b) The City shall maintain a telephone hotline number providing any employee, vendor, or member of the public the ability to anonymously and confidentially report any suspected fraud, waste, abuse, illegal or unethical behavior. The Audit Committee shall have oversight of the hotline's administration. In addition to a telephone hotline, web and e-mail based reporting may be utilized.

(c) The audit working papers of the internal audit staff regarding illegal, improper, wasteful or fraudulent activity or any investigation of illegal, improper, wasteful or fraudulent activity are confidential pursuant to T.C.A. 10-7-504(22) and, therefore, not open to public inspection.

(d) The Audit Committee shall keep all information confidential while an active investigation is being conducted. When an investigation results in a criminal indictment or arrest, it shall be considered active until disposed of by the judicial system. This shall not be construed to limit those conducting an actual investigation from revealing or discussing information as necessary to facilitate said investigation.

(e) Nothing in this ordinance shall be construed to limit, discourage, or prevent employees from reporting inappropriate or unethical activities directly to their supervisor, Administrator, the Mayor, the Human Resources Department or the Internal Audit Division.
(Ord. No. 12376, 4-13-10)

Sec. 2-784. Employee protection.

(a) Employees of the City of Chattanooga shall be protected from being disciplined, discharged, or subjected to threats thereof, or otherwise discriminated against in retaliation for bringing forth, in good faith, charges of fraud, unlawful conduct, unethical conduct, or conduct in violation of any City policy, directive, ordinance, or Charter provision by any official, employee, appointee, contractor, or vendor of the City.

(b) Good faith is established if an employee had a reasonable belief that an official, employee, appointee, contractor, or vendor of the City engaged in fraud, unlawful conduct, unethical conduct, or conduct in violation of a City policy, directive, ordinance, or Charter provision.

(c) An employee will not have protection under this Article if they were the subject of an ongoing or existing disciplinary action or investigation prior to filing a report of fraud, unlawful conduct, unethical conduct or conduct in violation of any City policy, directive, ordinance, or Charter provision.

(d) An employee who knowingly or with reckless indifference to the truth, makes a false report shall be subject to disciplinary and legal action.

(e) Employees who believe they have suffered retaliation must file a detailed written report within thirty (30) days from the date of the alleged retaliatory action or when the employee first had knowledge of alleged retaliatory action. The report must be filed with the Director of Internal Audit, the Administrator of Personnel, and the Chair of the City Council. The written report must include all the relevant facts concerning the alleged retaliatory action including:

(1) The name and work address of the complainant;

(2) The name and title of each City employee against whom the complaint of retaliation is made;

(3) The specific type and date of retaliation;

(4) A statement as to the facts that form the basis of the complaint of retaliation; and

(5) A statement of the complainant's explanation of how his or her reported allegation of fraud or misconduct and/or participation in an investigation, proceeding, or hearing is related to the retaliation.

(f) All complaints alleging a violation of this Section shall be promptly investigated. In the event that the City Council determines that an investigation conducted by City staff would present a conflict of interest, an independent investigator may be appointed by the Audit Committee.

(g) Those involved in initiating, recommending, imposing and/or implementing disciplinary action against the employee shall not be in violation of this Article if they can demonstrate they had no knowledge that a report of fraud, unlawful conduct, unethical conduct, or conduct in violation of any City policy, directive, ordinance, or Charter provision had been filed by the employee prior to initiating disciplinary action against the employee.

(h) Nothing herein shall supplant any other remedies available to City officers and employees pursuant to the City Code.
(Ord. No. 12376, 4-13-10)

Secs. 2-785—2-789. Reserved.

ARTICLE XVI. CHATTANOOGA DEPARTMENT OF COMMUNITY DEVELOPMENT

Sec. 2-790. Created; purpose.

There be and is hereby created and established the Department of Community Development. This department will manage the City of Chattanooga Code Enforcement Division, the City of Chattanooga Community Centers, Neighborhood Services, and the Office of Family Empowerment.
(Ord. No. 13874, § 1, 8-9-22)

Sec. 2-791. Office of Family Empowerment Advisory Board—Created; function; composition.

(a) As part of the Department of Community Development, there is hereby created the Office of Family Empowerment Advisory Board (the "Board"). Pursuant to the Community Services Block Grant Act, 42 USC § 9910(b), the Office of Family Empowerment shall administer the community services block grant ("CSGB") program through the Board which will fully participate in the development, planning, implementation, and evaluation of the CSGB program to serve low-income communities.

(b) The Board shall be composed of nine (9) members. Three (3) members shall be recommended and voted for appointment, by the Board, from among the City's economically, disadvantaged communities and approved by a majority of the City Council. Two (2) members shall be appointed by the Mayor of the City of Chattanooga and approved by a majority of the City Council. One (1) member shall be appointed by the Mayor of Hamilton County. Three (3) members shall be recommended for appointment, by Office of Family Empowerment leadership, from among major community partners and approved by a majority of the City Council.

(c) At least one third of the members shall be democratically selected representatives of the low-income community; one-third of the members shall be local elected officials (or their representatives); and the remaining members shall be from major groups and interests in the community. At any meeting of this Board five (5) members shall constitute a quorum to conduct business.
(Ord. No. 13874, § 1, 8-9-22)

Sec. 2-792. Office of Family Empowerment Advisory Board—Terms; vacancies.

The terms of the members of the Head Start Governing Board shall be for two (2) years. Initially, the members of the Board shall be appointed so that they hold office for staggered terms. The three (3) members recommended and appointed by the Board and the one (1) County Mayor appointment shall be initially appointed for one (1) year terms. The three (3) members recommended by OFE leadership, and the two (2) City Mayor appointments shall be initially appointed for two (2) year terms. Upon the expiration of the term of any appointed member, a successor shall serve a term of two (2) years. The failure of any member to attend two (2) consecutive meetings or three (3) meetings within any calendar year shall be the basis for removal by the City Mayor and reappointment of another member by the City Mayor, subject to the confirmation of a majority of the City Council. Should any vacancy occur on the Board by death, resignation, or removal of a member, the member's unexpired term shall be filled by appointment of an individual in the same manner as the vacating member was appointed, if possible. No member, other than an elected official or his designee, may serve more than two (2) consecutive terms on the Board.
(Ord. No. 13874, § 1, 8-9-22)

Sec. 2-793. Office of Family Empowerment Advisory Board—Limited scope of Board function.

The advisory responsibilities of the Board shall be limited to the City of Chattanooga Office of Family Empowerment programs only. The Board shall not have any governance, administrative, nor operational authority over the Department of Community Development, including the Office of Family Empowerment,

its administrator, directors, managers, or staff. All administrative and operational authority over the Department of Community Development shall be vested in the City Mayor and in the administrator of the department, as set forth in Sec. 2-795 below, and her or his executive leadership team.
(Ord. No. 13874, § 1, 8-9-22)

Sec. 2-794. Bylaws; officers; executive committee.

The Office of Family Empowerment Advisory Board shall adopt and may amend bylaws for the regulation of its meetings and proceedings. It shall also elect as officers, a Chairperson, Vice Chairperson, and Secretary, who will serve as the executive committee for the Board.
(Ord. No. 13874, § 1, 8-9-22)

Sec. 2-795. Administrator.

There shall be an administrator of the Department of Community Development who shall be appointed by the Mayor of the City of Chattanooga subject to confirmation by a majority of the City Council. If the administrator position becomes vacant, the vacancy shall be filled by the Mayor of the City of Chattanooga and be subject to confirmation by a majority of the City Council.
(Ord. No. 13874, § 1, 8-9-22)

Sec. 2-796. Administrative control of department; powers of mayor, administrator.

The City Mayor and the administrator of the Department of Community Development shall have respective levels of administrative authority over the Department of Community Development. The City Mayor shall be empowered to employ, discharge, or suspend the administrator of the department subject to confirmation by a majority of the City Council. The administrator shall be empowered to employ, discharge, or suspend all other employees of the department subject to confirmation of the mayor and city council.
(Ord. No. 13874, § 1, 8-9-22)

Sec. 2-797. Financial affairs; receipts and disbursements.

All fiscal and financial affairs of the Department of Community Development shall be conducted by the city finance officer. All receipts and disbursements shall be handled in accordance with the applicable provisions of the charter and ordinances of the city.
(Ord. No. 13874, § 1, 8-9-22)

CHAPTER 3A: OFF-PREMISE ADVERTISING

ARTICLE I. ADMINISTRATION AND ENFORCEMENT

Sec. 3-1. Exemptions from and applicability of Chapter.

Nothing in this Chapter shall apply to any notice required by this Code or other ordinances of the City or legal notices of public officers and attorneys, posted in the manner and places provided by law, or to the right of any newspaper to distribute its paper throughout the City.

Nothing in this Chapter 3 shall affect the provisions of Ordinance No. 6958, the Zoning Ordinance, as amended, and the provisions of said ordinance shall have priority over the provisions of this Chapter 3. Nothing in this Chapter 3 shall affect the provisions of Chapter 18 of this Code.
(Ord. No. 14216, § 1, 4-8-25)

Sec. 3-2. Definitions.

For the purposes of this Chapter, the following definitions shall apply to off-premise signs and billboards only. All on-premise signs are regulated under Chapter 3B: On-Premise Sign Code.

Compensation. The exchange of anything of value, including money, securities, real property interests, personal property interests, goods or services, promise of future payment, or forbearance of debt.

Controlled Access Facility. Controlled access facility shall mean any highway or street especially designed for through traffic and over, from, or to which owners, or occupants of abutting land or other persons generally have no right or easement of access from abutting properties. Such highways or streets may be parkways, from which trucks, buses, and other commercial vehicles shall be excluded; or they may be freeways open to use by all customary forms of street and highway traffic, and may, if so designated, include interstate connector roadways and airport access roadways.

Height. Height shall mean the total measurement of the vertical side of the rectangle which is used to calculate "sign area" as specified in this § 3-2.

Intersection. Intersection shall mean the center point where two (2) or more open roads, streets, or highways located within the corporate limits of the city join.

Major Advertising Zones. Major advertising zones shall mean the major commercial areas designated herein as follows: Rossville Boulevard from its intersection with Interstate 24 generally southward to the city limits; Brainerd Road/Lee Highway from its intersection Tunnel Boulevard generally eastward to its intersection with Shallowford Road; Signal Mountain Road the city limits with Red Bank, Tennessee to Mountain Creek Road; excluding that portion which falls within the Scenic Corridor along Highway 153; Amnicola Highway from its intersection with Riverfront Parkway to the southernmost or westernmost edge of the property presently occupied by Chattanooga State Community College, excluding that portion which falls within the Scenic Corridor along Dupont Parkway; Hixson Pike from its intersection with Ashland Terrace to its intersection with Adams Road; and Highway 153 from its intersection with Gadd Road to its intersection with Dupont Parkway. All measurements herein to an intersection of two (2) or more roads shall be to the center of such intersection.

Off-Premise Sign.

(a) A sign that is operated or owned by a person or entity that is earning compensation directly or indirectly from a third party or parties for the placement of a message on the sign; or

(b) A sign located on a facility's parcel owned or operated for the primary purpose of displaying a sign for purposes set forth in subdivision (a).

Person. Person shall mean individual, company, corporation, association, partnership, joint venture, business, proprietorship or any other legal entity.

Premises. Premises shall mean all contiguous land in the same ownership which is not divided by any public highway, street or alley or right-of-way therefor. As part of a dominant parcel of property, premises shall also include a permanent easement to the dominant parcel which (1) connects the dominant parcel to a public right-of-way, (2) is the sole means of ingress and egress to and from a public right-of-way for vehicular traffic to the dominant parcel, and (3) is regularly used for ingress and egress to the dominant parcel by vehicular traffic.

Scenic Area. Scenic area shall mean those areas within the city limits, as more specifically identified in Article V, which are either of uncommon visual importance or scenic attractiveness and within which the construction of off-premise signs is prohibited in accordance with the provisions of Article V.

Scenic Corridor. Scenic corridor shall mean those land areas within the city limits which lie within six hundred sixty (660) feet of either side of the outermost edge of any of the roads, rivers, or rights-of-way more specifically designated in Article V, which are either of uncommon visual importance or scenic attractiveness.

Sign. Sign shall mean any structure or wall or other object which is designed, intended, or used to advertise or inform any part of the advertising or informative contents; such term shall include without limitation any structure, display, device or inscription which is located upon, attached to, or painted or represented on any land, on any building or structure, on the outside of a window, or on an awning, canopy, marquee, or similar appendage. Provided, however, that the following shall be excluded from this definition:

(a) Signs or flags erected, provided, owned, authorized or required by a duly constituted governmental body, including, but not limited to, traffic or similar regulatory devices, legal notices, or warnings at railroad crossings.

(b) Signs located inside a building.

(c) Memorial plaques or tablets.

(d) Gravestones.

(e) Insides faces of scoreboard fences or walls on athletic fields.

(f) Historical site plaques.

(g) The display of street numbers.

(h) Any message or messages on the clothing of any person or on motor vehicles unless otherwise prohibited in accordance with § 3-71 hereof.

(i) Seasonal displays and seasonal decorations not advertising a product, service or entertainment.

(j) Signs approved by the Board of Zoning Appeals and donated to and erected by or, at the option of the city, under the supervision of the city which designate (i) a public area or public right-of-way adopted by a private entity for a program of landscaping, maintenance and/or litter control for such area or right-of-way, and (ii) the private entity responsible for such program; no such sign shall be erected without the approval of the City Engineer and City Traffic Engineer or their designees, and the city shall have the right to remove such signs at any time.

(k) Any living display on the ground of flowers or other plants which conveys a message.

Sign Area.

(a) Sign area shall mean for all signs the area within the rectangle which is defined by the larger of (i) the lines which include the outer extremities of all letters, figures, characters, messages, graphics or delineations on any sign structure, or (ii) the lines which include the outer extremities of the framework or background of the sign structure. The support for the sign background, whether it be columns, or pylon, or a building or part thereof, shall not be included in the sign area unless it forms a part of the message of the sign to which it is attached. On any sign structure which has multiple sign faces, any sign faces which are separated by an angle of less than sixty (60) degrees as measured from the rear of each sign face, shall be counted separately in computing sign area; if the angle of separation of the backs of such sign faces exceeds sixty (60) degrees, then all such faces shall be included together in the computations of any sign area. The sign area of a sign made of individually cut-out letters is the area of the rectangle necessary to enclose all such letters.

Spacing. Spacing shall mean the interval between signs determined by measuring from the upright column or outermost supporting columns and extending by the most direct line perpendicular to the road to a point nearest the road right-of-way, and then proceeding in either direction along the nearest edge of the right-of-way or pavement for the prescribed distance.

Width. Width shall mean the total measurement of the horizontal side of the rectangle which is used to calculate "sign area" as specified in § 3-2.
(Ord. No. 14216, § 1, 4-8-25)

Sec. 3-3. License required for erecting off-premise signs.

No person shall carry on the business of erecting or posting off-premise signs without having secured a business license from the City to carry on such business.
(Ord. No. 14216, § 1, 4-8-25)

Sec. 3-4. Marking of vehicles.

Every person licensed to erect off-premise signs in the City shall cause his name or his company's name and the number of his license to be plainly printed in a conspicuous place on the outside of each vehicle used in such business, and such information shall be kept in a legible condition during the continuance of such license. Upon the expiration of such license, unless renewed, such person shall at once cause such name and number to be erased from such vehicle, and shall not allow such vehicle to be used with such name or number thereon.
(Ord. No. 14216, § 1, 4-8-25)

Sec. 3-5. Disposal of glue, paste, waste material.

No person shall scatter, daub or leave any glue, paste or other like substance for affixing signs upon any street or sidewalk or scatter or throw any old signs or waste material removed from signs on the surface of any public property, street or sidewalk or upon any private property.
(Ord. No. 14216, § 1, 4-8-25)

Sec. 3-6. Permit required to erect, maintain sign.

(a) Except as specified in subsection (b) of this Section, any person must obtain a sign permit from the Building Official prior to the erection, installation or material alteration of any sign. As used in the preceding sentence, the term 'material alteration' shall mean any change in (i) the height of a sign, (ii) the sign area of a sign, (iii) the location of a sign, (iv) the supporting structure of a sign, (v) the number of

words in excess of six (6) includes in height for an Attached Sign; such term shall not include routine maintenance and repair or electrical work only for which an electrical permit must be obtained. Such sign permit shall be obtained in addition to any building permit otherwise required by this Code.

(b) Reserved.

(c) No person shall paste, paint, print, rope, bill, nail or pin any sign or any advertisement or notice of any kind whatsoever or cause the same to be done, on any curbstone, or in any portion of part of any sidewalk or street, tree, lamppost, telephone or telegraph pole, awning, porch or balcony or upon any other structure in the limits of any street or public right-of-way in the City including but not limited to any divided roadway median, traffic island and/or traffic circle/roundabout, except such as may be required by this Code or other City ordinance.
(Ord. No. 14216, § 1, 4-8-25)

Sec. 3-7. Application for sign permit; notification to building official; expiration; renewal of permits; and construction methods and structural requirements.

(a) Application for the sign permit required by the preceding Section shall be made to the Building Official or designee concurrently with an application for a Building Permit if required and shall be accompanied by such drawings, plans, specifications and engineering designs in compliance with the provisions of the International Building Code most recently adopted by the City of Chattanooga for the proposed sign as may be necessary to fully advise and acquaint the Building Official or designee and the Traffic Engineer with the proposed construction thereof. The application shall also include the owner and address of the premises where such sign is to be located, together with the size of the proposed sign, and a description of any other signs located on such premises or for which a permit has been issued and remains outstanding. Any application for a sign permit or temporary sign permit shall be approved or denied by the Building Official or designee within thirty (30) business days, excluding holidays recognized by the City of Chattanooga, after the filing of the application for such permit, and in the event the Building Official or designee does not approve or deny an application within said period, such application shall be deemed approved. Notwithstanding the provisions of the foregoing sentence, the Building Official or designee may grant contingent approval subject to on-site inspection in cases where an applicant for a temporary sign permit requires immediate attention on the application. Before processing of the application for sign permit, the applicant shall pay to the City of Chattanooga the following fees:

I.	Plans Review Fee:	$25.00
II.	Technology Fee:	10.00
III.	Administrative Fee:	5.00
	Total	$40.00

(b) An applicant for an off-premise sign shall submit with the application for a sign permit a most recent certified survey showing property lines, easements and distance from the nearest intersection as defined in the chapter. The certified survey must have been completed within no less than five (5) years of the date the application for a sign permit is submitted as required by this chapter. An applicant for a sign permit shall additionally submit elevation drawings and engineering plans and design with the application for an off-premise sign. The drawings and designs required by this Section must be in compliance with provisions of the City's building codes, as amended.

(c) The owner, sign contractor or other person installing any sign for which a new sign permit is required shall notify or cause to be notified the Building Official or designee of the date the erection or material alteration of the sign will begin not less than forty-eight (48) hours prior to the beginning of such work. Such person shall also notify or cause to be notified the Building Official or designee of the completion of such work within forty-eight (48) hours after completion of such work. In the case of any

sign to which electricity is provided for any reason, the sign contractor or other person installing such sign shall be responsible for the notifications required by this paragraph. The failure to give or cause to be given either of the notices set forth in this paragraph shall constitute a violation of this Chapter and shall subject any sign erected without both of the above notices having been given to abatement as a nuisance.

(d) Any sign for which any permit has been issued but for which no substantial expenditures have been made as of the effective date of this Chapter shall only be erected in accordance with the provisions of this Chapter except that no additional initial permit charge will be required for any permit which has already been issued and for which a permit fee has been paid.

(e) Any sign permit issued pursuant to this Chapter for the erection of a sign shall expire one hundred eighty (180) days from the date of its issuance in the event such sign has not been fully erected within said one hundred eighty (180) days, provided, that upon good cause shown to the Building Official such permit may be renewed one (1) time for a period not to exceed ninety (90) days. If a permit is requested for a location on which a valid permit is already outstanding but has not expired, and upon which no sign has been erected, and if such subsequent permit is requested by a person other than the holder of the outstanding permit, the Building Official or designee shall file, without fee, such application for the subsequent permit. In the event the outstanding permit expires without a sign being erected, as set forth above, the next valid permit application on file with the Building Official or designee shall be processed upon payment of the required fee.

(f) For any sign requiring a state permit, such permit shall be included when making application.

(g) A notarized letter of intent or permission from the property owner shall be submitted with the permit application.

(h) Structural requirements and design required. Before a permit shall be granted, the erector of every outdoor advertising sign, with the exception of shingle signs and light cloth temporary signs, shall submit to the building official or designee a design and stress diagram or plan, containing the necessary information to enable the building official to determine that such sign complies with all the regulations of Chapter 16 of the International Building Code. In the design and erection of all outdoor advertising display signs, the effect of wind and working stresses shall be carefully considered. All signs shall be structurally constructed to withstand the wind loads and working stresses specified in Chapter 16 of the International Building Code.

Exceptions:

1. The allowable working stresses for steel and wood shall be in accordance with the provisions of Chapter 22 and Chapter 23 of the International Building Code.
2. The working strength of chains, cables, guys, or steel rods shall not exceed one-fifth (⅕) of the ultimate strength of such chains, cables, guys, or steel.

(i) Electrical service and illumination. All signs requiring illumination or having electrical service devices or wiring shall be constructed in accordance with the requirements of the National Electric Code.

(j) Reserved.

(k) Reserved.

(l) Reserved.

(m) Use of plastic materials.

1. Notwithstanding any other provisions of this code, plastic materials which burn at a rate no faster than two and one-half (2½) inches per minute (one and six-hundredths (1.06) millimeters/second)

when tested in accordance with ASTM D 635 shall be deemed approved plastics and may be used as the display surface material and for the letters, decorations and facings on signs and outdoor display structures.

2. Individual plastic facings of electric signs shall not exceed two hundred (200) square feet (eighteen and six-tenths (18.6) square meters) in area.

3. If the area of a display surface exceeds two hundred (200) square feet (eighteen and six-tenths (18.6) square meters), the area occupied or covered by approved plastics shall be limited to two hundred (200) square feet (eighteen and six-tenths (18.6) square meters) plus fifty percent (50%) of the difference between two hundred (200) square feet (eighteen and six-tenths (18.6) square meters) and the area of display surface. The area of plastic on a display surface shall not in any case exceed one thousand one hundred (1,100) square feet (one hundred two (102) square meters).

4. Letters and decorations mounted upon an approved plastic facing or display surface may be made of approved plastics.

(Ord. No. 14216, § 1, 4-8-25)

Sec. 3-8. No permits to be issued in violation of ordinances; approval of traffic engineer; schedule of permit fees; inventory of certain existing signs.

The Building Official shall not issue any sign permit for any sign which is not in conformance with the City Code of Chattanooga and applicable state laws, including all electrical codes of the City of Chattanooga and/or State of Tennessee; any permit issued which does not so conform will be null and void and any sign constructed pursuant thereto shall be removed in accordance with the provisions of this Chapter. The Building Official shall collect a permit fee with the application of each sign. The permit fee shall be as follows:

(a) For off-premise signs, Two Hundred Dollars ($200.00) for each such sign.

(b) Reserved.

(c) A logbook, list or other such public record with a chronological numbering system shall be maintained in the city building codes office for the purpose of recording all permit submittals and for providing a receipt verifying the date, time and sequence number of such applications. This record shall be considered public information available for review as a reference in considering the availability of potential permittable sign locations. The list or record shall contain all existing and pending sign locations and all applicants shall be given a receipt bearing the time, date and sequence number of such permit applications at the time of submittal.

Every person maintaining an off-premise sign as of the effective date of this Chapter shall, within one hundred twenty (120) days of said effective date, furnish to the Office of the Building Official an inventory of all such signs; said inventory shall specify the exact location, measurements and size (including sign area as defined in § 3-2) of each sign, provided, that such persons who have previously furnished such inventory shall not be required to furnish a new inventory. In lieu of such inventory, persons maintaining such signs may furnish or mail to the Office of the Building Official a photograph of each sign for which an inventory is required together with the name of the owner of the premises on which the sign is located. The failure to file the inventory for a sign as specified herein shall create a rebuttable presumption that such sign was erected subsequent to the effective date of this Chapter.

(d) Location restrictions. An outdoor advertising display sign shall not be erected, constructed or maintained so as to obstruct any fire escape or any window or door or opening used as a means of

egress or as to prevent free passage from one (1) party of a roof to any other part thereof. A sign shall not be attached in any form, shape or manner to a fire escape, nor be placed in such a manner as to interfere with any opening required for legal ventilation.

(e) Where not otherwise specified in this section, the fees for sign permits shall be as follows:

Off-Premise Permit Fees

1.	Failure to Obtain Permit	Double Fee
2.	Reserved	
3.	Reserved	
4.	Reserved	
5.	Reserved	
6.	Reserved	
7.	Installation—$1,000.00 or less	$15.00
8.	Installation—$1,001.00—$2,000	$20.00
9.	Installation per $1,000.00 over $2,000.00	$5.00
10.	Electrical Fee—25 sq. ft. or less	$40.00
11.	Electrical Fee per sq. ft. over 25 sq. ft.	$0.40
12.	Electrical Fee Non-UL listed/labeled	$25.00
13.	Demolition	$50.00
14.	Billboard/Off-Premise Sign	$200.00
15.	Reserved	
16.	Illuminated Sign	$125.00
17.	Re-Inspection Fee	$50.00

(Ord. No. 14216, § 1, 4-8-25)

Sec. 3-9. Power to revoke permit; remedies for violation.

(a) If any sign permit is issued based upon any false or untrue information which is material to the application and the granting of a sign permit, the Building Official shall revoke any such permit and order the removal of such sign within thirty (30) days.

(b) If the Building Official determines that any sign erected pursuant to a permit issued under the provisions of this Chapter is in violation of any provision of this Chapter by error in the construction of the sign, the Building Official shall (i) notify the holder of the permit of the nature of the non-compliance and allow the holder a reasonable amount of time, but not less than fifteen (15) days nor in excess of sixty (60) days, to correct the defects giving rise to the non-compliance; or (ii) if such non-compliance cannot be corrected, to require the removal of the non-complying sign within thirty (30) days of the expiration of the period for correction specified above.

(c) If any sign is erected without a sign permit but is otherwise erected in compliance with the provisions of this Code, the Building Official may upon proper application for a sign permit and payment of double the normally required permit fee issue a sign permit for such sign, provided, however, that any such permit so issued shall in no event operate to relieve the person so erecting a sign without a permit from any penalties provided by this Chapter until such permit has been issued.
(Ord. No. 14216, § 1, 4-8-25)

Sec. 3-10. Owner's name required on off-premise signs.

No sign permit shall be issued to any applicant to erect an off-premise sign unless the applicant agrees to place and maintain on each such sign the name of the person owning or in possession, charge or control thereof. The Building Official shall verify that the name of the person owning or in control of such sign is placed upon the same forthwith upon the erection of such sign and kept thereon at all times while such sign is maintained.
(Ord. No. 14216, § 1, 4-8-25)

Sec. 3-11. Non-conforming signs.

(a) Nothing contained in this Chapter shall be construed in any way to ratify or approve the erection and/or maintenance of any sign which was erected in violation of any prior ordinance or ordinances of the City of Chattanooga, Tennessee, and such signs so erected in violation of any prior ordinance or ordinances shall be subject to removal as provided in this Article. Signs which are now in existence and were constructed in compliance with the terms of any prior ordinance or ordinances of the City of Chattanooga, Tennessee, but which are not in conformance with the provisions of this Chapter are hereby designated as legal, non-conforming signs, and shall be removed hereafter in accordance with this Section.

(b) For off-premise signs, any person owning, controlling or having a substantial ownership interest in any legal non-conforming off-premise sign(s) shall remove one (1) such non-conforming off-premise sign and its supporting structure prior to the issuance of an off-premise sign permit to such person; any such person shall remove one (1) legal non-conforming off-premise sign and its supporting structure for each off-premise sign permit issued until such person no longer owns, controls or has a substantial ownership interest in any legal non-conforming off-premise signs. Evidence of the removal of a non-conforming off-premise sign shall be furnished to the satisfaction of the Building Official. As used herein, "substantial" ownership interest shall mean any ownership interest in excess of five percent (5%) of the total ownership interest.

Notwithstanding the provisions of the foregoing paragraph, no credit shall be given for the removal of a legal, non-conforming sign and its supporting structure in the event a new legal non-conforming sign is erected on the site where the former legal non-conforming sign has been removed within ninety (90) days of the removal of the former sign. No credit shall be given for the removal of a legal non-conforming sign if such removal is done by or at the direction and expense of the City of Chattanooga. For the purposes of this paragraph, "site" shall include any portion of property designated by the same tax map parcel number maintained by the Hamilton County Tax Assessor at the time the original sign structure was erected.
(Ord. No. 14216, § 1, 4-8-25)

Sec. 3-12. Violation declared misdemeanors; penalty.

Any person who shall violate any provision of this Chapter, or any person who shall fail or refuse to comply with any notice to abate or other notice issued by the Building Official within the time allowed by such notice, shall be guilty of a misdemeanor; each day of such violation or failure or refusal to comply shall be deemed a separate offense and punishable accordingly. Each violation of this Chapter shall be punishable by a fine of not less than Twenty-Five Dollars ($25.00) nor more than Fifty Dollars ($50.00).
(Ord. No. 14216, § 1, 4-8-25)

Sec. 3-13. Violations declared nuisances; preexisting violations.

The maintenance of any unused sign and/or its supporting structure or any violation of the provisions of this Chapter by any person is declared to be a public nuisance dangerous to the public safety and shall be abated as set forth in this Article. For the purposes of this Section, "unused sign" shall include any sign which (i) has not displayed a message or messages for more than ninety (90) days or (ii) is not kept in good

structural repair such that the sign could pose a risk to public health or safety. Except for temporary signs regulated by Article VIII of this Chapter, every sign to which the provisions of this Chapter shall apply that was legally erected prior to the effective date of this Chapter and was in use on said date, but which violates any of the provisions of this Chapter, shall not be subject to removal, provided, that the owner of any legal non-conforming off-premise sign shall obtain without charge within sixty (60) days of the effective date of this Chapter a permit from the Building Official which permit shall be marked on the face thereof: "non-conforming sign permit"; whenever there is a future non-use of any legal non-conforming off-premise sign and/or its supporting structure for more than ninety (90) days, said non-conforming sign and its supporting structure shall then be removed forthwith within the time allowed in the notice required by § 3-14 or the Building Official may cause said removal to be done as provided in this Article.
(Ord. No. 14216, § 1, 4-8-25)

Sec. 3-14. Notice requiring abatement of violation; abatement by city; lien for costs.

Upon ascertaining a violation of the provisions of this Chapter, the Building Official shall cause to be served upon both the offender, or his agent, and upon the owner, or his agent, or the occupant(s) of the premises, a written notice to abate which shall (i) describe the conditions constituting a nuisance under this Chapter, and (ii) state that the nuisance may be abated by the City at the expense of the offender, and/or the owner, and/or the occupant of the premises at the expiration of not less than fifteen (15) days nor more than sixty (60) days from the date of such notice if such condition is not corrected by the offender, or the owner, or the occupant, or the person in control of the premises. If, at the expiration of the time given to abate the nuisance in said notice to abate, the condition constituting a nuisance has not been corrected, then such condition may be corrected or the nuisance abated by the City at the expense of the offender and/or the owner and/or the occupant of the premises under the directions of the Building Official. The City shall have a lien on the property upon which such sign is located to secure the amount expended for the abatement of such nuisance; the 'amount expended for the abatement of such nuisance' shall include all unpaid annual maintenance and safety inspection fees and delinquent charges due to such sign.
(Ord. No. 14216, § 1, 4-8-25)

Sec. 3-15. Appeals.

An appeal to the Board of Zoning Appeals from any adverse decision of the Building Official or Traffic Engineer may be filed in writing with the Building Official or the secretary to the Board within ten (10) days of any such decision; the secretary to the Board shall notify the person filing the appeal of the hearing date. The decision of the Board of Zoning Appeals shall be final.
(Ord. No. 14216, § 1, 4-8-25)

Sec. 3-16. Obscene displays on signs.

No person carrying on the business of bill posting, sign or bulletin painting, card, sign or banner tacking, shall post or paint, or cause to be posted or painted, so that the same can be seen from the streets or other public places of the City, any advertisements containing pictures or illustrations of any obscene character. For the purpose of this Section, "obscene" shall have the same meaning as provided in *Tennessee Code Annotated* § 39-6-1101, as amended.
(Ord. No. 14216, § 1, 4-8-25)

Sec. 3-17. Signs over streets, sidewalks; where other advertising prohibited.

(a) No sign of any kind shall be permitted to project over or be suspended over or across any street or sidewalk except in accordance with the provisions of § 3-94 of this Chapter.

(b) No person shall paste, paint, print, rope, bill, nail or pin any sign or any advertisement or notice of any kind whatsoever or cause the same to be done, on any curbstone, or in any portion of part of any sidewalk or street, tree, lamppost, telephone or telegraph pole, awning, porch or balcony or upon any other structure in the limits of any street or public right-of-way in the City, except such as may be required by this Code or other City ordinance.

(c) When any sign of the type enumerated in this Section is found in any place prohibited by this Section, it shall be *prima facie* evidence that such sign was so placed contrary to the provisions of this Section by the person to whom reference is thereby made.
(Ord. No. 14216, § 1, 4-8-25)

Sec. 3-18. Change of sign classification—Removal.

If for any reason an off-premise sign becomes an on-premise sign, such on-premise sign and its supporting structure shall receive notification from the City allowing thirty (30) days to comply with all of the provisions of this Chapter governing on- premise signs. If for any reason such sign cannot be brought into compliance, it shall be removed within ninety (90) days of the change of classification unless such sign is in compliance with all of the provisions of this Chapter governing on-premise signs. If for any reason an on-premise sign becomes an off-premise sign, such off-premise sign and its supporting structure shall receive notification from the City allowing thirty (30) days to comply with all of the provision of this Chapter governing off-premise signs. If for any reason such sign cannot be brought into compliance, it shall be removed within ninety (90) days unless such sign is in compliance with all of the provisions of this Chapter governing off-premise signs. For the purpose of this section, a legally placed billboard, whether conforming to current regulations or allowed as a legal nonconforming use and situated on any parcel of land containing five (5) or more acres or with at least five (5) businesses shall be allowed to contract to advertise businesses located on the same tract of land without being considered to be an on-premise sign.
(Ord. No. 14216, § 1, 4-8-25)

Sec. 3-19. Signs distracting to motor vehicle operators prohibited.

(a) Where there are entrance and exit ramps to any controlled access facility, or a confluence of traffic, or anywhere else where operators of vehicles might be required to make sudden decisions in order to safely operate their vehicles, then no signs shall be permitted or allowed that will be or is distracting to drivers and thereby hazardous and dangerous to the traveling public.

(b) No off-premise sign shall have moving parts, picture tubes, lights or illumination that vary in intensity, flash or change color, except as follows: (i) that tri-vision and electronic light emitting display off-premise signs with moving parts shall be permitted provided that the message on must change in no less than two (2) seconds and shall remain static for no less than nine (9) seconds.

(c) No signs that resemble any regulatory or warning traffic control device or sign as found in the latest edition of the Manual on Uniform Traffic Control Devices for Streets and Highways shall be permitted.

(d) Any signs which contain light emitting diode (LED), liquid crystal display (LCD) illumination or any sign capable of its message/display being changed by electronic/remote means shall comply with the following requirements or equivalent:

i. All LED signs and off-premise message centers shall be mounted on permanent sign structures only. Vehicle-mounted LED displays of any type, including parked or moving vehicles, are prohibited.

ii. All LED signs and off-premise message centers shall have static images only. Flashing signs, scrolling message signs, or any form of animated images are prohibited. Audible signs are also prohibited.

iii. LED images shall be displayed a minimum of ten (10) seconds.

iv. Transitions between images shall be a minimum of two (2) seconds and shall be a fade out/fade in image change only. Scrolling transitions or abrupt image changes are prohibited.

v. Automated light intensity and dimming controls for LED signs shall be required.

vi. Using industry standards, daytime brightness levels should be no more than ninety percent (90%) of maximum intensity. Nighttime brightness shall be reduced to thirty percent (30%) of the maximum light intensity for the LED sign. The Traffic Engineer shall establish daytime and nighttime brightness levels based upon (mCd) levels which are approved by the City Council on all LED signs. [A millicandela (mCd) is the unit of measure commonly used to describe LED brightness.]

vii. All LED sign permit requests shall be reviewed and approved by the City Traffic Engineer.
(Ord. No. 14216, § 1, 4-8-25)

Sec. 3-20. Lighting and illumination.

Off-premise advertising faces using external illumination shall use a maximum of two (2) luminaries per sign face. All luminaries will use a type of lenses that will direct the light to only illuminate the intended bulletin or poster face. Lamp and ballast watts shall not exceed two (2) watts per square foot of advertising area. Lighting fixtures illuminating signs and billboards shall be aimed and shielded so that properties are protected from light trespass or spillage to the maximum extent practicable.
(Ord. No. 14216, § 1, 4-8-25)

ARTICLE II. GENERAL OFF-PREMISE SIGN REGULATIONS

Sec. 3-21. General off-premise sign regulations.

Unless otherwise provided in this Chapter, the following regulations shall govern the construction and maintenance of any off-premise sign within the City:

(a) No sign shall exceed twelve (12) feet in height or thirty-six (36) feet in width.

(b) Sign area shall not exceed three hundred seventy-eight (378) square feet.

(c) The highest portion of a sign or sign structure shall not exceed fifty (50) feet above the lower of (i) the closest point on the top of the finished grade of the public road nearest thereto, or (ii) the closest point on the top of the finished grade of the public road towards which the sign is principally oriented and from which it is principally intended to be viewed.

(d) Sign structures supporting an off-premise sign or signs with a sign area greater than seventy-five (75) square feet shall be spaced not less than seven hundred (700) feet apart regardless of the direction in which any such sign is facing; said spacing shall only apply to signs on the same side of the street, provided, however, that any off-premise sign located within three hundred (300) feet of the center of any intersection of two (2) or more roads shall be spaced not less than three hundred fifty (350) feet in all directions from any other sign of any size.

(e) Sign structures supporting an off-premise sign or signs with a sign area less than seventy-five (75) square feet in size shall be spaced not less than three hundred fifty (350) feet from any other off-premise sign of any size; said spacing shall apply only to signs on the same side of the road regardless of the direction in which any such sign is facing, provided, however, that any off-premise sign located within three hundred (300) feet of the center of any intersection of two (2) or more roads shall be spaced not less than three hundred fifty (350) feet from any other sign of any size.

(f) Signs with a sign area of less than seventy-five (75) square feet shall be located no closer than ten (10) feet to the closest edge of any public right-of-way. All signs with a sign area exceeding seventy-five (75) square feet shall be located no closer than twenty (20) feet from the closest edge of any public right-of-way.

(g) Signs with a sign area less than seventy-five (75) square feet shall be erected so that the lowest portion of the sign face is not less than ten (10) feet above ground level at the base of the sign structure and so that the highest portion of the sign face is no more than eighteen (18) feet above ground level at the base of the sign structure.

(h) No sign shall be permitted on top of any building or rooftop.

(i) No sign face shall be permitted atop or beneath another sign face, i.e., no "stacked" signs are permitted on any sign structure, building or rooftop; provided, however, that if any off-premise sign is used merely to identify the tenants and/or the location of any commercial development located within six hundred (600) feet of said off-premise sign and contains no other commercial messages, then such sign may utilize "stacked" faces to identify the names of the tenants within and the location of such commercial development, so long as the total sign area of all such stacked faces when added together complies with the sign area and sign dimension limitations otherwise set forth herein.

(j) No sign shall be located where prohibited or not permitted by Zoning Ordinance No. 5149, as amended, or as may hereafter be amended.

(k) Off-premise traffic directional signs for licensed facilities offering twenty-four (24) hour emergency medical and/or psychiatric care shall be permitted without regard to the provisions of subsections (d), (e) and (g) of this Section 3-21, provided, that any person desiring to erect such a sign shall first obtain a special permit from the Board of Zoning Appeals pursuant to the provisions of Section 3-102 of this Chapter.

(l) Construction type. All new or rebuilt billboards shall be constructed using single mono pole design unless otherwise prohibited by other Governmental Entities. All legal conforming or legal non-conforming signs in all areas or zones may be rebuilt using newly adopted rules and regulations including height, provided that no sign may be expanded in advertising area beyond its originally permitted standard size classification. For example, a sign originally permitted under "General off-premise sign regulations " with a maximum advertising area of three hundred seventy five (375) square feet may not exceed the amended maximum of three hundred seventy eight (378) square feet and off-premise signs with a sign area of less than seventy five (75) square feet may not under this provision advance to a larger area, etc.

(Ord. No. 14216, § 1, 4-8-25)

Sec. 3-22. Maintenance of off-premise signs and sign structures.

All off-premise signs shall be properly maintained. Off-premise signs which are not properly maintained are declared to be a nuisance and are subject to removal in accordance with the provisions of this Chapter. Rusted surfaces and/or components of signs shall be promptly repaired. Exposed surfaces of signs shall be clean and painted if paint is required. Defective parts of signs shall be replaced. The Sign Inspector shall order the removal of any off-premise sign which is defective, damaged or substantially deteriorated pursuant to Article I of this Chapter. For the purposes of this section 3-22, "sign" shall include signs and their supporting structures.

(Ord. No. 14216, § 1, 4-8-25)

Secs. 3-23—3-30. Reserved.

ARTICLE III. CONTROLLED ACCESS FACILITY SIGN REGULATION

Sec. 3-31. Controlled access facility sign regulation.

This Article shall govern the placement, location and size of both and off-premise signs along controlled access facilities. Except where provisions differing from those in Article II are set forth in this Article III, all provisions of Article II shall otherwise continue to be applicable.
(Ord. No. 14216, § 1, 4-8-25)

Sec. 3-32. Control districts established.

There is hereby established a sign control district, which shall consist of a strip of land six hundred sixty (660) feet wide on each side of the right-of-way of all controlled access facilities, as defined herein, within the City, within which district all signs that are primarily oriented toward and are designed or situated to be observed from the controlled access facility are hereby regulated. For the purposes of this Article, "right-of-way" shall include all entrance and exit ramps of controlled access facilities.
(Ord. No. 14216, § 1, 4-8-25)

Sec. 3-33. Standards and restrictions.

The following standards and requirements shall govern signs within the sign control districts:

(a) Off-premise signs and their supporting structures shall be set back a minimum of twenty (20) feet from the right-of-way of all controlled access facilities.

(b) Off-premise signs and their supporting structures shall extend no higher than fifty (50) feet above the roadway of the controlled access facility at the nearest point.

(c) Reserved.

(d) Reserved.

(e) The sign area of an off-premise sign shall not exceed six hundred seventy-five (675) square feet, and such sign shall not exceed fourteen (14) feet in height or forty-eight (48) feet in width, excepting the addition of temporary graphic embellishments extending beyond the edge of rectangular sign face, provided that the addition of such embellishments does not increase the total sign area, as defined in § 3-2, to greater than seven hundred fifty (750) square feet.

(f) When two (2) off-premise signs are placed back-to-back on the same structure, with an angle between the backs of each sign face of not more than sixty (60) degrees, only one (1) facing shall be measured in computing sign area; provided, that the second facing shall be no larger than the facing computed.

(g) Off-premise signs shall be located not less than one thousand (1,000) feet apart, as measured from the next adjacent sign on the same side of the controlled access facility. For the purposes of this Article, two (2) off-premise sign faces placed back-to-back on the same structure with an angle between the backs of each sign face of not more than sixty (60) degrees shall be construed as one (1) sign.

(h) Any off-premise sign located within three hundred (300) feet of any intersection of two (2) or more roads shall be spaced not less than three hundred fifty (350) feet from any other sign of any size.

(Ord. No. 14216, § 1, 4-8-25)

Secs. 3-34—3-40. Reserved.

ARTICLE IV. MAJOR ADVERTISING ZONE SIGN REGULATION

Sec. 3-41. General provisions.

This Article shall govern the placement, location and size of off-premise signs located in Major Advertising Zones as defined in § 3-2. Except where provisions differing from those in Article II of this Chapter are set forth in this Article IV, all provisions of Article II shall otherwise continue to be applicable. (Ord. No. 14216, § 1, 4-8-25)

Sec. 3-42. Standards and regulations.

(a) Off-premise signs with a sign area in excess of seventy-five (75) square feet in size shall be located not less than one thousand (1,000) feet apart on the same side of the road and located not less than three hundred fifty (350) feet from any off-premise sign with a sign area of less than seventy-five (75) square feet as measured on the same side of the right-of-way. In the event a sign is within twenty-five (25) feet of a building which completely obscures the sign from view from the right-of-way in one (1) direction, a companion sign may be located within twenty-five (25) feet of the opposite end of such building; in such event, both signs shall be spaced no less than one thousand (1,000) feet from any other adjacent sign as measured on the same side of the road; provided, however, that any off-premise sign located within three hundred (300) feet of the center of any intersection of two (2) or more roads shall be spaced not less than three hundred fifty (350) feet from any other sign of any size.

(b) The sign area of an off-premise sign shall not exceed six hundred seventy-five (675) square feet, and such sign shall not exceed fourteen (14) feet in height or forty-eight (48) feet in width, excepting the addition of temporary graphic embellishments extending beyond the edge of rectangular sign face, provided that the addition of such embellishments does not increase the total sign area, as defined in § 3-2, to greater than seven hundred fifty (750) square feet.

(c) The highest portion of an off-premise sign or its supporting structure shall not exceed fifty (50) feet above the lower of (i) the closest point on the top of the finished grade of the public road nearest thereto, or (ii) the closest point on the top of the finished grade of the public road toward which the sign is principally oriented and from which it is intended to be viewed, provided that signs with a sign area of less than seventy-five (75) square feet shall be governed by § 3-21.

(d) Off-premise signs with a sign area of less than seventy-five (75) square feet shall not be located less than three hundred fifty (350) feet from any other off-premise sign of any size; said spacing shall apply only to signs on the same side of the road regardless of the direction in which any such sign is facing, provided, however that any such sign located within three hundred (300) feet of the center of any intersection of two (2) or more roads shall be spaced not less than three hundred fifty (350) feet from any other sign of any size.

(e) Off-premise signs with a sign area of less than seventy-five (75) square feet shall be located no closer than ten (10) feet from the closest edge of any public right-of-way; all signs with a sign area in excess of seventy-five (75) square feet shall be located no closer than twenty (20) feet from the closest edge of any public right-of-way.

(f) For the purposes of this Article, two (2) off-premise sign faces placed back-to-back on the same structure with an angle between the backs of each sign face of not more than sixty (60) degrees shall be construed as one (1) sign.
(Ord. No. 14216, § 1, 4-8-25)

Secs. 3-43—3-50. Reserved.

ARTICLE V. SCENIC AREAS AND SCENIC CORRIDORS

Sec. 3-51. Scenic areas and scenic corridors.

Notwithstanding the provisions of Article III and Article IV, this Article shall govern the erection of off-premise signs in Scenic Areas and Scenic Corridors. Except where provisions differing from those in Article II of this Chapter are set forth in this Article V, all of the provisions of Article II shall otherwise continue to be applicable.
(Ord. No. 14216, § 1, 4-8-25)

Sec. 3-52. Scenic areas.

There are hereby established the following Scenic Areas, in which off-premise signs shall be prohibited as set forth in this Article V:

(a) The entirety of that portion of downtown Chattanooga which is bounded on the north and west by the Tennessee River, on the south by Main Street from its westernmost extremity (and extended by an imaginary line from such extremity directly to the Tennessee River) to its intersection with Market Street, and on the east by Market Street from its intersection with Main Street northwardly to King Street, and further on King Street from its intersection with Market Street to its intersection with 8th Street, thence westwardly along 8th Street to its intersection with Houston Street, thence northwardly along Houston Street to its intersection with 3rd Street and extended therefrom by an imaginary line directly to the Tennessee River.

(b) The entirety of the slopes of all ridges and mountains identified herein to the extent that such are located within the city limits, and including those areas more specifically illustrated in yellow on the topographic map attached hereto and specifically adopted as part of this Chapter. (Topographic map is located in the Office of the Clerk of the City Council.) The mountains and ridges included within such Scenic Areas are Lookout Mountain, Signal Mountain/Waldens Ridge, Elder Mountain/Raccoon Mountain, Missionary Ridge, Stringers Ridge, Godsey Ridge and Big Ridge.

(c) Barton Avenue to its intersection with Hixson Pike; Hixson Pike from its intersection with Barton Avenue to its intersection with Lupton Drive; Cherokee Boulevard from its intersection with Market Street to the Stringers Ridge Tunnel; Amnicola Highway from its intersection with the east side of Chattanooga State to Access Road; Hixson Pike from its intersection with Middle Valley Road to the City limits; Main Street from its intersection with Market Street to Holtzclaw Avenue; Holtzclaw Avenue to its intersection with Houston Street; East Brainerd Road from its intersection with Concord Drive to the City limits.

(Ord. No. 14216, § 1, 4-8-25)

Sec. 3-53. Off-premise signs prohibited in scenic areas.

No off-premise signs shall be erected or established within any Scenic Area.
(Ord. No. 14216, § 1, 4-8-25)

Sec. 3-54. Scenic corridors established.

There are hereby established Scenic Corridors, which shall consist of certain strips of land six hundred sixty (660) feet on either side of the outermost edge of the right-of-way of all of the roads, routes and rivers specified in this Article, within which Scenic Corridors all off-premise signs are regulated as set forth herein.
(Ord. No. 14216, § 1, 4-8-25)

Sec. 3-55. Off-premise signs along scenic corridors prohibited.

(a) Interstate 24, beginning at the city limits south and west of the Tiftonia area and continuing to the center of its interchange with U.S. Highway 27, excluding the area within one thousand three hundred twenty (1,320') feet on either side of the Interstate 24 and U.S. Highway 41 intersection at the Tiftonia (Cummings Highway) exit.

(b) Cummings Highway/Lookout Mountain Pike from the City limits west of Lookout Valley to its intersection with Highway 58.

(c) Highway 27 ("Corridor J") and any extensions thereof, beginning at the southern bank of the Tennessee River and extending northward to the northernmost city limits of Chattanooga, limited to those portions of the roadway located within the municipal boundaries of the City of Chattanooga.

(d) The Tennessee River from Chickamauga Dam downstream to the city limits.

(e) Within the area of Veterans Bridge and its approaches beginning at the midpoint of the intersection of Barton Avenue and Crewdson Street and extending southward four hundred seventy-five (475') feet on either side of the centerline of Barton Avenue across Veterans Bridge at the Tennessee River to its intersection with Fourth Street.

(f) Along Interstates 24 and 75 from one hundred fifty (150') feet east of Dodds Avenue eastward to the city limits as they now exist or may hereafter be expanded, except for an area one thousand three hundred twenty (1,320') feet in either direction along Interstate 75 from the intersection with Lee Highway (U.S. Highway 11 and 64) at Ooltewah and State Route 2 (Bonny Oaks Drive).

(g) The Dupont Parkway from its north end, at the center of its intersection with Highway 153, generally south and east across Access Road and across the C.B. Robinson Bridge to the center of its intersection with Amnicola Highway, including all entrance and exit ramps thereto on the north side of Amnicola Highway.

(h) The Airport Connector Road and Shepherd Road from State Highway 153 generally southward to Airport Road.

(i) Riverside Drive generally northwardly and eastwardly from its intersection with Broad Street where it becomes W. 20th Street to the point where it crosses Citico Creek, east of Amincola Highway.

(j) All of Jenkins Road lying within the Chattanooga City limits.

(k) East Brainerd Road from its intersection with N. Concord Road and extending South and East to the City limits.

(l) Highway 153 from its intersection with Amnicola Highway to its intersection with Hamill Road.

(m) Cassandra Smith Road from its intersection with Hixson Pike to its intersection with Hamill Road.

(n) Hamill Road from its intersection with Hixson Pike to Big Ridge Road.

(o) Highway 153 from its intersection with Grubb Road going north to the City limits.

(p) Hickory Valley Road in its entirety.

(q) Jersey Pike in its entirety.

(r) Shallowford Road in its entirety.

(s) Bonny Oaks Drive from its intersection with Highway 58 eastwardly to its intersection with Old Lee Highway at Interstate 75.

(t) Highway 58 from its intersection with Jersey Pike northwardly to the City limits.

(u) All of Harrison-Ooltewah Road lying within the Chattanooga City limits.

(v) All of Old Lee Highway lying within the Chattanooga City limits.

(w) All of Old Cleveland Pike lying within the Chattanooga City limits.

(x) All of Hunter Road lying within the Chattanooga City limits.

(y) All of Mountain View Road lying within the Chattanooga City limits.

(z) All of Snow Hill Road lying within the Chattanooga City limits.

(aa) All of Ooltewah-Georgetown Road lying within the Chattanooga City limits.

(bb) Lee Highway from its intersection with Hunter Road southeastwardly to the City limits towards Bradley County.

(cc) Apison Pike.
(Ord. No. 14216, § 1, 4-8-25; Ord. No. 14366, § 1, 5-26-26)

Secs. 3-91—3-100. Reserved.

ARTICLE X. VARIANCES AND SPECIAL PERMITS

Sec. 3-101. Board of Zoning Appeals to hear requests; meetings; membership.

(a) The Board of Appeals is hereby established and is hereby designated to hear and decide all requests for variances and special permits made pursuant to this Article X. Said Board shall hear such requests at the time and place fixed by said Board for its regular monthly meeting or at such other meetings of the Board as may be called by the Chairman or established by said Board. The City Attorney or his designated representative shall be present at each Board meeting.

(b) The Board of Appeals shall consist of nine (9) members; each member of the City Council shall appoint one (1) member to said Board. Three (3) members of the first Board shall serve terms of one (1) year expiring on July 31, 1992; three (3) members of the first Board shall serve terms of two (2) years expiring July 31, 1993; three (3) members of the first Board shall serve terms of three (3) years expiring

on July 31, 1994. The City Council shall designate the term of each member of the first Board; each member of the Board shall thereafter serve a term of three (3) years. In the event of a vacancy on the Board, the member of the City Council responsible for the appointment of that particular position shall appoint a new member to serve the unexpired term. A member of said Board may be removed from the Board upon a majority vote of the entire City Council.
(Ord. No. 14216, § 1, 4-8-25)

Sec. 3-102. Jurisdiction of the board.

The Board of Appeals shall have the following powers:

(a) Reserved.

(b) To hear and rule on requests for variances to permit an attached sign greater in size than allowed by Article IX, Section 3-92(e) of this Chapter, if, in the opinion of said Board, a severe and substantial hardship is imposed by the provision of this Chapter. The Board shall require a showing of such hardship with respect to circumstances of a unique site location, which may include, but not limited to: (i) setback of building rights-of-way, or, (ii) building heights or other visual impediments that would prevent visibility of said sign to (the) traveling public.

(c) Reserved.

(d) Reserved.

(e) To hear and rule on requests for special permits for off-premise traffic directional signs for licensed facilities offering twenty-four (24) hour emergency medical and/or psychiatric care; no such sign shall be permitted with any message thereon other than ordinary and customary traffic directions to such facility. The Board in its discretion may impose such reasonable conditions on the size, height and placement of such traffic directional signs as it deems appropriate for traffic safety. Any such traffic directional sign operated or maintained in violation of any condition placed upon it by the Board of Zoning Appeals in the special permit for such sign is hereby declared to be a violation of the provisions of this Chapter and subject to abatement as set forth in Article I of this Chapter.

(Ord. No. 14216, § 1, 4-8-25)

Sec. 3-103. Applications to the board.

Persons desiring consideration by the Board shall apply to the Secretary of the Board of Zoning Appeals and shall supply such information as the Board may require to identify the premises and proposed location of the sign in question and to determine the reason for the request. Each application shall be accompanied by a receipt for a fee of One Hundred Dollars ($100.00) paid to the City Treasurer to cover the City's cost of handling the application, no part of which fee is refundable. Persons objecting to the application or interested in the determination made by the Board may likewise set forth their views and actual evidence in writing. The application and any objection shall be submitted to the Board within the time provided in its rules of procedure.
(Ord. No. 14216, § 1, 4-8-25)

Sec. 3-104. Notices.

A notice of the public hearings held by the Board of Zoning Appeals shall be sent by regular mail to each of the property owners within a minimum of two hundred (200) feet of each property in question before the Board. Said notice will be mailed at least seven (7) days prior to the public hearing by the Board. The most recently updated tax rolls for the City of Chattanooga will be the source of ownership information for Board purposes. A notice shall be published in a daily newspaper at least seven (7) days before the hearing. The names of each of the property owners within a minimum of two hundred (200) feet of each property in question before the Board shall be supplied by the applicant to the secretary of the Board concurrently with the filing of any application for a variance, special permit or special exception; failure to provide a complete list of such property owners shall, in the discretion of the Board, constitute grounds for denial of the application.
(Ord. No. 14216, § 1, 4-8-25)

Sec. 3-105. Conditions for granting variances.

Before a variance may be granted, the Board must find that the following conditions exist:

(a) That by reason of exceptional narrowness, shallowness or shape of a specific piece of property or by reason of exceptional topographic conditions or other extraordinary and exceptional situation or condition of such piece of property, the strict application of this Chapter would result in peculiar and practical difficulties or undue hardships upon the owner. If the ground level of the premises for which a variance is sought is higher than the ground level of the public right-of-way at its nearest point from the proposed location of such sign, the Board shall not consider topographical conditions as contributing to such peculiar and practical difficulties or undue hardships upon the owner.

(b) That the relief of the peculiar and practical difficulties or undue hardships granted by the Board would not establish substantial detriment to the public good or substantially impair the intent and purpose of this Chapter.

(c) That the peculiar and practical difficulties or undue hardship is not created as a result of any act upon the part of the applicant.

(d) That the conditions upon which the petition for which a variance is based would not be applicable generally to other property and that the difficulty complained of by the applicant is not a general or widespread condition throughout the City.

(e) That the condition or hardship is not simply the presence of a legal or illegal nonconforming sign on a nearby premises. The presence of a nonconforming sign on another parcel of property shall not by itself be sufficient cause for granting of a variance.

(f) That the proposed variance will not increase the danger of fire or electrical hazard, obscure sight lines for motorists or otherwise endanger the public safety.

(g) That the peculiar hardship is related to specific qualities of the property as noted in (a) above, and not simply to the financial expectations of the applicant. Financial factors alone shall not be considered as a basis for granting a variance.

(Ord. No. 14216, § 1, 4-8-25)

Sec. 3-106. Conditions for granting special permit for message center.

Before a special permit for a message center may be granted, the Board of Zoning Appeals must find that the granting of the special permit will not result in substantial distraction to traffic on any adjacent public right-of-way or increase substantially the obstruction of an approach to a scene of unusual attractiveness or detract from an area that has been determined to be unusually scenic or attractive.
(Ord. No. 14216, § 1, 4-8-25)

Sec. 3-107. Rehearings; termination of variances and special permits.

The Board shall not rehear any request for a variance or special permit for a message center within a minimum period of one (1) year from its previous hearing date. If a decision of the Board to grant a variance or special permit for a message center has not been fully utilized and confirmed by the completion of the construction of the sign contemplated by the applicant within a period of one (1) year from the date of the Board's decision, such variance or special permit previously granted shall be considered void.
(Ord. No. 14216, § 1, 4-8-25)

Sec. 3-108. Records; administration.

The Board shall keep a duplicate record of its proceedings, findings and action in each case, giving specific reasons for its action and for any deviation from policy it might have established in past cases. The vote of each member on each question shall appear in the record. All records of the Board shall be open to the public.

The mayor shall name the secretary to the board. The secretary shall conduct all official correspondence subject to the rules and directions of the Board and shall send out all notices and attend all meetings or cause the same to be done. The secretary shall keep the Minutes of the Board, compile the records and maintain the official files of the Board or cause the same to be done.
(Ord. No. 14216, § 1, 4-8-25)

Sec. 3-109. Appeals from Board's decision.

The action of the Board shall be final, provided, an appeal from the action of the Board may be taken to a court of competent jurisdiction by any aggrieved, affected party.
(Ord. No. 14216, § 1, 4-8-25)

Sec. 3-110. Reserved.

ARTICLE XI. VETERANS BRIDGE SIGN-CONTROL DISTRICT

Sec. 3-111. Reserved.

Sec. 3-112. Established; boundaries.

There is hereby established a Veterans Bridge Sign-Control District which shall be defined as follows: Within the area of Veterans Bridge and its approaches beginning as the midpoint of the intersection of Barton Avenue and Crewdson Street and extending southward four hundred seventy-five (475) feet on either side of the centerline of Barton Avenue across Veterans Bridge at that Tennessee River and continuing along four hundred seventy-five (475) feet on either side of the centerline of Georgia Avenue to Fourth Street; thence continuing westward to include an area four hundred seventy-five (475) feet on either side of the centerline of Fourth Street to Interstate Highway 124.
(Ord. No. 14216, § 1, 4-8-25)

Sec. 3-113. Special Regulations.

Within the specific control district, the following special regulations shall apply:

1. *Off-premises signs:* Within the specified control district, off-premises attached signs shall be permitted, subject to the following limits:
    a. *Sign:* Not regulated except that:
        1. Signs shall not extend above the eave line or roof line or parapet wall (if any) of the building;

2. No more than twenty percent (20%) of a wall shall be covered with signs;

b. *Number:* Except as provided above, there are no limits on the number of attached signs.

c. *Exceptions:* On-premises signs for businesses fronting on Market and Broad Streets are excepted from these limitations.

2. Reserved.

3. *Off-premises, detached:* Within the specified control district, off-premises detached signs shall be prohibited.

4. Reserved.

5. Reserved.

6. *Lighted and animated signs:* Within the specified control district, signs with flashing lights or moving parts shall be prohibited. Furthermore, no amber, blue, red or green lights shall be permitted, and any direct lighting shall not exceed sixty (60) watts in an incandescent bulb or seventy-five (75) watts in a fluorescent fixture.

(Ord. No. 14216, § 1, 4-8-25)

Sec. 3-114. Existing signs.

Signs existing within the control district as of June 12, 1984, which may fail to conform with these new regulations may continue to be used so long as they are not enlarged, lighted in not low lighted, or otherwise materially altered, except that such signs may be replaced, remodeled or otherwise improved if, in the opinion of the Building Official, such work does not violate the intent of this provision. Examples of permitted improvements might include: replacement of a wooden structure with a steel structure; replacement of multiple supports with a single steel post, and other such modifications which result in a cleaner, less cluttered appearance.

(Ord. No. 14216, § 1, 4-8-25)

Secs. 3-115—3-120. Reserved.

ARTICLE XII. RESERVED

Secs. 3-121—3-130. Reserved.

ARTICLE XIII. RESERVED

Secs. 3-131, 3-132. Reserved.

CHAPTER 3B: ON-PREMISE ADVERTISING

AS AMENDED

ARTICLE XIV. PURPOSE AND APPLICABILITY

Sec. 3-133. Intent and Purpose.

1. To promote the creation of an attractive visual environment that encourages a healthy economy by:

a. Permitting businesses to inform, identify, and communicate effectively.

b. Assist the public with wayfinding using signs while maintaining attractive and harmonious application of signs on the buildings and sites.

2. To protect and enhance the physical appearance of the community in a lawful manner that recognizes the rights of property owners by:

a. Encouraging the appropriate context and design, scale, and placement of signs.

b. Encouraging the orderly placement of signs on the building while avoiding regulations that are so rigid and inflexible that all signs in a series are monotonously uniform.

c. Assuring that the information displayed on a sign is clearly visible, conspicuous, legible, and readable so that the sign achieves the intended purpose.

3. To foster public safety along public and private streets within the community by assuring that all signs are in safe and appropriate locations.

4. To provide administrative review procedures that are the minimum necessary to:

a. Balance the community's objectives and regulatory requirements with the reasonable advertising and wayfinding needs of businesses.

b. Allow for consistent enforcement of the Sign Code.

c. Minimize the time required to review a sign application.

(Ord. No. 14216, § 1, 4-8-25)

Sec. 3-134. Applicability.

1. The regulations of Chapter 3B (Sections 3-133—3-204) are applicable in zoning districts without sign and other sign structure requirements exclusive to a specific zoning district. Where sign requirements are provided in a specific zoning district, those requirements control.

2. The provisions of Chapter 3B shall apply to all on-premises signs erected within the corporate limits of the City that are directed to be viewed from the right-of-way. All erection, construction, reconstruction, enlargement, moving, altering, or converting of signs in the City shall be performed in compliance with the requirements of Chapter 3B.

3. If any provision or requirement of Chapter 3B is found to conflict with any other provision or requirement of Chapter 3B or of any other applicable ordinance or regulation of any kind, the regulation which established the more restrictive rule or higher standard shall govern.

4. The provisions of Chapter 3B shall be deemed to be severable. If any part or provision of Chapter 3B is found to be illegal, invalid, or unenforceable as a matter of law, all other provisions of Chapter 3B shall remain in full force and effect.

5. Illustrations, photographs, and graphics are included in this Sign Code to illustrate the intent and requirement of the text. In the case of a conflict between the text of this Sign Code and any illustrations, photographs and graphics, the text governs.

(Ord. No. 14216, § 1, 4-8-25)

Sec. 3-135. Current Versions and Citations.

1. All references to other regulations, documents, maps, or manuals in this Code refer to the most current version and citation for those regulations, documents, maps, or manuals, unless expressly indicated otherwise.

2. If the referenced regulations or documents have been repealed and not replaced by other regulations or manuals, Code requirements for compliance are no longer in effect.

3. Whenever a provision of this Code refers to any other part of the City Code or to any other law, the reference applies to any subsequent amendment of that law.
(Ord. No. 14216, § 1, 4-8-25)

ARTICLE XV. DEFINITIONS, RULES OF MEASUREMENT, AND SIGN TYPES

DIVISION 1. RULES OF INTERPRETATION AND GENERAL ABBREVIATIONS

Sec. 3-136. Rules of Interpretation.

The terms in the text of this Code are interpreted in accordance with the following rules of construction:

(a) The singular number includes the plural, and the plural the singular.

(b) The present tense includes the past and future tenses, and the future tense includes the present.

(c) The terms "must," "shall," and "will" are mandatory.

(d) The terms "may" and "can" are permissive.

(e) The terms "must not," "will not," "cannot," "may not," and "shall not" are prohibiting.

(f) Any gender includes all genders.

(g) Whenever a defined word or term appears in the text of this Code, its meaning must be construed as set forth in the definition. Words not defined must be interpreted in accordance with the definitions considered to be normal dictionary usage unless the words have a specific definition under the International Building Code or Sign Research Foundation's Sign Glossary, in which case the International Building Code or Sign Research Foundation's Sign Glossary definition shall apply.
(Ord. No. 14216, § 1, 4-8-25)

Sec. 3.137. General Abbreviations.

The following abbreviations may be used within this Code:

AHO: Administrative Hearing Officer

BOZA: Board of Zoning Appeals

EMC: Electronic Message Center

LCD: Liquid Crystal Display

LED: Light Emitting Diode

MSP: Master Sign Plan

SF: Square Feet

R-O-W: Right-of-way
(Ord. No. 14216, § 1, 4-8-25)

DIVISION 2. DEFINITIONS

Abandoned or Dilapidated Sign. A sign which for a period of at least 180 consecutive days or longer no longer advertises or identifies a legal business establishment, product, or activity. For the purpose of this Section, "dilapidated" shall mean a condition of decay, deterioration, or partial ruin especially through neglect or misuse.

Alteration. Any change in copy, color, size, or shape, which changes the appearance of a sign, or a change in position, location, construction or supporting structure of a sign.

Animated Sign. A sign which has any visible moving part, flashing or oscillating lights, visible mechanical movement of any description, or other apparent visible movement achieved by any means that move, change, flash, oscillate, or visibly alters in appearance in a manner that is not permitted by these regulations.

Attached Sign. Attached sign shall mean an on-premises sign painted onto or attached to a building, canopy, awning, marquee, or mechanical equipment located outside a building.

Awning. A roof-like cover providing protection from the weather placed over or extending from above any window, door or other entrance to a building but excluding any column, pole or other supporting structure to which the awning is attached.

Backlit (Halo Letters) Sign. An internally illuminated sign with letters or graphics that have an opaque face where only the back of the sign is illuminated. These signs are also often referred to as "reverse channel letters."

Building. Building shall mean any structure that encloses a place for sheltering any occupancy that (a) contains not less than three hundred (300) square feet of enclosed space at the ground level or (b) is routinely used for human occupancy in the ordinary course of business.

Building Identification Sign. A sign that contains only the building name or identification.

Canopy. A permanent roof-like structure providing protection against the weather, either attached to or detached from a building, but excluding any column, pole, or other supporting structure to which the canopy may be attached.

Channel Letter. Three-dimensional individually cut letters or figures affixed to a sign.

Compensation. The exchange of anything of value, including money, securities, real property interests, personal property interests, goods or services, promise of future payment, or forbearance of debt.

Detached Sign. An on-premises sign not attached to or painted on a building, but which is affixed to the ground.

Directional Sign. A sign that points the way for pedestrians or drivers when a business is not clearly seen from the entrance to a building. They can also be called wayfinding signs.

External Illumination. Illumination by an artificial source of light not internal to the sign face.

Façade. An exterior building wall, from grade to the top of the parapet or eaves. A façade incorporates the full width of a building elevation, including any projections or recesses occurring across an elevation. The front facade is the principal elevation of a building and contains the building's main entrance; the rear facade is the building's rear exterior wall; and the side facades are a building's side exterior walls.

Flashing Sign. A sign (i) the illumination of which is intermittently on and off so as to appear to flash, blink, chase, travel or stream; (ii) which resembles zooming, twinkling or sparkling; (iii) which fluctuates in light intensity or uses intermittent, strobe or moving light or lights; (iv) which reflects light so as to

appear to flash, blink, chase, sparkle or flutter, such as but not limited to metallic or mylar-type fluttering materials; (v) which changes color; (vi) which displays any movement or simulates movement; or (vii) which displays any form or appearance of animation.

Footcandle. A measure of illumination on a surface that is one foot from a uniform source of light of one candle and equal to one lumen per square foot.

Governmental Sign. A sign erected and maintained pursuant to, and in discharge of, any governmental functions, or required by law, ordinance, or other governmental regulation.

Holiday Decorations. Displays including lighting which are a nonpermanent installation celebrating national, state, and local holidays or holiday seasons.

Illegal Sign. Any sign placed without proper approval or permits as required by this Code at the time of sign placement. Illegal sign shall also mean any sign placed contrary to the terms or time limits of any permit.

Illuminated Sign. Any sign for which an artificial source of light is used to make readable the sign's message, including internally and externally lighted signs and reflectorized, glowing, or radiating signs.

Incidental Sign. An on-premises sign, emblem or decal mounted flush with the facade to which it is attached informing the public of goods, facilities, or services available on the premises (e.g., a credit card sign, ice machine sign, vending machine sign or a sign indicating hours of business) or an on-premises sign which is affixed to mechanical equipment used to dispense a product.

Inflatable Signs. A temporary inflated sign, which may be stationary or mobile, that is used to attract attention.

Internal Illumination. A light source that is concealed or contained within the sign or letter and becomes visible in darkness through a translucent surface.

Landmark Sign. A sign that exemplifies the cultural, architectural, or commercial identity of Chattanooga and Hamilton County, is iconic in its location, and contributes to the surrounding neighborhood character.

a. *Historic Sign.* A landmark sign that identifies and is attached to any building which is included on the National Register of Historic Places, is listed as a Certified Historic Structure, is listed as a National Monument, or listed under any similar local, state or national historical or cultural designation.

b. *Vintage Sign.* A landmark sign that is iconic and culturally significant and was constructed between fifty (50) and twenty-five (25) years before the date of application.

c. *Replica Sign.* A landmark sign that is an exact reproduction of an historic sign which no longer exists.

Logo, Logogram, or *Logotype.* An emblem, letter, character, pictograph, trademark, or symbol used to represent any firm, organization, entity, or product.

Mansard. The lower portion of a roof with two (2) pitches, including a flat-top roof with a mansard portion.

Mansard Sign. Any sign attached to the mansard portion of a roof.

Marquee. A permanent roof-like structure projecting from and beyond a building wall at an entrance to a building or extending along and projecting beyond the building's wall and generally designed and constructed to provide protection against the weather.

Master Sign Plan. A Master Sign Plan shall include all proposed signs or sign locations for the entire multiple-tenant non-residential development, including defined wall sign spaces for tenants (tenant sign space), a ground sign or multiple tenant sign, directional signs, etc.

Menu Board. A sign associated with drive-through windows that is oriented toward drive-through traffic.

Mural. A painted picture on an exterior surface of a structure. A mural is a sign only if it contains the business name and/or logo of the business. See "Mural Painted Wall Sign."

Mural Painted Wall Sign. A picture/image (including but not limited to painted art) which is painted, constructed, or affixed directly onto a vertical building wall that contains a business name and/or logo of the business.

Neon Sign. A sign with tubing that is internally illuminated by neon or other electrically charged gas.

Nonconforming Sign. A sign that was validly installed under laws or ordinances in effect at the time of its installation, but which conflicts with the current provisions of this Code.

Occupant. Occupant shall mean each separate person which owns or leases and occupies a separate portion of a premises.

On-Premises Sign. A sign that is operated or owned by a person or entity that is earning no compensation directly or indirectly from a third party or parties for the placement of a message on the sign.

Parapet. An extension of a false front or wall above a roof line.

Person. An individual, company, corporation, association, partnership, joint venture, business, proprietorship, or any other legal entity.

Premises. Premises shall mean all contiguous land in the same ownership which is not divided by any public highway, street, alley, or right-of-way. As part of a dominant parcel of property, premises shall also include a permanent easement to the dominant parcel which (1) connects the dominant parcel to a public right-of-way, (2) is the sole means of ingress and egress to and from a public right-of-way for vehicular traffic to the dominant parcel, and (3) is regularly used for ingress and egress to the dominant parcel by vehicular traffic.

Pole Sign. A freestanding sign erected and maintained on a mast(s) or pole(s) and not attached to any building.

Portable Sign. Any movable sign not permanently attached to the ground or a building and easily removable using ordinary hand tools.

Public Right-of-Way. For the purposes of this Code, public right-of-way (R-O-W) shall mean any street, sidewalk, parking lot, or public entrance that is primarily oriented towards a pedestrian entrance into a building. For the purposes of this Code, "public street", "public right-of-way" and "public road" shall include any private street which is open to and regularly used by the public and which is constructed to City standards set forth in the Subdivision Regulations adopted by the City.

Reader Board. Any on-premises sign attached to or made a part of the support system of a freestanding sign which either displays interchangeable messages or advertises some product or service offered separately from the name of the premises where it is located.

Reflectorized Sign. A sign made with highly reflective material to enhance visibility, especially at night or in low-light conditions. The purpose of a reflectorized sign is to improve safety and visibility by reflecting light from vehicle headlights or other sources, making the sign more noticeable to drivers and pedestrians.

Scenic Area. Scenic area shall mean those areas within the city limits, as more specifically identified in Article VI, which are either of uncommon visual importance or scenic attractiveness and within which the construction of off-premise signs is prohibited in accordance with the provisions of Article VI.

Scenic Corridor. Scenic corridor shall mean those land areas within the city limits which lie within six hundred sixty (660) feet of either side of the outermost edge of any of the roads, rivers, or rights-of-way more specifically designated in Article VI, which are either of uncommon visual importance or scenic attractiveness.

Sign. Any name, figure, character, outline, display, announcement, or device, or structure supporting the same, or any other device of similar nature designed to attract attention outdoors, and shall include all parts, portions, units, and materials composing the same, together with the frame, background, and supports or anchoring thereof. A sign shall not include any architectural or landscape features that may also attract attention.

Snipe Sign. Any on-premises sign for which a permit has not been issued which is attached in any way to a utility pole, building column, tree, rock, fence, or fence post.

Spacing. The interval between signs determined by measuring from the upright column or outermost supporting columns and extending by the most direct line perpendicular to the road to a point nearest the road right-of-way, and then proceeding in either direction along the nearest edge of the right-of-way or pavement for the prescribed distance.

Special Event. A short-term event of unique significance not in excess of thirty (30) days; such terms shall include only grand openings, health-related promotions or health-related service programs (i.e., flu shots clinic, blood donation drives, chest x-ray clinic, etc.), going-out-of-business sales, promotions sponsored by a governmental entity, fairs, school fairs, school bazaars, charity runs, festivals, religious celebrations, charity fundraisers, or similar type of events and shall not include other sales or promotions in the ordinary course of business.

Temporary Sign. Any sign which is installed for a period not to exceed one hundred twenty (120) days.

Traffic Sign. A sign to govern motor vehicle and pedestrian movements or activities on streets, roads, or highways and containing no advertisement.

Vehicle Sign. Any sign permanently or temporarily attached to or placed on a vehicle or trailer.

Window Art. A picture or graphic on a window that does not display the business name, logos, or trademarked symbols.
(Ord. No. 14216, § 1, 4-8-25)

Sec. 3-138. Attached Signs.

Name	*Definition*	*Graphic*
Awning Sign	Any sign painted on or attached to or supported by an awning.	
Building Entry Sign	An attached sign that is located near a primary pedestrian entrance of a building that identifies the interior uses of the building that are accessible from that entrance. This sign is not included in the total number of attached signs.	Canopy Sign	Any permanent sign attached to or constructed underneath a canopy. These signs are below a projecting structure that extends over the pedestrian walkway, which effectively prevents the wall signs from being visible to the pedestrian walking under the canopy. See Also Projecting Sign.	
Name	*Definition*	*Graphic*
Marquee Sign	Any sign painted on or attached to or supported by a marquee.	
Projecting Sign	A sign that hangs from beams, brackets, or poles or that projects from poles or brackets from the building.	
Roof Sign	Any sign erected upon or above a roof line or parapet wall of a building or placed above the apparent flat roof or eaves of a building.	

Name	*Definition*	*Graphic*
Wall Sign	A sign that is flat against the building façade and mounted or applied directly to the building.	Window and Door Sign	Any sign affixed in any manner to a window or exterior glass door such that it is intended to be viewable from the exterior (beyond the sidewalk immediately adjacent to the window), including signs located inside a building but visible primarily from the outside of the building.	

(Ord. No. 14216, § 1, 4-8-25)

Sec. 3-138.2. Detached Signs.

Name	*Definition*	*Graphic*
Message Center Sign	A sign on which the message or copy changes automatically on a lamp bank or through mechanical means also known as a Commercial Electronic Variable Message Sign and Electronic Message Center.	
Freestanding Sign	Any sign that is permanently affixed in or upon the ground, supported by one or more structural members, with air space between the ground and the sign face.	
Monument Sign	An advertising or identification device that is ground mounted and constructed so that there is no space between the ground and the bottom of the device.	

(Ord. No. 14216, § 1, 4-8-25)

Sec. 3-138.3. Temporary and Portable Signs.

Name	*Definition*	*Graphic*
Balloon Sign	A lighter-than-air gas-filled balloon, tethered in a fixed location, which has a sign with a message on its surface or attached in any manner to the balloon.	Banner	An on-premises sign which is made of fabric or any other non-rigid material and which has no enclosing framework or internal supporting structure but not including balloon signs.	
Feather Sign	A wind activated feather, blade or teardrop shaped sign of flexible material attached to a support pole that is normally inserted into a receptacle in the ground.	
Name	*Definition*	*Graphic*
Sandwich Board Sign	A stationary, double faced temporary sign that is ground supported; also known as an A-frame sign.	Yard Sign	A type of temporary sign such as garage sale, political sports league, and contractor signs, that is neither permanently anchored to the ground, nor permanently affixed to a structure. Yard signs are constructed of cloth, canvas, corrugated plastic, light fabric, cardboard, wallboard, or other similar materials, with or without frames and are intended to be displayed for a limited period.	

(Ord. No. 14216, § 1, 4-8-25)

DIVISION 4. LIGHTING TYPES

Sign Lighting Type	*Definition*	*Example*
Direct Lighting	A specific style of illumination where the source of light is internal and integral to the sign structure and where the resultant illumination radiates out in the direction of the viewer. This designation includes neon lighting, face-lighted channel letters and sign panels with routed and push-through graphics (backlit).	

Sign Lighting Type	*Definition*	*Example*
Indirect Lighting	A specific style of illumination where the source of light is external to, and independent of, the sign structure, and the illumination radiates toward the message area away from the viewer. This includes goose neck, linear sign lights, and ground mounted spotlights.	

(Ord. No. 14216, § 1, 4-8-25)

DIVISION 5. RULES OF MEASUREMENT

Sec. 3-139. Sign Area.

1. *Determining Sign Area.* In determining the square footage of allowable signage for any business, use, or tenant space, the area of each sign face will be added together excluding identical double-faced signs.

2. *Measuring Sign Area.* Sign area is the entire surface area of a sign, including the frame. The supports, uprights, or structures on which any sign is mounted shall not be included in determining sign area.

a. *Standard Geometric Shapes.* When the surface area of a sign consists of a conventional geometric shape, such as a circle, an oval, a rhombus, a trapezoid, or a triangle, the accepted mathematical formulas for calculating area will be used to determine the surface area of a sign.

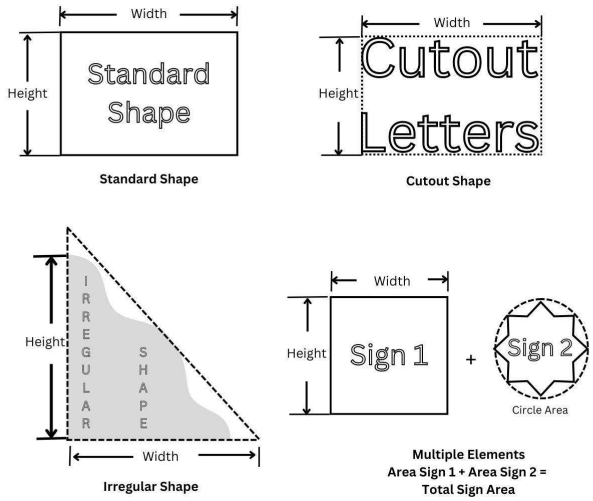
b. *Cutout Letters.* Sign area for cutout letters or display applied directly to the building surface and lacking a defined border or trim shall be determined by including the total area within the periphery of the cutout letters on display, which can be enclosed within a rectangle or the closest geometric shape with a maximum of two enclosing shapes.

c. *Irregular Geometric Shapes.* If a sign consists of a symbol, or an irregular geometric shape without an accepted mathematical formula for calculating area, the entire surface area of the symbol, which can be enclosed within a rectangle or the closest geometric shape with a maximum of two enclosing shapes, shall be determined as the sign area.

d. *Multiple Elements.* If a sign consists of a symbol, graphic or text with multiple elements that are an irregular geometric shape the sign area and dimensions shall be calculated by determining the geometric form, or combination of forms, which comprises all the display areas, including the space between different elements.

e. *Multi-Faced Sign.* When two identical sign faces are placed back-to-back so that both faces cannot be viewed from any point at the same time, and are part of the same sign structure, the sign area shall be computed as the measurement of one of the two faces. When the sign has more than two display surfaces, the area of the sign shall be the area of the largest display surface or surfaces that are visible from any single direction.

MEASURING SIGN AREA DIAGRAM



(Ord. No. 14216, § 1, 4-8-25)

Sec. 3-140. Sign Width.

1. *Width.* Width shall mean the total measurement of the horizontal side of the rectangle which is used to calculate "sign area."
(Ord. No. 14216, § 1, 4-8-25)

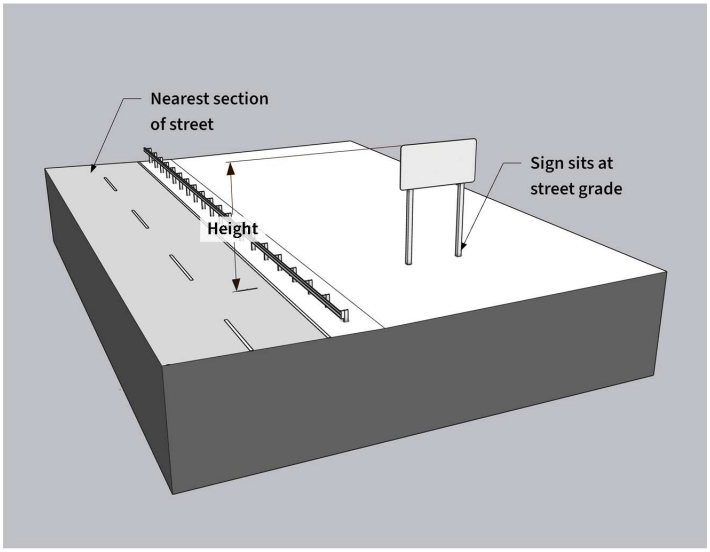
Sec. 3-141. Sign Height.

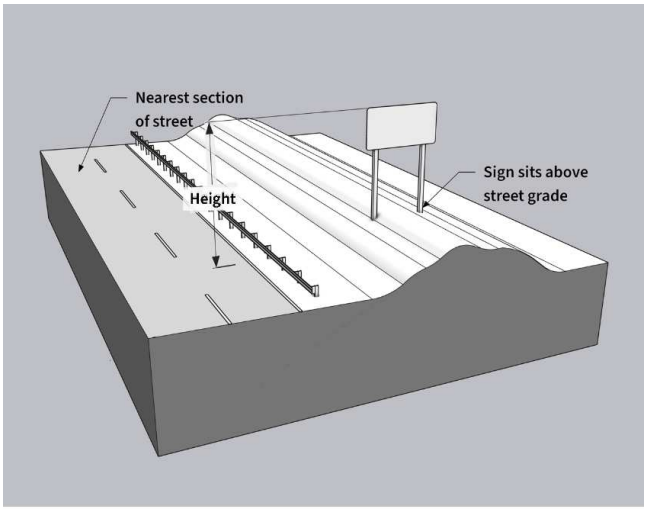
1. *Height.* Height shall mean the total measurement of the vertical side of the rectangle which is used to calculate "sign area."

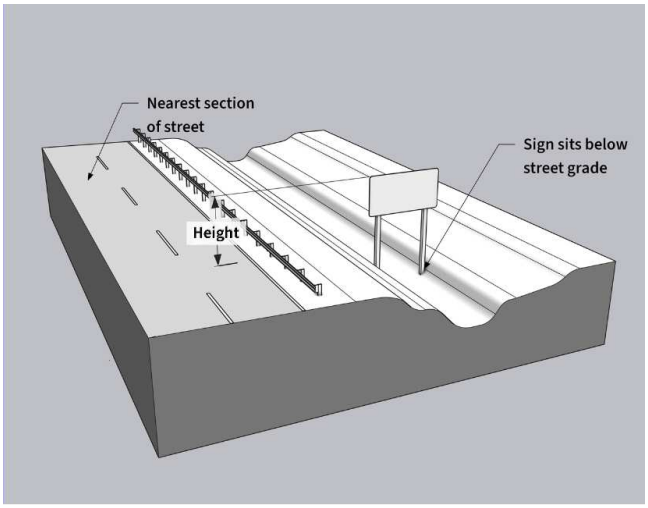
2. *Determining Sign Height.*

a. Freestanding Signs. The height of a sign or sign structure shall be measured from finished grade to the highest point of the sign or sign structure. When a sign is located on a graded earth mound or in an area lower than the adjacent public street, the sign shall be measured from a surveyed point located at the horizontal line of sight from the paved surface of the nearest section of street.

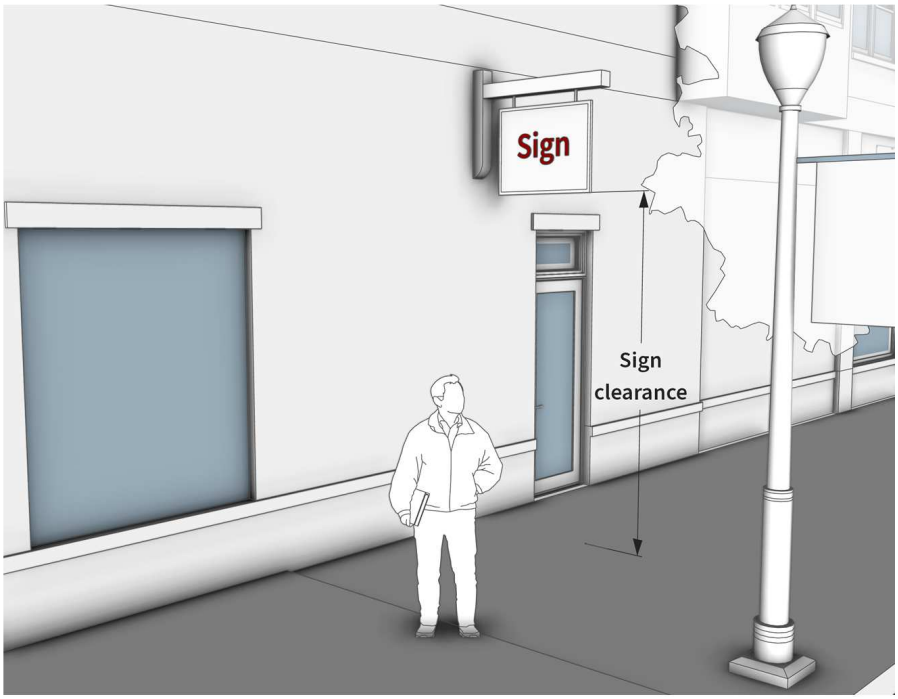
SIGN HEIGHT DIAGRAM







3. *Awning, Canopy, Marquee, and Projecting Signs.* Clearance for signs shall be measured at the smallest vertical distance between the ground and the lowest point of the sign, including any framework or other embellishments.



4. *Wall Signs.* Heights shall not exceed the height of the building wall to which the sign is affixed. (Ord. No. 14216, § 1, 4-8-25)

ARTICLE XVI. PROHIBITED SIGNS

Sec. 3-142. Prohibited Signs.

It shall be unlawful for any person to erect or maintain a sign which is prohibited as follows:

1. Signs which by color, location, and/or design resemble or conflict with traffic control signs or signals.

2. Signs which are attached or otherwise affixed to trees or other living vegetation, lampposts, and/or utility poles.

3. Vehicle signs, when the vehicle is parked on or otherwise utilizing a public right-of-way, public property, or on private property so as to be intended to be visible from the street right-of-way for the primary purpose of providing advertisement of products or services or directing people to a business or activity and is not regularly used in the conduct of the business.

4. Abandoned or dilapidated signs.

5. Banners greater than forty (40) square feet in sign area, except where specifically permitted for an authorized temporary use in accordance with the provisions of Article XVII.

6. A sign placed in a right-of-way (including roadway median, traffic island and/or traffic circle/roundabout), except as required by appropriate federal, state, city or county governmental authorities or otherwise stated in this Chapter.

7. Signs that contain any lighting or control mechanism that causes unreasonable interference with radio, television, or other communication signals.

8. Sign display areas with varying light illumination and/or intensity, blinking, bursting, dissolving, distorting, fading, flashing, oscillating, rotating, scrolling, sequencing, shimmering, sparkling, streaming, traveling, tracing, twinkling, simulated movement, or convey the illusion of movement.

9. Signs that are of such intensity or brilliance as to cause glare or impair the vision of any motorist, cyclist or pedestrian using or entering a public way.

10. Signs that emit audible sound, odor, or visible matter such as smoke or steam.

11. Signs with moving parts.

12. Roof signs and signs painted on a roof.

13. Balloon Signs except when permitted as a temporary sign for special events in accordance with Article XVII.

14. Snipe Signs.

15. Inflatable Signs.

16. Animated Signs.

(Ord. No. 14216, § 1, 4-8-25)

ARTICLE XVII. EXEMPT AND TEMPORARY SIGNS

DIVISION 1. EXEMPT SIGNS

The following signs shall not require a sign permit but may be subject to other applicable laws and regulations outside of this Chapter. Refer to Table 1 below for exempt sign standards.

1. Banners forty (40) square feet or less in sign area. Only one banner per business is permitted.
2. Building entry and building identification sign
3. Entrance and exit signs regulated by the International Building Code
4. Feather Signs. Not permitted in the Residential Character Area.
5. Incidental Signs not exceeding two (2) square feet in sign area.
6. Landmark signs
7. Signs and other devices erected, posted, or otherwise established by any governmental agency regulating traffic, public purpose/safety, or any other notice or warning required by a valid and applicable federal, state, or local law, regulation, or resolution.
8. Sandwich Board Signs, subject to the following regulations:
    a. Sandwich board signs are not permitted in the Residential Character Area- Residentially zoned parcels see Article VI for more information.
    b. A sandwich board sign must be placed on the ground or paved surface and may be placed on a sidewalk within public right-of-way or public property within fifteen (15) feet of the entry to a business or outdoor space associated with the business.
    c. Such signs cannot be located within any designated fire lane or obstruct vehicular, bicycle, or pedestrian traffic, must comply with ADA clearance and accessibility standards, and must be removed from the sidewalk at the close of business each day.
9. Yard signs including but not limited to garage sale, temporary signs for political, construction or real estate purposes, and sports leagues.
10. Works of art, including murals, that are not considered mural painted wall signs.

Table 1 Exempt Sign Standards

Sign Type	*Max Size*	*Max Number*	*Max Height*	*Illumination Type*	*Display Period*	*Removal Required*
Banner	40 SF	1 per business	Can't exceed height of building wall	None	N/A	N/A
Feather Sign	25 SF	1 per street frontage & shall not be within 100' along the same street frontage of any other temporary sign providing the same information	12'	None	Dawn to dusk	Stored inside each evening after dusk

Table 1 Exempt Sign Standards						
Sign Type	*Max Size*	*Max Number*	*Max Height*	*Illumination Type*	*Display Period*	*Removal Required*
Sandwich Board Sign	7.5 sf, signs can be double sided & only 1 side is counted toward the sign area	1 per business	36"	None	When the business is open for business	Remove signs during non-business hours
Yard Sign	32 SF	1 per street frontage	10'	None	N/A	N/A

(Ord. No. 14216, § 1, 4-8-25)

DIVISION 2. TEMPORARY ON-PREMISES SIGNS

Sec. 3-143. Authorized use of temporary signs.

1. *Purpose.* Limited on-premises temporary signs are allowed to provide reasonable opportunities for communication while protecting the aesthetics of the city and avoiding confusion and clutter.

2. *Sign Types Allowed.* A temporary sign may be an on-premises ground or on-premises building sign but may not be constructed of or operated by electrical, electronic, or mechanical parts. Banners, balloon signs, and feather signs are defined as being temporary signs.
(Ord. No. 14216, § 1, 4-8-25)

Sec. 3-144. Limitations.

1. *Limit on Use of Temporary Signs.* No occupant shall be eligible for issuance of a temporary sign permit for more than a total of one hundred twenty (120) days during any calendar year.

2. *Time Limit for Display of Temporary Signs.* All temporary sign permits shall state an effective date and an expiration date; such permits shall be issued only for fifteen (15) day increments. Any temporary sign and its supporting structure permitted under this Article shall be removed at or before 11:59 p.m. of the expiration date on the temporary sign permit notwithstanding any other provision of this Chapter, unless the temporary sign permit for such sign is renewed.

3. *Temporary Signs for Occupants Which Have Relocated.* Any occupant which has relocated may obtain a temporary sign permit for a period not to exceed one hundred twenty (120) days. No renewal shall be permitted for any such temporary sign, and not more than one (1) such temporary sign shall be permitted per occupant. Any such temporary sign shall be permitted and maintained only on the premises at which the occupant was located prior to relocation and only with the permission of the owner of the premises.
(Ord. No. 14216, § 1, 4-8-25)

Sec. 3-145. Permitting.

1. *Permit Required.* All temporary signs other than political signs must be permitted in accordance with Section 3-192 prior to placement or erection of such sign or banner.

2. *Renewal of Permit.* A temporary sign permit may be renewed once for an additional consecutive fifteen (15) day period; such renewal may be made by the Land Development Office prior to the expiration date of the initial permit and shall require an additional fee.
(Ord. No. 14216, § 1, 4-8-25)

Sec. 3-146. Temporary Sign Types.

1. *Banners.* An occupant may display one (1) banner (whether attached or detached) at a time. In no event may any banner be displayed unless it is secured on all corners in a manner designed to prevent excessive movements in the wind.

2. *Special Events.*

a. The sponsor of a special event lasting three (3) days or less shall not be required to obtain a sign permit. The sponsor of a special event lasting more than three (3) but no more than thirty (30) days shall obtain a special permit from the Land Development Office prior to the beginning of such an event. Such special permits shall be granted only in increments of fifteen (15) days.

b. The sponsor of a special event may use temporary on-premises signs, flags, lights, pennants, streamers, balloons, and banners during the special event and must meet any conditions placed upon such use by the Land Development Office where a special permit must be obtained.

c. All signs and other devices for a special event shall be promptly removed after the end of the special event and in no case shall such signs and devices remain on display longer than forty-eight (48) hours after the end of the special event.

d. No sponsor may display signs and devices for special events pursuant to this Section on the same premises for more than a cumulative total of thirty (30) days per calendar year. No occupant may display signs and devices for special events pursuant to this Section for more than a cumulative total of thirty (30) days per calendar year. Each special event lasting three (3) days or less shall be counted as three (3) days for the purposes of this Section.

3. *Yard Signs.* All yard signs including but not limited to garage sales, construction or real estate purposes, and sports leagues and excluding political signs shall be limited to fifteen (15) days before and no more than thirty (30) days following the event. Yard signs shall have a sign area of thirty-two (32) square feet or less and shall be subject to the following restrictions:

(a) No such yard sign less than thirty-six (36) inches in height may be placed closer than five (5) feet or ten (10) feet if greater that thirty-six (36) inches to the closest edge of the pavement or curb of any public or private street.

(b) No such yard sign may be placed closer than twenty-five (25) feet to the closet edge of the pavement or curb of two (2) public or private streets.

(c) No person shall paste, paint, print, rope, bill, nail or pin any sign or any advertisement or notice of any kind whatsoever or' cause the same to be done, on any curbstone, or in any portion of part of any sidewalk or street, tree, lamppost, telephone or telegraph pole, awning, porch or balcony or upon any other structure in the limits of any street or public right-of-way in the City including but not limited to any divided roadway median, traffic island and/or traffic circle/roundabout, except such as may be required by this Code or other City ordinance.

(d) No such yard sign may be placed upon or attached in any way to any tree, fence, fence post, utility pole, light pole or rock.

(e) All such political yard signs shall be removed within fifteen (15) days after the election to which they refer has been held. Such signs erected for a primary election may remain only if they continue to be valid for the next general election.

(f) The Office of the Building Official or the Chattanooga Department of Transportation may order the removal or relocation of any temporary sign which may constitute a hazard to the public traveling on public streets.

(Ord. No. 14216, § 1, 4-8-25)

Sec. 3-147. Temporary Sign Standards.

Temporary signs shall comply with the following standards:

1. No temporary sign may be placed in any handicapped parking space, or any parking space required by any provision of the Chattanooga City Code, the Chattanooga Zoning Ordinance, or state law.
2. Signs may be placed on the sidewalk if four (4) feet of unobstructed sidewalk is provided. Signs may not block driveways or be affixed to utility poles, trees, or traffic control devices, and may not block vision clearance areas.

(Ord. No. 14216, § 1, 4-8-25)

ARTICLE XVIII. SIGN LIGHTING

DIVISION 1. ILLUMINATION STANDARDS

Sec. 3-148. General Requirements.

1. The type of lighting allowed is determined by the sign type and character area. Please reference those tables in Article XX for that information.

2. Exterior illumination, such as floodlights or spotlights, shall be positioned so that none of the light shines onto an adjoining property or in the eyes of motorists or pedestrians.

(Ord. No. 14216, § 1, 4-8-25)

Sec. 3-149. Indirect Illumination.

1. Indirectly illuminated signs must be shielded from adjacent buildings and streets and cannot cause glare or other nuisances to adjacent land uses or traffic.

2. Projecting light fixtures used for indirectly illuminated signs must not obscure the sign.

(Ord. No. 14216, § 1, 4-8-25)

Sec. 3-150. Direct Illumination.

1. Direct illumination must provide steady, stationary lighting through translucent materials.

(Ord. No. 14216, § 1, 4-8-25)

Sec. 3-151. Electrical Wiring.

1. All signs requiring illumination or having electrical service devices or wiring shall be constructed in accordance with the requirements of the National Electric Code and International Building Code standards.

(Ord. No. 14216, § 1, 4-8-25)

DIVISION 2. DIGITAL SIGNS

Any sign which contains light emitting diode (LED), liquid crystal display (LCD) illumination, electronic messaging center (EMC), or any sign capable of its message/display being changed by electronic/remote means shall comply with the following requirements or equivalent:

1. No on-premise sign shall have moving parts, picture tubes, lights or illumination that vary in intensity, flash or change color, except as follows:
    a. Tri-vision and digital signs with moving parts shall be permitted provided that the message shall remain static for no less than eight (8) seconds.

2. Digital signs shall be mounted on permanent sign structures only. Vehicle-mounted LED displays of any type, including parked or moving vehicles, are prohibited.
3. All LED signs and on-premises message centers shall have static images only. Flashing signs, scrolling message signs, or any form of animated images are prohibited. Audible signs are also prohibited.
4. Automated light intensity and dimming controls for LED signs shall be required. Using industry standards, daytime brightness levels should be no more than ninety percent (90%) of maximum intensity. Nighttime brightness shall be reduced to thirty percent (30%) of the maximum light intensity for the LED sign.
5. An EMC must be equipped with an automatic dimmer device and controlled by a light detector. It is the responsibility of the sign owner to demonstrate compliance with brightness/intensity and dimming settings.

Table 2 - Electronic Messaging Center

Character Area	*Permitted*	*Min Hold Time*	*Size Limitation*	
			EMCs as a Maximum Percentage of the Total Sign Area Permitted on the Site	*EMCs as a Maximum Percentage of a Single Sign*

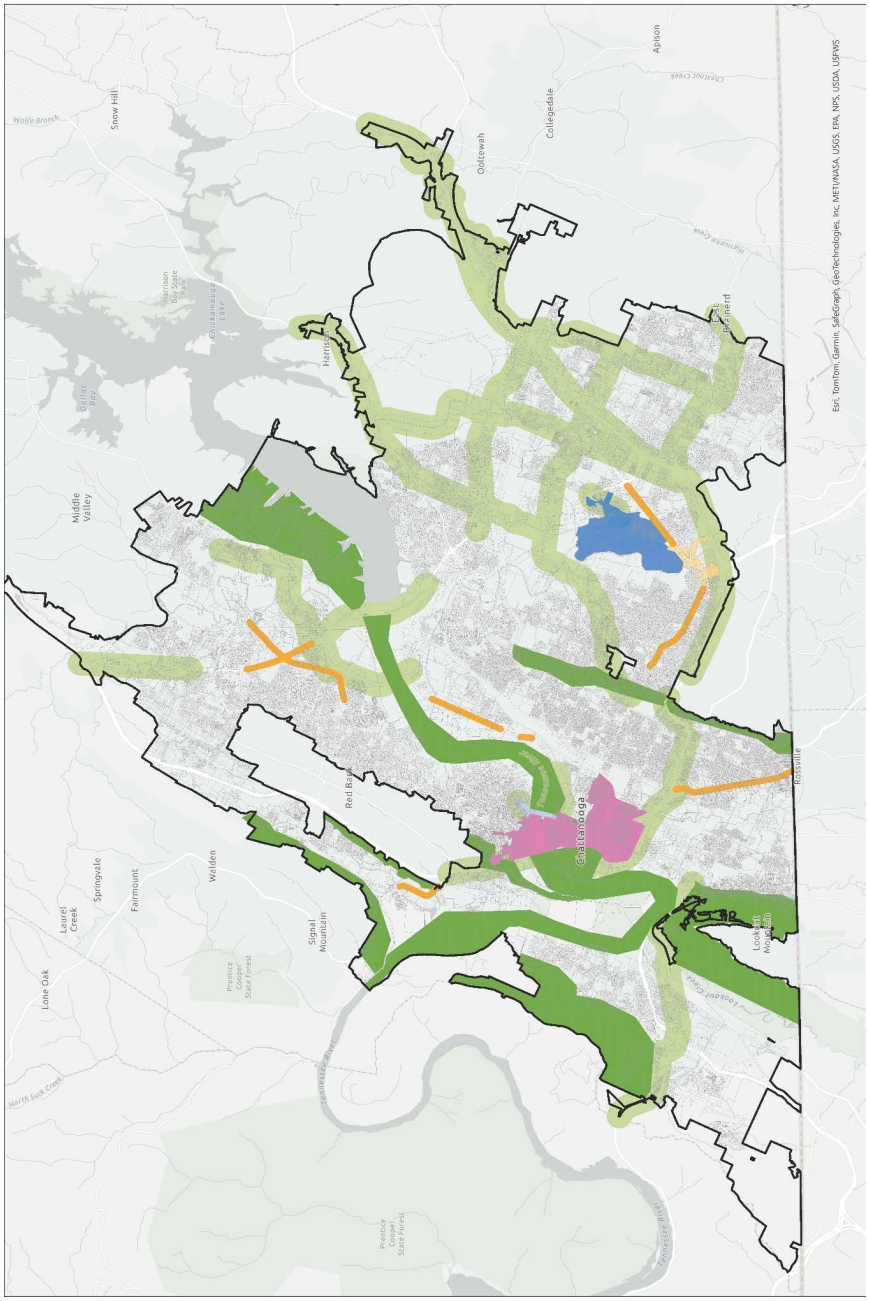
Highway Commercial	Y	8 Seconds	80%	100%
Brainerd Overlay	N	-	-	-
Lovell Field Gateway Overlay	N	-	-	-
Residential	N	-	-	-
Scenic Areas/ Corridors	N	-	-	-
Veterans Bridge	N	-	-	-

Maps and legal descriptions of the character areas in Table 2 Electronic Message Center are included in Article XIX.

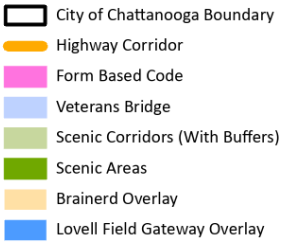
(Ord. No. 14216, § 1, 4-8-25)

ARTICLE XIX. REGULATIONS CHARACTER AREAS

DIVISION 1. OVERVIEW MAP



Legend.



The Character Areas Are as follows:

1. Brainerd Overlay
2. General Character Area
3. Highway Commercial Corridors
4. Lovell Field Gateway Overlay
5. Residential Character Area
6. Scenic Corridors and Areas
7. Veterans Bridge

(Ord. No. 14216, § 1, 4-8-25)

DIVISION 2. BRAINERD OVERLAY

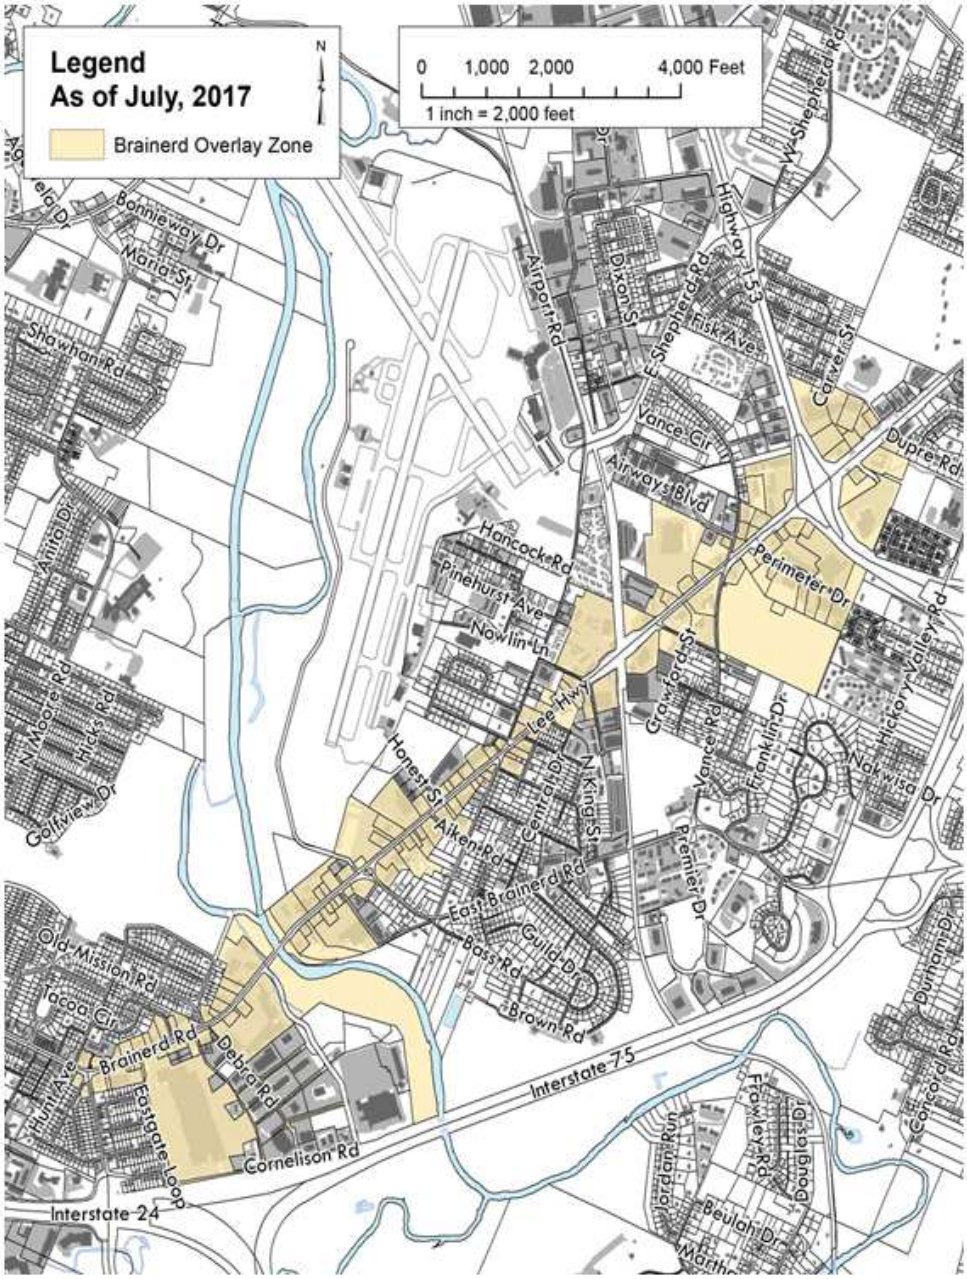
Sec. 3-152. Purpose.

The intent of the Brainerd Road Overlay Zone is to realize the primary objectives of "BRAINERD . . . a vision for Today" - the community's master plan. Adopted by the Chattanooga City Council in 2011, the Plan's goal is to create a vibrant town center along Brainerd Road that is well connected to adjacent neighborhoods. Specific issues identified in the community's master plan and in meetings by the Brainerd community include:

1. Poor visual quality in the corridor is attributed to sign clutter, overhead utility poles and electrical lines, lack of street trees, varying building setbacks, and poor-quality building designs.
2. Poor walkability and pedestrian connectivity due to large parking lots and multiple curb cuts, gaps in the sidewalk network, and lack of landscaping along the street and in parking lots.
3. Unsafe cycling conditions due to multiple car/bicycle conflict points from numerous curb cuts, high traffic speeds, and lack of dedicated bike lanes.

(Ord. No. 14216, § 1, 4-8-25)

Sec. 3-153. Brainerd Overlay Zone Map.



(Ord. No. 14216, § 1, 4-8-25)

Sec. 3-154. Legal Description.

All properties along Brainerd Road and Lee Highway from the Spring Creek Road intersection to the TN-153 intersection highlighted yellow in Brainerd Overlay Zone Map.
(Ord. No. 14216, § 1, 4-8-25)

Sec. 3-155. Standards/Regulations.

Regulations are stated in Article XX.
(Ord. No. 14216, § 1, 4-8-25)

DIVISION 3. GENERAL CHARACTER AREA

Sec. 3-156. Legal Description.

The General character area includes all parcels that are:

1. Not included in any overlay (Brainerd, Lovell Field, Veteran's Bridge);
2. Not included in Scenic Corridors or Areas;
3. Not included in the Highway Commercial Corridor;
4. Not included in Form Based Code;
5. Not residentially zoned.

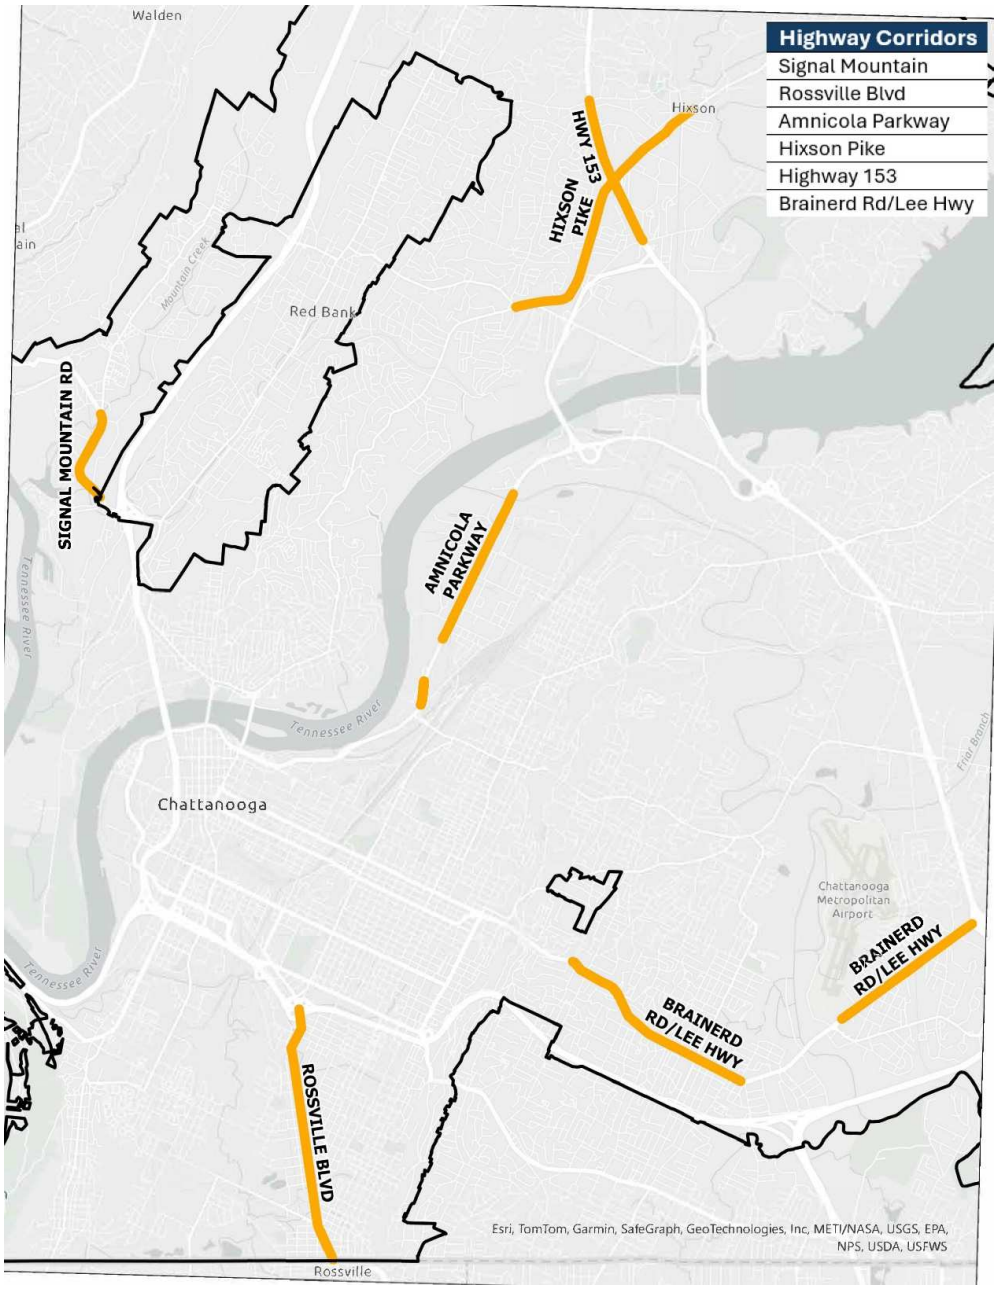
The General Character Area regulates all other parcels that do not fit into the above.
(Ord. No. 14216, § 1, 4-8-25)

Sec. 3-157. Standards/Regulations.

Regulations are stated in Article XX.
(Ord. No. 14216, § 1, 4-8-25)

DIVISION 4. HIGHWAY COMMERCIAL CORRIDORS (BILLBOARDS)

Sec. 3-158. Highway Commercial Corridor Map.



(Ord. No. 14216, § 1, 4-8-25)

Sec. 3-159. Legal Description.

Highway Commercial Corridors shall mean the major commercially zoned parcels designated herein as follows:

1. Rossville Boulevard from its intersection with Interstate 24 generally southward to the city limits.
2. Brainerd Road/Lee Highway from its intersection Tunnel Boulevard generally eastward to its intersection with Shallowford Road.
3. Signal Mountain Road the city limits with Red Bank, Tennessee to Mountain Creek Road; excluding that portion which falls within the Scenic Corridor along Highway 153.
4. Amnicola Highway from its intersection with Riverfront Parkway to the southernmost or westernmost edge of the property presently occupied by Chattanooga State Community College, excluding that portion which falls within the Scenic Corridor along Dupont Parkway.
5. Hixson Pike from its intersection with Ashland Terrace to its intersection with Adams Road.
6. Highway 153 from its intersection with Gadd Road to its intersection with Dupont Parkway.

All measurements herein to an intersection of two (2) or more roads shall be to the center of such intersection.
(Ord. No. 14216, § 1, 4-8-25)

Sec. 3-160. Standards/Regulations.

Regulations are stated in Article XX.
(Ord. No. 14216, § 1, 4-8-25)

DIVISION 5. LOVELL FIELD GATEWAY OVERLAY

Sec. 3-161. Purpose.

The purpose of the Lovell Field Gateway Overlay Zone is to realize the primary objectives of "BRAINERD . . . a vision for Today" - the community's master plan. Adopted by the Chattanooga City Council in 2011, the Plan's goal is to create a vibrant town center along Brainerd Road that is well connected to adjacent neighborhoods. Specific issues and opportunities identified in the community's master plan and in meetings by the Brainerd community include:

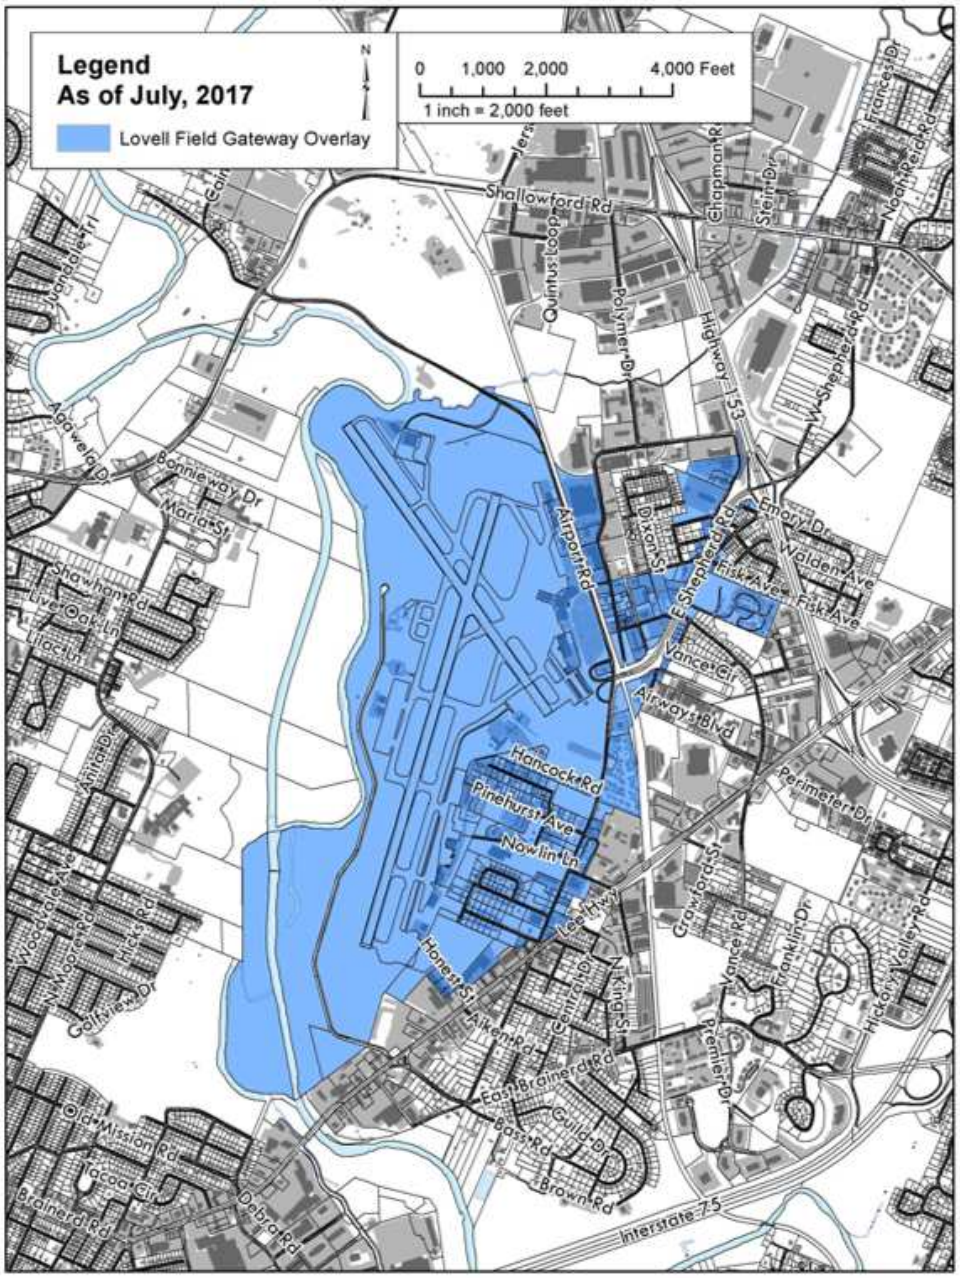
a. Poor visual quality in the corridor is attributed to sign clutter, overhead utility poles and electrical lines, lack of street trees, varying building setbacks, and poor-quality building designs.

b. Poor walkability and pedestrian connectivity due to large parking lots and multiple curb cuts, gaps in the sidewalk network, and lack of landscaping along the street and in parking lots.

c. Unsafe cycling conditions due to multiple car/bicycle conflict points from numerous curb cuts, high traffic speeds, and lack of dedicated bike lanes.

d. Enhance the corridor as it acts as a Gateway into the City of Chattanooga.
(Ord. No. 14216, § 1, 4-8-25)

Sec. 3-162. Lovell Field Gateway Map.



(Ord. No. 14216, § 1, 4-8-25)

Sec. 3-163. Legal Description.

That portion of the area indicated as the "FAA Aviation Overlay District" on the AOD Map, which is located within the jurisdictional limits of the City of Chattanooga.
(Ord. No. 14216, § 1, 4-8-25)

Sec. 3-164. Standards/Regulations.

Regulations are stated in Article XX.
(Ord. No. 14216, § 1, 4-8-25)

DIVISION 6. RESIDENTIAL

Sec. 3-165. Legal Description.

All properties with zones listed under Residential Zones in Chapter 38 Article III Section 38-11. Zones.
(Ord. No. 14216, § 1, 4-8-25)

Sec. 3-166. Standards/Regulations.

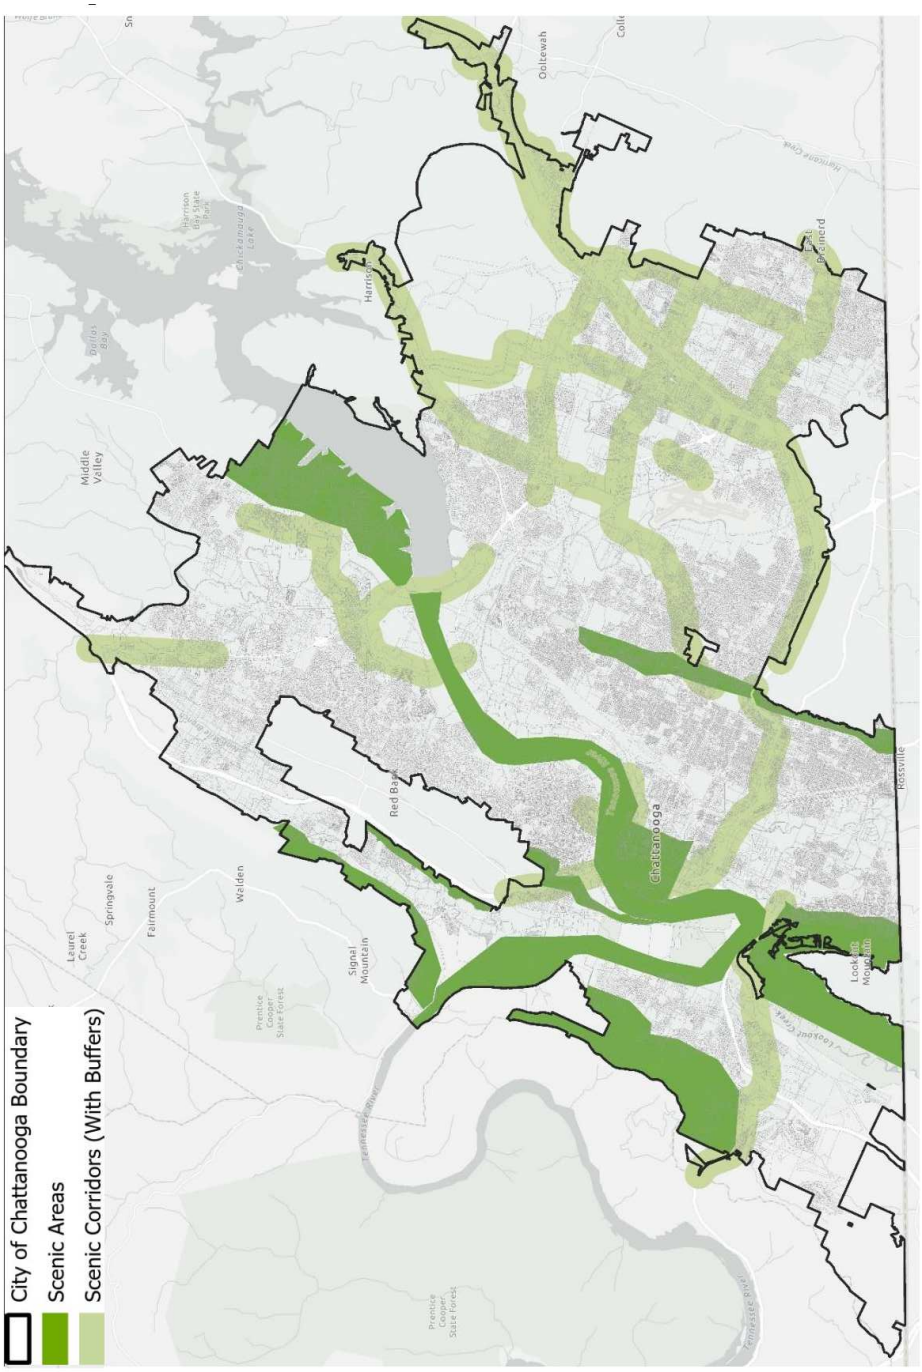
Regulations are stated in Article XX.
(Ord. No. 14216, § 1, 4-8-25)

DIVISION 7. SCENIC AREAS AND CORRIDORS

Sec. 3-167. Purpose.

To preserve the scenic nature of the City of Chattanooga.
(Ord. No. 14216, § 1, 4-8-25)

Sec. 3-168. Map.



City of Chattanooga Boundary

Sec. 3-169. Legal Description.

1. *Scenic Corridors.* There are hereby established Scenic Corridors, which shall consist of certain strips of land six hundred sixty (660) feet on either side of the outermost edge of the right-of-way of all of the roads, routes and rivers specified in this Article, within which Scenic Corridors all off-premise signs are regulated as set forth herein.

a. Interstate 24 from the city limits south and west of the Tiftonia area to the center of its junction with U.S. Highway 27, except for an area one thousand three hundred twenty (1,320) feet on either side of the intersection of Interstate 24 and U.S. Highway 41 at the Tiftonia exit (Cummings Highway).

b. Cummings Highway/Lookout Mountain Pike from the City limits west of Lookout Valley to its intersection with Highway 58.

c. Highway 27 and any extension thereof, including the "Corridor J" roadway, from the southern bank of the Tennessee River northward to the northernmost Chattanooga city limits to the extent that said extension is within the city limits of Chattanooga.

d. The Tennessee River from Chickamauga Dam downstream to the city limits.

e. Within the area of Veterans Bridge and its approaches beginning at the midpoint of the intersection of Barton Avenue and Crewdson Street and extending southward four hundred seventy-five (475) feet on either side of the centerline of Barton Avenue across Veterans Bridge at the Tennessee River to its intersection with Fourth Street.

f. Along Interstates 24 and 75 from one hundred fifty (150) feet east of Dodds Avenue eastward to the city limits as they now exist or may hereafter be expanded, except for an area one thousand three hundred twenty (1,320) feet in either direction along Interstate 75 from the intersection with Lee Highway (U.S. Highway 11 and 64) at Ooltewah and State Route 2 (Bonny Oaks Drive).

g. The Dupont Parkway from its north end, at the center of its intersection with Highway 153, generally south and east across Access Road and across the C.B. Robinson Bridge to the center of its intersection with Amnicola Highway, including all entrance and exit ramps thereto on the north side of Amnicola Highway.

h. The airport connector road from State Highway 153 generally southward to Airport Road.

i. Shallowford Road from its intersection with Gunbarrel Road to the intersection of Jenkins Road.

j. Riverside Drive generally northwardly and eastwardly from its intersection with Broad Street to the point where it crosses Citico Creek.

k. All of Jenkins Road lying within the Chattanooga city limits.

l. East Brainerd Road from its intersection with Concord Road and extending South and East to the City Limits.

m. Highway 153 from its intersection with Amnicola Highway to its intersection with Hamill Road.

n. Cassandra Smith Road from its intersection with Hixson Pike to its intersection with Hamill Road.

o. Hamill Road from its intersection with Hixson Pike to Big Ridge Road.

p. Highway 153 from its intersection with Grubb Road going north to the City limits.

q. Hickory Valley Road in its entirety.

r. Jersey Pike in its entirety.

s. Shallowford Road in its entirety.

t. Bonny Oaks Drive from its intersection with Highway 58 eastwardly to its intersection with Old Lee Highway at Interstate 75.

u. Highway 58 from its intersection with Jersey Pike northwardly to the City limits.

v. All of Harrison-Ooltewah Road lying within the Chattanooga City limits.

w. All of Old Lee Highway lying within the Chattanooga City limits.

x. All of Old Cleveland Pike lying within the Chattanooga City limits.

y. All of Hunter Road lying within the Chattanooga City limits.

z. All of Mountain View Road lying with the Chattanooga City limits.

aa. All of Snow Hill Road lying within the Chattanooga City limits.

bb. All of Ooltewah-Georgetown Road lying within the Chattanooga City limits.

cc. Lee Highway from its intersection with Hunter Road southeastwardly to the City limits towards Bradley County; and Apison Pike.

2. *Scenic areas.* There are hereby established the following Scenic Areas, in which off-premise signs shall be prohibited:

a. The entirety of that portion of downtown Chattanooga which is bounded on the north and west by the Tennessee River, on the south by Main Street from its westernmost extremity (and extended by an imaginary line from such extremity directly to the Tennessee River) to its intersection with Market Street, and on the east by Market Street from its intersection with Main Street northwardly to King Street, and further on King Street from its intersection with Market Street to its intersection with 8th Street, thence westwardly along 8th Street to its intersection with Houston Street, thence northwardly along Houston Street to its intersection with 3rd Street and extended therefrom by an imaginary line directly to the Tennessee River.

b. The entirety of the slopes of all ridges and mountains identified herein to the extent that such are located within the city limits, and including those areas more specifically illustrated in yellow on the topographic map attached hereto and specifically adopted as part of this Chapter. (Topographic map is in the Office of the Clerk of the City Council.) The mountains and ridges included within such Scenic Areas are Lookout Mountain, Signal Mountain/Walden's Ridge, Elder Mountain/ Raccoon Mountain, Missionary Ridge, Stringers Ridge, Godsey Ridge and Big Ridge.

c. Barton Avenue to its intersection with Hixson Pike; Hixson Pike from its intersection with Barton Avenue to its intersection with Lupton Drive; Cherokee Boulevard from its intersection with Market Street to the Stringers Ridge Tunnel; Amnicola Highway from its intersection with the east side of Chattanooga State to Access Road; Hixson Pike from its intersection with Middle Valley Road to the City limits; Main Street from its intersection with Market Street to Holtzclaw Avenue; Holtzclaw Avenue to its intersection with Houston Street; East Brainerd Road from its intersection with Concord Drive to the City limits.

(Ord. No. 14216, § 1, 4-8-25)

Sec. 3-170. Standards/Regulations.

1. Regulations are stated in Article XX.

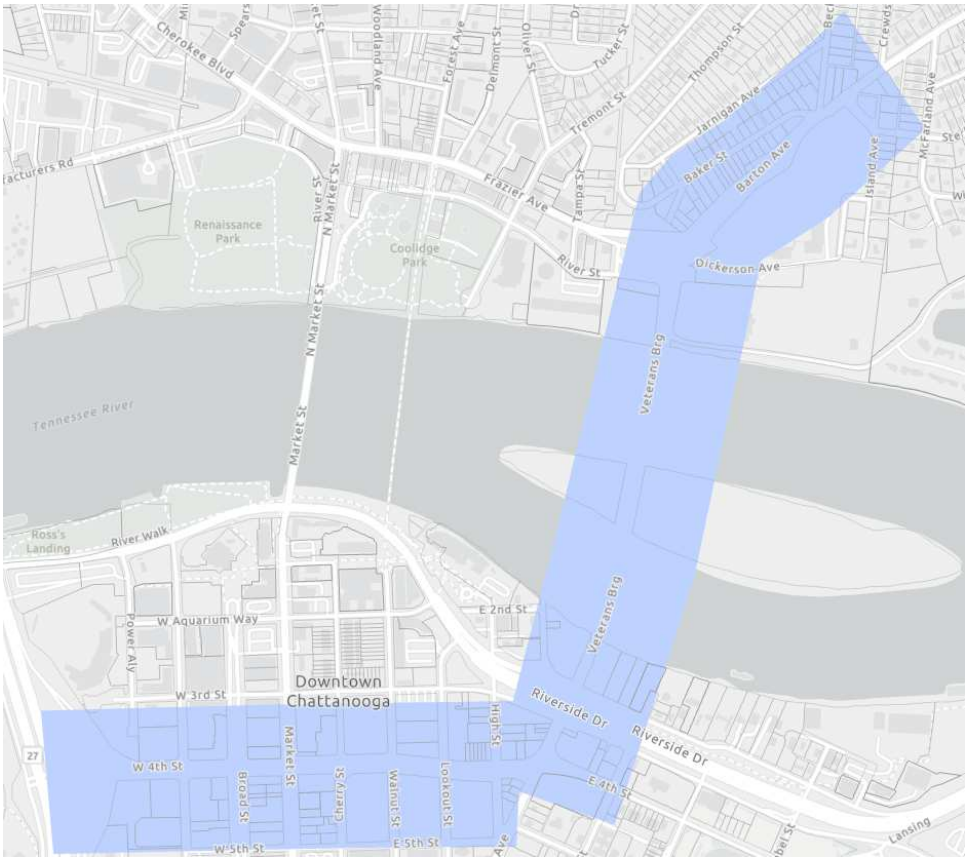
2. Off-premise signs in Scenic Areas and along Scenic Corridors prohibited. No off-premise signs shall be permitted within the Scenic Corridors and Areas established along the roads, routes, and rivers, and no off-premise signs shall be permitted outside of any such Scenic Corridors and Areas which are principally oriented toward and are designed or situated to be observed from any of the following roads, routes or rivers.
(Ord. No. 14216, § 1, 4-8-25)

DIVISION 8. VETERANS BRIDGE

Sec. 3-171. Purpose.

To capture the unique area that is Veterans Bridge.

Sec. 3-172. Map.



(Ord. No. 14216, § 1, 4-8-25)

Sec. 3-173. Legal Description.

Within the area of Veterans Bridge and its approaches beginning as the midpoint of the intersection of Barton Avenue and Crewdson Street and extending southward four hundred seventy-five (475) feet on either side of the centerline of Barton Avenue across Veterans Bridge at that Tennessee River and

continuing along four hundred seventy-five (475) feet on either side of the centerline of Georgia Avenue to Fourth Street; thence continuing westward to include an area four hundred seventy-five (475) feet on either side of the centerline of Fourth Street to Interstate Highway 24.
(Ord. No. 14216, § 1, 4-8-25)

Sec. 3-174. Standards/Regulations.

1. *Existing signs.* Signs existing within the control district as of June 12, 1984, which may fail to conform with these new regulations may continue to be used so long as they are not enlarged, lighted in not low lighted, or otherwise materially altered, except that such signs may be replaced, remodeled or otherwise improved if, in the opinion of the Code Official, such work does not violate the intent of this provision. Examples of permitted improvements might include replacement of a wooden structure with a steel structure; replacement of multiple supports with a single steel post, and other such modifications which result in a cleaner, less cluttered appearance.

2. *Exclusions from Article.* The following shall not be subject to the provisions of this Article:

a. Signs provided or required by a duly constituted governmental body, including traffic or similar regulatory devices, or legal notices.

b. Flags or emblems of a political, philanthropic, educational, or religious organization.

c. Memorial plaques or tablets.

d. Holiday decorations which are clearly incidental to and customarily and commonly associated with any national, local, or religious holiday.

(Ord. No. 14216, § 1, 4-8-25)

ARTICLE XX. ON-PREMISES PERMITTED SIGN REGULATIONS

DIVISION 1. OVERVIEW

Sec. 3-175. General Regulation of On-Premises Signs.

1. Other than signs which are prohibited under the provisions of Article XVI, or which are permitted as temporary signs pursuant to Article XVII, this Article shall regulate the general use of on-premises signs.

2. Signs that are not explicitly noted under permitted signs within this Article are prohibited.
(Ord. No. 14216, § 1, 4-8-25)

Sec. 3-176. Permitted Signs by Character Area.

Y - Permitted

N - Not Permitted

O - Some Permitted
(Ord. No. 14216, § 1, 4-8-25)

Sec. 3-177. Number of Signs and Sign Types.

1. The number of attached signs for a premises, or for each occupant of a premises, shall not be limited, but the total sign area of attached signs shall not exceed 20% of the wall facade.

2. In the event there is more than one (1) tenant on the premises, attached signs on the premises for a particular tenant shall be located only on the portions of the building directly outside the area occupied by that tenant or on portions of the building which are common areas.

3. Buildings where there are multiple tenant centers, each business may not be entitled to its own freestanding sign.

4. Retail commercial developments that contain a min of 25 acres under the same ownership shall be allowed one (1) freestanding sign at each primary entrance of development as long as the entrance is controlled by a traffic signal.

5. For premises which have frontage along any single public road or public right-of-way more than three hundred fifty (350) linear feet along such road or right-of-way and which have more than two (2) occupants, all of the provisions of this Article shall apply, except that the sign area of a freestanding sign located along such frontage shall not exceed three hundred (300) square feet. In addition, if any premises which has more than two (2) occupants has less than three hundred fifty (350) linear feet of frontage along a public road or public right-of-way but has a developed store or building frontage of greater than five hundred (500) linear feet, then the sign area of a detached sign shall not exceed three hundred (300) square feet.
(Ord. No. 14216, § 1, 4-8-25)

Sec. 3-178. Use of Combustible Materials.

1. Sign materials must comply with Section H107 of the 2018 International Building Code.
(Ord. No. 14216, § 1, 4-8-25)

DIVISION 2. ATTACHED SIGNS

Within the Character Areas, the sign types within this Division are categorized as attached signs.

Sec. 3-179. Attached Sign Regulations.

1. *Signs Extending Over Public R-O-W.* Notwithstanding the foregoing setback limitations, any sign which is attached to a building whose building line adjoins a public sidewalk or public right-of-way may extend out over the public sidewalk or right-of-way, but not over any public street and not greater than the distance otherwise permitted hereunder. Notwithstanding the foregoing, any owner from whose property any sign may project over any public right-of-way shall, prior to erecting or installing such sign, obtain a temporary use permit from the Transportation Department.
(Ord. No. 14216, § 1, 4-8-25)

Sec. 3-180. Awning.

SIGN TYPE: AWNING		
REGULATION	**GENERAL - HIGHWAY COMMERCIAL - SCENIC - VETERANS BRIDGE**	**BRAINERD OVERLAY - LOVELL FIELD OVERLAY**
Sign Count	1 per building at the main pedestrian entrance; or 1 per tenant suite with an exterior pedestrian entrance, if applicable.	
Sign Area	75% valance area maximum 25% sloping portion area maximum	
Sign Height/Placement	Minimum clearance of 10' between the ground & the lowest portion of the awning	
Maximum Width	Cannot exceed width of tenant space or building wall	
Illumination Type	Indirect	
Setback from R-O-W	If attached to a building whose building line adjoins a public sidewalk or public R-O-W may extend out over, but not over any public street.	
Materials	N/A	Materials that complement the materials of the associated building shall be used. Signs shall be located to fit within the architectural elements such as in the lintel or sign frieze that separates the ground level from the upper facade, on the upper facade walls, or projecting from the face of the building.
Additional Notes	Lettering may not extend beyond the awning and a single row of lettering may not cover both the valence and sloping portion.	

(Ord. No. 14216, § 1, 4-8-25)

Sec. 3-180.1. Additional Regulations.

1. Prohibited in Residential Character Areas.

2. All measurements shall be in accordance with Sec. 3-139.

(Ord. No. 14216, § 1, 4-8-25)

Sec. 3-181. Canopy.

Sec. 3-182. Marquee Signs.

SIGN TYPE: MARQUEE		
REGULATION	**GENERAL - HIGHWAY COMMERCIAL - SCENIC - VETERANS BRIDGE**	**BRAINERD OVERLAY - LOVELL FIELD OVERLAY**
Sign Count	1 per building at main pedestrian entrance.	1 per building at main pedestrian entrance.
Sign Area	1 SF per linear foot of width of ground floor glazing over which the awning is located or 1 SF per linear foot of width tenant suite pedestrian entrance doors, whichever is bigger.	1 SF per linear foot of width of ground floor glazing over which the awning is located or 1 SF per linear foot of width tenant suite pedestrian entrance doors, whichever is bigger.
Placement	Minimum clearance of 10' between the ground & the lowest portion of the Marquee	Minimum clearance of 10' between the ground & the lowest portion of the Marquee
Illumination Type	Indirect & Direct	Indirect & Direct
Setback from R-O-W	If attached to a building whose building line adjoins a public sidewalk or public R-O-W may extend out over, but not over any public street.	If attached to a building whose building line adjoins a public sidewalk or public R-O-W may extend out over, but not over any public street.
Materials	N/A	Metal or noncombustible materials that complement the materials of the associated building shall be used.

Additional Notes	N/A	Signs shall be located to fit within the architectural elements such as in the lintel or sign frieze that separates the ground level from the upper facade, on the upper facade walls, or projecting from the face of the building.

(Ord. No. 14216, § 1, 4-8-25)

Sec. 3-183. Projecting Signs.

SIGN TYPE: PROJECTING SIGN

REGULATION	**GENERAL**	**HIGHWAY COMMERCIAL**	**VETERANS BRIDGE**	**SCENIC AREAS/ CORRIDORS**	**BRAINERD OVERLAY - LOVELL FIELD GATEWAY OVERLAY**
Sign Count	1 for each public R-O-W or 1 per building, or 1 building mounted sign per tenant suite with an exterior pedestrian entrance, if applicable.		1 per building, or 1 building mounted sign per tenant suite with an exterior pedestrian entrance, if applicable.		
Max Sign Area (Per Sign Face)	175 SF		32 SF		16 SF
Sign Faces	2		2		
Sign Height/ Placement	Min clearance of 10' between the ground and the lowest portion of the sign.		Min clearance of 10' between the ground and the lowest portion of the sign and located a min of 12" below the 2nd story windowsill or top of the building, whichever is lower.		

Angle at Facade	90 degrees		90 degrees		
Projection	4' Maximum		Projects outward from a building or other structure & extends more than 24" horizontally from the plane of the building wall. Maximum of 4' from the building façade, inclusive of bracket depth.		
Illumination Type	Direct & Indirect	Direct & Indirect	Direct & Indirect	Indirect	Indirect
Setback from R-O-W	If attached to a building whose building line adjoins a public sidewalk or public R-O-W may extend out over, but not over any public street.				
Materials	N/A	N/A	N/A	N/A	Materials that complement the materials of the associated building shall be used. Signs shall be located to fit within the architectural elements such as in the lintel or sign frieze that separates the ground level from the upper facade, on the upper facade walls, or projecting from the face of the building

(Ord. No. 14216, § 1, 4-8-25)

Sec. 3-183.1. Additional Regulations.

1. Prohibited in Residential Character Areas.

(Ord. No. 14216, § 1, 4-8-25)

Sec. 3-184. Wall Signs.

SIGN TYPE: WALL SIGN				
REGULATION	**BRAINERD OVERLAY - LOVELL FIELD GATEWAY OVERLAY**	**GENERAL - HIGHWAY COMMERCIAL**	**RESIDENTIAL**	**SCENIC AREAS/ CORRIDORS - VETERANS BRIDGE**
Sign Area	1.5 SF per linear foot of building facade	20% of Wall Facade		
Sign Height/ Placement	Cannot exceed height of building wall			
Projection	Max of 1' from the building facade			
Illumination Type	Indirect	Direct & Indirect	Indirect	Indirect
Materials	Materials that complement the materials of the associated building shall be used.	N/A		

Additional Notes	Signs shall be located to fit within the architectural elements such as in the lintel or sign frieze that separates the ground level from the upper facade, on the upper facade walls, or projecting from the face of the building. Banners shall only remain in place for 30 days and require a sign permit	N/A

(Ord. No. 14216, § 1, 4-8-25)

Sec. 3-184.1. Additional Regulations.

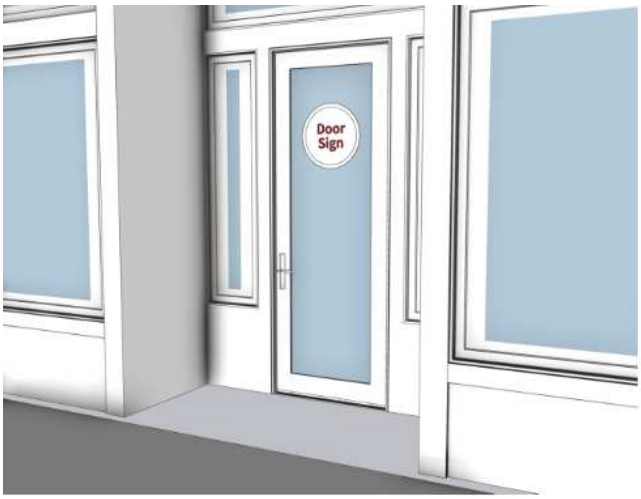
1. Prohibited in Residential Character Areas.

2. Attached banners and mural painted wall signs fall under wall signs and shall adhere to the same standards.

(Ord. No. 14216, § 1, 4-8-25)

Sec. 3-185. Window and Door Signs.

SIGN TYPE: WINDOW AND DOOR



REGULATION	BRAINERD OVERLAY - GENERAL - HIGHWAY COMMERCIAL - LOVELL FIELD GATEWAY OVERLAY - RESIDENTIAL - SCENIC - VETERANS BRIDGE
Sign Area	25% of Window/Door Area
Sign Height/ Placement	Cannot exceed height of window
Illumination Type	None

(Ord. No. 14216, § 1, 4-8-25)

Sec. 3-185.1. Additional Regulations.

1. Signage must be maintained in a clean and orderly condition.

2. Window signage shall not obstruct the visibility through the window in a manner that impairs pedestrian or vehicular safety.

3. Signage must be placed in a manner that allows for clear visibility through the window for security and safety purposes.
(Ord. No. 14216, § 1, 4-8-25)

DIVISION 3. DETACHED SIGNS

1. The sign types within this Division are categorized as detached signs.

2. Detached Electronic Messaging Centers must be within the cabinet or facade. Projecting is prohibited.
(Ord. No. 14216, § 1, 4-8-25)

Sec. 3-186. Freestanding.

SIGN TYPE: FREESTANDING			
REGULATION	**GENERAL - HIGHWAY COMMERCIAL**	**VETERANS BRIDGE**	**SCENIC AREAS/CORRIDORS**

Sign Count: Max Number per Building	1 Per R-O-W	1 Per R-O-W	1 Per R-O-W
Sign Area	175 SF	A max of 30 SF or 1 SF of sign area for every 3 lineal feet of public street frontage, whichever is greater.	60 SF
Sign Height/ Placement	5' R-O-W setback: 20' in height max For each additional foot of setback beyond 5' from R-O-W, a freestanding sign can extend an additional one foot in height up to a max of 30.	A max of 20' above finished grade at the base of the sign or curb level at the nearest frontage on a public street, whichever provides greatest height, shall be permitted on the south side of the river; on the north side of the river such signs shall not project above the road level of Veterans Bridge, or 20' above finished grade at the base of the sign or curb level at the nearest frontage on a public street, whichever is greater.	6'
Illumination Type	Direct & Indirect	No amber, blue, red or green lights shall be permitted.	Indirect
Setback from R-O-W	Sign Area < 40 SF: 5' from R-O-W Sign Area > 40 SF: 10' from R-O-W Sign Area > 100 SF: 15' from R-O-W		
Max Sign Faces	2		
Additional Notes	If a detached sign is maintained on premises which fronts upon 2 or more public streets and any part of such sign is located within 50' of the closest edge of the R-O-W of 2 or more public streets, 1 detached sign shall be allowed for such premises		

(Ord. No. 14216, § 1, 4-8-25)

Sec. 3-186.1. Additional Regulations.

1. Freestanding signs are prohibited in the Brainerd Overlay, Lovell Field Gateway Overlay, and Residential character areas.

2. Detached banners and pole signs fall under freestanding signs.

3. Measurements are in accordance with Section 3-139.

(Ord. No. 14216, § 1, 4-8-25)

Sec. 3-187. Monument.

Additional Notes	Monument signs shall not be located in the sight distance triangle or otherwise obstruct lines of sight for vehicular or pedestrian traffic. Materials that complement the materials of the associated building shall be used.	If a detached sign is maintained on premises which fronts upon 2 or more public streets and any part of such sign is located within 50' of the closest edge of the R-O-W 2 or more public streets, only one 1 detached sign shall be allowed for such premises			

(Ord. No. 14216, § 1, 4-8-25)

Sec. 3-187.1. Additional Regulations.

Prohibited in Residential Character Areas.
(Ord. No. 14216, § 1, 4-8-25)

DIVISION 4. SPECIAL PURPOSE SIGNS

Sec. 3-188. Business Directional Signage.

1. For a location at the intersection of a minor street and a through street where a business, which is located on a minor street and which is within one thousand (1,000) feet of the major thoroughfare, is not visible from the through street upon approaching the intersection, a business directional sign may be placed upon the public right-of-way subject to the following provisions:

a. Such directional signs shall be constructed by the City and shall be of the type determined by the Chattanooga Department of Transportation.

b. Businesses otherwise complying with all provisions of this Chapter may request that their sign be placed on the business directional sign.

c. No such sign shall be erected without the approval of the Chattanooga Department of Transportation.

d. Business directional signs are provided by the City for the convenience of the City and are subject to removal at any time.

(Ord. No. 14216, § 1, 4-8-25)

Sec. 3-189. Drive-Thru.

REGULATION	**BRAINERD OVERLAY - LOVELL FIELD OVERLAY**	**GENERAL - HIGHWAY COMMERCIAL - SCENIC - VETERANS BRIDGE**
Sign Area	90 SF per "Drive-Thru" window or "Drive-Thru" lane	90 SF per "Drive-Thru" window or "Drive-Thru" lane
Sign Height	8'	8'
Illumination Type	Indirect	Direct & Indirect
Setback from R-O-W	On-premises & situated to be viewed by customers in the drive-thru lane only	On-premises & situated to be viewed by customers in the drive-thru lane only
Additional Notes	Max Distance Between Signs: pre-sale sign located <25' from primary menu sign	Max Distance Between Signs: pre-sale sign located <25' from primary menu sign

(Ord. No. 14216, § 1, 4-8-25)

Sec. 3-189.1. Additional Regulations.

1. Prohibited in Residential Character Areas.

2. In the Character Areas where allowed, any premises where goods and/or services are offered on a "drive-thru" basis which may be purchased or obtained by a person without the necessity of exiting their motor vehicle, two (2) additional detached sign per "drive-thru" window or "drive-thru" lane shall be permitted with one (1) sign to be the primary menu sign and the second to be designated as a pre-sale menu sign to be located within twenty-five (25) feet of the primary menu sign and situated to be viewed by customers in the drive-thru lane only. It is the intent to allow businesses offering "drive-thru" services to use such additional detached sign(s) to list the services and/or goods offered to their customers while such customers are on the premises, and it is not the intent of this subsection to allow any additional detached

sign(s) which are primarily designed and oriented to be read by customers or prospective customers who are not on the premises. The Director of the Land Development Office shall not approve any such additional detached sign which does not conform to the intent of this subsection.
(Ord. No. 14216, § 1, 4-8-25)

Sec. 3-190. Directional Signs on Hospital Premises.

1. The restrictions of Article XX shall not apply to on-premises directional signs located on the premises of any hospital, medical center or clinic which offers emergency medical care.

2. Prohibited in Residential Character Areas.
(Ord. No. 14216, § 1, 4-8-25)

Sec. 3-191. Traffic directional signs.

1. The number, height and setback limitations above shall not apply to on-premises entrance, exit or other directional traffic signs at any premises, provided that no such directional sign shall exceed thirty (30) inches in height nor more than six (6) square feet in sign area, and further provided that no such signs shall provide customary motor vehicle or pedestrian traffic directional instructions.

2. On premises with land area in excess of seven (7) acres which have two (2) or more occupants, signs marking a one-way entrance to the premises, including the name(s) of the occupant(s) of the premises, shall not exceed fifty (50) square feet in sign area nor exceed nine (9) feet in overall height but shall be located no closer than ten (10) feet from the closest edge of the pavement of any public right-of-way but in no event on a public right-of-way.

3. In no event shall there be permitted more than two (2) traffic directional signs per entrance or exit to the premises.

4. On premises traffic directional signs which are within six hundred sixty (660) feet of a controlled access facility, which have a detached sign which is taller than fifty (50) feet and which are not adjacent to a public right-of-way, one (1) such traffic directional sign shall be permitted not in excess of forty (40) square feet in sign area and not in excess of twelve (12) feet in overall height; any such sign shall be located no closer than ten (10) feet from the closest curb or edge of any public street but in no event on any public right-of-way, and any such sign may be placed on an access easement to such premises, provided that this sentence shall not apply to premises which are permitted more than one (1) detached sign.
(Ord. No. 14216, § 1, 4-8-25)

ARTICLE XXI. ADMINISTRATIVE PROVISIONS, VARIANCES, AND APPEALS

DIVISION 1. ADMINISTRATIVE PROVISIONS

Sec. 3-192. Permit Administration.

1. *Application Required.* Applicants intending to erect a new permanent or temporary sign must obtain a sign permit from the Director of the Land Development Office prior to the erection, installation, or material alteration of any sign. The term 'material alteration' shall mean any change in the following:

a. The height of a sign.

b. The sign area of a sign.

c. Change to sign face.

d. The location of a sign.

e. The supporting structure of a sign.

Material alternation shall not include routine maintenance and repair or electrical work only for which an electrical permit must be obtained. A sign permit shall be obtained in addition to any building permit otherwise required by this Code.

2. *Time Limits.* All completed sign applications shall be reviewed for compliance with these regulations within fifteen (15) business days, excluding holidays recognized by the City of Chattanooga, from the time a completed application has been accepted by the Director of the Land Development Office. In the event the Land Development Office does not approve or deny an application within said period, such application shall be deemed approved.

3. *Issuance of permit.* A sign permit shall not be issued until the application has been approved, any conditions stated in the approval have been satisfied, any required electrical or building permit has been issued, and any required permit fee has been received. For any sign requiring a state permit, such permit shall be included when making the application. Construction shall not begin until after issuance of the sign permit.

4. *Inspections.* It is the responsibility of the owner, sign contractor, or other person installing any sign to schedule with the Land Development Office and request all required site, footing, final and any other inspections required by the sign permit. It is the responsibility of the electrical contractor, if any, to schedule with the Department and request all required electrical inspections. Whenever any work is required to be inspected by this Chapter, no additional work can be undertaken until the required inspection is completed and the work approved. If additional work is undertaken prior to an inspection, the sign contractor shall, at the sign contractor's expense, tear out, remove or demolish such additional work as may be necessary in order to conduct the required inspection, provided that the Director of the Land Development Office may, in such Official's sole discretion, accept a letter of indemnity, in form and substance satisfactory to the Code Official in lieu of such tear out, removal or demolition.

5. *Expiration of Sign Permit.* If work authorized under a sign permit has not been completed within 180 days after the date of issuance, the permit shall expire and immediately become null and void. Any work in process shall immediately stop and no additional work shall be initiated until a new sign permit is issued. The Director of the Land Development Office may extend an existing sign permit under which substantial work has been accomplished before expiration. A new sign permit shall not be issued without a new application and payment of applicable fees.

6. *Permit Fees.* No sign permit may be issued until the applicable fee, if any, has been paid. Sign permit fees shall be established and may be amended from time to time by resolution of the City Council.

Administrative Processing Fees	
Plans Review Fee	$25.00
Technology Fee	$20.00
Administrative Fee	$5.00
Sign Type Fees	
On-Premise Sign: Electric	$330.00
On-Premise Sign: Non Electric	$70.00
Digital (Electric Message Center) Sign	$500.00
Temporary Sign	$50.00

Master Sign Plan	$500.00 + $3.00 per SF of Signage
Other Fees	
Failure to Obtain Permit	Double Fee
Re-inspection Fee	$50.00

7. *Permit Revocation.* Unless it expires pursuant to this Section, sign permits are valid for the life of the sign. However, it is the responsibility of the owner to ensure that the owner's architect or engineer and the owner's contractor(s) follow all applicable provisions of this Chapter in the design, construction, and installation of a sign. The issuance of a sign permit or the passing of an inspection through inadvertence, mistake, or oversight shall in no event be construed as waiving any provisions of this Chapter. Any sign permit may be revoked by the Director of the Land Development Office upon determination that the sign is not in full compliance with the provisions of this Chapter.

8. *Appeals.* An appeal to the Board of Zoning Appeals from any adverse decision of the Director of the Land Development Office may be filed in writing with the Land Development Office within ten (10) days of any such decision; the secretary to the Board shall notify the person filing the appeal of the hearing date. The decision of the Board of Zoning Appeals shall be final.
(Ord. No. 14216, § 1, 4-8-25)

Sec. 3-193. Power to Revoke Permit, Remedies for Violation.

1. If any sign permit is issued based upon any false or untrue information which is material to the application and the granting of a sign permit, the Director of the Land Development Office shall revoke any such permit and order the removal of such sign within thirty (30) days.

2. If the Director of the Land Development Office determines that any sign erected pursuant to a permit issued under the provisions of this Chapter is in violation of any provision of this Chapter by error in the construction of the sign, the Director of the Land Development Office shall (i) notify the holder of the permit of the nature of the non-compliance and allow the holder thirty (30) days, to correct the defects giving rise to the non-compliance; or (ii) if such non-compliance cannot be corrected, to require the removal of the non-complying sign within thirty (30) days of the expiration of the period for correction specified above.

3. If any sign is erected without a sign permit but is otherwise erected in compliance with the provisions of this Code, the Director of the Land Development Office may upon proper application for a sign permit and payment of double the normally required permit fee issue a sign permit for such sign, provided, however, that any such permit so issued shall in no event operate to relieve the person of erecting a sign without a permit from any penalties provided by this Chapter until such permit has been issued.
(Ord. No. 14216, § 1, 4-8-25)

Sec. 3-194. Master Sign Plan.

1. *Purpose.* Master Sign Plans (MSP) are authorized under this section to allow, within parcels as this section deems applicable the following:

a. The unified presentation of signage throughout applicable parcels;

b. The authorization to deviate from the existing rules relating to the number, dimensions, locations, or design characteristics of attached and detached signs within the MSP area when the design and quality components of signs proposed in the MSP area exceed the existing rules in other aspects;

c. The flexibility to provide for unique environments; and

d. A pre-approval of designs and design elements process that will make subsequent applications for sign permits under an approved MSP more efficient.

2. *Applicability.* An application for a MSP Permit is authorized only for those developments that meet the criteria that follows:

a. Single-use development: a single use development that exceeds 100,000 square feet of gross floor area; or

b. Multi-tenant development: A multi-tenant development that exceeds 150,000 square feet of gross floor area.

3. *Authorized Deviation from Applicable Rules.* Deviation from the applicable rules that may be authorized under an approved MSP are as follows:

a. Maximum Sign Area;

b. Number of Signs; and

c. Location of Signs

4. *Permit Application.* The requestor must pay an application fee and fill out an application on forms provided by the city and filed in such quantity and with such submittals as required by the instructions.

5. *Prohibited Signs and Sign Elements.*

a. Except as otherwise authorized in this Section, signs and sign elements prohibited by the applicable rules are prohibited from inclusion in a MSP.

b. Nonconforming Signs. Existing non-conforming signs are not permitted within a development that is subject of the Master Sign Plan. A MSP permit issued for a development on which an existing non-conforming sign is located shall require that the existing non-conforming sign be eliminated or brought into conformance with the standards of the approved MSP before installation of any new signs under the approved MSP.

6. *Permit Approval.*

a. Permit application shall be reviewed by the Land Development Office. Upon determination that the application is administratively complete, and the fee has been paid, the Land Development office may issue a MSP permit if the Land Development Office finds the application demonstrates that the MSP will:

    a. Result in a substantially improved, comprehensive, and unified use of signs within the applicable single or multi-tenant development, compared to what is allowed through strict compliance with the applicable rules and

    b. Provides for all signs to be architecturally integrated into or complimentary to the design of the buildings and character of the site, and use similar and coordinated design features, materials, and colors; and plans for multi-tenant developments provide for uniformity of signs.

7. *Amendment.*

a. A valid MSP may be amended upon application by the permittee and approval by the Land Development Office. An amendment application may seek to alter the design, materials, locations, placements, orientations, and specifications of a sign or signs designated within an approved MSP; provided the amendment does not attempt to increase the area of any freestanding or wall sign subject to the original MSP by more than ten percent (10%).

8. *Expiration.* An approved permit shall expire two (2) years from the date of approval if no progress has been made toward the completion of the placement of signs pursuant to the MSP.
(Ord. No. 14216, § 1, 4-8-25)

Sec. 3-195. Administrative Modifications.

1. *Purpose.* The purpose of the administrative modification is to provide relief from carrying out a requirement of this Code that may cause a minor practical difficulty.

2. *Initiation.* The owner, tenant and/or occupant of a building or part thereof in the City may file an application for an administrative modification.

3. *Authority.* The Director of the Land Development Office is authorized to grant certain administrative modifications, as defined below. Only those items listed below are eligible for an administrative modification; all other requests for relief are considered variances.

4. *Eligible Administrative Modifications.* Eligible Administrative Modifications are defined below:

a. A 10% or less dimensional standard in this Code.

b. A 10% or less setback standard in this Code.

c. A revokable zero-foot (0') setback variance for properties directly facing the TN Highway 58 corridor from a point beginning at TN Highway 153 eastward to the City limits (Intersection with Harrison-Ooltewah Rd).

5. *Procedure.*

a. The requestor must pay an application fee and fill out an application on forms provided by the city and filed in such quantity and with such submittals as required by the instructions.

b. The Director of the Land Development Office may decide that an application for an administrative modification, even if it meets the thresholds established in this section, is by its nature a variance to be decided by the Board of Zoning Appeals. The applicant must resubmit the application to the Board of Zoning Appeals as a variance. No additional fees are required.

c. The Director of the Land Development Office must review and evaluate the complete administrative modification application, pursuant to the standards of this Section.

d. The Director of the Land Development Office must render a decision within thirty (30) days of the date listed on the required notice and either approve, approve with modifications, or deny the application. If the Director of the Land Development Office fails to act within 30 days, the administrative modification will be resubmitted to the Board of Zoning Appeals as a variance. No additional fees are required.

e. If an objection is filed to the administrative modification application in writing, prior to the date indicated on the notice that the Director of the Land Development Office may render a decision, the application must be resubmitted as a variance. No additional fees are required.

f. The Director of the Land Development Office may impose such restrictions upon the administrative modification as deemed necessary for the protection of the public health, safety, and welfare.

g. The Director of the Land Development Office may grant an administrative modification that is less than that requested when it has been decided that the applicant is entitled to some relief of the hardship, but not to the entire relief requested in the application.

h. If the administrative modification is denied, it may be resubmitted as a variance. If resubmitted as a variance, payment of associated fees is required.

6. *Evaluation Criteria.* The decision of the Land Development Office must make findings to support each of the following criteria:

a. That by reason of exceptional narrowness, shallowness, or shape of a specific piece of property at the time of enactment of the sign regulations, or by reason of exceptional topographic conditions or other extraordinary and exceptional situation or condition, the strict application of this Code would result in peculiar and practical difficulties or undue hardships upon the owner, tenant, and/or occupant of the building, or any part thereof, to erect signage.

b. The modification will not significantly impact adjacent property owners, the character of the area, traffic conditions, parking, public infrastructure, water quality management, and other matters affecting the public health, safety and general welfare.

c. The applicant meets the burden of presenting an alternative means of compliance that clearly demonstrates how the code exception would equal or exceed the existing standard.

d. The modification will add value to the animation and pedestrian walkability of the street edge or enhance the building facade.

7. *Limitations.*

a. Administrative Modifications may not authorize any increase in the maximum sign area for any permitted freestanding sign.

b. If an applicant has been denied a variance by the Board of Zoning Appeals, such cannot be resubmitted as an administrative modification for the same dimensional standard or setback standard for a period of one year.

c. Such request for an administrative modification for the same dimensional standard or setback standard may be resubmitted as an administrative modification one year later if it qualifies as such per the Eligible Administrative Modifications Section above.

8. *Expiration.* An approved administrative modification will expire two years from the date of approval unless a sign permit is obtained or applied for within such period. The Director of the Land Development Office may grant an extension for a period of validity so long as the applicant applies in writing for an extension of time prior to the date of expiration. No public hearing is required for approval of such extension of time.
(Ord. No. 14216, § 1, 4-8-25)

Sec. 3-196. Variances.

1. *Purpose.* The purpose of the variance process is to provide a narrowly circumscribed means by which relief may be granted from unforeseen applications of the sign regulations of this Code that create practical difficulties or hardships.

2. *Initiation.* An owner, tenant, and/or occupant of any building or a part thereof, and any architect, builder, contractor, agent, or other person in the City may file an application for a variance.

3. *Authority*

a. The Board of Zoning Appeals will take formal action on variances of the sign regulations.

b. Certain types of modifications are eligible for approval under the administrative modification process in Section 3-195.

4. *Procedure.* The requestor must pay an application fee and fill out an application on forms provided by the city and filed in such quantity and with such submittals as required by the instructions. Once the application is complete and the fee is paid, the staff will schedule the application for consideration by the Board of Zoning Appeals.

a. Upon receipt of a complete application, the Board of Zoning Appeals will consider the variance at a public hearing.

b. The Board of Zoning Appeals must evaluate the application based upon the evidence presented at the public hearing, pursuant to the approval standards of this section. The Board of Zoning Appeals will approve, approve with modifications, or deny, whole or in part, the variance.

c. The Board of Zoning Appeals may grant a variance that is less than that requested when it has been decided that the applicant is entitled to some relief of the hardship, but not to the entire relief requested in the variance application.

5. *Criteria.* The Board of Zoning Appeals may authorize a variance from the strict application of this Code to relieve such difficulties or hardship only in accordance with the following criteria:

a. That by reason of exceptional narrowness, shallowness, or shape of a specific piece of property at the time of enactment of the zoning regulations, or by reason of exceptional topographic conditions or other extraordinary and exceptional situation or condition, the strict application of this Code would result in peculiar and practical difficulties or undue hardships upon the owner, tenant and/or occupant of the building, or any part thereof, to erect signage.

b. The relief of the peculiar hardships, practical difficulties, or undue hardships granted by the Board would not establish substantial detriment to the public good or substantially impair the intent and purpose of this code.

c. That the peculiar hardship, practical difficulties, or undue hardship apply to the particular land or building regardless of the owner.

d. That the peculiar hardship, practical difficulties, or undue hardships relate only to the premises for the benefit of which the variance is sought and would not be generally applicable to other premises in the City or the personal conditions of the applicant.

6. *Limitations.*

a. No variance may allow a sign type that is prohibited in the code, applicable character area, or overlay.

b. The variance granted is the minimum adjustment necessary to remedy the particular hardship.

c. Only one (1) sign per premise may receive a setback and/or height variance.

d. In no event may BOZA permit any such sign to be constructed to a height greater than eighty (80) feet within six hundred sixty (660) feet of either side of a controlled access facility or any such sign to be constructed to a height greater than fifty (50) feet in any other area.

e. The BOZA may not authorize any increase in the maximum sign area for any permitted freestanding sign.

7. *Expiration of Variance.* An approved variance will expire two years from the date of approval unless a sign permit is obtained or applied for within such period. The Board of Zoning Appeals may grant an extension for a period of validity so long as the applicant applies in writing for an extension of time prior to the date of expiration. No public hearing is required for approval of such extension of time.
(Ord. No. 14216, § 1, 4-8-25)

Sec. 3-197. Appeals.

1. *Purpose.* This appeals process is intended to provide appropriate checks and balances on the administrative authority of the Director of the Land Development Office.

2. *Initiation.*

a. An owner, tenant, and/or occupant of any building or a part thereof, and any architect, builder, contractor, agent, or other person in the City that is directly affected by a determination of the Director of the Land Development Office may file an appeal of the Director of the Land Development Office decision on an administrative modification, sign code interpretation, temporary sign permit, or other administrative sign decision related to this Code.

b. A decision of the Director of the Land Development Office may only be appealed if an application is filed within thirty (30) days of the date the decision is made.

3. *Procedure.* The requestor must pay an application fee and fill out an application on forms provided by the city and filed in such quantity and with such submittals as required by the instructions. Once the application is complete and the fee is paid, the staff will schedule the application for consideration by the Board of Zoning Appeals.

4. *Information Necessary for Appeal.* An appeal of alleged erroneous order, requirement, decision, determination, or interpretation shall be filed in writing with the Director of the Land Development Office and shall include the following information:

a. The names, addresses and telephone numbers of the petitioner, the owner of the property on which the sign is to be erected or affixed, the owner of the sign, and the person to be erecting or affixing the sign.

b. Decision being appealed.

c. Description of the requested appeal.

d. Questions to be raised on appeal.

e. Justification of the requested appeal.

f. The location of the building, structure, or zoning lot on which the sign is erected, to be erected or affixed.

g. If the application involves a ground sign, a site plan of the property involved showing dimensions of the lot, improvements thereon and showing accurate placement thereon of the sign involved.

h. A blueprint, ink drawing or photograph of the sign involved.

i. Written consent of the owner of the building, structure, or property on which the sign is erected or to be erected or affixed.

j. Such other information as the Director of the Land Development Office may require determining full compliance with the decision.

    i. Upon receipt of a complete application, the Board of Zoning Appeals will consider the appeal at a public hearing.

    ii. The Board of Zoning Appeals must evaluate the application based upon the evidence presented at the public hearing.

    iii. Following the close of the public hearing, the Board of Zoning Appeals must either confirm or overturn the Director of the Land Development Office decision.

5. *Effect of Appeal.* An appeal shall stay all proceedings in furtherance of the action appealed from unless the Director of the Land Development Office certifies to the BOZA, after the appeal has been filed with the Director of the Land Development Office, that, by reason of the facts stated in the application, a stay would, in the Code Official's opinion, cause imminent peril to life or property. In such a case, the proceeding shall not be stayed unless a restraining order is issued by a court of record.

6. *Board of Zoning Appeals, Public Hearing, Timing, and Attendance.* Not more than forty-five (45) days after a notice of appeal is filed, the BOZA shall hold a public hearing thereon. Written notice of such hearing shall be given to the person who filed the appeal and to such other persons as the BOZA deems advisable. The petitioner and Director of the Land Development Office and/or their authorized representatives shall attend those meetings of the BOZA at which an appeal is to be heard.

7. *Board of Zoning Appeals Determination.* Following the hearing of any such appeal, the BOZA may affirm, reverse, or modify the action of the Director of the Land Development Office and/or representative and may take any other action which is appropriate under the circumstances and is allowed by law. The action of the BOZA on any such appeal shall be final and conclusive.

8. *Effect of Board of Zoning Appeals Denial.* No appeal which has been denied, wholly or in part, by the BOZA, in accordance with the provisions established herein, upon which no variance has been granted, may be resubmitted for a period of one year from the date of such denial except on grounds of new evidence or proof of changed conditions found to be valid by the BOZA.
(Ord. No. 14216, § 1, 4-8-25)

DIVISION 2. NOTICES

Sec. 3-198. Administrative Modifications.

1. Administrative Modifications do not require public notice.
(Ord. No. 14216, § 1, 4-8-25)

Sec. 3-199. Variances.

1. *Published Notice.* A notice of the public hearings held by the Board of Zoning Appeals must be published in a daily newspaper no less than seven (7) days in advance of the scheduled action.

2. *Mailed Notice.* The Land Development Office will mail written notice at least seven (7) days in advance of the first scheduled action to all property owners within three hundred feet (300') of the property line of the subject property. The notice must include:

a. Date;

b. Time;

c. Place;

d. Purpose of such action;

e. Name of applicant;

f. Address of the subject property.

3. *Posted Notice.* The names of the property owners within a minimum of two hundred feet (200') of each property in question before the Board shall be supplied by the applicant to the secretary of the Board concurrently with the filing of any application for a variance, special permit or special exception; failure to provide a complete list of such property owners shall, in the discretion of the Board, constitute grounds for denial of the application.
(Ord. No. 14216, § 1, 4-8-25)

ARTICLE XXII. ENFORCEMENT

DIVISION 1. ENFORCEMENT AND PENALTIES

Sec. 3-200. Administration and Enforcement.

The Director of the Land Development Office is hereby designated as the enforcement officer for this Code. In addition to all other authority conferred by statute, ordinance or resolution, the Director of Land Development Office shall have the following duties and powers:

1. *Review and Issue Permits.* Review all applications for sign permits, issuing permits for those signs found to be in compliance with the provisions of this Code.
2. *Conduct Inspections.* Conduct location, footing and final construction inspections, and conduct such other inspections of all permanent and temporary signs displayed in the City as necessary to require compliance with the provisions of this Code.
3. *Issue Notices of Violation.* Issue notices of correction or citation regarding any sign which is found to be in noncompliance with one or more of the provisions of this Code.
4. *Cause Removal of Certain Signs.* After giving any required notice, cause the removal of certain signs which are found to be in noncompliance with one or more of the provisions of this Code.
5. *Administrative Interpretations.* Render, when called to do so, administrative interpretations regarding the provisions of this Code and their effect on the display of any sign located or to be in the City.
6. *Maintenance of Records.* Maintain all records necessary to the appropriate administration and enforcement of this Code, including applications for variances and appeals.

(Ord. No. 14216, § 1, 4-8-25)

Sec. 3-201. Sign Maintenance.

1. The owner, tenant, and/or occupant of the building or any part thereof shall maintain the sign and their supporting structure; in a condition appropriate to the intended use; to all City standards; and has a continuing obligation to comply with all building code requirements.

2. Defective parts of signs, including but not limited to printed or painted surfaces, trims, poles, and text integrity shall be replaced or repaired.

(Ord. No. 14216, § 1, 4-8-25)

Sec. 3-202. Violation and Penalties.

1. *Violations Declared Misdemeanors.* Any person who shall violate any provision of this Code, or any person who shall fail or refuse to comply with any notice to abate or other notice issued by the Land Development Office within the time allowed by such notice, shall be guilty of a misdemeanor; each day of such violation or failure or refusal to comply shall be deemed a separate offense and punishable accordingly. Each violation of this Chapter shall be punishable by a fine of not less than Twenty-Five Dollars ($25.00) nor more than Fifty Dollars ($50.00).

2. *Violations Declared Nuisances.* Upon ascertaining a violation of the provisions of this Code, the Director of the Land Development Office shall cause to be served upon both the offender, or their agent or the occupant(s) of the premises, a written notice to abate which shall (i) describe the conditions constituting a nuisance under this Code, and (ii) state that the nuisance may be abated by the City at the expense of the offender, and/or the owner, and/or the occupant of the premises at the expiration of not less than fifteen (15) days nor more than sixty (60) days from the date of such notice if such condition is not

corrected by the offender, or the owner, or the occupant, or the person in control of the premises. If, at the expiration of the time given to abate the nuisance in said notice to abate, the condition constituting a nuisance has not been corrected, then such condition may be corrected, or the nuisance abated by the City at the expense of the offender and/or the owner and/or the occupant of the premises under the directions of the Director of the Land Development Office. The City shall have a lien on the property upon which such sign is located to secure the amount expended for the abatement of such nuisance; the 'amount expended for the abatement of such nuisance' shall include all unpaid annual maintenance and safety inspection fees and delinquent charges due to such sign.

3. *Signs Placed in the Right-of-Way.* Signs that exist in a nonconforming status placed in the public R-O-W shall be immediately confiscated by the City and the owner or responsible party for the sign shall be fined for each sign in violation for the sign's return.

4. *Persons Subject to Penalty.* The owner, tenant and/or occupant of any building, structure, premises, or a part thereof, and any architect, builder, contractor, agent or other person, who commits, maintains, aids or participates in such violation may be found guilty of a separate offense and suffer the penalties as herein provided.

5. *Sign Maintenance Violation.* The maintenance of any unused sign and/or its supporting structure or any violation of the provisions of this Code by any person is declared to be a public nuisance dangerous to the public safety and shall be abated as set forth in this Article. For the purposes of this Section, "unused sign" shall include any sign which (i) has not displayed a message or messages for more than ninety (90) days or (ii) is not kept in good structural repair such that the sign could pose a risk to public health or safety.

6. *Penalties.* All penalties for violations described in the paragraphs above shall be administered by the Administrative Hearing Officer.
(Ord. No. 14216, § 1, 4-8-25)

ARTICLE XXIII. NON-CONFORMING SIGNS

Sec. 3-203. Purpose.

1. *Purpose.* For the purpose of promoting aesthetics, protecting the environment, and regulating excess signage, encouraging the positive economic development of the City, promoting the safety of the traveling public, protecting existing property values in both residential and nonresidential areas, preventing overcrowding of land, promoting a positive community appearance as part of a concerted citywide effort to protect and enhance the aesthetics of the City for the enjoyment of all citizens, the nonconforming signs are herein regulated.

These regulations are designed to prevent a public nuisance through the overconcentration, improper placement and excessive height, bulk, enlargement, number, and area of signs. It is intended that outdoor advertising signs be located away from residential areas, and that such signs be regulated to protect the character of the area wherein signs are located and to conserve property values in these areas.
(Ord. No. 14216, § 1, 4-8-25)

Sec. 3-204. General Provisions.

1. Nothing contained in this Chapter shall be construed in any way to ratify or approve the erection and/or maintenance of any sign which was erected in violation of any prior ordinance or ordinances of the City of Chattanooga, Tennessee, and such signs so erected in violation of any prior ordinance or ordinances shall be subject to removal as provided in this Article. Signs which are now in existence and were

constructed in compliance with the terms of any prior ordinance or ordinances of the City of Chattanooga, Tennessee, but which are not in conformance with the provisions of this Chapter are hereby designated as legal, non-conforming signs, and shall be removed hereafter in accordance with this Section.

a. For on-premises signs, any occupant who applies for a new sign permit for any on-premises detached sign shall be required to either remove all legal non-conforming detached signs and the devices on the area of the property occupied by such occupant, or to bring such non-conforming signs into conformance with the provisions of this Chapter before any new permit may be issued.

b. Any occupant who applies for a new sign permit for any on-premises attached sign shall be required to either remove all legal non-conforming attached signs and the devices on the area of the premises occupied by such occupant, or to bring such non-conforming signs into conformance with the provisions of this Chapter before any new sign permit may be issued.

Notwithstanding any other provision of this Chapter, any person using a portable sign, balloon sign or banner for which a temporary sign permit must be obtained on the effective date of this Chapter must obtain a temporary sign permit as required by Article XVII within sixty (60) days of the effective date of this ordinance and thereafter may use temporary signs only in accordance with the provisions of this Chapter.
(Ord. No. 14216, § 1, 4-8-25)

Chapter 4

AIR POLLUTION*

Article I. In General

Sec. 4-1. Declaration of policy and purpose; title.
Sec. 4-2. Definitions.
Sec. 4-3. Regulations cumulative; compliance with one (1) provision no defense to noncompliance with another; sampling and testing methods.
Sec. 4-4. Penalties for violation of chapter, permit or order.
Sec. 4-5. Limitations of chapter.
Sec. 4-6. Air pollution control board; bureau of air pollution control; persons required to comply with chapter.
Sec. 4-7. Powers and duties of the board; delegation.
Sec. 4-8. Installation permit and certificate of operation.
Sec. 4-9. Charges for technical reports, research, computer time.
Sec. 4-10. Records.
Sec. 4-11. General requirements.
Sec. 4-12. Exceedances of limitations on emissions.
Sec. 4-13. Certificate of alternate control.
Sec. 4-14. Court determination of invalidity of having two (2) sets of limitations for process or fuel-burning equipment; effect.
Sec. 4-15. Right to file abatement suits.
Sec. 4-16. Right of entry of employees of the bureau, search warrants.
Sec. 4-17. Enforcement of chapter; procedure for adjudicatory hearings for violations.
Sec. 4-18. Hearings, appeals and judicial review.
Sec. 4-19. Confidentiality of certain records.
Sec. 4-20. Emergencies.
Sec. 4-21. Variances.
Secs. 4-22—4-40. Reserved.

Article II. Rules, Regulations, Criteria, Standards

Sec. 4-41. Rules adopted.
Secs. 4-42—4-49. Reserved.

Article III. Part 70 Source Regulation and Permits

Sec. 4-50. Part 70 sources.
Sec. 4-51. Permitting authority.
Sec. 4-52. Program overview.
Sec. 4-53. Definitions.

Sec. 4-59. Permit review by EPA and affected States.
Sec. 4-60. Fee determination and certification.
Sec. 4-61. Judicial Review—Failure to Take Final Action.
Sec. 4-62. Final action—Administrative and Judicial Review.
Sec. 4-63. Judicial Review of Terms and Conditions of Permit.
Sec. 4-64. Hearings and Review.
Sec. 4-65. Enforcement.
Sec. 4-66. Severability.
Sec. 4-67. Titles.
Sec. 4-68. Incorporation of documents by reference.

ARTICLE I. IN GENERAL

Sec. 4-1. Declaration of policy and purpose; title.

(a) It is hereby declared to be the public policy of this city and the purpose of this chapter to achieve and maintain such levels of air quality as will protect human health and safety and to the greatest degree practicable, prevent injury to plant and animal life and property, and foster the comfort and convenience of the people.

(b) To these ends it is the purpose of this chapter to provide a program of air pollution prevention, abatement and control.

(c) This chapter shall be known and cited as "The Chattanooga Air Pollution Control Ordinance." (Code 1986, § 4-1)

Sec. 4-2. Definitions.

In the interpretation and enforcement of this chapter, the following definitions shall apply:

Actual emissions: The calculated rate of emissions of a pollutant from an emissions unit, as determined in accordance with Paragraphs (1), (2) and (3) below:

(1) Actual emissions calculated as of a particular date shall equal the average rate, in tons per year, at which the unit emitted the pollutant during a two (2) year period which precedes the particular date and which is representative of normal source operation. The director may allow the use of a different time period upon a determination that it is more representative of normal source operation. Actual emissions shall be calculated using the unit's actual operating hours, production rates, and types of materials processed, stored, or combusted during the selected time period. For a new source, actual emissions shall be calculated on the projected operating hours submitted on the installation permit application as representative of normal source operation. If the projected hours are less than eight thousand seven hundred sixty (8,760) hours per year, then the operating hours shall be specified as a federally enforceable permit condition. The calculation of actual emissions shall include fugitive emissions except where fugitive emissions are expressly excluded by a provision of this chapter.

(2) However, unless the source is in compliance with legally enforceable limits which restrict the operating rate, or hours of operation, or both, the director shall deem actual emissions of the unit to be those calculated using the maximum rated capacity of the source, based on eight thousand seven hundred sixty (8,760) hours per year, and the most stringent of the following:

   a. The applicable standards as set forth in Section 4-41, Rule 15 and Rule 16; or

   b. The applicable emissions limitation in this chapter, including those with a future compliance date; or

   c. The emissions rate specified as an enforceable permit condition under local, state or federal law.

(3) If there is an emissions unit in place and subject to a permit or certificate of operation which has not begun normal operations on the particular date that an additional unit is to be issued a permit or certificate of operation, then actual emissions of the unit in place shall be calculated as being the potential to emit of the unit on that date.

Air contaminant: Any smoke, soot, fly ash, dust, cinders, dirt, noxious or obnoxious acids, fumes, oxides, gases, vapors, odors, toxic or radioactive substance, waste, particulate, solid, liquid or gaseous matter, or any other materials in the outdoor atmosphere, but excluding uncombined water.

Air flow permeability: The volumetric rate of air flow in cfm, produced by a pressure decrease of one-half (0.5) inches w.g. across a new, clean filtering fabric, divided by the area of the fabric in square feet. The test air stream is maintained at nominal atmospheric pressure and temperature.

Air pollution: The presence in the outdoor atmosphere of one (1) or more air contaminants or combinations thereof in such quantities and of such duration that they are or may tend to be injurious to human, plant or animal life, or property, or that interfere with the comfortable enjoyment of life or property, or the conduct of business.

Air pollution control equipment: Any item of equipment which has as its primary function the elimination or reduction of the emissions of an air pollutant.

Allowable emissions: The emissions rate of a stationary source calculated using the maximum rated capacity of the source (unless the source is subject to legally enforceable limits which restrict the operating rate, or hours of operation, or both) and the most stringent of the following:

(1) The applicable standards under this chapter or in an applicable state implementation plan, including those with a future compliance date; or

(2) The emissions rate specified as a legally enforceable permit or certificate condition established pursuant to this chapter, including those with a future compliance date.

Asbestos: Any of six (6) naturally occurring hydrated mineral silicates: actinolite, amosite, anthophyllite, chrysolite, crocidolite and tremolite.

Begin actual construction: Initiation of physical on-site construction activities on an emissions unit which are of a permanent nature. Such activities include, but are not limited to, installation of building supports and foundations, laying of underground pipework and construction of permanent storage structures. With respect to a change in method of operation, this term refers to those on-site activities, other than preparatory activities, which mark the initiation of the change.

Best available control technology (BACT) for § 4-8(e) and § 4-41, Rule 25: An emissions limitation (including a visible emissions limitation), based on the maximum degree of reduction for each pollutant subject to regulation under this chapter which would be emitted from any stationary source or modification which the director, on a case-by-case basis, taking into account energy, environmental, and economic impacts and other costs, determines is achievable for such source or modification through application of production processes or available methods, systems and techniques, including fuel cleaning or treatment or innovative fuel combination techniques for control of each such pollutant. In no event shall the application of "best available control technology" result in emissions of any pollutant which would exceed the emissions allowed by any applicable limitation established under Rules 15 and 16. If a source demonstrates to the director that technological or economic limitations on the application of measurement methodology to a particular emissions unit would make the imposition of an emissions limitation infeasible, a design, equipment, work practice, operations standard or combination thereof, submitted by the source and approved by the director, may be prescribed instead to satisfy the requirement for the application of best available control technology. Such standards shall, to the degree possible, set forth the emissions reduction achievable by implementation of such design, equipment, work practice or operation, and shall provide for compliance by means which achieve equivalent results.

Board: The Chattanooga-Hamilton County Air Pollution Control Board.

Building, structure, facility or installation: All of the pollutant-emitting activities which belong in the same industrial grouping, are located on one (1) or more contiguous or adjacent properties, and are under the control of the same person (or persons under common control). Pollutant-emitting activities shall be considered as part of the same industrial grouping if they belong to the same major group (i.e., described by the first two (2) digits in the code which is specified in Standard Industrial Classification Manual 1987).

Bureau: The Chattanooga-Hamilton County Air Pollution Control Bureau.

Calendar day: A twenty-four (24) hour period of time between 12:01 a.m. and midnight on a numbered day in the Gregorian calendar.

Certificate of Operation: Any certificate of operation issued pursuant to the provisions of this chapter, including a federally enforceable certificate of operation.

Commence: As applied to construction of a major stationary source or major modification, means that the owner or operator has all necessary preconstruction approvals or permits and either has:

(1) Begun, or caused to begin, a continuous program of actual on-site construction of the source, to be completed within a reasonable time as determined by the director; or

(2) Entered into binding agreements or contractual obligations, which cannot be canceled or modified without substantial loss to the owner or operator, to undertake a program of actual construction of the source to be completed within a reasonable time.

Construction: Any physical change or change in the method of operation (including fabrication, erection, installation, demolition or modification of an emissions unit) which would result in a change in actual emissions.

Controlled burning: Open burning conducted in such manner or with the aid of such special equipment that emissions are reduced.

Director: The Executive Director of the Bureau.

Dwelling unit. Any room or group of rooms located within a dwelling and forming a single habitable unit with facilities which are used or intended to be used for living, cooking, sleeping and eating.

Emission: A release into the outdoor atmosphere of air contaminants.

Emission limitation: A requirement established which limits the quantity, rate or concentration of emissions of air pollutants, including any requirement relating to the operation or maintenance of a source to ensure continuous emission reductions or a legally enforceable emissions cap that the source has assumed to avoid an applicable requirement to which the source would otherwise be subject, without exception for startup or shutdown.

Emission point: That place where emission occurs.

Emissions unit: Any part or activity of a stationary source which emits or would have the potential to emit any pollutant subject to regulation under this chapter.

Excess air: Air, entering a combustion chamber in excess of the amount theoretically required to complete combustion of materials in the combustion chamber.

Existing source: A source whose installation, modification, alteration or reconstruction commenced on or before the effective date of any provision of this chapter applicable to it is deemed to be an "existing source" for such provision. If any existing source is subsequently altered, repaired or rebuilt so that its potential to emit any air pollutant is increased, or so that it emits any air pollutant it did not previously emit, it shall be reclassified as a "new source," as defined in this chapter.

Federal Clean Air Act: Title 42 United States Code Sections 7401 through 7671q, as amended by Public Law 101-549, November 15, 1990.

Fixed capital cost: The capital needed to provide all the depreciable components.

Fly ash: Particulate matter capable of being airborne, resulting from combustion of fuel or refuse.

Fossil: Coal, coke and liquid petroleum fuels other than gasoline, diesel fuels and kerosene.

Fuel burning equipment: Any equipment, device or contrivance used for the burning of any fuel, except refuse) and all appurtenances thereto, including ducts, breechings, fly ash collecting equipment, fuel feeding equipment, ash removal equipment, combustion controls, stacks, chimneys, etc., used for indirect heating in which the material being heated is not contacted by and adds no substance to the products of combustion. Such equipment includes, but is not limited to, that used for heating water to boiling; raising steam or superheating steam; heating air as in warm air furnaces; furnishing process heat that is conducted through process vessel walls; and furnishing process heat indirectly through its transfer by fluids.

Fugitive dust. Particulate matter emitted from any source other than a flue or stack.

Fugitive emissions: Those emissions which could not reasonably pass through a stack, chimney, vent or other functionally-equivalent opening.

Hand-fired fuel-burning equipment: Fuel-burning equipment in which fresh fuel is manually introduced directly into the combustion chamber.

Hazardous air pollutant: Any air pollutant listed in Title 42 U.S.C. 7412(b)(1), as revised by Title 40 CFR Part 63, Subpart C, which has been incorporated by reference in Chapter 4.

Implementation plan: A plan devised by a governmental unit to provide for the attainment, maintenance and enforcement of any ambient air quality standard.

Incinerator: Refuse-burning equipment as is defined in this section.

Internal combustion engine: Any engine of ten (10) horsepower as rated by S.A.E. methods, or larger, in which the combustion of gaseous, liquid or pulverized solid fuel takes place.

Legally enforceable: All limitations and conditions which are enforceable under local, state, or federal law, including those under this chapter or an implementation plan, and any permit or certificate of operation requirements established pursuant to this chapter.

Lowest achievable emission rate (LAER): For any source, that rate of emission which reflects the more stringent rate of emissions based on the following:

(1) The most stringent emissions limitation which is contained in the applicable provisions of this chapter for such class or category of stationary source, unless the owner or operator of the proposed source demonstrates that such limitations are not achievable; or

(2) The most stringent emission limitation which is achieved in practice by such class or category of stationary source. This limitation, when applied to a modification, means the lowest achievable emissions rate for the new or modified emissions units within the stationary source. In no event shall a new or modified source emit any pollutant in excess of the amount allowable under applicable provisions of section 4-41, Rule 15 (New Source Performance Standards), of this chapter. This rate will be determined by the director prior to the issuance of the installation permit.

[*T.A.R. 1200-3-9-.01(2)(e) as revised by the TN APCB 12/14/95 not yet state-effective, pending State procedural requirements completion.*]

Malfunction: Any exceedance arising from sudden and not reasonably foreseeable events beyond the control of the source, including acts of God or *force majeure*, which exceedance requires immediate corrective action to restore normal operation, and that causes the source to exceed an applicable emission limitation provision of this chapter, or of any installation permit or certificate of operation issued thereunder, due to unavoidable increases in emissions attributable to the situation. To the extent the situation is caused by improperly designed equipment, lack of preventative maintenance, careless or improper operation, operator error or any other preventable upset condition or preventable equipment breakdown, it shall not be considered a malfunction.

Modification, alteration, reconstruction: Any physical change in, or change in the method of operation of, an air pollutant source which increases the actual emissions of any air pollutant to which an emission standard or limitation applies emitted by such source or its potential to emit any air pollutant to which an emission standard or limitation applies, or which results in the emission of any air pollutant to which an emission standard or limitation applies that was not previously emitted, except that:

(1) Routine maintenance, repair, and replacement shall not be considered physical changes; and

(2) The following shall not be considered a change in the method of operation:

a. An increase in the production rate that exceeds neither the operating design capacity nor the applicable maximum production rate stated in the installation permit or certificate of operation for the source.

b. An increase in hours of operation that does not exceed any limitation on operating hours stipulated as a legally enforceable permit condition of the source;

c. The use of an alternative fuel if the source is designed to accommodate such alternative fuel; or

d. Required alterations to equipment for the use of an alternative fuel or raw material by reason of an order under section 2(a) and (b) of the federal Energy Supply and Environmental Coordination Act of 1974 (or any superseding legislation) or by reason of a natural gas curtailment plan in effect pursuant to the Federal Power Act.

(3) The burden of proof establishing that a change is excepted under parts a. and b. is on the owner or operator. The director shall rule in a timely fashion on whether a reported change is excepted. Further expansions or restrictions of the definition may be listed in this chapter. In the event of a conflict, the most stringent requirement shall apply.

[Origin is T.A.R. 1200-3-2-.01(aa)]

Any other increases and decreases in actual emissions at the source that are contemporaneous with the particular change and are otherwise creditable.

Multiple chamber incinerator. Any article, machine, equipment, contrivance, structure or part of a structure used to dispose of combustible refuse by burning, consisting of three (3) or more refractory lined combustion furnaces in series, physically separated by refractory walls, interconnected by gas passage ports or ducts and employing adequate design parameters necessary for maximum combustion of the material to be burned.

New source: A source whose installation, modification, alteration or reconstruction is commenced after the effective date of any provision of this chapter to which the source is subject is deemed to be a "new source" for such provision.

Odor-producing equipment: Any equipment, container, device or contrivance which is not process equipment, fuel-burning equipment, refuse-burning equipment or control equipment as defined by this section, that releases substances that produce or may tend to produce odors in the ambient air.

Opacity: The degree to which emissions reduce the transmission of light and obscure the view of an object in the background.

Open burning: Unconfined burning of combustible material where no equipment has been provided and used for control of air.

Owner or operator: Any person who owns, leases, operates, controls, or supervises a source.

Owner or operator of a demolition or renovation activity means any person who owns, leases, operates, controls, or supervises the facility being demolished or renovated or any person who owns, leases, operates, controls or supervises the demolition or renovation, or both.

Particulate matter: Material other than uncombined water, which is suspended in air or other gases, in a finely divided form, as a liquid or solid.

Person: Any individual, partnership, copartnership, firm, company, corporation, association, joint stock company, trust, estate, governmental entity or any other legal entity, or their legal representatives, agents or assigns. The masculine gender shall include the feminine, the singular shall include the plural where indicated by the context.

Plant: Any building, structure, installation, activity or combination thereof which contains any stationary source of air contaminants.

PM2.5: Particulate matter with an aerodynamic diameter of less than or equal to a nominal 2.5 micrometers as measured by a reference method based on Appendix L of Title 40 Code of Federal Regulations Part 50 and designated in accordance with Title 40 Code of Federal Regulations Part 53, by an equivalent method designated in accordance with Part 53, or by an approved regional method designated in accordance with Appendix C of Title 40 Code of Federal Regulations Part 58.

PM10: Particulate matter with an aerodynamic diameter less than or equal to a nominal 10 micrometers as measured by a reference method based on Appendix J of Title 40, Code of Federal Regulations, Part 50, or by an equivalent method designated in accordance with Part 53 of Title 40, Code of Federal Regulations.

PM10 emissions: Finely divided solid or liquid material with an aerodynamic diameter less than or equal to a nominal 10 micrometers emitted into the ambient air as measured by an applicable reference method.

Pollutant: Any air contaminant as defined in section 4-2 or combination of such air contaminants, including any physical, chemical, biological, or radioactive (including source material, special nuclear material, and byproduct material) air contaminant which is emitted into or otherwise enters the ambient air. Such term includes any precursors to the formation of any such air contaminant, to the extent the U.S. Environmental Protection Agency has identified such precursor or precursors for the particular purposes for which the term "pollutant" is used.

Potential to emit: The maximum capacity of a stationary source to emit a pollutant under its physical and operational design. Any physical or operational limitation on the capacity of the source to emit a pollutant, including air pollution control equipment and restrictions on hours of operation or on the type or amount of material combusted, stored or processed, shall be treated as part of its design if the limitation or the effect it would have on emissions is legally enforceable. Secondary emissions do not count in determining the potential to emit of a stationary source.

Ppm: Parts per million by volume at a temperature of twenty degrees (20°) Celsius and at a pressure of seven hundred sixty (760) millimeters of mercury.

Primary Air Quality Standards: Primary ambient air quality standards define levels of air quality believed adequate, with an appropriate margin of safety, to protect public health.

Process air: Air used principally as a function of the process.

Process emission: Any emission of an air contaminant to the ambient air other than that from fuel-burning equipment, incinerator or open burning.

Process equipment: Any equipment, device or contrivance for changing any materials whatever or for storage or handling of any materials, the use or existence of which may cause any discharge of air pollutants into the open air, but not including that equipment specifically defined as "fuel-burning equipment" or "refuse-burning equipment" in this chapter.

Process weight: The total weight of all materials introduced into any specific process, which process may cause any discharge of air contaminant. Solid fuels discharged will be considered as part of process weight, but liquid and gaseous fuels and combustion and process air will not. For a cyclical or batch operation, the process weight per hour will be derived by dividing the total process weight by the number of hours in one (1) complete operation from the beginning of any given process to the completion thereof, excluding any time during which the equipment is idle. For a continuous operation, the process weight per hour will be derived by dividing the process weight for a twenty-four (24) hour period by twenty-four (24).

Reasonable further progress (RFP): Annual incremental reductions in emissions of the applicable pollutant which are sufficient to provide for attainment of the applicable ambient air quality standards by December 31, 1982, or in the case of the primary ambient air quality standard for photochemical oxidants or carbon monoxide (or both) by December 31, 1987, if attainment is not possible by December 31, 1982.

Reasonably available control technology (RACT): The lowest emission limit that a particular source is capable of meeting by the application of control technology that is reasonably available considering technological and economic feasibility.

Reconstruction: Reconstruction will be presumed to have taken place where the fixed capital cost of the new components exceeds fifty percent (50%) of the fixed capital cost of a comparable entirely new facility. Any final decisions as to whether reconstruction has occurred shall be based on:

(1) The fixed capital cost of the replacements in comparison to the fixed capital cost that would be required to construct a comparable entirely new facility;

(2) The estimated life of the facility after the replacements compared to the life of a comparable entirely new facility; and

(3) The extent to which the components being replaced cause or contribute to the emissions from the facility.

A reconstructed facility will be treated as a new stationary source. In determining lowest achievable emission rate for a reconstructed facility any economic or technical limitations on compliance with applicable standards of performance which are inherent in the proposed replacements shall be taken into account in assessing whether a new source performance standard is applicable to such facility.

Refuse-burning equipment: Any equipment, device or contrivance used for the destruction of garbage and/or other combustible wastes by burning, and all appurtenances thereto.

Salvage operation: Any operation conducted in whole or in part for the salvage or reclaiming of any product or material.

Secondary Air Quality Standards: Secondary ambient air quality standards define levels of air quality believed adequate, with an appropriate margin of safety, to protect the public welfare from any known anticipated adverse effects of the pollutant.

Secondary emissions: Emissions which would occur as a result of the construction or operation of a major stationary source or major modification, but do not come from the major stationary source or major modification itself. Secondary emissions must be specific, well defined, quantifiable, and impact the same general area as the stationary source or modification which causes the secondary emissions. Secondary emissions include emissions from any off-site support facility which would not be constructed or increase

its emissions except as a result of the construction or operation of the major stationary source or major modification. Secondary emissions do not include any emissions which come directly from a mobile source, such as emissions from the tailpipe of a motor vehicle, from a train, or from a vessel.

Shutdown: The removal of equipment from operation.

Smoke: Small gas or airborne particles resulting from combustion operations and consisting of carbon and ash and other matter and present in sufficient quantity to be observable.

Source: Any activity, equipment, process or operation which causes or contributes to cause emission or has the potential to emit one (1) or more air pollutants at an emission point or as fugitive emissions, or any combination of items of equipment, processes or operations which when combined cause emission of one (1) or more air pollutant(s) at one (1) or more emission points or as fugitive emissions.

Standard conditions: Fourteen and seven-tenths (14.7) psia and a temperature of seventy degrees (70°) Fahrenheit.

Stationary source: Any source of an air pollutant except those resulting directly from an internal combustion engine for transportation purposes or from nonroad engines or nonroad vehicles as defined in Title 42 U.S.C. § 7550.

(*Federal Clean Air Act § 302(z), 42 USC 7602(z)*)

Start-up: The placing into operation of new, down or off-line equipment.

Suspended particulate: Particulate matter which will remain suspended in air for an appreciable period of time.

Synthetic minor source: A source that would otherwise be considered a "Part 70 source," as defined in section 4-53, due to its potential to emit, if it were not for a mutually agreed upon, more restrictive, federally enforceable limitation, contained in an installation permit or certificate of operation issued pursuant to section 4-8, upon the potential to emit of that source under its physical and operational design. All emissions limitations, controls, and other requirements imposed by such permit or certificate of operation shall be at least as stringent as any other applicable limitations and requirements contained in this chapter and enforceable thereunder.

Test: Any monitoring or sampling relied on by a source to demonstrate or certify compliance with this chapter.

Total suspended particulate: Particulate matter as measured by the method described in Appendix B of Title 40, Code of Federal Regulations, Part 50.

Uncontrolled emissions: The maximum capacity to emit a pollutant absent air pollution control equipment. "Air pollution control equipment" includes control equipment which is not, aside from air pollution control laws and regulations, vital to production of the normal operation. Annual uncontrolled emissions shall be based on the maximum annual rated capacity of the source, unless the source is subject to enforceable permit conditions which limit the operating rate or hours of operation, or both. Enforceable permit conditions on the type or amount of materials combusted or processed may be used in determining the uncontrolled emission rate of a source.

Volatile organic compound (VOC): Any compound of carbon, excluding carbon monoxide, carbon dioxide, carbonic acid, metallic carbides or carbonates, and ammonium carbonate, that participates in atmospheric photochemical reactions.

(1) This includes any such organic compound other than the following, which have been determined to have negligible photochemical reactivity:

methane;

ethane;
methylene chloride (dichloromethane);
1,1,1-trichloroethane (methyl chloroform);
1,1,2-trichloro-1,2,2-trifluoroethane (CFC-113);
trichlorofluoromethane (CFC-11);
dichlorodifluoromethane (CFC-12);
chlorodifluoromethane (HCFC-22);
trifluoromethane (HFC-23);
1,2-dichloro-1,1,2,2-tetrafluoroethane (CFC-114);
chloropentafluoroethane (CFC-115);
1,1,1-trifluoro-2,2-dichloroethane (HCFC-123);
1,1,1,2-tetrafluoroethane (HFC-134a);
1,1-dichloro-1-fluoroethane (HCFC-141b);
1-chloro-1,1-difluoroethane (HCFC-142b);
2-chloro-1,1,1,2-tetrafluoroethane (HCFC-124);
pentafluoroethane (HFC-125);
1,1,2,2-tetrafluoroethane (HFC-134);
1,1,1-trifluoroethane (HFC-143a);
1,1-difluoroethane (HFC-152a);
parachlorobenzotrifluoride (PCBTF);
cyclic, branched, or linear completely methylated siloxanes;
acetone;
perchloroethylene (tetrachloroethylene);
3,3-dichloro-1,1,1,2,2-pentafluoropropane (HCFC-225ca);
1,3-dichloro-1,1,2,2,3-pentafluoropropane (HCFC-225cb);
1,1,1,2,3,4,4,5,5,5-decafluoropentane (HFC-43-10mee);
difluoromethane (HFC-32);
ethylfluoride (HFC-161);
1,1,1,3,3,3-hexafluoropropane (HFC-236fa);
1,1,2,2,3-pentafluoropropane (HFC-245ca);
1,1,2,3,3-pentafluoropropane (HFC-245ea);
1,1,1,2,3-pentafluoropropane (HFC-245eb);
1,1,1,3,3-pentafluoropropane (HFC-245fa);
1,1,1,2,3,3-hexafluoropropane (HFC-236ea);
1,1,1,3,3-pentafluorobutane (HFC-365mfc);
chlorofluoromethane (HCFC-31);
1-chloro-1-fluoroethane (HCFC-151a);
1,2-dichloro-1,1,2-trifluoroethane (HCFC-123a);

1,1,1,2,2,3,3,4,4-nonafluoro-4-methoxy-butane ($C_4F_9OCH_3$, HFE-7100);

2-(difluoromethoxymethyl)-1,1,1,2,3,3,3-heptafluoropropane [$(CF_3)_2CFCF_2OCH_3$];

1-ethoxy-1,1,2,2,3,3,4,4,4-nonafluorobutane ($C_4F_9OC_2H_5$, HFE-7200);

2-(ethoxydifluoromethyl)-1,1,1,2,3,3,3-heptafluoropropane [$(CF_3)_2CFCF_2OC_2H_5$];

methyl acetate;

1,1,1,2,2,3,3-heptafluoro-3-methoxy-propane (n-$C_3F_7OCH_3$, HFE-7000);

3-ethoxy-1,1,1,2,3,4,4,5,5,6,6,6-dodecafluoro-2-(trifluoromethyl)hexane (HFE-7500);

1,1,1,2,3,3,3-heptafluoropropane (HFC 227ea);

methyl formate ($HCOOCH_3$);

1,1,1,2,2,3,4,5,5,5-decafluoro-3-methoxy-4-(trifluoromethyl)pentane (HFE-7300);

propylene carbonate;

dimethyl carbonate;

trans-1,3,3,3-tetrafluoropropene;

HCF_2OCF_2H (HFE-134);

$HCF_2OCF_2OCF_2H$ (HFE-236cal2);

$HCF_2OCF_2CF_2OCF_2H$ (HFE-338pcc13);

$HCF_2OCF_2OCF_2CF_2OCF_2H$ (H-Galden 1040x or H-Galden ZT 130 (or 150 or 180));

trans-1-chloro-3,3,3-trifluoroprop-1-ene;

2,3,3,3-tetrafluoropropene;

2-amino-2-methyl-1-propanol;

t-butyl acetate;

1,1,2,2-tetrafluoro-1-(2,2,2-trifluoroethoxy) ethane;

cis-1,1,1,4,4,4-hexafluorobut-2-ene (HFO-1336mzz-Z); and

perfluorocarbon compounds which fall into these classes:

a. Cyclic, branched, or linear, completely fluorinated alkanes;

b. Cyclic, branched, or linear, completely fluorinated ethers with no unsaturations;

c. Cyclic, branched, or linear, completely fluorinated tertiary amines with no unsaturations; and

d. Sulfur containing perfluorocarbons with no unsaturations and with sulfur bonds only to carbon and fluorine.

(2) For purposes of determining compliance with emissions limits, VOC will be measured by the test methods in this chapter or Title 40 Code of Federal Regulations Part 60, Appendix A, which have been incorporated by reference in Chapter 4, as applicable. Where such a method also measures compounds with negligible photochemical reactivity, these negligibly-reactive compounds may be excluded as VOC if the amount of such compounds is accurately quantified, and such exclusion is approved by the Director.

(3) As a precondition to excluding these compounds as VOC or at any time thereafter, the Director may require an owner or operator to provide monitoring or testing methods and results demonstrating, to the satisfaction of the Director, the amount of negligibly-reactive compounds in the source's emissions.

(4) For purposes of enforcement for a specific source, the test methods specified in these regulations, in the EPA-approved SIP, or in a permit or certificate issued pursuant to these regulations shall be used.

(Code 1986, § 4-2; Ord. No. 9171, §§ 1—3, 5-30-89; Ord. No. 9846, § 1, 3-9-93; Ord. No. 10277, § 1, 8-15-95; Ord. No. 10786, § 1, 10-27-98; Ord. No. 12054, § 1, 12-11-07; Ord. No. 13221, § 1, 9-19-17; Ord. No. 13998, §§ 1—4, 6-27-23; Ord. No. 14165, § 1, 10-29-24)

Cross reference—Definitions and rules of construction generally, § 1-2.

Sec. 4-3. Regulations cumulative; compliance with one (1) provision no defense to noncompliance with another; sampling and testing methods.

(a) *Regulations, methods generally.* The provisions of this chapter, as previously adopted and as amended, shall be construed to be cumulative in effect, and it is declared to be the legislative intent that compliance with any one (1) or more provisions of those ordinances or rules and regulations thereof or with any one (1) or more provisions of this chapter shall not be construed as a defense for noncompliance with any other applicable provisions of those ordinances or rules or regulations thereof or with any other applicable provisions of this chapter. In addition to and consistent with specific methods of sampling and analysis described in this chapter, samples shall be taken in such number, duration and location so as to be statistically significant and representative of the condition which the samples purport to evaluate. Where specific materials, equipment, methods or procedures are specified, it shall be permissible to use other materials, equipment or procedures where it has been reliably demonstrated that their use produces results comparable to that which would have been obtained by use of the specified materials, equipment, methods or procedures, including any federally enforceable monitoring or testing method promulgated in Title 40 Code of Federal Regulations Part 51, Appendix M—Recommended Test Methods for State Implementation Plans, Appendix P—Minimum Emission Monitoring Requirements, and Appendix W—Guideline on Air Quality Models (Revised); Part 60, Appendix A—Test Methods, Appendix B—Performance Specifications, Appendix C—Determination of Emission Rate Change, and Appendix F—Quality Assurance; Part 61, Appendix A—National Emission Standards for Hazardous Air Pollutants, Compliance Status Information, Appendix B—Test Methods, Appendix C—Quality Assurance Procedures, Appendix D—Methods for Estimating Radionuclide Emissions, and Appendix E—Compliance Procedures Methods for Determining Compliance with Subpart I; or Part 75 including Appendices A through I—Continuous Emission Monitoring which have been incorporated by reference in Chapter 4. Any method of sampling or analysis permissible under Section 4-3 of this chapter may be used for the purpose of submission of a compliance certification by a source or for the purpose of establishing whether a person has violated any provision of this chapter or of a compliance plan. In addition, nothing in this chapter precludes the use, even the exclusive use, of any credible evidence or information, relevant to whether a source would have been in compliance with applicable requirements if the appropriate performance or compliance test or procedure is performed for the purpose of submitting compliance certifications or establishing whether or not a person has violated or is in violation of any provision of this chapter or of a compliance plan.

(b) *Procedures for ambient sampling and analysis.* Sampling and analytical procedures required for particulate matter, particulate matter as PM_{10}, particulate matter as $PM_{2.5}$, ozone, sulfur dioxide, carbon monoxide, nitrogen dioxide, and lead may be found in Title 40 Code of Federal Regulations Part 50, Appendices A-1, A-2, B, C, D, F, G, H, I, J, K, L, N, O, P, Q, R, S, T, and U, which have been incorporated by reference in Chapter 4. The procedure for sampling and analyzing atmospheric fluorides shall conform with the method adopted by the American Society for Testing Materials (ASTM) and found in the Annual Book of ASTM Standards published in the most recent year prior to enactment of this ordinance year by the American Society for Testing Materials bearing ASTM designation D 3266 "Standard Test Method for Automated Separation and Collection of Particulate and Acidic Fluoride in the Atmosphere (Double Paper Tape Sampler Method)." Each ambient monitor sited in the field for the purpose of generating data for the

monitoring procedures listed in Section 4-3(b) must have a valid data recovery of at least seventy-five percent (75%). Information that documents the cause of any missing data shall be submitted in writing to the Director.

[*New: 1200-3-12-.02(1) and (5)*]

(c) *Source sampling analysis.* The methods set forth in this section shall be applicable for determining compliance with emission limitations contained in this ordinance, except where otherwise specifically provided.

(1) Sample and velocity traverses. Sample and velocity traverses shall be determined by Method 1 or 1A as set forth in Title 40 CFR Part 60, Appendix A, which has been incorporated by reference in Chapter 4.

(2) Stack gas flow rate determination. Stack gas flow rate shall be determined by Method 2, 2A, 2B, 2C, 2D, 2E, 2F, 2G, or 2H as set forth in Title 40 CFR Part 60, Appendix A, which has been incorporated by reference in Chapter 4.

(3) Gas analysis for carbon dioxide, oxygen, excess air, and dry molecular weight shall be determined by Method 3, 3A, 3B or 3C as set forth in Title 40 CFR Part 60, Appendix A, which has been incorporated by reference in Chapter 4.

(4) Determination of moisture content in stack gases. Moisture content shall be determined by Method 4 as set forth in Title 40 CFR Part 60 Appendix A, which has been incorporated by reference in Chapter 4.

(5) Determination of particulate emissions. Particulate emissions shall be determined by Method 5, 5A, 5B, 5D, 5E, 5F, 5G, 5H, 5I, or 17 as set forth in Title 40 CFR Part 60, Appendix A, which has been incorporated by reference in Chapter 4, or by Method 201, 201A, or 202 as set forth in Title 40 CFR Part 51, Appendix M, which has been incorporated by reference in Chapter 4. Particulate or gaseous mercury emissions shall be determined by Method 29, 30A, or 30B as set forth in Title 40 CFR Part 60, Appendix A, which has been incorporated by reference in Chapter 4, or by Method 101, 101A, 102, or 105 as set forth in Title 40 CFR Part 61, Appendix B, which has been incorporated by reference in Chapter 4.

(6) Measurement of sulfur dioxide in stack gases. The approved procedure for measuring sulfur dioxide in stack gases is Method 6, 6A, 6B, or 6C set forth in Title 40 CFR Part 60, Appendix A, which has been incorporated by reference in Chapter 4.

(7) Determination of nitrogen oxides in stack gases. Nitrogen oxides in stack gases shall be determined by Method 7, 7A, 7B, 7C, 7D, or 7E set forth in Title 40 CFR Part 60, Appendix A, which has been incorporated by reference in Chapter 4.

(8) Determination of sulfuric acid (H_2SO_4) in stack gases. Sulfuric acid in stack gases shall be determined by Method 8 set forth in Title 40 CFR Part 60, Appendix A, which has been incorporated by reference in Chapter 4.

(9) Visible emissions evaluation procedures. The procedure for evaluating visible emissions shall be Method 9 as set forth in Title 40 CFR Part 60, Appendix A, which has been incorporated by reference in Chapter 4, provided, however, that the provisions of Rule 3, Section 41, of this ordinance shall supplant the averaging provisions of Method 9, except where otherwise provided. The procedure for evaluating visible emissions resulting from roads and parking areas shall be Tennessee Visible Emission Evaluation Method 1, Visible Emissions Evaluation Instruction Manual, August 1988 Revised 1995, issued by the Tennessee Department of Health and Environment Division of Air Pollution Control, which has been incorporated by reference in Chapter 4.

(10) Determination of carbon monoxide emissions. Carbon monoxide emissions shall be determined by Method 10, 10A, or 10B set forth in Title 40 CFR Part 60, Appendix A, which has been incorporated by reference in Chapter 4.

(11) Determination of hydrogen sulfide content of fuel gas streams. Hydrogen sulfide content of fuel gas streams shall be determined by Method 11 set forth in Title 40 CFR Part 60, Appendix A, which has been incorporated by reference in Chapter 4.

(12) Determination of inorganic lead emissions. Inorganic lead emissions shall be determined by Method 12 set forth in Title 40 CFR Part 60, Appendix A, which has been incorporated by reference in Chapter 4.

(13) Determination of fluoride emissions. Fluoride emissions shall be determined by Method 13A, 13B, 14, or 14A as set forth in Title 40 CFR Part 60, Appendix A, which has been incorporated by reference in Chapter 4.

(14) Reserved.

(15) Reserved.

(16) Determination of total reduced sulfur emissions. Total reduced sulfur emissions shall be determined by Method 15A, 16, 16A, 16B, or 16C as set forth in Title 40 CFR Part 60, Appendix A, which has been incorporated by reference in Chapter 4.

(17) Determination of gaseous organic compound emissions. Gaseous organic compound emissions shall be made by Method 18 set forth in Title 40 CFR Part 60, Appendix A, which has been incorporated by reference in Chapter 4.

(18) Determination of sulfur dioxide removal efficiency. Sulfur dioxide removal efficiency shall be determined by Method 19 set forth in Title 40 CFR Part 60, Appendix A, which has been incorporated by reference in Chapter 4.

(19) Determination of emissions from stationary gas turbines. Nitrogen oxides, sulfur dioxide, and diluent emissions from stationary gas turbines shall be determined by Method 20 set forth in Title 40 CFR Part 60, Appendix A, which has been incorporated by reference in Chapter 4.

(20) Determination of volatile organic compound leaks shall be made by Method 21 set forth in Title 40 CFR Part 60, Appendix A, which has been incorporated by reference in Chapter 4.

(21) Visual determination of fugitive emissions from material sources and smoke emissions from flares shall be made by Method 22 set forth in Title 40 CFR Part 60, Appendix A, which has been incorporated by reference in Chapter 4.

(22) Determination of polychlorinated dibenzo-p-dioxins and polychlorinated dibenzofurans from stationary sources shall be made by Method 23 set forth in Title 40 CFR Part 60, Appendix A, which has been incorporated by reference in Chapter 4.

(23) Determination of volatile matter content, water content, density, volume solids, and weight solids of surface coatings shall be made by Method 24 set forth in Title 40 CFR Part 60, Appendix A, which has been incorporated by reference in Chapter 4.

(24) Determination of volatile matter content and density of printing inks and related coatings shall be made by Method 24A set forth in Title 40 CFR Part 60, Appendix A, which has been incorporated by reference in Chapter 4. Volatile hazardous air pollutant content of a liquid coating shall be determined by Method 311 set forth in Title 40 CFR Part 63, Appendix A, which has been incorporated by reference in Chapter 4, in conjunction with formulation data.

(25) Determination of organic emissions. Organic emissions shall be determined by Method 25, 25A, 25B, 25C, 25D, or 25E as set forth in Title 40 CFR Part 60, Appendix A, which has been incorporated by reference in Chapter 4.

(26) Determination of hydrogen halide and halogen emissions. Hydrogen halide and halogen emissions shall be determined by Method 26 or 26A as set forth in Title 40 CFR Part 60, Appendix A, which has been incorporated by reference in Chapter 4.

(27) Determination of vapor tightness of gasoline delivery tank shall be made using the pressure vacuum-test described in Method 27 set forth in Title 40 CFR Part 60, Appendix A, which has been incorporated by reference in Chapter 4.

(28) Certification and auditing of wood heaters shall be determined using Method 28 set forth in Title 40 CFR Part 60, Appendix A, which has been incorporated by reference in Chapter 4.

(29) Determination of air-to-fuel ratio and minimum achievable burn rates for wood-fired appliances shall be made using Method 28A set forth in Title 40 CFR Part 60, Appendix A, which has been incorporated by reference in Chapter 4.

(30) Determination of metals emissions. Metals emissions from stationary sources shall be determined using Method 29 as set forth in Title 40 CFR Part 60, Appendix A, which has been incorporated by reference in Chapter 4.

(31) Determination of capture efficiency of volatile organic compounds. Capture efficiency of volatile organic compounds shall be determined using Method 204, 204A, 204B, 204C, 204D, 204E, or 204F set forth in Title 40 CFR Part 51, Appendix M, which has been incorporated by reference in Chapter 4.

(32) Determination of chromium emissions. Chromium emissions and surface tension measurements and recordkeeping in conjunction with Title 40 CFR Part 63, Subpart N—National Emission Standards for Chromium Emissions From Hard and Decorative Chromium Electroplating and Chromium Anodizing Tanks shall be made using Method 306, 306A, and 306B set forth in Title 40 CFR Part 63, Appendix A, which have been incorporated by reference in Chapter 4.

(33) Determination of residual amounts of hazardous air pollutants. Residual amounts of hazardous air pollutants in conjunction with Title 40 CFR Part 63, Subpart U—National Emission Standards for Hazardous Air Pollutants for the Manufacture of Major Elastomers (Polymers and Resins I) shall be made using Methods 310 A, B and C; Methods 312 A, B and C; and Methods 313 A and B set forth in Title 40 CFR Part 63, Appendix A, which have been incorporated by reference in Chapter 4.

(34) Determination of halogenated solvent cleaning emissions. Emissions in conjunction with Title 40 CFR Part 63, Subpart T—National Emission Standards for Halogenated Solvent Cleaning shall be determined using Method 307 set forth in Title 40 CFR Part 63, Appendix A, which has been incorporated by reference in Chapter 4.

(35) Determination of emissions from waste media. Emissions from waste media shall be determined using Method 301, Method 304A, Method 304B, or Method 305 set forth in Title 40 CFR Part 63, Appendix A, which have been incorporated by reference in Chapter 4.

(36) Determination of beryllium emissions. Beryllium emissions shall be determined using Method 103 and Method 104 set forth in Title 40 CFR Part 61, Appendix B, which have been incorporated by reference in Chapter 4.

(37) Determination of vinyl chloride emissions. Vinyl chloride emissions shall be determined using Method 106, Method 107, and Method 107A set forth in Title 40 CFR Part 61, Appendix B, which have been incorporated by reference in Chapter 4.

(38) Determination of arsenic emissions. Arsenic emissions shall be determined using Method 108, 108A, 108B, and 108C set forth in Title 40 CFR Part 61, Appendix B, which have been incorporated by reference in Chapter 4.

(39) Determination of polonium emissions. Polonium-210 emissions from stationary sources shall be determined by Method 111 set forth in Title 40 CFR Part 61, Appendix B, which has been incorporated by reference in Chapter 4.

(40) Any method of stack sampling in accordance with good professional practice approved by the director may be used. Stack sampling methods promulgated before the effective date of this ordinance by the U.S. Environmental Protection Agency for specified air contaminant sources are considered to be acceptable equivalent methods.

(d) Where any specific test method requires quality assurance audit samples and the audit result does not validate the source's sample within the specified parameters, the source must retest the stack test until such time as the audit result does validate the sample within the specified parameters; except that the director may waive retesting if the source's stack test sample is in compliance with this chapter even if not validated within the specified quality assurance parameters.

(e) Each owner or operator of an air monitoring network required by the director shall submit in writing to the director a Quality Control/Quality Assurance Plan for approval prior to commencing air monitoring. This plan shall be reviewed and approved prior to start-up of new monitoring networks or whenever any significant change is made to an existing network.

[*New: T.A.R. 1200-3-12-.02(3)*]

(f) All ambient air monitoring data generated by continuous operating monitors shall be submitted on magnetic media in a format acceptable to the director. All ambient air monitoring data generated by intermittent sampling techniques shall be submitted in a format acceptable to the director.

[*New: T.A.R. 1200-3-12-.02(4)*]

(g) *Sampling, Recording and Reporting Required for Part 70 Sources.*

(1) For any Part 70 source, as defined in Section 4-53, the provisions of this Section 4-3(g) shall also apply.

(2) The director is authorized to require by permit condition any periodic or enhanced monitoring, recording and reporting that the director deems necessary for the verification of the source's compliance with the applicable requirements, as defined in Section 4-53.

a. Monitoring may include, but is not limited to: source testing; in-stack monitoring; process parameter monitoring of material feed rates, temperature, pressure differentials, power consumption or fuel consumption; chemical analysis of feed stocks, coatings or solvents; ambient monitoring; visible emissions evaluations; control equipment performance parameters of pressure differentials, power consumption, air or liquid flow rates or amount of air contaminants collected for disposal; air contaminant leak detection tests from process or control equipment; and any other such monitoring that the director may prescribe.

1. The monitoring must be conducted in a manner acceptable to the director. This includes, but is not limited to: sampling methods, analytical methods, sensor locations and frequency of sampling.

2. The monitoring method must have at least a ninety-five percent (95%) operational availability rate to prove compliance directly or indirectly with the applicable

requirements unless otherwise stipulated by the director. Ambient air monitors shall have their minimum operational availability rates prescribed by Section 4-3. Missing data in excess of these levels shall be grounds for enforcement action.

b. Recordkeeping may include handwritten or computerized records and shall be kept in accordance with the manner approved by the director. The director, or an employee of the Bureau authorized by the director, shall have the authority to inspect the records during reasonable hours at the place where such records are kept. The owner or operator of the Part 70 source must provide copies of the records to the Director upon request. If the records are computerized, the source may provide them to the director in an electronic format compatible with the Bureau's electronic data processing equipment for initial review. Upon discovery of electronic data that may reveal noncompliance, the director shall request hard copy excerpts documenting the noncompliance, and the owner or operator shall comply with the request. All electronic submittals shall be in "read only" format such that the integrity of the recorded submittal will be maintained and cannot be written over with different electronic data.

1. In the absence of a specific recordkeeping procedure, it is the general duty of a person required to keep the records required under this Section 4-3(g) in such order that compliance with the applicable requirement can be readily ascertained.

(3) Reporting shall be in the manner prescribed by the director in the Part 70 permit.

(4) Any report submitted to the director shall be signed by a responsible official consistent with the provisions of Article III (Part 70 Source Regulation and Permits).

(Code 1986, § 4-3; Ord. No. 10277, § 2, 8-15-95; Ord. No. 10297, § 1, 10-3-95; Ord. No. 10786, §§ 2—18, 10-27-98; Ord. No. 13998, §§ 5—13, 6-27-23)

Sec. 4-4. Penalties for violation of chapter, permit or order.

(a) Any person who violates or fails to comply with any provision of this chapter, any order of the board or of the Director; or who makes any false material statement, representation, or certification in, or omits material information from, any record, report, plan or other document required either to be filed or submitted or maintained pursuant to this chapter; or who falsifies, tampers with, renders inaccurate, or fails to install any monitoring device or method required to be maintained or followed under this chapter; or fails to pay a fee established under this chapter; commits a misdemeanor and, upon conviction, is punishable as provided in Tennessee Code Annotated. For the prosecution of criminal action, the Chattanooga-Hamilton County Air Pollution Control Board and the Director shall follow and comply with the provisions of T.C.A. § 68-201-112 and shall notify the District Attorney General of the violation. Any person who violates or fails to comply with any provision of this chapter who is cited to city court by the board or Director and the city judge has issued process on the complaint of the board or Director shall be subject to a fine of fifty dollars ($50.00) for each violation and any costs imposed by the court.

(b) Each separate violation shall constitute a separate offense and upon a continuing violation each calendar day or portion thereof of violation shall constitute a separate offense.

(c) In addition to the fines provided in paragraph (a) of this section, any person who violates or fails to comply with any provision of this chapter, including any fee or filing requirement; or any duty to allow or carry out inspection, entry, or monitoring activities; or who violates the terms and conditions of any permit or certificate of operation issued pursuant to the provisions of this chapter; or who violates any order of the board or of the director, shall be subject to a civil penalty of up to twenty-five thousand dollars ($25,000.00) per separate violation, as hereinafter provided, to be imposed by the board after hearing, or opportunity for hearing. Provided, however, that the board may, in its discretion and for good cause shown, reduce the amount of a civil penalty or suspend the payment of all or part of the civil penalty imposed.

Upon a civil penalty assessed by the board or other order of the board becoming final, the board may institute in the name of the board a civil action in either circuit or chancery court to enforce the order of the board and/or to recover the amount of the civil penalty, plus interest, from the date of the assessment of the penalty. In imposing such civil penalty, the board shall give due consideration to all pertinent factors as justice may require, including, but not necessarily limited to:

(1) The character and degree of injury to, or interference with, the protection of the health, general welfare and physical property of people;

(2) The social and economic value of the air pollutant source;

(3) The technical practicability and economic reasonableness of reducing or eliminating the emission of air pollutants;

(4) The economic benefit gained by the air pollutant source through any failure to comply with the provisions of this chapter or any permit, certificate, or order issued pursuant to the provisions of this chapter;

(5) The amount or degree of effort put forth by the air pollutant source to attain compliance;

(6) Any prior violations of this chapter, violations of orders of the board or director, or violations of conditions imposed upon any permit, certificate, or variance and payment by the violator of penalties previously assessed for the same violation;

(7) The type and character of a violation, including the duration of the violation as established by any credible evidence, and the extent to which the same is in excess of the permissible limits or permissible activity or action;

(8) The past history of pollution control efforts in regard to the taking of appropriate action to control emissions or abate pollution on the part of the person found to be in violation or others subject to entry of any order of the board; and

(9) The size of the business and the economic impact of the penalty on the business. The plea of financial inability to prevent, abate or control air pollution by any person shall not be a valid defense to liability for a violation of any provision of this chapter. [T.C.A. 68-201-106 and 68-201-116(c); Clean Air Act § 113(e)]

(d) In addition to the fines provided for in paragraph (a) of this section and the civil penalties provided for in paragraph (c) of this section, any person who violates or fails to comply with any provision of this chapter, who violates or fails to comply with the terms and conditions of any permit or certificate of operation issued pursuant to the provisions of this chapter, or who violates any order of the board or of the director, shall be liable for any damages to the board, any unit of local government, or any fire department including the Tennessee Division of Forestry and volunteer fire departments resulting therefrom. Damages to the board, any unit of local government, or any fire department including the Tennessee Division of Forestry and volunteer fire departments, may include any expenses incurred in investigating or enforcing this chapter; in removing, correcting, or terminating the effects of air pollution as well as government-incurred damages or clean-up expenses caused by the pollution or by the violation. These damages shall be in addition to, not in lieu of, the civil penalty provided for above. [T.C.A. 68-201-116(c)]

(e) The amount of the civil penalty to be imposed by the board, pursuant to subsection (c) and subsection (d) of this section, shall in no event exceed the amount of twenty five thousand dollars ($25,000.00) for each separate violation occurring. In determining the amount of a penalty to be imposed or the type and character of any other order to be entered by the board, the board may give due consideration to pertinent facts including, but not necessarily limited to, the factors listed in section 4-4(c).

(f) In addition to the civil penalties provided in subsections (c) and (d) of this section, the board may order that any person who violates any provision of this chapter, who violates the terms and conditions of any permit or certificate of operation issued pursuant to the provisions of this chapter, or who violates any order of the board, shall cease and desist the operation, use or activity which resulted in such violation.

(g) In addition to the civil penalties provided for in subsections (c) and (d) of this section, the board may order that such person cease and desist from the use of the equipment, activity or other source of air contaminant; or the board may enter a conditional cease and desist order; and such order may include a reasonable delay during which to correct the source of violation.

(h) The liabilities which shall be imposed upon violation of any provision of this chapter, upon violation of the terms and conditions of any permit or certificate of operation issued pursuant to the provision of this chapter, or upon violations of the provision of this chapter, or upon violations of any order of the board, may not be imposed on account of any violation caused by an act of God, war, strike, riot or other force majeure.

(i) Action pursuant to this section shall not be a bar to enforcement of this chapter, or enforcement of orders made by the director or the board pursuant to this chapter, by injunction to enjoin any violation of any requirement of this chapter, including conditions of a permit or certificate of operation, without the necessity of a prior revocation of the permit or certificate of operation, or other appropriate remedy, and the board shall have power to institute and maintain in the name of the board any and all enforcement proceedings. The engaging in any activity in violation of a permit or certificate of operation where that activity is presenting an imminent and substantial endangerment to the public health, welfare or environment may be restrained and enjoined by an action of the appropriate court of record.

(j) The burden of proof requirement on any enforcement hearing or action before the board shall be that which is applicable to civil, and not criminal, proceedings.

(k) An additional fee of 5.0 percent of the outstanding amount, compounded monthly, shall be assessed for any fine, civil penalty, damages amount, or enforcement cost that has not been paid by thirty (30) days after the due date that is indicated on the corresponding invoice. Said fee shall be collected by the Bureau and remitted to the City of Chattanooga finance officer as fiscal agent for the Board.
(Code 1986, § 4-4; Ord. No. 10277, § 3, 8-15-95; Ord. No. 13221, § 2, 9-19-17; Ord. No. 14324, § 1, 2-17-26)

Sec. 4-5. Limitations of chapter.

This chapter shall not:

(1) Abridge, limit, impair, create, enlarge or otherwise affect substantively or procedurally the right of any person to damages or other relief on account of injury to persons or property and to maintain any action or other appropriate proceeding therefor;

(2) Grant to the board any jurisdiction or authority with respect to air contamination existing solely within commercial and industrial plants, works or shops;

(3) Affect the relations between employers and employees with respect to or arising out of any condition of air contamination or air pollution;

(4) Supersede or limit the applicability of any law or ordinance relating to sanitation, industrial health, or safety;

(5) Apply to locomotive engines or steamboat engines operated solely for recreational, educational or historical purposes; provided, however, that the limitation of this subsection (5) shall not apply to nuisance and enforcement of nuisance provisions of this chapter.

(Code 1986, § 4-5)

Sec. 4-6. Air pollution control board; bureau of air pollution control; persons required to comply with chapter.

(a) *Air pollution control board.*

(1) There is hereby created the Chattanooga-Hamilton County Air Pollution Control Board, hereinafter referred to as "the board," to be composed of ten (10) members, three (3) of whom are to be appointed by the county mayor and confirmed by the county board of commissioners; three (3) of whom are to be appointed by the mayor of the city, and confirmed by the city council; three (3) of whom are to be appointed jointly by the county mayor and the mayor of the city and confirmed by both the county board of commissioners and the city council. The terms of members shall be four (4) years. Whenever a vacancy occurs, the vacancy shall be filled for the unexpired term of the same member as the original appointment. If a member of the board unjustifiably fails to attend three (3) consecutive regular meetings, the chairman of the board may notify in writing the mayor and city council if appointed by the mayor, or county mayor and county board of commissioners if appointed by the county mayor, or both if appointed jointly. The mayor or county mayor or both shall immediately request the resignation of such board member and a new board member shall be appointed promptly to fill the vacancy. The administrator of the Chattanooga-Hamilton County Health Department or their designated representative shall be an ex-officio voting member; provided, however, that if the administrator of the Chattanooga-Hamilton County Health Department desires to designate a representative such designation shall be made on an annual basis and in writing prior to June thirtieth of each year, and such designated representative shall serve as the ex-officio member in the place of the administrator of the Chattanooga-Hamilton County Health Department during the year for which that person has been designated by the administrator of the Chattanooga-Hamilton County Health Department. Provided further, that should the designated representative resign or otherwise terminate their employment with the Chattanooga-Hamilton County Health Department such shall terminate their appointment to and service upon, the board.

(2) The members of the board shall have the following qualifications: They shall be residents of the county. Industry may have no more than three (3) members active or retired, of whom no more than one (1) shall be from the same major two-digit grouping as defined by the Standard Industrial Classification Manual (1987) of the United States Department of Commerce. The chairman of the board shall have the right to vote on all matters. Members shall be selected for merit without regard to political affiliation; the mayor of the city and county mayor in their appointments shall select persons for their ability and all appointments shall be of such nature as to aid the work of the board, to inspire the highest degree of confidence and cooperation in furthering the policy of this chapter. The appointing authority (or authorities) shall, in making an appointment, assure that the membership of the board shall have at least a majority of members who represent the public interest and do not derive any significant portion of their income from persons subject to permits or enforcement orders under this chapter. Any member of the board who has any conflict of interest or potential conflict of interest shall make adequate disclosure of it and abstain from voting on matters related to it.

(3) The board shall select annually a chairman, vice-chairman and secretary from among its members as officers; each officer shall have the right to vote on all matters and shall hold office until the expiration of the term for which elected and thereafter until his successor has been elected. The board shall hold at least two (2) regular meetings each year and such additional meetings as the chairman deems desirable, at a place within this county and time to be set by the chairman upon written request of any four (4) members. Six (6) members shall constitute a quorum.

(4) All members of the board shall serve without compensation but shall receive their actual expenses incurred in attending meetings of the board and the performance of any duties as members or by direction of the board.

(5) The board may employ and discharge such employees and consultants as may be necessary for the administration of this chapter with the approval of the mayor, county mayor and chairman of the board or with the approval of any two (2) of such officials. Subject to any applicable restrictions contained in law all departments and agencies of the county shall, upon request, assist the board in the performance of its duties, with or without charge. The board may compensate such other agencies for services.

(b) *Bureau of air pollution control.* The bureau of air pollution control, hereinafter referred to as "the bureau," shall be headed by a director appointed by the board, subject to the approval of the mayor, county executive and chairman of the board or with the approval of any two (2) of such officials. The bureau shall administer this chapter under the overall supervision of the board and shall provide, by rules consistent with law, for the performance by the employees of any act or duty necessary or incidental to the administration of this chapter. No employee shall engage in any business, transaction, or professional activity which is a conflict of interest or a potential conflict of interest with the performance of duties in the public interest on behalf of the board. Any applicant for employment shall, in submitting the application for employment and prior to employment, make a full disclosure of any conflicts or potential conflicts of interest with the work of the bureau which the applicant may have.

(c) *Persons required to comply with chapter.* Persons responsible for compliance with this chapter and who are liable for violation of this chapter shall include, but not necessarily be limited to, all persons owning, occupying, operating, in charge of or in control of any premises, equipment, installations or operations from which or as a result of which any violation of this chapter shall occur whether such persons be proprietor, owner, lessee, tenant, manager, operator or in charge of such premises, equipment, installations or operations, and further, any of the foregoing who having a reasonable opportunity to do so should fail to take all reasonable and necessary steps to terminate or abate any condition or operation which causes or from which arises a violation of this chapter shall be deemed to be in violation of this chapter. Any one (1) or more of the foregoing persons shall be held individually and jointly responsible for compliance herewith and shall be jointly and severally liable for violation hereof.
(Code 1986, § 4-6; Ord. No. 9654, § 2, 1-6-92; Ord. No. 10277, §§ 4, 5, 8-15-95; Ord. No. 13221, § 3, 9-19-17)

Cross reference—Administration generally, Ch. 2.

Sec. 4-7. Powers and duties of the board; delegation.

(a) In addition to any other powers otherwise conferred upon it by law, the board shall have power to:

(1) Recommend from time to time to the city council that it adopt, promulgate, amend and repeal provisions of this chapter; provided, however, that prior to making such recommendations a public hearing shall be held on such proposed changes with adequate advance public notice of such hearing;

(2) Hold hearings relating to any aspect of or matter in the administration of this chapter;

(3) Make such determinations and issue such orders as may be necessary to effectuate the purposes of this chapter and enforce the same by all appropriate administrative and judicial proceedings;

(4) Retain, employ, provide for and compensate, within appropriations available therefor, such consultants, assistants, deputies, clerks and other employees including legal counsel, on a full- or

part-time basis as may be necessary to carry out the provisions of this chapter and prescribe the times at which they shall be appointed and their powers and duties consistent with section 4-6 of this chapter;

(5) Through its bureau, determine by means of field studies and sampling the degree of air contamination and air pollution in the city and various areas therein;

(6) Recommend ambient air quality standards for the city;

(7) Hold hearings upon appeals from orders of the director, or from the grant or denial by the director of permits, or from any other actions or determinations of the director hereunder for which provision is made for appeal;

(8) Institute in the name of the city in the circuit court or the chancery court of the county legal proceedings to compel compliance with any final order or determination entered by the board or the director;

(9) Settle or compromise in its discretion, with the approval of the city attorney, as it may deem advantageous to the city and in keeping with the purpose and spirit of this chapter, any suit for recovery of any penalty or for compelling compliance with the provisions of any rule or regulation issued hereunder or for compelling compliance with any order or determination entered by the board or the director;

(10) Require access to records relating to emissions which cause or contribute to air contamination;

(11) Issue, suspend and revoke installation permits, temporary operating permits and certificates of operation and other permits and licenses provided for in this chapter, and in accordance with the provisions of this chapter place conditions of installation and operation upon the permits issued by the board;

(12) To provide for forfeitures and penalties for any breach of this chapter, such forfeitures and penalties to be imposed upon a violator only after hearing, or opportunity for hearing, before the board and to provide for forfeitures and penalties upon failure of a violator of this chapter to comply with any order of the board, and to bring legal actions in the name of the city in the appropriate court for the collection of such penalty or forfeiture;

(13) Promulgate techniques for the sampling of emissions from any source of air contaminants and promulgate techniques for predicting the concentration of air pollution at any point.

(14) The Chattanooga-Hamilton County Air Pollution Control Board shall act as the representative of the City of Chattanooga, Tennessee, in connection with any application to the State for the issuance of a Permit under T.C.A. §68-212-101, et seq. and/or T.C.A. §68-212-201, et seq. or State regulations promulgated pursuant thereto and shall, among other things, discharge the following responsibilities:

14.1 Review permit applications and documentation;

14.2 Participate in a community meeting (or meetings);

14.3 Participate in a public hearing (or hearings);

14.4 Act as an official representative for the City at any "community meeting";

14.5 Prepare and present to the local government recommendations for all reports allowed under the state statutes including the reports representing the interpretation of the local government of the concerns of the community;

14.6 Prepare and present within the recommendations for such report(s) draft proposed summary (or summaries) of issues that the local governing body may review for possible adoption;

14.7 Develop and recommend to local government a proposed decision to accept, reject or modify the permit application;

14.8 To consider in making the aforementioned proposal of a decision those criteria set forth in the Tennessee Statutes [T.C.A. §68-212-108(t)(2); T.C.A. §68-212-107(d)(10), etc.];

14.9 Among other things (but without limitation) to determine, and to report upon, whether or not the location, and operation of the proposed facility conforms to the Chattanooga-Hamilton County Hazardous Waste Management Plan and complies with the applicable portions of the City of Chattanooga, Tennessee, Zoning Ordinance;

14.10 Among other things (but without limitation) to determine and report upon whether or not the proposed facility meets all other criteria set forth in the applicable parts of the State statues;

14.11 To generally monitor the permit process conducted by the State and to maintain liaison with the appropriate state agency (or agencies) during the permitting process, and during the construction process, the start-up and the operation of the facility to assist local government in assuring that the local concerns expressed are adequately considered in the permit process and/or the construction and/or operating process;

14.12 Acting through the Chairman of the Air Pollution Control Board (or his/her designee) to serve as a participant for the City of Chattanooga in any community meeting(s) or any public hearing (s);

14.13 To conduct opinion polls and/or local-government public hearings and to otherwise gather the necessary data for the preparation and report to the Mayor and City Council, of the recommended interpretation of the local government of the concerns of the community and thereafter, if the Mayor and City Council concur in the interpretation, to express (on behalf of local government) the same at all appropriate times and places in the permit process;

14.14 To prepare and report to the Mayor and the City Council a recommendation of the "decision" provided for in T.C.A. §68-212-108(f)(2) of local government to "accept, reject or modify" the application; and thereafter, to express, on behalf of the City of Chattanooga, Tennessee, (or to support the Mayor and/or Chairperson of the City Council in the expression) at all appropriate times and places the decision (or the decisions) of the City of Chattanooga, Tennessee, as expressed by the City Council and/or the Mayor following the recommendation;

14.15 To monitor the State permit process, and to the full extent permissible under the law (or terms of the permit), to monitor the construction and operation of the facility to assure continuing compliance with the provisions and conditions of the permit and all applicable regulations and statutes; and to maintain close liaison and cooperation with the State of Tennessee in the discharge of the State's responsibility to monitor construction and operation of the facility; and

14.16 To carry out such other duties and responsibilities as may be assigned to it in writing by the Mayor or the City Council (or both) in connection with any application by any person, firm, corporation or other legal entity for a permit to site, construct or operate a "commercial facility" as that term is defined at T.C.A. §68-212-202 for a permit under T.C.A. §68-212-101 et seq.

(b) The board shall have the following duties with respect to the prevention, abatement and control of air pollution:

(1) Prepare and develop a comprehensive plan or plans for the prevention, abatement and control of air pollution in this city and report upon request of the mayor or chairman of the council or chairman of the board to the mayor and city council of the city on progress being made toward the prevention, abatement and control of air pollution;

(2) Encourage voluntary cooperation by persons and affected groups to achieve the purposes of this chapter;

(3) Encourage and conduct studies, investigations and research relating to air contamination and air pollution and their cause, effects, prevention, abatement and control;

(4) Collect and disseminate information and conduct educational and training programs relating to air contamination and air pollution;

(5) Advise, consult, contract and cooperate with other agencies of the state and this city, other local governments, industries, other states, interstate or interlocal agencies, and the federal government, and with interested persons or groups;

(6) Accept, receive and administer grants or other funds or gifts from public or private agencies, including the state and federal governments, for the purpose of carrying out any of the functions of this chapter. Such funds received by the board pursuant to this subdivision shall be deposited with the city finance officer and held and disbursed by him in accordance with regulations of the board. The board is authorized to purchase or otherwise procure equipment, supplies and services through the general services administration of the federal government, and, when so doing, the board need not comply with the competitive bidding procedures contained in sections 2-341 through 2-367 of this Code relative to purchases, contracts and property disposition. The board is authorized to promulgate such rules for the conduct of its business as it may deem necessary for carrying out the provisions of this chapter.

(c) The board may delegate to the director, and through him to the personnel of the bureau, any powers conferred upon the board by this section with the exception of those enumerated in subdivisions (1), (4), (6), (7) and (9) of subsection (a) of this section. The director shall report to the board at the next board meeting any penalties imposed, upon whom imposed and the amount of such penalty.
(Code 1986, § 4-7; Ord. No. 9654, § 2, 1-6-92; Ord. No. 10226, § 1, 5-23-95; Ord. No. 10786, § 62, 10-27-98; Ord. No. 13221, § 4, 9-19-17)

Sec. 4-8. Installation permit and certificate of operation.

(a) *Installation permit.*

(1) No person shall cause or allow the construction, installation, or beginning any modification, alteration or reconstruction of any fuel-burning, refuse-burning, process or air pollution control equipment or any other source, as defined in section 4-2, until a complete application, together with plans and specifications applicable to the work on the equipment and structures or buildings used in connection therewith, has been filed by the person or his agent in the office of, and has been approved by, the director and an installation permit has been issued for such construction, installation or alteration.

a. For the purposes of subsection 4-8(a), any activities listed in subsection 4-56(c)(11) due to de minimis emissions level are deemed to be insignificant activities that are not subject to the requirement to obtain an installation permit. Any activities listed in subsection 4-56(c)(12) due to size or production rate are also deemed to be insignificant activities not subject to the requirement to obtain an installation permit. These de minimis activities exemptions from permit application requirements shall not be used to avoid any emission limitations, standards, prohibitions or other requirements of Chapter 4; nor shall they be used to lower the "potential to emit," as defined in section 4-53, below "major source" thresholds, as defined in section 4-53.

(2) The plans and specifications, submitted pursuant to paragraph (a)(1) of this section, shall show the form and dimensions of the process, fuel burning, refuse burning, air pollution control or other equipment, together with the description and dimensions of the building or part thereof in which such process, fuel-burning, refuse-burning, air pollution control or other equipment is to be located; identification and description of compliance monitoring devices or activities; the

character of the fuel to be used; the maximum quantity of such fuel to be burned per hour; the kind and amount of raw or basic materials processed; the expected air pollutant emission rate; production rates and the operating requirements, including operating schedules; air pollutant concentration; air pollutant concentration; gas volume and gas temperature at each emission point; the location and elevation of each emission point relative to nearby structures and window openings; a flow diagram showing the equipment under consideration and its relationship to other processes, if any, and a general description of these processes; and any other reasonable and pertinent information that may be required by the director. The plans and specifications shall show that the room or premises in which fuel-burning, refuse-burning or process equipment is to be located is provided with adequate ventilation to provide sufficient air for the proper operation of the equipment.

(3) Maintenance or repair or physical transfer of any installed equipment within the premises of the original installation which does not change the capacity of such process or control equipment and which does not involve any change in the method of processing or increase the amount or alter the characteristics of the emission of air pollutants therefrom may be made without an installation permit. The physical transfer of any installed equipment to a location other than within the premises of the original installation shall cause said equipment to be reclassified as new equipment.

(4) The requirement for filing plans and specifications involving the installation, erection, construction, reconstruction, modification, alteration, or repair of, or addition to, any source, including any fuel- or refuse-burning equipment or process equipment or the building of a pilot plant or process, to be used in or to become part of a confidential formula, process or method used in any manufacturing operation is subject to section 4-19, upon the filing with the director of a written request for confidentiality by an owner or operator for such formula, equipment, method or process. Provided, however, that the type and emission rate of each air pollutant shall in no event be deemed to be confidential information subject to the protection of the provisions of this paragraph and must be disclosed under all circumstances; and provided further that the person claiming the protection of this paragraph shall institute and conduct a self-monitoring system and shall report the results thereof when and as required by the director. The confidentiality of such formula, equipment, method or process shall in no way relieve the person or persons responsible for the confidential formula, equipment, method or process from complying with all other provisions of this chapter.

(5) No construction, installation, modification, alteration or reconstruction shall be made which is not in accordance with the plans, specifications, and other pertinent information upon which the installation permit was issued unless prior written approval of the director is obtained.

(6) Violation of the installation permit shall be sufficient cause for the director to stop all work, and the director is hereby authorized to seal the installation. No further work shall be done until the director is assured that the condition in question will be corrected and that the work will proceed in accordance with the installation permit.

(7) *Failure to obtain installation permit.* If work which requires an installation permit is begun without having obtained an installation permit, or if work is performed other than in accordance with the plans and specifications filed with and approved by the director to obtain the installation permit, the director may grant such permit; provided, however, that the installation permit fee is doubled in all such cases. If work upon equipment which requires an installation permit under this chapter is begun without having obtained such permit, or if faulty work has been performed, the director may grant such permit, conditioned upon the removal of all faulty work; provided, however, that this provision shall not be construed as authorizing such violation.

(8) If the work authorized under the installation permit is not commenced and continued within one (1) year after the date of issuance of the installation permit, the permit shall become void and all fees shall be forfeited, unless an extension of time is warranted and granted by the director. An installation permit shall be valid for twelve (12) months after the date of its issuance. An extension of time may be granted by the director to a source that notifies the director, in writing not later than thirty (30) days before expiration of its installation permit, of the request for an extension, the reason for extension, and the duration of the requested extension.

(9) *Emergency repair.* An emergency repair other than as specified in paragraph (a)(3) of this section may be made prior to the application for an installation permit if serious consequences may result if the repair were deferred. When such repair is made, the owner or operator concerned shall notify the director on the first business day after the emergency commenced and file an application for an installation permit if such permit is otherwise required by this chapter.

(10) Upon review of the required plans and specifications, an application shall be approved or rejected within a reasonable time after it is filed in the office of the director. Upon the approval of the application and upon the payment of the prescribed fees, the director shall issue an installation permit. Issuance of an installation permit will not be construed to indicate compliance with the requirements of the building code of this municipality or any other requirement of this municipality or of the air pollution control ordinance of this municipality.

(11) An installation permit is not transferable from one (1) person to another person, nor from one (1) air pollutant source to another air pollutant source, nor from one (1) location to another location. An application for an installation permit by the new owner or operator of the new air pollutant source, or by the owner or operator of the air pollutant source at the new location, shall be required as if there had been no previous permit issued. An existing source would retain its status as an existing source. The permits contemplated by this section shall be for the control of air pollutants. This section shall apply to fuel-burning equipment, refuse-burning equipment, process equipment which causes air emissions, or any other source or equipment that has the potential to emit air pollutants and to air pollution control equipment, but nothing contained herein shall require application for, or issuance of, a permit for any overall manufacturing process provided permits are applied for, and obtained, for the foregoing items of equipment in the overall process.

[*New: T.A.R. 1200-3-9-.03(6)*]

(12) The director shall reject any application for an installation permit and shall require resubmission of an application and further tests or information if:

a. The proposed construction, installation or modification, alteration or reconstruction or the anticipated emission of air pollutants does not meet the provisions of this chapter; or

b. The proposed emission control equipment is of a type reasonably anticipated by the director, based upon tests or other available evidence, not to be adequate for its intended usage; or

c. The proposed construction, installation or modification, alteration, or reconstruction will interfere with the attainment or maintenance of an ambient air quality standard contained in Section 4-41, Rule 21.

(13) The director or a designated representative shall have the right to enter the premises and inspect the installation in progress at any reasonable time. For the purposes of this paragraph, "any reasonable time" shall mean any time construction or installation activity is being conducted at the source.

[*Formerly Section 4-8(a)(15)*]

(14) The following fee schedules shall apply to the issuance of all installation permits. The fees in these schedules may be adjusted each year, if necessary as determined by the Board, by up to the percentage, if any, by which the Consumer Price Index for All Urban Consumers (CPI-U) for the most recent completed calendar year exceeds the CPI-U for calendar year 2025. The CPI-U is compiled by the Bureau of Labor Statistics of the U.S. Department of Labor. The Board may review these fees annually to determine if they continue to meet the financial requirements of the Bureau to fulfill the activities allowed to be funded by these fees. A source shall be required to pay the required fee prior to issuance of an installation permit to that source. Said fees shall be collected by the Bureau and remitted to the City of Chattanooga finance officer as fiscal agent for the Board who shall accumulate such fees in an account dedicated to the Board for air pollution control activities.

INSTALLATION PERMITS

SCHEDULE 4-8-A-I. FUEL-BURNING EQUIPMENT

Fees shall be assessed based upon the design fuel burning rate per unit as expressed in millions of British thermal units (Btu) per hour, using gross heating values of the fuel.

Fuel Burning Rate (Million Btu per Hour)	*Fee*
0.5 to 4.99	$660.00
5 to 14.99	780.00
15 to 99.99	900.00
100 or greater	1,200.00

SCHEDULE 4-8-A-II. INCINERATORS

Fees shall be assessed based upon the design input incineration rate as expressed in pounds per hour.

Incineration Rate (Pounds per Hour)	*Fee*
Up to 200	$125.00
200 to 599	250.00
600 to 999	365.00
1,000 to 1,999	480.00
2,000 to 4,999	6000.00
5,000 to 9,999	660.00
10,000 or greater	720.00

SCHEDULE 4-8-A-III. PROCESS EQUIPMENT

Fees shall be assessed based upon the design input process weight per hour as expressed in pounds per hour.

Process Weight (Pounds per Hour)	*Fee*
Up to 999	$250.00
1,000 to 9,999	425.00

Process Weight (Pounds per Hour)	*Fee*
10,000 to 49,999	600.00
50,000 to 149,999	780.00
150,000 to 499,999	960.00
500,000 to 999,999	1,140.00
1,000,000 or greater	1,200.00

(NOTE: Examples of this type of equipment include: chemical processing equipment; crushing, grinding or milling equipment; and metal forming equipment.)

SCHEDULE 4-8-A-IV. ODOR PRODUCING EQUIPMENT

Each unit shall be assessed a fee of four hundred eighty dollars ($480.00).

(NOTE: Examples of this type of equipment include: tar and asphalt kettles, varnish and paint heating kettles, and rendering kettles.)

SCHEDULE 4-8-A-V. MISCELLANEOUS

Any article, machine, equipment or other contrivance which is not included in the preceding schedules shall be assessed a fee of four hundred eighty dollars ($480.00) per unit.

(b) (Reserved)

(c) *Certificate of Operation.*

(1) No person shall cause, suffer, allow or permit the operation of any new or modified, altered, or reconstructed fuel-burning, refuse-burning, process, or air pollution control equipment, or any equipment pertaining thereto, or any other source as defined in section 4-2 for which an installation permit was required or was issued until a certificate of operation has been issued for the source by the director. A certificate of operation is not transferable from one (1) person to another person, nor from one (1) air pollutant source to another air pollutant source, nor from one (1) location to another location. An application for a certificate of operation by the new owner or operator of the air pollutant source, shall be submitted to the Director prior to a transfer of ownership identifying the new owner and any other anticipated changes in operation. An existing source would retain its status as an existing source, except where the source has been shutdown for more than two (2) years. The director is hereby authorized to seal equipment in operation for which a certificate of operation was not obtained as required in this chapter.

[*Formerly in Section 4-8(b)(1); New T.A.R. 1200-3-9-.03(6)*]

(2) The owner or operator of any source for which an installation permit is required shall give notification to the director when the work is completed and ready for final inspection. This notification to the director shall include a description of:

a. The equipment or air pollution control equipment or activity in consideration;

b. Any air pollution control equipment connected or attached to, or serving, or served by the emission unit unless up to date information is on file with the director; and

c. Any reasonable additional information, evidence or documentation to show that the completed work is in accord with the original plans as stipulated in section 4-8(a).

[*Formerly in Section 4-8(b)(1)*]

(3) Not later than sixty (60) days after achieving the maximum production rate at which the source will be operated, and not later than one hundred fifty (150) days after initial startup of such source, and not later than one hundred fifty (150) days after issuance of the initial certificate of operation for such source, the owner or operator of such source shall complete any required performance test(s) and deliver to the director a written report of the results of such performance test(s). An extension of time may be granted by the director to a source that notifies the director, in writing not later than one hundred twenty (120) days after issuance of the initial certificate of operation for such source, of the request for an extension, the reason for extension, and the duration of the requested extension, except not to any source subject to section 4-41, Rule 15. Failure to operate successfully under test within the limitations and requirements of this chapter shall constitute sufficient grounds for the director to require that changes in the source be made; to reopen the certificate of operation for the revision of its terms and conditions or the addition of new terms and conditions; or to revoke or suspend the certificate of operation, as appropriate. Responsibility for proof and all expenses incurred in conducting the tests shall be borne by the owner or operator of such equipment, or the agent(s) of that person. The director may, if in the opinion of the director the nature of the source in consideration or the use to which it is to be put so justifies, waive the demonstration or test operation, but such waiver shall in no manner provide immunity from prosecution for violations of the other requirements of any applicable law.

[*Formerly Section 4-8(b)(2)*]

(4) The director or a designated representative shall have the right to enter the source premises to inspect the source and observe any performance test or operation of the equipment for which a certificate of operation is issued, as provided in section 4-16.

[*Formerly Section 4-8(b)(3)*]

(5) Prior to operating any source subject to section 4-8, the owner or operator shall obtain a certificate of operation issued by the director. Each owner and operator of a source that has been issued a certificate of operation shall adhere to the terms and limitations of such certificate of operation throughout its term. All emissions limitations, controls and other requirements imposed by a certificate of operation will be at least as stringent as those contained in this chapter or enforceable under this chapter. Said certificate(s) of operation shall be kept on file at the source premises and made available to bureau representatives upon request.

[*Formerly Section 4-8(b)(4)*]

[*New: federal enforceability criteria in 54 FR 27282, 6-28-89*]

(6) Each certificate of operation shall properly identify the equipment to which it pertains and shall specify the class of fuel, type of raw or intermediary material used, if any, for which the equipment and appurtenances have been designed or which have been successfully used in the operating test. The owner or operator or the agent of the owner or operator shall be responsible for notifying the director that equipment for which an initial certificate of operation has been issued has completed any required testing and is ready for permanent operation. With such notification the owner or operator or agent shall submit to the director test and operation data as required by the director for use as evidence that the equipment or source will operate in compliance with all provisions of this chapter.

[*Formerly in 4-8(c)(1)*]

(7) *Term of a Certificate of Operation.* Each initial certificate of operation shall be issued for up to a one (1) year period. Each renewal certificate of operation shall be issued for a period of up to five (5) years. Application for renewal of a certificate of operation for a source shall be made in writing upon forms furnished by the bureau not less than sixty (60) days prior to expiration of the certificate for which renewal is sought. Disclosures of information, tests and other prerequisites to

the issuance of an installation permit or initial certificate of operation may be required by the director prior to the issuance of a renewal certificate of operation. The director may refuse to renew a certificate of operation or may require further tests or information if the director determines that the equipment is not in compliance with all the provisions of this chapter. The director may renew a certificate of operation and impose special conditions upon a source that is not in full compliance with this chapter but is subject to a legally enforceable compliance schedule, or upon a source that has appealed other special conditions to the board if that source has filed a timely appeal pursuant to section 4-18. Expiration of any certificate of operation terminates the source's right to operate any equipment or process previously covered by that certificate of operation, except where expiration has occurred due to delay on the part of the Bureau.

[*Formerly in 4-8(c)(1)*]

(8) *Sampling and Testing.*

a. Authorization. Whenever the director has reason to believe that the emission limits required by this chapter are being violated by an existing source, the director may require the owner to conduct or to have conducted at the owner's expense tests to determine the emission level of specific air pollutants. The director may require the applicant for an installation permit or a certificate of operation or a federally enforceable certificate of operation, at either a new or an existing source, to conduct, or to have conducted, such tests as are necessary to establish the amount of air pollutants emitted from such source. Such tests shall be conducted in a manner approved by the director. The director shall be notified in writing of any testing at least thirty (30) days prior to such testing, and the director or a representative of the director shall be permitted to witness any testing. The director may conduct tests of air pollution emissions from any source.

[*Formerly 4-8(c)(2)a.; New T.A.R. 1200-3-10-.01)*]

b. Test openings and Access, Scaffolding and Facilities.

1. Existing Sources. When tests of existing equipment are deemed necessary by the director and the director elects to conduct such test himself or have his representative conduct such testing the owner shall provide, at no expense to the bureau, reasonable and necessary openings in stacks, vents, and ducts along with safe and easy access thereto including a suitable power source to the point of testing for proper determination of the level of air pollutant emissions and other pertinent facilities as requested by the director. Such facilities may be either permanent or temporary, at the discretion of the owner subject to these provisions; and shall be suitable for determination consistent with the emission limits established in this chapter; and shall comply with all laws and regulations concerning safe construction of, and safe practice in connection with such facilities; provided, however, that if the owner elects to provide temporary facilities then in the event future tests are desired by the director the permittee shall, at no expense to the bureau, provide further facilities when requested to do so by the director. [*Formerly 4-8(c)(2)b.; New T.A.R. 1200-3-10-.01)*]

2. New Facilities. When tests of new equipment or sources are deemed necessary by the director and the director elects to conduct such test himself or have his representative conduct such testing the owner shall provide, at no expense to the bureau, reasonable and necessary openings in stacks, vents, and ducts along with safe and easy access thereto including a suitable power source to the point of testing for proper determination of the level of air pollutant emissions and other pertinent facilities as requested by the director. Such facilities may be either permanent or temporary, at the discretion of the owner subject to these provisions; and shall be suitable for

determination consistent with the emission limits established in this chapter; and shall comply with all laws and regulations concerning safe construction of, and safe practice in connection with such facilities; provided, however, that if the owner elects to provide temporary facilities then in the event future tests are desired by the director the permittee shall, at no expense to the bureau, provide further facilities when requested to do so by the director. The owner or operator shall provide, for any stack or duct at a new source, adequate sampling facilities as follows:

(i) Sampling ports of a size, number, and location as the director may require;

(ii) Safe access to each port; and

(iii) A suitable power source to the point of testing for proper determination of the level of air pollutant emissions.

(*New T.A.R. 1200-3-10-.01*)

3. Periodic Testing. The director may require the owner to conduct or to have conducted periodic tests as are necessary to establish the amount of air pollutants emitted from the source. The nature, extent and frequency of such required testing shall be specified in the certificate of operation. Such tests shall be made at the expense of the owner and shall be conducted in a manner approved by the director. The director shall be supplied with such data as stipulated in the certificate of operation or federally enforceable operating permit.

(*New T.A.R. 1200-3-10-.01*)

c. Bureau test. Nothing in this chapter concerning tests conducted by and paid for by any owner or authorized agent of the owner shall be deemed to abridge the rights of the director or a representative of the director to conduct separate or additional tests if the director so requires on behalf of the board or the bureau of air pollution control at the bureau's expense, except regarding test openings as discussed in paragraph (c)(8)b. of this section, covering test openings and access. [*Formerly 4-8(c)(2)c.*]

d. Cost of tests other than section 4-8(c)(8)b.3. Periodic Testing. The owner or operator is liable for the cost of initial tests of any equipment and tests resulting from any change in the activity, equipment, methods or conditions of operation of the source. Initial tests will include all testing performed for the purpose of demonstrating compliance with this chapter for installation permits and for any certificate of operation. The data obtained during any such testing shall be made available to the director and to the owner. [*Formerly 4-8(c)(2)d.; New T.A.R. 1200-3-10-.01*]

e. Methods and procedures. Sampling and analytical determinations to ascertain compliance with this chapter shall be made in accordance with methods and procedures specified in section 4-3. [*Formerly 4-8(c)(2)e.*]

(9) When a certificate of operation is refused, suspended, revoked, or has expired, the director is authorized to seal the process or control equipment until the owner or operator complies with the provisions of this chapter, and no person shall operate any equipment which requires a certificate of operation until such certificate is obtained. [*Formerly 4-8(c)(3)*]

(10) The director shall have authority to require owners and operators of stationary sources to install, maintain and use emission monitoring devices and to make periodic reports to the director on the nature and amounts of emissions from such stationary sources. The director shall have authority to make such data available to the public as reported and as correlated with any applicable emission standards or limitations. [*Formerly 4-8(c)(4)*]

(11) *Federally Enforceable Certificates of Operation.* All requirements and provisions of this chapter which are applicable to sources issued certificates of operation are also applicable to sources

issued federally enforceable certificates of operation, and such requirements are cumulative. A federally enforceable certificate of operation may be applied for and issued under the requirements of section 4-8(c)(11) only after section 4-8(c)(11) has been approved by U.S. EPA into the State Implementation Plan. This municipality retains the authority to designate from time to time which sources or source categories, in addition to those Part 70 sources seeking to qualify themselves for synthetic minor source status, shall be allowed or required to obtain federally enforceable certificates of operation under section 4-8(c)(11). In addition:

a. The owner and operator of a source that has been issued a federally enforceable certificate of operation shall adhere to its terms and limitations throughout the term of the certificate of operation and any renewal or revision of it. This requirement of adherence shall be legally enforceable, and a violation of same shall constitute a violation of this chapter.

b. Nothing in section 4-8(c)(11) shall be construed to require that a certificate of operation be federally enforced. Nothing in section 4-8(c)(11) shall be construed to impede or impair enforcement of a federally enforceable certificate of operation under other provisions of this chapter or state or federal law. It is the declared legislative intent of this municipality to recognize that any part of this municipality's air pollution control ordinance that is an EPA-approved part of the state implementation plan is also federally enforceable, subject to the provisions and limitations of the federal Clean Air Act; and that any permit or certificate of operation issued under any other part of the air pollution control ordinance of this municipality and any requirement or limitation contained in such ordinance may be enforced federally to the extent that federal law provides for such enforcement. A permit issued under this section 4-8(c)(11) does not authorize or allow a relaxation of any otherwise applicable federal requirements.

c. The director or the board, in issuing a federally enforceable certificate of operation, shall assure that all emissions limitations, controls and other requirements imposed by such certificate of operation are at least as stringent as any other applicable limitations and requirements contained in, or enforceable under, the State Implementation Plan. The director or the board shall not issue a federally enforceable certificate of operation that waives or makes less stringent any limitations or requirements contained in or issued pursuant to the State Implementation Plan or that are otherwise federally enforceable under it.

d. The limitations, controls and requirements in a federally enforceable certificate of operation shall be permanent, quantifiable and otherwise enforceable as a practical matter.

e. Any federally enforceable certificate of operation issued to a synthetic minor source shall also contain a statement of basis comparing the source's potential to emit with the synthetic limit to emit and a description of the procedures to be followed that will ensure that the limit on which the director or the board bases a determination that a source is a synthetic minor source and not a major source, as those terms are defined in section 4-53, is not exceeded.

f. Nothing in section 4-8(c)(11) shall be construed to prohibit enforcement of a federally enforceable certificate of operation under the general enforcement provisions of this ordinance or of state or federal law.

g. The Director shall give notice to U.S. EPA and the general public at least thirty (30) days in advance of a public hearing on the issuance of a proposed federally enforceable certificate of operation and shall provide at least thirty (30) days for public comment. A proposed change to the potential to emit air pollutants or hazardous air pollutants of any source previously determined by the Board to be a synthetic minor source and issued one (1) or more federally enforceable certificates of operation that have not yet expired, is not subject to subsequent public participation requirements regarding the proposed change so long as

the proposed change would not result in a net increase in the potential-to-emit of any air pollutant or any hazardous air pollutant, as determined by the Director. The Director shall provide U.S. EPA with a copy of a proposed certificate of operation intended to be federally enforceable at the same time notice is provided. Such notice shall be given by publication as an electronic notice (e-notice) on the Bureau website for the duration of the public comment period and by other means designated by the Director, if necessary. Such advance notice must be given and a public hearing must be held prior to issuance of any federally enforceable certificate of operation to any source. The Director shall, in a timely manner, provide U.S. EPA a copy of the final certificate of operation intended to be federally enforceable.

h. If U.S. EPA deems such a proposed certificate of operation to fail to qualify as a federally enforceable certificate of operation, then the director shall notify the applicant of the position taken by U.S. EPA and either (1) the applicant may resubmit the application in amended or modified form for further processing under this section 4-8(c)(11) or (2) the director may issue a certificate of operation stating on its face that it is deemed not be federally enforceable.

i. A source that has submitted a written request for synthetic minor source status to the director by September 1, 1995, with apparently approvable proposed physical or operational limitations on its potential to emit, or both, including a statement of basis comparing the source's potential to emit with its proposed synthetic limit to emit and a description of the procedures to be followed that will ensure its proposed limitations are not exceeded, will remain subject to the fees set forth in § 4-8 and not to the Part 70 Operating Permit Program fees set forth in § 4-60. If the board or the director determines after November 1, 1995, that such source is not eligible for synthetic minor source status, such source shall be liable for Part 70 Operating Permit Program fees set forth in § 4-60 retroactive to November 1, 1995, with interest pursuant to *Tennessee Code Annotated* Section 47-14-121.

(12) *Fees for Certificates of Operation.*

a. *Fees.* A source shall be required to pay the required fee prior to issuance of any certificate of operation to that source and to maintain the certificate of operation, once issued.

b. *Initial Certificate of Operation Fees.* The following fee schedules shall apply to the initial issuance of any certificate of operation. The fees in these schedules may be adjusted each year, if necessary as determined by the Board, by up to the percentage, if any, by which the Consumer Price Index for All Urban Consumers (CPI-U) for the most recent completed calendar year exceeds the CPI-U for calendar year 2025. The CPI-U is compiled by the Bureau of Labor Statistics of the U.S. Department of Labor. The Board may review these fees annually to determine if they continue to meet the financial requirements of the Bureau to fulfill the activities allowed to be funded by these fees. Said fees shall be collected by the Bureau and remitted to the City of Chattanooga finance officer as fiscal agent for the Board, who shall accumulate such fees in an account dedicated to the Board for air pollution control activities.

INITIAL CERTIFICATES OF OPERATION

SCHEDULE 4-8-C-I. FUEL-BURNING EQUIPMENT

Fuel Burning Rate (Million Btu per Hour)	*Fee*
0.5 to 4.99	$900.00

Fuel Burning Rate (Million Btu per Hour)	*Fee*
5 to 14.99	1,020.00
15 to 99.99	1,200.00
100 or greater	1,380.00

SCHEDULE 4-8-C-II. INCINERATORS

Incineration Rate (Pounds per Hour)	*Fee*
Up to 200	$420.00
200 to 599	480.00
600 to 999	540.00
1,000 to 1,999	600.00
2,000 to 4,999	660.00
5,000 to 9,999	720.00
10,000 or greater	780.00

SCHEDULE 4-8-C-III. PROCESS EQUIPMENT

Process Weight (Pounds per Hour)	*Fee*
Up to 999	$540.00
1,000 to 9,999	720.00
10,000 to 49,999	900.00
50,000 to 149,999	1,080.00
150,000 and greater	1,200.00

SCHEDULE 4-8-C-IV. ODOR PRODUCING EQUIPMENT

Each unit shall be assessed a fee of four hundred eight dollars ($480.00).

SCHEDULE 4-8-C-V. MISCELLANEOUS

Each unit shall be assessed a fee of four hundred eight dollars ($480.00).

c. *Renewal Certificate of Operation Annual Fees.* A source that has applied for renewal of one or more certificates of operation shall pay the required annual fee prior to issuance of any renewal certificate(s) of operation to it. Subsequent to issuance of any renewal certificate(s) of operation to a source, the source shall pay the required annual fee throughout the term of the permit, not later than the anniversary of issuance of any renewal certificate(s) of operation. The following annual fee schedules shall apply to the renewal of any certificate of operation. The fees in these schedules may be adjusted each year, if necessary as determined by the Board, by up to the percentage, if any, by which the Consumer Price Index for All Urban Consumers (CPI-U) for the most recent completed calendar year exceeds the CPI-U for calendar year 2025. The CPI-U is compiled by the Bureau of Labor Statistics of the U.S. Department of Labor. The Board may review these fees annually to determine if they continue to meet the financial requirements of the Bureau to fulfill the activities allowed to be funded by these fees. Said fees shall be collected by the Bureau and

remitted to the City of Chattanooga finance officer as fiscal agent for the Board, who shall accumulate such fees in an account dedicated to the Board for air pollution control activities.

RENEWAL CERTIFICATES OF OPERATION

SCHEDULE 4-8-C-VI. FUEL-BURNING EQUIPMENT

Fuel Burning Rate (Million Btu per Hour)	*Fee*
0.5 to 4.99	$420.00
5 to 14.99	480.00
15 to 99.99	540.00
100 or greater	620.00

SCHEDULE 4-8-C-VII. INCINERATORS

Incineration Rate (Pounds per Hour)	*Fee*
Up to 200	$300.00
200 to 599	320.00
600 to 999	365.00
1,000 to 1,999	438.00
2,000 to 4,999	480.00
5,000 to 9,999	530.00
10,000 or greater	575.00

SCHEDULE 4-8-C-VIII. PROCESS EQUIPMENT

Process Weight (Pounds per Hour)	*Fee*
Up to 999	$300.00
1,000 to 9,999	420.00
10,000 to 49,999	540.00
50,000 to 149,999	660.00
150,000 to 499,999	780.00
500,000 to 999,999	900.00
1,000,000 or greater	1,020.00

SCHEDULE 4-8-C-IX. ODOR PRODUCING EQUIPMENT

Each unit shall be assessed a fee of three hundred dollars ($300.00).

SCHEDULE 4-8-C-X. MISCELLANEOUS

Each unit shall be assessed a fee of three hundred dollars ($300.00).

(d) *General provisions.*

(1) The issuance by the director or board of any installation permit or certificate of operation shall not be held to exempt the person to whom the permit or certificate of operation was issued, or any

other person subject to this chapter, from prosecution for any violation of any provisions of this chapter, or from action under any other provisions of this chapter or any other provisions of law. [*Formerly 4-8(d)(2)*]

(2) No person shall cause, suffer, allow or permit the operation of any equipment or installation subject to the provisions of this chapter in violation of an authorized seal of said equipment or installation. [*Formerly 4-8(d)(3)*]

(3) The provisions of this section shall not apply to fuel-burning equipment used exclusively for heating the dwellings of less than three (3) families; nor to equipment for burning gas, or number one (1) or number two (2) fuel oil, with a design heat input capacity of less than five million (5,000,000) BTU per hour (BTU/hr). [*Formerly Section 4-8(d)(4)*]

(4) *Duplicate Permits.* Duplicate permits or certificates of operation may be issued by the Director if requested by the owner or operator. A fee of seventy-five dollars ($75.00) shall be charged for issuing a duplicate installation permit or certificate of operation. A fee of three hundred dollars ($300.00) shall be charged for issuing a duplicate Part 70 operating permit. Said fees shall be collected by the Bureau and remitted to the City of Chattanooga finance officer as fiscal agent for the Board who shall accumulate such fees in an account dedicated to the Board for air pollution control activities.

(5) The schedules of fees for certificates of operation for fuel-burning equipment, incinerators, and process equipment are to be based upon rated design input of said equipment. Whenever legally enforceable limitations on operating hours or production rate are included in a certificate of operation for a source, then the schedule of fees imposed on the source is to be based on the legally enforceable limitations. [*Formerly 4-8(d)(6)*]

(6) An additional fee of 5.0 percent of the outstanding amount, compounded monthly, shall be assessed for any certificate of operation fee that has not been paid by thirty (30) days after the due date that is indicated on the corresponding invoice. Said fee shall be collected by the Bureau and remitted to the City of Chattanooga finance officer as fiscal agent for the Board who shall accumulate such fees in an account dedicated to the Board for air pollution control activities.

(7) *Administrative Amendments to a Certificate of Operation or an Installation Permit.*

a. An administrative amendment is a revision of a certificate of operation or an installation permit that:

1. Corrects typographical errors;

2. Identifies a change in the legal name, address, or telephone number of any person initially identified in the permit (but not transfer of ownership to a different party), or provides a similar minor administrative change at the source; or

3. Incorporates into the certificate of operation all applicable provisions of the installation permit.

b. The director shall take no more than sixty (60) days after receipt of a request for an administrative amendment to take final action on such request, and may incorporate such changes without giving public notice or opportunity for public comment. (*New based on concept in 40 CFR 70.7(d)*)

[*Formerly 4-8(d)(9)*]

(e) *Construction or modification permit.*

(1) Except as provided in paragraph (e)(2) of this section, the director shall not grant a permit for the construction or modification of any air contaminant source in any attainment area or unclassified area if such construction or modification will interfere with the maintenance of the air quality

standard in an area where the construction or modification has a significant impact on air quality standards or will violate any provisions of this chapter or will violate any provisions of the Tennessee Air Quality Act. If an attainment area is redesignated to nonattainment status, the terms and conditions of the installation permits and certificates of operation issued in accordance with section 4-8 of the Chattanooga Air Pollution Control Ordinance immediately preceding the effective date of the redesignation shall remain in full force and effect for those sources to which section 4-8 had applicability prior to the effective date of the redesignation, until such time as revised or additional installation permits or certificates of operation are issued to those sources with revised or additional terms and conditions that are applicable to sources in nonattainment areas.

(2) Nonattainment areas. If a nonattainment area is redesignated to attainment or unclassifiable or nonattainment status is otherwise eliminated, the requirements contained in this subsection 4-8(e)(2) shall remain in full force and effect for those sources to which this section 4-8 had applicability prior to the effective date of the redesignation. The director shall not grant a permit for construction or modification of any air contaminant source in a nonattainment area nor to any source that significantly impacts on a nonattainment area if such construction or modification will interfere with reasonable further progress in attainment of the specific air quality standards or will violate provisions of this chapter except in accordance with the following:

a. All new or modified sources shall utilize good engineering practice, as determined by the director, in designing stacks. The director will consider only stack heights that represent good engineering practice in determining whether emission control measures are sufficient.

b. All new or modified sources of criteria pollutants constructed or modified after the effective date of this provision which are not classified as major sources or major modifications shall utilize best available control technology (BACT) as determined by the director at the time of the permit application.

1. For the purposes of section 4-8(e), "major modification" is defined as follows:

(i) "Major modification" means any physical change in or change in the method of operation of a major stationary source that would result in a significant net emissions increase for any pollutant subject to regulations under this chapter.

(ii) Any net emissions increase that is considered significant for volatile organic compounds or nitrogen oxides shall be considered significant for ozone.

(iii) A physical change or change in the method of operation shall not include:

(A) Routine maintenance, repair, and replacement;

(B) Use of an alternative fuel or raw material by reason of any order under section 2(a) and (b) of the Energy Supply and Environmental Coordination Act of 1974 (or any superseding legislation) or by reason of a natural gas curtailment plan pursuant to an applicable federal statute;

(C) Use of an alternative fuel by reason of an order or rule under section 125 of the Federal Clean Air Act;

(D) Use of an alternative fuel at a steam generating unit (burning equipment of two hundred fifty million (250,000,000) BTUs per hour or larger) to the extent that the fuel is generated from municipal solid waste as determined by the Tennessee Division of Solid Waste Management;

(E) Use of an alternative fuel or raw material by a stationary source which the source was capable of accommodating before January 6, 1975, unless such change would be prohibited under a legally enforceable permit or certificate condition which was established after January 6, 1975, pursu-

ant to Title 40 CFR Part 52.21 or under regulations approved pursuant to Title 40 CFR Part 51 Subpart I or Subpart 51.166, which have been incorporated by reference in Chapter 4 or the source is approved to use under any permit or certificate issued pursuant to this paragraph;

(F) An increase in the hours of operation or in the production rate, unless such change would be prohibited under a legally enforceable permit or certificate of condition which was established after January 6, 1975, pursuant to Title 40 CFR Part 52.21 or regulations approved pursuant to Title 40 CFR Part 51 Subpart I or Subpart 51.166, which have been incorporated by reference in Chapter 4; or

(G) Any change in ownership at a stationary source.

2. For the purposes of section 4-8(e), "net emissions increase" shall have the following meaning:

(i) "Net emissions increase" means the amount by which the sum of the following exceeds zero:

(A) Any increase in actual emissions from a particular physical change or change in the method of operation at a stationary source; and

(B) Any other increases and decreases in actual emissions at the stationary source that are contemporaneous with the particular change and are otherwise creditable.

(ii) An increase or decrease in actual emissions is creditable only if it occurs between:

(A) The date five (5) years before a completed application for the particular change is submitted; and

(B) The date that the increase from the particular change occurs.

(iii) An increase or decrease in actual emissions is creditable only if the board or director has not relied on it in issuing a permit or certificate of operation for the source, under regulations approved pursuant to Title 40 CFR Part 51, Subpart I, which has been incorporated by reference in Chapter 4 which is in effect when the increase in actual emissions from the particular change occurs.

(iv) An increase in actual emissions is creditable only to the extent that the new level of actual emissions exceeds the old level.

(v) A decrease in actual emissions is creditable only to the extent that:

(A) The old level of actual emissions or the old level of allowable emissions, whichever is lower, exceeds the new level of actual emissions;

(B) It is legally enforceable at and after the time that actual construction on the particular change begins;

(C) The board or director has not relied on it in issuing any permit or certificate of operation to a new or modified air pollutant source under regulations approved pursuant to Title 40 CFR Part 51, Subpart I, which has been incorporated by reference in Chapter 4 or the board or the director have not relied on it in demonstrating attainment or reasonable further progress; and

(D) It has approximately the same qualitative significance for public health and welfare as that attributed to the increase from the particular change, considering the nature of the air pollutants to be released into the ambient air from the particular change.

3. For the purposes of section 4-8(e), "significant" means, in reference to a net emissions increase or the potential of a source to emit any of the following air pollutants, a rate of emissions that would equal or exceed any of the following rates:
   (i) Carbon monoxide: One hundred (100) tons per year (tpy)
   (ii) Nitrogen Oxides: Forty (40) tpy
   (iii) Sulfur dioxide: Forty (40) tpy
   (iv) Ozone: Forty (40) tpy of an ozone precursor
   (v) Lead: Six-tenths (0.6) tpy
   (vi) PM_{10}: Fifteen (15) tpy
4. For the purposes of section 4-8(e), "ozone precursor" means volatile organic compounds and/or nitrogen oxides. A proposed new source or a net emissions increase at an existing source in an ozone nonattainment area can be classified as major based on either VOC or NO_x emissions or both (but not in combination). That is, the determination of major must be made individually for each pollutant, since VOC and NO_x emissions cannot be added to meet the minimum level required for such a demonstration. Notwithstanding the above, NO_x shall not be considered an ozone precursor when:
   (a) Additional NO_x emissions reductions would not be expected to decrease ozone; and
   (b) The EPA Administrator determines for certain classes or categories of sources, when approving a revision of the State Implementation Plan for Tennessee, that net air quality benefits would be greater in the absence of further nitrogen oxides reductions from sources concerned.

[*New: T.A.R. 1200-3-9-.01(5)(b)1.*]

c. A new major source or major modification shall meet the lowest achievable emission rate (LAER) as determined by the director at the time of the permit application.

d. A major source or major modification shall also show that it will not interfere with reasonable further progress in attaining the ambient air quality standards by one (1) of the following methods:
   1. Banked credits.
      (i) By agreeing to control the nonattainment emissions to a rate lower than the nonattainment emissions specified as reasonably available control technology (RACT), the owner or operator of an air contaminant source has reserved the right to utilize the incremental reduction between RACT and the banked credit agreed rate (BCAR) to provide for future growth in the nonattainment area.
      (ii) The banked credit agreed rate is an emission rate more restrictive than RACT which is mutually agreed to by the director and an air contaminant source for the purpose of establishing a banked credit. This emission level is in no way related to BACT or LAER. Only sources in existence at the time of a nonattainment state implementation plan revision for an area are eligible to establish a banked credit agreed rate.
      (iii) The following limitations shall apply to the issuance of a permit for construction or modification for sources using banked credit agreed rate:
         (A) All banked credits in a given nonattainment area shall become void upon official reclassification of that area as an attainment area.

(B) An increase in pounds per hour shall be offset by a banked credit of that amount. The banked credit account will be reduced by that amount.

(C) The owner or operator shall demonstrate by air quality modeling that there is a net air quality benefit in the nonattainment area, taking into account emissions credits used to offset them.

(D) A banked credit shall not be used until the banked credit agreed rate level of control is attained by the source involved and demonstrated through a source test or through another method acceptable to the director.

(E) The banked credit agreed rate shall be contained in the state implementation plan as the legally enforceable standard for the air contaminant source. If the source electing to use banked credits must reduce emissions to achieve the banked credit agreed rate level approved a compliance schedule shall be included in the state implementation plan revision.

2. Emission offsets.

(i) For major sources, a larger than one (1) to one (1) offset of emissions of the nonattainment pollutant, based on both allowable and actual emissions, shall be employed. This offset must result in a net improvement in predicted air quality for the pollutant in the area under the influence of emissions from the new or modified major sources and ensure that reasonable further progress shall not be hindered.

(ii) All or any portions of the offsets shall be consummated at the time new source operation commences and demonstrated through a source test or through another method acceptable to the director.

(iii) The reductions shall come from sources in the emission inventory used in the approved control strategy for the nonattainment area state implementation plan revision.

(iv) The amount of the proposed reduction shall be sufficient to offset both the emission increases directly associated with the proposed source construction or modification and those emissions attributed to permitted minor sources that have come into the area since the last reasonable further progress milestone was met.

3. Construction of new major sources or major modifications that have insufficient emission offsets or banked credits to meet the requirements of paragraphs (e)(2)d.1. and (e)(2)d.2. The director may issue a construction permit or proposed new or modified sources provided the sources' emissions will not prevent reasonable further progress in the nonattainment area or will not prevent the ambient air quality standards from being met. Completed applications from sources qualifying for this provision will be processed in the order received by the bureau. (Existing sources will not be required to offset any emissions resulting from permitting of a source for which no emission offsets or banked credits were provided.)

4. Combination of the provisions of paragraphs (e)(2)d.1., (e)(2)d.2. and (e)(2)d.3. of this section.

e. A source is identified as major source for each pollutant as indicated below:

1. A major source for SO_2 is a source with uncontrolled emissions of more than one hundred (100) tons per year and allowable emissions (based on BACT) greater than any of the following:

Fifty (50) tons per year;

One thousand (1,000) pounds per day;

One hundred (100) pounds per hour.

2. A major source for carbon monoxide is a source with uncontrolled emissions of greater than one thousand (1,000) tons per year and allowable emissions (based on BACT) greater than any of the following:

   Fifty (50) tons per year;

   One thousand (1,000) pounds per day;

   One hundred (100) per hour.

3. A major source for particulate matter is any source with uncontrolled emissions of more than one hundred (100) tons per year and allowable emissions of greater than five (5) tons per year, one thousand (1,000) pounds per day, or one hundred (100) pounds per hour (based on BACT).

   Piecemeal construction is cumulative.

   When an air contaminant source's new or modified allowable emissions equal or exceed the above levels, it becomes a major source.

   "Uncontrolled emissions" as used above means the capability at maximum capacity to emit a pollutant in the absence of air pollution control equipment. "Air pollution control equipment" includes control equipment which is not, aside from air pollution control laws and regulations, vital to production of the normal product of the source or to its normal operation. Annual uncontrolled emissions shall be based on the maximum annual rated capacity of the source, unless the source is subject to enforceable permit conditions which limit the annual hours of operation. Enforceable permit conditions on the type or amount of materials combusted or processed may be used in determining the uncontrolled emission rate of a source.

f. An increase in emissions from a new or modified air contaminant source (all sources at a given plant location) is deemed to significantly impact on air quality within the nonattainment area when it contributes to air quality, in the following amounts or more:

Pollutant	*Annual*	*24-hour*	*3-hour*	*8-hour*	*1-hour*
Sulfur dioxide	1 $\mu g/m^3$	5 $\mu g/m^3$	25 $\mu g/m^3$		
Particulate matter	1 $\mu g/m^3$	5 $\mu g/m^3$			
Carbon monoxide				0.5 mg/m^3	2 mg/m^3

g. The director shall not issue a permit to any major source in or significantly impacting a nonattainment area unless all other sources owned or operated by the applicant anywhere in the state are in compliance or on an approved compliance schedule.

h. Regardless of the specific emission limitations contained in this rule, all sources identified in section 4-41, Rule 18.2 of this chapter, shall comply with the standards set pursuant to section 4-41, Rule 18.2.

i. For existing fuel-burning equipment, credit shall be based on the allowable emissions under the applicable state implementation plan for the type of fuel being burned at the time the application for an installation permit for the proposed construction or modification is filed. If the existing source commits to switch to a cleaner fuel at some future date, emissions offset credit based on the allowable (or actual) emissions of the fuel involved is not acceptable, unless the permit and subsequent permits and certificates of operation are conditioned to require the use of a specified alternative control measure which would achieve the same degree of emissions reduction should the source switch back to a dirtier

fuel at some later date. The director, or the board where appropriate, should ensure that adequate long-term supplies of the new fuel are available before granting emissions offset credit for fuel switches.

j. Emissions reductions achieved by shutting down an existing source or permanently curtailing production or operating hours below baseline levels may be credited, provided that the work force to be affected has been notified of the proposed shutdown or curtailment. Source shutdowns and curtailments in production or operating hours occurring prior to the date the new source application is filed generally may not be used for emissions offset credit. However, where an applicant can establish that it shut down or curtailed production after August 7, 1977, or less than one (1) year prior to the date of permit application, whichever is earlier, and the proposed new source is a replacement for the shutdown or curtailment, credit for such shutdown or curtailment may be applied to offset emissions from the new source.

k. All emission reductions claimed as offset credit shall be legally enforceable.

l. Procedures relating to the permissible location of offsetting emissions shall be followed which are at least as stringent as those set out in 40 CFR Part 51 Appendix S, section IV.D.

m. Credit for an emissions reduction can be claimed to the extent that the bureau, or the board where appropriate, has not relied on it in issuing any permit under regulations approved or has not relied on it in demonstrating attainment or reasonable further progress.

n. Approval to construct shall not relieve any owner or operator of the responsibility to comply fully with applicable provisions of the plan and any other requirements under local, state or federal law. At such time that a particular source or modification becomes a major stationary source or major modification solely by virtue of a relaxation in any enforcement limitation which was established after August 7, 1980, on the capacity of the source or modification otherwise to emit a pollutant, such as a restriction on hours of operation, then the requirements of this section shall apply to the source or modification as though construction had not yet commenced on the source or modification.

(f) *Building demolition or renovation permit (Asbestos).*

(1) No person shall cause, suffer, allow or permit the renovation of any facility involving the removal or disturbance of friable asbestos-containing material subject to Section 4-41, Rule 17.5, of this chapter, until an application, together with the plans and specifications required by said rule, has been filed by the person or his agent in the office of, and has been approved by, the director and a permit issued for such renovation. For the purposes of this rule, the terms "renovation" and "facility" shall have the same meaning given them in Section 4-41, Rule 17.1, of this chapter.

(2) No person shall cause, suffer, allow or permit the demolition of any facility until an application, together with the plans and specifications required by Section 4-41, Rule 17, of this chapter, has been filed by the person or his agent in the office of, and has been approved by, the director and a permit issued for such demolition. For the purposes of this rule, the terms "demolition" and "facility" shall have the same meaning given them in Section 4-41, Rule 17.1, of this chapter.

(3) The plans and specifications, filed pursuant to paragraphs (f)(1) and (f)(2) above, shall be submitted on forms approved by the director. Such application shall be filed in accordance with the time requirements set forth in Section 4-41, Rule 17.5, of this chapter. In addition, Rule 17.5 contains the standard for demolition and renovation, including notification requirements applicable to all demolition projects and to certain renovation projects.

(4) *Fees.* The following fee schedules shall apply to the issuance of permits for all demolitions or for those renovations involving friable asbestos-containing materials (ACM) subject to Rule 17.5,

except in paragraphs (f)(5) and (f)(6) below. The fees in these schedules may be adjusted each year, if necessary as determined by the Board, by up to the percentage, if any, by which the Consumer Price Index for All Urban Consumers (CPI-U) for the most recent completed calendar year exceeds the CPI-U for calendar year 2025. The CPI-U is compiled by the Bureau of Labor Statistics of the U.S. Department of Labor. The Board may review these fees annually to determine if they continue to meet the financial requirements of the Bureau to fulfill the activities allowed to be funded by these fees. If work begins on any regulated renovation or demolition without having obtained the required permit, or if work is performed other than in accordance with the plans and specifications filed with and approved by the Director to obtain the permit, the Director may grant such permit; provided, however, that the permit fee is doubled in all such cases. Fees shall be collected by the Bureau and remitted to the City of Chattanooga finance officer as fiscal agent for the Board who shall accumulate such fees in an account dedicated to the Board for air pollution control activities. Only one initial fee shall be assessed for any renovation or demolition project occurring at an installation on one contiguous site owned by the same owner within six months after receipt of the initial application where the ACM is calculated (as set forth in Section 4-41, Rule 17.5 of this chapter) in both linear feet and in square feet. When ACM is to be removed and involves calculating in both linear and square feet, the ACM footage will be summed to determine the appropriate fee from Schedule 4-8-F-II or Schedule 4-8-F-III:

SCHEDULE 4-8-F-I.

DEMOLITIONS WHERE NO ASBESTOS IS PRESENT

Fee	*$250.00 perstructure*

SCHEDULE 4-8-F-II.

DEMOLITIONS WHERE REGULATED ASBESTOS IS PRESENT

For ACM used to fireproof or insulate pipes, or to insulate any duct, boiler, tank, reactor, turbine, furnace, or structural member, including interior and exterior walls, floors, ceilings, and roofs:

Linear/Square Feet of ACM	*Fee*
160 - 299 (square feet)	$390.00 plus $250.00 per structure
260 - 299 (linear feet)	390.00 plus $250.00 per structure
300 - 499	625.00 plus $250.00 per structure
500 - 999	855.00 plus $250.00 per structure
1,000 - 1,499	1,015.00 plus $250.00 per structure
1,500 - 4,999	1,250.00 plus $250.00 per structure
5,000 and up	1,560.00 plus $250.00 per structure

SCHEDULE 4-8-F-III.

RENOVATIONS WHERE REGULATED ASBESTOS IS PRESENT

For ACM used to fireproof or insulate pipes, or to insulate any duct, boiler, tank, reactor, turbine, furnace, or structural member, including interior and exterior walls, floors, ceilings, and roofs:

Linear/Square Feet of ACM	*Fee*
160 - 299 (square feet)	390.00
260 - 299 (linear feet)	390.00
300 - 499	625.00
500 - 999	855.00
1,000 - 1,499	1,015.00
1,500 - 4,999	1,250.00
5,000 and up	1,560.00

(5) Schedule 4-8-F-I shall apply only to a demolition project in which at least twenty-five percent (25%) of one building is razed. If less than twenty-five percent (25%) of one building is being demolished, the notice required by Section 4-41, Rule 17.5 shall be required, but the fee established in Schedule 4-8-F-I shall be waived.

(6) These fee schedules shall not apply to an owner or operator who has previously certified to the bureau that all asbestos-containing materials have been removed from a building, which was confirmed by the bureau at that time, that is the subject of a subsequent notification of a demolition subject to Rule 17.5 if the owner or operator certifies, at the time of notification to the bureau, that no asbestos-containing materials were added to or placed in the building after the date of original bureau confirmation.

(g) *Public Notice Requirements.* The Bureau shall notify the public, on a monthly basis, by publication as an electronic notice (e-notice) on the Bureau website for the duration of the public comment period and by other means designated by the Director, if necessary, of any applicants seeking to obtain a permit to construct or modify an air contaminant source. Provided, however, that modifications which do not result in a net emissions increase in the potential emissions of any air pollutant or that qualify as a minor permit modification will not be subject to the notice requirements of this paragraph. The notice shall specify the general vicinity or location of the proposed source or modification, the type of source or modification, and opportunity for public comment. Comments shall be in writing and delivered to the Director within thirty (30) days after the publication of the public notice. If there is no application during a particular month, no notice shall be required for that month. The Bureau may publish the notice for a single application if the source so requests. Any costs for all public notices required to be published, including those for federally-enforceable initial certificates of operation, Part 70 major source operating permits (initial and renewal), installation (construction) permits, PSD permits, and applicable modifications of any permit, shall be assessed to the applicant in addition to the associated permit fee. Where multiple sources are included in the published notice, any costs shall be apportioned equally between or among those multiple sources. The Bureau shall be required to publish notices pursuant to this section only in those months for which an actual application has been received and which is subject to these provisions. Failure to pay these costs shall constitute a violation of this ordinance for which enforcement action may be taken
(Code 1986, § 4-8; Ord. No. 9846, § 2, 3-9-93; Ord. No. 10277, §§ 6—8, 27, 8-15-95; Ord. No. 10786, §§ 19—29, 58, 62, 10-27-98; Ord. No. 10924, §§ 1—15, 11-2-99; Ord. No. 10968, §§ 1—4, 2-8-00; Ord. No. 12054, §§ 1—7, 12-11-07; Ord. No. 13221, §§ 5—10, 9-19-17; Ord. No. 13998, §§ 14—18, 6-27-23; Ord. No. 14165, § 2, 10-29-24; Ord. No. 14324, §§ 2—6, 2-17-26)

Cross reference—Businesses, trades and occupations, Ch. 11.

Sec. 4-9. Charges for technical reports, research, computer time.

Information, circulars, reports of technical work, other reports, research and computer time prepared by, performed, or utilized by the air pollution control bureau, when supplied to other governmental agencies or individuals or groups requesting the same or when performed in conjunction with a permit or certificate application or renewal, may be charged for by the bureau in a sum not to exceed the costs of preparation and distribution of such documents or the cost of research or computer time.
(Code 1986, § 4-9)

Sec. 4-10. Records.

(a) The director shall keep in the office of the bureau all applications required under this chapter, and a complete record thereof, including a record of all permits and certificates issued. The director shall keep a record on all official business of the bureau and complaints and generally of the work done by the bureau. Records pertaining to permitted facilities shall be kept in perpetuity except for facilities which have permanently shutdown. In the case of permanently shutdown facilities, records may be destroyed after seven (7) years. Other records shall be maintained for a period of seven (7) year unless federal requirements provide for a shorter retention period. All such records shall be open for inspection by the public at all reasonable times; provided, however, that such records or other information of a confidential nature voluntarily furnished pursuant to section 4-19 shall receive the protection provided by section 4-19.

(b) The director may, at any time, require the person responsible for a source of emission subject to the provisions of this chapter to record, maintain and keep records relative to the operation of the source and emissions from the source, and may further request from such person such information, analyses or specifications as will disclose the nature, extent, quantity and degree of air contaminants as may be emitted by such source.
(Code 1986, § 4-10; Ord. No. 9171, § 4, 5-30-89; Ord. No. 13221, § 11, 9-19-17)

Sec. 4-11. General requirements.

(a) Any owner, operator or other person responsible for any permanently discontinued or dismantled equipment coming under the jurisdiction of this chapter shall report to the bureau within thirty (30) days the permanent discontinuance or dismantlement of such equipment, and to surrender any outstanding permit or the certificate of operation thereon.

(b) *Separation of emissions.* If air contaminants from a single source are emitted through two (2) or more emission points, the total emitted quantity of any contaminant, limited in this chapter, cannot exceed the quantity which would be the allowable emission through a single emission point, and the total emitted quantity of any such air contaminant shall be taken as the product of the highest concentration measured in any of the emission points and the exhaust gas volume through all emission points, unless the person responsible for the source proves the correct total emitted quantity to be within the limits established by this chapter.

(c) *Combination of contaminants prior to emission.* If air contaminants from two (2) or more sources are combined prior to emission and there are adequate and reliable means reasonably susceptible to confirmation and use by the director for establishing a separation of the components of the combined emission to indicate the nature, extent, quantity and degree of emission arising from each such source, this chapter shall apply to each source separately.

(d) *Inseparable combination of contaminants prior to emission.* If air contaminants from two (2) or more sources are combined prior to emission and combined emissions cannot be separated according to the requirements of subsection (c) of this section, this chapter shall be applied to the combined emission as if it originated in a single source subject to the most stringent limitations and requirements placed by this chapter on any of the sources whose air contaminants are so combined.
(Code 1986, § 4-11)

Sec. 4-12. Exceedances of limitations on emissions.

(a) *Purpose.* The purpose of this section is to place reasonable limits on the amount of emissions an air pollutant source can emit due to a "malfunction" as defined in section 4-2, or during start-up or shutdown of said source. Without such limits air quality standards may not be met or public health and welfare may be endangered.

[*Formerly 4-12(a); New T.A.R. 1200-3-20-.01*]

(b) *Reasonable measures required.* Air pollutant sources must take all reasonable measures to keep emissions to a minimum during start-ups, shutdowns, operation, and malfunctions. These measures may include installation and use of alternate control systems, changes in operating methods or procedures, cessation of operation until the process equipment or air pollution control equipment is repaired, maintaining sufficient spare parts, use of overtime labor, use of outside consultants and contractors, and other appropriate means. Exceedances of limitations on emissions that are caused by poor maintenance, careless operation, or any other preventable upset condition or preventable equipment breakdown shall not be considered malfunctions, and shall be considered in violation of the emission standard exceeded and this section.

[*Formerly 4-12(b); New T.A.R. 1200-3-2-.02*]

(c) Reserved.

(d) Reserved.

(e) *Notice Required When an Emission Limitation is Exceeded.*

(1) When any air pollutant emission source, air pollution control equipment or related emissions unit operates, or fails to operate, in such a manner as to cause the emission of air pollutants in excess of any applicable emission standard contained in this chapter or under any installation permit or certificate of operation issued thereunder, or of sufficient duration to cause damage to property or public health, the owner or operator of such source, air pollution control equipment, or related emissions unit shall promptly notify the director of such excess emissions, specifying that it is a malfunction if that is the case, and provide a statement giving all pertinent facts sufficient for the director to determine whether the exceedance is a malfunction, including the estimated duration of the excess emissions.

(2) Prompt notification shall mean an initial telephone report to the bureau within twenty-four (24) hours after the onset of the excess emissions, followed up by a written report submitted to the bureau within seven (7) days after the onset of the excess emissions. The written report shall include the information described in section 4-12(f)(1)a.1 through a.8. The director shall be notified when the condition causing the excess emissions has been corrected and the source or equipment is again in operation. Any excess emissions that create an imminent hazard requiring immediate action to protect health or safety must be reported by telephone immediately to the bureau and to the appropriate local emergency response agency and to the Tennessee Emergency Management Agency.

[*Formerly 4-12(c); T.A.R. 1200-3-20-.06*]

(f) *Logs and reports.*

(1) a. A log of any operation or failure to operate, start-up, or shutdown resulting in air pollutant emissions in excess of any applicable standard in this chapter, or of any installation permit or certificate of operation issued thereunder, by any source must be kept at the source. This log must record at least the following:

1. Stack, air pollution control equipment, or emission point involved;
2. Time excess emissions, start-up, or shutdown began or when excess emissions were first discovered by the source;
3. Type of exceedance qualifying as a malfunction, or reason for shutdown;
4. Time start-up or shutdown was complete or time the air pollutant source returned to normal operation after an emissions exceedance;
5. Documentation that the source was or was not, at the time of the onset of the exceedance, being properly operated;
6. Documentation of any preventative maintenance of the air pollution control equipment or process equipment or processes that had been completed prior to the emissions exceedance, start-up, or shutdown;
7. The steps taken by the source during the period of the emissions exceedance, start-up, or shutdown to minimize levels of emissions that exceeded the emission standards, or other requirements in the installation permit or certificate of operation; and
8. The magnitude and identity of the excess emissions, expressed in pounds per hour and the units of the applicable emission limitation, and the operating data and calculations used in determining the magnitude of the excess emissions.
9. The employee of the owner or operator making entry on the log must sign, date and indicate the time of each log entry.

b. The information under items (f)(1)a.1. and 2. of this subsection must be entered into the log by the end of the shift during which the emissions exceedance, start-up or shutdown began.

c. All information shall be entered in the log no later than twenty-four (24) hours after the start-up or shutdown is complete, or the emissions exceedance has ceased or has been corrected.

d. Any later discovered corrections may be added in the log as footnotes with the reason given for the change. There shall be no erasures, obliterations, modifications, or revisions of the log entry except by single line-through and identification of corrections.

(2) The owner or operator of a source located in a nonattainment area or having a significant impact on the air quality in a nonattainment area (for the nonattainment pollutant) in a calendar quarter must submit a report to the director within thirty (30) days after the end of such calendar quarter listing the times and dates at which any emissions exceedance, start-up, or shutdown resulted in emissions greater than any applicable emission limits under this chapter, or under any installation permit or certificate of operation issued thereunder, and the estimated amount of emissions discharged during such times. This report should also include total emissions during the quarter and be reported in a format specified by the director. If these emissions are required to be reported and are reported as required under section 4-41, Rule 15, then the report required by this paragraph is waived.

[*Formerly 4-12(d) and (g)(2); T.A.R. 1200-3-20-.04 and 1200-3-20-.06*]

(g) *Copies of log required.* The director may require the owner or operator of any air pollutant source to submit a copy of the emissions exceedance, start up and shutdown log required under subsection (e) of this section to the director ten (10) days after the request is received. The director can require submission of copies of the entire log.

[*Formerly 4-12(e); T.A.R. 1200-3-20-.05*]

(h) *Special reports required.* The director may require any air pollutant source to submit a report within thirty (30) days after the end of each calendar quarter in a format he specifies containing as a minimum the following information:

(1) The dates on which emissions exceedances, start-ups, and shutdowns resulted in emissions greater than those allowed by the emission standards in this chapter or any installation permit or certificate of operation issued thereunder;

(2) The estimated amount of air pollutants emitted in excess of the emission standards in units of pounds of air pollutant per hour and pounds of air pollutant per day;

(3) Other emission characteristics such as stack exit temperature, stack height and diameter, stack exit velocities, and other similar information;

(4) Information needed to evaluate the possibility of instituting measures to eliminate or reduce the number of emission exceedances or the amount of emissions from emission exceedances, start-ups, and shutdowns;

(5) Information to determine if the excess emissions truly resulted from a malfunction; and

(6) Information to evaluate the impact of the emissions on the surrounding area.

(Code 1986, § 4-12; Ord. No. 9171, § 5, 5-30-89; Ord. No. 10277, § 9, 8-15-95; Ord. No. 14165, §§ 3, 4, 10-29-24)

Sec. 4-13. Certificate of alternate control.

(a) In lieu of satisfying otherwise applicable standards and requirements of this chapter, an air pollutant source may apply for and be issued a certificate of alternate control. No source with a certificate of alternate control shall emit particulate matter, sulfur dioxide, carbon monoxide, nitrogen dioxide or volatile organic compounds in excess of the respective limits on such certificate. No source applying for a certificate of alternate control shall be considered as modifying a source under the definition of "modification, alteration, reconstruction" in section 4-2, provided the rated capacity in terms of heat input, charging rate or process weight does not change for any fuel-burning, refuse-burning, incinerator, process or air pollution control equipment, respectively.

(b) The owner or operator of any source that discharges particulate matter, sulfur dioxide, carbon monoxide, nitrogen dioxide or volatile organic compounds regulated by this chapter can apply to the director for a certificate of alternate control for the source or any portion of the source. The director may grant the request if the following conditions are met:

(1) The source or portion thereof is reducing, or will be after a specific date taking actions to reduce, emissions of particulate matter, sulfur dioxide, carbon monoxide, nitrogen dioxide or volatile organic compounds to a level at least as stringent as required under other provisions of this chapter, even though affected emissions units at the source may not be meeting the mass emission limitation specified in any other provision of this chapter. Calculations to determine equivalence to standards limiting the pounds of volatile organic compounds per gallon of material shall be on the basis of equivalent solids applied. The total final emission limitation specified in the certificate of alternate control for the source for each given pollutant must be equivalent to or more stringent than would otherwise be applicable under this chapter. These limitations shall

include limitations specified in other provisions of this chapter in pounds per hour, or if hourly emissions cannot be determined per the shortest period over which emissions can be determined, and tons per year, for the entire source.

(2) If a schedule for compliance is required, it must be as expeditious as is practicable and be specified as a condition on the certificate of alternate control. In no case shall the final compliance date be beyond a date that would cause interference with the attainment of the reasonable further progress line specified for a specific nonattainment area in the applicable state implementation plan.

(3) The source shall verify through modeling, consistent with Title 40 CFR Part 51, Appendix W—Guideline on Air Quality Models (Revised), which has been incorporated by reference in Chapter 4, that this alternate emission limitation will yield equivalent or improved air quality for the pollutant involved. For volatile organic compound emissions, modeling for ozone impacts may be required. Air quality need not improve or stay the same at every location affected by the alternate emission standard, but on balance the air quality of the affected area must not be adversely affected. This will be demonstrated by modeling all included emission points at the proposed alternative levels and at the allowable emission level for sources subject to emissions limitations contained in section 4-41, Rule 26 for the pollutant involved. The lower of either the allowable emissions under other rules in this chapter or actual emissions shall be used in all other modeling. In addition, the source shall demonstrate that the use of the alternate emission limitation will not interfere with the attainment or maintenance of any ambient air quality standard nor violate any applicable ambient air increment under section 4-41, Rule 18.

(4) Interpollutant trades are not allowed. Plants subject to the standards in section 4-41, Rule 16 (Emission Standards for Hazardous Air Contaminants), cannot apply the alternate emission limitation to hazardous air contaminants. The sources at a plant subject to emission standards in section 4-41, Rule 15 (New Source Performance Standards), or section 4-8(e)(2)b. and c. cannot use an alternate emission limitation except for reductions in actual emissions below the level required in these sections.

(5) Each emission point identified in the alternate control limitation shall be subject to a specific emission limit expressed in measurable units of the emission limitation. The director shall require an initial compliance test in order to demonstrate that the required emission limitations are being met for each emission point where actual emissions are estimated to exceed ten (10) tons per year or where allowable emissions are in excess of five (5) pounds per hour. Subsequent compliance tests may be required in accordance with the requirements of section 4-8(c).

(6) A fee of one thousand dollars ($1,000.00) for each pollutant emitted at each emission point to be covered by a certificate of alternate control has been paid to the bureau at the time the application is made to cover the cost of review of the request for the certificate of alternate control.

(7) Sources utilizing the alternate emission limitation (1) must be in compliance with all applicable emission limits; or (2) if not in compliance, must be meeting the requirements in an approved compliance schedule; or (3) if not in compliance, must be subject to a court order which includes a compliance schedule and allows for timely modification of the decree without delaying the final compliance date. Under no circumstances can the alternate emission limitation delay or defer a specified compliance date nor shall the certificate of alternate control insulate the source from any penalties or sanctions for noncompliance or affect the source's liability for failure to comply with any regulation, order or compliance plan.

(c) The alternate emission limitations and certificate conditions must be subjected to a public hearing and submitted to the United States Environmental Protection Agency for approval as a revision to the state implementation plan. The owner or operator requesting this alternate emission control limitation shall be responsible for all costs associated with publishing the required legal notices.

(d) Good engineering practice stack heights shall be utilized on all stack changes associated with the alternate control limitations for particulate matter, sulfur dioxide, carbon monoxide, and nitrogen dioxide.

(e) The owner or operator of the plant must:

(1) Post or file on the operating premises a copy of the certificate of alternate control; and

(2) Keep all pollution control equipment in good operating condition and utilize such equipment at all times.

(f) The certificate of alternate control shall be revoked after a hearing by the board if it is found that any of the requirements of subsection (b) of this section have been violated or if any of the requirements of subsection (e) have been frequently and flagrantly violated after the certificate was issued or if violation of the requirements of subsection (d) or conditions placed on their certificate under subsection (i) are not corrected promptly on written notice.

(g) The certificate of alternate control does not relieve the owner or operator of the duty of meeting all emission requirements in other rules for new sources whose installation, modification, alteration or reconstruction is commenced after the effective date of the rule.

(h) Upon revocation of the certificate of alternate control, the sources at the plant must comply with other provisions in this chapter that would have been applicable had the certificate not been issued. The board may specify a time period for the source to come into compliance with the more restrictive emission limitations.

(i) The director shall specify the new emission limits for each emission point as conditions of the certificate of alternate control. If methods other than reference test methods are to be used to determine compliance, they should be specified on the certificate. Other conditions needed to insure and to verify compliance may be placed on the certificate as conditions.

(j) Notice is hereby given that any certificate granted pursuant to this section shall become void should the board find it proper to amend the regulations covering any source listed on the certificate if the effect of the amendment is to reduce the allowable emissions of the source. The certificate in this instance shall be deemed void ninety (90) days after the source's receipt of notice from the director of the effective date of the revised regulations.

[*New: See T.A.R. 1200-3-21*]
(Code 1986, § 4-13; Ord. No. 10277, § 10, 8-15-95)

Sec. 4-14. Court determination of invalidity of having two (2) sets of limitations for process or fuel-burning equipment; effect.

If a court of competent jurisdiction should ever rule that having two (2) sets of limitations for process or fuel-burning equipment is invalid, then the most stringent emission limitation for process or fuel-burning equipment shall be the limitation of all such equipment.
(Code 1986, § 4-14)

Sec. 4-15. Right to file abatement suits.

Nothing in this chapter shall be construed to impair the right of the board of commissioners or the city attorney to file appropriate suits to abate a nuisance involving air pollution or to prosecute anyone for creating a nuisance or allowing a nuisance to continue or permitting a nuisance to exist. The board, with the approval of the city attorney, may in the name of the city institute action to abate a nuisance.
(Code 1986, § 4-15)

Sec. 4-16. Right of entry of employees of the bureau, search warrants.

(a) In the performance of their duties, the director and other employees of the bureau are hereby authorized to enter upon and into premises or buildings with permission of the owner or occupant thereof to make inspection of the premises or building, to collect and preserve evidence of all facts of violation of this chapter or to perform any duty imposed upon them by this chapter. For the purposes of the preceding sentence, "reasonable times" shall be considered to be during normal business hours, unless reasonable cause exists to suspect noncompliance with this chapter or with any installation permit, certificate of operation, issued by the Bureau, and the director specifically authorizes a bureau employee to inspect a source at any other time.

(b) Alternatively, the director or other employees of the bureau or any other law enforcement officer may obtain a search warrant from the city court of the municipality if the premises lie within a municipality which has a city court, or from the state court of the county, as other search warrants are issued upon a showing of probable cause to believe that the provisions of this chapter or the rules and regulations thereof have been or are being violated, and may thereafter enter upon or into the premises or buildings and obtain, collect and preserve evidence or perform any duty imposed upon them by this chapter.
(Code 1986, § 4-16; Ord. No. 10277, § 11, 8-15-95)

Sec. 4-17. Enforcement of chapter; procedure for adjudicatory hearings for violations.

(a) Whenever the board or director has reason to believe that a violation of any provision of this chapter or rule or regulation pursuant thereto has occurred, the board or director may cause written notice to be served upon the alleged violator or violators. The notice shall specify the provision of this chapter or rule or regulation alleged to be violated and the date, time, place and general nature of the alleged violation or violations thereof and may include an order that necessary action be taken within a reasonable time. The notice provided for in this subsection may be served by the sheriff or a deputy sheriff of the county; or by a police officer of this city; or by a special police officer of this city; or by a special deputy sheriff; or may be served in any other manner prescribed for the service of a writ of summons by the statutes of the state or by the Tennessee Rules of Civil Procedure. Any such order shall become final unless, no later than thirty (30) days after the date the notice and order are served, the person or persons named therein request in writing a hearing before the board and file a notice of appeal and a bond pursuant to subsection 4-18(e). Upon such request, the board shall hold a hearing. In lieu of an order, the board may require that the alleged violator or violators appear before the board for a hearing at a time and place specified in the notice and answer the charges complained of, or the board may initiate action pursuant to section 4-15 or section 4-4 of this chapter, or the board may initiate action pursuant to any applicable provisions of the statutes of the state, or the acts of Congress of the United States, or the board may initiate action pursuant to any provisions or doctrines of the law of this state.

(b) If, after a hearing held pursuant to subsection (a) of this section, the board finds that a violation or violations have occurred, it shall affirm or modify the order previously issued, or issue an appropriate order or orders for the prevention, abatement, or control of the emissions involved or for the taking of such other corrective action as may be appropriate and the board may assess a civil penalty or enter any other appropriate order. If, after a hearing on an order contained in a notice, the board finds that no violation

hasoccurred, it shall rescind the director's order. Any order issued as part of a notice or after a hearing may prescribe the date or dates by which the violation or violations shall cease and may prescribe timetables for necessary actions in preventing, abating or controlling the emissions. Any action taken by the board under this chapter shall be in writing and signed by the chairman, vice-chairman or chairman pro tempore of the board.

(c) Nothing in this chapter shall prevent the board or director from making efforts to obtain voluntary compliance through warning, conference or any other appropriate means. Nothing in this chapter, or in this section of this chapter, shall be construed as requiring the board to hold a hearing pursuant to this section of this chapter prior to or as prerequisite to its institution of action in court pursuant to this or any other section of this chapter or pursuant to the statutes of the state, the acts of the Congress of the United States, or any applicable doctrine of the law of this state; and nothing in this chapter or this section of this chapter shall prevent the board or director from suspending or revoking an installation permit or a certificate of operation or any other permit or license issued pursuant to the provisions of this chapter, but notice shall be served pursuant to this section of this chapter prior to revocation of a valid and outstanding certificate of operation.

(d) In addition to the preceding, whenever the board or director has reason to believe that a violation of any provision of this chapter or rule or regulation pursuant thereto has occurred, the board or director may cause written notice to be served upon the alleged violator or violators citing the alleged violator or violators to municipal court for adjudication of the alleged violation or violations. The board or director, or the director's designee, may make complaint to the city judge for issuance of process on the alleged violation or violations.
(Code 1986, § 4-17; Ord. No. 10277, § 12, 8-15-95; Ord. No. 13221, § 12, 9-19-17)

Sec. 4-18. Hearings, appeals and judicial review.

(a) At any public hearing, all testimony taken before the board shall be under oath and recorded stenographically, but the record shall not be transcribed unless any party seeks judicial review by writ of certiorari pursuant to T.C.A. 27-9-101 et seq. from any order or determination of the board, and in such event the party seeking such judicial review shall pay for the transcription and reimburse the board its stenographic expense incident to the hearing and shall furnish the original transcript to the board.

(b) The chairman, vice-chairman or chairman pro tempore of the board or the director may issue notice for the hearing and may issue subpoenas requiring attendance and testimony of witnesses or the production of evidence relevant to any matter involved in such hearing, or both. Such subpoena shall be served in the same manner as is provided for service of notice in section 4-17. The director shall issue subpoenas requested by a person upon whom notice has been served to appear for a hearing or who otherwise has a real and substantial interest in the hearing. The chairman, the vice-chairman, the chairman pro tempore or the director is authorized to administer oaths and to examine witnesses. Witnesses may likewise be examined by any member of the board, the attorney representing this municipality, the attorney representing the board, the attorney presenting proof from the bureau, the interested party or their attorney, or any other person determined by the board to have a real and substantial interest in the hearing or his attorney. In case of a refusal to obey a subpoena under this chapter, upon approval of a majority of the members of the board conducting the hearing, application may be made to the municipal court of this municipality or to any state court for such necessary subpoenas, orders or other proceedings to compel the attendance and testimony of such witness or witnesses and to compel the production of such evidence. Upon application to the municipal court of this municipality, the court shall issue such order. Upon application to a state court of record the court may issue such order, and failure to appear before the board or to produce evidence will be deemed to be contempt of the court from which such order has issued. Failure to obey the order shall be punishable as provided by ordinances, state statutes or the common law for failure to obey a subpoena issued for appearance of a witness before such court.

(c) All hearings shall be held before not less than a majority of the board.

(d) Nothing in this section shall be construed to require a hearing prior to the issuance of an emergency order pursuant to section 4-20 of this chapter or prior to the institution by the board of action in court pursuant to any other section or provision of this chapter or the statutes of the state, the acts of the Congress of the United States, or any applicable doctrine of the law of this state.

(e) Any person aggrieved by any order or determination of the director may appeal such order or determination to the board for a public hearing before the board pursuant to the provisions of this section. Notice of appeal and a bond in the amount of five hundred dollars ($500.00) to secure costs of the hearing shall be filed in the bureau within thirty (30) days after the date of the order or determination from which appeal is sought, otherwise the director's order or determination becomes final and nonappealable. Failure to file such appeal within the time provided herein regarding any terms, limitations, or special conditions in any permit or certificate of operation issued under this chapter, including but not limited to determinations of best available control technology, particulate matter best available control technology, and lowest achievable emissions rate, consummates the final determination of those terms, limitations and special conditions and constitutes a conclusive presumption that they are valid and enforceable under this ordinance and that a violation of the same constitutes a violation of the ordinance. The filing of the notice of appeal and bond herein provided for within the time herein prescribed shall perfect the appeal to the board.

Upon receipt of the notice of appeal and bond, the director shall immediately notify the chairman, vice-chairman or chairman pro tempore of the board of the appeal. The hearing on appeal to the board may be had at a special meeting of the board called by the chairman, vice-chairman or chairman pro tempore or at a regular meeting. The perfecting of the appeal as herein provided shall suspend only the operation of that portion of the order or determination appealed from and only until such time as the board has acted upon the appeal; provided, however, that the continuation of a special condition carried over from the immediately preceding certificate of operation and reimposed on the renewal certificate of operation shall not be suspended pending final action on the appeal. Any person aggrieved by any final order or determination of the board hereunder shall have judicial review thereof exclusively by writ of certiorari pursuant to T.C.A. 27-9-101 et seq. No judicial review shall be available to any person so aggrieved until and after all administrative remedies have been exhausted.
(Code 1986, § 4-18; Ord. No. 10277, § 13, 8-15-95)

Sec. 4-19. Confidentiality of certain records.

(a) Upon the filing with the Director of a written request for confidentiality by an owner or operator for any formulae, processes, methods, or information associated with an air pollutant source that are certified by the owner or operator of the source as confidential, the Director shall conduct a review for confidentiality. Records or other information concerning an air pollutant source that are certified by the owner or operator as related to confidential production techniques, production rates, trade secrets, or sales figures or to processes or methods sufficiently unique to the owner or operator or which would affect adversely the competitive position of such owner or operator if made available to the general public are eligible for confidential status. For sources subject to the Part 70 permit provisions at Article III of the Ordinance, the confidential information provisions of Section 4-56(a)(3) shall also apply in reviewing the request for treatment of information as confidential.

(b) If the Director determines that any information for which confidentiality has been requested should not be protected as confidential, the Director shall so notify the source owner or operator in writing. All disapproved information will be treated as confidential until forty-five (45) days from the date of such notification. If an appeal to the Board is received from the owner or operator within this forty-five (45)-day period, applicable information shall be treated as confidential throughout the appeal period. If the Director

or Board determines that information should be protected as confidential, then such information shall be reserved only for the confidential use of the Board and Bureau in the administration of this chapter or the Administrator of the U.S. Environmental Protection Agency in the administration of the Federal Clean Air Act. Nothing herein shall be construed to prevent the use of such information by the Bureau or Board in compiling or publishing analyses or summaries relating to the general conditions of the outdoor atmosphere provided that such analyses or summaries do not identify the owner, operator, or business or reveal any information considered confidential under this section.

(c) Notwithstanding the foregoing, the following information shall not be considered confidential:

(1) The composition of air pollutants and emission data;

(2) The applicable provisions under this chapter that a source must fulfill and the source's compliance status with respect to each provision; and

(3) The business name, address, location of the source, and the name of the source's owner or operator.

(d) The Director shall report to the Board at the next board meeting any determinations made by the Director concerning requests for confidentiality made pursuant to this Section 4-19.
(Code 1986, § 4-19; Ord. No. 10277, § 14, 8-15-95; Ord. No. 13998, §§ 19, 20, 6-27-23; Ord. No. 14165, § 5, 10-29-24)

State law reference—T.C.A. § 68-201-105(b)(2).

Sec. 4-20. Emergencies.

(a) It is the purpose of this section to establish criteria so as to prevent air pollutants from reaching levels that would cause imminent and substantial endangerment to the health of persons, especially during adverse meteorological conditions. Any other provisions of law to the contrary notwithstanding, if the Director or the administrator of the Chattanooga-Hamilton County Health Department finds that a condition of air pollution exists or is likely to exist, and that it creates any emergency requiring immediate action to protect human health or safety, the mayor with the concurrence of the Director or the administrator of the Chattanooga-Hamilton County Health Department shall order persons causing or contributing to the air pollution to reduce or discontinue immediately the emission of air pollutants. Upon issuance of any such order, the Director shall fix a place and time, not later than twenty-four (24) hours thereafter, for a hearing to be held before the board. Not more than twenty-four (24) hours after commencement of such hearing, and without adjournment thereat the board shall affirm, modify, or recommend to the mayor that the order be affirmed, modified or set aside.

(b) Episode Criteria. Conditions justifying the order of an air pollution alert, air pollution warning, or air pollution emergency shall be deemed to exist when the Director or the administrator of the Chattanooga-Hamilton County Health Department determines, in concurrence with the mayor, that the accumulation of air pollutants is attaining or has attained levels which could, if such levels are sustained or exceeded, lead to a substantial threat to the health of persons. In making this determination, the Director or administrator will be guided by the criteria described below.

(1) *Air Pollution Forecast:* An internal watch by the Chattanooga-Hamilton County Air Pollution Control Bureau shall be activated by a National Weather Service advisory that an atmospheric stagnation advisory is in effect or the equivalent local forecast of stagnant atmospheric conditions.

(2) *Air Pollution Alert:* The alert level is that concentration of air pollutants at which emissions reductions must begin. An alert will be declared when any of the following levels is reached at any monitoring site, and when meteorological conditions are such that air pollutant concentrations can

be expected to remain at these levels or to increase for twelve (12) or more hours, or in the case of ozone this level is likely to recur within the next twenty-four (24) hours unless control actions are taken:

a. SO_2: 800 μg/m^3 (0.3 parts per million), twenty-four (24) hour average

b. PM_{10}: 350 μg/m^3, twenty-four (24) hour average

c. (Reserved)

d. CO: 17 mg/m^3 (15 ppm), eight (8) hour average

e. Ozone (0_3): 400 μg/m^3 (0.2 ppm), one (1) hour average

f. NO_2: 1130 μg/m^3 (0.6 ppm), one (1) hour average;
282 μg/m^3 (0.15 ppm), twenty-four (24) hour average.

(3) *Air Pollution Warning:* The warning level indicates that air quality is continuing to degrade and that additional control actions are necessary. A warning will be declared when any one (1) of the following levels is reached at any monitoring site, and when meteorological conditions are such that air pollutant concentrations can be expected to remain at these levels or to increase for twelve (12) or more hours, or in the case of ozone this level is likely to recur within the next twenty-four (24) hours unless control actions are taken:

a. SO_2: 1600 μg/m^3 (0.6 ppm), twenty-four (24) hour average

b. PM_{10}: 420 μg/m^3, twenty-four (24) hour average

c. (Reserved)

d. CO: 34 mg/m^3 (30 ppm), eight (8) hour average

e. Ozone (O_3): 800 μg/m^3 (0.4 ppm), one (1) hour average

f. NO_2: 2260 μg/m^3 (1.2 ppm), one (1) hour average;
565 μg/m^3 (0.3 ppm), twenty-four (24) hour average.

(4) *Air Pollution Emergency:* The emergency level indicates that air quality is continuing to degrade toward a level that would cause an unreasonable risk to public health and that the most stringent control actions are necessary. An emergency will be declared when any one (1) of the following levels is reached at any monitoring site, and when meteorological conditions are such that air pollutant concentrations can be expected to remain at these levels or to increase for twelve (12) or more hours, or in the case of ozone this level is likely to recur within the next twenty-four (24) hours unless control actions are taken:

a. SO_2: 2100 μg/m^3 (0.8 ppm), twenty-four (24) hour average

b. PM_{10}: 500 μg/m^3, twenty-four (24) hour average

c. (Reserved)

d. CO: 46 mg/m^3 (40 ppm), eight (8) hour average

e. Ozone(O_3): 1000 μg/m^3 (0.5 ppm), one (1) hour average

f. NO_2: 3000 μg/m^3 (1.6 ppm), one (1) hour average;
750 μg/m^3 (0.4 ppm), twenty-four (24) hour average.

(5) *Termination.* Once declared, any status reached by application of these criteria will remain in effect until the criteria for that level are no longer met. At that time, the next higher or the next lower status will become effective upon declaration of the concurrence of the mayor and the Director or the administrator of the Chattanooga-Hamilton County Health Department.

(c) Required Emissions Reductions.

(1) When an air pollution alert, an air pollution warning, or an air pollution emergency has been declared, all sources must follow the requirements for that episode level as outlined in Tables 1, 2, or 3 or in the air pollution episode emissions reduction plan approved in accordance with Section 4-20. Title 40 CFR Part 51, Subpart H—Prevention of Air Pollution Emergency Episodes, requires episode plans for Priority I, IA, and II areas. Priority III areas are not required to develop episode plans. If a plan has been approved by the Director, emissions must be reduced to that level or lower during a declared episode.

(2) Preplanned Abatement Strategies. Major sources in or significantly impacting a nonattainment area must submit to the Director an acceptable air pollution episode emissions reduction plan to be followed during the alert, warning and emergency levels of an air pollution episode. The term "major source" as used in Section 4-20 means any of the following types of stationary sources of air pollutants which emit, or have the potential to emit, one hundred (100) tons per year or more of any air pollutant: fossil fuel fired steam electric plants of more than two hundred fifty million (250,000,000) British thermal units per hour heat input; coal cleaning plants (thermal dryers); draft pulp mills; Portland cement plants; primary zinc smelters; iron and steel mill plants; primary copper smelters; municipal incinerators capable of charging more than fifty (50) tons of refuse per day; hydrofluoric, sulfuric, and nitric acid plants; petroleum refineries; lime plants; coke oven batteries; sulfur plants; phosphate rock processing plants; sulfur recovery plants; carbon black plants (furniture process); primary lead smelters; fuel conversion plants; sintering plants; secondary metal production facilities; chemical process plants; fossil-fuel boilers of more than two hundred fifty million (250,000,000) British thermal units per hour heat input; petroleum storage and transfer facilities with a capacity exceeding three hundred thousand (300,000) barrels; taconite ore processing facilities; glass fiber processing plants; and charcoal production facilities. The term "major source" also includes, for the purposes of Section 4-20, any other source with the potential to emit two hundred fifty (250) tons per year or more of any air pollutant. Only the pollutants for which the air quality planning area is designated nonattainment are considered in determining whether a source is a major source, for the purposes of Section 4-20.

(3) Any source subject to the preceding paragraph (2) must submit a revised air pollution episode emissions reduction plan at the request of the Director should the nature and quantity of the source's emissions change or the original plan be deemed inadequate.

(4) The owner or operator of any other air pollutant source, having a potential to emit less than one hundred (100) tons per year of any air pollutant, may file an air pollution episode emissions reduction plan for use during an air pollution episode if the owner or operator anticipates achievement of comparable or greater reduction of the health hazard in the area at a much lower cost than can be achieved by a major source.

(5) Where specific actions may be necessary to relieve a health hazard by sources emitting air pollutants at lower levels than that indicated in paragraph (2) above, the Director may require the submittal of an acceptable air pollution episode emissions reduction plan from the owners or operators of those sources. The owner or operator must submit such plan within thirty (30) days after the Director so requires.

(6) If the owner or operator of any source required to have an approved air pollution episode emissions reduction plan on file with the Director fails to submit an approvable plan to the Director, the Director may schedule a hearing to set an approved air pollution episode emissions reduction plan for that air pollutant source.

TABLE 1
EMISSION REDUCTION PLANS
ALERT LEVEL

Part A. GENERAL

1. There shall be no open burning by any persons of tree waste, vegetation, refuse, or debris in any form.
2. The use of incinerators for the disposal of any form of solid waste shall be limited to the hours between 12:00 noon and 4:00 p.m.
3. Persons operating fuel-burning equipment which requires boiler lancing or soot blowing shall perform such operations only between the hours of 12:00 noon and 4:00 p.m.
4. The Chattanooga-Hamilton County Air Pollution Control Board encourages persons operating motor vehicles to eliminate all unnecessary operation.

Part B. SOURCE CURTAILMENT

Any owner or operator of a source of air pollutants listed below shall take all required control actions specified below for this Alert Level and the preplanned abatement strategies submitted to and approved by the Director for that source.

Source of Air Pollution	*Control Action*
1. Coal or oil-fired electric power reduction by generating facilities	a. Substantial utilization of fuels having low ash and sulfur content. b. Maximum utilization of mid-day (12:00 p.m. to 4:00 p.m.) atmospheric turbulence for boiler lancing and soot blowing. c. Substantial reduction by diverting electric power generation to facilities outside of Alert Area.
2. Coal and oil-fired process steam generating facilities	a. Substantial reduction by utilization of fuels having low ash and sulfur content. b. Maximum utilization of mid-day (12:00 noon to 4:00 p.m.) atmospheric turbulence for boiler lancing and soot blowing. c. Substantial reduction of steam load demands consistent with continuing plant operations.
3. Manufacturing industries of the following classifications: Primary Metals Industry Petroleum Refining Operations Chemical Industries Paper and Allied Products Grain Industry	a. Substantial reduction of air contaminants from manufacturing operations by curtailing, postponing, or deferring production and all operations. b. Maximum reduction by deferring trade (industry) waste disposal operations which emit solid gases, vapors, or malodorous substances. c. Maximum reduction of heat load demands for processing. d. Maximum utilization of mid-day (12:00 noon to 4:00 p.m.) atmospheric turbulence for boiler lancing or soot blowing.

TABLE 2
EMISSION REDUCTION PLANS
WARNING LEVEL

Part A. GENERAL

1. There shall be no open burning by any persons of tree waste, vegetation, refuse or debris in any form.

2. The use of incinerators for the disposal of any form of solid waste or liquid waste shall be prohibited.

3. Persons operating fuel-burning equipment which requires boiler lancing or soot blowing shall perform such operations only between the hours of 12:00 noon and 4:00 p.m.

4. The Chattanooga-Hamilton County Air Pollution Control Board encourages persons operating motor vehicles to reduce operations by the use of car pools and increase use of public transportation and the elimination of unnecessary operation.

Part B. SOURCE CURTAILMENT

Any owner or operator of a source of air pollutants listed below shall take all required control actions specified below for this Warning Level and the preplanned abatement strategies submitted to and approved by the Director for that source.

Source of Air Pollution	*Control Level*
1. Coal or oil-fired electric power generating facilities	a. Maximum reduction by utilization of fuels having lowest ash and sulfur content. b. Maximum utilization of mid-day (12:00 noon to 4:00 p.m.) atmospheric turbulence for boiler lancing and soot blowing. c. Maximum reduction by diverting electric power generation to facilities outside of Warning Area.
2. Coal and oil-fired process steam generating facilities	a. Maximum reduction by utilization of fuels having the lowest ash and sulfur content. b. Maximum utilization of mid-day (12:00 noon to 4:00 p.m.) atmospheric turbulence for boiler lancing and soot blowing. c. Making ready for use a plan of action to be taken if an emergency develops.

Source of Air Pollution	*Control Level*
3. Manufacturing industries which require considerable lead time for shut-down including the following classifications: Petroleum Refining Chemical Industries Primary Metal Industries Glass Industry Paper and Allied Products	a. Maximum reduction of air contaminants from manufacturing operations if necessary, assuming reasonable economic hardship by postponing production and allied operation. b. Maximum reduction by deferring trade (industry) waste disposal operations which emit solid particles, gases, vapors, or malodorous substances. c. Maximum reduction of heat load demands for processing. d. Maximum utilization of mid-day (12:00 noon to 4:00 p.m.) atmospheric turbulence for boiler lancing and soot blowing.
4. Manufacturing industries which require relatively short lead time for shut-down including the following classifications: Primary Metal Industries Chemical Industries Mineral Processing Industries Grain Industry	a. Elimination of air contaminants from manufacturing operations by ceasing, curtailing, postponing, or deferring production and allied operations to the extent possible without causing injury to persons or damage to equipment. b. Elimination of air contaminants from trade (industry) waste disposal processes which emit solid particulates, gases, vapors, or malodorous substances. c. Maximum reduction of heat load demands for processing. d. Maximum utilization of mid-day (12:00 noon to 4:00 p.m.) atmospheric turbulence for boiler lancing and soot blowing.

TABLE 3
EMISSION REDUCTION PLANS
EMERGENCY LEVELS

Part A. GENERAL

1. There shall be no open burning by any persons of tree waste, vegetation, refuse or debris in any form.
2. The use of incinerators for the disposal of any form of solid or liquid waste shall be prohibited.
3. All places of employment described below shall immediately cease operations:
   a. Mining and quarrying of non-metallic minerals
   b. All construction work except that which must proceed to avoid emergent physical harm.
   c. All air contaminant sources except those required to have in force an air pollution emergency plan.

4. Any commercial or manufacturing establishments not included in these Tables shall institute such actions as will result in maximum reduction of air pollutants from their operations by ceasing, curtailing, or postponing operations which emit air pollutants to the extent possible without causing injury to person or damage to equipment.
5. The Chattanooga-Hamilton County Air Pollution Control Board encourages the users of motor vehicles to cease usage except in emergencies.

Part B. SOURCE CURTAILMENT

Any owner or operator of a source of air pollutants listed below shall take all required control actions specified below for this Emergency Level and the preplanned abatement strategies submitted to and approved by the Director for that source.

Source of Air Pollution	*Control Action*
1. Coal or oil-fired electric power generating facilities	a. Maximum reduction by utilization of fuels having lowest sulfur and ash content. b. Maximum utilization of mid-day (12:00 noon to 4:00 p.m.) atmospheric turbulence for boiler lancing or soot blowing. c. Maximum reduction by diverting electric power generation to facilities outside of Emergency Area.
2. Coal and oil-fired process steam generating facilities	a. Maximum reduction, by reducing heat and steam demands to absolute necessities, consistent with preventing equipment damage. b. Maximum utilization of mid-day (12:00 noon to 4:00 p.m.) atmospheric turbulence for boiler lancing and soot blowing. c. Taking the action called for in the emergency plan.
3. Manufacturing industries of the following classifications: Primary Metals Industries Petroleum Refining Chemical Industries Grain Industry	a. Elimination of air contaminants from manufacturing operations by ceasing, curtailing, postponing or deferring production and allied operations to the extent possible without causing injury to persons or damage to equipment b. Elimination of air contaminants from trade (industry) waste disposal processes which emit solid particles, gases, vapors, or malodorous substances. c. Maximum reduction of heat load demands for processing. d. Maximum utilization of mid-day (12:00 Paper and Allied Products noon to 4:00 p.m.) atmospheric turbulence for boiler lancing or soot blowing.

(Code 1986, § 4-20; Ord. No. 10786, § 30, 10-27-98; Ord. No. 13998, § 21, 6-27-23)

Sec. 4-21. Variances.

(a) Any person who owns or is in control of any plant, building, structure, process or equipment may apply to the board for a variance from rules or regulations. Each applicant to the board for variance shall pay a fee of one hundred dollars ($100.00) to cover the cost of handling such application, no part of which fee is returnable. The board may grant such variance if it finds that:

(1) The emissions occurring or proposed to occur do not endanger or are not likely to endanger human health or safety; and

(2) Compliance with the rules or regulations from which variance is sought would produce serious hardship without equal or greater benefits to the public.

(b) No variance or renewal thereof shall be granted pursuant to this section except after public hearing on due notice by publication as an electronic notice (e-notice) on the Bureau website for a period of thirty (30) days prior to the public hearing and by other means designated by the Director, if necessary, and until the Board has considered the relative interests of the applicant, other owners of property likely to be affected by the discharges, and the general public.

(c) Any variance or renewal thereof may be granted within the requirements of subsection (a) and for the time periods and under conditions consistent with the reasons therefor and with the following limitations:

(1) If the variance is granted on the grounds that there is not practicable means known or available for the adequate prevention, abatement or control of the air pollution involved, it shall be only until the necessary means for prevention, abatement or control becomes known and available and subject to the taking of any substitute or alternate measures that the board may prescribe;

(2) If the variance is granted on the grounds that compliance with the particular requirement or requirements from which variance is sought will necessitate the taking of measures which, because of their extent or cost, must be spread over a considerable period of time, it shall be for a period not to exceed such reasonable time as in the view of the board is requisite for the taking of the necessary measures. A variance granted on the grounds specified herein shall contain a timetable for the taking of action in an expeditious manner and shall be conditioned on adherence to such timetable;

(3) If the variance is granted on the ground that it is justified to relieve or prevent hardship of any kind other than provided for in items (1) and (2) of this subsection, it shall be for not more than one (1) year.

(d) Any variance granted pursuant to this section may be renewed on terms and conditions and for periods which would be appropriate on initial granting of a variance. If complaint is made to the Board on account of the variance, no renewal thereof shall be granted unless, following public hearing on the complaint notice, the Board finds that renewal is justified. No renewal shall be granted except on application therefor. Any such application shall be made at least thirty (30) days prior to the expiration of the variance. Upon receipt of an application for renewal, the Bureau shall provide for public notice by publication as an electronic notice (e-notice) on the Bureau website for a period of thirty (30) days prior to the public hearing and by other means designated by the Director, if necessary.

(e) A variance or renewal shall not be a right of the applicant or holder thereof but shall be in the discretion of the board. However, any person adversely affected by a variance or renewal granted by the board may obtain judicial review thereof by a proceeding in the chancery court. Judicial review of the denial of variance may be had only on common law writ of certiorari on the grounds that the denial is arbitrary or capricious.

(f) Nothing in this section and no variance or renewal granted pursuant hereto shall be construed to prevent or limit the application of the emergency provisions and procedures of section 4-20 of this chapter to any person or his property.

(g) Any hearing held under the provisions of this section shall conform with the relevant requirements set out in section 4-18 of this chapter.
(Code 1986, § 4-21; Ord. No. 13998, §§ 22, 23, 6-27-23)

Secs. 4-22—4-40. Reserved.

ARTICLE II. RULES, REGULATIONS, CRITERIA, STANDARDS

Sec. 4-41. Rules adopted.

The following rules, regulations, criteria and standards for air pollution control are hereby adopted:

Rule 1. Title.

These regulations shall be known and referred to as the "Chattanooga-Hamilton County Air Pollution Control Regulations."

Rule 2. Regulations of Nitrogen Oxides.

Rule 2.1. No person shall cause, suffer, allow or permit the emission of nitrogen oxides, expressed as nitrogen dioxide, from fuel-burning equipment which has design capacity of or in excess of two hundred fifty million (250,000,000) Btu's per hour, built or installed on and after January 1, 1973, in excess of the following:

(1) One hundred sixty-five (165) ppm corrected to fifteen percent (15%) excess air when gaseous fossil fuel is fired (equivalent to two-tenths (0.20) pounds of nitrogen oxides, expressed as nitrogen dioxide, per million Btu heat input);

(2) Two hundred twenty-seven (227) ppm corrected to fifteen percent (15%) excess air when liquid fossil fuel is fired (equivalent to three-tenths (0.30) pounds of nitrogen oxides, expressed as nitrogen dioxide, per million Btu heat input);

(3) Five hundred twenty-five (525) ppm corrected to fifteen percent (15%) excess air when solid fossil fuel is fired (equivalent to seven-tenths (0.70) pounds of nitrogen oxides, expressed as nitrogen dioxide, per million Btu heat input).

When different fossil fuels are burned simultaneously in any combination, the applicable standard shall be determined by proration (i.e., the allowable emission, expressed as nitrogen dioxide, shall be equal to the value obtained from the equation:

$$A = S \times (525) + L \times (227) + G \times (165)$$

Where:

S = fraction of total heat input derived from solid fossil fuel.

L = fraction of total heat input derived from liquid fossil fuel.

G = fraction of total heat input derived from gaseous fossil fuel.

A = the emission limit in ppm.

Rule 2.2. (Reserved).

Rule 2.3. No person shall cause, suffer, allow or permit the emission of nitrogen oxides from any nitric acid plant built or installed on and after January 1, 1973, in excess of three (3) pounds (calculated as nitrogen dioxide) per ton of acid produced.

Rule 2.4. No person shall cause, suffer, allow or permit the emission of nitrogen oxides in excess of three hundred (300) ppm from any source except fuel-burning equipment, which is regulated by Rule 2.1; nitric acid plants, which are regulated by Rule 2.2 and Rule 2.3; Portland cement plants, which are regulated by Rule 2.6; and emergency generators, which are regulated by Rule 2.7.

Rule 2.5. All sampling of emissions from any source of nitrogen oxides and all analyses of samples to determine the amount of nitrogen oxides in such samples shall be conducted as specified by techniques promulgated by the board.

Rule 2.6. No owner or operator of any Portland cement plant shall cause, suffer, allow or permit the emission of nitrogen oxides (NO_x) in excess of seven hundred and fifty (750) parts per million when averaged over any three (3) consecutive hour period. After April 30, 2007, the owner or operator of any Portland cement kiln subject to this rule shall not operate the kiln during May 1 through September 30 unless the kiln has installed and operates during May 1 through September 30 with at least one (1) of the following:

(a) Low-NO_x burners;

(b) Mid-kiln system firing;

(c) Alternative control techniques approved by the Director and the EPA and achieving the same emissions decreases as low-NO_x burners or mid-kiln system firing; or

(d) Reasonably available control technology approved by the Director and the EPA.

By April 30, 2007, the owner or operator of a cement kiln subject to this rule shall provide the Director with a statement confirming that the kiln is subject to the rule and a report demonstrating compliance with the requirements of the rule. If compliance is achieved by the use of prescribed equipment, the compliance demonstration shall be a written certification that the equipment is installed and in use. By October 31, 2007, the owner or operator shall provide the Director a report documenting the NO_x emissions for the period of May 1, 2007, through September 30, 2007. Beginning in 2008, an annual report documenting NO_x emissions for May 1 through September 30 of each year shall be submitted to the director by October 31 of that year. The annual report shall include a certification that the kiln has continued to be in compliance with this rule as stated in the initial compliance certification.

Rule 2.7. For the purposes of this rule, "emergency generator" is defined as a generator used when loss of primary electrical power occurs for reasons beyond the control of the source. In no event shall an emergency generator emitting in excess of one thousand five hundred (1,500) parts per million be operated for a period of time longer than five (5) consecutive days or more than a total of twenty (20) days in any calendar year, unless a source demonstrates to the director with clear and convincing evidence that reasonably unforeseeable events beyond the control of the source require use of the emergency generator for an additional period of time. The source shall maintain a written record of each loss of primary electrical power, including a record of the cause and a record of the duration of the loss. Such written record shall be retained for a period of not less than two (2) years and shall be available to the director upon request. Periodic start-up of an emergency generator to test proper functioning shall not be subject to these recordkeeping requirements.

Rule 3. Visible Emission Regulations.

Rule 3.1. No person shall cause, suffer, allow or permit visible emissions from any air contaminant source with an opacity in excess of twenty percent (20%) for an aggregate of more than five (5) minutes in any one (1) hour or more than twenty (20) minutes in any twenty-four (24) hour period; provided, however, that the time limitations as set forth in Rule 7.1 apply to incinerators, but all other provisions of Rule 3 shall apply to incinerators.

Rule 3.3. It is expressly intended that in testing compliance with Rule 3.1 that visible emissions will be evaluated in terms of equivalent opacity and expressed as percent opacity.

Rule 3.4. Visible emissions from fuel-burning equipment used exclusively to provide space heating in a building not containing more than two (2) dwelling units shall not be subject to the provisions of this Rule 3.

Rule 3.5. Regardless of the visible emission limitation contained in this Rule 3, all sources identified in Rule 15, Rule 16, Rule 18, Rule 26, and Rule 27 in this section and in section 4-8(e) (Construction and modification permit, nonattainment areas) of this chapter shall comply with the visible emission limitations set pursuant to those rules or that section.

Rule 3.6. Visible emissions from nonstack emission points at coke plants shall not be subject to the provisions of this Rule 3, but shall be subject to the opacity limitations of Rule 26.4.

Rule 4. Regulation of the Importation, Sale, Transportation, Use or Consumption of Certain Fuels.

Rule 4.1. It shall be unlawful for any persons to import, sell, offer for sale, expose for sale, exchange, deliver or transport for use and consumption in the city, or to use or consume in the city, any fuel containing in excess of four percent (4%) sulfur content by weight for fuel-burning equipment regulated under Rule 8 and Table 1. Fuels with sulfur contents greater than allowed in this rule may be burned, used and consumed, and may be delivered by any person to any user, provided such user utilizes methods or processes or a combination of methods or processes approved in writing by the director which will limit the emission of sulfur dioxide from the source to a quantity or rate not greater than that which would result from the use of a low sulfur fuel as specified in the first part of this rule. Any person who desires to sell, offer for sale, expose for sale, exchange, deliver or transport for use and consumption any fuel with sulfur content greater than allowed as hereinabove set forth upon the basis that the user utilizes methods or processes approved in writing by the director as hereinabove set forth must have in his possession at the time of sale, offer for sale, exposure for sale, exchange, delivery or transport an exact reproduced copy of the approval by the director as hereinabove provided for, which approval must at that time be valid, effective and unrevoked. Sale, offer for sale, exposure for sale, exchange, delivery or transport for use and consumption in the absence of such copy of such valid, effective and unrevoked written approval shall be prima facie a violation of this rule and the burden shall be upon the person charged to establish that written and effective approval had been extended by the director as hereinabove provided.

Rule 4.2. To determine compliance with Rule 4.1 above, the board is authorized under this chapter to make, or obtain tests of fuel when it deems necessary to determine compliance.

(1) An adequate supply of the fuel, ready for use, must be made available to the director to conduct whatever tests in accordance with A.S.M.E., P.T.C. 3.2-1954 he deems necessary.

(2) Any person whose fuel is submitted to such tests must pay all expenses necessary to conduct the tests when found to be in violation.

(3) Tests certified by a competent person approved by the director may be accepted by the director as the tests required by this rule.

Rule 4.3. The provisions of Rule 4 shall become effective on and after October 14, 1970.

Rule 4.4. The director or his representative may examine the weigh bills for all fuels delivered to and by all fossil fuel dealers by any means of transportation.

Rule 5. Prohibition of Hand-Fired Fuel-Burning Equipment.

Rule 5.1. All operation or use of hand-fired fuel-burning equipment with solid fuels is prohibited.

Rule 5.2. Rule 5.1 shall not apply to fuel-burning equipment used exclusively for heating a dwelling designed and used for occupancy of less than three (3) families.

Rule 6. Prohibition of Open Burning.

Rule 6.1. No person shall cause, suffer, allow or permit open burning except as provided in Rule 6.3, 6.4, and 6.5. No person shall cause, suffer, allow or permit controlled burning except as provided in Rule 6.6. No person shall fail or refuse to take all reasonable and necessary steps and precautions to prevent open or controlled burning upon any premises owned, occupied or under the control of such person. No person shall fail or refuse to take all reasonable and necessary steps and precautions to extinguish or otherwise terminate and abate any open or controlled burning which has originated through any cause whatsoever upon any premises owned, occupied or under the control of such person or upon premises upon which such person is carrying out any operation or activity.

Rule 6.2. No person shall conduct a salvage operation by open burning.

Rule 6.3. Open Burning. Open burning of vegetation and raw, untreated, non-manufactured wood materials, thoroughly dried to facilitate efficient combustion while minimizing smoke caused by naturally occurring moisture contained in vegetative materials ("clean wood materials") may be permitted only in the months of October, November, December, January, February, March and April, provided that the following conditions are met:

(1) An application shall be submitted to the director stating the reason why there is no other method of disposal, the amount of material to be burned, and the location of material to be burned;

(2) A non-refundable application fee of seventy-five dollars ($75.00) shall be included with the application, which fee shall be collected by the Bureau and remitted to the City of Chattanooga finance officer as fiscal agent for the Board;

(3) No burning shall occur until such inspection of the material as may be required by the bureau is conducted, a permit has been issued and the permit has been received by the applicant;

(4) The size of the piles of material to be burned shall not exceed eight (8) feet by eight (8) feet by eight (8) feet and no pile shall be within one hundred (100) feet of the nearest structure or within fifty (50) feet of wooden or plastic fencing not owned by the permittee. No brush in excess of twelve (12) inches in diameter and no tree stumps shall be burned;

(5) Burning may only be conducted on days of low air pollution potential, as determined by the Director. In addition, burning may not be allowed during periods of high winds, dry conditions, or low humidity, as determined by the Director;

(6) Only clean fuel not containing garbage, rubber, tires, plastics, roofing materials, tar paper or other refuse shall be allowed for the startup of fires;

(7) Burning will only be allowed during the following hours on days approved pursuant to subparagraph (5) above. The burning shall be completed by, and completely extinguished by, the end of the time period set forth below. Dirt shall not be used to attempt to extinguish the burning. No smoke or smoldering is allowed after the termination time;

October 1 through November 3	9:00 a.m.—4:00 p.m.

November 4 through December 31	9:00 a.m.—3:30 p.m.
January 1 through February 15	9:00 a.m.—4:00 p.m.
February 16 through March 13	9:00 a.m.—5:00 p.m.
March 14 through April 30	9:00 a.m.—6:00 p.m.

Burning will not be deemed extinguished if smoke or smoldering is present or if dirt is used to cover a burn pile.

(8) The burning must be attended at all times by a person 16 years or older who shall have adequate means of extinguishing the fire available and is capable of doing so;

(9) The permit may be revoked or suspended at any time at the site where there is a violation of the permit conditions or of this Rule, with the right to a hearing before the director or the Air Pollution Control Board;

(10) The permit must be kept at or near the burn site and be readily available for inspection;

(11) The permit is not valid until signed by the applicant signifying that the permit conditions have been read and understood;

(12) The person conducting the burning shall contact the local fire agency each day before burning;

(13) Any permit issued will remain valid until the expiration date of the permit, unless revoked or suspended.

(14) Burning is allowed only at the location set forth in the application and only for materials removed or generated from the burn site address. Burning of waste generated as a result of a commercial operation is prohibited.

(15) Burning shall not be conducted where an obvious nuisance or safety hazard is present.

Rule 6.4. Open Burning Exemptions. Open burning shall be allowed without compliance with Rule 6.3 only in the following specifically listed instances:

(1) Fires used only for cooking of food or for ceremonial or recreational purposes (recreational fires are limited in size to three (3) feet in diameter and two (2) feet high), including barbecues and outdoor fireplaces, but only if such fires are fueled with clean fuel for that particular purpose (clean seasoned wood, gas, charcoal, wood pellets, or fire logs). Smoke or ash from cooking, ceremonial, or recreational fires shall not create a nuisance beyond the boundary of the property where the burning is occurring. Cooking, ceremonial, or recreational fires shall not be left unattended and shall be completely extinguished when the purpose of the fire is completed;

(2) Fires set by or at the direction of responsible fire control agencies for the prevention, elimination or reduction of the spread of existing fires;

(3) Safety flares and smokeless flares; except those for the combustion of waste gases. Flares for the combustion of waste gases shall comply with the permitting provisions of section 4-8 of this chapter and any other applicable requirement;

(4) Open burning used solely for the purpose of warming persons who are in the out-of-doors performing work and conducting lawful activities, provided such fires use only clean, raw, untreated, non-manufactured wood, not containing garbage, rubber, plastics, roofing materials, tar paper, cardboard, paperboard or other refuse;

(5) Operation of devices using open flames such as tar kettles, blow torches, cutting torches, portable heaters and other flame-producing equipment.

Rule 6.5. Open Burning Exceptions. Open burning may be allowed without a permit in the following instances provided a written statement, such as is required in Rule 6.3(1), is filed with the director and written approval is given by the director:

(1) Fires set for the training and instruction of public or private fire-fighting personnel, including those in civil defense provided such training is conducted in accordance with National Fire Protection Association standards;

(2) Carrying out recognized Best Management Practices for Agriculture necessary for production of crops;

(3) The director may allow open burning prohibited during the months of May, June, July, August and September upon a determination that such open burning is necessary to protect public health, safety or welfare of the people, or there are no reasonable alternatives, e.g. disposal of vegetative debris from storm damage. The action of the director shall be in writing.

Rule 6.6. Controlled Burning. Clearing and burning of two (2) or more acres of vegetation within a one (1)-year period, including burning for silvicultural purposes, requires controlled burning and compliance with the following enumerated conditions. Controlled burning may be permitted by the Director only in the months of October, November, December, January, February, March and April. Controlled burning, other than for silvicultural purposes, requires the use a pit and an air curtain destructor. Burning for silvicultural purposes requires the use of special equipment designed for that purpose.

(1) Controlled burning (other than burning for silvicultural purposes) requires the continuous use of a pit and an effective air curtain destructor to maintain the necessary air velocity to minimize to the absolute extent practical any emission of fly ash and/or smoke;

(2) To obtain a controlled burning permit, a signed application shall be submitted to the director including the following:

   a. Complete plans and details of the method and equipment to be used for the control of such burning must be approved by the director before the permit shall issue;

   b. The names of those in charge of the equipment and those in charge of the site and how they may be contacted must be furnished;

(3) A non-refundable application fee of six hundred twenty-five dollars ($625.00) shall be included with the application, which fee shall be collected by the Bureau and remitted to the City of Chattanooga finance officer as fiscal agent for the Board;

(4) Written approval is received from the director in the form of a controlled burning permit with conditions determined by the director;

(5) The pit shall be cleaned of ash on a daily basis;

(6) Brush in the pit shall not be piled above the pit surface;

(7) The persons in charge of the equipment shall notify the fire department serving the area in which the burning occurs at the beginning of each day's burn and the completion of each day's burn;

(8) The person in charge of the equipment must have an operating telephone at the site at all times during operation of the equipment;

(9) There shall be enough fuel at the site to maintain operation of the air curtain destructor without interruption;

(10) Any modification to the pit design or location must be approved by the director prior to the modification;

(11) The permit may be revoked or suspended at any time at the site where there is a violation of the permit or of this Rule, with the right to a hearing before the Director or the Air Pollution Control Board;

(12) Burning will only be allowed during the following hours on days of low air pollution potential, as determined by the Director. In addition, burning may not be allowed during periods of high winds, dry conditions, or low humidity, as determined by the Director. The burning shall be completed by, and completely extinguished by, the end of the time period set forth below. Dirt shall not be used to attempt to extinguish the burning. No smoke or smoldering is allowed after the termination time;

October 1 through November 3	9:00 a.m.—4:00 p.m.
November 4 through December 31	9:00 a.m.—3:30 p.m.
January 1 through February 15	9:00 a.m.—4:00 p.m.
February 16 through March 13	9:00 a.m.—5:00 p.m.
March 14 through April 30	9:00 a.m.—6:00 p.m.

Burning will not be deemed extinguished if smoke or smoldering is present or if dirt is used to cover a burn pile.

(13) The burning must be attended at all times;

(14) The permit must be kept at or near the burn site and be readily available for inspection;

(15) The permit is not valid until signed by the applicant signifying that the permit conditions have been read and understood;

(16) Any permit issued will remain valid until the expiration date of the permit, unless revoked or suspended.

(17) Applicant shall review the permit conditions with all parties that will be involved with the controlled burning process.

Rule 7. Incinerator Regulation.

Rule 7.1. No person shall cause, suffer, allow or permit discharge of a visible emission from any incinerator with an opacity equal to or in excess of twenty percent (20%) for an aggregate of more than three (3) minutes in any one (1) hour or more than twelve (12) minutes in any twenty-four (24) hour period.

Rule 7.2. No person shall cause, suffer, allow or permit particulate emission from any incinerator in excess of one-tenth (0.1) pounds per one hundred (100) pounds charge or in excess of the following:

Input (lbs. per hour)	Maximum Allowable Emissions (grains per std. dry cu. ft.)
0—5000	0.20
5001 and above	0.15

Test results shall be calculated (1) to twelve percent (12%) carbon dioxide for products of combustion, (2) to standard conditions. This limitation shall be met when the incinerator is operating at full load. In measuring emissions from incinerators the carbon dioxide produced by combustion of any liquid or gaseous fuels shall be excluded from the calculation to a maximum of twelve percent (12%) carbon dioxide.

Tests to determine compliance with this rule shall be conducted as provided in sections 4-3, 4-8, and 4-11 of this chapter.

Rule 7.3. All incinerators constructed after October 14, 1969, shall be of the multiple chamber design consisting of three (3) or more refractory lined combustion furnaces connected in series and when operating shall (1) create a preignition temperature of eight hundred degrees (800°) Fahrenheit in the primary furnace and (2) maintain a temperature of fifteen hundred degrees (1,500°) Fahrenheit in the secondary furnace.

Designs other than those outlined above shall be considered on an individual basis and will be exempt from these provisions, if such design results in performance which meets the standards set forth in Rules 7.1 and 7.2 above.

Rule 7.4. Reserved.

Rule 7.5. On and after March 1, 1973, the person in responsible charge of the operation of an incinerator (including a cremation system) must be licensed by the Bureau. Such license shall be issued only after a passing score is received on a standardized test to be devised and administered by the bureau. The bureau shall test persons on their knowledge of the principles of incineration, including but not necessarily limited to the subjects of preignition, firing and cleaning. The Bureau shall have the power to collect a one (1) time fee of one hundred dollars ($100.00) pursuant to the issuance of such license. Such fee shall be collected by the Bureau and remitted to the City of Chattanooga finance officer as fiscal agent for the Board. The Director shall have the authority to suspend or revoke such license if the person holding such license willfully or by reason of incompetence violates any provision of this chapter. No license issued in accordance with the provisions of this rule shall be assignable or transferable. The failure to issue a license, or suspension or revocation of such license, shall be an order or determination of the Director within the meaning of Section 4-18(e) of this chapter.

Rule 7.6. The board has found that the ambient air quality standards for particulate matter are being violated in a portion of the city. The emission limitations for plants in existence prior to January 1, 1978, which are located in the particulate matter nonattainment area or which have a significant impact upon the particulate nonattainment area are to be found in Rule 26. The emission limitations that are found in Rule 26 are in addition to the limitations contained in this Rule 7.

Rule 8. Fuel-Burning Equipment Regulations.

Rule 8.1. No person shall cause, suffer, allow or permit the emission of air contaminants from fuel-burning equipment built or installed before January 1, 1973, in excess of that provided in Schedule 1 of Table 1 and the provisions of Rule 8.3.

Rule 8.2. No person shall cause, suffer, allow or permit the emission of air contaminants from fuel-burning equipment built or installed on and after January 1, 1973, in excess of that provided in Schedule 2 of Table 1.

Rule 8.3. The emission or escape into the open air of fly ash, particulate matter or other air contaminants, resulting from the combustion of fuel, from any fuel-burning equipment or from any stack connected thereto, in quantities exceeding the limits specified in Table 1 for the size of equipment involved is prohibited. The emission limitations specified in Table 1 are the maximum allowable emission in any consecutive sixty (60) minute period. The limitations, subject to linear interpolation, are to be conformed to when the fuel-burning equipment is operating at the maximum design heat input rating. The heat input rating of any unit discharging to a single stack shall be the maximum design input rating, including both heat available from burning of fuel and any sensible heat from materials introduced into the combustion zone at temperatures above the ambient air temperature. When two (2) or more fuel-burning units are connected to a single stack, the combined fuel-burning capacity of all units connected to the stack denotes the size of equipment in terms of Btu input for establishing the maximum allowable emission. When one (1) fuel-burning unit is connected to two (2) or more stacks, the heat input of the equipment shall be the criterion for the maximum allowable total emission from all stacks combined.

Tests to determine compliance with this rule shall be conducted as provided in sections 4-3, 4-8 and 4-11 of this chapter.

Rule 8.4. Fuel-burning equipment located in dwellings designed for not more than two (2) families are exempt from the operation of Rule 8.

Rule 8.5. The board has found that the ambient air quality standards for particulate matter are being violated in a portion of the city. The emission limitations for plants in existence prior to January 1, 1978, which are located in the particulate matter nonattainment area or which have a significant impact upon the particulate nonattainment area are to be found in Rule 26. The emission limitations that are found in Rule 26 are in addition to the limitations contained in this Rule 8.

TABLE 1
EMISSION LIMITATIONS FOR FUEL-BURNING EQUIPMENT

Use the following formulas:

Equipment Rating	*Maximum Allowable Particulate Emissions (lbs./hr.)*	
(10^6 Btu/hr.)	*Schedule 1*	*Schedule 2*
Below 10	$Q = 0.6 \times B$	$Q = 0.6 \times B$
10 to 250	$Q = 1.09 \times B^{0.7406}$	$Q = 2.16 \times B^{0.4434}$
250 and above	$Q = 1.09 \times B^{0.7406}$	$Q = 0.1 \times B$

Where:

Q = maximum allowable particulate emission in pounds per hour.

B = the burning rate in 10^6 Btu/hr.

Determine intermediate values by linear interpolation.

Rule 9. Regulation of Visible Emissions from Internal Combustion Engines.

Rule 9.1. No person shall cause, suffer, allow or permit the emission of visible air contaminants from any spark ignition engine of ten (10) brake horsepower or more:

(1) For a period of time exceeding ten (10) seconds; or

(2) After the vehicle has moved one hundred (100) yards or more from its initial starting point.

Rule 9.2. No person shall cause, suffer, allow or permit the visible emission of air contaminants from a diesel type engine for a period of more than sixty (60) consecutive seconds in excess of twenty percent (20%) opacity.

Rule 9.3. Responsibility for compliance with Rules 9.1 and 9.2 applies to the owner, the registered owner, the lessee and the operator, individually, and each shall be jointly or severally liable for violation of these rules and subject to the fines and penalties of this chapter.

Rule 9.4. Reserved.

Rule 9.5. Testing in the outdoor atmosphere of internal combustion engines which have been or are to be repaired will be allowed if such tests are performed on the premises of the repairing facility.

Rule 9.6. No motor vehicle which is equipped with a pollution control device shall be modified or altered in any manner which will decrease its efficiency or effectiveness in the control of air pollution.

Rule 9.7. No diesel engine which supplies motive power to a vehicle shall be allowed to idle more than five (5) consecutive minutes when the vehicle is not in motion, except when the vehicle is forced to remain motionless because of traffic conditions over which the operator has no control; provided, however, that any diesel engine which supplies motive power to a truck or locomotive shall be allowed to idle for more than five (5) consecutive minutes when it is at a distance in excess of five hundred (500) feet from the nearest residential, recreational, institutional, retail sales, hotel or educational premises.

Rule 10. Process Emissions Regulations.

Rule 10.1. All installations, operations or equipment, except fuel-burning equipment and incinerators, from which any air contaminant is, or may be, emitted or permitted to escape into the open air shall comply with the provisions of this rule. The emission limitations specified in Table 2 are the maximum allowable emissions in any consecutive sixty (60) minute period.

Rule 10.2. No person shall cause, suffer, allow or permit emission from any air contaminant source built or installed before the first day of January, 1973, in excess of that provided in Schedule 1 of Table 2.

Rule 10.3. No person shall cause, suffer, allow or permit emission from any air contaminant source built or installed on and after January 1, 1973, in excess of that provided in Schedule 2 of Table 2.

Rule 10.4. Tests to determine compliance with this Rule 10 shall be conducted as provided in sections 4-3, 4-8 and 4-11 of this chapter; provided, however, that compliance with this Rule 10 does not exempt such persons from compliance with any other rule or section of this chapter applicable to emissions.

Rule 10.5. The board has found that the ambient air quality standards for particulate matter are being violated in a portion of the city. The emission limitations for plants in existence prior to January 1, 1978, which are located in the particulate matter nonattainment area or which have a significant impact upon the particulate nonattainment are to be found in Rule 26 are in addition to the limitations contained in this Rule 10.

Rule 10.6. Any other provision of this chapter notwithstanding, no person shall cause, suffer, allow or permit the discharge of particulate emissions from any asphalt plant with an input process weight rate greater than two hundred thousand (200,000) pounds per hour in excess of fifty-one and two-tenths (51.2) pounds per hour.

Rule 10.7. Irrespective of the maximum allowable particulate emission limitations contained in Table 2 of this Rule 10, no person shall cause, suffer, allow or permit the discharge of particulate emissions from process equipment in excess of 0.25 grains per cubic foot of stack gases corrected to seventy degrees (70°) Fahrenheit and one (1) atmosphere. This Rule 10.7 shall not apply to vents from storage tanks for liquids.

TABLE 2
PARTICULATE MATTER EMISSION LIMITATIONS FOR PROCESS EQUIPMENT

Input Process Weight Lbs./hour	*Input Process Weight Tons/hour*	*Maximum Allowable Emission Rate Schedule 1*[*1]	*Maximum Allowable Emission Rate Schedule 2*[*2]
50	0.025	0.346	0.36
100	0.05	0.551	0.55
200	0.10	0.877	0.86
400	0.20	1.40	1.32
600	0.30	1.83	1.70
800	0.40	2.22	2.03
1,000	0.50	2.58	2.34
1,500	0.75	3.38	3.00
2,000	1.00	4.10	3.59
2,500	1.25	4.76	4.12
3,000	1.50	5.38	4.62
3,500	1.75	5.96	5.08
4,000	2.00	6.52	5.52
5,000	2.50	7.58	6.34
6,000	3.00	8.56	7.09
7,000	3.50	9.49	7.81
8,000	4.00	10.4	8.50
9,000	4.50	11.2	9.10
10,000	5.00	12.0	9.70
12,000	6.00	13.6	10.9
16,000	8.00	16.5	13.0
18,000	9.00	17.9	14.0
20,000	10.00	19.2	15.0
30,000	15.00	25.2	19.2
40,000	20.00	30.5	23.0
50,000	25.00	35.4	26.4
60,000	30.00	40.0	29.6
70,000	35.00	41.3	30.6
80,000	40.00	42.5	31.2
90,000	45.00	43.6	31.8
100,000	50.00	44.6	32.4
120,000	60.00	46.3	33.3
140,000	70.00	47.8	34.2
160,000	80.00	49.0	34.9
200,000	100.00	51.2	36.1
1,000,000	500.00	69.0	46.7
2,000,000	1,000.00	77.6	52.3

Input Process Weight Lbs./hour	*Input Process Weight Tons/hour*	*Maximum Allowable Emission Rate Schedule 1*[*1]	*Maximum Allowable Emission Rate Schedule 2*[*2]
6,000,000	3,000.00	92.7	62.3

*[1] Interpolation of the data in Schedule 1 for process weight rates up to sixty thousand (60,000) pounds per hour shall be accomplished by using the following equation: $E = 4.10\ P^{0.67}$.

Interpolation and extrapolation of the data for process weight rates in excess of 60,000 lbs/hour shall be accomplished by using the following equation:

$$E = 55.0\ P^{0.11} - 40$$

Where: E = Maximum allowable emission rate in lbs/hour

P = Process weight rate in tons/hour

*[2] Interpolation of the data in Schedule 2 for process weight rates up to sixty thousand (60,000) pounds per hour shall be accomplished by the use of the following equation:

$$E = 3.59\ P^{0.62}$$

Interpolation and extrapolation of the data for process weight rates in excess of sixty thousand (60,000) pounds per hour shall be accomplished by the use of the following equation:

$$E = 17.31\ P^{0.16}$$

Where: E = Maximum allowable emission rate in lbs/hour, and

P = Process weight rate in tons per hour

Rule 11. Regulation of Transporting and Material Handling in Open Air.

Rule 11.1. No person shall cause or permit the handling, processing or storage of any material in the open air in a manner which allows or may allow particulate matter to become airborne which exceeds twenty percent (20%) opacity for more than three (3) minutes in any consecutive sixty-minute period, or more than twenty (20) minutes in any twenty-four (24) hour period.

Rule 11.2. No person shall cause or permit a building or its appurtenances, a road, a driveway, a parking area or an open area to be constructed, used, repaired or demolished without applying all such reasonable measures as may be required to prevent particulate matter from becoming airborne. The director may require such reasonable measures as may be necessary to prevent particulate matter from becoming airborne including but not limited to paving or cleaning of roads, driveways and parking, areas; by the application of dust free surfaces; by the application of water; and by the planting and maintenance of vegetative ground cover.

Rule 11.3. No person shall transport any material in the open air in a manner which allows or may allow particulate matter to become airborne beyond the boundary line of the property of the person doing the transporting.

Rule 12. Regulation of Odors in the Ambient Air.

Rule 12.1. Prohibited. No person or permitted business shall cause, keep or permit any material, substance or condition which is, or is likely to become, a public nuisance, by the emission of noxious odors, fumes, dusts, vapors, or gases that are offensive.

Rule 12.2. Definition. Noxious Odor is the sensation of smell perceived as a result of olfactory stimulation. An odor is deemed offensive, and therefore a nuisance, when one-third (1/3) or more of a sample of persons exposed to it believe it to be objectionable in usual places of occupancy. The sample size is to be at least twenty-five (25) persons, or when fewer than twenty-five (25) are exposed, at least eight (8)

persons believe it to be objectionable beyond the property's boundaries of the subject property. No person or permitted business shall cause, suffer, allow or permit emission such as to cause an "offensive" odor on or adjacent to residential, recreational, institutional, retail sales, hotel or educational premises.

Rule 12.3. Odor Impacts. Odors from animals or fowl, animal or fowl manure or other animal or fowl-related substances shall constitute a nuisance as set forth within Rule 12.1 if the odor is deemed offensive at the property boundaries and any property owner or permitted business fails to comply with the applicable regulations and performance standards of the Food Safety and Inspection Service, U.S. Department of Agriculture at 9 CFR §416, 21 CFR §110, or other applicable federal standards after notice to a permitted business by the Air Pollution Control Board.

Rule 12.4. Animal Care and Sanitation. Any animals or fowl within the city shall be kept in a clean, sanitary and healthful condition. Manure, animal waste or fecal matter, feathers, fur, hair or other animal or fowl debris shall not be allowed to accumulate on any public or private property or contaminate the city's storm water or sewer drainage systems and must comply with all performance standards of the Food Safety and Inspection Service, U.S. Department of Agriculture at 9 CFR §416, 21 CFR §110, or other applicable federal standards. Any such accumulation or contamination that is not in compliance with any valid issued permit is hereby declared to be a public nuisance. For the slaughter of poultry, all blood, feathers and offal shall be deposited in appropriate containers with a suitable top, and such containers shall be kept closed at all times, except when being filled or discharged as required by applicable federal standards. Nothing in this ordinance creates any private right of action or basis for a private civil action. Furthermore, nothing in this ordinance defines a nuisance for any private civil action.

Rule 13. Regulation of Sulfur Oxides.

Rule 13.1. No person shall cause, suffer, allow or permit the emission of gas containing sulfur dioxide from any source, except fuel-burning equipment, in excess of five hundred (500) ppm.

Rule 13.2. No person shall cause, suffer, allow or permit the emission from fuel-burning equipment of sulfur dioxide gas in excess of four (4) pounds per million Btu of fuel consumed in the equipment.

Rule 13.3. All sampling of exhaust gases from any source of sulfur dioxide, and all analyses of samples to determine the amount of sulfur dioxide in exhaust gases, shall be conducted as specified by techniques promulgated by the board.

Rule 13.4. For the purposes of this Rule 13, all sulfur present in gaseous compounds and containing oxygen shall be deemed to be present as sulfur dioxide.

Rule 13.5. Compliance with this Rule 13 shall not relieve a person from the requirements of Rule 12 or from the requirements of any other rules or provisions of this chapter.

Rule 14. Nuisances.

Rule 14.1. No person shall cause, suffer, allow or permit or fail to take reasonable steps to abate or terminate the discharge from any source whatsoever of air contaminants or other material which shall cause injury, detriment, nuisance or annoyance of the public or which endanger the comfort, repose, health or safety of the public or which cause or have a tendency to cause injury or damage to business or property.

Rule 14.2. No person shall cause, suffer, allow or permit or fail to take reasonable steps to abate or terminate the discharge from any source whatsoever of air contaminants or water or steam or a combination of such which cause, or combine with natural elements to cause, the reduction of visibility across any road or thoroughfare to such an extent as to cause a hazard.

Rule 14.3. Nothing in any other section of this chapter relating to regulation of emission or pollutants shall in any manner be construed as authorizing or legalizing the creation or maintenance of a nuisance as described in this Rule 14 or as may otherwise be deemed by law to be a nuisance.

Rule 15. New Source Performance Standards and Standards for Landfills.

Rule 15.1. The provisions of Title 40 Code of Federal Regulations Part 60 "Standards of Performance for New Stationary Sources," Subparts A, D, Da, Db, Dc, E, Ea, Eb, Ec, F, G, Ga, H, I, J, Ja, K, Ka, Kb, L, M, N, Na, O, P, Q, R, S, T, U, V, W, X, Y, Z, AA, AAa, BB, BBa, CC, DD, EE, GG, HH, KK, KKa, LL, MM, MMa, NN, PP, QQ, RR, SS, TT, UU, VV, VVa, WW, XX, AAA, BBB, DDD, FFF, GGG, GGGa, HHH, III, JJJ, KKK, LLL, NNN, OOO, PPP, QQQ, RRR, SSS, TTT, TTTa, UUU, VVV, WWW, XXX, AAAA, CCCC, EEEE, IIII, JJJJ, KKKK, LLLL, OOOO, OOOOa, QQQQ, and TTTT and Appendices A-1, A-2, A-3, A-4, A-5, A-6, A-7, A-8, B, C, D, F, and I (Revised as of July 1, 2023) are hereby incorporated by reference in Chapter 4 as requirements of this municipality pursuant to the provisions of T.C.A. § 68-201-115 and § 10-7-121. The following subparts and appendices are included:

Subpart A—	General Provisions
Subpart D—	Fossil-Fuel-Fired Steam Generators
Subpart Da—	Electric Utility Steam Generating Units
Subpart Db—	Industrial-Commercial-Institutional Steam Generating Units
Subpart Dc—	Small Industrial-Commercial-Institutional Steam Generating Units
Subpart E—	Incinerators
Subpart Ea—	Municipal Waste Combustors for Which Construction is Commenced After December 20, 1989 and On or Before September 20, 1994
Subpart Eb—	Large Municipal Waste Combustors for Which Construction is Commenced After September 20, 1994 or for Which Modification or Reconstruction is Commenced After June 19, 1996
Subpart Ec—	Hospital/Medical/Infectious Waste Incinerators
Subpart F—	Portland Cement Plants
Subpart G—	Nitric Acid Plants
Subpart Ga—	Nitric Acid Plants for Which Construction, Reconstruction, or Modification Commenced After October 14, 2011
Subpart H—	Sulfuric Acid Plants
Subpart I—	Hot Mix Asphalt Facilities
Subpart J—	Petroleum Refineries
Subpart Ja—	Petroleum Refineries for Which Construction, Reconstruction, or Modification Commenced After May 14, 2007
Subpart K—	Storage Vessels for Petroleum Liquids for Which Construction, Reconstruction, or Modification Commenced After June 11, 1973, and Prior to May 19, 1978
Subpart Ka—	Storage Vessels for Petroleum Liquids for Which Construction, Reconstruction, or Modification Commenced After May 18, 1978, and Prior to July 23, 1984
Subpart Kb—	Volatile Organic Liquid Storage Vessels (Including Petroleum Liquid Storage Vessels) for Which Construction, Reconstruction, or Modification Commenced After July 23, 1984
Subpart L—	Secondary Lead Smelters
Subpart M—	Secondary Brass and Bronze Production Plants
Subpart N—	Primary Emissions from Basic Oxygen Process Furnaces for Which Construction is Commenced After June 11, 1973

Subpart Na—	Secondary Emissions from Basic Oxygen Process Steelmaking Facilities for Which Construction is Commenced After January 20, 1983
Subpart O—	Sewage Treatment Plants
Subpart P—	Primary Copper Smelters
Subpart Q—	Primary Zinc Smelters
Subpart R—	Primary Lead Smelters
Subpart S—	Primary Aluminum Reduction Plants
Subpart T—	Phosphate Fertilizer Industry: Wet Process Phosphoric Acid Plants
Subpart U—	Phosphate Fertilizer Industry: Superphosphoric Acid Plants
Subpart V—	Phosphate Fertilizer Industry: Diammonium Phosphate Plants
Subpart W—	Phosphate Fertilizer Industry: Triple Superphosphate Plants
Subpart X—	Phosphate Fertilizer Industry: Granular Triple Superphosphate Storage Facilities
Subpart Y—	Coal Preparation and Processing Plants
Subpart Z—	Ferroalloy Production Facilities
Subpart AA—	Steel Plants: Electric Arc Furnaces Constructed After October 21, 1974 and On or Before August 17, 1983
Subpart AAa—	Steel Plants: Electric Arc Furnaces and Argon-Oxygen Decarburization Vessels Constructed After August 17, 1983
Subpart BB—	Kraft Pulp Mills
Subpart BBa—	Kraft Pulp Mill Affected Sources for Which Construction, Reconstruction, or Modification Commenced After May 23, 2013
Subpart CC—	Glass Manufacturing Plants
Subpart DD—	Grain Elevators
Subpart EE—	Surface Coating of Metal Furniture
Subpart GG—	Stationary Gas Turbines
Subpart HH—	Lime Manufacturing Plants
Subpart KK—	Lead-Acid Battery Manufacturing Plants for Which Construction, Reconstruction, or Modification Commenced After January 14, 1980, and On or Before February 23, 2022
Subpart KKa—	Lead-Acid Battery Manufacturing Plants for Which Construction, Modification or Reconstruction Commenced After February 23, 2022
Subpart LL—	Metallic Mineral Processing Plants
Subpart MM—	Automobile and Light Duty Truck Surface Coating Operations for Which Construction, Modification or Reconstruction Commenced After October 5, 1979, and On or Before May 18, 2022
Subpart MMa—	Automobile and Light Duty Truck Surface Coating Operations for Which Construction, Modification or Reconstruction Commenced After May 18, 2022
Subpart NN—	Phosphate Rock Plants
Subpart PP—	Ammonium Sulfate Manufacture
Subpart QQ—	Graphic Arts Industry: Publication Rotogravure Printing
Subpart RR—	Pressure Sensitive Tape and Label Surface Coating Operations
Subpart SS—	Industrial Surface Coating: Large Appliances

Subpart TT—	Metal Coil Surface Coating
Subpart UU—	Asphalt Processing and Asphalt Roofing Manufacture
Subpart VV—	Equipment Leaks of VOC in the Synthetic Organic Chemicals Manufacturing Industry for Which Construction, Reconstruction, or Modification Commenced After January 5, 1981, and on or Before November 7, 2006
Subpart VVa—	Equipment Leaks of VOC in the Synthetic Organic Chemicals Manufacturing Industry for Which Construction, Reconstruction, or Modification Commenced After November 7, 2006
Subpart WW—	Beverage Can Surface Coating Industry
Subpart XX—	Bulk Gasoline Terminals
Subpart AAA—	New Residential Wood Heaters
Subpart BBB—	Rubber Tire Manufacturing Industry
Subpart DDD—	Volatile Organic Compound (VOC) Emissions from the Polymer Manufacturing Industry
Subpart FFF—	Flexible Vinyl and Urethane Coating and Printing
Subpart GGG—	Equipment Leaks of VOC in Petroleum Refineries for Which Construction, Reconstruction, or Modification Commenced After January 4, 1983, and on or Before November 7, 2006
Subpart GGGa—	Equipment Leaks of VOC in Petroleum Refineries for Which Construction, Reconstruction, or Modification Commenced After November 7, 2006
Subpart HHH—	Synthetic Fiber Production Facilities
Subpart III—	Volatile Organic Compound (VOC) Emissions From the Synthetic Organic Chemical Manufacturing Industry (SOCMI) Air Oxidation Unit Processes
Subpart JJJ—	Petroleum Dry Cleaners
Subpart KKK—	Equipment Leaks of VOC From Onshore Natural Gas Processing Plants for Which Construction, Reconstruction, or Modification Commenced After January 20, 1984, and on or Before August 23, 2011
Subpart LLL—	SO2 Emissions From Onshore Natural Gas Processing for Which Construction, Reconstruction, or Modification Commenced After January 20, 1984, and on or Before August 23, 2011
Subpart NNN—	Volatile Organic Compound (VOC) Emissions From Synthetic Organic Chemical Manufacturing Industry (SOCMI) Distillation Operations
Subpart OOO—	Nonmetallic Mineral Processing Plants
Subpart PPP—	Wool Fiberglass Insulation Manufacturing Plants
Subpart QQQ—	VOC Emissions From Petroleum Refinery Wastewater Systems
Subpart RRR—	Volatile Organic Compound Emissions from Synthetic Organic Chemical Manufacturing Industry (SOCMI) Reactor Processes
Subpart SSS—	Magnetic Tape Coating Facilities
Subpart TTT—	Industrial Surface Coating: Surface Coating of Plastic Parts for Business Machines
Subpart TTTa—	Industrial Surface Coating: Surface Coating of Plastic Parts for Business Machines for Which Construction, Reconstruction, or Modification Commenced After June 21, 2022

Subpart UUU—	Calciners and Dryers in Mineral Industries
Subpart VVV—	Polymeric Coating of Supporting Substrates Facilities
Subpart WWW—	Municipal Solid Waste Landfills That Commenced Construction, Reconstruction, or Modification on or After May 30, 1991, but Before July 18, 2014
Subpart XXX—	Municipal Solid Waste Landfills That Commenced Construction, Reconstruction, or Modification After July 17, 2014
Subpart AAAA—	Small Municipal Waste Combustion Units for Which Construction is Commenced After August 30, 1999 or for Which Modification or Reconstruction is Commenced After June 6, 2001
Subpart CCCC—	Commercial and Industrial Solid Waste Incineration Units
Subpart EEEE—	Other Solid Waste Incineration Units for Which Construction is Commenced After December 9, 2004, or for Which Modification or Reconstruction is Commenced on or After June 16, 2006
Subpart IIII—	Stationary Compression Ignition Internal Combustion Engines
Subpart JJJJ—	Stationary Spark Ignition Internal Combustion Engines
Subpart KKKK—	Stationary Combustion Turbines
Subpart LLLL—	New Sewage Sludge Incineration Units
Subpart OOOO—	Crude Oil and Natural Gas Facilities for which Construction, Modification, or Reconstruction Commenced After August 23, 2011, and on or Before September 18, 2015
Subpart OOOOa—	Crude Oil and Natural Gas Facilities for which Construction, Modification or Reconstruction Commenced After September 18, 2015
Subpart QQQQ—	New Residential Hydronic Heaters and Forced-Air Furnaces
Subpart TTTT—	Greenhouse Gas Emissions for Electric Generating Units
Appendix A-1—	Test Methods 1 through 2F
Appendix A-2—	Test Methods 2G through 3C
Appendix A-3—	Test Methods 4 through 5I
Appendix A-4—	Test Methods 6 through 10B
Appendix A-5—	Test Methods 11 through 15A
Appendix A-6—	Test Methods 16 through 18
Appendix A-7—	Test Methods 19 through 25E
Appendix A-8—	Test Methods 26 through 30B
Appendix B—	Performance Specifications
Appendix C—	Determination of Emission Rate Change
Appendix D—	Required Emission Inventory Information
Appendix F—	Quality Assurance Procedures
Appendix I—	Owner's Manuals and Temporary Labels for Wood Heaters Subject to Subparts AAA and QQQQ of Part 60

Rule 15.2. Wherever the term "Administrator" is used in the new source performance standards, the term "Chattanooga-Hamilton County Air Pollution Control Board or Director of the Chattanooga-Hamilton County Air Pollution Control Bureau" shall be substituted, where appropriate, for the purposes of Rule 15.

Rule 15.3. Emissions Standards for Municipal Solid Waste Landfills.

(a) *Definitions.* All terms defined in this rule shall have the meaning given them herein, and all terms not defined herein shall have the meaning given them in Section 4-2.

(1) *Existing municipal solid waste (MSW) landfill or existing MSW landfill* means an entire disposal facility in a contiguous geographical space where household waste is placed in or on land for which construction, reconstruction or modification was commenced before the effective date of this ordinance. (It should be noted that federal regulations control for sources where construction, reconstruction or modification was commenced before the effective date of this ordinance.) An existing MSW landfill may also receive other types of wastes described in Subtitle D of the Resource Conservation and Recovery Act of 1976 (RCRA), as amended, (Title 42 U.S.C. § 6901 et seq.) such as commercial solid waste, nonhazardous sludge, conditionally exempt small quantity generator waste, and industrial solid waste. Portions of an existing MSW landfill may be separated by access roads. An existing MSW landfill may be publicly or privately owned. Physical or operational changes made to an existing MSW landfill solely to comply with these emission guidelines are not considered a modification or reconstruction and would not subject an existing MSW landfill to the requirements for a new MSW landfill. Activities required by or conducted pursuant to a remedial action pursuant to Title 42 U.S.C. § 9601 et seq. (CERCLA), Title 42 U.S.C. § 6901 et seq. (RCRA), or State remedial action are not considered construction, reconstruction, or modification for purposes of Rule 15.3. For purposes of obtaining an operating permit under Article III. of Chapter 4, Part 70 Source Regulation and Permits, the owner or operator of a MSW landfill subject to Rule 15.3 with a design capacity less than two million five hundred thousand (2,500,000) megagrams or two million five hundred thousand (2,500,000) cubic meters is not subject to the requirement to obtain an operating permit for the landfill under Article III unless the landfill is otherwise subject to Article III. For purposes of submitting a timely application for an operating permit under Article III. Part 70 Source Regulation and Permits, the owner or operator of a MSW landfill subject to Rule 15.3 with a design capacity greater than or equal to two million five hundred thousand (2,500,000) megagrams and two million five hundred thousand (2,500,000) cubic meters on the effective date of approval by U.S. EPA of Rule 15.3, and not otherwise subject to Article III, becomes subject to the requirements of Section 4-56(a)(i) or Title 40 CFR § 71.5(a)(1)(I) ninety (90) days after the effective date of such approval, even if the design capacity report is submitted earlier.

(2) *New municipal solid waste (MSW) landfill or new MSW landfill* means an entire disposal facility in a contiguous geographical space where household waste is placed in or on land for which construction, reconstruction or modification was commenced on or after the effective date of this ordinance. Physical or operational changes made to an existing MSW landfill solely to comply with the provisions of Rule 15.3 that apply to an existing MSW landfill are not considered a modification or reconstruction and would not subject an existing MSW landfill to the requirements in Rule 15.3 for a new MSW landfill. Activities required by or conducted pursuant to a remedial action pursuant to Title 42 U.S.C. § 9601 et seq. (CERCLA), Title 42 U.S.C. § 6901 et seq. (RCRA), or State remedial action are not considered construction, reconstruction, or modification for purposes of Rule 15.3. For purposes of obtaining an operating permit under Article III. Part 70 Source Regulation and Permits, the owner or operator of a MSW landfill subject to Rule 15.3 with a design capacity less than two million five hundred thousand (2,500,000) megagrams or two million five hundred thousand (2,500,000) cubic meters is not subject to the requirement to obtain an operating permit for the landfill under Article III., unless the landfill is otherwise subject to Article III. For purposes of submitting a timely application for an operating permit under

Article III. Part 70 Source Regulation and Permits, the owner or operator of a MSW landfill subject to Rule 15.3 with a design capacity greater than or equal to two and one-half (2.5) megagrams and two million five hundred thousand (2,500,000) cubic meters on the effective date of approval by U.S. EPA of Rule 15.3, and not otherwise subject to either Article III., becomes subject to the requirements of Section 4-56(a)(1)(i) ninety (90) days after the effective date of such approval, even if the design capacity report is submitted earlier.

(3) *Active Collection System* means a gas collection system that uses gas mover equipment.

(4) *Active Landfill* means a landfill in which solid waste is being placed or a landfill that is planned to accept waste in the future.

(5) *Closed Landfill* means a landfill in which solid waste is no longer being placed, and in which no additional solid wastes will be placed without first filing a notification of modification as prescribed under Title 40 CFR § 60.7(a)(4), which has been incorporated by reference in Chapter 4. Once a notification of modification has been filed, and additional solid waste is placed in the landfill, the landfill is no longer closed. When a MSW landfill subject to Rule 15.3 is closed, the owner or operator is no longer subject to the requirement of maintaining a Part 70 operating permit under Article III of this ordinance for the landfill if the landfill is not otherwise subject to the requirements of Article III and if either of the following conditions are met:

a. The landfill was never subject to the requirements for a control system under Rule 15.3(b)(2)b.3.; or

b. The owner or operator meets the conditions for control system removal specified in Rule 15.3(b)(2)b.5.

(6) *Closure* means that point in time when a landfill becomes a closed landfill.

(7) *Commercial Solid Waste* means all types of solid waste generated by stores, offices, restaurants, warehouses, and other nonmanufacturing activities, excluding residential and industrial wastes.

(8) *Controlled Landfill* means any landfill at which collection and control systems are required under Rule 15.3 as a result of the nonmethane organic compounds emission rate. The landfill is considered controlled at the time a collection and control system design plan is submitted in compliance with Rule 15.3(b)(2)b.

(9) *Design Capacity* means the maximum amount of solid waste a landfill can accept, as indicated in terms of volume or mass in the most recent construction or operating permit issued by the State or local agency responsible for regulating the landfill plus any in-place waste not accounted for in the most recent permit. If the owner or operator chooses to convert the design capacity from volume to mass or from mass to volume to demonstrate its design capacity is less than two million five hundred thousand (2,500,000) Mg. [megagrams] or two million five hundred thousand (2,500,000) cubic meters, the calculation must include a site specific density, which must be recalculated annually.

(10) *Disposal Facility* means all contiguous land and structures, other appurtenances, and improvements on the land used for the disposal of solid waste.

(11) *Emission Rate Cutoff* means the threshold annual emission rate to which a landfill compares its estimated emission rate to determine if control under the regulation is required.

(12) *Enclosed Combustor* means an enclosed firebox which maintains a relatively constant limited peak temperature generally using a limited supply of combustion air. An enclosed flare is considered an enclosed combustor.

(13) *Flare* means an open combustor without enclosure or shroud.

(14) *Gas Mover Equipment* means the equipment (i.e., fan, blower, compressor) used to transport landfill gas through the header system.

(15) *Household Waste* means any solid waste (including garbage, trash, and sanitary waste in septic tanks) derived from households (including, but not limited to, single and multiple residences, hotels and motels, bunkhouses, ranger stations, crew quarters, campgrounds, picnic grounds, and day-use recreation areas).

(16) *Reserved.*

(17) *Industrial Solid Waste* means solid waste generated by manufacturing or industrial processes that is not a hazardous waste regulated under Subtitle C of the Resource Conservation and Recovery Act, Title 40 CFR Part 264 and Part 265. Such waste may include, but is not limited to, waste resulting from the following manufacturing processes: electric power generation; fertilizer/agricultural chemicals; food and related products/by-products; inorganic chemicals; iron and steel manufacturing; leather and leather products; nonferrous metals manufacturing/foundries; organic chemicals; plastics and resins manufacturing; pulp and paper industry; rubber and miscellaneous plastic products; stone, glass, clay, and concrete products; textile manufacturing; transportation equipment; and water treatment. This term does not include mining waste or oil and gas waste.

(18) *Interior Well* means any well or similar collection component located inside the perimeter of the landfill waste. A perimeter well located outside the landfilled waste is not an interior well.

(19) *Landfill* means an area of land or an excavation in which wastes are placed for permanent disposal, and that is not a land application unit, surface impoundment, injection well, or waste pile as those terms are defined under Title 40 CFR § 257.2, which has been incorporated by reference in Chapter 4.

(20) *Lateral Expansion* means a horizontal expansion of the waste boundaries of an existing MSW landfill. A lateral expansion is not a modification unless it results in an increase in the design capacity of the landfill.

(21) *Modification* means an increase in the permitted volume design capacity of the landfill by either horizontal or vertical expansion.

(22) *Municipal Solid Waste (MSW) Landfill or MSW Landfill* means an entire disposal facility in a contiguous geographical space where household waste is placed in or on land. An MSW landfill may also receive other types of RCRA Subtitle D wastes (as defined in Title 40 CFR § 257.2, which has been incorporated by reference in Chapter 4) such as commercial solid waste, nonhazardous sludge, conditionally exempt small quantity generator waste, and industrial solid waste. Portions of an MSW landfill may be separated by access roads. An MSW landfill may be publicly or privately owned. An MSW landfill may be a new MSW landfill, an existing MSW landfill, or a lateral expansion.

(23) *Municipal Solid Waste Landfill Emissions or MSW Landfill Emissions* means gas generated by the decomposition of organic waste deposited in an MSW landfill or derived from the evolution of organic compounds in the waste.

(24) *NMOC* means nonmethane organic compounds, as measured according to the provisions of Rule 15.3(d).

(25) *Nondegradable Waste* means any waste that does not decompose through chemical breakdown or microbiological activity. Examples are, but are not limited to, concrete, municipal waste combustor ash, and metals.

(26) *Passive Collection System* means a gas collection system that solely uses positive pressure within the landfill to move the gas rather than using gas mover equipment.

(27) *Sludge* means any solid, semisolid, or liquid waste generated from a municipal, commercial, or industrial wastewater treatment plant, water supply treatment plant, or air pollution control facility, exclusive of the treated effluent from a wastewater treatment plant.

(28) *Solid waste* means any garbage, sludge from a wastewater treatment plant, water supply treatment plant, or air pollution control facility and other discarded material, including solid, liquid, semisolid, or contained gaseous material resulting from industrial, commercial, mining, and agricultural operations, and from community activities, but does not include solid or dissolved material in domestic sewage, or solid or dissolved materials in irrigation return flows or industrial discharges that are point sources subject to permits under Title 33 U.S.C. § 1342, or source, special nuclear, or by-product material as defined by the Atomic Energy Act of 1954, as amended (Title 42 U.S.C. § 2011 et seq.)

(29) *Sufficient density* means any number, spacing, and combination of collection system components, including vertical wells, horizontal collectors, and surface collectors, necessary to maintain emission and migration control as determined by measures of performance set forth in Rule 15.3.

(30) *Sufficient extraction rate* means a rate sufficient to maintain a negative pressure at all wellheads in the collection system without causing air infiltration, including any wellheads connected to the system as a result of expansion or excess surface emissions, for the life of the blower.

(b) *Emission Standards.*

(1) Each owner or operator of an existing MSW landfill or a new MSW landfill having a design capacity less than two million five hundred thousand (2,500,000) megagrams by mass or two million five hundred thousand (2,500,000) cubic meters by volume shall submit an initial design capacity report to the Director as provided in Rule 15.3(g)(1). The landfill may calculate design capacity in either megagrams or cubic meters for comparison with the exemption values. Any density conversions shall be documented and submitted with the report. Submittal of the initial design capacity report shall fulfill the requirements of Rule 15.3 except as provided for in Rule 15.3(b)(1) and (2).

a. The owner or operator shall submit to the Director an amended design capacity report, as provided for in Rule 15.3(g)(1)c.

b. When an increase in the maximum design capacity of a landfill exempted from the provisions of Rule 15.3(b)(2) through Rule 15.3(i) on the basis of the design capacity exemption in Rule 15.3(b)(1) results in a revised maximum design capacity equal to or greater than two million five hundred thousand (2,500,000) megagrams and two million five hundred thousand (2,500,000) cubic meters, the owner or operator shall comply with the provision of Rule 15.3(b)(2).

(2) Each owner or operator of an MSW landfill having a design capacity equal to or greater than two million five hundred thousand (2,500,000) megagrams and two million five hundred thousand (2,500,000) cubic meters, shall either comply with Rule 15.3(b)(2)b. or calculate an NMOC emission rate for the landfill using the procedures specified in Rule 15.3(d). The NMOC emission rate shall be recalculated annually, except as provided in Rule 15.3(g). The owner or operator of an MSW landfill subject to Rule 15.3 with a design capacity greater

than or equal to two million five hundred thousand (2,500,000) megagrams and two million five hundred thousand (2,500,000) cubic meters is subject to Article III. of Chapter 4 entitled Part 70 Source Regulation and Permits.

a. If the calculated NMOC emission rate is less than fifty (50) megagrams per year, the owner or operator shall:
   1. Submit an annual emission report to the Director, except as provided for in Rule 15.3(g)(2)a.2.; and
   2. Recalculate the NMOC emission rate annually using the procedures specified in Rule 15.3(d)(1)a. until such time as the calculated NMOC emission rate is equal to or greater than fifty (50) megagrams per year, or the landfill is closed.
      (i) If the NMOC emission rate, upon recalculation required in Rule 15.3(b)(2)a.2., is equal to or greater than fifty (50) megagrams per year, the owner or operator shall install a collection and control system in compliance with Rule 15.3(b(2)b.
      (ii) If the landfill is permanently closed, a closure notification shall be submitted to the Director and the Administrator as provided for in Rule 15.3(g)(4).

b. If the calculated NMOC emission rate is equal to or greater than fifty (50) megagrams per year, the owner or operator shall:
   1. Submit a collection and control system design plan prepared by a professional engineer to the Director within one (1) year after the submittal of an initial or annual NMOC report pursuant to Rule 15.3(g)(2) reporting this NMOC emission rate:
      (i) The collection and control system as described in the plan shall meet the design requirements of Rule 15.3(b)(2)b.2.
      (ii) The collection and control system design plan shall include any alternatives proposed by the owner or operator to the operational standards, test methods, procedures, compliance measures, monitoring, recordkeeping or reporting provisions of Rule 15.3(c) through (h).
      (iii) The collection and control system design plan shall either conform with specifications for active collection systems outlined in Rule 15.3(i) or include a demonstration to the Director's satisfaction of the sufficiency of the alternative provisions to Rule 15.3(i).
      (iv) The Director shall review the information submitted under Rule 15.3(b)(2)b.1.(i), (ii) and (iii) and either approve it, disapprove it, or request that additional information be submitted. Because of the many site-specific factors involved with landfill gas system design, alternative systems may be necessary. A wide variety of system designs are possible, such as vertical wells, combination horizontal and vertical collection systems, or horizontal trenches only, leachate collection components, and passive systems.
   2. Install a collection and control system that captures the gas generated within the landfill as required under Rule 15.3(b)(2)b.2.(i) or b.2.(ii) and (b)(2)b.3. within thirty (30) months after the first annual report in which the emission rate equals or exceeds fifty (50) megagrams per year, unless Tier 2 or Tier 3 sampling demonstrates that the emission rate is less than fifty (50) megagrams per year, as specified in Rule 15.3(g)(3)a. or b.
      (i) An active collection system shall:
         (A) Be designed to handle the maximum expected gas flow rate from the entire area of the landfill that warrants control over the intended use period of the gas control or treatment system equipment;

(B) Collect gas from each area, cell, or group of cells in the landfill in which the initial solid waste has been placed for a period of:

(aa) Five (5) years or more if active; or

(bb) Two (2) years or more if closed or at final grade;

(C) Collect gas at a sufficient extraction rate;

(D) Be designed to minimize off-site migration of subsurface gas.

(ii) A passive collection system shall:

(A) Comply with the provisions specified in Rule 15.3(b)(2)b.2.(i)(A), (B), and (D).

(B) Be installed with liners on the bottom and all sides in all areas in which gas is to be collected. The liners shall be installed as required under Title 40 CFR § 258.40, which has been incorporated by reference in Chapter 4.

3. Route all the collected gas to a control system that complies with the requirements in either Rule 15.3(b)(2)b.3.(i), (ii) or (iii).

(i) An open flare designed and operated in accordance with Title 40 CFR § 60.18, which has been incorporated by reference in Chapter 4;

(ii) A control system designed and operated to reduce NMOC by ninety-eight (98) weight percent, or, when an enclosed combustion device is used for control, to either reduce NMOC by ninety-eight (98) weight percent or reduce the outlet NMOC concentration to less than 20 parts per million by volume, dry basis as hexane at three (3) percent oxygen. The reduction efficiency or parts per million by volume shall be established by an initial performance test to be completed no later than one hundred eighty (180) days after the initial startup of this approved control system using the test methods specified in Rule 15.3(d)(4).

(A) If a boiler or process heater is used as the control device, the landfill gas stream shall be introduced into the flame zone.

(B) The control device shall be operated within the parameter ranges established during the initial or most recent performance test. The operating parameters to be monitored are specified in Rule 15.3(f).

(iii) Route the collected gas to a treatment system that processes the collected gas for subsequent sale or use. All emissions from any atmospheric vent from the gas treatment system shall be subject to the requirements of Rule 15.3(b)(2)b.3.(i) or (ii).

4. Operate the collection and control device installed to comply with Rule 15.3 in accordance with the provisions of Rule 15.3(c), (e) and (f).

5. The collection and control system may be capped or removed provided that all the conditions of Rule 15.3(b)(2)b.5.(i), (ii), and (iii) are met:

(i) The landfill shall be a closed landfill as defined in Rule 15.3(a)(5). A closure report shall be submitted to the Director and Administrator as provided in Rule 15.3(g)(4).

(ii) The collection and control system shall have been in operation a minimum of fifteen (15) years; and

(iii) Following the procedures specified in Rule 15.3(d)(2), the calculated NMOC gas produced by the landfill shall be less than fifty (50)

megagrams per year on three successive test dates. The test dates shall be no less than ninety (90) days apart, and no more than one hundred eighty (180) days apart.

(3) Control of emissions from an existing MSW landfill is required and compliance with permitting requirements for Part 70 sources, contained in Article III of Chapter 4 of the Chattanooga City Code, is required if the existing landfill meets the following three (3) conditions:

a. The landfill has accepted waste at any time since November 8, 1987, or had additional design capacity available for future waste deposition;

b. The landfill has a design capacity greater than or equal to two million five hundred thousand (2,500,000) megagrams and two million five hundred thousand (2,500,000) cubic meters. The landfill may calculate design capacity in either megagrams or cubic meters for comparison with the exemption values. Any density conversions shall be documented and submitted with the report; and

c. The landfill has a nonmethane organic compound emission rate of fifty (50) megagrams per year or more.

(4) For the purposes of obtaining an operating permit under Article III. of Chapter 4, Part 70 Source Regulation and Permits, the owner or operator of a MSW landfill subject to Rule 15.3 with a design capacity less than two million five hundred thousand (2,500,000) megagrams or two million five hundred thousand (2,500,000) cubic meters is not subject to the requirement to obtain an operating permit for the landfill under Article III, unless the landfill is otherwise subject to Article III. For purposes of submitting a timely application for an operating permit under Article III., the owner or operator of a MSW landfill subject to Rule 15.3 with a design capacity greater than or equal to two million five hundred thousand (2,500,000) megagrams and two million five hundred thousand (2,500,000) cubic meters, and not otherwise subject to Article III., becomes subject to the requirements of Section 4-56(a)(1), regardless of when the design capacity report is actually submitted, no later than:

a. Ninety (90) days after [the effective date of this ordinance] for MSW landfills that commenced construction, modification or reconstruction before [the effective date of this ordinance];

b. Ninety (90) days after the date of commenced construction, modification, or reconstruction for MSW landfills that commence construction, modification, or reconstruction on or after [the effective date of this ordinance].

(5) When a MSW landfill subject to Rule 15.3 is closed, the owner or operator is no longer subject to the requirement to maintain an operating permit under Article III. for the landfill if the landfill is not otherwise subject to the requirements of Article III. and if either of the following conditions are met:

a. The landfill was never subject to the requirement for a control system under Rule 15.3; or

b. The owner or operator meets the conditions for control system removal specified in Rule 15.3 (b)(2)b.5.

(c) *Operational Standards for Collection and Control Systems.* Each owner or operator of an MSW landfill gas collection system used to comply with the provisions of Rule 15.3(b)(2)b.2. shall:

(1) Operate the collection system such that gas is collected from each area, cell, or group of cells in the MSW landfill in which solid waste has been in place for:

a. Five (5) years or more if active; or

b. Two (2) years or more if closed or at final grade;

(2) Operate the collection system with negative pressure at each wellhead except under the following conditions:

a. A fire or increased well temperature. The owner or operator shall record instances when positive pressure occurs in efforts to avoid a fire. These records shall be submitted with the annual reports as provided in Rule 15.3(g)(6)a.;

b. Use of a geomembrane or synthetic cover. The owner or operator shall develop acceptable pressure limits in the design plan;

c. A decommissioned well. A well may experience a static positive pressure after shutdown to accommodate for declining flows. All design changes shall be approved by the Director.

(3) Operate each interior wellhead in the collection system with a landfill gas temperature less than Fifty-five degrees (55°) Celsius and with either a nitrogen level less than twenty percent (20%) or an oxygen level less than five percent (5%). The owner or operator may establish a higher operating temperature. nitrogen, or oxygen value at a particular well. A higher operating value demonstration shall show supporting data that the elevated parameter does not cause fires or significantly inhibit anaerobic decomposition by killing methanogens.

a. The nitrogen level shall be determined using Method 3C as described in Section 4-3(c) of Chapter 4, unless an alternative test method is established as allowed by Rule 15.3(b)(2)b.1.

b. Unless an alternative test method is established as allowed by Rule15.3(b)(2)b.1., the oxygen shall be determined by an oxygen meter using Method 3A as described in Section 4-3(c) of Chapter 4 except that:

1. The span shall be set so that the regulatory limit is between twenty percent (20%) and fifty percent (50%) of the span;

2. A data recorder is not required;

3. Only two (2) calibration gases are required, a zero and span, and ambient air may be used as the span;

4. A calibration error check is not required;

5. The allowable sample bias, zero drift, and calibration drift are ± ten percent (10%).

(4) Operate the collection system so that the methane concentration is less than five hundred (500) parts per million above background at the surface of the landfill. To determine if this level is exceeded, the owner or operator shall conduct surface testing around the perimeter of the collection area and along a pattern that traverses the landfill at thirty (30) meter intervals and where visual observations indicate elevated concentrations of landfill gas, such as distressed vegetation and cracks or seeps in the cover. The owner or operator may establish an alternative traversing pattern that ensures equivalent coverage. A surface monitoring design plan shall be developed that includes a topographical map with the monitoring route and the rationale for any site-specific deviations from the thirty (30) meter intervals. Areas with steep slopes or other dangerous areas may be excluded from the surface testing.

(5) Operate the system such that all collected gases are vented to a control system designed and operated in compliance with Rule 15.3(b)(2)b.3. In the event the collection or control

system is inoperable, the gas mover system shall be shut down and all valves in the collection and control system contributing to venting of the gas to the atmosphere shall be closed within one (1)hour.

(6) Operate the control or treatment system at all times when the collected gas is routed to the system.

(7) If monitoring demonstrates that the operational requirements in Rule 15.3(c)(2), (3) or (4) are not met, corrective action shall be taken as specified in Rule 15.3(e)(1)c., d. and e. or Rule 15.3(e)(3). If corrective actions are taken as specified in Rule 15.3(e), the monitored exceedance is not a violation of the operational requirements of Rule 15.3(c).

(d) *Test Methods and Procedures.*

(1) a. The landfill owner or operator shall calculate the NMOC emission rate using either the equation provided in Rule 15.3(d)(1)a.1. or the equation provided in Rule 15.3(d)(1)a.2. Both equations may be used if the actual year-to-year solid waste acceptance rate is known, as specified in Rule 15.3(d)(1)a.1., for part of the life of the landfill and the actual year-to-year solid waste acceptance rate is unknown, as specified in Rule 15.3(d)(1)a.2., for part of the life of the landfill. The values to be used in both equations are five-hundredths (0.05) per year for k, one hundred seventy (170) cubic meters per megagram for L_0, and four thousand (4,000) parts per million by volume as hexane for the C_{NMOC}. For landfills located in geographical areas with a thirty (30) year annual average precipitation of less than twenty-five (25) inches, as measured at the nearest representative official meteorologic site, the k value to be used is two-hundredths (0.02) per year.

1. The following equation shall be used if the actual year-to-year solid waste acceptance rate is known:

$$M_{NMOC} = \sum_{i=1}^{n} 2\,k\,L_0\,M_i\,(e^{-kt_i})\,(C_{NMOC})\,(3.6 \times 10^{-9})$$

where,

M_{NMOC}	=	Total NMOC emission rate from the landfill, megagrams per year
k	=	Methane generation rate constant, year $^{-1}$
L_0	=	Methane generation potential, cubic meters per megagram solid waste
M_i	=	Mass of solid waste in the i^{th} section, megagrams
t_i	=	Age of the i^{th} section, years
C_{NMOC}	=	Concentration of NMOC, parts per million by volume as hexane
3.6×10^{-9}	=	Conversion factor

The mass of nondegradable solid waste may be subtracted from the total mass of solid waste in a particular section of the landfill when calculating the value for M_i if the documentation of the nature and amount of such wastes is maintained.

2. The following equation shall be used if the actual year-to-year solid waste acceptance rate is unknown:

M_{NMOC}	=	$2L_0 R (e^{-ke} - e^{-kt}) (C_{NMOC}) (3.6 \times 10^{-9})$

where,

M_{NMOC}	=	Mass emission rate of NMOC, megagrams per year
L_0	=	Methane generation potential, cubic meters per megagram solid waste
R	=	Average annual acceptance rate, megagrams per year
k	=	Methane generation rate constant, year $^{-1}$
t	=	Age of landfill, years
C_{NMOC}	=	Concentration of NMOC, parts per million by volume as hexane
c	=	Time since closure, years. For active landfill c = 0 and $e^{-kc} = 1$
3.6×10^{-9}	=	Conversion factor

The mass of nondegradable solid waste may be subtracted from the total mass of solid waste in a particular section of the landfill when calculating a value for R, if documentation of the nature and amount of such wastes is maintained.

b. Tier 1. The owner or operator shall compare the calculated NMOC mass emission rate to the standard of fifty (50) megagrams per year.

1. If the NMOC emission rate calculated in Rule 15.3(d)(1)a. is less than fifty (50) megagrams per year, then the landfill owner shall submit an emission rate report as provided in Rule 15.3(g)(2)a. and shall recalculate the NMOC mass emission rate annually as required by Rule 15.3(b)(2)a.
2. If the calculated NMOC emission rate is equal to or greater than fifty (50) megagrams per year, then the landfill owner shall either comply with Rule 15.3(b)(2)b. or determine a site-specific NMOC concentration and recalculate the NMOC emission rate using the procedures provided in Rule 15.3(d)(1)c.

c. Tier 2. The landfill owner or operator shall determine the NMOC concentration using the following sampling procedure. The landfill owner or operator shall install at least two (2) sample probes per hectare of landfill surface that has retained waste for at least two (2) years. If the landfill is larger than twenty-five (25) hectares in area, only fifty (50) samples are required. The sample probes should be located to avoid known areas of nondegradable solid waste. The owner or operator shall collect and analyze one (1) sample of landfill gas from each probe to determine the NMOC concentration using Title 40 CFR Part 60, Appendix A, Method 25C or Method 18, which have been incorporated by reference in Chapter 4 and are described in Section 4-3(c). If using Method 18 of Appendix A, the minimum list of compounds to be tested shall be those published in the Fifth Edition January 1995 U.S. Environmental Protection Agency Compilation of Air Pollutant Emission Factors (AP-42). If composite sampling is used, equal volumes shall be taken from each sample probe. If more than the required number of samples are taken, all samples shall be used in the analysis. The landfill owner or operator shall divide the NMOC concentration from Method 25C of Appendix A of Title 40 CFR Part 60 by six (6) to convert from C_{NMOC} as carbon to C_{NMOC} as hexane.

1. The landfill owner or operator shall recalculate the NMOC mass emission rate using the equations provided in Rule 15.3(d)(1)a.1. or a.2. and using the average NMOC concentration from the collected samples instead of the default value in the equation provided in Rule 15.3(d)(1)a.

2. If the resulting mass emission rate calculated using the site-specific NMOC concentration is equal to or greater than fifty (50) megagrams per year, then the landfill owner or operator shall either comply with Rule 15.3(b)(2)b., or determine the site-specific methane generation rate constant and recalculate the NMOC emission rate using the site-specific methane generation rate using the procedure specified in Rule 15.3(d)(1)d.

3. If the resulting NMOC mass emission rate is less than fifty (50) megagrams per year, the owner or operator shall submit a periodic estimate of the emission rate report as provided in Rule 15.3(g)(2)a. and retest the site-specific NMOC concentration every five (5) years using the methods specified in Rule 15.3(d).

d. Tier 3. The site-specific methane generation rate constant shall be determined using the procedures provided in Method 2E of Appendix A of Title 40 CFR Part 60, which has been incorporated by reference in Chapter 4 and is described in Section 4-3(c). The landfill owner or operator shall estimate the NMOC mass emission rate using equations in Rule 15.3(d)(1)a.1. or a.2. and using a site-specific methane generation rate constant k, and the site-specific NMOC concentration as determined in Rule 15.3(d)(1)c. instead of the default values provided in Rule 15.3(d)(1)a. The landfill owner or operator shall compare the resulting NMOC mass emission rate to the standard of fifty (50) megagrams per year.

1. If the NMOC mass emission rate as calculated using the site-specific methane generation rate and concentration of NMOC is equal to or greater than fifty (50) megagrams per year, the owner or operator shall comply with Rule 15.3(b)(2)b.

2. If the NMOC mass emission rate is less than fifty (50) megagrams per year, then the owner or operator shall submit a periodic emission rate report as provided in Rule 15.3(g)(2) and shall recalculate the NMOC mass emission rate annually, as provided in Rule 15.3(g)(2) using the equations in Rule 15.3(d)1)a. and using the site-specific methane generation rate constant and NMOC concentration obtained in Rule 15.3(d)(1)c. The calculation of the methane generation rate constant is performed only once, and the value obtained from this test shall be used in all subsequent annual NMOC emission rate calculations.

e. The owner or operator may use other methods to determine the NMOC concentration or a site-specific k as an alternative to the methods required in Rule 15.3(d)(1)c. and d. if the method has been approved by the Administrator.

(2) After the installation of a collection and control system in compliance with Rule 15.3(e), the owner or operator shall calculate the NMOC emission rate for purposes of determining when the system can be removed as provided in Rule 15.3(b)(2)b.5. using the following equation:

$$M_{NMOC} = 1.89 \times 10^{-3} Q_{LFG} C_{NMOC}$$

where,

M_{NMOC} = mass emission rate of NMOC, megagrams per year

Q_{LFG} = flow rate of landfill gas, cubic meters per minute

C_{NMOC} = NMOC concentration, parts per million by volume as hexane

a. The flow rate of landfill gas, Q_{LFG}, shall be determined by measuring the total landfill gas flow rate at the common header pipe that leads to the control device using a gas

flow measuring device calibrated according to the provisions of Section 4 of Method 2E of Appendix A of Title 40 CFR Part 60, which has been incorporated by reference in Chapter 4 and is described in Section 4-3(c).

b. The average NMOC concentration, C_{NMOC}, shall be determined by collecting and analyzing landfill gas sampled from the common header pipe before the gas moving or condensate removal equipment using the procedures in Method 25C or Method 18 of Appendix A of Title 40 CFR Part 60, which have been incorporated by reference in Chapter 4 and are described at Section 4-3(c). If using Method 18, the minimum list of compounds to be tested shall be those published in the Fifth Edition January 1995 U.S. Environmental Protection Agency Compilation of Air Pollutant Emission Factors (AP-42). The sample location on the common header pipe shall be before any condensate removal or other gas refining units. The landfill owner or operator shall divide the NMOC concentration from Method 25C by six (6) to convert from C_{NMOC} as carbon to C_{NMOC} as hexane.

c. The owner or operator may use another method to determine landfill gas flow rate and NMOC concentration if the method has been approved by the Administrator.

(3) When calculating emissions for PSD purposes, the owner or operator of each MSW landfill subject to the provisions of Rule 15.3 shall estimate the NMOC emission rate for comparison to the PSD major source and significance levels in Section 4-41, Rule 18 using AP-42 or other measurement procedures approved in advance by the Director.

(4) For the performance test required in Rule 15.3(b)(2)b.3.(ii), Method 25C or Method 18 of Appendix A of Title 40 CFR Part 60, which have been incorporated by reference in Chapter 4 and are described at Section 4-3(c), shall be used to determine compliance with the ninety-eight (98) weight-percent efficiency or the twenty (20) ppmv outlet concentration level, unless another method to demonstrate compliance has been approved by the Administrator. If using Method 18 of Appendix A of Title 40 CFR Part 60, the minimum list of compounds to be tested shall be those published in the Fifth Edition January 1995 U.S. Environmental Protection Agency Compilation of Air Pollutant Emission Factors (AP-42). The following equation shall be used to calculate efficiency:

Control Efficiency	=	$(NMOC_{in} - NMOC_{out})/(NMOC_{in})$
where,		
$NMOC_{in}$	=	Mass of NMOC entering control device
$NMOC_{out}$	=	Mass of NMOC exiting control device

(e) *Compliance Provisions.*

(1) Except as provided in Rule 15.3(b)(2)b.1.(ii), the specified methods in Rule 15.3(e)(1)a. through f. shall be used to determine whether the gas collection system is in compliance with Rule 15.3(b)(2)b.2.

a. For the purposes of calculating the maximum expected gas generation flow rate from the landfill to determine compliance with Rule 15.3(b)(2)b.2.(i)(A), one (1) of the following equations shall be used. The k and L_0 kinetic factors should be those published in the Fifth Edition January, 1995 U.S. Environmental Protection Agency Compilation of Air Pollutant Emission Factors (AP-42) or other site- specific values demonstrated to be appropriate and approved by the Director. If k has been determined as specified in Rule 15.3(d)(1)d., the value of k determined from the test

shall be used. A value of no more than fifteen (15) years shall be used for the intended use period of the gas mover equipment. The active life of the landfill is the age of the landfill plus the estimated number of years until closure.

1. For sites with unknown year-to-year solid waste acceptance rate:

$Q_M = 2L_0 R (e^{-kc} - e^{-kt})$

where,

Q_M	=	Maximum expected gas generation flow rate, cubic meters per year
L_0	=	Methane generation potential, cubic meters per megagram solid waste
R	=	Average annual acceptance rate, megagrams per year
k	=	Methane generation rate constant, $year^{-1}$
t	=	Age of the landfill at equipment installation plus the time the owner or operator intends to use the gas mover equipment or active life of the landfill, whichever is less. If the equipment is installed after closure, t is the age of the landfill at installation, years
c	=	Time since closure, years (for an active landfill c = 0 and $e^{-kc} = 1$)

2. For sites with known year-to-year solid waste acceptance rate:

$$Q_M = \sum_{i=1}^{n} 2 k L_0 M_i (e^{-kt}i)$$

where,

Q_M	=	Maximum expected gas generation flow rate, cubic meters per year
k	=	Methane generation rate constant, $year^{-1}$
L_0	=	Methane generation potential, cubic meters per megagram solid waste
M_i	=	Mass of solid waste in the i^{th} section, megagrams
t_i	=	Age of the i^{th} section, years

3. If a collection and control system has been installed, actual flow data may be used to project the maximum expected gas generation flow rate instead of, or in conjunction with, the equations in Rule 15.3(e)(1)a.1. and a.2. If the landfill is still accepting waste, the actual measured flow data will not equal the maximum expected gas generation rate, so calculations using the equations in Rule 15.3(e)(1)a.1. and a.2. or other methods shall be used to predict the maximum expected gas generation rate over the intended period of use of the gas control system equipment.

b. For the purposes of determining sufficient density of gas collectors for compliance with Rule 15.3(b)(2)b.2.(i)(B), the owner or operator shall design a system of vertical wells, horizontal collectors, or other collection devices, satisfactory to the Director, capable of controlling and extracting gas from all portions of the landfill sufficient to meet all operational and performance standards.

c. For the purpose of demonstrating whether the gas collection system flow rate is sufficient to determine compliance with Rule 15.3(b)(2)b.2.(i)(C), the owner or operator shall measure gauge pressure in the gas collection header at each individual well monthly. If a positive pressure exists, action shall be initiated to correct the exceedance within five (5) calendar days, except for the three (3) conditions allowed under Rule 15.3(c)(2). If negative pressure cannot be achieved without excess air infiltration within fifteen (15) calendar days of the first measurement, the gas collection system shall be expanded to correct the exceedance within one hundred twenty (120) days of the initial measurement of positive pressure. Any attempted corrective measure shall not cause exceedances of other operational or performance standards. An alternative timeline for correcting the exceedance may be submitted to the Director for approval.

d. Owners or operators are not required to expand the system as required in Rule 15.3(e)(1)c. during the first one hundred eighty (180) days after gas collection system start-up.

e. For the purpose of identifying whether excess air infiltration into the landfill is occurring, the owner or operator shall monitor each well monthly for temperature and nitrogen or oxygen as provided in Rule 15.3(c)(3). If a well exceeds one (1) of these operating parameters, action shall be initiated to correct the exceedance within five (5) calendar days. If correction of the exceedance cannot be achieved within fifteen (15) calendar days of the first measurement, the gas collection system shall be expanded to correct the exceedance within one hundred twenty (120) days of the initial exceedance. Any attempted corrective measure shall not cause exceedances of other operational or performance standards. An alternative timeline for correcting the exceedance may be submitted to the Director for approval.

f. An owner or operator seeking to demonstrate compliance with Rule 15.3 (b)(2)b.2.(i)(D) through the use of a collection system not conforming to the specifications provided in Rule 15.3(i) shall provide information satisfactory to the Director as specified in Rule 15.3(b)(2)b.1.(iii) demonstrating that offsite migration is being controlled.

(2) For purposes of compliance with Rule 15.3(c)(1), each owner or operator of a controlled landfill shall place each well or design component as specified in the approved design plan as provided in Rule 15.3(b)(2)b.1. Each well shall be installed no later than sixty (60) days after the date on which the initial solid waste has been in place for a period of:

a. 5 years or more if active; or

b. 2 years or more if closed or at final grade.

(3) The following procedures shall be used for compliance with the surface methane operational standard as provided in Rule 15.3(c)(4).

a. After installation of the collection system, the owner or operator shall monitor surface concentrations of methane along the entire perimeter of the collection area and along a pattern that traverses the landfill at thirty (30) meter intervals (or a site-specific established spacing) for each collection area on a quarterly basis using an organic vapor analyzer, flame ionization detector, or other portable monitor meeting the specifications provided in Rule 15.3(e)(4).

b. The background concentration shall be determined by moving the probe inlet upwind and downwind outside the boundary of the landfill at a distance of at least thirty (30) meters from the perimeter wells.

c. Surface emission monitoring shall be performed in accordance with Section 4.3.1 of Method 21 of Appendix A of Title 40 CFR Part 60, which has been incorporated by reference in Chapter 4 and is described in Section 4-3(c) except that the probe inlet shall be placed within five (5) to ten (10) centimeters of the ground. Monitoring shall be performed during typical meteorological conditions.

d. Any reading of five hundred (500) parts per million or more above background at any location shall be recorded as a monitored exceedance and the actions specified in Rule 15.3(e)(3)d.1. through 5. shall be taken. As long as the specified actions are taken, the exceedance is not a violation of the operational requirements of Rule 15.3(c)(4).

1. The location of each monitored exceedance shall be marked and the location recorded.

2. Cover maintenance or adjustments to the vacuum of the adjacent wells to increase the gas collection in the vicinity of each exceedance shall be made and the location shall be re-monitored within ten (10) calendar days of detecting the exceedance.

3. If the re-monitoring of the location shows a second exceedance, additional corrective action shall be taken and the location shall be monitored again within ten (10) days of the second exceedance. If the re-monitoring shows a third exceedance for the same location, the action specified in Rule 15.3(e)(3)d.5. shall be taken, and no further monitoring of that location is required until the action specified in Rule 15.3(e)(3)d.5. has been taken.

4. Any location that initially showed an exceedance but has a methane concentration less than five hundred (500) ppm methane above background at the ten (10) day re-monitoring specified in Rule 15.3(e)(3)d.2. or d.3. shall be re-monitored one (1) month from the initial exceedance. If the l-month re-monitoring shows a concentration less than five hundred (500) parts per million above background, no further monitoring of that location is required until the next quarterly monitoring period. If the l-month re-monitoring shows an exceedance, the actions specified in Rule 15.3(e)(3)d.3. or d.5. shall be taken.

5. For any location where monitored methane concentration equals or exceeds five hundred (500) parts per million above background three times within a quarterly period, a new well or other collection device shall be installed within one hundred twenty (120) calendar days of the initial exceedance. An alternative remedy to the exceedance, such as upgrading the blower, header pipes or control device, and a corresponding timeline for installation may be submitted to the Director for approval.

e. The owner or operator shall implement a program to monitor for cover integrity and implement cover repairs as necessary on a monthly basis.

(4) Each owner or operator seeking to comply with the provisions in Rule 15.3(e)(3) shall comply with the following instrumentation specifications and procedures for surface emission monitoring devices:

a. The portable analyzer shall meet the instrument specifications provided in Section 3 of Method 21 of Appendix A of Title 40 CFR Part 60, which has been incorporated by reference in Chapter 4 and is described at Section 4-3(c)(3), except that "methane" shall replace all references to VOC.

b. The calibration gas shall be methane, diluted to a nominal concentration of five hundred (500) parts per million in air.

c. To meet the performance evaluation requirements in Section 3.1.3 of Method 21 of Appendix A of Title 40 CFR Part 60, the instrument evaluation procedures of Section 4.4 of Method 21 of Appendix A shall be used.

d. The calibration procedures provided in Section 4.2 of Method 21 of Appendix A of Title 40 CFR Part 60 shall be followed immediately before commencing a surface monitoring survey.

(5) The provisions of Rule 15.3 apply at all times, except during periods of start-up, shutdown or malfunction, provided that the duration of start-up, shutdown or malfunction shall not exceed five (5) days for collection systems and shall not exceed one (1) hour for treatment or control devices. A log of all start-ups, shutdown and malfunctions must be maintained on site.

(f) *Monitoring of Operations.* Except as provided in Rule 15.3(b)(2)b.1.(ii):

(1) Each owner or operator seeking to comply with Rule 15.3(b)(2)b.2.(i)(A) for an active gas collection system shall install a sampling port and a thermometer, other temperature measuring device, or an access port for temperature measurements at each wellhead and:

a. Measure the gauge pressure in the gas collection header on a monthly basis as provided in Rule 15.3(e)(1)c.; and

b. Monitor nitrogen or oxygen concentration in the landfill gas on a monthly basis as provided in Rule 15.3(e)(1)e.; and

c. Monitor temperature of the landfill gas on a monthly basis as provided in Rule 15.3(e)(1)e.

(2) Each owner or operator seeking to comply with Rule 15.3(b)(2)b.3. by using an enclosed combustor shall calibrate, maintain, and operate according to the manufacturer's specifications, the following equipment:

a. A temperature monitoring device equipped with a continuous recorder and having a minimum accuracy of ± one percent (1%) of the temperature being measured expressed in degrees Celsius or ± one-half-degrees (0.5°) Celsius, whichever is greater. A temperature monitoring device is not required for boilers or process heaters with design heat input capacity greater than forty-four (44) megawatts.

b. A device that records flow to or bypass of the control device. The owner or operator shall either:

1. Install, calibrate, and maintain a gas flow rate measuring device that shall record the flow to the control device at least every fifteen (15) minutes; or

2. Secure the bypass line valve in the closed position with a car-seal or a lock-and-key type configuration. A visual inspection of the seal or closure mechanism shall be performed at least once every month to ensure that the valve is maintained in the closed position and that the gas flow is not diverted through the bypass line.

(3) Each owner or operator seeking to comply with Rule 15.3(b)(2)b.3. by using an open flare shall install, calibrate, maintain, and operate according to the manufacturer's specifications the following equipment:

a. A heat sensing device, such as an ultraviolet beam sensor or thermocouple, at the pilot light or the flame itself to indicate the continuous presence of a flame.

b. A device that records flow to or bypass of the flare. The owner or operator shall either:

1. Install, calibrate, and maintain a gas flow rate measuring device that shall record the flow to the control device at least fifteen (15) minutes; or

2. Secure the bypass line valve in the closed position with a car-seal or a lock-and-key type configuration. A visual inspection of the seal or closure mechanism shall be performed at least once every month to ensure that the valve is maintained in the closed position and that the gas flow is not diverted through the bypass line.

(4) Each owner or operator seeking to demonstrate compliance with Rule 15.3(b)(2)b.3. by using a device other than an open flare or an enclosed combustor shall provide information satisfactory to the Director as provided in Rule 15.3(b)(2)b.1.(ii) describing the operation of the control device, the operating parameters that would indicate proper performance, and appropriate monitoring procedures. The Director shall review the information and either approve it, or request that additional information be submitted. The Director may specify additional appropriate monitoring procedures.

(5) Each owner or operator seeking to install a collection system that does not meet the specifications in Rule 15.3(i) or seeking to monitor alternative parameters to those required by Rule 15.3(c) through (f) shall provide information satisfactory to the Director as provided in Rule 15.3(b)(2)b.1.(ii) and (iii) describing the design and operation of the collection system, the operating parameters that would indicate proper performance, and appropriate monitoring procedures. The Director may specify additional appropriate monitoring procedures.

(6) Each owner or operator seeking to demonstrate compliance with Rule 15.3(e)(3) shall monitor surface concentrations of methane according to the instrument specifications and procedures provided in Rule 15.3(e)(4). Any closed landfill that has no monitored exceedances of the operational standard in three (3) consecutive quarterly monitoring periods may skip to annual monitoring. Any methane reading of five hundred (500) ppm or more above background detected during the annual monitoring returns the frequency for that landfill to quarterly monitoring.

(g) *Reporting Requirements.* Except as provided in Rule 15.3(b)(2)b.1.(ii):

(1) Each owner or operator subject to the requirements of Rule 15.3 shall submit an initial design capacity report to the Director.

a. The initial design capacity report shall fulfill the requirements of the notification of the date construction is commenced as required under Title 40 CFR § 60.7(a)(1), which has been incorporated by reference in Chapter 4, and shall be submitted no later than ninety (90) days after [the effective date of Rule 15.3] by each existing MSW landfill. The initial design capacity report for a new MSW landfill shall be submitted no later than ninety (90) days after the date of commencement of construction, reconstruction, or modification as defined in Rule 15.3(a)(21), for landfills that commence construction, modification, or reconstruction on or after [the effective date of this ordinance].

b. The initial design capacity report shall contain the following information:

1. A map or plot of the landfill, providing the size and location of the landfill, and identifying all areas where solid waste may be landfilled according to the permit issued by the State or local agency responsible for regulating the landfill;

2. The maximum design capacity of the landfill. Where the maximum design capacity is specified in the permit issued by the State or local, agency responsible for regulating the landfill, a copy of the permit specifying the maximum design capacity may be submitted as part of the report. If the maximum design capacity of the landfill is not specified in the permit, the

maximum design capacity shall be calculated using good engineering practices. The calculations shall be provided, along with the relevant parameters as part of the report. The Director may request other reasonable information as may be necessary to verify the maximum design capacity of the landfill.

c. An amended design capacity report shall be submitted to the Director providing notification of an increase in the design capacity of the landfill, within ninety (90) days of an increase in the maximum design capacity of the landfill to or above two million five hundred thousand (2,500,000) megagrams and two million five hundred thousand (2,500,000) cubic meters. This increase in design capacity may result from an increase in the permitted volume of the landfill or an increase in the density as documented in the annual recalculation required in Rule 15.3(h)(6).

(2) Each owner or operator subject to the requirements of Rule 15.3 shall submit an NMOC emission rate report to the Director initially and annually thereafter, except as provided for in Rule 15.3(g)(2)a.2. or c. The Director may request such additional information as may be necessary to verify the reported NMOC emission rate.

a. The NMOC emission rate report shall contain an annual or five (5) year estimate of the NMOC mission rate calculated using the formula and procedures provided in Rule 15.3(d)(1) or (2) as applicable.

1. The initial NMOC emission rate report shall be submitted within ninety (90) days after [the effective date of Rule 15.3] by each existing MSW landfill, and within ninety (90) days after the commencement of construction, modification, or reconstruction by each new MSW landfill maybe combined with the initial design capacity report required in Rule 15.3(g)(1) and shall be submitted no later than indicated in Rule 15.3(g)(2)a.1. Subsequent NMOC emission rate reports shall be submitted annually thereafter, except as provided for in Rule 15.3(g)(2)a.2. and Rule 15.3(g)(2)c.

2. If the estimated NMOC emission rate as reported in the annual report to the Director is less than fifty (50) megagrams per year in each of the next five (5) consecutive years, the owner or operator may elect to submit an estimate of the NMOC emission rate for the next five (5) year period in lieu of the annual report. This estimate shall include the current amount of solid waste-in-place and the estimated waste acceptance rate for each year of the five (5) years for which an NMOC emission rate is estimated. All data and calculations upon which this estimate is based shall be provided to the Director. This estimate shall be revised at least once every five (5) years. If the actual waste acceptance rate exceeds the estimated waste acceptance rate in any year reported in the five (5) year estimate, a revised five (5) year estimate shall be submitted to the Director. The revised estimate shall cover the five (5) year period beginning with the year in which the actual waste acceptance rate exceeded the estimated waste acceptance rate.

b. The NMOC emission rate report shall include all the data, calculations, sample reports and measurements used to estimate the annual or five (5) year emissions.

c. Each owner or operator subject to the requirements of Rule 15.3 is exempted from the requirements of Rule 15.3(g)(2)a. and b., after the installation of a collection and control system in compliance with Rule 15.3(b)(2)b., during such time as the collection and control system is in operation and in compliance with Rule 15.3(c) and (e).

(3) Each owner or operator subject to the provisions of Rule 15.3(b)(2)b.1. shall submit a collection and control system design plan to the Director within one (1) year of the first report, required under Rule 15.3(g)(2), in which the emission rate equals or exceeds fifty (50) megagrams per year, except as follows:

a. If the owner or operator elects to recalculate the NMOC emission rate after Tier 2 NMOC sampling and analysis as provided in Rule 15.3(d)(1)c. and the resulting rate is less than fifty (50) megagrams per year, annual periodic reporting shall be resumed, using the Tier 2 determined site-specific NMOC concentration, until the calculated emission rate is equal to or greater than fifty (50) megagrams per year or the landfill is closed. The revised NMOC emission rate report, with the recalculated emission rate based on NMOC sampling and analysis, shall be submitted within one hundred eighty (180) days of the first calculated exceedance of fifty (50) megagrams per year.

b. If the owner or operator elects to recalculate the NMOC emission rate after determining a site-specific methane generation rate constant (k) as provided in Tier 3 in Rule 15.3(d)(1)d., and the resulting NMOC emission rate is less than fifty (50) megagrams per year, annual periodic reporting shall be resumed. The resulting site-specific methane generation rate constant (k) shall be used in the emission rate calculation until such time as the emissions rate calculation results in an exceedance. The revised NMOC emission rate report based on the provisions of Rule 15.3(d)(1)d. and the resulting site-specific methane generation rate constant (k) shall be submitted to the Director within one (1) year of the first calculated emission rate exceeding fifty (50) megagrams per year.

(4) Each owner or operator of a controlled landfill shall submit a closure report to the Director and the Administrator within thirty (30) days of waste acceptance cessation. The Director or the Administrator may request additional information as may be necessary to verify that permanent closure has taken place in accordance with the requirements of Title 40 CFR § 258.60, which has been incorporated by reference in Chapter 4. If a closure report has been submitted to the Director and the Administrator, no additional wastes may be placed in the landfill without filing a notification of modification as described under Title 40 CFR § 60.7 (a)(4), which has been incorporated by reference in Chapter 4.

(5) Each owner or operator of a controlled landfill shall submit an equipment removal report to the Director thirty (30) days prior to removal or cessation of operation of the control equipment.

a. The equipment removal report shall contain all of the following items:

1. A copy of the closure report submitted in accordance with Rule 15.3(g)(4);

2. A copy of the initial performance test report demonstrating that the fifteen (15) year minimum control period has expired; and

3. Dated copies of three (3) successive NMOC emission rate reports demonstrating that the landfill is no longer producing fifty (50) megagrams or greater of NMOC per year.

b. The Director may request such additional information as may be necessary to verify that all of the conditions for removal in Rule 15.3(b)(2)b.5. have been met.

(6) Each owner or operator of a landfill seeking to comply with Rule 15.3(b)(2)b. using an active collection system designed in accordance with Rule 15.3(b)(2)b.2. shall submit to the Director annual reports of the recorded information required by Rule 15.3(g)(6)a. through f. The initial annual report shall be submitted within one hundred eighty (180) days of installation and start-up of the collection and control system or within one hundred eighty

(180) days of the date of adoption of Rule 15.3 for existing collection systems, and shall include the initial performance test report required under Title 40 CFR § 60.8, which has been incorporated by reference in Chapter 4. For enclosed combustion devices and flares, reportable exceedances are defined under Rule 15.3(h)(3).

a. Value and length of time for exceedance of applicable parameters monitored under Rule 15.3(f)(1), (2), (3), and (4).

b. Description and duration of all periods when the gas stream is diverted from the control device through a bypass line or the indication of bypass flow as specified under Rule 15.3(f).

c. Description and duration of all periods when the control device was not operating for a period exceeding one (1) hour and length of time the control device was not operating.

d. All periods when the collection system was not operating in excess of five (5) days.

e. The location of each exceedance of the five hundred (500) parts per million methane concentration as provided in Rule 15.3(c)(4) and the concentration recorded at each location for which an exceedance was recorded in the previous month.

f. The date of installation and the location of each well or collection system expansion added pursuant to Rule 15.3(e)(1)c., (e)(2), and (e)(3)d.

(7) Each owner or operator seeking to comply with Rule 15.3(b)(2)b.3. shall include the following information with the initial performance test report required under Title 40 CFR § 60.8, which has been incorporated by reference in Chapter 4:

a. A diagram of the collection system showing collection system positioning including all wells, horizontal collectors, surface collectors, or other gas extraction devices, including the locations of any areas excluded from collection and the proposed sites for the future collection system expansion;

b. The data upon which the sufficient density of wells, horizontal collectors, surface collectors, or other gas extraction devices and the gas mover equipment sizing are based;

c. The documentation of the presence of asbestos or nondegradable material for each area from which collection wells have been excluded based on the presence of asbestos or nondegradable material;

d. The sum of the gas generation flow rates for all areas from which collection wells have been excluded based on nonproductivity and the calculations of gas generation flow rate for each excluded area;

e. The provisions for increasing gas mover equipment capacity with increased gas generation flow rate, if the present gas mover equipment is inadequate to move the maximum flow rate expected over the life of the landfill; and

f. The provisions for the control of off-site migration.

(h) *Recordkeeping Requirements.*

(1) Except as provided in Rule 15.3(b)(2)b.1., each owner or operator of an MSW landfill subject to the provisions of Rule 15.3(b)(2) shall keep for at least five (5) years up-to-date, readily accessible, on-site records of the design capacity report which triggered Rule 15.3(b)(2), the current amount of solid waste in-place, and the year-by-year waste acceptance rate. Off-site records may be maintained if they are retrievable within four (4) hours. Either paper copy or electronic formats are acceptable.

(2) Except as provided in Rule 15.3(b)(2)b.1.(ii), each owner or operator of a controlled landfill shall keep up-to-date, readily accessible records for the life of the control equipment of the data listed in Rule 15.3(h)(2)a. through d. as measured during the initial performance test or compliance determination. Records of subsequent tests or monitoring shall be maintained for a minimum of five (5) years. Records of the control device vendor specifications shall be maintained until removal.

a. Where an owner or operator subject to the provisions of Rule 15.3 seeks to demonstrate compliance with Rule 15.3(b)(2)b.2.:

1. The maximum expected gas generation flow rate as calculated in Rule 15.3(e)(1)a. The owner or operator may use another method to determine the maximum gas generation flow rate, if the method has been approved by the Director.

2. The density of wells, horizontal collectors, surface collectors, or other gas extraction devices determined using the procedures specified in Rule 15.3(i)(1)a.

b. Where an owner or operator subject to the provisions of Rule 15.3 seeks to demonstrate compliance with Rule 15.3(b)(2)b.3. through use of an enclosed combustion device other than a boiler or process heater with a design heat input capacity greater than forty-four (44) megawatts:

1. The average combustion temperature measured at least every fifteen (15) minutes and averaged over the same time period of the performance test.

2. The percent reduction of NMOC determined as specified in Rule 15.3(b)(2)b.3. achieved by the control device.

c. Where an owner or operator subject to the provisions of Rule 15.3 seeks to demonstrate compliance with Rule 15.3(b)(2)b.3.(ii)(A) through use of a boiler or process heater of any size: a description of the location at which the collected gas vent stream is introduced into the boiler or process heater over the same time period of the performance testing.

d. Where an owner or operator subject to the provisions of Rule 15.3 seeks to demonstrate compliance with Rule 15.3(b)(2)b.3.(ii)(A) through use of an open flare: the flare type (i.e., steam-assisted, air-assisted, or nonassisted), all visible emission readings, heat content determination, flow rate or bypass flow rate measurements, and exit velocity determinations made during the performance test as specified in Title 40 CFR § 60.18, which has been incorporated by reference in Chapter 4, continuous records of the flare pilot flame or flare flame monitoring, and records of all periods of operations during which the pilot flame of the flare flame is absent.

(3) Except as provided in Rule 15.3(b)(2)b.1.(ii), each owner or operator of a controlled landfill subject to the provisions of Rule 15.3 shall keep for five (5) years up-to-date, readily accessible continuous records of the equipment operating parameters specified to be monitored in Rule 15.3(f) as well as up-to-date, readily accessible records for periods of operation during which the parameter boundaries established during the most recent performance test are exceeded.

a. The following constitute exceedances that shall be recorded and reported under Rule 15.3(g)(6):

1. For enclosed combustors except for boilers and process heaters with design heat input capacity of forty-four (44) megawatts (150 million British thermal unit per hour) or greater, all three (3) hour periods of operation during which the average

combustion temperature was more than twenty-eight degrees (28°) Celsius below the average combustion temperature during the most recent performance test at which compliance with Rule 15.3(b)(2)b.3. was determined.

2. For boilers or process heaters, whenever there is a change in the location at which the vent stream is introduced into the flame zone as required under Rule 15.3(b)(2)b.3.(ii)(A).

b. Each owner or operator subject to the provisions of Rule 15.3 shall keep up-to date, readily accessible continuous records of the indication of flow to the control device or the indication of bypass flow or records of monthly inspections of car-seals or lock-and-key configurations used to seal bypass lines, specified under Rule 15.3(f).

c. Each owner or operator subject to the provisions of Rule 15.3 who uses a boiler or process heater with a design heat input capacity of forty-four (44) megawatts or greater to comply with Rule 15.3(b)(2)b.3. shall keep an up-to-date, readily accessible record of all periods of operation of the boiler or process heater. (Examples of such records could include records of steam use, fuel use, or monitoring data collected pursuant to other State, local, or Federal regulatory requirements.)

d. Each owner or operator seeking to comply with the provisions of Rule 15.3 by use of an open flare shall keep up-to-date, readily accessible continuous records of the flame or flare pilot flame monitoring specified under Rule 15.3(f), and up-to-date, readily accessible records of all periods of operation in which the flame or flare pilot flame is absent.

(4) Except as provided in Rule 15.3(b)(2)b.1.(ii), each owner or operator subject to the provisions of Rule 15.3 shall keep for the life of the collection system an up-to-date, readily accessible plot map showing each existing and planned collector in the system and providing a unique identification location label for each collector.

a. Each owner or operator subject to the provisions of Rule 15.3 shall keep up-to-date, readily accessible records of the installation date and location of all newly installed collectors as specified under Rule 15.3(e)(2).

b. Each owner or operator subject to the provisions of Rule 15.3 shall keep readily accessible documentation of the nature, date of deposition, amount, and location of asbestos-containing or nondegradable waste excluded from collection as provided in Rule 15.3(i)(1)c.1. as well as any nonproductive areas excluded from collection as provided in Rule 15.3(i)(1)c.2.

(5) Except as provided in Rule 15.3(b)(2)b.1.(ii), each owner or operator subject to the provisions of Rule 15.3 shall keep for at least five (5) years up-to-date, readily accessible records of all collection and control system exceedances of the operational standards outlined in Rule 15.3(c), the reading in the subsequent month whether or not the second reading is an exceedance, and the location of each exceedance.

(6) Landfill owners or operators who convert design capacity from volume to mass or mass to volume to demonstrate that landfill design capacity is less than two million five hundred thousand (2,500,000) megagrams or two million five hundred thousand (2,500,000) cubic meters, as provided in the definition of "design capacity" in Rule 15.3(a), shall keep readily accessible, on-site records of the annual recalculation of site-specific density, design capacity, and the supporting documentation. Off-site records may be maintained if they are retrievable within four (4) hours. Either paper copy or electronic formats are acceptable.

(i) *Specifications for Active Collection Systems.*

(1) Each owner or operator seeking to comply with Rule 15.3(b)(2)b.1. shall site active collection wells, horizontal collectors, surface collectors, or other extraction devices at a sufficient density throughout all gas producing areas using the following procedures unless alternative procedures have been approved by the Director as provided in Rule 15.3(b)(2)b.1.(iii) and (iv):

a. The collection devices within the interior and along the perimeter areas shall be certified to achieve comprehensive control of surface gas emissions by a professional engineer. The following issues shall be addressed in the design: depths of refuse, refuse gas generation rates and flow characteristics, cover properties, gas system expandability, leachate and condensate management, accessibility, compatibility with filling operations, integration with closure end use, air intrusion control, corrosion resistance, fill settlement, and resistance to the refuse decomposition heat.

b. The sufficient density of gas collection devices determined in Rule 15.3(i)(1)a. shall address landfill gas migration issues and augmentation of the collection system through the use of active or passive systems at the landfill perimeter or exterior.

c. The placement of gas collection devices determined in Rule 15.3(i)(1)a. shall control all gas producing areas, except as provided by Rule 15.3(i)(1)c.1. and c.2.

1. Any segregated area of asbestos or nondegradable material may be excluded from collection if documented as provided under Rule 15.3(h)(4). The documentation shall provide the nature, date of deposition, location and amount of asbestos or nondegradable material deposited in the area, and shall be provided to the Director upon request.

2. Any nonproductive area of the landfill may be excluded from control, provided that the total of all excluded areas can be shown to contribute less than one percent (1%) of the total amount of NMOC emissions from the landfill. The amount, location, and age of the material shall be documented and provided to the Director upon request. A separate NMOC emissions estimate shall be made for each section proposed for exclusion, and the sum of all such sections shall be compared to the NMOC emissions estimate for the entire landfill. Emissions from each section shall be computed using the following equation:

$$Q_i = 2\,k\,L_0\,M_i\,(e^{-kti})\,(C_{NMOC})\,(3.6 \times 10^{-9})$$

where,

Q_i	=	NMOC emission rate from the i^{th} section, megagrams per year
k	=	Methane generation rate constant, $year^{-1}$
L_0	=	Methane generation potential, cubic meters per megagram solid waste
M_i	=	Mass of the degradable solid waste in the i^{th} section, megagrams
t_i	=	Age of the solid waste in the i^{th} section, years
C_{NMOC}	=	Concentration of nonmethane organic compounds, parts per million by volume
3.6×10^{-9}	=	Conversion factor

3. The values for k and C_{NMOC} determined in field testing shall be used, if field testing has been performed in determining the NMOC emission rate or the radii of influence (the distance from the well center to a point in the landfill where the pressure gradient applied by the blower or compressor approaches zero). If field testing has not been performed, the default values for k, L_0 and C_{NMOC} provided in Rule 15.3(d)(1)a. or the alternative values from Rule 15.3(d)(1)e. shall be used. The mass of nondegradable solid waste contained within the given section may be subtracted from the total mass of the section when estimating emissions provided the nature, location, age, and amount of the nondegradable material is documented as provided in Rule 15.3(i)(1)c.1.

(2) Each owner or operator seeking to comply with Rule 15.3(b)(2)b.1.(i) shall construct the gas collection devices using the following equipment or procedures:

a. The landfill gas extraction components shall be constructed of polyvinyl chloride (PVC), high density polyethylene (HDPE) pipe, fiberglass, stainless steel, or other nonporous corrosion resistant material of suitable dimensions to: convey projected amounts of gases; withstand installation, static, and settlement forces; and withstand planned overburden or traffic loads. The collection system shall extend as necessary to comply with emission and migration standards. Collection devices such as wells and horizontal collectors shall be perforated to allow gas entry without head loss sufficient to impair performance across the intended extent of control. Perforations shall be situated with regard to the need to prevent excessive air infiltration.

b. Vertical wells shall be placed so as not to endanger underlying liners and shall address the occurrence of water within the landfill. Holes and trenches constructed for piped wells and horizontal collectors shall be of sufficient cross-section so as to allow for their proper construction and completion including, for example, centering of pipes and placement of gravel backfill. Collection devices shall be designed so as not to allow indirect short circuiting of air into the cover or refuse into the collection system or gas into the air. Any gravel used around pipe perforations should be of a dimension so as not to penetrate or block perforations.

c. Collection devices may be connected to the collection header pipes below or above the landfill surface. The connector assembly shall include a positive closing throttle valve, any necessary seals and couplings, access couplings and at least one (!) sampling port. The collection devices shall be constructed of PVC, HDPE, fiberglass, stainless steel, or other nonporous material of suitable thickness.

(3) Each owner or operator seeking to comply with Rule 15.3(b)(2)b.1.(i) shall convey the landfill gas to a control system in compliance with Rule 15.3(b)(2)b.3. through the collection header pipe(s). The gas mover equipment shall be sized to handle the maximum gas generation flow rate expected over the intended use period of the gas moving equipment using the following procedures:

a. For existing collection systems, the flow data shall be used to project the maximum flow rate. If no flow data exists, the procedures in Rule 15.3(i)(3)b. shall be used.

b. For new collection systems, the maximum flow rate shall be determined in accordance with Rule 15.3(e)(1)a.

Rule 15.4 The provisions of Title 40 Code of Federal Regulations Part 62 "Approval and Promulgation of State Plans for Designated Facilities and Pollutants," Subpart OOO "Federal Plan Requirements for Municipal Solid Waste Landfills That Commenced Construction On or Before July 17, 2014 and Have Not

Been Modified or Reconstructed Since July 17, 2014" (Revised as of July 1, 2023) is hereby incorporated by reference in Chapter 4 as requirements of this municipality pursuant to the provisions of T.C.A. § 68-201-115 and § 10-7-121.

Rule 16. Emission Standards for Hazardous Air Pollutants Other Than Asbestos.

Rule 16.1. The provisions of Title 40 Code of Federal Regulations Part 61 "National Emissions Standards for Hazardous Air Pollutants," Subparts A, B, C, D, E, F, H, I, J, K, L, N, O, P, Q, R, T, V, W, Y, BB, and FF and Appendices A, B, C, D, and E (Revised as of July 1, 2023) are hereby incorporated by reference in Chapter 4 as requirements of this municipality pursuant to the provisions of T.C.A. § 68-201-115 and § 10-7-121. The following subparts and appendices are included:

Subpart A—	General Provisions
Subpart B—	Radon Emissions From Underground Uranium Mines
Subpart C—	Beryllium
Subpart D—	Beryllium Rocket Motor Firing
Subpart E—	Mercury
Subpart F—	Vinyl Chloride
Subpart H—	Emissions of Radionuclides Other Than Radon From Department of Energy Facilities
Subpart I—	Radionuclide Emissions From Federal Facilities Other Than Nuclear Regulatory Commission Licensees and Not Covered by Subpart H
Subpart J—	Equipment Leaks (Fugitive Emission Sources) of Benzene
Subpart K—	Radionuclide Emissions From Elemental Phosphorus Plants
Subpart L—	Benzene Emissions from Coke By-Product Recovery Plants
Subpart N—	Inorganic Arsenic Emissions From Glass Manufacturing Plants
Subpart O—	Inorganic Arsenic Emissions From Primary Copper Smelters
Subpart P—	Inorganic Arsenic Emissions From Arsenic Trioxide and Metallic Arsenic Production Facilities
Subpart Q—	Radon Emissions From Department of Energy Facilities
Subpart R—	Radon Emissions From Phosphogypsum Stacks
Subpart T—	Radon Emissions From the Disposal of Uranium Mill Tailings
Subpart V—	Equipment Leaks (Fugitive Emission Sources)
Subpart W—	Radon Emissions From Operating Mill Tailings
Subpart Y—	Benzene Emissions From Benzene Storage Vessels
Subpart BB—	Benzene Emissions From Benzene Transfer Operations
Subpart FF—	Benzene Waste Operations
Appendix A—	National Emission Standards for Hazardous Air Pollutants, Compliance Status Information
Appendix B—	Test Methods
Appendix C—	Quality Assurance Procedures
Appendix D—	Methods for Estimating Radionuclide Emissions
Appendix E—	Compliance Procedures Methods for Determining Compliance With Subpart I

Rule 16.2. Wherever the term "Administrator" is used in the national emission standards for hazardous air pollutants, the term "Chattanooga-Hamilton County Air Pollution Control Board or Director of the Chattanooga-Hamilton County Air Pollution Control Bureau" shall be substituted, where appropriate, for the purposes of Rule 16.

Rule 16.3. Where the term "construction permit" is used, the term "installation permit" shall be substituted for the purposes of Rule 16.1.

Rule 16.4. Where the term "commenced" is used, it shall have the meaning of the word "commence" in Section 4-2 of this Chapter.

Rule 16.5. Emission Standards for Source Categories.

(a) (Reserved).

(b) No emission standard or other requirement in Rule 16 shall be interpreted, construed, or applied to diminish or replace the requirements of a more stringent emission limitation or other applicable requirement in this chapter for a source category.

(c) The provisions of Title 40 Code of Federal Regulations Part 63 "National Emissions Standards for Hazardous Air Pollutants for Source Categories," Subparts A, B, C, D, F, G, H, I, J, L, M, N, O, Q, R, S, T, U, W, X, Y, AA, BB, CC, DD, EE, GG, HH, II, JJ, KK, LL, MM, NN, OO, PP, QQ, RR, SS, TT, UU, VV, WW, XX, YY, CCC, DDD, EEE, GGG, HHH, III, JJJ, LLL, MMM, NNN, OOO, PPP, QQQ, RRR, TTT, UUU, VVV, XXX, AAAA, CCCC, DDDD, EEEE, FFFF, GGGG, HHHH, IIII, JJJJ, KKKK, MMMM, NNNN, OOOO, PPPP, QQQQ, RRRR, SSSS, TTTT, UUUU, VVVV, WWWW, XXXX, YYYY, ZZZZ, AAAAA, BBBBB, CCCCC, DDDDD, EEEEE, FFFFF, GGGGG, HHHHH, IIIII, JJJJJ, KKKKK, LLLLL, MMMMM, NNNNN, PPPPP, QQQQQ, RRRRR, SSSSS, TTTTT, UUUUU, WWWWW, YYYYY, ZZZZZ, BBBBBB, CCCCCC, DDDDDD, EEEEEE, FFFFFF, GGGGGG, HHHHHH, JJJJJJ, LLLLLL, MMMMMM, NNNNNN, OOOOOO, PPPPPP, QQQQQQ, RRRRRR, SSSSSS, TTTTTT, VVVVVV, WWWWWW, XXXXXX, YYYYYY, ZZZZZZ, AAAAAAA, BBBBBBB, CCCCCCC, DDDDDDD, EEEEEEE, and HHHHHHH and Appendices A, B, C, D, and E (Revised as of July 1, 2023) are hereby incorporated by reference in Chapter 4 as requirements of this municipality pursuant to the provisions of T.C.A. § 68-201-115 and § 10-7-121. The following subparts and appendices are included:

The following subparts are included:

Subpart A—	General Provisions
Subpart B—	Requirements for Control Technology Determinations for Major Sources in Accordance With Clean Air Act Sections, Sections 112(g) and 112(j)
Subpart C—	List of Hazardous Air Pollutants, Petitions Process, Lesser Quantity Designations, Source Category List
Subpart D—	Regulations Governing Compliance Extensions for Early Reductions of Hazardous Air Pollutants
Subpart F—	Organic Hazardous Air Pollutants From the Synthetic Organic Chemical Manufacturing Industry
Subpart G—	Organic Hazardous Air Pollutants From the Synthetic Organic Chemical Manufacturing Industry for Process Vents, Storage Vessels, Transfer Operations, and Wastewater
Subpart H—	Organic Hazardous Air Pollutants for Equipment Leaks
Subpart I—	Organic Hazardous Air Pollutants for Certain Processes Subject to the Negotiated Regulation for Equipment Leaks
Subpart J—	Polyvinyl Chloride and Copolymers Production
Subpart L—	Coke Oven Batteries

Subpart M—	Perchloroethylene Air Emission Standards for Dry Cleaning Facilities
Subpart N—	Chromium Emissions From Hard and Decorative Chromium Electroplating and Chromium Anodizing Tanks
Subpart O—	Ethylene Oxide Emission Standards for Sterilization Facilities
Subpart Q—	Industrial Process Cooling Towers
Subpart R—	Gasoline Distribution Facilities (Bulk Gasoline Terminals and Pipeline Breakout Stations)
Subpart S—	Pulp and Paper Industry
Subpart T—	Halogenated Solvent Cleaning
Subpart U—	Group I Polymers and Resins
Subpart W—	Epoxy Resins Production and Non-Nylon Polyamides Production
Subpart X—	Secondary Lead Smelting
Subpart Y—	Marine Tank Vessel Loading Operations
Subpart AA—	Phosphoric Acid Manufacturing Plants
Subpart BB—	Phosphate Fertilizers Production Plants
Subpart CC—	Petroleum Refineries
Subpart DD—	Off-Site Waste and Recovery Operations
Subpart EE—	Magnetic Tape Manufacturing Operations
Subpart GG—	Aerospace Manufacturing and Rework Facilities
Subpart HH—	Oil and Natural Gas Production Facilities
Subpart II—	Shipbuilding and Ship Repair (Surface Coating)
Subpart JJ—	Wood Furniture Manufacturing Operations
Subpart KK—	Printing and Publishing Industry
Subpart LL—	Primary Aluminum Reduction Plants
Subpart MM—	Chemical Recovery Combustion Sources at Kraft, Soda, Sulfite, and Stand-Alone Semichemical Pulp Mills
Subpart NN—	Wool Fiberglass Manufacturing at Area Sources
Subpart OO—	Tanks - Level 1
Subpart PP—	Containers
Subpart QQ—	Surface Impoundments
Subpart RR—	Individual Drain Systems
Subpart SS—	Closed Vent Systems, Control Devices, Recovery Devices and Routing to a Fuel Gas System or a Process
Subpart TT—	Equipment Leaks - Control Level 1
Subpart UU—	Equipment Leaks - Control Level 2 Standards
Subpart VV—	Oil-Water Separators and Organic-Water Separators
Subpart WW—	Storage Vessels (Tanks) - Control Level 2
Subpart XX—	Ethylene Manufacturing Process Units: Heat Exchange Systems and Waste Operations
Subpart YY—	Generic Maximum Achievable Control Technology Standards
Subpart CCC—	Steel Pickling - HCl Process Facilities and Hydrochloric Acid Regeneration Plants

Subpart DDD—	Mineral Wool Production
Subpart EEE—	Hazardous Waste Combustors
Subpart GGG—	Pharmaceuticals Production
Subpart HHH—	Natural Gas Transmission and Storage Facilities
Subpart III—	Flexible Polyurethane Foam Production
Subpart JJJ—	Group IV Polymers and Resins
Subpart LLL—	Portland Cement Manufacturing Industry
Subpart MMM—	Pesticide Active Ingredient Production
Subpart NNN—	Wool Fiberglass Manufacturing
Subpart OOO—	Manufacture of Amino Phenolic Resins
Subpart PPP—	Polyether Polyols Production
Subpart QQQ—	Primary Copper Smelting
Subpart RRR—	Secondary Aluminum Production
Subpart TTT—	Primary Lead Smelting
Subpart UUU—	Petroleum Refineries: Catalytic Cracking Units, Catalytic Reforming Units, and Sulfur Recovery Units
Subpart VVV—	Publicly Owned Treatment Works
Subpart XXX—	Ferroalloys Production: Ferromanganese and Silicomanganese
Subpart AAAA—	Municipal Solid Waste Landfills
Subpart CCCC—	Manufacturing of Nutritional Yeast
Subpart DDDD—	Plywood and Composite Wood Products
Subpart EEEE—	Organic Liquids Distribution (Non-Gasoline)
Subpart FFFF—	Miscellaneous Organic Chemical Manufacturing
Subpart GGGG—	Solvent Extraction for Vegetable Oil Production
Subpart HHHH—	Wet-Formed Fiberglass Mat Production
Subpart IIII—	Surface Coating of Automobiles and Light-Duty Trucks
Subpart JJJJ—	Paper and Other Web Coating
Subpart KKKK—	Surface Coating of Metal Cans
Subpart MMMM—	Surface Coating of Miscellaneous Metal Parts and Products
Subpart NNNN—	Surface Coating of Large Appliances
Subpart OOOO—	Printing, Coating, and Dyeing of Fabrics and Other Textiles
Subpart PPPP—	Surface Coating of Plastic Parts and Products
Subpart QQQQ—	Surface Coating of Wood Building Products
Subpart RRRR—	Surface Coating of Metal Furniture
Subpart SSSS—	Surface Coating of Metal Coil
Subpart TTTT—	Leather Finishing Operations
Subpart UUUU—	Cellulose Products Manufacturing
Subpart VVVV—	Boat Manufacturing
Subpart WWWW—	Reinforced Plastic Composites Production
Subpart XXXX—	Rubber Tire Manufacturing
Subpart YYYY—	Stationary Combustion Turbines
Subpart ZZZZ—	Stationary Reciprocating Internal Combustion Engines

Subpart AAAAA—	Lime Manufacturing Plants
Subpart BBBBB—	Semiconductor Manufacturing
Subpart CCCCC—	Coke Ovens: Pushing, Quenching, and Battery Stacks
Subpart DDDDD—	Major Sources: Industrial, Commercial, and Institutional Boilers and Process Heaters
Subpart EEEEE—	Iron and Steel Foundries
Subpart FFFFF—	Integrated Iron and Steel Manufacturing Facilities
Subpart GGGGG—	Site Remediation
Subpart HHHHH—	Miscellaneous Coating Manufacturing
Subpart IIIII—	Mercury Cell Chlor-Alkali Plants
Subpart JJJJJ—	Brick and Structural Clay Products Manufacturing
Subpart KKKKK—	Clay Ceramics Manufacturing
Subpart LLLLL—	Asphalt Processing and Asphalt Roofing Manufacturing
Subpart MMMMM—	Flexible Polyurethane Foam Fabrication Operations
Subpart NNNNN—	Hydrochloric Acid Production
Subpart PPPPP—	Engine Test Cells Stands
Subpart QQQQQ—	Friction Materials Manufacturing Facilities
Subpart RRRRR—	Taconite Iron Ore Processing
Subpart SSSSS—	Refractory Products Manufacturing
Subpart TTTTT—	Primary Magnesium Refining
Subpart UUUUU—	Coal- and Oil-Fired Electric Utility Steam Generating Units
Subpart WWWWW—	Hospital Ethylene Oxide Sterilizers
Subpart YYYYY—	Area Sources: Electric Arc Furnace Steelmaking Facilities
Subpart ZZZZZ—	Iron and Steel Foundries Area Sources
Subpart BBBBBB—	Gasoline Distribution Bulk Terminals, Bulk Plants, and Pipeline Facilities
Subpart CCCCCC—	Gasoline Dispensing Facilities
Subpart DDDDDD—	Polyvinyl Chloride and Copolymers Production Area Sources
Subpart EEEEEE—	Primary Copper Smelting Area Sources
Subpart FFFFFF—	Secondary Copper Smelting Area Sources
Subpart GGGGGG—	Primary Nonferrous Metals Area Sources - Zinc, Cadmium, and Beryllium
Subpart HHHHHH—	Paint Stripping and Miscellaneous Surface Coating Operations at Area Sources
Subpart JJJJJJ—	Industrial, Commercial, and Institutional Boilers Area Sources
Subpart LLLLLL—	Acrylic and Modacrylic Fibers Production Area Sources
Subpart MMMMMM—	Carbon Black Production Area Sources
Subpart NNNNNN—	Chemical Manufacturing Area Sources: Chromium Compounds
Subpart OOOOOO—	Flexible Polyurethane Foam Production and Fabrication Area Sources
Subpart PPPPPP—	Lead Acid Battery Manufacturing Area Sources
Subpart QQQQQQ—	Wood Preserving Area Sources
Subpart RRRRRR—	Clay Ceramics Manufacturing Area Sources

Subpart SSSSSS—	Glass Manufacturing Area Sources
Subpart TTTTTT—	Secondary Nonferrous Metals Processing Area Sources
Subpart VVVVVV—	Chemical Manufacturing Area Sources
Subpart WWWWWW—	Area Source Standards for Plating and Polishing Operations
Subpart XXXXXX—	Area Source Standards for Nine Metal Fabrication and Finishing Source Categories
Subpart YYYYYY—	Area Sources: Feroalloys Production Facilities
Subpart ZZZZZZ—	Area Source Standards for Aluminum, Copper, and Other Nonferrous Foundries
Subpart AAAAAAA—	Area Sources: Asphalt Processing and Asphalt Roofing Manufacturing
Subpart BBBBBBB—	Area Sources: Chemical Preparations Industry
Subpart CCCCCCC—	Area Sources: Paints and Allied Products Manufacturing
Subpart DDDDDDD—	Area Sources: Prepared Feeds Manufacturing
Subpart EEEEEEE—	Gold Mine Ore Processing and Production Area Source Category
Subpart HHHHHHH—	Polyvinyl Chloride and Copolymers Production
Appendix A—	Test Methods
Appendix B—	Sources Defined for Early Reduction Provisions
Appendix C—	Determination of the Fraction Biodegraded (F_{bio}) in a Biological Treatment Unit
Appendix D—	Alternative Validation Procedure for EPA Waste and Wastewater Methods
Appendix E—	Monitoring Procedure for Nonthoroughly Mixed Open Biological Treatment Systems at Kraft Pulp Mills Under Unsafe Sampling Conditions

(d) If the owner or operator of a source category has executed an enforceable agreement with the U.S. EPA Administrator pursuant to the Title 42 U.S.C. Section 7412(i)(5) [Early Reductions Program] that contains more stringent requirements or more stringent emissions limitations than would otherwise be applicable under this Rule, any certificate of operation issued to the source shall include the requirements and emissions limitations contained in that agreement, unless the source is subsequently released from said enforceable agreement and such release is confirmed in a writing signed by the U.S. EPA Administrator, or designee, and submitted to the Director.

(e) No source shall emit any hazardous air pollutant in excess of any emissions limitation or contrary to any standard, prohibition or requirement contained in a certificate of operation, effective for new source categories beginning with initial operation and effective for existing source categories as expeditiously as practicable, but not later than the date determined by the U.S. EPA Administrator in a standard promulgated in Title 40 Code of Federal Regulations Part 63, which has been incorporated by reference in Chapter 4, or such other compliance date as would apply under Title 42 U.S.C. 7412(i) [Early Reductions Program].

Rule 16.6. (Reserved)

Rule 16.7. The words, phrases and terms defined in Title 40 Code of Federal Regulations Part 63, its subparts, and its appendices shall be used only for the purpose of interpreting and administering Rule 16 and shall not be used to otherwise alter or vary in any way the definitions provided in Section 4-2 of this chapter.

Rule 16.8. Where the term "Administrator" is used in the national emission standards for hazardous air pollutants for source categories, the term "Director of the Chattanooga-Hamilton County Air Pollution Control Bureau" shall be substituted for the purposes of this chapter, where appropriate, except at Title 40 Code of Federal Regulations Part 63.325(c), except at Title 40 Code of Federal Regulations Part 61.102(b); 61.104(a)(1)(xv); and 61.107(b)(3)(iv).

Rule 16.9. Reserved.

Rule 16.10. Maximum Achievable Control Technology Pollution Control Determinations

(a) *Applicability.* This rule applies to any owner or operator who constructs or reconstructs a major source of hazardous air pollutants unless the major source in question has been specifically regulated or exempted from regulation under a standard issued pursuant to Section 112(d), Section 112(h), or Section 112(j) of the Clean Air Act and promulgated in Title 40 Code of Federal Regulations Part 63, or unless the owner or operator of such major source has been issued all required air pollution control permits for such construction or reconstruction project before the effective date of this ordinance. Rule 16.10 does not apply to electric utility steam generating units. Rule 16.10 does not apply to stationary sources that are within the following source categories, which have been deleted from the source category list by promulgations pursuant to Section 112(c)(9) of the Clean Air Act: (1) asbestos processing area source category; 60 FR 61550-551 November 30, 1995 (2) Chromium chemicals manufacturing, lead acid battery manufacturing, non-stainless steel manufacturing—electric arc furnace operation; stainless steel manufacturing—electric arc furnace operation; and wood treatment; 61 FR 28200-02 June 4, 1996. Rule 16.10 does not apply to research and development activities, as defined in Rule 16.10(b).

(b) *Definitions.* Terms used in Rule 16.10 that are not defined in Rule 16.10(b) have the meaning given to them in Section 4-2.

(1) *Affected source* means the stationary source or group of stationary sources fabricated (on site), erected, or installed meets the definition of "construct a major source" or the definition of "reconstruct a major source" contained in Rule 16.10(b).

(2) *Affected States* are all States (1) Whose air quality may be affected and that are contiguous to Hamilton County, Tennessee, where a determination is made in accordance with Rule 16.10; or (2) Whose air quality may be affected and that are within 50 miles of the major source for which a determination is made in accordance with Rule 16.10.

(3) *Available information* means, for purposes of identifying control technology options for the affected source, information contained in the following information sources as of the date of approval of the determination made in accordance with Rule 16.10:

a. A relevant proposed regulation, including all supporting information;

b. Background information documents for a draft or proposed regulation;

c. Data and information available for the Control Technology Center developed pursuant to Section 113 of the Clean Air Act;

d. Data and information contained in the Aerometric Informational Retrieval System including information in the MACT data base;

e. Any additional information that can be expeditiously provided by the Administrator; and

f. For the purpose of determinations in accordance with Rule 16.10, any additional information provided by the applicant or others, and any additional information considered available by the Director.

(4) *Construct a major source* means:

a. To fabricate, erect, or install at any greenfield site a stationary source, or group of stationary sources, which is located within a contiguous area and under common control and which emits or has the potential to emit ten (10) tons per year of any individual hazardous air pollutant or twenty-five (25) tons per year or more of any combination of hazardous air pollutants, or

b. To fabricate, erect or install at any developed site a new process or production unit which in and of itself emits or has the potential to emit ten (10) tons per year of any individual hazardous air pollutant or twenty-five (25) tons per year or more of any combination of hazardous air pollutants, unless the process or production unit satisfies criteria in paragraphs b.1. through b.6. of this definition.

1. All hazardous air pollutants emitted by the process or production unit that would otherwise be controlled under the requirements of Rule 16.10 will be controlled by emission control equipment which was previously installed at the same site as the process or production unit; and

2. (i) The Director has determined within a period of five (5) years prior to the fabrication, erection, or installation of the process or production unit that the existing emission control equipment represented best available control technology (BACT), lowest achievable emission rate (LAER) pursuant to Title 40 CFR Part 51 or Part 52, BACT for hazardous air pollutants based on the air pollution control ordinance for the category of pollutants which includes those hazardous air pollutants to be emitted by the process or production unit; or

(ii) The Director determines that the control of hazardous air pollutant emissions provided by the existing equipment will be equivalent to that level of control currently achieved by other well-controlled similar sources (i.e., equivalent to the level of control that would be provided by a current BACT, LAER, or BACT for hazardous air pollutants determination); and

3. The Director determines that the percent control efficiency for emissions of hazardous air pollutants from all sources to be controlled by the existing control equipment will be equivalent to the percent control efficiency provided by the control equipment prior to the inclusion of the new process or production unit; and

4. The Director has provided notice and an opportunity for public comment concerning the determination that criteria described in Rule 16.10(b) definition of "construct a major source" described above apply and concerning the continued adequacy of any prior BACT, LAER, or BACT for hazardous air pollutants determination; and

5. If any commenter has asserted that a prior BACT, LAER, or BACT for hazardous air pollutants determination is no longer adequate, the Director has determined that the level of control required by that prior determination remains adequate; and

6. Any emission limitations, work practice requirements, or other terms and conditions upon which the above determinations by the Director are applicable requirements in accordance with Section 504(a) of the Clean Air Act and either have been incorporated into any existing Part 70 permit for the affected source or will be incorporated into any existing Part 70 permit for the affected source or will be incorporated into such permit upon issuance.

(5) *Control technology* means measures, processes, methods, systems, or techniques to limit the emission of hazardous air pollutants through process changes, substitution of materials or other modifications that:

a. Reduce the quantity of, or eliminate emissions of, such pollutants through process changes, substitution of materials or other modifications;

b. Enclose systems or processes to eliminate emissions;

c. Collect, capture or treat such pollutants when released from a process, stack, storage or fugitive emissions point;

d. Are design, equipment, work practice, or operational standards (including requirements for operator training or certification) as provided in Section 112(h) of the Clean Air Act; or

e. Are a combination of paragraphs a. through d. of this definition.

(6) *Electric utility steam generating unit* means any fossil fuel fired combustion unit of more than twenty-five (25) megawatts that serves a generator that produces electricity for sale. A unit that cogenerates steam and electricity and supplies more than one-third (1/3) of its potential electric output capacity and more than twenty-five (25) megawatts electric output to any utility power distribution system for sale shall be considered an electric utility steam generating unit.

(7) *Greenfield site* means a contiguous area under common control that is an undeveloped site.

(8) *List of Source Categories* means the Source Category List required by Section 112(c) of the Clean Air Act.

(9) *Maximum achievable control technology (MACT) emission limitation for new sources* means the emission limitation which is not less stringent than the emission limitation achieved in practice by the best controlled similar source, and which reflects the maximum degree of reduction in emissions that the Director or the Board, taking into consideration the cost of achieving such emission reduction, and any non-air quality health and environmental impacts and energy requirements, determines is achievable by the constructed or reconstructed major source.

(10) *Notice of MACT Approval* means a document issued by the Director containing all federally enforceable conditions necessary to enforce the application and operation of MACT or other control technologies such that the MACT emission limitation is met.

(11) *Process or production unit* means any collection of structures and/or equipment, that processes assembles, applies, or otherwise uses material inputs to produce or store an intermediate or final product. A single facility may contain more than one (1) process or production unit.

(12) *Reconstruct a major source* means the replacement of components at an existing process or production unit that in and of itself emits or has the potential to emit ten (10) tons per year of any individual hazardous air pollutant or twenty-five (25) tons per year of any combination of hazardous air pollutants, whenever:

a. The fixed capital cost of the new components exceeds fifty percent (50%) of the fixed capital cost that would be required to construct a comparable process or production unit; and

b. It is technically and economically feasible for the reconstructed major source to meet the applicable maximum achievable control technology emission limitation for new sources established under Rule 16.10.

(13) *Research and development activities* means activities conducted at a research or laboratory facility whose primary purpose is to conduct research and development into new processes and products, where such source is operated under the close supervision of technically trained personnel and is not engaged in the manufacture of products for sale or exchange for commercial profit, except where such sales do not exceed two percent (2%) of the gross receipts of the source for which it is conducting the research and development.

(14) *Similar source* means a stationary source or process that has comparable emissions and is structurally similar in design and capacity to a constructed or reconstructed major source such that the source could be controlled using the same control technology.

(c) *Prohibition.* After the effective date of this ordinance, no person may begin actual construction or reconstruction of a major source of hazardous air pollutants in this municipality unless:

(1) The major source in question has been specifically regulated or exempted from regulation under a standard issued pursuant to Section 112(d), Section 112(h), or Section 112(j) promulgated in Title 40 Code of Federal Regulations Part 63, which has been incorporated by reference in Chapter 4, and the owner and operator has fully complied with all procedures and requirements for preconstruction review established by that standard, including any applicable requirements set forth in Subpart A—General Provisions of Part 63; or

(2) The Director or the Board has made a final and effective case-by-case determination pursuant to Rule 16.10 such that emissions from the constructed or reconstructed major source will be controlled to a level no less stringent than the maximum achievable control technology emission limitation for new sources.

(d) *Maximum Achievable Control Technology (MACT) Determinations for Constructed and Reconstructed Major Sources.*

(1) Applicability. The requirements of Rule 16.10 apply to an owner or operator who constructs or reconstructs a major source of one (1) or more hazardous air pollutants subject to a case-by-case determination of maximum achievable control technology pursuant to Rule 16.10(c).

(2) Requirements for Constructed and Reconstructed Major Sources. When a case-by-case determination of MACT is required by Rule 16.10(c), the owner and operator shall obtain from the Director an approved MACT determination according to one (1) of the review options contained in Rule 16.10(d)(3).

(3) Review Options.

a. When the Director requires the owner or operator to obtain, or revise, a permit issued pursuant to Article III. of Chapter 4 entitled Part 70 Source Regulation and Permits before construction or reconstruction of the major source, or when the Director allows the owner or operator at its discretion to obtain or revise such a permit before construction or reconstruction, and the owner or operator elects that option, the owner or operator shall follow the administrative procedures in Article III. Part 70 Source Regulation and Permits.

b. When an owner or operator is not required to obtain or revise a Part 70 Source Permit before construction or reconstruction, the owner or operator (unless the owner or operator voluntarily follows the process to obtain a Part 70 Permit) shall either, at the discretion of the Director:

1. Apply for and obtain a Notice of MACT Approval according to the procedures outlined in Rule 16.10 Rule 16.10(d)(6)-(8); or

2. Apply for a MACT determination under any other administrative procedures for preconstruction review and approval established by the Director or the Board which provide for public participation in the determination, and ensure that no person may begin actual construction or reconstruction of a major source in the City of Chattanooga unless the MACT emission limitation for new sources will be met.

c. When applying for a Part 70 Permit, an owner or operator may request approval of case-by-case MACT determinations for alternative operating scenarios. Approval of such determinations satisfies the requirements of Section 112(g) of the Clean Air Act of each such scenario.

d. Regardless of the review process, the MACT emission limitation and requirements established shall be effective as required by Rule 16.10(d)(10) consistent with the principles established in Rule 16.10(d)(4), and supported by the information listed in Rule 16.10(d)(5). The owner or operator shall comply with the requirements in Rule 16.10(d)(5) and with all applicable requirements in Title 40 CFR Part 63, Subpart A, which has been incorporated by reference in Chapter 4.

(4) Principles of MACT Determinations. The following general principles shall govern preparation by the owner or operator of each permit application or other application requiring a case-by-case MACT determination concerning construction or reconstruction of a major source, and all subsequent review of and actions taken concerning such an application by the Board or Director:

a. The MACT emission limitation or MACT requirements recommended by the applicant and approved by the Board or Director shall not be less stringent than the emission control which is achieved in practice by the best controlled similar source, as determined by the Board or Director.

b. Based upon available information, as defined in Rule 16.10, the MACT emission limitation and control technology (including any requirements under Rule 16.10(d)(4)c. recommended by the applicant and approved by the Board and Director shall achieve the maximum degree of reduction in emissions of hazardous air pollutants which can be achieved by utilizing those control technologies that can be identified from the available information, taking into consideration the costs of achieving such emission reduction and any non-air quality health and environmental impacts and energy requirements associated with the emission reduction.

c. The applicant may recommend a specific design, equipment, work practice, or operational standard, or a combination thereof, and the Director may approve such a standard if the Director specifically determines that it is not feasible to prescribe or enforce an emission limitation under the criteria set forth in Section 112(h) of the Clean Air Act.

d. If the Administrator has either proposed a relevant emission standard pursuant to Section 112(d) or Section 112(h) of the Clean Air Act or adopted a presumptive MACT determination for the source category which includes the constructed or reconstructed major source, then the MACT requirements applied to the constructed or reconstructed major source shall take into consideration those MACT emission limitations and requirements of the proposed standard or presumptive MACT determination.

(5) Application Requirements For a Case-By-Case MACT Determination.

a. An application for a MACT determination [whether a Part 70 permit application, an application for a Notice of MACT Approval, or other document specified by the

Board or Director under Rule 16.10(d)(3)b.2.] shall specify a control technology selected by the owner or operator that, if properly operated and maintained, will meet the MACT emission limitation or standard as determined according to the principles set forth in Rule 16.10(d)(4).

b. In each instance where a constructed or reconstructed major source would require additional control technology or a change in control technology, the application for a MACT determination shall contain the following information:
   1. The name and address (physical location) of the major source to be constructed or reconstructed;
   2. A brief description of the major source to be constructed or reconstructed and identification of any listed source category or categories in which it is included;
   3. The expected commencement date for the construction or reconstruction of the major source;
   4. The expected completion date for construction or reconstruction of the major source;
   5. The anticipated date of start-up for the constructed or reconstructed major source;
   6. The hazardous air pollutants emitted by the constructed or reconstructed major source, and the estimated emission rate for each such hazardous air pollutant, to the extent this information is needed by the Board or the Director to determine MACT;
   7. Any federally enforceable emission limitations applicable to the constructed or reconstructed major source;
   8. The maximum and expected utilization of capacity of the constructed or reconstructed major source, and the associated uncontrolled emission rates for that source, to the extent this information is needed by the Board or the Director to determine MACT;
   9. The controlled emissions for the constructed or reconstructed major source in tons/year at expected and maximum utilization of capacity, to the extent this information is needed by the Board or Director to determine MACT;
   10. A recommended emission limitation for the constructed or reconstructed major source consistent with the principles set forth in Rule 16.10(d)(4);
   11. The selected control technology to meet the recommended MACT emission limitation, including technical information on the design, operation, size, estimated control efficiency of the control technology (and the manufacturer's name, address, telephone number, and relevant specifications and drawings, if requested by the Board or the Director);
   12. Supporting documentation including documentation of alternative control technologies considered by the applicant to meet the emission limitation, and analysis of cost and non-air quality health environmental impacts or energy requirements for the selected control technology; and
   13. Any other relevant information required pursuant to Title 40 CFR Part 63, Subpart A, which has been incorporated by reference in Chapter 4.

c. In each instance where the owner or operator contends that a constructed or reconstructed major source will be in compliance, upon startup, with case-by-case MACT under Rule 16.10 without a change in control technology, the application for a MACT determination shall contain the following information:
   1. The information described in Rule 16.10(d)(5)b.1.-b.10.; and

2. Documentation of the control technology in place.

(6) Administrative Procedures for Review of the Notice of MACT Approval.

a. The Director will notify the owner or operator in writing, within forty-five (35) days after the date the application is first received, as to whether the application for a MACT determination is complete or whether additional information is required.

b. The Director will initially approve the recommended MACT emission limitation and other terms set forth in the application, or the Board or Director will notify the owner or operator in writing of its intent to disapprove the application, within thirty (30) calendar days after the owner or operator is notified in writing that the application is complete.

c. The owner or operator may present, in writing, within sixty (60) calendar days after receipt of notice of the Director's intent to disapprove the application, additional information or arguments pertaining to, or amendments to, the application for consideration by the Board or Director before it decides whether to finally disapprove the application.

d. The Director will either initially approve or issue a final disapproval of the application within ninety (90) days after it notifies the owner or operator of an intent to disapprove or within thirty (30) days after the date additional information is received from the owner or operator, whichever is earlier.

e. A final determination by the Director to disapprove any application will be in writing and will specify the grounds on which the disapproval is based. If any application is finally disapproved, the owner or operator may appeal to the Board or may submit a subsequent application concerning construction or reconstruction of the same major source, provided that the subsequent application has been amended in response to the stated grounds for the prior disapproval.

f. An initial decision to approve an application for a MACT determination will be set forth in the Notice of MACT Approval as described in Rule 16.10(d)(7).

(7) Notice of MACT Approval.

a. The notice of MACT Approval will contain a MACT emission limitation (or a MACT work practice standard if the Board or Director determines it is not feasible to prescribe or enforce an emission standard) to control the emissions of hazardous air pollutants. The MACT emission limitation or standard will be determined by the Board or Director and will conform to the principles set forth in Rule 16.10(d)(4).

b. The Notice of MACT Approval will specify any notification, operation and maintenance, performance testing, monitoring, reporting and record keeping requirements. The Notice of MACT Approval shall include:

1. In addition to the MACT emission limitation or MACT work practice standard established under Rule 16.10, additional emission limits, production limits, operational limits or other terms and conditions necessary to ensure practical enforceability of the MACT emission limitation;

2. Compliance certifications, testing, monitoring, reporting and record keeping requirements that are consistent with the requirements of § 4-57;

3. In accordance with Section 114(a)(3) of the Clean Air Act, monitoring shall be capable of demonstrating continuous compliance during the applicable reporting period. Such monitoring data shall be of sufficient quality to be used as a basis for enforcing all applicable requirements established under Rule 16.10, including emission limitations;

4. A statement requiring the owner or operator to comply with all applicable requirements contained in Title 40 CFR Part 63, Subpart A.

c. All provisions contained in the Notice of MACT Approval shall be practically enforceable upon the effective date of issuance of such notice, as provided by Rule 16.10(d)(10).

d. The Notice of MACT Approval shall expire if construction or reconstruction has not commenced within eighteen (18) months after issuance, unless the Board or Director has granted an extension, which shall not exceed an additional twelve (12) months.

(8) Opportunity for Public Comment on the Notice of MACT Approval.

a. The Board or Director will provide opportunity for public comment on the Notice of MACT Approval, including, at a minimum:

1. Availability for public inspection in at least one (1) location in the area affected of the information submitted by the owner or operator and of the Board or Director's initial decision to approve the application;

2. A thirty (30) day period for submittal of public comment; and

3. A notice by prominent advertisement in the area affected of the location of the source information and initial decision specified in Rule 16.10(d)(8)a.1.

b. At the discretion of the Board or Director, the Notice of MACT Approval setting forth the initial decision to approve the application may become final automatically at the end of the comment period if no adverse comments are received. If adverse comments are received, the Board or Director shall have thirty (30) days after the end of the comment period to make any necessary revisions in its analysis and decide whether to finally approve the application.

(9) EPA Notification. The Board or Director shall send a copy of the final Notice of MACT Approval, notice of approval of a Part 70 permit application incorporating a MACT determination (in those instances where the owner or operator either is required or elects to obtain such a permit before construction or reconstruction), or other notice of approval issued pursuant to Rule 16.10(d)(3)b.2. to the Administrator through the appropriate Regional Office, and to all other State air pollution control agencies having jurisdiction in affected States.

(10) Effective Date. The effective date of a MACT determination shall be the date the Notice of MACT Approval becomes final, the date of issuance of a Part 70 permit incorporating a MACT determination [in those instances where the owner or operator either is required or elects to obtain such a permit before construction or reconstruction], or the date any other notice of approval issued pursuant to Rule 16.10(d)(3)b.2. of this section becomes final.

(11) Compliance date. On and after the date of start-up, a constructed or reconstructed major source which is subject to Rule 16.10 shall be in compliance with all applicable requirements specified in the MACT determination.

(12) Compliance with MACT determinations.

a. An owner or operator of a constructed or reconstructed major source that is subject to a MACT determination shall comply with all requirements in the final Notice of MACT Approval, the Part 70 permit (in those instances where the owner or operator either is required or elects to obtain such a permit before construction or reconstruction), or any other final notice of approval issued pursuant to Rule 16.10(c)(3)b.2., including but not limited to any MACT emission limitation or MACT work practice standard, and any notification, operation and maintenance, performance testing, monitoring, reporting, and recordkeeping requirements.

b. An owner or operator of a constructed or reconstructed major source which has obtained a MACT determination shall be deemed to be in compliance with Section 112(g)(2)(B) of the Clean Air Act only to the extent that the constructed or reconstructed major source is in compliance with all requirements set forth in the final Notice of MACT Approval, the Part 70 permit (in those instances where the owner or operator either is required or elects to obtain such a permit before construction or reconstruction), or any other final notice of approval issued pursuant to Rule 16.10(d)(3)b.2. Any violation of such requirements by the owner or operator shall be deemed to be a violation of the prohibition on construction or reconstruction in Section 112(g)(2)(B) for whatever period the owner or operator is determined to be in violation of such requirements, and shall subject the owner or operator to appropriate enforcement action under the Clean Air Act.

(13) Reporting to the Administrator. Within sixty (60) days after the issuance of a final Notice of MACT Approval, a Part 70 permit incorporating a MACT determination (in those instances where the owner or operator either is required or elects to obtain such a permit before construction or reconstruction), or any other final notice of approval issued pursuant to Rule 16.10(d)(3)b.2., the Director shall provide a copy of such notice to the Administrator, and shall provide a summary in a compatible electronic format for inclusion in the MACT data base.

(e) *Requirements for Constructed or Reconstructed Major Sources Subject to a Subsequently Promulgated MACT Standard or MACT Requirement.*

(1) If the Administrator promulgated an emission standard under Section 112(d) or Section 112(h) of the Clean Air Act or the Board or Director issues a determination under Section 112(j) of the Clean Air Act that is applicable to a stationary source or group of sources which would be deemed to be a constructed or reconstructed major source under Rule 16.10 before the date that the owner or operator has obtained a final and legally effective MACT determination under any of the review options available pursuant to Rule 16.10(d), the owner or operator of the source(s) shall comply with the promulgated standard or determination rather than any MACT determination under Section 112(g) of the Clean Air Act by the Board or Director, and the owner or operator shall comply with the promulgated standard by the compliance date in the promulgated standard.

(2) If the Administrator promulgates an emission standard under Section 112(d) or Section 112(h) of the Clean Air Act or the Board or Director makes a determination under Section 112(j) of the Clean Air Act that is applicable to a stationary source or group of sources which was deemed to be a constructed or reconstructed major source under Rule 16.10 and has been subject to a prior case-by-case MACT determination pursuant to Rule 16.10(d), and the owner and operator obtained a final and legally effective case-by-case MACT determination prior to the promulgation date of such emission standard, then the Board or Director shall (if the initial Part 70 permit has not yet been issued) issue an initial operating permit which incorporates the emission standard or determination, or shall (if the initial Part 70 permit has been issued) revise the operating permit according to the reopening procedures in Article III of Chapter 4, to incorporate the emission standard or determination.

a. If the Administrator has included in the emission standard established under Section 112(d) or Section 112(h) of the Clean Air Act a specific compliance date for those sources which have obtained a final and legally effective MACT determination under Rule 16.10 and which have submitted the information required by Rule 16.10(d) to the EPA before the close of the public comment period for the standard established under

Section 112(d) of the Act, such date shall assure that the owner or operator shall comply with the promulgated standard as expeditiously as practicable, but not longer than eight (8) years after such standard is promulgated. In that event, the Board or Director shall incorporate the applicable compliance date in the Part 70 permit.

b. If no compliance date has been established in the promulgated Section 112(d) or 112(h) standard or Section 112(j) determination, for those sources which have obtained a final and legally effective MACT determination under Rule 16.10, then the Board or Director shall establish a compliance date in the permit that assures that the owner or operator shall comply with the promulgated standard or determination as expeditiously as practicable, but not longer than eight (8) years after such standard is promulgated or a Section 112(j) determination is made.

(3) Notwithstanding the requirements of paragraphs (1) and (2) above, if the Administrator promulgates an emission standard under Section 112(d) or Section 112(h) of the Clean Air Act or the Board or Director issues a determination under Section 112(j) of the Act that is applicable to a stationary source or group of sources which was deemed to be a constructed or reconstructed major source under Rule 16.10 and which is the subject of a prior case-by-case MACT determination pursuant to Rule 16.10(d), and the level of control required by the emission standard issued under Section 112(d) or Section 112(h) or the determination issued under Section 112(j) of the Act is less stringent than the level of control required by any emission limitation or standard in the prior MACT determination, the Board or Director is not required to incorporate any less stringent terms of the promulgated standard in the Part 70 permit applicable to such source(s) and may in its discretion consider any more stringent provisions of the prior MACT determination to be applicable legal requirements when issuing or revising such an operating permit.

Rule 17. Emission Standard for Asbestos.

Title 40 Code of Federal Regulations Part 763, Subpart E "Asbestos-Containing Materials in Schools," Appendix E "Interim Method of the Determinations of Asbestos in Bulk Insulation Samples" (Revised as of July 1, 2023) is hereby incorporated by reference in Chapter 4 as a requirement of this municipality pursuant to the provisions of T.C.A. § 68-201-115 and § 10-7-121.

Rule 17.1. Definitions. All terms that are used in this rule and are not defined below are given the same meaning as in Section 4-2.

(1) *Active waste disposal site* means any disposal site other than an inactive site.

(2) *Adequately wet* means to sufficiently mix or penetrate with liquid to prevent the release of particulates. If visible emissions are observed coming from asbestos-containing material, then that material has not been adequately wetted. However, the absence of visible emissions is not sufficient evidence of being adequately wetted.

(3) *Asbestos* means the asbestiform varieties of serpentinite (chrysotile), riebeckite (crocidolite), cummingtonite-grunerite, anthophyllite, and actinolite-tremolite.

(4) *Asbestos-containing waste materials* means mill tailings or any waste that contains commercial asbestos and is generated by a source subject to the provisions of this subpart. This term includes filters from control devices, friable asbestos waste material, and bags or other similar packaging contaminated with commercial asbestos. As applied to demolition and renovation operations, this term also includes regulated asbestos-containing material waste and materials contaminated with asbestos including disposable equipment and clothing.

(5) *Asbestos mill* means any facility engaged in converting, or in any intermediate step in converting, asbestos ore into commercial asbestos. outside storage of asbestos material is not considered a part of the asbestos mill.

(6) *Asbestos tailings* means any solid waste that contains asbestos and is a product of asbestos mining or milling operations.

(7) *Asbestos waste from control devices* means any waste material that contains asbestos and is collected by a pollution control device.

(8) *Category I nonfriable asbestos-containing material (ACM)* means asbestos-containing packing, gaskets, resilient floor covering, and asphalt roofing products containing more than one percent (1%) asbestos as determined using the method specified in Title 40 CFR Part 763, Subpart E, Appendix E, Section 1 "Polarized Light Microscopy," which has been incorporated by reference in Chapter 4.

(9) *Category II nonfriable ACM* means any material, excluding Category I nonfriable ACM, containing more than one percent (1%) asbestos as determined using the method specified in Title 40 CFR Part 763, Subpart E, Appendix E, Section 1 "Polarized Light Microscopy," which has been incorporated by reference in Chapter 4, that, when dry, cannot be crumbled, pulverized, or reduced to powder by hand pressure.

(10) *Commercial asbestos* means any material containing asbestos that is extracted from ore and has value because of its asbestos content.

(11) *Cutting* means to penetrate with a sharp-edged instrument and includes sawing, but does not include shearing, slicing.

(12) *Demolition* means the wrecking or taking out of any load-supporting structural member of a facility together with any related handling operations or the intentional burning of any facility.

(13) *Emergency renovation operation* means a renovation operation that was not planned but results from a sudden, unexpected event that, if not immediately attended to, presents a safety or public health hazard, is necessary to protect equipment from damage, or is necessary to avoid imposing an unreasonable financial burden. This term includes operations necessitated by nonroutine failures of equipment.

(14) *Fabricating* means any processing (e.g., cutting, sawing, drilling) of a manufactured product that contains commercial asbestos, with the exception of processing at temporary sites (field fabricating) for the construction or restoration of facilities. In the case of friction products, fabricating includes bonding, debonding, grinding, sawing, drilling, or other similar operations performed as part of fabricating.

(15) *Facility* means any institutional, commercial, public, industrial, or residential structure, installation, or building (including any structure, installation, or building containing condominiums or individual dwelling units operated as a residential cooperative, but excluding residential buildings having four or fewer dwelling units); any ship; and any active or inactive waste disposal site. For purposes of this definition, any building, structure, or installation that contains a loft used as a dwelling is not considered a residential structure, installation, or building. Any structure, installation or building that was previously subject to this Rule is not excluded, regardless of its current use or function.

(16) *Facility component* means any part of a facility including equipment.

(17) *Friable asbestos material* means any material containing more than one percent (1%) asbestos as determined using the method specified in Title 40 CFR Part 763, Subpart E, Appendix E, Section 1 "Polarized Light Microscopy," which has been incorporated by reference in Chapter 4, that,

when dry, can be crumbled, pulverized, or reduced to powder by hand pressure. If the asbestos content is less than ten percent (10%) as determined by a method other than point counting by polarized light microscopy (PLM), verify the asbestos content by point counting using PLM.

(18) *Fugitive source* means any source of emissions not controlled by an air pollution control device.

(19) *Glove bag* means a sealed compartment with attached inner gloves used for the handling of asbestos-containing materials. Properly installed and used, glove bags provide a small work area enclosure typically used for small-scale asbestos stripping operations. Information on glove-bag installation, equipment and supplies, and work practices is contained in Title 29 CFR Part 1926, Subpart Z, § 1926.1101 "Asbestos."

(20) *Grinding* means to reduce to powder or small fragments and includes mechanical chipping or drilling.

(21) *In poor condition* means the binding of the material is losing its integrity as indicated by peeling, cracking, or crumbling of the material.

(22) *Inactive waste disposal site* means any disposal site or portion of it where additional asbestos-containing waste material has not been deposited within the past year.

(23) *Installation* means any building or structure or any group of buildings or structures at a single demolition or renovation site that are under the control of the same owner or operator (or owner or operator under common control).

(24) *Leak-tight* means that solids or liquids cannot escape or spill out. It also means dust-tight.

(25) *Malfunction*, for the purposes of Rule 17, means any sudden and unavoidable failure of air pollution control equipment or process equipment or of a process to operate in a normal or usual manner so that emissions of asbestos are increased. Failures of equipment shall not be considered malfunctions if they are caused in any way by poor maintenance, careless operation, or any other preventable upset condition, equipment breakdown, or process failure.

(26) *Manufacturing* means the combining of commercial asbestos—or, in the case of woven friction products, the combining of textiles containing commercial asbestos—with any other material(s), including commercial asbestos, and the processing of this combination into a product. Chlorine production is considered a part of manufacturing.

(27) *Natural barrier* means a natural object that effectively precludes or deters access. Natural barriers include physical obstacles such as cliffs, lakes or other large bodies of water, deep and wide ravines, and mountains. Remoteness by itself is not a natural barrier.

(28) *Nonfriable asbestos-containing material* means any material containing more than one percent (1%) asbestos as determined using the method specified in Title 40 CFR Part 763, Subpart E, Appendix E, Section 1 "Polarized Light Microscopy," which has been incorporated by reference in Chapter 4, that, when dry, cannot be crumbled, pulverized, or reduced to powder by hand pressure.

(29) *Nonscheduled renovation operation* means a renovation operation necessitated by the routine failure of equipment, which is expected to occur within a given period based on past operating experience, but for which an exact date cannot be predicted.

(30) *Outside air* means the air outside buildings and structures, including, but not limited to, the air under a bridge or in an open air ferry dock.

(31) *Owner or operator of a demolition or renovation activity* means any person who owns, leases, operates, controls, or supervises the facility being demolished or renovated or any person who owns, leases, operates, controls, or supervises the demolition or renovation operation, or both.

(32) *Particulate asbestos material* means finely divided particles of asbestos or material containing asbestos.

(33) *Planned renovation operations* means a renovation operation, or a number of such operations, in which some RACM will be removed or stripped within a given period of time and that can be predicted. Individual nonscheduled operations are included if a number of such operations can be predicted to occur during a given period of time based on operating experience.

(34) *Regulated asbestos-containing material (RACM)* means (a) friable material, (b) Category I nonfriable ACM that has become friable, (c) Category I nonfriable ACM that will be or has been subjected to sanding, grinding, cutting, or abrading, or (d) Category II nonfriable ACM that has a high probability of becoming or has become crumbled, pulverized, or reduced to powder by the forces expected to act on the material in the course of demolition or renovation operations regulated by this Rule.

(35) *Remove* means to take out RACM or facility components that contain or are covered with RACM from any facility.

(36) *Renovation* means altering a facility or one (1) or more facility components in any way, including the stripping or removal of RACM from a facility component even if temporary. Operations in which load-supporting structural members are wrecked or taken out are demolitions.

(37) *Resilient floor covering* means asbestos-containing floor tile, including asphalt and vinyl floor tile, and sheet vinyl floor covering containing more than one percent (1%) asbestos as determined using the method specified in Title 40 CFR Part 763, Subpart E, Appendix E, Section 1 "Polarized Light Microscopy," which has been incorporated by reference in Chapter 4.

(38) *Roadways* means surfaces on which vehicles travel. This term includes public and private highways, roads, streets, parking areas, and driveways.

(39) *Strip* means to take off RACM from any part of a facility or facility components.

(40) *Structural member* means any load supporting member of a facility, such as beams and load supporting walls; or any nonload-supporting member, such as ceilings and nonload-supporting walls.

(41) *Visible emissions* means any emissions, which are visually detectable without the aid of instruments, coming from RACM or asbestos-containing waste material, or from any asbestos milling, manufacturing, or fabricating operation. This does not include condensed, uncombined water vapor.

(42) *Waste generator* means any owner or operator of a source covered by this Rule whose act or process produces asbestos-containing waste material.

(43) *Waste shipment record* means the shipping document, required to be originated and signed by the waste generator, used to track and substantiate the disposition of asbestos-containing waste material.

(44) *Working day* means Monday through Friday and includes holidays that fall on any of the days Monday through Friday.

Rule 17.2. Standard for asbestos mills.

(1) Each owner or operator of an asbestos mill shall either discharge no visible emissions to the outside air from that asbestos mill, including fugitive sources, or use the methods specified by Rule 17.12 to clean emissions containing particulate asbestos material before they escape to, or are vented to, the outside air.

(2) Each owner or operator of an asbestos mill shall meet the following requirements:

a. Monitor each potential source of asbestos emissions from any part of the mill facility, including air cleaning devices, process equipment, and buildings that house equipment for material processing and handling, at least once a day, during daylight hours, for visible emissions to the outside air during periods of operation. The monitoring shall be by visual observation of at least fifteen (15) seconds duration per source of emissions.

b. Inspect each air cleaning device at least once each week for proper operation and for changes that signal the potential for malfunction, including, to the maximum extent possible without dismantling other than opening the device, the presence of tears, holes, and abrasions in filter bags and for dust deposits on the clean side of bags. For air cleaning devices that cannot be inspected on a weekly basis according to this paragraph, submit to the Director, and revise as necessary, a written maintenance plan to include, at a minimum, the following:

1. Maintenance schedule.

2. Recordkeeping plan.

c. Maintain records of the results of visible emissions monitoring and air cleaning device inspections using a format similar to that shown in Figures 1 and 2 (copies of which shall be maintained in the office of the Chattanooga-Hamilton County Air Pollution Control Board) **OR** (attached hereto and incorporated herein by reference) and include the following:

1. Date and time of each inspection.

2. Presence or absence of visible emissions.

3. Condition of fabric filters, including presence of any tears, holes, and abrasions.

4. Presence of dust deposits on clean side of fabric filters.

5. Brief description of corrective actions taken, including date and time.

6. Daily hours of operation for each air cleaning device.

d. Furnish upon request, and make available at the affected facility during normal business hours for inspection by the Director, all records required under this Rule.

e. Retain a copy of all monitoring and inspection records for at least two (2) years.

f. Submit quarterly a copy of visible emission monitoring records to the Director if visible emissions occurred during the report period. Quarterly reports shall be postmarked by the thirtieth (30th) day following the end of the calendar quarter.

Rule 17.3. Standard for roadways. No person may construct or maintain a roadway with asbestos tailings or asbestos-containing material on that roadway, unless, for asbestos tailings:

(1) It is a temporary roadway on an area of asbestos ore deposits (asbestos mine); or

(2) It is a temporary roadway at an active asbestos mill site and is encapsulated with a resinous or bituminous binder. The encapsulated road surface must be maintained at a minimum frequency of once per year to prevent dust emissions; or

(3) It is encapsulated in asphalt concrete meeting the specifications contained in section 401 of Standard Specifications for Construction of Roads and Bridges on Federal Highway Projects, FP-85, 1985, or their equivalent.

Rule 17.4. Standards for manufacturing.

(1) *Applicability.* This standard applies to the following manufacturing operations using commercial asbestos:

a. The manufacture of cloth, cord, wicks, tubing, tape, twine, rope, thread, yarn, roving, lap, or other textile materials;

b. The manufacture of cement products;

c. The manufacture of fireproofing and insulating materials;

d. The manufacture of friction products;

e. The manufacture of paper, millboard, and felt;

f. The manufacture of floor tile;

g. The manufacture of paints, coatings, caulks, adhesives, and sealants;

h. The manufacture of plastics and rubber materials;

i. The manufacture of chlorine utilizing asbestos diaphragm technology;

j. The manufacture of shotgun shell wads; and

k. The manufacture of asphalt concrete.

(2) *Standard.* Each owner or operator of any of the manufacturing operations to which Rule 17.4 applies shall:

a. Either discharge no visible emissions to the outside air from these operations or from any building or structure in which they are conducted or from any other fugitive sources; or

b. Use the methods specified by Rule 17.12 to clean emissions from these operations containing particulate asbestos material before they escape to, or are vented to, the outside air; and shall also

c. Monitor each potential source of asbestos emissions from any part of the manufacturing facility, including air cleaning devices, process equipment, and buildings housing material processing and handling equipment, at least once each day during daylight hours for visible emissions to the outside air during periods of operation. The monitoring shall be by visual observation of at least fifteen (15) seconds duration per source of emissions.

d. Inspect each air cleaning device at least once each week for proper operation and for changes that signal the potential for malfunctions, including, to the maximum extent possible without dismantling other than opening the device, the presence of tears, holes, and abrasions in filter bags and for dust deposits on the clean side of bags. For air cleaning devices that cannot be inspected on a weekly basis according to this paragraph, submit to the Director, and revise as necessary, a written maintenance plan to include, at a minimum, the following:

1. Maintenance schedule; and

2. Recordkeeping plan.

e. Maintain records of the results of visible emission monitoring and air cleaning device inspections using a format similar to that shown in Figures 1 and 2 and include the following:

1. Date and time of each inspection;

2. Presence or absence of visible emissions;

3. Condition of fabric filters, including presence of any tears, holes and abrasions;

4. Presence of dust deposits on clean side of fabric filters;

5. Brief description of corrective actions taken, including date and time; and

6. Daily hours of operation for each air cleaning device.

f. Furnish, upon request, and make available at the affected facility during normal business hours for inspection by the Director or a representative of the Director, all records required under Rule 17.4.

g. Retain a copy of all monitoring and inspection records for at least two (2) years.

h. Submit quarterly a copy of the visible emission monitoring records to the Director if visible emissions occurred during the reporting period. Quarterly reports shall be postmarked by the thirtieth (30th) day following the end of the calendar quarter.

Rule 17.5. Standard for demolition and renovation.

(1) *Applicability.* To determine which requirements of paragraphs (1), (2), and (3) of Rule 17.5 apply to the owner or operator of a demolition or renovation activity and prior to the commencement of the demolition or renovation, the owner or operator is required to have the affected facility or part of the facility where the demolition or renovation operation will occur thoroughly inspected for the presence of asbestos, including Category I and Category II nonfriable ACM. Any asbestos survey conducted by or for the owner or operator to determine the applicability of Rule 17.5 shall be conducted by a qualified person who has complied with the training requirements of paragraph (3)h. The requirements of paragraphs (2) and (3) of Rule 17.5 apply to each owner or operator of a demolition or renovation activity, including the removal of RACM as follows:

a. In a facility being demolished, all the requirements of paragraphs (2) and (3) of this section apply, except as provided in paragraph (1)(c) of Rule 17.5, if the combined amount of RACM is:

1. At least eighty (80) linear meters (two hundred sixty (260) linear feet) on pipes or at least fifteen (15) square meters (one hundred sixty (160) square feet) on other facility components, or

2. At least one (1) cubic meter (thirty-five (35) cubic feet) removed from facility components where the length or area could not be measured previously.

b. In a facility being demolished, only the notification requirements of paragraphs (2)a., (2)b., (2)c.,1. and 4., and (2)d.1. through 7. and 9. through 16. of Rule 17.5 apply, if the combined amount of RACM is

1. Less than eighty (80) linear meters (two hundred sixty (260) linear feet) on pipes and less than fifteen (15) square meters (one hundred sixty (160) square feet) on other facility components, and

2. Less than one (1) cubic meter (thirty-five (35) cubic feet) removed from facility components where the length or area could not be measured previously or there is no asbestos.

These notification requirements apply to all demolition projects, even if no RACM has been identified by the owner or operator.

c. If the facility is being demolished under an order of a State or local government agency, issued because the facility is structurally unsound and in danger of imminent collapse, only the requirements of paragraphs (2)a., (2)b., (2)c.3, (2)d. (except (2)d.8), and (3)d. through i. of Rule 17.5 apply.

d. In a facility being renovated, including any individual nonscheduled renovation operation, all the requirements of paragraphs (2) and (3) of Rule 17.5 apply if the combined amount of RACM to be stripped, removed, dislodged, cut, drilled, or similarly disturbed is

1. At least eighty (80) linear meters (two hundred sixty (260) linear feet) on pipes or at least fifteen (15) square meters (one hundred sixty (160) square feet) on facility components, or

2. At least one (1) cubic meter (thirty-five (35) cubic feet) removed from facility components where the length or area could not be measured previously.

3. To determine whether paragraph (1)d. of Rule 17.5 applies to planned renovation operations involving individual nonscheduled operations, predict the combined additive amount of RACM to be removed or stripped during a calendar year of January 1 through December 31.

4. To determine whether paragraph (1)d. of Rule 17.5 applies to emergency renovation operations, estimate the combined amount of RACM to be removed or stripped as a result of the sudden, unexpected event that necessitated the renovation.

e. *Courtesy notification.* The owner or operator of a renovation activity at any facility being renovated that is not described in paragraph (1)d. of Rule 17.5 shall provide the Director with a written courtesy notification on a form specified by the Director and available from the Bureau before any renovation activity begins. None of the requirements of paragraphs (2) and (3) of Rule 17.5 are applicable to such renovations. A fee of two hundred dollars ($200.00) shall be included with the notification, which fee shall be collected by the Bureau and remitted to the City of Chattanooga finance officer as fiscal agent for the Board.

(2) *Notification requirements.* Each owner or operator of a demolition or renovation activity to which Rule 17.5 applies shall:

a. Provide the Director with written notice of intention to demolish or renovate on a form specified by the Director and available from the Bureau. In addition, Section 4-8(f) contains requirements for building demolition or renovation permits and related permit fees, including requirements applicable to all demolition projects and to certain renovation projects.

b. Update the notice, as necessary, including when the amount of asbestos affected changes by at least twenty percent (20%).

c. Assure receipt by the Director of written notice as follows:

1. At least ten (10) working days before asbestos stripping or removal work or any other activity begins (such as site preparation that would break up, dislodge or similarly disturb asbestos material), if the operation is described in paragraphs (1)a. and d. (except (1)d.3. and (1)d.4.) of Rule 17.5.

2. At least ten (10) working days before any demolition operation described in paragraph (1)b. begins.

3. At least thirty (30) working days before the end of the calendar year preceding the year for which notice is being given for renovations described in paragraph (1)d.3. of Rule 17.5.

4. As early as possible before, but not later than the following working day, if the operation is a demolition according to paragraph (1)c. of Rule 17.5 or if the operation is a renovation described in paragraph (1)d.4. of Rule 17.5.

5. For asbestos stripping or removal work in a demolition or renovation operation, described in paragraphs (1)a. or (1)d. (except (1)d.3. and (1)d.4.) of Rule 17.5, and for

a demolition described in paragraph (1)b. of Rule 17.5, that will begin on a date other than the one contained in the original notice, notice of the new start date must be provided to the Director as follows:

(i) When the asbestos stripping or removal operation or demolition operation covered by Rule 17.5 will begin after the date contained in the notice, the Director shall be notified of the new start date as soon as possible before, and no later than, the original start date.

(ii) When the asbestos stripping or removal operation or demolition operation covered by Rule 17.5 will begin on a date earlier than the date contained in the notice, the Director shall be notified of the new start date at least ten (10) working days before the asbestos stripping or removal operation or demolition operation begins.

d. Include the following in the notice:

1. An indication of whether the notice is the original or a revised notification;
2. Name, address, and telephone number of the facility owner or operator and the asbestos removal contractor (if applicable) and/or the demolition contractor (if applicable);
3. Type of operation:
   (i) Demolition without friable asbestos present;
   (ii) Demolition with friable asbestos present;
   (iii) Removal of friable asbestos without demolition;
   (iv) Emergency demolition;
   (v) Court ordered demolition; or
   (vi) Other;
4. Description of the facility or affected part of the facility including the size (square meters [square feet] and number of floors), age, and present and prior use of the facility;
5. (Reserved)
6. Estimate of the approximate amount of RACM to be removed from the facility in terms of length of pipe in linear meters (linear feet), surface area in square meters (square feet) on other facility components, or volume in cubic meters (cubic feet) if off the facility components. Also, estimate the approximate amount of Category I and Category II nonfriable ACM in the affected part of the facility that will not be removed before demolition;
7. Location and street address (including city and building number or name and floor or room number, if appropriate) of the facility being demolished or renovated;
8. Scheduled starting and completion dates of asbestos work (or any other activity, such as site preparation that would break up, dislodge, or similarly disturb asbestos material) in a demolition or renovation; planned renovation operations involving individual nonscheduled operations shall only include the beginning and ending dates of the report period as described in paragraph (1)d.3. of Rule 17.5;
9. Scheduled starting and completion dates of demolition or renovation;
10. (Reserved)
11. (Reserved)

12. Name and location of the waste disposal site where the asbestos-containing waste material will be deposited;
13. On and after January 1, 1993, a certification that at least one (1) person trained as required by paragraph (3)h. of Rule 17.5 will supervise the stripping and removal described by this notification;
14. For facilities described in paragraph (1)c. of Rule 17.5, the name, title, and authority of the State or local government representative who has ordered the demolition, the date that the order was issued, and the date on which the demolition was ordered to begin or was ordered to be completed. A copy of the order shall be attached to the notification;
15. For emergency renovations described in paragraph (1)d.4. of Rule 17.5, the date and hour that the emergency occurred, a description of the sudden, unexpected event, and an explanation of how the event caused an unsafe condition, or would cause equipment damage or an unreasonable financial burden;
16. Description of procedures to be followed in the event that unexpected RACM is found or Category II nonfriable ACM becomes crumbled, pulverized, or reduced to powder;
17. Name, address, and telephone number of the waste transporter; and
18. Attach any required asbestos survey, including a diagram showing the location of all identified ACM.

(3) *Procedures for asbestos emission control.* Each owner or operator of a demolition or renovation activity to whom Rule 17.5 applies, according to paragraph (1) of Rule 17.5, shall comply with the following procedures:

a. Remove all RACM from a facility being demolished or renovated before any activity begins that would break up, dislodge, or similarly disturb the material or preclude access to the material for subsequent removal. RACM need not be removed before demolition if:
   1. It is Category I nonfriable ACM that is not in poor condition and is not friable;
   2. It is on a facility component that is encased in concrete or other similarly hard material and is adequately wet whenever expected during demolition;
   3. It was not accessible for testing and was, therefore, not discovered until after demolition began and, as a result of the demolition, the material cannot be safely removed. If not removed for safety reasons, the exposed RACM and any asbestos-contaminated debris must be treated as asbestos-containing waste material and adequately wet at all times until disposed of; or
   4. It is Category II nonfriable ACM and the probability is low that the materials will become crumbled, pulverized, or reduced to powder during demolition.

b. When a facility component that contains, is covered with, or is coated with RACM is being taken out of the facility as a unit or in sections:
   1. Adequately wet all RACM exposed during cutting or disjoining operations; and
   2. Carefully lower each unit or section to the floor and to ground level, not dropping, throwing, sliding, or otherwise damaging or disturbing the RACM.

c. When RACM is stripped from a facility component while it remains in place in the facility, adequately wet the RACM during the stripping operation.
   1. In renovation operations, wetting is not required if:
      (i) The owner or operator has obtained prior written approval from the Director based on a written application that wetting to comply with this paragraph would unavoidably damage equipment or present a safety hazard; and

(ii) The owner or operator uses one (1) of the following emission control methods:

(A) A local exhaust ventilation and collection system designed and operated to capture the particulate asbestos material produced by the stripping and removal of the asbestos materials. The system must exhibit no visible emissions to the outside air or be designed and operated in accordance with the requirements in Rule 17.12;

(B) A glove-bag system designed and operated to contain particulate asbestos material produced by the stripping of the materials; or

(C) Leak-tight wrapping to contain all RACM prior to dismantlement.

2. In renovation operations where wetting would result in equipment damage or a safety hazard, and the methods allowed in paragraph (3)c.1. of Rule 17.5 cannot be used, another method may be used after written approval from the Director based upon a determination that it is equivalent to wetting in controlling emissions or to the methods allowed in paragraph (3)c.1. of Rule 17.5.

3. A copy of the Director's written approval shall be kept at the worksite and made available for inspection.

d. After a facility component covered with, coated with, or containing RACM has been taken out of the facility as a unit or in sections pursuant to paragraph (3)b. of Rule 17.5, it shall be stripped or contained in leak-tight wrapping, except as described in paragraph (3)e. of Rule 17.5. If stripped, either:

1. Adequately wet the RACM during stripping; or

2. Use a local exhaust ventilation and collection system designed and operated to capture the particulate asbestos material produced by the stripping. The system must exhibit no visible emissions to the outside air or be designed and operated in accordance with the requirements in Rule 17.12.

e. For large facility components such as reactor vessels, large tanks, and steam generators, but not beams (which must be handled in accordance with paragraphs (3)b., c., and d. of Rule 17.5), the RACM is not required to be stripped if the following are met:

1. The component is removed, transported, stored, disposed of, or reused without disturbing or damaging the RACM;

2. The component is encased in a leak-tight wrapping; and

3. The leak-tight wrapping is labeled according to Rule 17.9 (4)a.1., and 3. during all loading and unloading operations and during storage.

f. For all RACM, including material that has been removed or stripped:

1. Adequately wet the material and ensure that it remains wet until collected and contained or treated in preparation for disposal in accordance with Rule 17.10;

2. Carefully lower the material to the ground and floor, not dropping, throwing, sliding, or damaging or disturbing the material;

3. Transport the material to the ground via leak-tight chutes or containers if it has been removed or stripped more than fifty (50) feet above ground level and was not removed as units or in sections;

4. RACM contained in leak-tight wrapping that has been removed in accordance with paragraphs (3)d. and (3)c.1.(ii)(c) of Rule 17.5 need not be wetted.

g. When the temperature at the point of wetting is below zero degrees (0°) Celsius (thirty-two degrees (32°) Fahrenheit):

1. The owner or operator need not comply with paragraph (3)b.1. and the wetting provisions of paragraph (3)c. of Rule 17.5.

2. The owner or operator shall remove facility components containing, coated with, or covered with RACM as units or in sections to the maximum extent possible.

3. During periods when wetting operations are suspended due to freezing temperatures, the owner or operator must record the temperature in the area containing the facility components at the beginning, middle, and end of each workday and keep daily temperature records available for inspection by the Director during normal business hours at the demolition or renovation site. The owner or operator shall retain the records for at least two (2) years.

h. On and after January 1, 1993, no RACM shall be stripped, removed, or otherwise handled or disturbed at a facility regulated by Rule 17.5 unless at least one on-site representative, such as a foreman or management-level person or other authorized representative, trained in the provisions of Rule 17.5 and the means of complying with them, is present. Every two (2) years, the trained on-site individual shall receive refresher training in the provisions of Rule 17.5. The required training shall include as a minimum: applicability; notifications; material identification; control procedures for removals including, at least, wetting, local exhaust ventilation, negative pressure enclosures, glove-bag procedures, and High Efficiency Particulate Air (HEPA) filters; waste disposal work practices; reporting and recordkeeping; and asbestos hazards and worker protection. Evidence that the required training has been completed shall be posted and made available for inspection by the Director at the demolition or renovation site.

i. For facilities described in paragraph (1)c. of Rule 17.5, adequately wet the portion of the facility that contains RACM during the operation.

j. If a facility is demolished by intentional burning, all RACM including Category I and Category II nonfriable ACM must be removed in accordance with Rule 17.5 before burning.

k. Any person conducting an asbestos survey or engaged in the removal of asbestos at a facility within Tennessee is required to be in possession of either a valid and appropriate asbestos accreditation certificate or valid and appropriate asbestos accreditation photo identification card as issued by the State of Tennessee in accordance with Chapter 1200-01-20 "Asbestos Accreditation Requirements" of the Rules of the Tennessee Department of Health and Tennessee Department of Environment and Conservation. Such accreditation certificate or identification card shall be made available for inspection by representatives or designees of the Director upon request at the facility.

Rule 17.6. Standard for spraying. The owner or operator of an operation in which asbestos-containing materials are spray applied shall comply with the following requirements:

(1) For spray-on application on buildings, structures, pipes, and conduits, do not use material containing more than one percent (1%) asbestos as determined using the method specified in Title 40 CFR Part 763, Subpart E, Appendix E, Section 1 "Polarized Light Microscopy," which has been incorporated by reference in Chapter 4, except as provided in paragraph (3) of Rule 17.6.

(2) For spray-on application of materials that contain more than one percent (1%) asbestos as determined using the method specified in Title 40 CFR Part 763, Subpart E, Appendix E, Section 1 "Polarized Light Microscopy," which has been incorporated by reference in Chapter 4, on equipment and machinery, except as provided in paragraph (3) of Rule 17.6:

a. Notify the Director at least twenty (20) days before beginning the spraying operation. Include the following information in the notice:

1. Name and address of owner or operator;

2. Location of spraying operation;

3. Procedures to be followed to meet the requirements of this paragraph.

b. Discharge no visible emissions to the outside air from spray-on application of the asbestos-containing material or use the methods specified by Rule 17.12 to clean emissions containing particulate asbestos material before they escape to, or are vented to, the outside air.

(3) The requirements of paragraphs (1) and (2) of Rule 17.6 do not apply to the spray-on application of materials where the asbestos fibers in the materials are encapsulated with a bituminous or resinous binder during spraying and the materials are not friable after drying.

Rule 17.7. Standards for fabricating.

(1) *Applicability.* This rule applies to the following fabricating operations using commercial asbestos:

a. The fabrication of cement building products;

b. The fabrication of friction products, except those operations that primarily install asbestos friction materials on motor vehicles; and

c. The fabrication of cement or silicate board for ventilation hoods; ovens; electrical panels; laboratory furniture, bulkheads, partitions, and ceilings for marine construction; and flow control devices for the molten metal industry.

(2) *Standard.* Each owner or operator of any of the fabricating operations to which Rule 17.7 applies shall either:

a. Either discharge no visible emissions to the outside air from any of the operations or from any building or structure in which they are conducted or from any other fugitive sources; or

b. Use the methods specified by Rule 17.12 to clean emissions containing particulate asbestos material before they escape to, or are vented to, the outside air; and shall also

c. Monitor each potential source of asbestos emissions from any part of the fabricating facility, including air cleaning devices, process equipment, and buildings that house equipment for material processing and handling, at least once each day, during daylight hours, for visible emissions to the outside air during periods of operation. The monitoring shall be by visual observation of at least fifteen (15) second duration per source of emissions.

d. Inspect each air cleaning device at least once each week for proper operation and for changes that signal the potential for malfunctions, including, to the maximum extent possible without dismantling other than opening the device, the presence of tears, holes, and abrasions in filter bags and for dust deposits on the clean side of bags. For air cleaning devices that cannot be inspected on a weekly basis according to this paragraph, submit to the Director, and revise as necessary, a written maintenance plan to include, at a minimum, the following:

1. Maintenance schedule; and

2. Recordkeeping plan.

e. Maintain records of the results of visible emission monitoring and air cleaning device inspections using a format similar to that shown in Figures 1 and 2 and include the following:

1. Date and time of each inspection;
2. Presence or absence of visible emissions;
3. Condition of fabric filters, including presence of any tears, holes, and abrasions;
4. Presence of dust deposits on clean side of fabric filters;
5. Brief description of corrective actions taken, including date and time; and
6. Daily hours of operation for each air cleaning device.

f. Furnish upon request and make available at the affected facility during normal business hours for inspection by the Director, all records required under Rule 17.7.

g. Retain a copy of all monitoring and inspection records for at least two (2) years.

h. Submit quarterly a copy of the visible emission monitoring records to the Director if visible emissions occurred during the report period. Quarterly reports shall be postmarked by the thirtieth (30th) day following the end of the calendar quarter.

Rule 17.8. Standard for insulating materials. No owner or operator of a facility may install or reinstall on a facility component any insulating materials that contain commercial asbestos if the materials are either molded and friable or wet-applied and friable after drying. The provisions of Rule 17.8 do not apply to spray-applied insulating materials regulated under Rule 17.6.

Rule 17.9. Standard for waste disposal for asbestos mills. Each owner or operator of any source covered under the provisions of Rule 17.2 shall:

(1) Deposit all asbestos-containing waste material at a waste disposal site operated in accordance with the provisions of Rule 17.14; and

(2) Discharge no visible emissions to the outside air from the transfer of control device asbestos waste to the tailings conveyor, or use the method specified by Rule 17.12 to clean emissions containing particulate asbestos material before they escape to, or are vented to, the outside air. Dispose of the asbestos waste from control devices in accordance with Rule 17.10 or paragraph (3) of Rule 17.9; and

(3) Discharge no visible emissions to the outside air during the collection, processing, packaging, or on-site transporting of any asbestos-containing waste material, or use one (1) of the disposal methods specified in paragraphs (3)a. or b. of Rule 17.9, as follows:

a. Use a wetting agent as follows:

1. Adequately mix all asbestos-containing waste material with a wetting agent recommended by the manufacturer of the agent to effectively wet dust and tailings, before depositing the material at a waste disposal site. Use the agent as recommended for the particular dust by the manufacturer of the agent.
2. Discharge no visible emissions to the outside air from the wetting operation or use the methods specified by Rule 17.12 to clean emissions containing particulate asbestos material before they escape to, or are vented to, the outside air.
3. Wetting may be suspended when the ambient temperature at the waste disposal site is less than minus nine and one-half degrees (-9.5°) Celsius (fifteen degrees (15°) Fahrenheit), as determined by an appropriate measurement method with an accuracy of ± one degree (1°) Celsius (± two degrees (2°) Fahrenheit). During periods when

wetting operations are suspended, the temperature must be recorded at least at hourly intervals, and records must be retained for at least two (2) years in a form suitable for inspection.

b. Use an alternative emission control and waste treatment method that has received prior written approval by the Administrator of the U.S. Environmental Protection Agency pursuant to 40 CFR 61.149(c)(2). The owner or operator shall provide the Director with a photocopy of the written approval. To obtain approval for an alternative method, a written application must be submitted to the Director demonstrating that the following criteria are met:

1. The alternative method will control asbestos emissions equivalent to currently required methods;
2. The suitability of the alternative method for the intended application;
3. The alternative method will not violate other regulations; and
4. The alternative method will not result in increased water pollution, land pollution, or occupational hazards.

(4) When waste is transported by vehicle to a disposal site:

a. Mark vehicles used to transport asbestos-containing waste material during the loading and unloading of the waste so that the signs are visible. The markings must:

1. Be displayed in such a manner and location that a person can easily read the legend;
2. Conform to the following requirements for fifty-one (51) centimeters by thirty-six (36) centimeters (twenty (20) inches by fourteen (14) inches) upright format signs:

   Caution signs. Standard color of the background shall be yellow; and the panel, black with yellow letters. Any letters used against the yellow background shall be black. The colors shall be those of opaque glossy samples as specified in Table 1 of American National Standard Z53.1-1967; and
3. Display the following legend in the lower panel with letter sizes and styles of a visibility at least equal to those specified in Rule 17.9.

Legend	*Notation*
DANGER	2.5 cm (1 inch) Sans Serif Gothic or Block
ASBESTOS DUST HAZARD	2.5 cm (1 inch) Sans Serif Gothic or Block
CANCER AND LUNG DISEASE HAZARD	1.9 cm (3/4 inch) Sans Serif Gothic or Block
Authorized Personnel Only	14 point Gothic

Spacing between any two (2) lines must be at least equal to the height of the upper of the two (2) lines.

b. For off-site disposal, provide a copy of the waste shipment record, described in paragraph (5)a. of Rule 17.9, to the disposal site owner or operator at the same time as the asbestos-containing waste material is delivered to the disposal site.

(5) For all asbestos-containing waste material transported off the facility site:

a. Maintain asbestos waste shipment records, using a form similar to that shown in Figure 3 (a copy of which may be obtained from the Chattanooga-Hamilton County Air Pollution Control Board) **OR** (a copy of which is attached hereto and incorporated herein by reference), and include the following information:

1. The name, address, and telephone of the waste generator;
2. The name and address of the local, State, or EPA Regional agency responsible for administering the asbestos NESHAP program;
3. The quantity of the asbestos-containing material in cubic meters (cubic yards);
4. The name and telephone number of the disposal site operator;
5. The name and physical site location of the disposal site;
6. The date transported;
7. The name, address, and telephone number of the transporter(s); and
8. A certification that the contents of this consignment are fully and accurately described by proper shipping name and are classified, packed, marked, and labeled, and are in all respects in proper condition for transport by highway according to applicable international and government regulations.

b. For waste shipments where a copy of the waste shipment record, signed by the owner or operator of the designated disposal site, is not received by the waste generator within thirty-five (35) days of the date the waste was accepted by the initial transporter, contact the transporter and/or the owner or operator of the designated disposal site to determine the status of the waste shipment.

c. Report in writing to the Director and also to any other officer or agency where required by local, state, or federal law covering the waste generator if a copy of the waste shipment record, signed by the owner or operator of the designated waste disposal site, is not received by the waste generator within forty-five (35) days of the date the waste was accepted by the initial transporter. Include in the report the following information:

1. A copy of the waste shipment record for which a confirmation of delivery was not received, and
2. A cover letter signed by the waste generator explaining the efforts taken to locate the asbestos waste shipment and the results of those efforts.

d. Retain a copy of all waste shipment records, including a copy of the waste shipment record signed by the owner or operator of the designated waste disposal site, for at least two (2) years.

(6) Furnish upon request, and make available for inspection by the Director, all records required under Rule 17.9.

Rule 17.10. Standard for waste disposal for manufacturing, fabricating, demolition, renovation, and spraying operations. Each owner or operator of any source covered under the provisions of Rules 17.4, 17.5, 17.6, and 17.7 shall comply with the following provisions:

(1) Discharge no visible emissions to the outside air during the collection, processing (including incineration), packaging, or transporting of any asbestos-containing waste material generated by the source, or use one (1) of the emission control and waste treatment methods specified in paragraphs (1)a. through d. of Rule 17.10.

a. Adequately wet asbestos-containing waste material as follows:

1. Mix control device asbestos waste to form a slurry; adequately wet other asbestos-containing waste material; and

2. Discharge no visible emissions to the outside air from collection, mixing, wetting, and handling operations, or use the methods specified by Rule 17.12 to clean emissions containing particulate asbestos material before they escape to, or are vented to, the outside air; and

3. After wetting, seal all asbestos-containing waste material in leak-tight containers while wet; or, for materials that will not fit into containers without additional breaking, put materials into leak-tight wrapping; and

4. Label the containers or wrapped materials specified in paragraphs (1)a.3. of Rule 17.10 using warning labels specified by Occupational Safety and Health Standards of the Department of Labor, occupational Safety and Health Administration under 29 CFR 1910.1001(j)(2) or 1926.58(k)(2)(iii). The labels shall be printed in letters of sufficient size and contrast so as to be readily visible and legible.

5. For asbestos-containing waste material to be transported off the facility site, label containers or wrapped materials with the name of the waste generator and the location at which the waste was generated.

b. Process asbestos-containing waste material into nonfriable forms as follows:

1. Form all asbestos-containing waste material into nonfriable pellets or other shapes;

2. Discharge no visible emissions to the outside air from collection and processing operations, including incineration, or use the method specified by Rule 17.12 to clean emissions containing particulate asbestos material before they escape to, or are vented to, the outside air.

c. For facilities demolished where the RACM is not removed prior to demolition according to Rule 17.5(3)a.1., 2., 3., and 4. or for facilities demolished according to Rule 17.5(3)i., adequately wet asbestos-containing waste material at all times after demolition and keep wet during handling and loading for transport to a disposal site. Asbestos-containing waste materials covered by Rule 17.10 do not have to be sealed in leak-tight containers or wrapping but may be transported and disposed of in bulk.

d. Use an alternative emission control and waste treatment method that has received prior approval by the Administrator of the U.S. Environmental Protection Agency pursuant to 40 CFR 61.150(a)(4) according to the procedure described in Rule 17.9(3)b. The owner or operator shall provide the Director with a photocopy of the written approval.

e. As applied to demolition and renovation, the requirements of paragraph (1) of Rule 17.10 do not apply to Category I nonfriable ACM waste and Category II nonfriable ACM waste that did not become crumbled, pulverized, or reduced to powder.

(2) All asbestos-containing waste material shall be deposited as soon as is practical by the waste generator at:

a. A waste disposal site operated in accordance with the provisions of Rule 17.14 or

b. An EPA-approved site that converts RACM and asbestos-containing waste material into nonasbestos (asbestos-free) material according to the provisions of Rule 17.15.

c. The requirements of paragraph (2) of Rule 17.10 do not apply to Category I nonfriable ACM that is not RACM.

(3) Mark vehicles used to transport asbestos-containing waste material during the loading and unloading of waste so that the signs are visible. The markings must conform to the requirements of Rule 17.9(4)a.1., 2., and 3.

(4) For all asbestos-containing waste material transported off the facility site:

a. Maintain waste shipment records, using a form similar to that shown in Figure 3, and include the following information:

1. The name, address, and telephone number of the waste generator;

2. The name and address of the local, State, or EPA Regional office responsible for administering the asbestos NESHAP program;

3. The approximate quantity in cubic meters (cubic yards);

4. The name and telephone number of the disposal site operator;

5. The name and physical site location of the disposal site;

6. The date transported;

7. The name, address, and telephone number of the transporter; and

8. A certification under oath that the contents of this consignment are fully and accurately described by proper shipping name and are classified, packed, marked, and labeled, and are in all respects in proper condition for transport by highway according to applicable international and government regulations.

b. Provide a copy of the waste shipment record, described in paragraph (4)a. of Rule 17.10, to the disposal site owners or operators at the same time as the asbestos-containing waste material is delivered to the site.

c. For waste shipments where a copy of the waste shipment record, signed by the owner or operator of the designated site, is not received by the waste generator within thirty-five (35) days of the date the waste was accepted by the initial transporter, contact the transporter and/or the owner or operator of the designated disposal site to determine the status of the waste shipment.

d. Report in writing to the Director and also to any other officer or agency where required by local, state, or federal law covering the waste generator if a copy of the waste shipment record, signed by the owner or operator of the designated waste disposal site, is not received by the waste generator within forty-five (35) days of the date the waste was accepted by the initial transporter. Include in the report the following information:

1. A copy of the waste shipment record for which a confirmation of delivery was not received, and

2. A cover letter signed by the waste generator explaining the efforts taken to locate the asbestos waste shipment and the results of those efforts.

e. Retain a copy of all waste shipment records, including a copy of the waste shipment record signed by the owner or operator of the designated waste disposal site, for at least two (2) years.

(5) Furnish upon request, and make available for inspection by the Director, all records required under Rule 17.10.

Rule 17.11. Standard for inactive waste disposal sites for asbestos mills and manufacturing and fabricating operations. Each owner or operator of any inactive waste disposal site that was operated by sources covered under Rules 17.2, 17.4, or 17.7 and received deposits of asbestos-containing waste material generated by the sources, shall:

(1) Comply with one (1) of the following:

a. Either discharge no visible emissions to the outside air from an inactive waste disposal site subject to this paragraph; or

b. Cover the asbestos-containing waste material with at least fifteen (15) centimeters (six (6) inches) of compacted nonasbestos-containing material, and grow and maintain a cover of vegetation on the area adequate to prevent exposure of the asbestos-containing waste material. In any chert area where vegetation is impossible to maintain, at least eight (8) additional centimeters (three (3) inches) of well-graded, nonasbestos crushed rock may be placed on top of the chert and maintained to prevent emissions; or

c. Cover the asbestos-containing waste with at least sixty (60) centimeters (two (2) feet) of compacted nonasbestos-containing material, and maintain it to prevent the exposure of the asbestos-containing waste; or

d. For inactive waste disposal sites for asbestos tailings, a resinous or petroleum-based dust suppression agent that effectively binds dust to control surface air emissions may be used instead of the methods in paragraphs (1)a., b., and c. of Rule 17.11. Use the agent in the manner and frequency recommended for the particular asbestos tailings by the manufacturer of the dust suppression agent to achieve and maintain dust control, obtain prior written approval of the Director to use other equally effective dust suppression agents. For purposes of Rule 17.11, any used, spent, or other waste oil is not considered a dust suppression agent.

(2) Unless a natural barrier adequately deters access by the general public, install and maintain warning signs and fencing as follows, or comply with paragraph (1)b. or (1)c. of Rule 17.11.

a. Display warning signs at all entrances and at intervals of 100 m (328 feet) or less along the property line of the site or along the perimeter of the sections of the site where asbestos-containing waste material was deposited. The warning signs must:

1. Be posted in such a manner and location that a person can easily read the legend; and

2. Conform to the following requirements for fifty-one (51) centimeters by thirty-six (36) centimeters (twenty (20) inches by fourteen (14) inches) upright format: signs specified in 29 CFR 1910.145(d);

Caution signs. Standard color of the background shall be yellow; and the panel, black with yellow letters. Any letters used against the yellow background shall be black. The colors shall be those of opaque glossy samples as specified in Table 1 of American National Standard Z53.1-1967; and

3. Display the following legend in the lower panel with letter sizes and styles of a visibility at least equal to those specified in this paragraph.

Legend	*Notation*
ASBESTOS WASTE DISPOSAL SITE	2.5 cm (1 inch) Sans Serif Gothic or Block
DO NOT CREATE DUST	1.9 cm (3/4 inch) Sans Serif Gothic or Block
BREATHING ASBESTOS IS HAZARDOUS TO YOUR HEALTH	14 point Gothic

Spacing between any two (2) lines must be at least equal to the height of the upper of the two (2) lines.

b. Fence the perimeter of the site in a manner adequate to deter access by the general public.

c. When requesting a determination on whether a natural barrier adequately deters public access, supply information enabling the Director to determine whether a fence or a natural barrier adequately deters access by the general public.

(3) The owner or operator may use an alternative control method that has received prior approval of the Administrator of the U.S. Environmental Protection Agency pursuant to 40 CFR 61.151(c) rather than comply with the requirements of paragraph (1) or (2) of Rule 17.11. The owner or operator shall provide the Director with a photocopy of the written approval.

(4) Notify the Director in writing at least forty-five (35) days prior to excavating or otherwise disturbing any asbestos-containing waste material that has been deposited at a waste disposal site under Rule 17.11, and follow the procedures specified in the notification. If the excavation will begin on a date other than the one (1) contained in the original notice, notice of the new start date must be provided to the Director at least ten (10) working days before excavation begins and in no event shall excavation begin earlier than the date specified in the original notification. Include the following information in the notice:

a. Scheduled starting and completion dates;

b. Reason for disturbing the waste;

c. Procedures to be used to control emissions during the excavation, storage, transport, and ultimate disposal of the excavated asbestos-containing waste material. If deemed necessary, the Director may require changes in the emission control procedures to be used; and

d. Location of any temporary storage site and the final disposal site.

(5) On or before the site becomes inactive, record, in accordance with State law, an instrument in the chain of title of the facility property that would normally be examined in a title search, that will in perpetuity notify any potential purchaser of the property that:

a. The land has been used for the disposal of asbestos-containing waste material;

b. The survey plot and record of the location and quantity of asbestos-containing waste disposed of within the disposal site required in Rule 17.14(6) have been filed with the Director; and

c. The site is subject to 40 CFR part 61, subpart M.

Rule 17.12. Air cleaning.

(1) The owner or operator who uses air cleaning, as specified in Rules 17.2(1); 17.4(2)b.; 17.5(3)c.1.(ii)(A); 17.5(3)d.2.; 17.6(2)b.; 17.7(2)b.; 17.9(2); 17.9(3)a.2.; 17.10(1)a.2.; 17.10(1)b.2.; and 17.15(5) shall:

a. Use fabric filter collection devices, except as noted in paragraph (b) of Rule 17.12, doing all of the following:

1. Ensuring that the airflow permeability, as determined by ASTM Method D737-75, does not exceed 9 $m^3/min/m^2$ (30 $ft^3/min/ft^2$) for woven fabrics or $11^3/min/m^2$ (35 $ft^3/min/ft^2$) for felted fabrics, except that 12 $m^3/min/m^2$ (40 $ft^3/min/ft^2$) for woven and 14 $m^3/min/m^2$ (45 $ft^3/min/ft^2$) for felted fabrics is allowed for filtering air from asbestos ore dryers; and

2. Ensuring that felted fabric weighs at least four hundred seventy-five (475) grams per square meter (fourteen (14) ounces per square yard) and is at least one and six-tenths (1.6) millimeter (one-sixteenth ($^1/_{16}$) inch) thick throughout; and

3. Avoiding the use of synthetic fabrics that contain fill yarn other than that which is spun.

b. Properly install, use, operate, and maintain all air-cleaning equipment authorized by Rule 17.12. Bypass devices may be used only during upset or emergency conditions and then only for so long as it takes to shut down the operation generating the particulate asbestos material.

c. For fabric filter collection devices, provide for easy inspection for faulty bags.

(2) There are the following exceptions to paragraph (1)a.:

a. If the use of fabric creates a fire or explosion hazard, or the Director determines that a fabric filter is not feasible, the Director may authorize as a substitute the use of wet collectors designed to operate with a unit contacting energy of at least nine and ninety-five-hundredths (9.95) kilopascals (forty (40) inches water gage pressure).

b. Use a HEPA filter that is certified to be at least ninety-nine and ninety-seven-hundredths (99.97) percent efficient for three-tenths (0.3) micron particles.

c. The Administrator of the U.S. Environmental Protection Agency pursuant to 40 CFR 61.152(b)(3) may authorize the use of filtering equipment other than described in paragraphs (1)a. and (2)a. and b. of Rule 17.13 if the owner or operator demonstrates to the Administrator's satisfaction that it is equivalent to the described equipment in filtering particulate asbestos material. The owner or operator shall provide the Director with a photocopy of the written authorization.

Rule 17.13. Reporting.

(1) Any new source to which Rule 17 applies (with the exception of sources subject to Rules 17.3, 17.5, 17.6, and 17.8) which has an initial startup date preceding the effective date of this revision, shall provide the following information to the Director delivered within ninety (90) days of the effective date. In the case of a new source that does not have an initial startup date preceding the effective date, the information shall be delivered within ninety (90) days of the initial startup date. Any owner or operator of an existing source shall deliver the following information to the Director within ninety (90) days of the effective date of this subpart unless the owner or operator of the existing source has previously provided this information to the Director. Any changes in the information provided by any existing source shall be delivered to the Director within thirty (30) days after the change. Facsimile transmission is not acceptable.

a. A description of the emission control equipment used for each process; and

1. If the fabric device uses a woven fabric, the airflow permeability in $m^3/min/m^2$ and; if the fabric is synthetic, whether the fill yarn is spun or not spun; and

2. If the fabric filter device uses a felted fabric, the density in g/m^2, the minimum thickness in inches, and the airflow permeability in $m^3/min/m^2$.

b. If a fabric filter device is used to control emissions,

1. The airflow permeability in $m^3/min/m^2$ ($ft^3/min/ft^2$) if the fabric filter device uses a woven fabric, and, if the fabric is synthetic, whether the fill yarn is spun or not spun; and

2. If the fabric filter device uses a felted fabric, the density in g/m^2 (oz/yd^2), the minimum thickness in millimeters (inches), and the airflow permeability in $m^3/min/m^2$ ($ft^3/min/ft^2$).

c. If a HEPA filter is used to control emissions, the certified efficiency.

d. For sources subject to Rules 17.9 and 17.10:

1. A brief description of each process that generates asbestos-containing waste material; and

2. The average volume of asbestos-containing waste material disposed of, measured in m^3/day (yd^3/day); and

3. The emission control methods used in all stages of waste disposal; and

4. The type of disposal site or incineration site used for ultimate disposal, the name of the site operator, and the name and location of the disposal site.

e. For sources subject to Rules 17.11 and 17.14:

1. A brief description of the site; and

2. The method or methods used to comply with the standard, or alternative procedures to be used.

(2) The information required by Rule 17.13(1) must accompany the information submitted to the Administrator of U.S. EPA pursuant to Title 40 CFR Part 61, Subpart A, § 61.10 "Source reporting and waiver request," which has been incorporated by reference in Chapter 4. Active waste disposal sites subject to Rule 17.14 shall also comply with this provision. The information described in Rule 17.13 must be reported using the format required by the Bureau.

Rule 17.14. Standard for active waste disposal sites. Each owner or operator of an active waste disposal site that receives asbestos-containing waste material from a source covered under Rules 17.9, 17.10, or 17.15 shall meet the requirements of this rule:

(1) Either there must be no visible emissions to the outside air from any active waste disposal site where asbestos-containing waste material has been deposited, or the requirements of paragraph (3) or (4) of Rule 17.14 must be met.

(2) Unless a natural barrier adequately deters access by the general public, either warning signs and fencing must be installed and maintained as follows, or the requirements of paragraph (3)a. of Rule 17.14 must be met.

a. Warning signs must be displayed at all entrances and at intervals of one hundred (100) meters (three hundred thirty (330) feet) or less along the property line of the site or along the perimeter of the sections of the site where asbestos-containing waste material is deposited. The warning signs must:

1. Be posted in such a manner and location that a person can easily read the legend; and

2. Conform to the requirements of fifty-one (51) centimeters by thirty-six (36) centimeters (twenty (20) inches by fourteen (14) inches) upright format signs:

Caution signs. Standard color of the background shall be yellow; and the panel, black with yellow letters. Any letters used against the yellow background shall be black. The colors shall be those of opaque glossy samples as specified in Table 1 of American National Standard Z53.1-1967; and

3. Display the following legend in the lower panel with letter sizes and styles of a visibility at least equal to those specified in Rule 17.14.

Legend	*Notation*
ASBESTOS WASTE DISPOSAL SITE	2.5 cm (1 inch) Sans Serif Gothic or Block
DO NOT CREATE DUST	1.9 cm (3/4 inch) Sans Serif Gothic or Block
BREATHING ASBESTOS IS HAZARDOUS TO YOUR HEALTH	14 point Gothic

Spacing between any two (2) lines must be at least equal to the height of the upper of the two (2) lines.

b. The perimeter of the disposal site must be fenced in a manner adequate to deter access by the general public.

c. Upon request and supply of appropriate information, the Director will determine whether a fence or a natural barrier adequately deters access by the general public.

(3) Rather than meet the no visible emission requirement of paragraph (1) of Rule 17.14, at the end of each operating day, or at least once every twenty-four (24) hour period while the site is in operation, the asbestos-containing waste material that has been deposited at the site during the operating day or previous twenty-four (24) hour period shall:

a. Be covered with at least fifteen (15) centimeters (six (6) inches) of compacted nonasbestos-containing material, or

b. Be covered with a resinous or petroleum-based dust suppression agent that effectively binds dust and controls wind erosion. Such an agent shall be used in the manner and frequency recommended for the particular dust by the dust suppression agent manufacturer to achieve and maintain dust control. Other equally effective dust suppression agents may be used upon prior approval by the Director. For the purposes of Rule 17.14, any used, spent, or other waste oil is not considered a dust suppression agent.

(4) Rather than meet the no visible emission requirement of paragraph (1) of Rule 17.14, use an alternative emissions control method that has received prior written approval by the Administrator of the U.S. Environmental Protection Agency pursuant to 40 CFR 61.154(d) according to the procedures described in Rule 17.9(3)b. The owner or operator shall provide the Director with a photocopy of the written approval.

(5) For all asbestos-containing waste material received, the owner or operator of the active waste disposal site shall:

a. Maintain waste shipment records, using a form similar to that shown in Figure 3, and include the following information:

1. The name, address, and telephone number of the waste generator;

2. The name, address, and telephone number of the transporter(s);

3. The quantity of the asbestos-containing waste material in cubic meters (cubic yards);

4. The presence of improperly enclosed or uncovered waste, or any asbestos-containing waste material not sealed in leak-tight containers. Report in writing to the Director and also to any other officer or agency where required by local, state or federal law covering the waste generator (identified in the waste shipment record), and, if different, the local, State, or EPA Regional office responsible for administering the asbestos NESHAP program for the disposal site, by the following working day, the presence of a significant amount of improperly enclosed or uncovered waste. Submit a copy of the waste shipment record along with the report; and

5. The date of the receipt.

b. As soon as possible and no longer than thirty (30) days after receipt of the waste, send a copy of the signed waste shipment record to the waste generator.

c. Upon discovering a discrepancy between the quantity of waste designated in the waste shipment records and the quantity actually received, attempt to reconcile the discrepancy with the waste generator. If the discrepancy is not resolved within fifteen (15) days after receiving the waste, immediately report in writing to the Director and also to any other

officer or agency where required by local, state, or federal law covering the waste generator (identified in the waste shipment record), and, if different, the local, State, or EPA Regional office responsible for administering the asbestos NESHAP for the disposal site. Describe the discrepancy and attempts to reconcile it, and submit a copy of the waste shipment record along with the report.

d. Retain a copy of all records and reports required by this paragraph for at least two (2) years.

(6) Maintain, until closure, records of the location, depth and area, and quantity in cubic meters (cubic yards) of asbestos-containing waste material within the disposal site on a map or diagram of the disposal area.

(7) Upon closure, comply with all the provisions of Rule 17.11.

(8) Submit to the Director, upon closure of the facility, a copy of records of asbestos waste disposal locations and quantities.

(9) Furnish upon request, and make available during normal business hours for inspection by the Director, all records required under Rule 17.14.

(10) Notify the Director in writing at least forty-five (35) days prior to excavating or otherwise disturbing any asbestos-containing waste material that has been deposited at a waste disposal site and is covered. If the excavation will begin on a date other than the one (1) contained in the original notice, notice of the new start date must be provided to the Director at least ten (10) working days before excavation begins and in no event shall excavation begin earlier than the date specified in the original notification. Include the following information in the notice:

a. Scheduled starting and completion dates;

b. Reason for disturbing the waste;

c. Procedures to be used to control emissions during the excavation, storage, transport, and ultimate disposal of the excavated asbestos-containing waste material. If deemed necessary, the Administrator may require changes in the emission control procedures to be used; and

d. Location of any temporary storage site and the final disposal site.

Rule 17.15. Standard for operations that convert asbestos-containing waste material into nonasbestos (asbestos-free) material. Each owner or operator of an operation that converts RACM and asbestos-containing waste material into nonasbestos (asbestos-free) material shall:

(1) Obtain the prior written approval of the Administrator of the U.S. Environmental Protection Agency pursuant to 40 CFR 61.155(a) to construct the facility. The owner or operator shall provide the Director with a photocopy of the written approval. To obtain approval, the owner or operator shall provide the Administrator with the following information:

a. Application to construct pursuant to Section 4-840 CFR 61.07.

b. In addition to the information requirements of 40 CFR 61.07(b)(3), a

1. Description of waste feed handling and temporary storage.

2. Description of process operating conditions.

3. Description of the handling and temporary storage of the end product.

4. Description of the protocol to be followed when analyzing output materials by transmission electron microscopy.

c. Performance test protocol, including provisions for obtaining information required under paragraph (2) of Rule 17.15.

d. The Administrator of the U.S. Environmental Protection Agency may require that a demonstration of the process be performed prior to approval of the application to construct.

(2) Conduct a start-up performance test. Test results shall include:

a. A detailed description of the types and quantities of nonasbestos material, RACM, and asbestos-containing waste material processed, e.g., asbestos cement products, friable asbestos insulation, plaster, wood, plastic, wire, etc. The test feed is to include the full range of materials that will be encountered in actual operation of the process;

b. Results of analyses, using polarized light microscopy, that document the asbestos content of the wastes processed;

c. Results of analyses, using transmission electron microscopy, that document that the output materials are free of asbestos. Samples for analysis are to be collected as eight (8) hour composite samples (one (1) two hundred (200) gram [seven (7) ounce] sample per hour), beginning with the initial introduction of RACM or asbestos-containing waste material and continuing until the end of the performance test;

d. A description of operating parameters, such as temperature and residence time, defining the full range over which the process is expected to operate to produce nonasbestos (asbestos-free) materials. Specify the limits for each operating parameter within which the process will produce nonasbestos (asbestos-free) materials; and

e. The duration of the test.

(3) During the initial ninety (90) days of operation,

a. Continuously monitor and log the operating parameters identified during start-up performance tests that are intended to ensure the production of nonasbestos (asbestos-free) output material.

b. Monitor input materials to ensure that they are consistent with the test feed materials described during start-up performance tests in paragraph (2)a. of Rule 17.15.

c. Collect and analyze samples, taken as ten (10) day composite samples (one (1) two hundred (200) gram [seven (7) ounce] sample collected every 8 hours of operation) of all output material for the presence of asbestos. Composite samples may be for fewer than ten (10) days. Transmission electron microscopy shall be used to analyze the output material for the presence of asbestos. During the initial ninety (90) day period, all output materials must be stored on-site until analysis shows the material to be asbestos-free or disposed of as asbestos-containing waste material in accordance with Rule 17.10.

(4) After the initial ninety (90) days of operation,

a. Continuously monitor and record the operating parameters identified during start-up performance testing and any subsequent performance testing. Any output produced during a period of deviation from the range of operating conditions established to ensure the production of nonasbestos (asbestos-free) output materials shall be:

1. Disposed of as asbestos-containing waste material in accordance with Rule 17.10 or

2. Recycled as waste feed during process operation within the established range of operating conditions, or

3. Stored temporarily on-site in a leak-tight container until analyzed for asbestos content. Any product that is not asbestos-free shall be either disposed of as asbestos-containing waste material or recycled as waste feed to the process.

b. Collect and analyze monthly composite samples (one (1) two hundred (200) gram [seven (7) ounce] sample collected every eight (8) hours of operation) of the output material. Transmission electron microscopy shall be used to analyze the output material for the presence of asbestos.

(5) Discharge no visible emissions to the outside air from any part of the operation, or use the methods specified by Rule 17.12 to clean emissions containing particulate asbestos material before they escape to, or are vented to, the outside air.

(6) Maintain records on-site and include the following information:

a. Results of start-up performance testing and all subsequent performance testing, including operating parameters, feed characteristic, and analyses of output materials.

b. Results of the composite analyses required during the initial ninety (90) days of operation under Rule 17.15(3).

c. Results of the monthly composite analyses required under Rule 17.15(4).

d. Results of the continuous monitoring and logs of process operating parameters under Rules 17.15(3) and (4).

e. The information on waste shipments received as required in Rule 17.14(5).

f. For output materials where no analyses were performed to determine the presence of asbestos, record the name and location of the purchaser or disposal site to which the output materials were sold or deposited, and the date of sale or disposal.

g. Retain records required by paragraph (6) of Rule 17.15 for at least two (2) years.

(7) Submit the following reports to the Administrator:

a. A report for each analysis of product composite samples performed during the initial ninety (90) days of operation.

b. A quarterly report, including the following information concerning activities during each consecutive three (3) month period:

1. Results of analyses of monthly product composite samples;

2. A description of any deviation from the operating parameters established during performance testing, the duration of the deviation, and steps taken to correct the deviation;

3. Disposition of any product produced during a period of deviation, including whether it was recycled, disposed of as asbestos-containing waste material, or stored temporarily on-site until analyzed for asbestos content;

4. The information on waste disposal activities as required in Rule 17.14(6).

(8) Nonasbestos (asbestos-free) output material is not subject to any of the provisions of Rule 17. Output materials in which asbestos is detected, or output materials produced when the operating parameters deviated from those established during the start-up performance testing, unless shown by transmission electron microscopy analysis to be asbestos-free, shall be considered to be asbestos-containing waste and shall be handled and disposed of according to Rules 17.10 and 17.14 or reprocessed while all of the established operating parameters are being met.

Rule 18. Prevention of Significant Deterioration of Air Quality.

Rule 18.1. General provisions.

(a) The requirements of this Rule apply to the construction of any new major stationary source [as defined in Rule 18.2(hh)] or any project at an existing major stationary source in an area

designated as attainment or unclassifiable under Sections 107(d)(1)(A)(ii) or (iii) of the Federal Clean Air Act. No major stationary source or major modification will be subject to this rule with respect to a particular pollutant if the owner or operator demonstrates that the major source or major modification is located in an area designated nonattainment with respect to that pollutant, in which event other rules in this chapter would apply.

(b) The requirements of Rule 18.9 through 18.17 apply to the construction of any new major stationary source or the major modification of any existing major stationary source, except as this Rule otherwise provides.

(c) No person shall cause or allow the beginning of actual construction of a new major stationary source or major modification to which the requirements of Rules 18.9 through 18.17(d) apply without a permit that states that the major stationary source or major modification will meet those requirements. The Director has authority to issue any such permit.

(d) The requirements of this Rule will be applied in accordance with the principles set out in paragraphs d(1) through d(5) below:

(1) Except as otherwise provided in Rule 18.1(e), and consistent with the definition of major modification contained in Rule 18.2(ff), a project is a major modification for a regulated NSR pollutant if it causes two (2) types of emissions increases—a significant emissions increase [as defined in Rule 18.2(aaa)], and a significant net emissions increase [as defined in Rule 18.2(jj) and Rule 18.2(zz)]. The project is not a major modification if it does not cause a significant emissions increase. If the project causes a significant emissions increase, then the project is a major modification only if it also results in a significant net emissions increase.

(2) The procedure for calculating (before beginning actual construction) whether a significant emissions increase (i.e., the first step of the process) will occur depends upon the type of emissions units being modified, according to Rule 18.1(d)(3) through (5). The procedure for calculating (before beginning actual construction) whether a significant net emissions increase will occur at the major stationary source (i.e., the second step of the process) is contained in the definition in Rule 18.2(jj). Regardless of any such preconstruction projections, a major modification results if the project causes a significant emissions increase and a significant net emissions increase.

(3) Actual-to-projected-actual applicability test for projects that only involve existing emissions units. A significant emissions increase of a regulated NSR pollutant is projected to occur if the sum of the difference between the projected actual emissions [as defined in Rule 18.2(rr)] and the baseline actual emissions [as defined in Rule 18.2(d)(1) and (2)], for each existing emissions unit, equals or exceeds the significant amount for that pollutant [as defined in Rule 18.2(zz)].

(4) Actual-to-potential test for projects that only involve construction of a new emissions unit(s). A significant emissions increase of a regulated NSR pollutant is projected to occur if the sum of the difference between the potential to emit [as defined in Rule 18.2(mm)] from each new emissions unit following completion of the project and the baseline actual emissions [as defined in Rule 18.2(d)(3)] of these units before the project equals or exceeds the significant amount for that pollutant [as defined in Rule 18.2(zz)].

(5) Hybrid test for projects that involve multiple types of emissions units. A significant emissions increase of a regulated NSR pollutant is projected to occur if the sum of the emissions increases for each emissions unit, using the method specified in paragraphs

18.1(d)(3) and (4) of this section as applicable with respect to each emissions unit, for each type of emissions unit equals or exceeds the significant amount for that pollutant (as defined in paragraph 18.2(zz) of this section).

(e) For any major stationary source for a "plantwide applicability limitation (PAL)" [as defined in Rule 18.21(b)(5)] for a regulated New Source Review (NSR) pollutant [as defined in Rule 18.2(uu)], the major stationary source shall comply with the requirements under Rule 18.21.

Rule 18.2. Definitions. For the purposes of this Rule:

(a) *Actual emissions.*

(1) Actual emissions means the actual rate of emissions of a regulated NSR pollutant from an emissions unit, as determined in accordance with Rule18.2(a)(2) through (a)(4) except that this definition shall not apply for calculating whether a significant emissions increase has occurred, or for establishing a plantwide applicability limitation (PAL) under Rule 18.21. Instead, Rule 18.2(rr) and Rule 18.2(d) shall apply for those purposes.

(2) In general, actual emissions as of a particular date shall equal the average rate, in tons per year, at which the unit actually emitted the pollutant during a consecutive twenty-four (24) month period which precedes the particular date and which is representative of normal source operation. The Director shall allow the use of a different time period upon a determination that it is more representative of normal source operation. Actual emissions shall be calculated using the unit's actual operating hours, production rates, and types of materials processed, stored, or combusted during the selected time period.

(3) The Director may presume that source-specific allowable emissions for the unit are equivalent to the actual emissions of the unit.

(4) For any emissions unit that has not begun normal operations on the particular date, actual emissions shall equal the potential to emit of the unit on that date.

(b) *Adverse impact on visibility* means visibility impairment which interferes with the management, protection, preservation or enjoyment of the visitor's visual experience of the Federal Class I area. This determination must be made on a case-by-case basis taking into account the geographic extent, intensity, duration, frequency and time of visibility impairment, and how these factors correlate with (1) times of visitor use of the Federal Class I area, and (2) the frequency and timing of natural conditions that reduce visibility.

(c) *Allowable emissions* means the emissions rate of a stationary source calculated using the maximum rated capacity of the source (unless the source is subject to federally enforceable limits which restrict the operating rate, or hours of operation, or both) and the most stringent of the following:

(1) The applicable standards as set forth in 40 CFR Parts 60 and 61;

(2) The applicable local portion of the State Implementation Plan emissions limitation, including those with a future compliance date; or

(3) The emissions rate specified as a federally enforceable permit condition, including those with a future compliance date.

(d) *Baseline actual emissions* means the rate of emissions, in tons per year, of a regulated NSR pollutant, as determined in accordance Rule 18.2(d)(1) through (d)(4).

(1) For any existing electric utility steam generating unit, baseline actual emissions means the average rate, in tons per year, at which the unit actually emitted the pollutant during any consecutive twenty-four (24) month period selected by the owner or operator within the five

(5) year period immediately preceding when the owner or operator begins actual construction of the project. The Director shall allow the use of a different time period upon a determination that it is more representative of normal source operation.

a. The average rate shall include fugitive emissions to the extent quantifiable, and emissions associated with startups, shutdowns, and malfunctions.

b. The average rate shall be adjusted downward to exclude any non-compliant emissions that occurred while the source was operating above any emission limitation that was legally enforceable during the consecutive twenty-four (24) month period.

c. For a regulated NSR pollutant, when a project involves multiple emissions units, one (1) consecutive twenty-four (24) month period must be used to determine the baseline actual emissions for the emissions units being changed. However, the Director is authorized to allow the use of multiple, pollutant specific consecutive twenty-four (24) month baselines in determining the magnitude of a significant net emissions increase and the applicability of major new source review requirements if all of the following conditions are met:

1. Construction of a new source or modification would become subject to major new source review if a single two (2) year baseline is used for all pollutants;

2. One or more pollutants were emitted during such 2-year period in amounts that were less than otherwise permitted for reasons other than operations at a lower production or utilization rate;

Qualifying examples include, but are not limited to, the voluntary use of:

(i). a cleaner fuel than otherwise permitted in a fuel burning operation (e.g., natural gas instead of coal in a multi-fuel boiler);

(ii). a coating with a lower VOC content than otherwise permitted in a coating operation;

(iii) a voluntary improvement in the control efficiency of an air pollution control device or the voluntary addition of a control device where one (1) did not exist before, and

(iv). alternate production methods, raw materials, or products that result in lower emissions of one (1) or more pollutants.

3. Use of alternate two (2) year baselines for the pollutants described in sub-item 2 above would result in the construction of the new source or modification not being subject to major new source review.

4. The use of the multiple baselines is not prohibited by any applicable provision of the US EPA's new source review regulations. The burden for demonstrating that these conditions are met is upon the permit applicant. The demonstration and the Director's approval will be made a part of the permit record.

d. The average rate shall not be based on any consecutive 24-month period for which there is inadequate information for determining annual emissions, in tons per year, and for adjusting this amount if required by Rule 18.2(d)(1)b.

(2) For an existing emissions unit (other than an electric utility steam generating unit), baseline actual emissions means the average rate, in tons per year, at which the emissions unit actually emitted the pollutant during any consecutive twenty-four (24) month period selected by the owner or operator within the ten (10) year period immediately preceding either the date the owner or operator begins actual construction of the project, or the date a

complete permit application is received by the Director for a permit required under this Rule, whichever is earlier, except that the ten (10) year period shall not include any period earlier than November 15, 1990.

a. The average rate shall include fugitive emissions to the extent quantifiable, and emissions associated with startups, shutdowns, and malfunctions.

b. The average rate shall be adjusted downward to exclude any non-compliant emissions that occurred while the source was operating above an emission limitation that was legally enforceable during the consecutive twenty-four (24) month period.

c. The average rate shall be adjusted downward to exclude any emissions that would have exceeded an emission limitation with which the major stationary source must currently comply, had such major stationary source been required to comply with such limitations during the consecutive twenty-four (24) month period. However, if an emission limitation is part of a maximum achievable control technology standard that the U.S. EPA Administrator proposed or promulgated under 40 CFR Part 63, the baseline actual emissions need only be adjusted if the State or the Chattanooga-Hamilton County Air Pollution Control Bureau has taken credit for such emissions reductions in an attainment demonstration or maintenance plan consistent with the requirements of 40 CFR §51.165(a)(3)(ii)(G).

d. For a regulated NSR pollutant, when a project involves multiple emissions units one (1) consecutive twenty-four (24) month period must be used to determine the baseline actual emissions for the emissions units being changed. However, the Director is authorized to allow the use of multiple, pollutant specific consecutive twenty-four (24) month baselines in determining the magnitude of a significant net emissions increase and the applicability of major new source review requirements if all of the following conditions are met:

   1. Construction of a new source or modification would become subject to major new source review if a single two (2) year baseline is used for all pollutants;

   2. One or more pollutants were emitted during such (2) year period in amounts that were less than otherwise permitted for reasons other than operations at a lower production or utilization rate;

      Qualifying examples include, but are not limited to, the voluntary use of:

      (i) a cleaner fuel than otherwise permitted in a fuel burning operation (e.g., natural gas instead of coal in a multi-fuel boiler);

      (ii) a coating with a lower VOC content than otherwise permitted in a coating operation;

      (iii) a voluntary improvement in the control efficiency of an air pollution control device or the voluntary addition of a control device where one (1) did not exist before, and

      (iv) alternate production methods, raw materials, or products that result in lower emissions of one (1) or more pollutants.

   3. Use of alternate two (2) year baselines for the pollutants described in sub-item 2 above would result in the construction of the new source or modification not being subject to major new source review.

   4. The use of the multiple baselines is not prohibited by any applicable provision of the US EPA's new source review regulations.

The burden for demonstrating that these conditions are met is upon the permit applicant.

The demonstration and the Director's approval will be made a part of the permit record.

e. The average rate shall not be based on any consecutive 24-month period for which there is inadequate information for determining annual emissions, in tons per year, and for adjusting this amount if required by Rule 18.2(d)(2)b. and (2)c.

(3) For a new emissions unit, the baseline actual emissions for purposes of determining the emissions increase that will result from the initial construction and operation of such unit shall equal zero; and thereafter, for all other purposes, shall equal the unit's potential to emit.

(4) For a PAL for a stationary source, the baseline actual emissions shall be calculated for existing electric utility steam generating units in accordance with the procedures contained in Rule 18.2(d)(1), for other existing emissions units in accordance with the procedures contained in Rule 18.2(d)(2), and for a new emissions unit in accordance with the procedures contained in Rule 18.2(d)(3).

(e) *Baseline area*

(1) Baseline area means any intrastate area (and every part thereof) designated as attainment or unclassifiable under Section 107(d)(1)(A)(ii) or (iii) of the Federal Clean Air Act in which the major source or major modification establishing the minor source baseline date would construct or would have an air quality impact equal to or greater than 1 $\mu g/m^3$ (annual average) for SO_2, NO_2, or PM_{10}; or equal to or greater than 0.3 $\mu g/m^3$ (annual average) for $PM_{2.5}$.

(2) Area redesignations under Section 107(d)(1) (D) or (E) of the federal Clean Air Act cannot intersect or be smaller than the area of impact of any major stationary source or major modification which:

a. Establishes a minor source baseline date; or

b. Is subject to this Rule and would be constructed in the same state as the state proposing the redesignation.

(3) Any baseline area established originally for the TSP increments shall remain in effect and shall apply for purposes of determining the amount of available PM_{10} increments, except that such baseline area shall not remain in effect if the Director rescinds the corresponding minor source baseline date in accordance with Rule 18.2(gg)(4).

(f) *Baseline concentration*

(1) Baseline concentration means that ambient concentration level that exists in the baseline area at the time of the applicable minor source baseline date. A baseline concentration is determined for each pollutant for which a minor source baseline date is established and shall include:

a. The actual emissions, as defined in Rule 18.2(a), representative of sources in existence on the applicable minor source baseline date, except as provided in 18.2(f)(2) below ; and

b. The allowable emissions of major stationary sources that commenced construction before the major source baseline date, but were not in operation by the applicable minor source baseline date.

(2) The following will not be included in the baseline concentration and will affect the applicable maximum allowable increase(s):

a. Actual emissions, as defined in Rule 18.2(a), from any major stationary source on which construction commenced after the major source baseline date; and

b. Actual emissions increases and decreases, as defined in Rule 18.2(a), at any stationary source occurring after the minor source baseline date.

(g) *Begin actual construction* means, in general, initiation of physical on-site construction activities on an emissions unit which are of a permanent nature. Such activities include, but are not limited to, installation of building supports and foundations, laying underground pipework and construction of permanent storage structures. With respect to a change in method of operations, this term refers to those on-site activities other than preparatory activities which mark the initiation of the change.

(h) *Best available control technology* means an emissions limitation (including a visible emission standard) based on the maximum degree of reduction for each regulated NSR pollutant which would be emitted from any proposed major stationary source or major modification which the reviewing authority, on a case-by-case basis, taking into account energy, environmental, and economic impacts and other costs, determines is achievable for such source or modification through application of production processes or available methods, systems, and techniques, including fuel cleaning or treatment or innovative fuel combustion techniques for control of such pollutant. In no event shall application of best available control technology result in emissions of any pollutant which would exceed the emissions allowed by any applicable standard under Rules 15 and 16 (or 40 CFR Parts 60 and 61). If the reviewing authority determines that technological or economic limitations on the application of measurement methodology to a particular emissions unit would make the imposition of an emissions standard infeasible, a design, equipment, work practice, operational standard, or combination thereof, may be prescribed instead to satisfy the requirement for the application of best available control technology. Such standard shall, to the degree possible, set forth the emissions reduction achievable by implementation of such design, equipment, work practice or operation, and shall provide for compliance by means which achieve equivalent results.

(i) *Building, structure, facility, or installation* means all of the pollutant-emitting activities which belong to the same industrial grouping, are located on one (1) or more contiguous or adjacent properties, and are under the control of the same person (or persons under common control) except the activities of any vessel. Pollutant-emitting activities shall be considered as part of the same industrial grouping if they belong to the same "Major Group" (i.e., which have the same first two (2) digit code) as described in the Standard Industrial Classification Manual, 1972, as amended by the 1977 Supplement (U. S. Government Printing Office stock numbers 4101-0066 and 003-005-00176-0, respectively).

(j) *Clean coal technology* means any technology, including technologies applied at the pre combustion, combustion, or post combustion stage, at a new or existing facility which will achieve significant reductions in air emissions of sulfur dioxide or oxides of nitrogen associated with the utilization of coal in the generation of electricity, or process steam which was not in widespread use as of November 15, 1990.

(k) *Clean coal technology demonstration project* means a project using funds appropriated under the heading "Department of Energy-Clean Coal Technology," up to a total amount of two billion five hundred million ($2,500,000,000.00) for commercial demonstration of clean coal technology, or similar projects funded through appropriations for the Environmental Protection Agency. The Federal contribution for a qualifying project shall be at least twenty (20) percent of the total cost of the demonstration project.

(l) (Reserved)

(m) *Commence* as applied to construction of a major stationary source or major modification means that the owner or operator has all necessary preconstruction approvals or permits and either has:

(1) Begun, or caused to begin, a continuous program of actual on-site construction of the source, to be completed within a reasonable time; or

(2) Entered into binding agreements or contractual obligations, which cannot be cancelled or modified without substantial loss to the owner or operator, to undertake a program of actual construction of the source to be completed within a reasonable time.

(n) *Complete* means, in reference to an application for a permit, that the application contains all of the information necessary for processing the application. Designating an application complete for purposes of permit processing does not preclude the reviewing authority from requesting or accepting any additional information.

(o) *Construction* means any physical change or change in the method of operation (including fabrication, erection, installation, demolition, or modification of an emissions unit) that would result in a change in emissions.

(p) *Continuous emissions monitoring system (CEMS)* means all of the equipment that may be required to meet the data acquisition and availability requirements of this Rule, to sample, condition (if applicable), analyze, and provide a record of emissions on a continuous basis.

(q) *Continuous emissions rate monitoring system (CERMS)* means the total equipment required for the determination and recording of the pollutant mass emissions rate (in terms of mass per unit of time).

(r) *Continuous parameter monitoring system (CPMS)* means all of the equipment necessary to meet the data acquisition and availability requirements of this Rule, to monitor process and control device operational parameters (for example, control device secondary voltages and electric currents) and other information (for example, gas flow rate, O_2 or CO_2 concentrations), and to record average operational parameter value(s) on a continuous basis.

(s) *Electric utility steam generating unit* means any steam electric generating unit that is constructed for the purpose of supplying more than one-third (1/3) of its potential electric output capacity and more than twenty-five (25) MW electrical output to any utility power distribution system for sale. Any steam supplied to a steam distribution system for the purpose of providing steam to a steam-electric generator that would produce electrical energy for sale is also considered in determining the electrical energy output capacity of the affected facility.

(t) *Emissions unit* means any part of a stationary source that emits or would have the potential to emit any regulated NSR pollutant and includes an electric utility steam generating unit as defined in Rule 18.2(s). For purposes of this Rule, there are two (2) types of emissions units as described in this Rule 18.2(t) as follows:

(1) A new emissions unit is any emissions unit that is (or will be) newly constructed and that has existed for less than two (2) years from the date such emissions unit first operated.

(2) An existing emissions unit is any emissions unit that does not meet the requirements in Rule18.2(t)(1) above. A replacement unit, as defined in Rule 18.2(vv), is an existing emissions unit.

(u) *Federal Land Manager* means, with respect to any lands in the United States, the Secretary of the department with authority over such lands.

(v) *Federally enforceable* means all limitations and conditions which are enforceable by the U.S. EPA Administrator, including those requirements developed pursuant to 40 CFR Parts 60 and 61, requirements within any applicable local portion of the State Implementation Plan, any permit

requirements established pursuant to this Rule, including operating permits issued under an EPA-approved program that is incorporated into the local portion of the State Implementation Plan and expressly requires adherence to any permit issued under such program.

(w) (Reserved)

(x) *Fugitive emissions* means those emissions which could not reasonably pass through a stack, chimney, vent, or other functionally equivalent opening.

(y) (Reserved)

(z) *High terrain* means any area having an elevation 900 feet or more above the base of the stack of a source.

(aa) *Indian Governing Body* means the governing body of any tribe, band, or group of Indians subject to the jurisdiction of the United States and recognized by the United States as possessing power of self-government.

(bb) *Indian Reservation* means any federally recognized reservation established by Treaty, Agreement, executive order, or act of Congress.

(cc) *Innovative control technology* means any system of air pollution control that has not been adequately demonstrated in practice, but would have a substantial likelihood of achieving greater continuous emissions reduction than any control system in current practice or of achieving at least comparable reductions at lower cost in terms of energy, economics, or nonair quality environmental impacts.

(dd) *Low terrain* means any area other than high terrain.

(ee) *Lowest achievable emission rate (LAER)* is as defined in Section 4-2 of this chapter.

(ff) *Major Modification*

(1) Major Modification means any physical change in or change in the method of operation of a major stationary source that would result in: a significant emissions increase [as defined in Rule 18.2(aaa)] of a regulated NSR pollutant [as defined in Rule 18.2(uu)]; and a significant net emissions increase of that pollutant from the major stationary source.

(2) Any significant emissions increase [as defined in Rule 18.2(aaa)] from any emissions units or net emissions increase [as defined in Rule18.2(jj)] at a major stationary source that is significant for volatile organic compounds or NO_X shall be considered significant for ozone.

(3) A physical change or change in the method of operation shall not include:

a. Routine maintenance, repair, and replacement.

b. Use of an alternative fuel or raw material by reason of an order under Sections 2 (a) and (b) of the Energy Supply and Environmental Coordination Act of 1974 (or any superseding legislation) or by reason of a natural gas curtailment plant pursuant to the Federal Power Act;

c. Use of an alternative fuel by reason of an order or rule under Section 125 of the Federal Clean Air Act;

d. Use of an alternative fuel at a steam generating unit to the extent that the fuel is generated from municipal solid waste;

e. Use of an alternative fuel or raw material by a stationary source which:

1. The source was capable of accommodating before January 6, 1975, unless such change would be prohibited under any federally enforceable permit condition

which was established after January 6, 1975 pursuant to this Rule or under regulations approved pursuant to 40 CFR Part 51, Subpart 1; or 2. The source is approved to use under any permit issued under this Rule;

f. An increase in the hours of operation or in the production rate, unless such change would be prohibited under any federally enforceable permit condition which was established after January 6, 1975, pursuant to this Rule or under regulations approved pursuant to 40 CFR Part 51, Subpart I, or 40 CFR §51.166.

g. Any change in ownership at a stationary source.

h. The installation, operation, cessation, or removal of a temporary clean coal technology demonstration project, provided that the project complies with:

1. The local portion of the State Implementation Plan for the State in which the project is located, and

2. Other requirements necessary to attain and maintain the national ambient air quality standards during the project and after it is terminated.

i. The installation or operation of a permanent clean coal technology demonstration project that constitutes repowering, provided that the project does not result in an increase in the potential to emit of any regulated pollutant emitted by the unit. This exemption shall apply on a pollutant-by-pollutant basis.

j. The reactivation of a very clean coal-fired electric utility steam generating unit.

k. This definition shall not apply with respect to a particular regulated NSR pollutant when the major stationary source is complying with the requirements under Rule 18.21 for a plantwide applicability limitation (PAL) for that pollutant. Instead, the definition in Rule 18.21(b)(8) shall apply.

(gg) *Major source baseline date and minor source baseline date*

(1) Major source baseline date means:

a. In the case of PM_{10} and sulfur dioxide, January 6, 1975;

b. In the case of nitrogen dioxide, February 8, 1988; and

c. In the case of $PM_{2.5}$, October 20, 2011.

(2) "Minor source baseline date" means the earliest date after the trigger date on which a major stationary source or a major modification subject to this Rule submits a complete application under the relevant regulations. The trigger date is:

a. In the case of PM_{10} and sulfur dioxide, August 7, 1977;

b. In the case of nitrogen dioxide, February 8, 1988; and

c. In the case of $PM_{2.5}$, October 20, 2011.

(3) The baseline date is established for each pollutant for which increments or other equivalent measures have been established if:

a. The area in which the proposed source or modification would construct is designated as attainment or unclassifiable under Section 107(d)(1)(A)(ii) or (iii) of the Federal Clean Air Act for the pollutant on the date of its complete application under this Rule, and

b. In the case of a major stationary source, the pollutant would be emitted in significant amounts, or, in the case of a major modification, there would be a significant net emissions increase of the pollutant.

(4) Any minor source baseline date established originally for the TSP increments shall remain in effect and shall apply for purposes of determining the amount of available PM_{10} increments, except that the Director shall rescind a minor source baseline date where it can be shown, to the satisfaction of the Director, that the emissions increase from the major stationary source, or net emissions increase from the major modification, responsible for triggering that date did not result in a significant amount of PM_{10} emissions.

(hh) *Major stationary source*

(1) Major stationary source means:

a. Any of the following stationary sources of air pollutants which emits, or has the potential to emit, one hundred (100) tons per year or more of any regulated NSR pollutant: fossil fuel-fired steam electric plants of more than two hundred fifty million (250,000,000) British thermal units per hour heat input, coal cleaning plants (with thermal dryers), kraft pulp mills, Portland cement plants, primary zinc smelters, iron and steel mill plants, primary aluminum ore reduction plants, primary copper smelters, municipal incinerators capable of charging more than fifty (50) tons of refuse per day, hydrofluoric, sulfuric, and nitric acid plants, petroleum refineries, lime plants, phosphate rock processing plants, coke oven batteries, sulfur recovery plants, carbon black plants (furnace process), primary lead smelters, fuel conversion plants, sintering plants, secondary metal production plants, chemical process plants, fossil fuel boilers (or combinations thereof) totaling more than two hundred fifty million (250,000,000) British thermal units per hour heat input, petroleum storage and transfer units with a total storage capacity exceeding three hundred thousand (300,000) barrels, taconite ore processing plants, glass fiber processing plants, and charcoal production plants;

b. Notwithstanding the stationary source size specified in Rule 18.2(hh)(1)(a), any stationary source which emits, or has the potential to emit, two hundred fifty (250) tons per year or more of a regulated NSR pollutant; or

c. Any physical change that would occur at a stationary source not otherwise qualifying under Rule 18.2(hh) as a major stationary source, if the changes would constitute a major stationary source by itself.

(2) A major stationary source that is major for volatile organic compounds or NOx shall be considered major for ozone.

(3) The fugitive emissions of a stationary source shall not be included in determining for any of the purposes of this Rule whether it is a major stationary source, unless the source belongs to one (1) of the following categories of stationary sources:

a. Coal cleaning plants (with thermal dryers);

b. Kraft pulp mills;

c. Portland cement plants;

d. Primary zinc smelters;

e. Iron and steel mills;

f. Primary aluminum ore reduction plants;

g. Primary copper smelters;

h. Municipal incinerators capable of charging more than fifty (50) tons of refuse per day;

i. Hydrofluoric, sulfuric, or nitric acid plants;

j. Petroleum refineries;

k. Lime plants;

l. Phosphate rock processing plants;

m. Coke oven batteries;

n. Sulfur recovery plants;

o. Carbon black plants (furnace process);

p. Primary lead smelters;

q. Fuel conversion plants;

r. Sintering plants;

s. Secondary metal production plants;

t. Chemical process plants;

u. Fossil-fuel boilers (or combination thereof) totaling more than two hundred fifty million (250,000,000) British thermal units per hour heat input;

v. Petroleum storage and transfer units with a total storage capacity exceeding three hundred thousand (300,000) barrels;

w. Taconite ore processing plants;

x. Glass fiber processing plants;

y. Charcoal production plants;

z. Fossil fuel-fired steam electric plants of more than two hundred fifty million (250,000,000) British thermal units per hour heat input; and

aa. Any other stationary source category which, as of August 7, 1980, is being regulated under Section 111 or 112 of the Federal Clean Air Act.

(ii) Necessary preconstruction approvals or permits means those permits or approvals required under Federal air quality control laws and regulations and those air quality control laws and regulations which are part of the applicable local portion of the State Implementation Plan.

(jj) *Net emissions increase*

(1) A net emissions increase means, with respect to any regulated NSR pollutant emitted by a major stationary source, the amount by which the sum of the following exceeds zero:

a. The increase in emissions from a particular physical change or change in the method of operation at a stationary source as calculated pursuant to Rule 18.1(d); and

b. Any other increases and decreases in actual emissions at the major stationary source that are contemporaneous with the particular change and are otherwise creditable. Baseline actual emissions for calculating increases and decreases under this Rule 18.2(jj)(1)b. shall be determined as provided in Rule 18.2(d), except that Rule 18.2(d)(1)(c) and (d)(2)(d) shall not apply.

(2) An increase or decrease in actual emissions is contemporaneous with the increase from the particular change only if it occurs between:

a. The date five years before construction on the particular change commences; and

b. The date that the increase from the particular change occurs.

(3) An increase or decrease in actual emissions is creditable only if the Director has not relied on it in issuing a permit for the source under this Rule, which permit is in effect when the increase in actual emissions from the particular change occurs.

(4) An increase or decrease in actual emissions of sulfur dioxide, particulate matter, or nitrogen oxides that occurs before the applicable minor source baseline date is creditable only if it is required to be considered in calculating the amount of maximum allowable increases remaining available.

(5) An increase in actual emissions is creditable only to the extent that the new level of actual emissions exceeds the old level.

(6) A decrease in actual emissions is creditable only to the extent that:

a. The old level of actual emissions or the old level of allowable emissions, whichever is lower, exceeds the new level of actual emissions;

b. It is enforceable as a practical matter at and after the time that actual construction on the particular change begins; and

c. It has approximately the same qualitative significance for public health and welfare as that attributed to the increase from the particular change.

(7) (Reserved)

(8) An increase that results from a physical change at a source occurs when the emissions unit on which construction occurred becomes operational and begins to emit a particular pollutant. Any replacement unit that requires shakedown becomes operational only after a reasonable shakedown period, not to exceed one hundred eighty (180) days.

(9) Rule 18.2(a)(2) shall not apply for determining creditable increases and decreases.

(kk) (Reserved)

(ll) (Reserved)

(mm) *Potential to emit* means the maximum capacity of a stationary source to emit a pollutant under its physical and operational design. Any physical or operational limitation on the capacity of the source to emit a pollutant, including air pollution control equipment and restrictions on hours of operation or on the type or amount of material combusted, stored, or processed, shall be treated as part of its design if the limitation or the effect it would have on emissions is federally enforceable. Secondary emissions do not count in determining the potential to emit of a stationary source.

(nn) *Predictive emissions monitoring system (PEMS)* means all of the equipment necessary to monitor process and control device operational parameters (for example, control device secondary voltages and electric currents) and other information (for example, gas flow rate, O_2 or CO_2 concentrations), and calculate and record the mass emissions rate (for example, lb/hr) on a continuous basis.

(oo) *Prevention of Significant Deterioration (PSD)* program means the major source preconstruction permit program under this Rule or a major source preconstruction permit program that has been approved by the U.S. EPA Administrator and incorporated into the local portion of the State Implementation Plan pursuant to 40 CFR §51.166 to implement the requirements of that section. Any permit issued under such a program is a major NSR (new source review) permit.

(pp) (Reserved)

(qq) *Project* means a physical change in, or change in the method of operation of, an existing major stationary source.

(rr) *Projected actual emissions*

(1) Projected actual emissions means the maximum annual rate, in tons per year, at which an existing emissions unit is projected to emit a regulated NSR pollutant in any one (1) of the

five (5) years (twelve (12) month period) following the date the unit resumes regular operation after the project, or in any one (1) of the ten (10) years following that date, if the project involves increasing the emissions unit's design capacity or its potential to emit that regulated NSR pollutant and full utilization of the unit would result in a significant emissions increase or a significant net emissions increase at the major stationary source.

(2) In determining the projected actual emissions in accordance with Rule 18.2(rr)(1) above and before beginning actual construction, the owner or operator of the major stationary source:

a. Shall consider all relevant information, including but not limited to, historical operational data, the company's own representations, the company's expected business activity and the company's highest projections of business activity, the company's filings with the Chattanooga-Hamilton County Air Pollution Control Bureau or with State or Federal regulatory authorities, and compliance plans under the approved local portion of the State Implementation Plan; and

b. Shall include fugitive emissions to the extent quantifiable and emissions associated with startups, shutdowns, and malfunctions; and

c. Shall exclude, in calculating any increase in emissions that results from the particular project, that portion of the unit's emissions following the project that an existing unit could have accommodated during the consecutive twenty-four (24) month period used to establish the baseline actual emissions under Rule 18.2(d) and that are also unrelated to the particular project, including any increased utilization due to product demand growth; or

d. In lieu of using the method set out in paragraphs a. through c. above, may elect to use the emissions unit's potential to emit, in tons per year, as defined in Rule 18.2(mm).

(ss) *Reactivation of a very clean coal-fired electric utility steam generating unit* means any physical change or change in the method of operation associated with the commencement of commercial operations by a coal-fired utility unit after a period of discontinued operation where the unit:

(1) Has not been in operation for the two-year period prior to the enactment of the Federal Clean Air Act Amendments of 1990, and the emissions from such unit continue to be carried in the permitting authority's emissions inventory at the time of enactment;

(2) Was equipped prior to shut-down with a continuous system of emissions control that achieves a removal efficiency for sulfur dioxide of no less than eighty-five (85) percent and a removal efficiency for particulates of no less than ninety-eight (98) percent;

(3) Is equipped with low-NO_X burners prior to the time of commencement of operations following reactivation; and

(4) Is otherwise in compliance with the requirements of the Federal Clean Air Act.

(tt) *Reasonably available control technology (RACT)* is as defined in section 4-2 of this chapter.

(uu) *Regulated NSR pollutant*, for purposes of this Rule, means the following:

(1) Any pollutant for which a national ambient air quality standard has been promulgated by the U.S. EPA Administrator. This includes, but is not limited to, the following:

a. $PM_{2.5}$ emissions and PM_{10} emissions shall include gaseous emissions from a source or activity which condense to form particulate matter at ambient temperatures. On or after January 1, 2011, such condensable particulate matter shall be accounted for in applicability determinations and in establishing emissions limitations for $PM_{2.5}$ and PM_{10} in PSD permits. Compliance with emissions limitations for $PM_{2.5}$ and PM_{10} issued prior to this date shall not be based on condensable particulate matter unless

required by the terms and conditions of the permit or the applicable implementation plan. Applicability determinations made prior to this date without accounting for condensable particulate matter shall not be considered in violation of this section unless the applicable implementation plan required condensable particulate matter to be included;

b. Any pollutant identified under this paragraph 18.2(uu)(1)b. as a constituent or precursor to a pollutant for which a national ambient air quality standard has been promulgated. Precursors identified by the Administrator for purposes of NSR are the following:

1. Volatile organic compounds and nitrogen oxides are precursors to ozone in all attainment and unclassifiable areas.

2 Sulfur dioxide is a precursor to $PM_{2.5}$ in all attainment and unclassifiable areas.

3. Nitrogen oxides are presumed to be precursors to $PM_{2.5}$ in all attainment and unclassifiable areas, unless the State demonstrates to the Administrator's satisfaction or EPA demonstrates that emissions of nitrogen oxides from sources in a specific area are not a significant contributor to that area's ambient $PM_{2.5}$ concentrations.

4. Volatile organic compounds are presumed not to be precursors to $PM_{2.5}$ in any attainment or unclassifiable area, unless the State demonstrates to the Administrator's satisfaction or EPA demonstrates that emissions of volatile organic compounds from sources in a specific area are a significant contributor to that area's ambient $PM_{2.5}$ concentrations.

(2) Any pollutant that is subject to any standard promulgated under section 111 of the Federal Clean Air Act;

(3) Any Class I or II substance subject to a standard promulgated under or established by Title VI of the Federal Clean Air Act; or

(4) Reserved

(5) Any pollutant that otherwise is subject to regulation under the Federal Clean Air Act; except that any or all hazardous air pollutants either listed in Section 112 of the Federal Clean Air Act or added to the list pursuant to Section 112(b)(2) of the Federal Clean Air Act, which have not been delisted pursuant to Section 112(b)(3) of the Federal Clean Air Act, are not regulated NSR pollutants unless the listed hazardous air pollutant is also regulated as a constituent or precursor of a general pollutant listed under Section 108 of the Federal Clean Air Act.

(vv) *Replacement unit* means an emissions unit for which all the criteria listed in Rule 18.2(vv)(1) through (4) below are met. No creditable emission reductions shall be generated from shutting down the existing emissions unit that is replaced.

(1) The emissions unit is a reconstructed unit within the meaning of 40 CFR §60.15(b)(1), or the emissions unit completely takes the place of an existing emissions unit.

(2) The emissions unit is identical to or functionally equivalent to the replaced emissions unit.

(3) The replacement does not alter the basic design parameters [as discussed in Rule 18.22] of the process unit.

(4) The replaced emissions unit is permanently removed from the major stationary source, otherwise permanently disabled, or permanently barred from operation by a permit that is enforceable as a practical matter. If the replaced emissions unit is brought back into operation, it shall constitute a new emissions unit.

(ww) *Repowering*

(1) Repowering means replacement of an existing coal-fired boiler with one (1) of the following clean coal technologies: atmospheric or pressurized fluidized bed combustion, integrated gasification combined cycle, magnetohydrodynamics, direct and indirect coal-fired turbines, integrated gasification fuel cells, or as determined by the U.S. EPA Administrator, in consultation with the Secretary of Energy, a derivative of one (1) or more of these technologies, and any other technology capable of controlling multiple combustion emissions simultaneously with improved boiler or generation efficiency and with significantly greater waste reduction relative to the performance of technology in widespread commercial use as of November 15, 1990.

(2) Repowering shall also include any oil and/or gas-fired unit which has been awarded clean coal technology demonstration funding as of January 1, 1991, by the Department of Energy.

(3) The Director shall give expedited consideration to permit applications for any source that satisfies the requirements of this subsection and is granted an extension under Section 409 of the Federal Clean Air Act.

(xx) *Reviewing authority* means the Chattanooga-Hamilton County Air Pollution Control Bureau.

(yy) *Secondary emissions* means emissions which would occur as a result of the construction or operation of a major stationary source or major modification, but do not come from the major stationary source or major modification itself. Secondary emissions include emissions from any offsite support facility which would not be constructed or increase its emissions except as a result of the construction or operation of the major stationary source or major modification. Secondary emissions do not include any emissions which come directly from a mobile source, such as emissions from the tailpipe of a motor vehicle, from a train, or from a vessel.

(1) Emissions from ships or trains coming to or from the new or modified stationary source; and

(2) Emissions from any offsite support facility which would not otherwise be constructed or increase its emissions as a result of the construction or operation of the major stationary source or major modification.

(zz) *Significant*

(1) Significant means, in reference to a net emissions increase or the potential of a source to emit any of the following pollutants, a rate of emissions that would equal or exceed any of the following rates:

Pollutant and Emissions Rate

Carbon monoxide: 100 tons per year (tpy)

Nitrogen oxides: 40 tpy

Sulfur dioxide: 40 tpy

Particulate matter: 25 tpy of particulate matter emissions

PM_{10}: 15 tpy

$PM_{2.5}$: 10 tpy of direct $PM_{2.5}$ emissions; 40 tpy of sulfur dioxide emissions; 40 tpy of nitrogen oxide emissions unless demonstrated not to be a $PM_{2.5}$ precursor under Rule 18.2(uu) of this section

Ozone: 40 tpy of volatile organic compounds or NO_X

Lead: 0.6 tpy

Fluorides: 3 tpy

Sulfuric acid mist: 7 tpy

Hydrogen sulfide (H2S): 10 tpy

Total reduced sulfur (including H2S): 10 tpy

Reduced sulfur compounds (including H2S): 10 tpy

Municipal waste combustor organics (measured as total tetra- through octa-chlorinated dibenzo-p-dioxins and dibenzofurans): 3.2×10^{-6} megagrams per year (3.5×10^{-6} tons per year)

Municipal waste combustor metals (measured as particulate matter): 14 megagrams per year (15 tons per year)

Municipal waste combustor acid gases (measured as sulfur dioxide and hydrogen chloride): 36 megagrams per year (40 tons per year)

Municipal solid waste landfills emissions (measured as nonmethane organic compounds): 45 megagrams per year (50 tons per year)

(2) Significant means, in reference to a net emissions increase or the potential of a source to emit a regulated NSR pollutant that Rule 18.2(zz)(1) does not list, any emissions rate.

(3) Notwithstanding Rule 18.2(zz)(1), significant means any emissions rate or any net emissions increase associated with a major stationary source or major modification, which would construct within ten (10) kilometers of a Class I area, and have an impact on such area equal to or greater than 1 $\mu g/m^3$, (twenty-four (24) hour average).

(aaa) *Significant emissions increase* means, for a regulated NSR pollutant, an increase in emissions that is significant [as defined in Rule 18.2(zz)] for that pollutant.

(bbb) *Stationary source* means any building, structure, facility, or installation which emits or may emit a regulated NSR pollutant.

(ccc) *Temporary clean coal technology demonstration project* means a clean coal technology demonstration project that is operated for a period of five (5) years or less, and which complies with the local portion of the State Implementation Plans for the State in which the project is located and other requirements necessary to attain and maintain the national ambient air quality standards during the project and after it is terminated.

(ddd) (Reserved)

(eee) *Volatile organic compounds (VOC)* is as defined in section 4-2 of this chapter.

Rule 18.3. Ambient air increments. In areas designated as Class I, II or III, increases in pollutant concentration over the baseline concentration shall be limited to the following:

Pollutant	*Maximum Allowable Increase (micrograms per cubic meter)*
Class I Areas	
Particulate matter-$PM_{2.5}$	
Annual arithmetic mean	1
24-hr maximum	2
Particulate matter-PM_{10}	
Annual arithmetic mean	4
24-hr maximum	8
Sulfur dioxide	
Annual arithmetic mean	2

Pollutant	*Maximum Allowable Increase (micrograms per cubic meter)*
24-hr maximum	5
3-hr maximum	25
Nitrogen dioxide	
Annual arithmetic mean	2.5
Class II Areas	
Particulate Matter-$PM_{2.5}$	
Annual arithmetic mean	4
24-hr maximum	9
Particulate Matter-PM_{10}	
Annual arithmetic mean	17
24-hr maximum	30
Sulfur dioxide	
Annual arithmetic mean	20
24-hr maximum	91
3-hr maximum	512
Nitrogen dioxide	
Annual arithmetic mean	25
Class III Areas	
Particulate Matter-$PM_{2.5}$	
Annual arithmetic mean	8
24-hr maximum	18
Particulate Matter-PM_{10}	
Annual arithmetic mean	34
24-hr maximum	60
Sulfur dioxide	
Annual arithmetic mean	40
24-hr maximum	182
3-hr maximum	700
Nitrogen dioxide	
Annual arithmetic mean	50

For any period other than an annual period, the applicable maximum allowable increase may be exceeded during one (1) such period per year at any one (1) location.

For the purposes of this Rule, the following classifications shall apply:

Area Classification	*Designated Area*
Class I Areas	Great Smoky Mountains National Park
	Joyce Kilmer Slickrock National Wilderness Area
	Cohutta Wilderness Area
Class II Areas	Remainder of State
Class III Areas	None

Rule 18.4. Ambient air ceilings. No concentration of a pollutant shall exceed:

(a) The concentration permitted under the national secondary ambient air quality standard, or

(b) The concentration permitted under the national primary ambient air quality standard, whichever concentration is lowest for the pollutant for a period of exposure.

Rule 18.5. Restrictions on area classifications.

(a) All of the following areas which were in existence on August 7, 1977, shall be Class I areas and may not be redesignated:

(1) International parks,

(2) National wilderness areas which exceed 5,000 acres in size,

(3) National memorial parks which exceed 5,000 acres in size, and

(4) National parks which exceed 6,000 acres in size.

(b) Areas which were redesignated as Class I under regulations promulgated before August 7, 1977, shall remain Class I, but may be redesignated as provided in this Rule.

(c) Any other area, unless otherwise specified in the legislation creating such an area, is initially designated Class II, but may be redesignated as provided in this Rule.

(d) The following areas may be redesignated only as Class I or II:

(1) An area which as of August 7, 1977, exceeded 10,000 acres in size and was a national monument, a national primitive area, a national preserve, a national recreational area, a national wild and scenic river, a national wildlife refuge, a national lakeshore or seashore; and

(2) A national park or national wilderness area established after August 7, 1977, which exceeds ten thousand (10,000) acres in size.

Rule 18.6. (Reserved)

Rule 18.7. Stack heights.

(a) The degree of emission limitation required for control of any air pollutant under this Rule shall not be affected in any manner by:

(1) So much of the stack height of any source as exceeds good engineering practice, or

(2) Any other dispersion technique.

(b) Rule 18.7 shall not apply with respect to stack heights in existence before December 31, 1970, or to dispersion techniques implemented before then.

Rule 18.8. Exemptions.

(a) The requirements of Rules 18.9 through 18.17 shall not apply to a particular major stationary source or major modification, if:

(1) (Reserved)

(2) (Reserved)

(3) (Reserved)

(4) (Reserved)

(5) (Reserved)

(6) The source or modification would be a nonprofit health or nonprofit educational institution, or a major modification would occur at such an institution, and the governor of the state in which the source or modification would be located requests that it be exempt from those requirements; or

(7) The source or modification would be a major stationary source or major modification only if fugitive emissions, to the extent quantifiable, are considered in calculating the potential to emit of the stationary source or modification and the source does not belong to any of the following categories:

a. Coal cleaning plants (with thermal dryers);

b. Kraft pulp mills;

c. Portland cement plants;

d. Primary zinc smelters;

e. Iron and steel mills;

f. Primary aluminum ore reduction plants;

g. Primary copper smelters;

h. Municipal incinerators capable of charging more than fifty (50) tons of refuse per day;

i. Hydrofluoric, sulfuric, or nitric acid plants;

j. Petroleum refineries;

k. Lime plants;

l. Phosphate rock processing plants;

m. Coke oven batteries;

n. Sulfur recovery plants;

o. Carbon black plants (furnace process);

p. Primary lead smelters;

q. Fuel conversion plants;

r. Sintering plants;

s. Secondary metal production plants;

t. Chemical process plants;

u. Fossil-fuel boilers (or combination thereof) totaling more than two hundred fifty million (250,000,000) British thermal units per hour heat input;

v. Petroleum storage and transfer units with a total storage capacity exceeding three hundred thousand (300,000) barrels;

w. Taconite ore processing plants;

x. Glass fiber processing plants;

y. Charcoal production plants;

z. Fossil fuel-fired steam electric plants of more than two hundred fifty million (250,000,000) British thermal units per hour heat input;

aa. Any other stationary source category which, as of August 7, 1980, is being regulated under Sections 111 or 112 of the Federal Clean Air Act; or

(8) The source is a portable stationary source which has previously received a permit under this Rule, and

a. The owner or operator proposes to relocate the source and emissions of the source at the new location would be temporary; and

b. The emissions from the source would not exceed its allowable emissions; and

c. The emissions from the source would impact no Class I area and no area where an applicable increment is known to be violated; and

d. Reasonable notice is given to the Director prior to the relocation identifying the proposed new location and the probable duration of operation at the new location. Such notice shall be given to the Director not less than ten (10) days in advance of the proposed relocation unless a different time duration is previously approved by the Director.

(9) (Reserved)

(10) (Reserved).

(b) The requirements of Rules 18.9 through 18.17 shall not apply to a major stationary source or major modification with respect to a particular pollutant if the owner or operator demonstrates that, as to that pollutant, the source or modification is located in an area designated as nonattainment under Section 107 of the Federal Clean Air Act.

(c) The requirements of Rules 18.10, 18.12 and 18.14 shall not apply to a major stationary source or major modification with respect to a particular pollutant, if the allowable emissions of that pollutant from the source, or the net emissions increase of that pollutant from the modification:

(1) Would impact no Class I area and no area where an applicable increment is known to be violated, and

(2) Would be temporary.

(d) The requirements of Rules 18.10, 18.12 and 18.14 as they relate to any maximum allowable increase for a Class II area shall not apply to a major modification at a stationary source that was in existence on March 1, 1978, if the net increase in allowable emissions of each regulated NSR pollutant from the modification after the application of best available control technology would be less than fifty (50) tons per year.

(e) The Director may exempt a stationary source or modification from the requirements of Rule 18.12, with respect to monitoring for a particular pollutant if:

(1) The emissions increase of the pollutant from the new source or the net emissions increase of the pollutant from the modification would cause, in any area, air quality impacts less than the following amounts:

Carbon monoxide . . . . . 575 $\mu g/m^3$, 8-hour average;

Nitrogen dioxide . . . . . 14 $\mu g/m^3$, annual average;

Particulate matter . . . . . 10 $\mu g/m^3$ of PM_{10}, 24-hour average;

Sulfur dioxide . . . . . 13 $\mu g/m^3$, 24-hour average;

Lead . . . . . 0.1 $\mu g/m^3$, 3-month average;

Fluorides . . . . . 0.25 μg/m^3, 24-hour average;

Total reduced sulfur . . . . . 10 μg/m^3, 1-hour average;

Hydrogen sulfide . . . . . 0.2 μg/m^3, 1-hour average;

Reduced sulfur compounds . . . . . 10 μg/m^3, 1-hour average;

Ozone ..... No de minimis air quality level is provided for ozone. However, any net increase of one hundred (100) tons per year or more of volatile organic compounds or nitrogen oxides subject to PSD would be required to perform an ambient impact analysis including the gathering of ambient air quality data); or

(2) The concentrations of the pollutant in the area that the source or modification would affect are less than the concentrations in Rule 18.8 (e)(1) above, or the pollutant is not listed in Rule 18.8 (e)(1) above.

(f) (Reserved)

(g) (Reserved)

(h) (Reserved)

(i) (Reserved)

(j) (Reserved)

(k) The requirements of Rule 18.10(b) shall not apply to a stationary source or modification with respect to any maximum allowable increase for nitrogen oxides if the owner or operator of the source or modification submitted an application for a permit under this Rule before the provisions embodying the maximum allowable increase took effect as part of the applicable implementation plan and the Director subsequently determined that the application as submitted before that date was complete.

(l) The requirements in Rule 18.10(b) shall not apply to a stationary source or modification with respect to any maximum allowable increase for PM_{10} if (i) the owner or operator of the source or modification submitted an application for a permit under this Rule before the provisions embodying the maximum allowable increases for PM_{10} took effect in an implementation plan to which this Rule applies, and (ii) the Director subsequently determined that the application as submitted before that date was otherwise complete. Instead, the requirements of Rule 18.10(b) shall apply with respect to the maximum allowable increases for TSP as in effect on the date the application was submitted.

Rule 18.9. Control technology review.

(a) A major stationary source or major modification shall meet each applicable emissions limitation under the local portion of the State Implementation Plan and each applicable emissions standard and standard of performance under 40 CFR Parts 60 and 61.

(b) A new major stationary source shall apply best available control technology for each regulated NSR pollutant that it would have the potential to emit in significant amounts.

(c) A major modification shall apply best available control technology for each regulated NSR pollutant for which it would result in a significant net emissions increase at the source. This

requirement applies to each proposed emissions unit at which a net emissions increase in the pollutant would occur as a result of a physical change or change in the method of operation in the unit.

(d) For phased construction projects, the determination of best available control technology shall be reviewed and modified as appropriate at the latest reasonable time which occurs no later than eighteen (18) months prior to commencement of construction of each independent phase of the project. At such time, the owner or operator of the applicable stationary source may be required to demonstrate the adequacy of any previous determination of best available control technology for the source.

Rule 18.10. Source impact analysis. The owner or operator of the proposed source or modification shall demonstrate that allowable emission increases from the proposed source or modification, in conjunction with all other applicable emissions increases or reductions (including secondary emissions), would not cause or contribute to air pollution in violation of:

(a) Any national ambient air quality standard in any air quality control region; or

(b) Any applicable maximum allowable increase over the baseline concentration in any area.

Rule 18.11. Air quality models.

(a) All estimates of ambient concentrations required under this Rule shall be based on applicable air quality models, data bases, and other requirements specified in appendix W of 40 CFR Part 51 (Guideline on Air Quality Models).

(b) Where an air quality model specified in appendix W of 40 CFR Part 51 (Guideline on Air Quality Models) is inappropriate, the model may be modified or another model substituted. Such a modification or substitution of a model may be made on a case-by-case basis or, where appropriate, on a generic basis for a specific state program. Written approval of the U.S. EPA Administrator must be obtained for any modification or substitution. In addition, use of a modified or substituted model must be subject to notice and opportunity for public comment under procedures developed in accordance with Rule 18.16.

Rule 18.12. Air quality analysis.

(a) Preapplication analysis.

(1) Any application for a permit under this Rule shall contain an analysis of ambient air quality in the area that the major stationary source or major modification would affect for each of the following pollutants:

a. For the source, each pollutant that it would have the potential to emit in a significant amount;

b. For the modification, each pollutant for which it would result in a significant net emissions increase.

(2) With respect to any such pollutant for which no National Ambient Air Quality Standard exists, the analysis shall contain such air quality monitoring data as the Director determines is necessary to assess ambient air quality for that pollutant in any area that the emissions of that pollutant would affect.

(3) With respect to any such pollutant (other than nonmethane hydrocarbons) for which such a standard does exist, the analysis shall contain continuous air quality monitoring data gathered for purposes of determining whether emissions of that pollutant would cause or contribute to a violation of the standard or any maximum allowable increase.

(4) In general, the continuous air quality monitoring data that is required shall have been gathered over a period of at least one (1) year and shall represent at least the year preceding receipt of the application, except that, if the Director determines that a complete and adequate analysis can be accomplished with monitoring data gathered over a period shorter than one (1) year (but not to be less than four (4) months), the data that is required shall have been gathered over at least that shorter period.

(5) (Reserved)

(6) The owner or operator of a proposed stationary source or modification of volatile organic compounds who satisfies all conditions of 40 CFR Part 51 Appendix S, Section IV may provide post-approval monitoring data for ozone in lieu of providing preconstruction data as required under Rule 18.12 (a).

(7) (Reserved)

(8) With respect to any requirements for air quality monitoring of PM_{10} the owner or operator of the source or modification shall use a monitoring method approved by the Director and shall estimate the ambient concentrations of PM_{10} using the data collected by such approved monitoring method in accordance with estimating procedures approved by the Director.

(b) Post-construction monitoring. The owner or operator of a major stationary source or major modification shall, after construction of the stationary source or modification, conduct such ambient monitoring as the Director determines is necessary to determine the effect emissions from the stationary source or modification may have, or are having, on air quality in any area.

(c) Operations of monitoring stations. The owner or operator of a major stationary source or major modification shall meet the requirements of Appendix B to 40 CFR Part 58 during the operation of monitoring stations for purposes of satisfying Rule 18.12.

Rule 18.13. Source information. The owner or operator of a proposed source or modification shall submit all information necessary to perform any analysis or make any determination required under this Rule.

(a) With respect to a source or modification to which Rules 18.9, 18.11, 18.13 and 18.15 apply, such information shall include:

(1) A description of the nature, location, design capacity, and typical operating schedule of the source or modification, including specifications and drawings showing its design and plant layout;

(2) A detailed schedule for construction of the source or modification;

(3) A detailed description as to what system of continuous emission reduction is planned for the source or modification, emission estimates, and any other information necessary to determine that best available control technology would be applied.

(b) Upon request of the Director, the owner or operator shall also provide information on:

(1) The air quality impact of the source or modification, including meteorological and topographical data necessary to estimate such impact; and

(2) The air quality impacts, and the nature and extent of any or all general commercial, residential, industrial, and other growth which has occurred since August 7, 1977, in the area the source or modification would affect.

Rule 18.14. Additional impact analyses.

(a) The owner or operator shall provide an analysis of the impairment to visibility, soils and vegetation that would occur as a result of the source or modification and general commercial,

residential, industrial and other growth associated with the source or modification. The owner or operator need not provide an analysis of the impact on vegetation having no significant commercial or recreational value.

(b) The owner or operator shall provide an analysis of the air quality impact projected for the area as a result of general commercial, residential, industrial and other growth associated with the source or modification.

(c) Visibility monitoring. The Director may require monitoring of visibility in any Federal Class I area near the proposed new stationary source for major modification for such purposes and by such means as the Director deems necessary and appropriate.

Rule 18.15. Sources impacting Federal Class I areas - additional requirements

(a) *Notice to EPA.* The Director shall transmit to the EPA Region 4 Administrator a copy of each permit application relating to a major stationary source or major modification and provide notice to the EPA Region 4 Administrator of every action related to the consideration of such permit.

(b) *Notice to Federal Land Managers.* The Director shall provide written notice of any permit application for a proposed major stationary source or major modification, the emissions from which may affect a Class I area, to the Federal Land Manager and the Federal official charged with direct responsibility for management of any lands within any such area. Such notification shall include a copy of all information relevant to the permit application and shall be given within thirty (30) days of receipt and at least sixty (60) days prior to any public hearing on the application for a permit to construct. Such notification shall include an analysis of the proposed source's anticipated impacts on visibility in the Federal Class I area. The Director shall also provide the Federal Land Manager and such Federal officials with a copy of the preliminary determination required under Rule 18.16, and shall make available to them any materials used in making that determination, promptly after the Director makes such determination. Finally, the Director shall also notify all affected Federal Land Managers within thirty (30) days of receipt of any advance notification of any such permit application.

(c) *Federal Land Manager.* The Federal Land Manager and the Federal official charged with direct responsibility for management of such lands have an affirmative responsibility to protect the air quality related values (including visibility) of such lands and to consider, in consultation with the Director, whether a proposed source or modification will have an adverse impact on such values.

(d) *Visibility analysis.* The Director shall consider any analysis performed by the Federal Land Manager, provided within thirty (30) days of the notification required by Rule 18.15(b), that shows that a proposed new major stationary source or major modification may have an adverse impact on visibility in any Federal Class I area. Where the Director finds that such an analysis does not demonstrate to the satisfaction of the Director that an adverse impact on visibility will result in the Federal Class I area, the Director must, in the notice of public hearing on the permit application, either explain his decision or give notice as to where the explanation can be obtained.

(e) *Denial—impact on air quality related values.* The Federal Land Manager of any such lands may demonstrate to the Director that the emissions from a proposed source or modification would have an adverse impact on the air quality-related values (including visibility) of those lands, notwithstanding that the change in air quality resulting from emissions from such source or modification would not cause or contribute to concentrations which would exceed the maximum allowable increases for a Class I area. If the Director concurs with such demonstration, then he shall not issue the permit.

(f) *Class I variances.* The owner or operator of a proposed source or modification may demonstrate to the Federal Land Manager that the emissions from such source or modification would have no

adverse impact on the air quality related values of any such lands (including visibility), notwithstanding that the change in air quality resulting from emissions from such source or modification would cause or contribute to concentrations which would exceed the maximum allowable increases for a Class I area. If the Federal Land Manager concurs with such demonstration and he so certifies, the Director may: Provided, That the applicable requirements of this Rule are otherwise met, issue the permit with such emission limitations as may be necessary to assure that emissions of sulfur dioxide, particulate matter, and nitrogen oxides would not exceed the following maximum allowable increases over minor source baseline concentration for such pollutants:

Pollutant	*Maximum Allowable Increase (micrograms per cubic meter)*
Particulate matter-$PM_{2.5}$	
Annual arithmetic mean	4
24-hr maximum	9
Particulate matter-PM_{10}	
Annual arithmetic mean	17
24-hr maximum	30
Sulfur dioxide	
Annual arithmetic mean	20
24-hr maximum	91
3-hr maximum	325
Nitrogen dioxide	
Annual arithmetic mean	25

(g) *Sulfur dioxide variance by Governor with Federal Land Manager's concurrence.* The owner or operator of a proposed source or modification which cannot be approved under Rule 18.15(f) may demonstrate to the Governor that the source cannot be constructed by reason of any maximum allowable increase for sulfur dioxide for a period of twenty-four (24) hours or less applicable to any Class I area and, in the case of Federal mandatory Class I areas, that a variance under this clause would not adversely affect the air quality related values of the area (including visibility). The Governor, after consideration of the Federal Land Manager's recommendation (if any) and subject to his concurrence, may, after notice and public hearing, grant a variance from such maximum allowable increase. If such variance is granted, the Director shall issue a permit to such source or modification pursuant to Rule 18.15(i), provided that the applicable requirements of this Rule are otherwise met.

(h) *Variance by the Governor with the President's concurrence.* In any case where the Governor recommends a variance in which the Federal Land Manager does not concur, the recommendations of the Governor and the Federal Land Manager shall be transmitted to the President. The President may approve the Governor's recommendation if he finds that the variance is in the national interest. If the variance is approved, the Director shall issue a permit pursuant to the requirements of Rule 18.15(i), provided that the applicable requirements of this Rule are otherwise met.

(i) *Emission limitations for Presidential or gubernatorial variance.* In the case of a permit issued pursuant to Rules 18.15(g) or (h), the source or modification shall comply with such emission limitations as may be necessary to assure that emissions of sulfur dioxide from the source or modification would not (during any day on which the otherwise applicable maximum allowable increases are exceeded) cause or contribute to concentrations which would exceed the following

maximum allowable increases over the baseline concentration and to assure that such emissions would not cause or contribute to concentrations which exceed the otherwise applicable maximum allowable increases for periods of exposure of twenty-four (24) hours or less for more than eighteen (18) days, not necessarily consecutive, during any annual period:

Period of Exposure	*Maximum Allowable Increase (micrograms per cubic meter)*	
	Terrain Areas	
	Low	*High*
24-hr maximum	36	62
3-hr maximum	130	221

Rule 18.16. Public participation.

(a) The Director shall notify any applicant under the PSD rule within thirty (30) days after receipt of an application as to the completeness or any deficiency in the application or information submitted. In the event of such a deficiency, the date of receipt of the application shall be the date on which the Director received all required information.

(b) Within one year after receipt of a complete application, the Director shall:

(1) Make a preliminary determination whether construction should be approved, approved with conditions, or disapproved.

(2) Make available in at least one location in the jurisdiction of the permitting authority a copy of all materials the applicant submitted, a copy of the preliminary determination, and a copy or summary of other materials, if any, considered in making the preliminary determination.

(3) Notify the public, by publication as an electronic notice (e-notice) on the Bureau website for the duration of the public comment period and by other means designated by the Director, if necessary, of the preliminary determination, the degree of increment consumption that is expected from the source or modification, and the opportunity for comment at a public hearing as well as through written public comment. The notice shall include the draft permit, information on how to access the administrative record for the draft permit, and information on how to request and/or attend a public hearing on the draft permit.

(4) Send a copy of the notice of public comment to the applicant, the U.S. EPA Administrator, the State of Tennessee, the State of Alabama, the State of Georgia, the chief executives of the city and county where the source would be located; the regional land use planning agency, and any State, Federal Land Manager, or Indian Governing body whose lands may be affected by emissions from the source or modification.

(5) Provide opportunity for a public hearing for interested persons to appear and submit written or oral comments on the air quality impact of the source, alternatives to it, the control technology required, and other appropriate considerations.

(6) Consider all written comments submitted within a time specified in the notice of public comment and all comments received at any public hearing(s) in making a final decision on the approvability of the application. The director shall make all comments available for public inspection at the same location where preconstruction information relating to the proposed source or modification was available.

(7) Make a final determination whether construction should be approved, approved with conditions, or disapproved.

(8) Notify the applicant in writing of the final determination and make such notification available for public inspection at the same location where the reviewing authority made available preconstruction information and public comments relating to the source.

Rule 18.17. Source obligation.

(a) Any owner or operator who constructs or operates a source or modification not in accordance with the application submitted pursuant to this Rule or with the terms of any approval to construct, or any owner or operator of a source or modification subject to this Rule who commences construction after the effective date of these regulations without applying for and receiving approval hereunder, shall be subject to appropriate enforcement action.

(b) Approval to construct shall become invalid if construction is not commenced within eighteen (18) months after receipt of such approval, if construction is discontinued for a period of eighteen (18) months or more, or if construction is not completed within a reasonable time. The Director may extend the eighteen (18) month period upon a satisfactory showing that an extension is justified. This provision does not apply to the time period between construction of the approved phases of a phased construction project; each phase must commence construction within eighteen (18) months of the projected and approved commencement date.

(c) Approval to construct shall not relieve any owner or operator of the responsibility to comply fully with applicable provisions of the local portion of the State Implementation Plan and any other requirements under local, State, or Federal law.

(d) At such time that a particular source or modification becomes a major stationary source or major modification solely by virtue of a relaxation in any enforceable limitation which was established after August 7, 1980, on the capacity of the source or modification otherwise to emit a pollutant, such as a restriction on hours of operation, then the requirements Rule 18.9 through 8.18 shall apply to the source or modification as though construction had not yet commenced on the source or modification.

(e) (Reserved)

(f) The provisions of this Rule 18.17(f) apply to projects at an existing emissions unit at a major stationary source (other than at a source with a plantwide applicability limitation (PAL)) in circumstances where there is a reasonable possibility, within the meaning of Rule 18.17(f)(6), that a project that is not a part of a major modification may result in a significant emissions increase of such pollutant, and the owner or operator elects to use the method specified in Rule 18.2(rr)(2)a. through (rr)(2)c. for calculating projected actual emissions.

(1) Before beginning actual construction of the project, the owner or operator shall document and maintain a record of the following information:

a. A description of the project;

b. Identification of the emissions unit(s) whose emissions of a regulated NSR pollutant could be affected by the project; and

c. A description of the applicability test used to determine that the project is not a major modification for any regulated NSR pollutant, including the baseline actual emissions, the projected actual emissions, the amount of emissions excluded under Rule 18.2(rr)(2)c. and an explanation for why such amount was excluded, and any netting calculations, if applicable.

(2) If the emissions unit is an existing electric utility steam generating unit, before beginning actual construction, the owner or operator shall provide a copy of the information set out in Rule 18.17(f)(1) to the Director. Nothing in this Rule 18.17(f)(2) shall be construed to

require the owner or operator of such a unit to obtain any determination from the Director before beginning actual construction. However the source remains subject to Section 4-58 of this chapter requiring the appropriate modification of the Part 70 operating permit.

(3) The owner or operator shall monitor the emissions of any regulated NSR pollutant that could increase as a result of the project and that is emitted by any emissions unit identified in Rule 18.17(f)(1)b.; and calculate and maintain a record of the annual emissions, in tons per year on a calendar year basis, for a period of five (5) years following resumption of regular operations after the change, or for a period of ten (10) years following resumption of regular operations after the change if the project increases the design capacity of or potential to emit that regulated NSR pollutant at such emissions unit.

(4) If the unit is an existing electric utility steam generating unit, the owner or operator shall submit a report to the Director within sixty (60) days after the end of each year during which records must be generated under Rule 18.17(f)(3) setting out the unit's annual emissions during the calendar year that preceded submission of the report.

(5) If the unit is an existing unit other than an electric utility steam generating unit, the owner or operator shall submit a report to the Director if the annual emissions, in tons per year, from the project identified in Rule 18.17(f)(1), exceed the baseline actual emissions (as documented and maintained pursuant to Rule 18.17(f)(1)c.), by a significant amount [as defined in Rule 18.2(zz)] for that regulated NSR pollutant, and if such emissions differ from the preconstruction projection as documented and maintained pursuant to Rule 18.17(f)(1)c. Such report shall be submitted to the Director within sixty (60) days after the end of such year. The report shall contain the following:

a. The name, address and telephone number of the major stationary source;

b. The annual emissions as calculated pursuant to Rule 18.17(f)(3) and

c. Any other information that the owner or operator wishes to include in the report (e.g., an explanation as to why the emissions differ from the preconstruction projection).

(6) A "reasonable possibility" under this Rule 18.17(f) occurs when the owner or operator calculates the project to result in either:

a. A projected actual emissions increase of at least 50 percent of the amount that is a "significant emissions increase," as defined under Rule 18.2(aaa) (without reference to the amount that is a significant net emissions increase), for the regulated NSR pollutant; or

b. A projected actual emissions increase that, added to the amount of emissions excluded under Rule 18.2(rr)(2)c, sums to at least fifty (50) percent of the amount that is a "significant emissions increase," as defined under Rule 18.2(aaa) (without reference to the amount that is a significant net emissions increase), for the regulated NSR pollutant. For a project for which a reasonable possibility occurs only within the meaning of Rule 18.17(f)(6)b., and not also within the meaning of Rule 18.17(f)(6)a., then provisions in Rule 18.17(f)(2) through (5) do not apply to the project.

(g) The owner or operator of the source shall make the information required to be documented and maintained pursuant to Rule 18.17(f) available for review upon a request for inspection by the Director or the general public pursuant to the requirements contained in forty (40) CFR §70.4(b)(3)(viii).

Rule 18.18. Environmental impact statements. Whenever any proposed source or modification is subject to action by a Federal Agency which might necessitate preparation of an environmental impact statement

pursuant to the National Environmental Policy Act (42 U.S.C. §4321), review by the Director conducted pursuant to this Rule shall be coordinated with the broad environmental reviews under that Act and under Section 309 of the Federal Clean Air Act to the maximum extent feasible and reasonable.

Rule 18.19. Innovative control technology.

(a) An owner or operator of a proposed major stationary source or major modification may request the Director in writing no later than the close of the comment period under Rule 18.16 to approve a system of innovative control technology.

(b) The Director with the consent of the governor(s) of the affected state(s) may determine that the source or modification may employ a system of innovative control technology, if:

(1) The proposed control system would not cause or contribute to an unreasonable risk to public health, welfare, or safety in its operation or function;

(2) The owner or operator agrees to achieve a level of continuous emissions reduction equivalent to that which would have been required under Rule 18.9(b) by a date specified by the Director. Such date shall not be later than four (4) years from the time of startup or seven (7) years from permit issuance;

(3) The source or modification would meet the requirements of Rule 18.9 and 18.10 based on the emissions rate that the stationary source employing the system of innovative control technology would be required to meet on the date specified by the Director;

(4) The source or modification would not before the date specified by the Director:

a. Cause or contribute to a violation of an applicable national ambient air quality standard; or

b. Impact any area where an applicable increment is known to be violated; and

(5) All other applicable requirements including those for public participation have been met.

(6) The provisions of Rule 18.15 (relating to Class I areas) have been satisfied with respect to all periods during the life of the source or modification.

(c) The Director shall withdraw any approval to employ a system of innovative control technology made under this Rule, if:

(1) The proposed system fails by the specified date to achieve the required continuous emissions reduction rate; or

(2) The proposed system fails before the specified date so as to contribute to an unreasonable risk to public health, welfare, or safety; or

(3) The Director decides at any time that the proposed system is unlikely to achieve the required level of control or to protect the public health, welfare, or safety.

(d) If a source or modification fails to meet the required level of continuous emission reduction within the specified time period or the approval is withdrawn in accordance with Rule 18.19(c), the Director may allow the source or modification up to an additional three (3) years to meet the requirement for the application of best available control technology through use of a demonstrated system of control.

Rule 18.20. Permit rescission.

(a) Any permit issued pursuant to this rule or a prior version of this rule shall remain in effect, unless and until it expires or is rescinded.

(b) Any owner or operator of a stationary source or modification who holds a permit for the source or modification which was issued pursuant to this Rule as in effect on July 30, 1987, or any earlier version, may request that the Director rescind the permit or a particular portion of the permit.

(c) The Director shall grant an application for rescission if the application shows that this Rule would not apply to the source or modification.

(d) If the Director rescinds a permit under this Rule, the public shall be given adequate notice of the rescission. Publication of an announcement of rescission as an electronic notice (e-notice) on the Bureau website for a period of sixty (60) days prior to the rescission and by other means designated by the Director, if necessary, shall be considered adequate notice.

Rule 18.21. Actuals Plantwide Applicability Limitations (PALs). The provisions in Rule 18.21(a) through (o) shall govern actuals Plantwide Applicability imitations (PALs):

(a) *Applicability.*

(1) The Director may approve the use of an actuals plantwide applicability limitation (PAL)for any existing major stationary source if the PAL meets the requirements of Rule 18.21. The term "PAL" shall mean "actuals PAL" [as defined in Rule 18.21(b)(1)] throughout Rule 18.21.

(2) Any physical change in or change in the method of operation of a major stationary source that maintains its total source-wide emissions below the plantwide applicability limitation (PAL) level, meets the requirements in Rule 18.21, and complies with the PAL permit:

a. Is not a major modification for the plantwide applicability limitation (PAL) pollutant;

b. Does not have to be approved through the PSD program; and

c. Is not subject to the provisions in Rule18.17(d) (restrictions on relaxing enforceable emission limitations that the major stationary source used to avoid applicability of the major New Source Review program).

(3) Except as provided under Rule 18.21(a)(2)c., a major stationary source shall continue to comply with all applicable local, state, or federal requirements, emission limitations, and work practice requirements that were established prior to the effective date of the plantwide applicability limitation (PAL).

(b) *Definitions.* For the purposes of Rule 18.21, the definitions in this Rule 18.21apply. When a term is not defined in this rule, it shall have the meaning given in Rule 18.2 or in the Federal Clean Air Act.

(1) *Actuals PAL* for a major stationary source means a plantwide applicability limitation (PAL) based on the baseline actual emissions [as defined in Rule 18.2(d)] of all emissions units [as defined in Rule 18.2(t)] that emit or have the potential to emit the PAL pollutant.

(2) *Allowable emissions* means "allowable emissions" as defined in Rule 18.2(c), except as this definition is modified according to Rule 18.21(b)(2)a. and b. below:

a. The allowable emissions for any emissions unit shall be calculated considering any emission limitations that are enforceable as a practical matter on the emissions unit's potential to emit.

b. An emissions unit's potential to emit shall be determined using the definition in Rule 18.2(mm), except that the words "or enforceable as a practical matter" should be added after "federally enforceable."

(3) *Small emissions unit* means an emissions unit that emits or has the potential to emit the plantwide applicability limitation (PAL) pollutant in an amount less than the significant level for that PAL pollutant, as defined in Rule 18.2(zz) or in the Federal Clean Air Act, whichever is lower.

(4) *Major emissions unit* means:

a. Any emissions unit that emits or has the potential to emit 100 tons per year or more of the plantwide applicability limitation (PAL) pollutant in an attainment area; or

b. Any emissions unit that emits or has the potential to emit the PAL pollutant in an amount that is equal to or greater than the major source threshold for the PAL pollutant as defined by the Federal Clean Air Act for nonattainment areas. For example, in accordance with the definition of major stationary source in Section 182(c) of the Federal Clean Air Act, an emissions unit would be a major emissions unit for VOC if the emissions unit is located in a serious ozone nonattainment area and it emits or has the potential to emit fifty (50) or more tons of VOC per year.

(5) *Plantwide applicability limitation (PAL)* means an emission limitation expressed in tons per year, for a pollutant at a major stationary source, that is enforceable as a practical matter and established source-wide in accordance with Rule 18.21.

(6) *PAL effective date* generally means the date of issuance of the plantwide applicability limitation (PAL) permit. However, the PAL effective date for an increased PAL is the date any emissions unit that is part of the plantwide applicability limitation (PAL) major modification becomes operational and begins to emit the PAL pollutant.

(7) *PAL effective period* means the period beginning with the plantwide applicability limitation (PAL) effective date and ending ten (10) years later.

(8) *PAL major modification* means, notwithstanding Rule 18.2(ff) and (jj) (the definitions for major modification and net emissions increase), any physical change in or change in the method of operation of the plantwide applicability limitation (PAL) source that causes it to emit the PAL pollutant at a level equal to or greater than the PAL.

(9) *PAL permit* means the major New Source Review permit, the minor New Source Review permit, or the State or local operating permit under a program that is approved into the local portion of the State Implementation Plan, or the Part 70 operating permit issued by the Director that establishes a plantwide applicability limitation (PAL) for a major stationary source.

(10) *PAL pollutant* means the pollutant for which a plantwide applicability limitation (PAL) is established at a major stationary source.

(11) *Significant emissions unit* means an emissions unit that emits or has the potential to emit a PAL pollutant in an amount that is equal to or greater than the significant level (as defined in Rule 18.2(zz) or in the Federal Clean Air Act, whichever is lower) for that PAL pollutant, but less than the amount that would qualify the unit as a major emissions unit as defined in Rule 18.21(b)(4).

(c) *Permit application requirements.* As part of a permit application requesting a plantwide applicability limitation (PAL), the owner or operator of a major stationary source shall submit the following information to the Director for approval:

(1) A list of all emissions units at the source designated as small, significant or major based on their potential to emit. In addition, the owner or operator of the source shall indicate which, if any, local, state, or federal applicable requirements, emission limitations, or work practices apply to each unit.

(2) Calculations of the baseline actual emissions (with supporting documentation). Baseline actual emissions are to include emissions associated not only with operation of the unit, but also emissions associated with startup, shutdown, and malfunction.

(3) The calculation procedures that the major stationary source owner or operator proposes to use to convert the monitoring system data to monthly emissions and annual emissions based on a twelve (12) month rolling total for each month as required by Rule 18.21(m)(1).

(d) *General requirements for establishing plantwide applicability limitations (PALs).*

(1) The Director is allowed to establish a plantwide applicability limitation (PAL) at a major stationary source, provided that at a minimum, the requirements Rule 18.21 are met.

a. The plantwide applicability limitation (PAL) shall impose an annual emission limitation in tons per year that is enforceable as a practical matter, for the entire major stationary source. For each month during the PAL effective period after the first twelve (12) months of establishing a PAL, the major stationary source owner or operator shall show that the sum of the monthly emissions from each emissions unit under the PAL for the previous twelve (12) consecutive months is less than the PAL (a twelve (12) month average, rolled monthly). For each month during the first eleven (11) months from the PAL effective date, the major stationary source owner or operator shall show that the sum of the preceding monthly emissions from the PAL effective date for each emissions unit under the PAL is less than the PAL.

b. The PAL shall be established in a PAL permit that meets the public participation requirements in Rule 18.21(e).

c. The PAL permit shall contain all the requirements in Rule 18.21(g).

d. The PAL shall include fugitive emissions, to the extent quantifiable, from all emissions units that emit or have the potential to emit the PAL pollutant at the major stationary source.

e. Each PAL shall regulate emissions of only one (1) pollutant.

f. Each PAL shall have a PAL effective period of ten (10) years.

g. The owner or operator of the major stationary source with a PAL shall comply with the monitoring, recordkeeping, and reporting requirements provided in Rule 18.21(l), (m), and (n) for each emissions unit under the PAL through the PAL effective period.

(2) At no time (during or after the PAL effective period) are emissions reductions of a PAL pollutant that occur during the PAL effective period creditable as decreases for purposes of offsets under 40 CFR §51.165(a)(3)(ii) unless the level of the PAL is reduced by the amount of such emissions reductions and such reductions would be creditable in the absence of the PAL.

(e) *Public participation requirements for plantwide applicability limitations (PALs).* Plantwide applicability limitations (PALs) for existing major stationary sources shall be established, renewed, or increased through a procedure that is consistent with 40 CFR §51.160, 40 CFR §51.161, and this chapter. This includes the requirement that the Director provide the public with notice of the proposed approval of a PAL permit and at least a thirty (30) day period for submittal of public comment. The Director must address all material comments before taking final action on the permit.

(f) *Setting the ten (10) year actuals PAL level.*

(1) Except as provided in Rule 18.21(f)(2), the plan shall provide that the actuals PAL level for a major stationary source shall be established as the sum of the baseline actual emissions [as defined in Rule 18.2(d)] of the PAL pollutant for each emissions unit at the source; plus an

amount equal to the applicable significant level for the PAL pollutant under Rule 18.2(zz) or under the Federal Clean Air Act, whichever is lower. When establishing the actuals PAL level, for a PAL pollutant, only one (1) consecutive twenty-four (24) month period must be used to determine the baseline actual emissions for all existing emissions units. However, a different consecutive twenty-four (24) month period may be used for each different PAL pollutant. Emissions associated with units that were permanently shut down after this twenty-four (24) month period must be subtracted from the plantwide applicability limitation (PAL) level. The reviewing authority shall specify a reduced PAL level(s) (in tons/yr) in the PAL permit to become effective on the future compliance date(s) of any applicable local, state, or federal regulatory requirement(s) that the reviewing authority is aware of prior to issuance of the PAL permit. For instance, if the source owner or operator will be required to reduce emissions from industrial boilers in half from baseline emissions of sixty (60) ppm NO_X to a new rule limit of thirty (30) ppm, then the permit shall contain a future effective PAL level that is equal to the current PAL level reduced by half of the original baseline emissions of such unit(s).

(2) For newly constructed units (which do not include modifications to existing units) on which actual construction began after the twenty-four (24) month period, in lieu of adding the baseline actual emissions as specified in Rule 18.21(f)(1), the emissions must be added to the PAL level in an amount equal to the potential to emit of the units.

(g) *Contents of the plantwide applicability limitation (PAL) permit.* The PAL permit must contain, at a minimum, the information in (1) through (10) below:

(1) The PAL pollutant and the applicable source-wide emission limitation in tons per year.

(2) The PAL permit effective date and the expiration date of the plantwide applicability limitation (PAL) [PAL effective period].

(3) Specification in the PAL permit that if a major stationary source owner or operator applies to renew a PAL in accordance with Rule 18.21(j) before the end of the PAL effective period, then the PAL shall not expire at the end of the PAL effective period. It shall remain in effect until a revised PAL permit is issued by a reviewing authority.

(4) A requirement that emission calculations for compliance purposes must include emissions from startups, shutdowns, and malfunctions.

(5) A requirement that, once the PAL expires, the major stationary source is subject to the requirements of Rule 18.21(i).

(6) The calculation procedures that the major stationary source owner or operator shall use to convert the monitoring system data to monthly emissions and annual emissions based on a twelve (12) month rolling total as required by Rule 18.21(m)(1).

(7) A requirement that the major stationary source owner or operator monitor all emissions units in accordance with the provisions of Rule 18.21(l).

(8) A requirement to retain the records required by Rule 18.21(m) on site. Such records may be retained in an electronic format.

(9) A requirement to submit the reports required under Rule 18.21(n) by the required deadlines.

(10) Any other requirements that the Director deems necessary to implement and enforce the PAL.

(h) *Plantwide applicability limitation (PAL) effective period and reopening of the PAL permit.* The requirements in Rule 18.22(h)(1) and Rule 18.22(h)(2) apply to actuals PALs.

(1) PAL effective period. The Director shall specify a plantwide applicability limitation (PAL) effective period of ten (10) years.

(2) Reopening of the plantwide applicability limitation (PAL) permit.

a. During the plantwide applicability limitation (PAL) effective period, the Director must reopen the PAL permit to:

1. Correct typographical/calculation errors made in setting the PAL or reflect a more accurate determination of emissions used to establish the PAL;

2. Reduce the PAL if the owner or operator of the major stationary source creates creditable emissions reductions for use as offsets under 40 CFR §51.165(a)(3)(ii); and

3. Revise the PAL to reflect an increase in the PAL as provided under Rule 18.21(k).

b. The Director shall have discretion to reopen the PAL permit for the following:

1. Reduce the PAL to reflect newly applicable Federal requirements (for example, New Source Performance Standards) with compliance dates after the PAL effective date;

2. Reduce the PAL consistent with any other requirement, that is enforceable as a practical matter, and that the State may impose on the major stationary source under the local portion of the State Implementation Plan; and

3. Reduce the PAL if the reviewing authority determines that a reduction is necessary to avoid causing or contributing to a National Ambient Air Quality Standard (NAAQS) or Prevention of Significant Deterioration of Air Quality (PSD) increment violation, or to an adverse impact on an air quality related value that has been identified for a Federal Class I area by a Federal Land Manager and for which information is available to the general public.

c. Except for the permit reopening in Rule 18.22(h)(2)a.1 for the correction of typographical/calculation errors that do not increase the PAL level, all other reopenings shall be carried out in accordance with the public participation requirements of Rule 18.21(e).

(i) *Expiration of a plantwide applicability limitation (PAL).* Any plantwide applicability limitation (PAL) that is not renewed in accordance with the procedures in Rule 18.21(j) shall expire at the end of the PAL effective period, and the requirements in Rule 18.21(i)(1) through (5) shall apply.

(1) Each emissions unit (or each group of emissions units) that existed under the PAL shall comply with an allowable emission limitation under a revised permit established according to the procedures Rule 18.21(i)(1)a. and b.

a. Within the time frame specified for PAL renewals in Rule 18.21(j)(2), the major stationary source shall submit a proposed allowable emission limitation for each emissions unit (or each group of emissions units, if such a distribution is more appropriate as decided by the Director) by distributing the PAL allowable emissions for the major stationary source among each of the emissions units that existed under the PAL. If the PAL had not yet been adjusted for an applicable requirement that became effective during the PAL effective period, as required by Rule 18.22(j)(5) such distribution shall be made as if the PAL had been adjusted.

b. The Director shall decide whether and how the PAL allowable emissions will be distributed and issue a revised permit incorporating allowable limits for each emissions unit, or each group of emissions units, as the Director determines is appropriate.

(2) Each emissions unit(s) shall comply with the allowable emission limitation on a twelve (12) month rolling basis. The Director may approve the use of monitoring systems (source testing, emission factors, etc.) other than continuous emissions monitoring system (CEMS) [as defined in Rule 18.2(p)]; continuous emissions rate monitoring system (CERMS) [as defined in Rule 18.2(q)]; predictive emissions monitoring system (PEMS) [as defined in Rule 18.2(nn)]; or continuous parameter monitoring system (CPMS) [as defined in Rule 18.2(r)]; to demonstrate compliance with the allowable emission limitation.

(3) Until the Director issues the revised permit incorporating allowable limits for each emissions unit, or each group of emissions units, as required by Rule 18.21(i)(1)b. the source shall continue to comply with a source-wide, multi-unit emissions cap equivalent to the level of the plantwide applicability limitation (PAL) emission limitation.

(4) Any physical change or change in the method of operation at the major stationary source will be subject to major New Source Review requirements if such change meets the definition of major modification Rule 18.2(ff).

(5) The major stationary source owner or operator shall continue to comply with any local, state, or federal applicable requirements (Best Available Control Technology, Reasonably Available Control Technology, New Source Performance Standards, etc.) that may have applied either during the plantwide applicability limitation (PAL) effective period or prior to the PAL effective period except for those emission limitations that had been established pursuant to Rule18.17(d), but were eliminated by the PAL in accordance with the provisions in Rule 18.21(a)(2)c.

(j) *Renewal of a plantwide applicability limitation (PAL).*

(1) The Director shall follow the procedures specified in Rule 18.21(e) in approving any request to renew a plantwide applicability limitation (PAL) for a major stationary source, and shall provide both the proposed PAL level and a written rationale for the proposed PAL level to the public for review and comment. During such public review, any person may propose a PAL level for the source for consideration by the Director.

(2) *Application deadline.* A major stationary source owner or operator shall submit a timely application to the Director to request renewal of a plantwide applicability limitation (PAL). A timely application is one (1) that is submitted at least six (6) months prior to, but not earlier than eighteen (18) months from, the date of permit expiration. This deadline for application submittal is to ensure that the permit will not expire before the permit is renewed. If the owner or operator of a major stationary source submits a complete application to renew the PAL within this time period, then the PAL shall continue to be effective until the revised permit with the renewed PAL is issued.

(3) *Application requirements.* The application to renew a plantwide applicability limitation (PAL) permit shall contain the information required by a. through d. below.

a. The information required in Rule 18.21(c)(1) through (3).

b. A proposed PAL level.

c. The sum of the potential to emit of all emissions units under the PAL (with supporting documentation).

d. Any other information the owner or operator wishes the Director to consider in determining the appropriate level for renewing the PAL.

(4) *PAL adjustment.* In determining whether and how to adjust the plantwide applicability limitation (PAL), the director shall consider the options outlined in Rule 18.21(j)(4)a. and b. below. However, in no case may any such adjustment fail to comply with Rule 18.21(j)(4)c.

a. If the emissions level calculated in accordance with Rule18.21(f) is equal to or greater than 80 percent of the PAL level, the Director may renew the PAL at the same level without considering the factors set forth in Rule 18.21(j)(4)b. below; or

b. The Director may set the PAL at a level that he or she determines to be more representative of the source's baseline actual emissions, or that he or she determines to be more appropriate considering air quality needs, advances in control technology, anticipated economic growth in the area, desire to reward or encourage the source's voluntary emissions reductions, or other factors as specifically identified by the Director in his or her written rationale.

c. Notwithstanding Rule18.21(j)(4)a. and b. above:

1. If the potential to emit of the major stationary source is less than the PAL, the Director shall adjust the PAL to a level no greater than the potential to emit of the source; and

2. The Director shall not approve a renewed PAL level higher than the current PAL, unless the major stationary source has complied with the provisions of Rule 18.21(k) (increasing a PAL).

(5) If the compliance date for a State or Federal requirement that applies to the PAL source occurs during the PAL effective period, and if the Director has not already adjusted for such requirement, the PAL shall be adjusted at the time of PAL permit renewal or Part 70 operating permit renewal, whichever occurs first.

(k) *Increasing a plantwide applicability limitation (PAL) during the PAL effective period.*

(1) The Director may increase a plantwide applicability limitation (PAL) emission limitation only if the major stationary source complies with the provisions in a. through d. below.

a. The owner or operator of the major stationary source shall submit a complete application to request an increase in the PAL limit for a PAL major modification. Such application shall identify the emissions unit(s) contributing to the increase in emissions so as to cause the major stationary source's emissions to equal or exceed its PAL.

b. As part of this application, the major stationary source owner or operator shall demonstrate that the sum of the baseline actual emissions of the small emissions units, plus the sum of the baseline actual emissions of the significant and major emissions units assuming application of Best Available Control Technology (BACT) equivalent controls, plus the sum of the allowable emissions of the new or modified emissions unit(s) exceeds the PAL. The level of control that would result from BACT equivalent controls on each significant or major emissions unit shall be determined by conducting a new BACT analysis at the time the application is submitted, unless the emissions unit is currently required to comply with a BACT or Lowest Achievable Emissions Rate (LAER) requirement that was established within the preceding ten (10) years. In such a case, the assumed control level for that emissions unit shall be equal to the level of BACT or LAER with which that emissions unit must currently comply.

c. The owner or operator obtains a major New Source Review (NSR) permit for all emissions unit(s) identified in Rule 18.21(k)(1)a., regardless of the magnitude of the emissions increase resulting from them (that is, no significant levels apply). These emissions unit(s) shall comply with any emissions requirements resulting from the major NSR process (for example, BACT), even though they have also become subject to the PAL or continue to be subject to the PAL.

d. The PAL permit shall require that the increased PAL level shall be effective on the day any emissions unit that is part of the PAL major modification becomes operational and begins to emit the PAL pollutant.

(2) The Director shall calculate the new PAL level as the sum of the allowable emissions for each modified or new emissions unit, plus the sum of the baseline actual emissions of the significant and major emissions units [assuming application of BACT equivalent controls as determined in accordance with Rule 18.21(k)(1)b.] plus the sum of the baseline actual emissions of the small emissions units.

(3) The PAL permit shall be revised to reflect the increased PAL level pursuant to the public notice requirements of Rule 18.21(e).

(l) *Monitoring requirements for plantwide applicability limitations (PALs).*

(1) *General requirements.*

a. Each plantwide applicability limitation (PAL) permit must contain enforceable requirements for the monitoring system that accurately determines plantwide emissions of the PAL pollutant in terms of mass per unit of time. Any monitoring system authorized for use in the PAL permit must be based on sound science and meet generally acceptable scientific procedures for data quality and manipulation. Additionally, the information generated by such system must meet minimum legal requirements for admissibility in a judicial proceeding to enforce the PAL permit.

b. The PAL monitoring system must employ one or more of the four general monitoring approaches meeting the minimum requirements set forth in Rule 18.21(l)(2)a. through d. and must be approved by the Director.

c. Notwithstanding Rule 18.21(l)(1)b. an alternative monitoring approach that meets the requirements of Rule18.21(l)(1)a. can be employed if approved by the Director.

d. Failure to use a monitoring system that meets the requirements of this Rule renders the PAL invalid.

(2) Minimum performance requirements for approved monitoring approaches. The following are acceptable general monitoring approaches when conducted in accordance with the minimum requirements in Rule 18.21(l)(3) through Rule 18.21(l)(9):

a. Mass balance calculations for activities using coatings or solvents;

b. Continuous emissions monitoring system (CEMS) [as defined in Rule 18.2(p)];

c. Continuous parameter monitoring system (CPMS) [as defined in Rule 18.2(r)] or predictive emissions monitoring system (PEMS) [as defined in Rule 18.2(nn)]; and

d. Emission factors.

(3) *Mass balance calculations.* An owner or operator using mass balance calculations to monitor PAL pollutant emissions from activities using coating or solvents shall meet the following requirements:

a. Provide a demonstrated means of validating the published content of the PAL pollutant that is contained in or created by all materials used in or at the emissions unit;

b. Assume that the emissions unit emits all of the PAL pollutant that is contained in or created by any raw material or fuel used in or at the emissions unit, if it cannot otherwise be accounted for in the process; and

c. Where the vendor of a material or fuel, which is used in or at the emissions unit, publishes a range of pollutant content from such material, the owner or operator must use the highest value of the range to calculate the PAL pollutant emissions unless the Director determines there is site-specific data or a site-specific monitoring program to support another content within the range.

(4) *Continuous Emissions Monitoring System (CEMS).* An owner or operator using a continuous emissions monitoring system (CEMS) [as defined in Rule 18.2(p)] to monitor plantwide applicability limitation (PAL) pollutant emissions shall meet the following requirements:

a. CEMS must comply with applicable Performance Specifications found in 40 CFR Part 60, Appendix B; and

b. CEMS must sample, analyze and record data at least every 15 minutes while the emissions unit is operating.

(5) *Continuous Parameter Monitoring System (CPMS) or Predictive Emissions Monitoring System (PEMS).* An owner or operator using a continuous parameter monitoring system (CPMS) [as defined in Rule 18.2(r)] or a predictive emissions monitoring system (PEMS) [as defined in Rule 18.2(nn)] to monitor plantwide applicability limitation (PAL) pollutant emissions shall meet the following requirements:

a. The CPMS or the PEMS must be based on current site-specific data demonstrating a correlation between the monitored parameter(s) and the PAL pollutant emissions across the range of operation of the emissions unit; and

b. Each CPMS or PEMS must sample, analyze, and record data at least every fifteen (15) minutes, or at another less frequent interval approved by the Director, while the emissions unit is operating.

(6) *Emission factors.* An owner or operator using emission factors to monitor plantwide applicability limitation (PAL) pollutant emissions shall meet the following requirements:

a. All emission factors shall be adjusted, if appropriate, to account for the degree of uncertainty or limitations in the factors' development;

b. The emissions unit shall operate within the designated range of use for the emission factor, if applicable; and

c. If technically practicable, the owner or operator of a significant emissions unit that relies on an emission factor to calculate PAL pollutant emissions shall conduct validation testing to determine a site-specific emission factor within six (6) months of PAL permit issuance, unless the Director determines that testing is not required.

(7) A source owner or operator must record and report maximum potential emissions without considering enforceable emission limitations or operational restrictions for an emissions unit during any period of time that there is no monitoring data, unless another method for determining emissions during such periods is specified in the plantwide applicability limitation (PAL) permit.

(8) Notwithstanding the requirements in Rule18.21(l)(3) through (7), where an owner or operator of an emissions unit cannot demonstrate a correlation between the monitored parameter(s) and the plantwide applicability limitation (PAL) pollutant emissions rate at all operating points of the emissions unit, the Director shall, at the time of permit issuance:

a. Establish default value(s) for determining compliance with the PAL based on the highest potential emissions reasonably estimated at such operating point(s); or

b. Determine that operation of the emissions unit during operating conditions when there is no correlation between monitored parameter(s) and the PAL pollutant emissions is a violation of the PAL.

(9) *Re-validation.* All data used to establish the plantwide applicability limitation (PAL) pollutant must be re-validated through performance testing or other scientifically valid means approved by the Director. Such testing must occur at least once every five (5) years after issuance of the PAL.

(m) *Recordkeeping requirements.*

(1) The plantwide applicability limitation (PAL) permit shall require an owner or operator to retain a copy of all records necessary to determine compliance with any requirement of Rule 18.21 and of the PAL, including a determination of each emissions unit's twelve (12) month rolling total emissions, for five (5) years from the date of such record.

(2) The plantwide applicability limitation (PAL) permit shall require an owner or operator to retain a copy of the following records for the duration of the PAL effective period plus five (5) years:

a. A copy of the PAL permit application and any applications for revisions to the PAL; and

b. Each annual certification of compliance pursuant to the requirements for the Part 70 operating permit program and the data relied on in certifying the compliance.

(n) *Reporting and notification requirements.* The owner or operator shall submit semi-annual monitoring reports and prompt deviation reports to the Director in accordance with the applicable Part 70 operating permit program. The reports shall meet the requirements in Rule 18.21(n)(1) through (3) below:

(1) Semi-annual report. The semi-annual report shall be submitted to the Director within thirty (30) days of the end of each reporting period. This report shall contain the information required by a. through g. below:

a. The identification of owner and operator and the permit number.

b. Total annual emissions (tons/year) based on a twelve (12) month rolling total for each month in the reporting period recorded pursuant to Rule 18.21(m).

c. All data relied upon, including, but not limited to, any Quality Assurance or Quality Control data, in calculating the monthly and annual plantwide applicability limitation (PAL) pollutant emissions.

d. A list of any emissions units modified or added to the major stationary source during the preceding six (6) month period.

e. The number, duration, and cause of any deviations or monitoring malfunctions (other than the time associated with zero and span calibration checks), and any corrective action taken.

f. A notification of a shutdown of any monitoring system, whether the shutdown was permanent or temporary, the reason for the shutdown, the anticipated date that the monitoring system will be fully operational or replaced with another monitoring system, and whether the emissions unit monitored by the monitoring system continued to operate, and the calculation of the emissions of the pollutant or the number determined by method included in the permit, as required by Rule 18.21(l)(7).

g. A signed statement under oath by the responsible official (as defined in Section 4-53 of this chapter) certifying the truth, accuracy, and completeness of the information provided in the report. It shall constitute a certification under T.C.A. § 68-201-112.

(2) *Deviation report.* The major stationary source owner or operator shall promptly submit reports of any deviations or exceedance of the plantwide applicability limitation (PAL) requirements, including periods where no monitoring is available. The report shall be submitted according to the requirements of section 4-12 of this chapter. The deviation report will be certified by the responsible official as required in Rule 18.21(n)(1)g. The reports shall contain the following information:

a. The identification of owner and operator and the permit number;

b. The PAL requirement that experienced the deviation or that was exceeded;

c. Emissions resulting from the deviation or the exceedance; and

d. A statement by the responsible official meeting the requirements of Rule 18.21(n)(1)g.

(3) *Re-validation results.* The owner or operator shall submit to the Director the results of any re-validation test or method within 3 months after completion of such test or method.

(o) *Transition requirements.*

(1) The Director may not issue a plantwide applicability limitation (PAL) that does not comply with the requirements in Rule 18.21 after March 3, 2003.

(2) The Director may supersede any PAL that was established prior to March 3, 2003 with a PAL that complies with the requirements of Rule 18.21.

Rule 18.22. Basic design parameters are determined as follows:

(a) Except as provided in Rule 18.22(c) for a process unit at a steam electric generating facility, the owner or operator may select as its basic design parameters either maximum hourly heat input and maximum hourly fuel consumption rate or maximum hourly electric output rate and maximum steam flow rate. When establishing fuel consumption specifications in terms of weight or volume, the minimum fuel quality based on British Thermal Units content shall be used for determining the basic design parameter(s) for a coal-fired electric utility steam generating unit.

(b) Except as provided in Rule18.22(c), the basic design parameter(s) for any process unit that is not at a steam electric generating facility are maximum rate of fuel or heat input, maximum rate of material input, or maximum rate of product output. Combustion process units will typically use maximum rate of fuel input. For sources having multiple end products and raw materials, the owner or operator should consider the primary product or primary raw material when selecting a basic design parameter.

(c) If the owner or operator believes the basic design parameter(s) in Rule 18.22(a) and (b) are not appropriate for a specific industry or type of process unit, the owner or operator may propose to the director an alternative basic design parameter(s) for the source's process unit(s). If the Director approves of the use of an alternative basic design parameter(s), the Director shall issue a permit that is legally enforceable that records such basic design parameter(s) and requires the owner or operator to comply with such parameter(s).

(d) The owner or operator shall use credible information, such as results of historic maximum capability tests, design information from the manufacturer, or engineering calculations, in establishing the magnitude of the basic design parameter(s) specified in Rule 18.22(a) and (b).

(e) If design information is not available for a process unit, then the owner or operator shall determine the process unit's basic design parameter(s) using the maximum value achieved by the process unit in the five (5) year period immediately preceding the planned activity.

(f) Efficiency of a process unit is not a basic design parameter its function.

Rule 19. Regulation of Lead Emissions.

Rule 19.1. Definitions.

Unless specifically defined in this Rule 19, the definitions from Section 4-2 will apply:

(1) *Significant source of lead* means

a. Any one (1) permit unit, or combination of permit units as determined by the Board of Director, at any of the following stationary sources that emit lead or lead compounds (measured as elemental lead) of at least one twenty-five (125) tons per calendar quarter or at least five (5) tons per year whichever is the more restrictive: primary lead smelters, secondary lead smelters, primary cooper smelters, lead gasoline additive plants, lead-acid storage battery manufacturing plants that produce two thousand (2,000) or more batteries per day.

b. Notwithstanding the source sizes specified in subparagraph a. of this paragraph, any other stationary source that emits twenty-five (25) or more tons per year of lead or lead compounds measured as elemental lead.

(2) *Source* means any structure, building, facility, equipment, installation, or operation, or combination thereof, which is located on one (1) or more contiguous or adjacent properties and which is owned or operated by the same person or by persons under common control. If a portion of a source is rented to or leased to another person for the purpose of a totally separate business venture, the Board or the Director may designate that portion as a separate source.

(3) *Permit unit* means any part of a source required to obtain a certificate of operation as required by this chapter.

Rule 19.2. General limitations for lead emissions.

(1) No person shall cause, suffer, allow, or permit lead emissions in excess of the limits established in this chapter.

(2) Upon mutual agreement of the Board or the Director and the owner or operator of a significant source of lead, an emission limitation more restrictive than that otherwise specified in this chapter may be established. Also, upon mutual agreement of the owner or operator of any source and the Board or the Director, operating hours, process flow rates, or any other operating parameters may be established as a binding limitation. The mutually acceptable limitations shall be stated as a special conditions for any permit, or certificate concerning the source. Violation of any accepted special limitations is grounds for revocation of the issued permit or certificate and/or other enforcement measures.

Rule 19.3. Requirements for new and modified sources of lead.

(1) A new source the actual emissions of which are in excess of five (5.0) tons per year of lead or lead compounds measured as elemental lead shall utilize best available control technology (BACT).

(2) Any modification of a source which results in an increase in excess of six-tenths (0.6) tons per year of lead or lead compounds measured as elemental lead shall utilize BACT.

(3) The owner or operator of a proposed new or modified source of lead shall perform a source impact analysis to demonstrate that the allowable emission increases from the proposed source or modification would not cause or contribute to a violation of the lead ambient air quality standard in the source impact area including background concentrations. Source impact analysis shall be based on the applicable air quality models and data bases acceptable to the Board or the Director.

(4) Additional requirements for certain new or modified sources of lead are given in Section 4-41, Rule 18.2 (Prevention of Significant Deterioration) and in Section 4-41, Rule 15 (New Source Performance Standards) of this chapter.

Rule 19.4. Source sampling and analysis. Source sampling and analysis for lead shall be conducted in the manner prescribed in Section 4-3(c) of this chapter.

Rule 19.5. Ambient monitoring requirements for lead. The Board or the Director may require ambient lead monitoring in the vicinity of a source regulated by this Rule 19. This monitoring shall be done in accordance with the requirements of this chapter.

Rule 20. (Reserved)

Rule 21. Ambient Air Quality Standards.

Ambient air quality standards as given in the following table.

Ambient Air Quality Standards

Pollutant	*Primary/ Secondary Standard*	*Averaging Time*	*Level*	*Form*
Carbon Monoxide	Primary	8-hour	9 ppm	Not to be exceeded more than once per year
		1-hour	35 ppm	
Lead	Primary and Secondary	Rolling 3-Month Average	0.15 $\mu g/m^3$	Not to be exceeded
Nitrogen Dioxide	Primary	1-hour	100 ppb	98^{th} percentile of 1-hour daily maximum concentrations, averaged over 3 years
	Primary and Secondary	1-year	53 ppb	Annual arithmetic mean
Ozone	Primary and Secondary	8-hour (1)	0.070 ppm	Annual fourth-highest daily maximum 8-hour concentration, averaged over 3 years
		1-hour (2)	0.12 ppm	Not to be exceeded during more than one day per year
Particulate Matter-$PM_{2.5}$	Primary	1-year (3)	9.0 $\mu g/m^3$	Annual arithmetic mean, averaged over 3 years
	Secondary		15.0 $\mu g/m^3$	
	Primary and Secondary	24-hour (4)	35 $\mu g/m^3$	98^{th} percentile, averaged over 3 years
Particulate Matter-PM_{10}	Primary and Secondary	1-year (5)	50 $\mu g/m^3$	Annual arithmetic mean
		24-hour (6)	150 $\mu g/m^3$	Not to be exceeded more than once per year on average over three years
Sulfur Dioxide	Primary	1-year	0.030 ppm	Annual arithmetic mean
		24-hour	0.14 ppm	Not to be exceeded more than once per year
		1-hour	75 ppb	99^{th} percentile of 1-hour daily maximum concentrations, averaged over 3 years
	Secondary	3-hour	0.5 ppm	Not to be exceeded more than once per year

Pollutant	*Primary/ Secondary Standard*	*Averaging Time*	*Level*	*Form*
Gaseous Fluorides (expressed as HF) (7)	Secondary	30-day	1.5 ppb (1.2 $\mu g/m^3$)	Not to be exceeded more than once per year
		7-day	2.0 ppb (1.6 $\mu g/m^3$)	
		24-hour	3.5 ppb (2.9 $\mu g/m^3$)	
		12-hour	4.5 ppb (3.7 $\mu g/m^3$)	

Notes:

ppm — parts per million by volume

ppb — parts per billion by volume

$\mu g/m^3$ — microgramsper cubic meter of air

(1) To attain this standard, the three (3) year average of the fourth highest daily maximum eight (8) hour average ozone concentrations measured at each monitor within an area over each year must not exceed 0.070 ppm.

(2) This standard is attained when the expected number of days per calendar year, with maximum hourly average concentrations above 0.12 ppm, as determined in accordance with 40 CFR Part 50, Appendix H, is less than or equal to one. [This standard has been eliminated by the U.S. Environmental Protection Agency but remains a standard of the State of Tennessee.]

(3) To attain these standards, the three (3) year average of the weighted annual PM2.5 concentrations from single or multiple community-oriented monitors must not exceed 9.0 $\mu g/m^3$ for the primary standard and 15.0 $\mu g/m^3$ for the secondary standard.

(4) To attain this standard, the three (3) year average of the 98^{th} percentile of twenty-four (24) hour concentrations at each population-oriented monitor within an area must not exceed 35 $\mu g/m^3$.

(5) This standard is attained when the expected annual arithmetic mean concentration, as determined in accordance with 40 CFR Part 50, Appendix K, is less than or equal to fifty (50)$\mu g/m^3$. [This standard has been eliminated by the U.S. Environmental Protection Agency but remains a standard of the State of Tennessee.]

(6) This standard is attained when the expected number of days per calendar year with a twenty-four (24) hour average concentration above 150 $\mu g/m^3$, as determined in accordance with 40 CFR Part 50, Appendix K, is less than or equal to one.

(7) Sources that emit gaseous fluorides, including hydrogen fluoride, and that are within a source category (including sources that would otherwise be included in the source category but fall below emissions or size thresholds for the source category) for which the EPA has promulgated standards under Section 112 of the Clean Air Act are deemed to be in compliance with any requirements under these standards if they meet any and all applicable requirements of the federal standards. These standards are not applicable to sources subject to 40 CFR Part 63, Subpart LL. [These are standards of the State of Tennessee.]

Rule 22. Good Engineering Practices Stack Heights.

Rule 22.1. General Provisions.

(1) This Rule 22 provides that the degree of emission limitation required of any source for control of any air pollutant must not be affected by that portion of any source's stack height that exceeds good engineering practice (GEP) or any other dispersion technique, except as provided in Rule 22.1(2). Before a new or revised emission limitation is established that is based on a GEP stack height that exceeds the height allowed by Rule 22.2(3)a. or b., the Director must notify the public of the availability of the applicable demonstration study that is specified by Rule 22.2(3)c. and must provide opportunity for a public hearing on it. This Rule 22 does not restrict in any manner the actual stack height of any source.

(2) The provisions of this Rule 22 shall not apply to stack heights in existence, or dispersion techniques implemented on or before December 31, 1970, except where pollutants are being emitted from such stacks or using such dispersion techniques by stationary sources which were constructed, reconstructed, or for which major modifications, as defined in Section 4-2, and were carried out after December 31, 1970.

Rule 22.2. Definitions. As used in this Rule 22, the following definitions shall apply:

(1) *Dispersion technique* means any technique which attempts to affect the concentration of a pollutant in the ambient air by:

a. Using that portion of a stack which exceeds good engineering practice stack height;

b. Varying the rate of emission of a pollutant according to atmospheric conditions or ambient concentrations of that pollutant; or

c. Increasing final exhaust gas plume rise by manipulating source process parameters, exhaust gas parameters, stack parameters, or combining exhaust gases from several existing stacks into one (1) stack; or other selective handling of exhaust gas streams so as to increase the exhaust gas plume rise.

The preceding sentence defining *dispersion technique* does not include:

a. The reheating of a gas stream, following use of a pollution control system, for the purpose of returning the gas to the temperature at which it was originally discharged from the facility generating the gas stream;

b. The merging of exhaust gas streams where:

1. The source owner or operator demonstrates that the facility was originally designed and constructed with such merged gas streams;

2. After July 8, 1985, such merging is part of a change in operation at the facility that includes the installation of pollution controls and is accompanied by a net reduction in the allowable emissions of a pollutant. This exclusion from the definition of *dispersion techniques* shall apply only to the emission limitation for the pollutant affected by such change in operation; or

3. Before July 8, 1985, such merging was part of a change in operation at the facility that included the installation of emissions control equipment or was carried out for sound economic or engineering reasons. Where there was an increase in the emissions limitation or, in the event that no emission limitation was in existence prior to the merging, an increase in the quantity of pollutants actually emitted prior to the merging, the Director shall presume that the merging was significantly motivated by an intent to gain emissions credit for greater dispersion. Absent a demonstration by

the source owner or operator that merging was not significantly motivated by such intent, the Director shall deny credit for the effects of such merging in calculating the allowable emissions for the source;

c. Smoke management in agricultural or silvicultural prescribed burning programs;

d. Episodic restrictions on residential wood burning and open burning; or

e. Techniques under Rule 22.2(1)(C) which increase final exhaust gas plume rise where the resulting plant-wide allowable emissions of sulfur dioxide do not exceed five thousand (5,000) tons per year.

(2) *Emission limitation* means a requirement established by the Director, which limits the quantity, rate or concentration of emissions of air pollutants on a continuous basis, including any requirements which limit the level of opacity, prescribe equipment, set fuel specifications, or prescribe operation or maintenance procedures for a source to assure continuous emission reduction.

(3) *Good engineering practice* (GEP) stack height means the greater of:

a. Sixty-five (65) meters (two hundred thirteen (213)) feet, measured form the ground-level elevation at the base of the stack;

b. Considering other stack criteria the following formulae apply:

1. For stacks in existence on January 12, 1979, and for which the owner or operator had obtained all applicable permits or approvals required,

$$Hg = 2.5H,$$

provided the owner or operator produces evidence that this equation was actually relied on in establishing an emission limitation;

2. For all other stacks;

$$Hg = H + 1.5L,$$

where

Hg = good engineering practice stack height, measured from the ground-level elevation at the base of the stack,

H = height of nearby structure(s) measured from ground-level elevation at the base of the stack,

L = lesser dimension, height (H) or projected width, of nearby structure(s) provided that the director may require the use of a field study or fluid model to verify GEP stack height for the source; or

c. The height demonstrated by a fluid model or a field study approved by the director, which ensures that the emissions from a stack do not result in excessive concentrations of any air pollutant as a result of atmospheric downwash, wakes, or eddy effects created by the source itself, nearby structures or nearby terrain features.

(4) *Nearby* as used in Rule 22.2(3) is defined for a specific structure or terrain feature and

a. For the purposes of applying the formulae provided in Rule 22.2(3)(b) means that distance up to five times the lesser of the height or the width dimension of a structure, but not greater than eight-tenths (0.8) kilometers (one-half ½ mile), and

b. For conducting demonstrations under Rule 22.2(3)(c) means not greater than eight-tenths (0.8) kilometers (one-half ½), except that the portion of a terrain feature may be considered to be nearby which falls within a distance of up to 10 times the maximum height (H_t) feature achieves a height (h_t) eight-tenths (0.8) kilometers from the stack that is at least forty percent (40%) of the GEP stack height determined by the formulae provided in Rule

19(B)(3)(b)2. or 26 meters (85 feet), whichever is greater, as measured from the ground level elevation at the base of the stack. The height of the structure of terrain feature is measured from the ground-level elevation at the base of the stack.

(5) *Excessive concentration* is defined for the purposes of determining good engineering practice stack height under Rule 22.2(3)(C), and means:

a. For sources seeking credit for stack height exceeding that established under Rule 22.2(3)(b), a maximum ground-level concentration due to emissions from a stack due in part to downwash, wakes, and eddy effects produced by nearby structures or nearby terrain features which individually is at least fifty percent (50%) in excess of the maximum concentration experienced in the absence of such downwash, wakes, or eddy effect and which contributes to a total concentration due to the emissions from all sources that is greater than an ambient air quality standard. For sources subject to Rule 18.2, an excessive concentration alternatively means a maximum ground-level concentration due to emissions from a stack due in whole or part to downwash, wakes, or eddy effects produced by nearby structures or nearby terrain features which individually is at least fifty percent (50%) in excess of the maximum concentration experienced in the absence of such downwash, wakes or eddy effects and greater than a prevention of significant deterioration increment. The allowable emission rate to be used in making demonstrations under this rule shall be prescribed by the new source performance standards (NSPS) that is applicable to the source category unless the owner or operator demonstrates that this emission rate is infeasible. Where such demonstrations are approved by the director, an alternative emission rate shall be established in consultation with the source owner or operator;

b. For sources seeking credit after October 11, 1983, for increases in existing stack heights established under Rule 22.2(3)(b) either:

1. a maximum ground-level concentration due in whole or part to downwash, wakes, or eddy effect as provided in Rule 22.2(5)(a), except that the emission rate specified by the State Implementation Plan (or, in absence of such a limit, the actual emission rate) shall be used, or

2. the actual presence of a local nuisance caused by the existing stack, as determined by the director; and

c. For sources seeking credit after January 12, 1979, for a stack height determined under Rule 22.2(3)(b) where the director requires the use of a field study or fluid model to verify GEP stack height; for sources seeking stack height credit after November 9, 1984, based on the aerodynamic influence of cooling towers; and for sources seeking stack height credit after December 31, 1970, based on the aerodynamic influence of structures not adequately represented by the equations in Rule 22.2(3)(b), a maximum ground-level concentration due in whole or part to downwash, wakes, or eddy effects that is at least forty percent (40%) in excess of the maximum concentration experienced in the absence of such downwash, wakes, or eddy effects.

(6) *Stack* for the purpose of good engineering practice means any point in a source designed to emit solids, liquids, or gases into the air, including a pipe or duct but not including flares.

(7) *A stack in existence* means that the owner or operator had (1) begun, or caused to begin, a continuous program of physical on-site construction of the stack; or (2) entered into binding agreements or contractual obligations, which could not be cancelled or modified without substantial loss to the operator, to undertake a program of construction of the stack to be completed in a reasonable time.

Rule 22.3. Good Engineering Practice Stack Height Requirements.

(1) No person shall cause, suffer, allow, or permit emissions in excess of the limitations in this Rule 22.

(2) Upon mutual agreement of the owner or operator of a source and the director, an emission limitation more restrictive than that otherwise specified in this Rule 22 may be established. The mutually acceptable limits shall be stated as a special condition(s) for any permit or certificate concerning the source. Violation of any accepted special limitation is grounds for revocation of the issued certificate of operation and other enforcement measures provided for in law.

(3) The possession of a valid permit or certificate of operation shall not protect the source from enforcement actions if permit or certificate conditions are not met.

Rule 22.4. Specific Emissions Limitations. For any affected air contaminant source or sources at a facility, the director shall specify as special conditions on the installation permit, and certificate of operation the emission limitation that is determined to be necessary under the provisions of this Rule 22. Such conditions shall be subjected to a public hearing and incorporated as a revision to the State Implementation Plan.

Rule 23. General Provisions and Applicability for Process Gaseous Emissions Standards.

Rule 23.1. No person shall cause, suffer, allow or permit gaseous emission in excess of the standards provided in this chapter. For the purpose of this Rule 23 the term "process gaseous emission" shall mean any gaseous emission of an air contaminant to the ambient air other than that from fuel-burning equipment, incinerators or open burning.

Rule 23.2. Any person constructing or otherwise establishing an air contaminant source emitting gaseous air contaminants after the effective date of this regulation, which is not limited by a specific standard provided elsewhere in this chapter, shall install and utilize equipment and technology which is deemed reasonable and proper by the director.

Rule 24. Reserved.

Rule 25. General Provisions and Applicability for Volatile Organic Compounds.

Rule 25.1. Purpose. It is the purpose of this Rule 25 to establish emission standards for new and existing sources of volatile organic compounds located within the city. The emission standards established within this rule will apply to different sources depending upon the potential emissions of the source.

Rule 25.2. Definitions. Words or terms defined in Rule 25 are for the purpose of this rule only and will not affect the definitions of section 4-2. Unless specifically defined in this Rule 25, the definitions from section 4-2 will apply:

(1) *Approved* means approved by the director, Chattanooga-Hamilton County Air Pollution Control Bureau.

(2) *Capture system* means the equipment (including hoods, ducts, fans, etc.) used to contain, capture or transport a pollutant to a control device.

(3) *Coating applicator* means an apparatus used to apply a surface coating.

(4) *Coating line* means one (1) or more apparatus or operations, which include a coating applicator, flashoff area, and over, wherein a surface coating is applied, dried and/or cured.

(5) *Commenced* means that an owner operator has undertaken a continuous program of construction or modification or that an owner or operator has entered into a contractual obligation to undertake and complete, within a reasonable time, a continuous program of construction or modification.

(6) *Construction* means commencement of on-site fabrication, erection or installation of a new or modified source or facility.

(7) *Control device* means any method, process or equipment which removes or reduces volatile organic compounds (VOC) emissions to the ambient air.

(8) *Continuous vapor control system* means a vapor control system that treats vapors displaced from tanks during filling on a demand basis without intermediate accumulation.

(9) *Day* means a twenty-four (24) hour period beginning at midnight.

(10) *Emission* means the release or discharge, whether directly or indirectly, of VOC's into the ambient air from any source.

(11) *Existing source* is any process in existence or having an installation permit prior to the effective date of each Rule 25 category.

(12) *Facility* means any building, structure, installation, activity or combination thereof which contains one (1) or more stationary source of air contaminants.

(13) *Flashoff area* means the space between the application area and the oven.

(14) *Incinerator* means a combustion apparatus designed for high temperature operation in which solid, semisolid, liquid or gaseous combustible wastes are ignited and burned efficiently and from which the solid and gaseous residues contain little or no combustible material.

(15) *Intermittent vapor control system* means a vapor control system that employs an intermediate vapor holder to accumulate vapors displaced from tanks during filling. The control device treats the accumulated vapors only during automatically controlled cycles.

(16) *Knife coating* means the application of a coating material to a substrate by means of drawing the substrate beneath a knife that spreads the coating evenly over the full width of the substrate.

(17) *Loading rack* means an aggregation or combination of gasoline loading equipment arranged so that all loading outlets in the combination can be connected to a tank truck or trailer parked in a specified loading space.

(18) *New source* is all other processes not defined in definition (11) as an existing source.

(19) *Organic material* means a chemical compound of carbon excluding carbon monoxide, carbon dioxide, carbonic acid, metallic carbides or carbonates and ammonium carbonate.

(20) *Oven* means a chamber within which heat is used to bake, cure, polymerize and/or dry a surface coating.

(21) *Owner or operator* means any person who owns, leases, controls, operates or supervises a facility, existing source, new source or control device.

(22) *Petroleum liquid* means crude oil, condensate and any finished or intermediate products manufactured or extracted in a petroleum refinery.

(23) *Prime coat* means the first film of coating applied to a multiple-coat operation.

(24) *Reid vapor pressure* means the absolute vapor pressure of volatile crude oil and volatile nonviscous petroleum liquids except liquefied petroleum gases as determined by American Society for Testing and Materials, D-323-94 Standard Test Method for Vapor Pressure of Petroleum Products (Reid Method), 1994 Annual Book of ASTM Standards Volume 5.01.

(25) *Roll coating* means the application of a coating material to a substrate by means of hard rubber or steel rolls.

(26) *Rotogravure coating* means the application of a coating material to a substrate by means of a roll coating technique in which the pattern to be applied is etched on the coating roll. The coating material is picked up in these recessed areas and is transferred to the substance.

(27) *Solvent* means organic materials which are liquid at standard conditions and which are used as dissolvers, viscosity reducers or cleaning agents.

(28) *Standard conditions* means a temperature of twenty degrees (20°) centigrade (sixty-eight degrees (68°) Fahrenheit) and pressure of seven hundred sixty (760) millimeters of mercury (twenty-nine and ninety-two hundredths (29.92) inches of mercury).

(29) *Top coat* means the final film of coating applied in a multiple-coat operation.

(30) *True vapor pressure* means the equilibrium partial pressure exerted by a petroleum liquid as determined in accordance with methods described in American Petroleum Institute Bulletin 2517, "Evaporation Loss from External Floating-Roof Tanks," Third Edition with addendum, May 1994.

(31) *Vapor collection system* means a vapor transport system which uses direct displacement by the liquid loaded to force vapors from the tank into a vapor control system.

(32) *Vapor control system* means a system approved by the director that prevents release to the atmosphere of organic compounds in the vapors displaced from a tank during the transfer of gasoline.

(33) *Reserved.*

Rule 25.3. Standards for new sources.

(1) For the purpose of this Rule 25.3, the following definitions apply:

a. *Lowest achievable emission rate* (also denoted as LAER) means for any source that rate of emissions which reflects:

1. The most stringent emission limitation which is achieved in practice by such class or category of source.

2. In no event shall a new or modified source emit any pollutant in excess of the amount allowable under applicable rules of Rule 15.

This limit will be determined by the director at the time of the permit application.

b. *Potential emissions* means the maximum capacity to emit a pollutant absent air pollution control equipment. Air pollution control equipment includes control equipment which is not, aside from air pollution control laws and regulations, vital to production of the normal product of the source or to its normal operation. Annual potential shall be based on the maximum annual rated capacity of the source unless the source is subject to enforceable permit conditions which limit the operating rate of hour of operation, or both. Enforceable permit conditions on the type or amount of materials combusted or processed may be used in determining the potential emission rate of a source.

(2) New or modified sources identified as having potential emissions of one hundred (100) tons per year or greater shall utilize LAER. All other new or modified sources locating in the county shall utilize BACT. Regardless of the specific emission standards derived from these rules, a new and/or modified source in the county must comply with the provisions of this rule.

a. Attainment and unclassified areas. The director shall not grant a permit or waiver for the construction or modification of any air contaminant source in an attainment or unclassified

area if such construction or modification will interfere with the maintenance of an air quality standard or will violate any provision of these regulations or will violate any provision of the Tennessee Air Quality Act.

b. Nonattainment areas. The director shall not grant a permit for construction or modification of any air contaminant source in a nonattainment area nor to any source that significantly impacts on a nonattainment area if such construction or modification will interfere with reasonable further progress in attainment of the specific air quality standards or will violate any provision of the Tennessee Air Quality Act or will violate provisions of these regulations, except in accordance with the following:

1. All new or modified sources shall utilize good engineering practice as determined by the director in designing stacks.

2. New or modified sources with potential emissions of less than one hundred (100) tons per year shall utilize best available control technology (BACT) as specified by the director.

3. New or modified sources identified as having potential emissions of one hundred (100) tons per year or greater shall meet the lowest achievable emission rate (LAER) for that type of source as determined by the director at the time of the permit application. The term "lowest achievable emission rate" means, for, any source, that rate of emissions which reflects:

   (i) The most stringent emission limitation which is achieved in practice by such class or category of source.

   (ii) In no event shall a new or modified source emit any pollutant in excess of the amount allowable under applicable rules of Rule 15.

4. A major source shall also show that it will not interfere with reasonable further progress in attaining the ambient air quality standards by one (1) of the following methods:

   (i) Banked credits.

      (A) By agreeing to control the nonattainment emissions to a rate lower than the nonattainment emissions specified as reasonable available control technology (RACT) by the director, the owner or operator of an air contaminant source has reserved the right to utilize the incremental reduction between RACT and the banked credit agreed rate (BCAR) to provide for future growth in the nonattainment area.

      (B) The banked credit agreed rate is an emission rate more restrictive than RACT which is mutually agreed to by the director and an air contaminant source for the purpose of establishing a banked credit. This emission level is in no way related to BACT or LAER. Only sources in existence at the time of a nonattainment state implementation plan (SIP) revision for an area are eligible to establish a banked credit agreed rate.

      (C) The following limitations shall apply to the issuance of a permit for construction or modification for sources using banked credit agreed rate.

      All banked credits in a given nonattainment area shall become void upon official reclassification of that area as an attainment area.

      An increase in pounds per hour shall be offset by a banked credit of that amount. The banked credit account will be reduced by that amount.

An air quality modeling review shall show that the banked credit used and the new and/or modified source result in predicted cleaner air for the nonattainment area than air quality at the RACT emission level. No predicted new violations of the ambient air quality standards will be permitted.

A banked credit shall not be used until the banked credit agreed rate level of control is attained by the source involved and demonstrated through another method acceptable to the director.

The banked credit agreed rate shall be contained in the state implementation plan as the legally enforceable standard for the air contaminant source. If the source electing to use banked credits must reduce emissions to achieve the banked credit agreed rate level approved by the board, a compliance schedule shall be included in the state implementation plan revision.

(ii) Emission offsets.

(A) For major sources, a larger than one (1) to one (1) offset of emissions of the nonattainment pollutant, based on both allowable and actual emissions shall be employed. This offset must result in a net improvement in predicted air quality for the pollutant in the area under the influence of emissions from the new or modified major sources and that reasonable further progress shall not be hindered.

(B) All or any portions of the offsets shall be accomplished on or before the time of new source operation and demonstrated through a source test or through another method acceptable to the director.

(C) The reductions shall come from sources in the emission inventory used in the approved control strategy for the nonattainment area state implementation plan revision.

(D) The amount of the proposed reduction shall be sufficient to offset both the emission increases directly associated with the proposed source construction and/or modification and those emissions attributed to permitted minor sources that have come into the area since the last reasonable further progress milestone was met.

(iii) Construction or modification of major sources that have no emission offsets or banked credit. The director shall issue a construction permit to proposed new or modified sources provided the sources' emissions will not prevent reasonable further progress in the nonattainment area or will not prevent the ambient air quality standards being met. Completed applications from sources qualifying for this provision will be processed based on the date of receipt of the application by the director.

(iv) Combination of the provisions of subparts (i), (ii) and (iii) of this part.

5. Prior to the issuance of a permit to a major volatile organic compound (VOC) source in Hamilton, an analysis of alternate sites, sizes, production process and environmental control techniques for the proposed source shall be made. A permit shall only be issued if the benefits of the proposed source significantly outweigh the environmental and social costs imposed on the public as a result of the source's location, construction or modification in this county. The director shall require the submittal of such information as he deems necessary for this analysis.

6. A source is identified as a major source for each pollutant as indicated below:

A major source for volatile organic compounds is a source with potential emissions of more than one hundred (100) tons per year and allowable emissions (based on BACT) greater than any of the following: fifty (50) tons per year; one thousand (1,000) pounds per day; or one hundred (100) pounds per hour.

Piecemeal construction is cumulative.

When an air contaminant source's new and/or modified allowable emissions equals or exceeds the above levels, it becomes a major source.

"Potential emissions" as used above means the capability at maximum capacity to emit a pollutant in the absence of air pollution control equipment. Air pollution control equipment includes control equipment which is not, aside from air pollution control laws and regulations, vital to production of the normal product of the source or to its normal operation. Annual potential shall be based on the maximum annual rated capacity of the source, unless the source is subject to enforceable permit conditions which limit the annual hours of operation. Enforceable permit conditions on the type or amount of materials combusted or processed may be used in determining the potential emission rate of a source.

7. The director shall not issue a permit to any major source in or significantly impacting a nonattainment area unless all other sources owned or operated by the applicant anywhere in the state are in compliance or on an approved compliance schedule.

(3) If new or modified sources at a facility occurring since February 16, 1979, or since the time of the last construction approval issued requiring LAER under this rule total to more than one hundred (100) tons per year potential emissions, all the new and modified sources during the period shall utilize LAER. The stage of construction and the ability of the source to install additional control equipment shall be considered in determining LAER.

(4) No emissions credit may be allowed for replacing one (1) volatile organic compound (VOC) with another of lesser reactivity.

Rule 25.4. Alternate emission limitation.

(1) Plants with process emission sources regulated by this Rule 25 with a certificate of alternate control shall not emit volatile organic compounds in excess of the limits on such certificate. This limitation is in lieu of the emission limitation contained in other rules of this chapter. Only sources with an emission limitation in Rule 25 are eligible for inclusion in the certificate.

(2) The owner or operator of any plant having process emission sources regulated by Rule 25 can apply to the director for a certificate of alternate control for a plant and the director may grant the request if the following conditions are met:

a. The plant is reducing, or will be after a specified date taking actions to reduce, emissions of volatile organic compounds at least as much as is required under the other rules in this Rule 25, even though specific process emission sources in the plant may not be meeting the limitations specified in the other rules of this Rule 25.

b. If a specified future date for compliance is involved, this date must be as expeditious as is practicable and be specified in a schedule of compliance as a condition on the certificate. This schedule must conform with the requirements of paragraphs (c) and (d) of Rule 25.42 for individual compliance schedules.

c. There must be reasonable means for the director or his representatives to determine that this alternative emission control method is being implemented and complied with.

d. A fee of two hundred fifty dollars ($250.00) has been paid to the bureau at the time application is made to cover the cost of review of the request for the certificate of alternate control.

e. All process emission sources commenced on or after the effective date of a rule or rules in Rules 15 and 18.2 of this section, and the requirements of section 4-8(f) limiting emissions of volatile organic compounds are meeting the limits specified in those rules.

f. No credit can be given for reduction of emissions in determining if the requirements of subparagraph a. of this paragraph are met if another rule would require that reduction anyway.

(3) Alternate emission control limitations approved under this section must be subjected to a public hearing and incorporated as a revision to the state implementation plan. The owner or operator requesting this alternate emission control limitation shall be responsible for all costs associated with publishing the required legal notices.

(4) The owner or operator of the plant must:

a. File or post on the operating premises the certificate of alternate control;

b. Keep all pollution control equipment in good operating condition and utilize such equipment at all times;

c. Meet other conditions specified in accordance with Rule 25.4(8).

(5) The certificate of alternate control may be revoked by the board if it is found that any of the requirements of this section have been violated or the board may enforce this section by seeking any other remedy available under this chapter or at law.

(6) The certificate of alternate control does not relieve the owner or operator of the duty to meet all emission requirements in other rules for process emission sources commenced after the effective date of the rule.

(7) Upon revocation of the certificate of alternate control, the process emission sources at the plant must comply with all other rules in this chapter that would have been applicable had the certificate not been issued. The board may specify a time period for the source to come into compliance with the more restrictive emission limitations.

(8) The certificate of alternate control may specify alternate test methods to determine compliance or different averaging times (so long as this time does not exceed eight (8) hours) or may contain other conditions appropriate to insure compliance with the alternate control method and the meeting of compliance on the date specified in accordance with subparagraph (2)b. of this rule. The certificate must contain, as conditions, specific standards for each emission source involved.

Rule 25.5. (Reserved)

Rule 25.6. (Reserved)

Rule 25.7. Petroleum liquid storage.

(1) For the purpose of this Rule 25.7, the following definitions apply:

a. *Condensate* means hydrocarbon liquid separated from natural gas which condenses due to changes in the temperature and/or pressure and remains liquid at standard conditions.

b. *Crude oil* means a naturally occurring mixture which consists of hydrocarbons and/or sulfur, nitrogen and/or oxygen derivatives of hydrocarbons and which is a liquid at standard conditions.

c. *Custody transfer* means the transfer of produced crude oil and/or condensate, after processing and/or treating in the producing operations, from storage tanks or automatic facilities to pipelines or any other forms of transportation.

d. *External floating roof* means a storage vessel cover in an open top tank consisting of a double deck or pontoon single deck which rests upon and is supported by the petroleum liquid being contained and is equipped with a closure seal or seals to close the space between the roof edge and tank shell.

e. *Internal floating roof* means a cover or roof in a fixed roof tank which rests upon or is floated upon the petroleum liquid being contained and is equipped with a closure seal or seals to close the space between the roof edge and tank shell.

f. *Petroleum refinery* means any facility engaged in producing gasoline, kerosene, distillate fuel oils, residual fuel oils, lubricants or other products through distillation of crude oils, or through redistillation, cracking, extraction or reforming of unfinished petroleum derivatives.

(2) This Rule 25.7 will apply to all fixed roof storage vessels with capacities greater than forty-two thousand (42,000) gallons containing volatile petroleum liquids whose true vapor pressure is greater than ten and one-half (10.5) kPa (one and fifty-two-hundredths (1.52) psia).

(3) This Rule 25.7 will not apply to volatile petroleum liquid storage vessels:

a. Equipped with floating roofs before January 1, 1979; or

b. Having capacities less than four hundred twenty thousand (420,000) gallons used to store produced crude oil and condensate prior to lease custody transfer.

(4) Except as provided under paragraph (3) of this rule, no owner or operator of an affected source under paragraph (2) of this Rule 25.7 shall permit the use of such source except as provided in Rule 25.41 unless:

a. The source has been retrofitted with an internal floating roof equipped with a closure seal or seals to close the space between the roof edge and tank wall;

b. The source has been retrofitted with equally effective alternative control, approved by the director;

c. The source is maintained such that there are no visible holes, tears or other openings in the seal or any seal fabric or materials;

d. All openings, except stub drains are equipped with covers, lids or seals such that:

1. The cover, lid or seal is in the closed position at all times except when in actual use;

2. Automatic bleeder vents are closed at all times except when the roof is floated off or landed on the roof leg supposes; and

3. Rim vents, if provided, are set to open when the roof is being floated off the roof leg supports or at the manufacturer's recommended setting;

e. Routine inspections are conducted through roof hatches once per month;

f. A complete inspection of cover and seal is conducted as specified by the director; and

g. Records are maintained as specified by the director.

Rule 25.8. Bulk gasoline plants.

(1) For the purpose of this Rule 25.8, the following definitions apply:

a. *Bottom filling* means the filling of a tank truck through an opening or nozzle located either flush with or near the bottom of the tank compartment or the filling of a stationary storage tank through a shell nozzle located in conformance with "API Standard 650 Welded Steel Tanks for Oil Storage; Section 3.6.3, Shell Nozzles" or the equivalent as approved by the director.

b. *Bulk gasoline plant* means a gasoline storage and distribution facility with an annual average daily throughout of less than seventy-six thousand (76,000) liters (twenty thousand

(20,000) gallons) which receives gasoline from bulk terminals by trailer transport, stores it in tanks, and subsequently dispenses it via account trucks to local farms, businesses and service stations.

c. *Gasoline* means any petroleum distillate having a Reid vapor pressure of twenty-seven and six-tenths (27.6) kPa (four (4) psia) or greater.

d. *Splash filling* means the filling of a tank truck or stationary storage tank through a pipe or hose whose discharge opening is above the surface level of the liquid in the tank being filled.

e. *Submerged filling* means the following for the specified sources:

1. Tank trucks. Filling with a drop tube which extends within six (6) inches of the bottom of the compartment.

2. Terminal or bulk plant storage tanks. Filling through an outlet located in accordance with "API Standard 650 Welded Steel Tanks for Oil Storage; Section 3.6.3 Shell Nozzles" or the equivalent as approved by the director.

f. *Vapor balance systems* means a combination of pipes or hoses which create a closed system between the vapor spaces of an unloading tank and a receiving tank such that vapors displaced from the receiving tank are transferred to the tank being unloaded.

(2) This Rule 25.8 will apply, in accordance with Rule 25.41, to the unloading, loading and storage facilities of all bulk gasoline plants and all tank trucks or trailers delivering or receiving gasoline at bulk gasoline plants.

(3) This Rule 25.8 will not apply to:

a. Stationary storage tanks of less than two thousand (2,000) gallons capacity; or

b. Bulk plants in the county with less than four thousand (4,000) gallons per day annual average throughout, provided records of throughput are maintained and reported to the director as specified by the director.

(4) Except as provided under paragraph (3) of this Rule 25.8, no owner or operator of a bulk gasoline plant (tank truck or trailer) shall load gasoline into a stationary storage tank from a tank truck, trailer or other stationary storage tank unless each tank and truck or trailer is equipped with a vapor balance system as described under paragraph (7) of this rule.

(5) Except as provided under paragraph (3) of this Rule 25.8, no owner or operator of a bulk gasoline plant, tank truck or trailer shall unload gasoline from a stationary tank into a tank truck or trailer unless a bottom filling or submerged filling system or its equivalent is installed at the bulk plant.

(6) No owner, or operator of a bulk gasoline plant, tank truck or trailer shall permit the transfer of gasoline between a tank truck or trailer and a stationary storage tank unless the equipment required in paragraph (4) and (5) is installed and properly operated to minimize the loss of VOC emissions.

(7) Vapor balance systems required under paragraph (4) of this Rule 25.8 shall consist of the following major components:

a. A vapor space connection on the stationary storage tank equipped with fittings which are vapor tight and will eliminate back flow so as to prevent release of organic material;

b. A connecting pipe or hose equipped with fittings which are vapor tight and will automatically and immediately close upon disconnection so as to prevent release of organic material; and

c. A vapor space connection on the tank truck or trailer equipped with fittings which are vapor tight and must be closed prior to disconnection so as to prevent release of organic material.

(8) No owner or operator of a bulk gasoline plant may permit gasoline to be stored in open containers or handled in any other manner that would result in evaporation.

Rule 25.9. Bulk gasoline terminals.

(1) For the purpose of this Rule 25.9, the following definitions apply:

a. *Bulk gasoline terminal* means a gasoline storage facility which receives gasoline from refineries primarily by pipeline, ship or barge and delivers gasoline to bulk gasoline plants or to commercial or retail accounts primarily by tank truck, and has an annual average daily throughput of more than seventy-six thousand (76,000) liters (twenty thousand (20,000) gallons) of gasoline.

b. *Gasoline* means a petroleum distillate having a Reid vapor pressure of 27.6 kPa (4 psia) or greater.

(2) This Rule 25.9 will apply, in accordance with Rule 25.41, to bulk gasoline terminals and the appurtenant equipment necessary to load the tank truck or trailer compartments.

(3) No person may load gasoline into any tank trucks or trailers from any bulk gasoline terminals unless:

a. The bulk gasoline terminal is equipped with a vapor control system capable of complying with paragraph (4) of this rule properly installed, in good working order, in operation and consisting of one (1) of the following:

1. An absorber or condensation system which processes and recovers vapors and gases from the equipment being controlled;

2. A vapor collection system which directs all vapors to a fuel gas system;

3. A control system, demonstrated to have control efficiency equivalent to or greater than parts (3)a. 1. or (3)a. 2. of this section and approved by the director; and

b. All displaced vapors and gases are vented only to the vapor control system;

c. Loading devices must not leak when in use and should be designed and operated to allow no more than ten (10) cubic centimeters drainage per disconnect on the basis of five (5) consecutive disconnects; and

d. All loading and vapor lines are equipped with fittings which are vapor-tight.

(4) Sources affected under subparagraph (3)a. may not allow mass emissions of volatile organic compounds from control equipment to exceed eighty (80) milligrams per liter (four and seven-tenths (4.7) grains per gallon) of gasoline loaded.

(5) Sources affected under paragraph (2) may not:

a. Allow gasoline to be discarded in sewers or stored in open containers or handled in any manner that would result in evaporation; or

b. Allow the pressure in the vapor-collection system to exceed the tank truck or trailer pressure relief settings.

Rule 25.10. Gasoline dispensing facilities — stage I vapor recovery.

(1) For the purpose of this rule, the following definitions will apply:

a. *Coaxial system* means the delivery of the product to the stationary storage tank and the recovery of vapors from the stationary storage tanks occurs through a single coaxial fill tube, which is a tube within a tube. Produce is delivered through the inner tube and vapor is recovered through the annular space between the walls of the inner tube and outer tube.

b. *Delivery vessel* means tank trucks or trailers equipped with a storage tank and used for the transport of gasoline from sources of supply to stationary storage tanks of gasoline dispensing facilities.

c. *Dual point system* means the delivery of the product to the stationary storage tank and the recovery of vapors from the stationary storage tank occurs through two (2) separate openings in the storage tank and two (2) separate hoses between the tank truck and the stationary storage tank.

d. *Gasoline* means any petroleum distillate having a Reid vapor pressure of four (4.0) psia or greater.

e. *Gasoline dispensing facility* means any site where gasoline is dispensed to motor vehicle gasoline tanks from stationary storage tanks.

f. *Gasoline service station* means any gasoline dispensing facility where gasoline is sold to the motoring public from stationary storage tanks.

g. *Line* means any pipe suitable for transferring gasoline.

h. *Operator* means any person who leases, operates, controls or supervises a facility at which gasoline is dispensed.

i. *Owner* means any person who has legal or equitable title to the gasoline storage tank at a facility.

j. *Poppeted vapor recovery adaptor* means a vapor recovery adaptor that automatically and immediately closes itself when the vapor return line is disconnected and maintains a tight seal when the vapor return line is not connected.

k. *Stationary storage tank* means a gasoline storage container that is a permanent fixture.

l. *Submerged fill pipe* means any fill pipe with a discharge opening which is entirely submerged when the pipe normally used to withdraw liquid from the tank can no longer withdraw any liquid, or which is entirely submerged when the level of liquid is:

1. Six (6) inches above the bottom of the tank if the tank does not have a vapor recovery adaptor; or

2. Twelve (12) inches above the bottom of the tank if the tank has a vapor recovery adaptor.

If the opening of the submerged fill pipe is cut at a slant, the distance is measured from the top of the slanted cut to the bottom of the tank.

m. *Throughput* means the amount of gasoline dispenses at a facility.

(2) Applicability. This rule applies to all gasoline dispensing facilities and gasoline service stations and to delivery vessels delivering gasoline to a gasoline dispensing facility or gasoline service station; and this rule applies to all persons owning, occupying, operating or using a gasoline distribution facility or gasoline service station.

(3) Exemptions. This rule does not apply to:

a. Transfers made to storage tanks at gasoline dispensing facilities or gasoline service stations equipped with floating roofs or their equivalent;

b. Stationary tanks with a capacity of not more than two thousand (2,000) gallons which were in place before July 1, 1979, if the tanks are equipped with a permanent or portable submerged fill pipe;

c. Stationary storage tanks with a capacity of not more than five hundred fifty (550) gallons which were installed after June 30, 1979, if the tanks are equipped with a permanent or portable submerged fill pipe;

d. Stationary storage tanks at a gasoline dispensing facility or gasoline service station where the combined annual throughput of gasoline at the facility or station does not exceed fifty thousand (50,000) gallons, if the tanks are equipped with a permanent submerged fill pipe; and

e. Any tanks used exclusively to test fuel dispensing meters.

(4) No person may cause, suffer, allow or permit the transfer of gasoline from any delivery vessel into any stationary storage tank unless they comply with the following:

a. The stationary storage tank is equipped with a submerged fill pipe and the vapors displaced from the tank during filing are controlled by a vapor control system as described in Paragraph (8) of this rule;

b. The vapor control system is in good working order and is connected and operating with a vapor tight connection;

c. The vapor control system is properly maintained and any damaged or malfunctioning components or elements of design have been repaired, replaced or modified;

d. Gauges, meters or other specified testing devices are maintained in proper working order;

e. All loading lines and vapor lines of delivery vessels and vapor collection systems are equipped with fittings which are leak tight and vapor tight; and

f. All hatches on the delivery vessel are kept closed and securely fastened.

(5) The following records shall be maintained for not less than two (2) years and the same shall be made available for inspection and copy by representative or designees of the Bureau:

a. The scheduled date for maintenance or the date that a malfunction was detected;

b. The date the maintenance was performed or the malfunction corrected; and

c. The date the component or element of design of the control system was repaired, replaced or modified.

(6) The premises of any gasoline dispensing facility or gasoline service station shall be available for inspection by representatives or designees of the Bureau at any time the facility or station is in operation.

(7) The process of transfer of gasoline from any delivery vessel into any stationary storage tank shall be subject to observation and inspection or investigation by representatives or designees of the Bureau.

(8) The vapor control system required by Paragraph (4) of this rule shall include one (1) or more of the following:

a. A vapor-tight line from the stationary storage tank to the delivery vessel and;

1. For a coaxial vapor recovery system, either a poppeted or unpoppeted vapor recovery adaptor; or

2. For a dual point vapor recovery system, a poppeted vapor recovery adaptor; or

b. A refrigeration-condensation system or equivalent designed to recover at least ninety (90) percent by weight of the organic compounds in the displaced vapor.

(9) If an unpoppeted vapor recovery adaptor is used pursuant to Part (8)a.1 of this rule, the tank liquid fill connection shall remain covered either with a vapor-tight cap or a vapor return line except when the vapor return line is being connected or disconnected.

(10) If an unpoppeted vapor recovery adaptor is used pursuant to Part (8)a.1 of this rule, the unpoppeted vapor recovery adaptor shall be replaced with a poppeted vapor recovery adaptor when the tank is replaced or upgraded.

(11) Where vapor lines from the storage tanks are manifolded, poppeted vapor recovery adaptors shall be used. No more than one (1) tank is to be loaded at a time if the manifold vapor lines have a nominal pipe size of less than three (3) inches. If the manifold vapor lines have a nominal pipe size of three (3) inches or larger, then two (2) tanks at a time may be loaded.

(12) Vent lines on stationary storage tanks shall have pressure release valves or restrictors.

(13) The vapor-laden delivery vessel:

a. Shall be designed and maintained to be vapor-tight during loading and unloading operations and during transport with the exception of normal pressure/vacuum venting as required by regulations of the Department of Transportation; and

b. If it is refilled in Hamilton County, Tennessee, shall be refilled only at:

1. Bulk gasoline plants complying with Rule 25.8 of this section; and

2. Bulk gasoline terminals complying with Rule 25.9 of this section.

(14) It shall be the responsibility of owners, occupiers and operators of gasoline dispensing facilities and gasoline service stations to assure compliance with this rule and to disallow the transfer from any delivery vessel that does not comply with those requirements of this rule applicable to delivery vessels. It shall be the responsibility of owners, operators and drivers of delivery vessels to assure compliance with this rule and to refuse to transfer from any delivery vessel that does not comply with those requirements of this rule applicable to delivery vessels.

Rule 25.11. (Reserved)

Rule 25.12. Can coating.

(1) For the purpose of this Rule 25.12, the following definitions apply:

a. *End sealing compound* means a synthetic rubber compound which is coated onto can ends and which functions as a gasket when the end is assembled on the can.

b. *Exterior base coating* means a coating applied to the exterior of a can to provide exterior protection to the metal and to provide background for the lithographic or printing operation.

c. *Interior base coating* means a coating applied by roller coating or spray to the interior of a can to provide a protective lining between the can metal and product.

d. *Interior body spray* means a coating sprayed on the interior of the can body to provide a protective film between the product and the can.

e. *Overvarnish* means a coating applied directly over the ink to reduce the coefficient of friction, to provide gloss and to protect the finish against abrasion and corrosion.

f. *Three-piece can side-seam spray* means a coating sprayed on the exterior and interior of a welded, cemented or soldered seam to protect the exposed metal.

g. *Two-piece can exterior end coating* means a coating applied by roller coating or spraying to the exterior end of a can to provide protection to the metal.

(2) This Rule 25.12 will apply, in accordance with Rule 25.18(3) to coating applicators and ovens of sheet, can or end coating lines involved in sheet basecoat (exterior and interior) and overvarnish; two-piece can exterior (basecoat) and overvarnish; two and three-piece can interior body spray; two-piece can exterior end (spray or roll coat); three-piece can side-seam spray and end sealing compound operations.

(3) No owner or operator of a can coating line subject to this Rule 25.12 may cause, allow or permit the discharge into the atmosphere of any volatile organic compounds, except as provided in Rule 25.41, in excess of:

a. Thirty-four hundredths (0.34) kilograms per liter of coating (two and eight-tenths (2.8) pounds per gallon), excluding water, delivered to the coating applicator from sheet basecoat (exterior and interior) and overvarnish or two-piece can exterior (basecoat and overvarnish) operations.

b. Fifty-one hundredths (0.51) kilograms per liter of coating (four and two-tenths (4.2) pounds per gallon), excluding water, delivered to the coating applicator from two- and three-piece can interior body spray and two-piece can exterior end (spray or roll coat) operations.

c. Sixty-six hundredths (0.66) kilograms per liter of coating (five and five-tenths (5.5) pounds per gallon), excluding water, delivered to the coating applicator from three-piece can side-seam spray operations.

d. Forty-four hundredths (0.44) kilograms per liter of coating (three and seven-tenths (3.7) pounds per gallon), excluding water, delivered to the coating applicator from end sealing compound operations.

(4) This Rule 25.12 will apply to facilities having potential VOC emissions from can coating of twenty-five (25) tons per year or greater.

Rule 25.13. Coil coating.

(1) For the purpose of this Rule 25.13, the following definitions apply:

a. *Coil coating* means the coating of any flat metal sheet or strip that comes in rolls or coils.

b. *Quench area* means a chamber where the hot metal exiting the oven is cooled by either a spray of water or a blast of air followed by water cooling.

(2) This Rule 25.13 will apply, in accordance with Rule 25.13(3), to the coating applicators, ovens and quench areas of coil coating lines involved in prime and top coat or single coat operations.

(3) No owner or operator of a coil coating line subject to this Rule 25.13 may cause, allow or permit the discharge into the atmosphere of any volatile organic compounds in excess of thirty-one hundredths (0.31) kilograms per liter of coating (two and six-tenths (2.6) pounds per gallon excluding water, delivered to the coating applicator from prime and topcoat or single coat operations except as provided in Rule 25.41.

(4) This Rule 25.13 will apply to facilities having potential VOC emissions from can coating of twenty-five (25) tons per year or greater.

Rule 25.14. Fabric and vinyl coatings.

(1) For the purpose of this Rule 25.14, the following definitions apply:

a. *Fabric coating* means the coating of a textile substrate with a knife, roll or rotogravure coater to impart properties that are not initially present, such as strength, stability, water or acid repellancy, or appearance.

b. *Vinyl coating* means applying a decorative or protective topcoat, or printing on vinyl-coated fabric or vinyl sheets.

(2) This Rule 25.14 will apply, in accordance with Rule 25.14(3), to roll, knife or rotogravure coaters and drying ovens of fabric and vinyl coating lines.

(3) No owner or operator of a fabric coating line or a vinyl coating line subject to this Rule 25.14 may cause, allow or permit the discharge into the atmosphere of any volatile organic compounds except as provided in Rule 25.14 in excess of:

a. Thirty-five hundredths (0.35) kilograms per liter of coating (two and nine-tenths (2.9) pounds per gallon), excluding water, delivered to the coating applicator from a fabric coating line.

b. Forty-five hundredths (0.45) kilograms per liter of coating (three and eight-tenths (3.8) pounds per gallon, excluding water, delivered to the coating applicator from a vinyl coating line.

(4) This Rule 25.14 will apply to facilities having potential VOC emissions from fabric and vinyl coating of twenty-five (25) tons per year or greater.

Rule 25.15. Metal furniture coating.

(1) For the purpose of this Rule 25.15, the following definitions apply:

a. *Application area* means the area where the coating is applied by spraying, dipping or flowcoating techniques.

b. *Metal furniture coating* means the surface coating of any furniture made of metal or any metal part which will be assembled with other metal, wood, fabric, plastic or glass parts to form a furniture piece.

(2) This Rule 25.15 will apply, in accordance with Rule 25.15(3), to the application areas, flashoff areas and ovens of metal furniture coating lines involved in prime and topcoat or single coating operations.

(3) No owner or operator of a metal furniture coating line subject to this Rule 25.15 may cause, allow or permit the discharge into the atmosphere of any volatile organic compounds in excess of thirty-six hundredths (0.36) kilograms per liter of coating (three (33) pounds per gallon excluding, water, delivered to the coating applicator from prime and topcoat or single coat operations except as provided in Rule 25.41.

(4) This Rule 25.15 will apply to facilities having the potential VOC emissions from metal furniture coating of twenty-five (25) tons per year or greater.

(5) This Rule 25.15 shall not apply to the use of quick-drying lacquers for repair of scratches and nicks that occur during assembly.

Rule 25.16. Surface coating of large appliances.

(1) For the purpose of this Rule 25.16, the following definitions apply:

a. *Application area* means the area where the coating is applied by spraying, dipping or flowcoating techniques.

b. *Single coat* means a single film of coating applied directly to the metal substrate, omitting the primer application.

c. *Large appliances* means doors, cases, lids, panels and interior support parts of residential and commercial washers, dryers, ranges, refrigerators, freezers, water heaters, dishwashers, trash compactors, air conditioners and other similar products.

(2) This Rule 25.16 will not apply to the use of quick-drying lacquers for repair of scratches and nicks that occur during assembly.

(3) This Rule 25.16 will apply, in accordance with Rule 25.16(4), to the application areas, flashoff areas and ovens of large appliance coating lines involved in prime, single or topcoat coating operations.

(4) No owner or operator of a large appliance coating line subject to this Rule 25.16 may cause, allow or permit the discharge into the atmosphere of any volatile organic compounds in excess of thirty-four hundredths (0.34) kilograms per liter of coating (two and eight-tenths (2.8) pounds per gallon), excluding water, delivered to the coating applicator from prime, single or topcoat coating operations except as provided in Rule 25.41.

(5) This Rule 25.16 will apply to facilities having potential VOC emissions from surface coating of large appliances of twenty-five (25) tons per year or greater.

Rule 25.17. Magnet wire coating.

(1) For the purpose of this Rule 25.17, the following definition applies:

Magnet wire coating means the process of applying a coating of electrically insulating varnish or enamel to aluminum or copper wire for use in electrical machinery.

(2) No owner or operator of a magnet wire coating oven subject to this Rule 25.17 may cause, allow or permit the discharge into the atmosphere of any volatile organic compounds in excess of twenty hundredths (0.20) kilograms per liter of coating (one and seven-tenths (1.7) pounds per gallon), excluding water, delivered to the coating applicator from magnet wire coating operations except as provided in Rule 25.41.

(3) This Rule 25.17 will apply to facilities having potential VOC emissions from magnet wire coating of twenty-five (25) tons per year or greater.

Rule 25.18. Solvent metal cleaning.

(1) For the purpose of this Rule 25.18, the following definitions apply:

a. *Cold cleaning* means the batch process of cleaning and removing greasy soils from metal surfaces by spraying, brushing, flushing or immersion while maintaining the solvent below its boiling point. Wipe cleaning is not included in this definition.

b. *Conveyorized degreasing* means the continuous process of cleaning and removing greasy soils from metal surfaces by operating with either cold or vaporized solvents.

c. *Freeboard height* means the distance from the top of the vapor zone to the top of the degreaser tank for vapor degreasers and from the liquid surface to the top of degreaser toner for cold cleaners.

d. *Freeboard ratio* means the freeboard height divided by the width of the degreaser.

e. *Open top vapor degreasing* means the batch process of cleaning and removing greasy soils from metal surfaces in an open top tank by condensing hot solvent vapor on the colder metal parts.

f. *Solvent metal cleaning* means the process of cleaning greasy soils from metal surfaces by cold cleaning or open top vapor degreasing or conveyorized degreasing.

(2) The provisions of this Rule 25.18 shall apply, in accordance with Rule 25.41, with the following exceptions:

a. Open top vapor degreasers with an open area smaller than one (1) square meter (ten and eight-tenths (10.8) square feet) shall be exempt from parts (5)c.2. and (5)c.4. of this rule;

b. Conveyorized degreasers with an air/vapor interface smaller than two (2.0) square meters (twenty-one and six-tenths (21.6) square feet) shall be exempt from subparagraph (6)b. of this rule.

(3) This Rule 25.18 will apply to facilities having potential VOC emissions from solvent metal cleaning of twenty-five (25) tons per year or greater.

(4) Except as provided under paragraphs (2) and (3) of this rule, the owner or operator of a cold cleaning facility shall:

a. Equip the cleaner with a cover;

b. Equip the cleaner with a facility for draining cleaned parts;

c. Provide a permanent, conspicuous label, summarizing the operating requirements;

d. Store waste solvent only in covered containers and not dispose of waste solvent or transfer it to another party such that greater than twenty percent (20%) of the waste solvent (by weight) can evaporate into the atmosphere;

e. Close the cover whenever parts are not being handled in the cleaner;

f. Drain the cleaned parts for at least fifteen (15) seconds or until dripping ceases; and

g. If used, supply a solvent spray that is a solid fluid stream (not a fine, atomized or shower-type spray) at a pressure which does not cause excessive splashing.

(5) Except as provided under paragraph (2) of this Rule 25.18, the owner or operator of an open top vapor degreaser shall:

a. Equip the vapor degreaser with a cover that can be opened and closed easily without disturbing the vapor zone;

b. Keep the cover closed at all times except when processing work loads through the degreaser;

c. Minimum solvent carryout by:

1. Racking parts to allow complete drainage;

2. Moving parts in and out of the degreaser at less than three and three-tenths (3.3) meters per minute (eleven (11) feet per minute);

3. Holding the parts in the vapor zone at least thirty (30) seconds or until condensation ceases;

4. Tipping out any pools of solvent on the cleaned parts before removal from the vapor zone;

5. Allowing parts to dry within the degreaser for at least fifteen (15) seconds or until visually dry;

d. Not degrease porous or absorbed materials such as cloth, leather, wood or rope:

e. Not occupy more than half of the degreaser's open top area with a workload;

f. Not load the degreaser to the point where the vapor level would drop more than ten (10) centimeters (four (4) inches) when the workload enters the vapor zone;

g. Always spray below the vapor level;

h. Repair solvent leaks immediately or shut down the degreaser;

i. Store waste solvent only in covered containers and not dispose of waste solvent or transfer it to another party such that greater than twenty percent (20%) of the waste solvent (by weight) can evaporate into the atmosphere;

j. Not operate the cleaner so as to allow water to be visually detectable in solvent exiting the water separator;

k. Not use ventilation fans near the degreaser opening, nor provide exhaust ventilation exceeding twenty (20) cubic meters per minute per square meter (sixty-five (65) cubic feet per minute per square foot) of degreaser open area, unless necessary to meet OSHA requirements; and

l. Provide a permanent, conspicuous label summarizing the operating procedures of subparagraphs (5)b. through (5)j. of this rule.

(6) Except as provided under paragraph (3) of this Rule 25.18, the owner or operator of a conveyorized degreaser shall:

a. Not use workplace fans near the degreaser opening, nor provide exhaust ventilation exceeding twenty (20) cubic meters per minute per square meter (sixty-five (65) cubic feet per minute per square foot of degreaser opening, unless necessary to meet OSHA requirements;

b. Equip the cleaner with equipment such as drying tunnel or rotating (tumbling) basket sufficient to prevent cleaned parts from carrying out solvent liquid or vapor;

c. Minimize openings during operation so that entrances and exits will silhouette workloads with an average clearance between the largest parts and the edge of the degreaser opening of less than ten (10) centimeters (four (4) inches) or less than ten percent (10%) of the width of the opening;

d. Provide downtime covers for closing off the entrance and exit during shutdown hours;

e. Minimize carryout emissions by:

1. Racking parts for best drainage; and

2. Maintaining the vertical conveyor speed at less than three and three-tenths (3.3) meters per minute (eleven (11) feet per minute);

f. Store waste solvent only in covered containers and not dispose of waste solvent or transfer it to another party such that greater than twenty percent (20%) of the waste solvent (by weight) can evaporate into the atmosphere;

g. Repair solvent leaks immediately or shut down the degreaser;

h. Not operate the cleaner so as to allow water to be visually detectable in solvent exiting the water separator; and

i. Place downtime covers over entrances and exits of conveyorized degreasers immediately after the conveyors and exhausts are shut down and not remove them until just before startup.

Rule 25.19. Cutback asphalt.

(1) For the purpose of this Rule 25.19, the following definitions apply:

a. *Asphalt means* a dark brown to black cementitious material (solid, semisolid or liquid consistency) in which the predominating constituents are bitumens which occur in nature as such or which are obtained as residue in refining petroleum.

b. *Cutback asphalt* means asphalt cement which has been liquefied by blending with petroleum solvents (diluents). Upon exposure to atmospheric conditions the diluents evaporate, leaving the asphalt cement to perform its function.

c. *Penetrating prime* coat means an application of low viscosity liquid asphalt to an absorbent surface. It is used to prepare an untreated base for an asphalt surface. The prime penetrates the base and plugs the voids, hardens the top, and helps bind it to the overlying asphalt course. It also reduces the necessity of maintaining an untreated based course prior to placing the asphalt pavement.

(2) No person may cause, allow or permit the use or application of cutback asphalts for paving purposes in urban counties except for:

a. Long-term stockpile storage;

b. Application when the ambient temperature is less than fifty degrees (50°) Fahrenheit within four (4) hours after the time of application;

c. Use as a penetrating prime coat; or

d. Use for base stabilization.

Rule 25.20. Reserved.

Rule 25.21. Surface coating of miscellaneous metal parts and products.

(1) For the purpose of this rule, the following definitions apply:

a. *Air dried coating* is a coating which is dried by the use of air or forced warm air at temperatures up to ninety degrees (90°) Celsius (one hundred ninety-four degrees (194°) Fahrenheit);

b. *Clear coating* is a coating which lacks color and opacity or is transparent and uses the undercoat as a reflectant base or undertone color;

c. *Extreme performance coating* is a coating designed for extreme environmental conditions;

d. *Extreme environmental conditions* is exposure to outdoor conditions most of the time, temperatures consistently above ninety-five degrees (95°) Celsius, detergents, abrasive and scouring agents, solvents, corrosive atmospheres or similar environmental conditions;

e. *Coating operation* includes all equipment which applies, conveys and dries a surface coating, including, but not limited to, spray booths, flow coaters, flashoff areas, air dryers and ovens;

f. *Top coating* includes all coatings other than prime coatings.

(2) No owner or operator of a coating operation subject to this rule may cause, suffer, allow or permit the discharge into the atmosphere of any volatile organic compounds from that operation in excess of the following, except as provided for in Rule 25.4 or 25.42 or paragraph (7) of this rule:

a. Fifty-two-hundredths (0.52) kg/l (four and three-tenths (4.3) lb/gal) of coating, excluding water, delivered to a coating applicator in a clear coating operation;

b. Forty-three-hundredths (0.43) kg/l (Three and one-half (3.5) lb/gal) of coating, excluding water, delivered to a coating applicator in an air dried coating operation;

c. Forty-three-hundredths (0.43) kg/l (Three and one-half (3.5) lb/gal) of coating, excluding water, delivered to a coating applicator in an extreme performance coating operation; or

d. Thirty-six-hundredths (0.36) kg/l (three (3.0) lb/gal) of coating, excluding water, delivered to a coating applicator in all other coating operations.

(3) If more than one (1) emission limitation in paragraph (2) applies to a specific coating operation, then the least stringent emission limitation shall be applied.

(4) This rule applies to surface coating of the following miscellaneous metal parts and products:

a. Large farm machinery (harvesting, fertilizing and planting machines, tractors, combines, etc.;

b. Small farm machinery (lawn and garden tractors, lawn mowers, rototillers, etc.);

c. Small appliances (fans, mixers, blenders, crock pots, dehumidifiers, vacuum cleaners, etc.);

d. Commercial machinery (office equipment, computers and auxiliary equipment, typewriters, calculators, vending machines, etc.);

e. Industrial machinery (pumps, compressors, conveyor components, fans, blowers, transformers, etc.);

f. Fabricated metal products (metal covered doors, frames, etc.);

g. Any other industrial category which coats metal parts or products under the Standard Industrial Classification Code of Major Group 33 (primary metal industries), Major Group 34 (fabricated metal products), Major Group 35 (non-electric machinery), Major Group 36 (electrical machinery), Major Group 37 (transportation equipment), Major Group 38 (miscellaneous instruments) and Major Group 39 (miscellaneous manufacturing industries).

(5) This Rule 25.21 does not apply to the surface coating of the following metal parts and products:

a. Automobile and light-duty truck manufacturing plants subject to Rule 25.5;

b. Metal cans;

c. Flat metal sheets and strips in the form of rolls or coils;

d. Magnet wire for use in electrical machinery;

e. Metal furniture;

f. Large appliances;

g. Exterior surface areas of airplanes;

h. Automobile refinishing;

i. Customized top coating of automobiles and truck, if production is less than thirty-five (35) vehicles per day;

j. Exterior surfaces of marine vessels; and

k. Storage vessels.

(6) This rule applies to facilities having potential volatile organic compound emissions of twenty-five (25) or more tons per year from coating operations not otherwise exempt from this rule.

(7) The owner or operator of a coating operation subject to this rule shall:

a. Meet the applicable increments of progress in the following schedule:

1. Submit final plans for the emission control technique before April 1, 1983;

2. Award contracts or purchase orders before July 1, 1983;
3. Initiate on-site construction or installation before December 1, 1983;
4. Complete on-site construction or installation before December 1, 1984;
5. Achieve final compliance before December 31, 1984;

b. Certify to the director within twenty (20) days after each deadline for each applicable increment of progress whether the required increment has been met.

(8) Proof of compliance with the standards of this rule shall be provided by:

a. Methods approved by the director and consistent with:
1. EPA Guideline Series document, "Measurement of Volatile Organic Compounds," EPA-450/2-78-0041;
2. Appendix A of "Control of Volatile Organic Emissions from Existing Stationary Sources-Volume II: Surface Coating of Cans, Coils, Paper, Fabrics, Automobiles, and Light-Duty Trucks," EPA-450/2-77-008; and
3. Rules 25.43, 25.44 and 25.45;

b. Certification by the manufacturer of the composition of coatings, if supported by batch formulation records and approved by the director, may be accepted as the coatings analyses;

c. Monitoring of process equipment and emission control equipment as required by the director to confirm continued compliance.

Rules 25.22 through 25.26. Reserved.

Rules 25.27. Manufacture of synthesized pharmaceutical products.

(1) For the purpose of this rule, the following definitions apply:

a. *Synthesized pharmaceutical manufacturing* is the manufacture of pharmaceutical products by chemical synthesis;

b. *Condenser* is a device which cools a gas stream to a temperature which removes organic compounds by condensation:

c. *Control system* is any number of control devices, including condensers, which are designed and operated to reduce the quantity of volatile organic compounds emitted to the atmosphere.

d. *Exhaust system* is a device for collecting and directing out of the work area volatile organic compound fugitive emissions from the reactor openings, centrifuge openings, and other vessel openings for the purpose of protecting workers from excessive volatile organic compounds exposure;

e. *Reactor* is a vat or vessel which may be jacketed to allow temperature control and is designed to contain chemical reactions.

(2) No owner or operator of a synthesized pharmaceutical manufacturing facility subject to this rule may cause, suffer, allow or permit the discharge into the atmosphere of any volatile organic compounds from that facility, except as provided in Rule 25.4 or 25.42 or paragraph (4) of this rule, unless:

a. From reactors, distillation operations, crystallizers, centrifuges and vacuum dryers that have the potential to emit 6.80 kg/day (15 lb/day) or more of volatile organic compounds, condensers or equivalent control systems shall be used, provided that:
1. If condensers are used, the condenser outlet gas temperature must not exceed:
(i) Minus twenty-five degrees (-25°) Celsius when condensing volatile organic compounds of vapor pressure greater than forty (40.0) kPa (five and eight-tenths (5.8) psi) at twenty degrees (20°) Celsius;

(ii) Minus fifteen degrees (-15°) Celsius when condensing volatile organic compounds of vapor pressure greater than twenty (20.0) kPa (two and nine-tenths (2.9) psi) at twenty degrees (20°) Celsius;

(iii) Minus zero degrees (-0°) Celsius when condensing volatile organic compounds of vapor pressure greater than ten (10.0) kPa (one and one-half (1.5) psi) at twenty degrees (20°) Celsius;

(iv) Ten degrees (10°) Celsius when condensing volatile organic compounds of vapor pressure greater than seven (7.0) kPa (one (1.0) psi) at twenty degrees (20°) Celsius; or

(v) Twenty-five degrees (25°) Celsius when condensing volatile organic compounds of vapor pressure greater than three and one-half (3.50) kPa (one-half (0.5) psi) at twenty degrees (20°) Celsius; or

2. If equivalent control systems are used, the volatile organic compounds emissions must not be in excess of what would be emitted by using condensers which meet the requirements above.

b. From all air dryers and production equipment exhaust systems:

1. Achieve at least ninety percent (90%) control efficiency if total facility uncontrolled emissions are one hundred fifty (150) kg/day (330 lb/day) or more;

2. Reduce emissions to fifteen (15.0) kg/day (thirty-three (33) lb/day) or less if total facility uncontrolled emissions are less than one hundred fifty (150) kg/day (330 lb/day);

c. Provide a vapor balance system or equivalent control system with control efficiency of at least ninety percent (90%) for control of emissions from truck or railcar deliveries to storage tanks with capacities greater than seven thousand five hundred (7,500) liters (two thousand (2,000) gallons) that store volatile organic compounds with vapor pressures greater than twenty-eight (28.0) kPa (four and one-tenth (4.1) psi) at twenty degrees (20°) Celsius;

d. Install pressure/vacuum conservation vents set at —+-0.2 kPa on all storage tanks that store volatile organic compounds with vapor pressures greater than ten (10.0) kPa (one and one-half (1.5) psi) at twenty degrees (20°) Celsius, unless a more effective control system is used;

e. Enclose all centrifuges, rotary vacuum filters, and other filters having an exposed liquid surface, where the liquid contains volatile organic compounds and exerts a total volatile organic compounds vapor pressure of three and one-half (3.50) kPa (one-half (0.5) psi) or more at twenty degrees (20°) Celsius;

f. Install covers on all in-process tanks containing volatile organic compounds;

g. Repair leaks of liquids containing volatile organic compounds.

(3) This rule applies to operations which are sources of volatile organic compounds, including reactors, distillation units, dryers, storage of volatile organic compounds, transfer of volatile organic compounds, extraction equipment, filters, crystallizers and centrifuges that have the potential to emit six and eight-tenths (6.8) kg/day (fifteen (15) lb/day) or more in synthesized pharmaceutical manufacturing facilities having total facility potential emissions, from subject operations, of volatile organic compounds of twenty-five (25) or more tons per year.

(4) The owner or operator of a facility subject to this rule must:

a. Meet the applicable increments of progress contained in the following schedule:

1. Submit final plans for the emission control techniques before April 1, 1983;

2. Award contracts or purchase orders before July 1, 1983;
3. Initiate on-site construction or installation before December 1, 1983;
4. Complete on-site construction or installation before December 1, 1984;
5. Achieve final compliance before December 31, 1984;

b. Certify to the director within twenty (20) days after the deadline for each applicable increment of progress whether the required increment has been met.

Rules 25.28 through 25.40. Reserved.

Rule 25.41. Compliance schedules.

(1) *Process equipment and control devices.* The owner or operator of an existing source of volatile organic compound emissions subject to the standard in this chapter proposing to install and operate a control device and/or replacement process equipment to comply shall adhere to the increment of progress contained in the following schedule:

a. Final plans for the emission control device and/or process equipment must be submitted before March 1, 1980.

b. Contracts for the emission control systems and/or process equipment must be awarded or orders must be issued for purchase of component parts before June 1, 1980.

c. Initiation of on-site construction of control device or process equipment before January 1, 1981.

d. On-site construction or installation of the control device or process equipment completed before October 1, 1981.

e. Final compliance shall be determined before November 1, 1981 in accordance with the methods specified by the director.

f. Any owner or operator of an existing emission source subject to the compliance schedule of this section shall certify to the director within thirty (30) days after the deadline for each increment of progress whether the required increment of progress has been met.

(2) *Low solvent content coating.* The owner or operator of an existing source of volatile organic compound emissions subject to the standards in this chapter proposing to employ low solvent content coating technology to comply shall adhere to the increments of progress contained in the following schedule:

a. Final plans for the application of low solvent content coating technology must be submitted before March 1, 1980.

b. Research and development of low solvent content coating must be completed before September 1, 1980.

c. Evaluation of product quality and commercial acceptance must be completed before January 1, 1981.

d. Purchase orders must be issued for low solvent content coatings and process modifications before April 1, 1981.

e. Initiation of process modifications must begin before June 1, 1981.

f. Process modifications must be completed and use of low solvent content coatings must begin before August 1, 1981.

g. Final compliance shall be determined before September 1, 1981, in accordance with the methods specified by the director.

h. Any owner or operator of an existing source subject to the compliance schedule of this section shall certify to the director within twenty (20) days after the deadline for each increment of progress whether the required increment of progress has been met.

(3) *Equipment modification.* The owner or operator of an existing source of volatile organic compound emissions subject to the standards in this chapter proposing to comply by modification of existing process equipment shall adhere to the increments of progress contained in the following schedule:

a. Final plans for process modification must be submitted before March 1, 1980.

b. Contracts for process modifications must be awarded or orders must be issued for the purchase of component parts to accomplish process modifications before June 1, 1980.

c. Initiation of on-site construction or installation of process modifications must begin before January 1, 1981.

d. On-site construction or installation of process modifications must be completed before October 1, 1981.

e. Final compliance shall be determined before November 1, 1981, in accordance with the methods specified by the director.

f. Any owner or operator of an existing source subject to the compliance schedule of this section shall certify to the director within thirty (30) days after the deadline for each increment of progress whether the required increment of progress has been met.

Rule 25.42. Individual compliance schedules.

(1) A facility may petition for a source-specific compliance schedule extending beyond those categorical compliance schedules contained in Rule 25.41 only if one (1) or more of the following conditions are satisfied:

a. The facility demonstrates that it is physically impossible for the source in question to comply with the date in the categorical schedule.

b. That, by allowing additional time, innovative technology will be applied and the reductions to be achieved will be significantly greater than that from the applicable emission standard. That the facility agrees that this revised value will be contained on the permit as a condition of source operation.

c. Additional time is necessary to allow for the development of low solvent systems rather than apply add-on controls.

d. The facility in question is a part of a state-wide or multistate program to prioritize the sequence of installing controls at a number of similar sources owned or controlled by the same company, and the overall compliance program is as expeditious as practicable.

(2) Individual compliance schedules approved under this section must contain the increments of progress below and achieve final compliance with the specified emission standard no later than July 1, 1987:

a. Date control plan will be submitted.

b. Date contract will be awarded.

c. Date initial construction will commence.

d. Date construction will be completed.

e. Date final compliance will be achieved.

(3) Individual compliance schedules approved under this section will be subjected to a public hearing and incorporated as a revision to these regulations. The facility requesting such individual compliance schedule shall be responsible for all costs associated with the required legal notices.

(4) No individual compliance schedule will be granted if such a revised schedule would interfere with reasonable further progress in the county.

(5) The petition for the individual compliance schedule must be received by the director prior to the first date contained in the categorical compliance schedule.

Rule 25.43. General provisions for test methods and procedures.

(1) The owner or operator of any new or existing source required to comply with standards contained in this chapter shall at his own expense, when so directed by the director, demonstrate compliance by the following methods or an alternative method approved by the director.

(2) No volatile organic compound emissions compliance testing will be allowed, nor the results accepted, unless prior notification has been supplied to the director as required under paragraphs (3) and (4) of this Rule 25.43, and the director has granted approval.

(3) Any person proposing to conduct a volatile organic compound emissions compliance test shall notify the director of the intent to test not less than thirty (30) days before the proposed initiation of the tests so the director may, at his option, observe the test.

(4) For compliance determination, the owner or operator of any new or existing source shall be responsible for providing:

a. Sampling ports, pipes, lines or appurtenances for the collection of samples and data required by the test procedure;

b. Safe access to the sample and data collection locations; and

c. Light, electricity and other utilities required for sample and data collection.

(5) A copy (or copies) of the test report shall be submitted to the director by the prescribed time period in a format stipulated by the director.

Rule 25.44. Determination of volatile content of surface coatings.

(1) This method applies, in accordance with Rule 25.43, to paint, varnish, lacquer and surface coatings which are air-dried or force dried.

(2) This method does not apply to any coating system requiring a special curing process such as:

a. Exposure to temperatures in excess of one hundred ten degrees (110°) Celsius (two hundred thirty degrees (230°) Fahrenheit) to promote thermal cross-linking; or

b. Exposure to ultraviolet light to promote cross-linking.

(3) For the purpose of this method, the applicable surface coatings are divided into three (3) classes. They are:

a. Class I: General solvent-type paints. This class includes white linseed oil outside paint, white soya and phthalic alkyd enamel, white linseed o-phthalic alkyd enamel, red lead primer, zinc chromate primer, slat white inside enamel, white epoxy enamel, white vinyl toluene modified alkyd, white amino modified baking enamel, and other solvent-type paints not included in Class II.

b. Class II: Varnishes and lacquers. This class includes clear and pigmented lacquers and varnishes.

c. Class III: Water-thinned paints. This class includes emulsion or latex paints and colored enamels.

(4) For the purposes of this method, a representative sample of the surface coating shall be obtained at the point of delivery to the coater or any other point in the process that the director approves.

(5) The volatile organic content of the sample shall be determined as follows:

a. Assign the coating to one (1) of the three (3) classes in paragraph c. of this section. Assign any coating not clearly belonging to Class II or III or Class I.

b. Determine the density D_m (in grams per cubic centimeter) of the paint, varnish, lacquer or, related product according to the procedure outlined in ASTM D 1475-60, Standard Method of Test for Density of Paint, Varnish, Lacquer and Related Products. Then, depending on the class of the coating, use one (1) of the following specified procedures to determine the volatile content:

1. Class I. Use the procedure in ASTM D 2369-73, Standard Method of Test for Volatile Content of Paints.

(i) Record the following information:

W_1 = Weight of dish and sample, grams

W_2 = Weight of dish and sample after heating, grams

S = Sample, weight, grams

(ii) Compute the volatile matter content C, (in grams/liter of paint) as follows:

$$C_v = \frac{(W_1 - W_2)(D_m)(10^3)}{S}$$

(iii) To convert grams per liter to pounds per gallon, multiply C, by 8.3455×10^{-3}.

2. Class II. Use the procedure in ASTM D 1644-59 Method A, Standard Methods of Test for Nonvolatile Content of Varnishes. (Do not use Method B).

(i) Record the following information:

A = Weight of dish, grams

B = Weight of sample used, grams

C = Weight of dish and contents after heating, grams

(ii) Compute the volatile matter content C, (in grams/liter of paint) as follows:

$$C_v = \frac{(A + B - C)(D_m)(10^3)}{B}$$

(iii) To convert grams per liter to pounds per gallon, multiply C_v by 8.3455×10^{-3}.

3. Class III. Use the procedure in ASTM D 2369-73, Standard Method of Test for Volatile Content of Paints.

(i) Record the same information as specified for Class II.

(ii) Determine the water content in P (in percent water) of the paint according to the procedure outlined in Federal Standard 141a, Method 4082.1, Water in Paint and Varnishes (Karl Fischer Titration Method).

(iii) Compute the nonaqueous volatile matter content C, (in grams/liter) as follows:

$$C_v = \frac{(W_1 - W_2 - 0.01\ PS)(D_m)(10^3)}{S}$$

(iv) To convert grams per liter to pounds per gallon, multiply C_v by 8.3455×10^{-3}.

Rule 25.45. Test method for determination of volatile organic compound emission control system efficiency.

(1) The provisions of this section are generally applicable, in accordance with Rule 25.43, to any test method employed to determine the collection or control efficiency of any device or system designed, installed and operated for the purpose of reducing volatile organic compound emissions.

(2) The following procedures shall be included in any efficiency determination:

a. The volatile organic compound containing material shall be sampled and analyzed in a manner approved by the director such that the quantity of emissions that could result from the use of the material can be quantified.

b. The efficiency of any capture system used to transport the volatile organic compound emissions from their point of origination to the control equipment shall be computed using accepted engineering practice and in a manner approved by the director.

c. Samples of the volatile organic compound shall be taken simultaneously at the inlet and outlet of the emissions control device in a manner by the director.

d. The total combustible carbon content of the samples shall be determined by a method approved by the director.

e. The efficiency of the control device shall be expressed as the fraction of total combustible carbon content reduction achieved.

f. The volatile organic compound mass emission rate shall be the sum of emissions from the control device, emissions not collected by the capture system and capture system losses.

Rule 25.46. Test method for determination of solvent metal cleaning organic compound emissions.

(1) This method is applicable to determining volatile organic compound emissions from solvent metal cleaning equipment in accordance with Rule 25.43.

(2) The purpose of this method is to quantify, by material balance, the amount of solvent input into a degreaser over a sufficiently long period of time so that an average emission rate can be computed.

(3) The following procedure shall be followed to perform a material balance test:

a. Clean the degreaser sump before testing.

b. Record the amount of solvent added to the tank with a flow meter.

c. Record the weight and type of work load degreased each day.

d. At the end of the test run, pump out the used solvent and measure the amount with a flow meter. Also, estimate the volume of metal chips and other material remaining in the emptied sump, if significant.

e. Bottle a sample of the used solvent and analyze it to find the percent that is oil and other contaminants. The oil and solvent proportions can be estimated by weighing samples of used solvent before and after boiling of the solvent. The volume of solvent displaced by this oil along with the volume of makeup solvent added during operations is equal to the solvent emission.

Rule 25.47. Test procedure for determination of VOC emissions from bulk gasoline terminals.

(1) *Use of test.* This test method is applicable to determining volatile organic compound emissions from bulk gasoline terminals in accordance with Rule 25.43.

(2) *Principle.* VOC mass emissions are determined directly using flow meters and hydrocarbon analyzers. The volume of liquid gasoline dispensed is determined by a computation based on the metered quantity of gasoline at the loading rack. Test results are expressed in milligrams of hydrocarbons emitted per liter of gasoline transferred.

(3) *Summary of the method.* This method describes the test conditions and test procedure to be followed in determining the emissions from systems installed to control volatile organic compound vapors resulting from tank truck and trailer loading operations at bulk terminals. Under this procedure, direct measurements are made to compute the hydrocarbon mass exhausted from the vapor control system. All possible sources of leaks are qualitatively checked to insure that no uncontrolled vapors are emitted to the atmosphere. The results are expressed in terms of mass hydrocarbons emitted per unit volume of gasoline transferred. Emissions are determined on a total hydrocarbon basis. If methane is present in the vapors returned from the tank trucks or trailers, provisions are included for conversion of a total nonmethane hydrocarbon basis.

(4) *Applicability.* This method is applicable to determining VOC emission rates at tank truck and trailer gasoline loading terminals employing vapor collection systems and either continuous or intermittent vapor control systems. This method is applicable to motor tank truck and trailer loading only as per Rule 25.9.

(5) *Apparatus.* The components essential to the evaluation of emissions from gasoline loading terminals.

a. Portable combustible gas detector equipped to read zero (0) to one hundred (100) percent of the lowest explosive limit;

b. Flexible thermocouple with recorder;

c. Gas volume meter, sized for the expected exhaust flow rate and range;

d. Total hydrocarbon analyzer with recorder (flame ionization detector or nondispersive infrared equipped to read zero (0) to ten percent (10%) by volume hydrocarbon as propane for vapor control systems which recover the vapor as liquid; or zero (0) to ten thousand (10,000) ppm hydrocarbons as propane for incineration vapor control systems);

e. Barometer to measure atmospheric pressure;

f. Gas chromatography/flame ionization detector with a column to separate C_1-C_7 alkanes, used if methane is present in recovered vapors or if incineration is the vapor control technique.

(6) *Test requirements.*

a. No fewer than three (3) eight-hour test repetitions will be performed.

b. During the test period, all loading racks shall be open for each product line which is controlled by the system under test. Simultaneous use of more than one (1) loading rack shall occur to the extent that such use would normally occur.

c. Simultaneous use of more than one (1) dispenser on each loading rack shall occur to the extent that such use would normally occur.

d. Dispensing rates shall be set at the maximum rate at which the equipment is designed to be operated. Automatic product dispensers are to be used according to normal operating practices.

e. Applicable operating parameters of the vapor control system shall be monitored to demonstrate levels. For intermittent vapor control systems employing a vapor holder, each

test repetition shall include at least one (1) fully automatic operation cycle of the vapor holder and control device. Tank trucks and truckers shall be essentially leak-free as determined by the director.

(7) *Basic measurements required.* The basic measurements essential to the evaluation of emissions from gasoline loading terminals are:

a. The amount of gasoline dispensed from gasoline dispensers;

b. Leak check of all fittings and vents; exhaust:

c. The following items for the processing unit exhaust:

1. Temperature;

2. Pressure;

3. Volume of vapors;

4. Hydrocarbon concentration of vapors;

5. Gas chromatograph analysis of vapors if methane is present in recovered vapors.

(8) *Test procedure.*

a. Calibrate and span all instruments as outlined under paragraph (10) of this rule.

b. Install an appropriately sized gas meter on the exhaust vent of the vapor control system. For those vapor control systems where size restrictions preclude the use of a volume meter, or when incineration is used for vapor control, a gas flow rate meter) orifice, pitot tube, annubar, etc.) is necessary. At the meter inlet, install a thermocouple with recorder. Install as tap at the volume meter outlet. Attach a sample line for a total hydrocarbon analyzer (zero (0) to ten percent (10%) as propane) to this tap. If the meter pressure is different than barometric pressure, install a second tap at the meter outlet and attach an appropriate manometer for pressure measurement. If methane analysis is required, install a third tap for connection to a constant volume sample/pump evacuated bag assembly as described in Method 3, Federal Register, 36:247, December 23, 1977.

c. Measurements and data required for evaluating emissions from the system:

1. At the beginning and end of each test repetition, record the volume readings on each product dispenser on each loading rack served by the system under test.

2. At the beginning of each test repetition and each two (2) hours thereafter record the ambient temperature and the barometric pressure.

3. For intermittent vapor control systems employing a vapor holder, the unit shall be manually started and allowed to process vapors in the holder until the lower automatic cutoff is reached. This cycle should be performed immediately prior to the beginning of the test repetition before readings required under part 8(c)1 of this rule are taken.

4. For each cycle of the vapor control system during each test repetition, record the start and stop time, the initial and final gas meter readings, the average vapor temperature, pressure and hydrocarbon concentration. If a flow rate meter readouts continuously during the cycle. If required, extract a sample continuously during each cycle for chromatographic analysis for specific hydrocarbons.

5. For each tank truck or trailer loading during the test period, check all fittings and seals on the tanker compartments with the combustible gas detector. Record the maximum combustible gas reading for any incidents of leakage of hydrocarbon vapors. Explore the entire periphery of the potential leak source with the sample hose inlet one (1) centimeter (four-tenths (0.4) inches) away from the interface.

6. During each test period, monitor all possible sources of leaks in the vapor collection and control systems with the combustible gas indicator. Record the location and combustible gas reading for any incidents of leakage.

7. For intermittent vapor control systems, the control unit shall be manually started and allowed to process vapors in the holder until the lower automatic shut off is reached at the end of each test repetition.

(9) *Calculations.*

a. Terminology:

T_a = Ambient temperature

P_b = Barometric pressure (mm Hg)

L_t = Total volume of liquid dispensed from all controlled racks during the test period (liters)

V_e = Volume of air-hydrocarbon mixture exhausted from the processing unit (M^3)

V_{es} = Normalized volume of air-hydrocarbon mixture exhausted, NM^3 at 20°C, 760 mm Hg

C_e = Volume fraction of hydrocarbons in exhausted mixture (volume percent as C_3H_{10}/100, corrected for methane content if required)

T_e = Temperature at processing unit exhaust (°C)

P_e = Pressure at processing unit exhaust (mm Hg abs)

$(M/L)_e$ = Mass of hydrocarbons exhausted from the processing unit per volume of liquid loaded, (mg/liter)

b. 1. Calculate the following results for each period of the vapor control system:

$V_e = V_{ef}V_{ei}(M^3)$

Where:

V_e = Totalized volume from flow rate and time records

V_{ef} = Final volume

V_{ei} = Initial volume

2. Normalized volume of exhausted mixture:

$$V_{es} = \frac{(0.3858\ °K/mm\ Hg)\ VePe}{(T_e + 273.2)}\ NM \text{ at } 20°C, 760 \text{ mm Hg}$$

3. Mass of hydrocarbons exhausted from the vapor control system:

$$M_e = (1.833 \times \frac{10^6\ mg\ C_3\ H_8}{NM^3\ C_3\ H_8})$$

c. Calculate the average mass of hydro carbons emitted per volume of gasoline loaded:

$$(M/L)_e = \frac{Me}{Lt}\ (mg/liter)$$

(10) *Calibrations.*

a. Flow meters shall be calibrated using standard methods and procedures which have been approved by the director.

b. Temperature recording instruments shall be calibrated prior to a test period and following the test period using an ice bath (zero degrees Celsius) and a known reference temperature source of about thirty-five degrees (35°) Celsius. Daily during the test period, use an accurate reference to measure the ambient temperature and compare the ambient temperature reading of all other instruments to this value.

c. Manufacturer's instructions concerning warmup and adjustments shall be followed for total hydrocarbon analyzers. Prior to and immediately after the emission test, perform a comprehensive laboratory calibration on each analyzer used. Calibration gases should be propane in nitrogen prepared gravimetrically with mass quantities of approximately one hundred percent (100%) propane. A calibration curve shall be provided using a minimum of five (5) prepared standards in the range of concentrations expected during testing:

1. For each repetition, zero with zero gas (3 ppm C) and span with seventy percent (70%) propane for instruments used in the vapor lines and with ten percent (10%) propane for instruments used at the vapor control system exhaust.
2. The zero and span procedure shall be performed at least once prior to the first test measurement, once during the middle of the run, and once following the final test measurement for each run.
3. Conditions in calibration gas cylinders must be kept such that condensation of propane does not occur. A safety factor of two (2) for pressure and temperature is recommended.

Rule 26. Reasonably Available Control Technology (RACT).

Rule 26.1. General provisions.

(1) No person shall cause, suffer, allow or permit any source located inside the particulate matter nonattainment area, or any source of a plant located outside the particulate matter nonattainment area which plant significantly impacts the nonattainment area, to emit particulate matter concentrations in excess of the limitations set forth in this Rule 26. If the particulate matter nonattainment area is redesignated to attainment or unclassifiable, the emission limitations contained in this Rule 26 shall remain in full force and effect for those plants to which this Rule 26 had applicability on its effective date. No source shall be deemed in automatic violation of the emission limitations in this Rule 26 provided that each increment of progress established pursuant to Rules 26.21 and 26.22 is met in a timely fashion.

(2) This Rule 26 shall apply only to those sources and plants specified in Rule 26.1(1) which were in existence on January 1, 1978.

(3) Nothing in this Rule 26 shall prevent a source from exceeding the limitations set forth in this Rule 26 as provided for in section 4-13 by use of an alternate control strategy so that maximum allowable particulate matter limitations for the plant containing the source are not exceeded on either daily or an annual basis.

(4) If any source is subject to more than one (1) of the limitations in this Rule 26, for any one (1) piece of equipment or operation, then the most stringent limitation shall apply.

(5) The limitations of this Rule 26 shall not apply to emissions from any internal combustion engine.

(6) Definitions. As used in this Rule 26, all terms, units and abbreviations not defined herein but defined in section 4-2 shall have the meaning give them in section 4-2.

a. *Asphalt concrete plant* means any plant used to manufacture asphalt concrete by heating and drying aggregate and mixing with asphalt cements.

b. *Btu* means British thermal unit.

c. *Ceramic plant* means any plant used for the manufacture of any product made essentially from a nonmetallic mineral by firing at a high temperature.

d. CO_2 means carbon dioxide.

e. *(Reserved)*

f. *Drop point* means any area where particulate laden process or waste material is allowed to fall in a manner which causes particulate matter to become airborne.

g. *Concrete batch plant* means any plant where sand, aggregate and cement are transferred to vehicles which transport the batch to a site.

h. *dscf* means dry cubic feet at standard conditions.

i. *Dust disturbance point* means any area where particulate laden process or waste material is exposed to activities which cause particulate matter to become airborne.

j. *(Reserved)*

k. *gr* means grain (one-seven-thousandth (1/7000th) pound avoirdupois weight).

l. *Grain* means any corn, wheat, sorghum, rice, rye, oats, barley or soybeans.

m. *Grain elevator* means any plant used for the processing, unloading, loading, handling, cleaning, drying or storing of grain.

n. *Liquid alum reactor* means any plant used to complete the reaction of required ingredients under pressure in a reactor for manufacturing alum.

o. *Material handling source* means any plant engaging in the processing or storing of materials by conveyor, elevator, feeder, vehicle or other method including loading or unloading.

p. *Metal melting plant* means any plant engaged in the smelting or refining of ferrous and nonferrous metals from ore, pig or scrap.

q. *Outlet concentration* means the particulate matter content of gases exhausted from control equipment, expressed in weight per unit volume.

r. *Portland cement plant* means any plant used for the manufacturing of Portland-type cement by either the wet or dry process.

s. *Pharmaceutical plant* means any plant used for the conversion of basic raw material into products used in the manufacture or pharmaceuticals.

t. *Rare earth plant* means any plant used for the processing of menozite sand to extract the rare earth elements.

u. *Rock crushing and quarry operation* means any plant engaged in operating gravel pits and quarries and in crushing, washing, screening and otherwise preparing gravel for construction use.

v. *Rule 26.1(6)v. (Reserved)*

w. *Synthetic yarn plant* means any plant used for the processing of synthetic fibers in the form of monofilament, yarn, staple or tow suitable for further manufacturing on spindles, looms, knitting machines or other textile processing equipment.

x. *Transfer point* means any area where particulate laden process or waste material moves from one (1) conveyance to another in such a manner which causes particulate matter to become airborne.

y. *Woodworking plant* means any plant used for manufacturing articles made entirely or partially of wood or wood substitutes.

Rule 26.2. Asphalt concrete plants. No person shall cause, suffer, allow or permit to be emitted from any asphalt concrete plant operation any gases which:

(1) Contain particulate matter in excess of 0.040 gr/dscf;

(2) Exceed twenty percent (20%) opacity for an aggregate of more than five (5) minutes in any one (1) hour or more than twenty (20) minutes in any twenty-four (24) hour period.

Rule 26.3. Ceramics plants.

(1) No person shall cause, suffer, allow or permit to be emitted from any ceramics plant operation any gases which contain particulate matter in excess of:

a. 0.025 gr/dscf from any spray dryer;

b. 0.022 gr/dscf from any machining system;

c. 0.100 gr/dscf from any calciner;

d. 0.090 gr/dscf from any tunnel kiln;

e. 0.020 gr/dscf from any other equipment or operation.

(2) No person shall cause, suffer, allow or permit to be emitted from any transfer point, drop point or dust disturbance point any particulate matter in excess of 0.020 gr/dscf.

Rule 26.4. (Reserved)

Rule 26.5. Concrete batch plants. No person shall cause, suffer, allow or permit to be emitted from any concrete batch plant operation any gases which:

(1) Contain particulate matter in excess of 0.100 gr/dscf from any belt conveyor, clam shell crane, bucket elevator or truck loadout;

(2) Exceed ten percent (10%) opacity for an aggregate of more than fifteen (15) minutes in any one (1) hour or more than sixty (60) minutes in any twenty-four (24) hour period from any belt conveyor, clam shell crane, bucket elevator or loadout;

(3) Exceed five percent (5%) opacity for an aggregate of more than five (5) minutes in any one (1) hour or more than twenty (20) minutes in any twenty-four (24) hour period from any storage silo.

Rule 26.6. Fuel-burning equipment. No person shall cause, suffer, allow or permit to be emitted from any fuel-burning equipment any gases which contain particulate matter in excess of the limitations determined as follows:

(1) Determine the total rated fuel-burning capacity of all fuel-burning equipment at a plant in millions of Btu, designated as "B" in Table 1 below, and then using Table 1, determine the allowable emission rate in pounds per million Btu (lbs/10^6 Btu), designated as "Q" in Table 1.

(2) To determine compliance, calculate actual emissions rate (lbs/10^6 Btu) when all equipment is burning the most particulate-producing fuel that equipment is capable of handling.

(3) A lower fuel-burning capacity may be specified if the owner or operator notifies the bureau in writing that the specified fuel-burning rate will not be exceeded any time during the year, and fuel monitoring equipment and verification logs adequate to determine fuel-burning rates are available to the bureau for inspection during normal business hours. This lower, specified fuel-burning rate will become a permit condition.

(4) If the owner or operator of the equipment agrees to utilize a technique whereby a less polluting fuel will be used in conjunction with the more polluting fuel to achieve these emissions limitations, and this agreement is made a permit condition, the provisions of Rule 26.6(2) shall not apply.

(5) This Rule 26.6 shall not apply to equipment designed to be fueled solely by coke oven gas.

TABLE 1

Equipment Rating (10^6 Btu)	*Maximum Allowable Particulate Emissions (lbs/10^6 Btu)*
Below 10	Q = 0.6
10 to 250	$Q = 2.16 \times B^{-0.5566}$
250 and greater	Q = 0.1

Rule 26.7. (Reserved)

Rule 26.8. Grain elevators.

(1) No person shall cause or allow to be operated a grain dryer unless it complies with one (1) of the following:

a. No existing column grain dryers shall have external sheeting with transverse perforations of effective circular diameter greater than 0.094 inch.

b. No existing rack grain dryers shall have any portion of exhaust air emitted to the atmosphere without passing through a particulate collection screen having a maximum opening of 50-mesh US Sieve series.

c. All other types of grain dryers shall be controlled in a manner which shall result in the same degree of control required pursuant to Rule 26.8(1)a. and Rule 26.8(1)b.

(2) The owner or operator may use methods of emission control other than those described above, or combinations of the same, if it is demonstrated to the director's satisfaction that these other methods or combinations would result in the same degree of control required pursuant to Rule 26.8(1)a. and Rule 26.8(1)b.

(3) No person shall cause or allow to be emitted from any grain dryer gases which exceed zero percent opacity.

(4) No person shall cause to be emitted from any process where the exhaust gases have a dew point higher than the ambient temperature any gases which contain particulate matter in excess of 0.050 grains per dscf. This regulation shall not apply to those processes specified in Rule 26.8(1).

(5) No person shall cause to be emitted from any grain elevator process other than those specified in Rule 26.8(1) any gases which contain particulate matter in excess of 0.010 grains per dscf.

(6) No person shall cause, suffer, allow or permit to be emitted from any grain handling operation except barge or ship loading any particulate matter which exceeds ten percent (10%) opacity for an aggregate of more than fifteen (15) minutes in any one-hour period or more than sixty (60) minutes in any twenty-four (24) hour period.

(7) No person shall cause, suffer, allow or permit to be emitted from any grain barge or ship loading operation any particulate matter which exceeds twenty percent (20%) opacity for an aggregate of more than five (5) minutes in any one-hour period or more than twenty (20) minutes in any twenty-four (24) hour period.

Rule 26.9. (Reserved)

Rule 26.10. Liquid alum reactors. No person shall cause, suffer, allow or permit to be emitted from any liquid alum reactor operation any gases which:

(1) Contain particulate matter in excess of 0.250 gr/dscf;

(2) Exceed twenty percent (20%) opacity for an aggregate of more than five (5) minutes in any one (1) hour or more than twenty (20) minutes in any twenty-four (24) hour period.

Rule 26.11. Material handling sources. No person shall cause, suffer, allow or permit to be emitted from any material handling operation, including stored product or waste material, any particulate matter which exceeds ten percent (10%) opacity for an aggregate of more than fifteen (15) minutes in any one-hour period or sixty (60) minutes in any twenty-four (24) hour period.

Rule 26.12. Metal melting plants.

(1) No person shall cause, suffer, allow or permit to be emitted from any metal melting plant operation any gases which contain particulate matter in excess of 0.020 gr/dscf except from operations specified in Rule 26.12(2), (3) and (4).

(2) No person shall cause, suffer, allow or permit to be emitted from any sand transfer point, drop point or dust disturbance point, any particulate matter in excess of 0.02 gr/dscf.

(3) No person shall cause, suffer, allow or permit to be emitted from any inoculation operation any gases which contain particulate matter in excess of 0.022 gr/dscf.

(4) No person shall cause, suffer, allow or permit to be emitted from any cupola top gases which contain particulate matter in excess of 0.022 gr/dscf.

(5) No person shall cause, suffer, allow or permit to be emitted from any metal melting plant any gases which exceed twenty percent (20%) opacity for an aggregate of more than five (5) minutes in any one (1) hour or more than twenty (20) minutes in any twenty-four (24) hour period.

(6) This Rule 26.12 shall not apply to any metal melting plant with a melting capacity of forty (40) tons per day, or ten thousand (10,000) tons per year metal melted, or less.

Rule 26.13. Pharmaceutical plants. No person shall cause, suffer, allow or permit to be emitted from any pharmaceutical plant operation any gases which:

(1) Contain particulate matter in excess of 0.020 gr/dscf.

(2) Exceed twenty percent (20%) opacity for an aggregate of more than five (5) minutes in any one (1) hour, or more than twenty (20) minutes in any twenty-four (24) hour period.

Rule 26.14. Portland cement plants.

(1) No person shall cause, suffer, allow or permit to be emitted from any Portland cement plant operation any gases which contain particulate matter in excess of:

a. The applicable emission limitation established under Rule 10 from any cement kiln or clinker cooler; provided, however, that process weight for any cement kiln shall be calculated using the dry feed basis;

b. 0.020 gr/dscf from any stack or vent serving any raw or finish mill system, raw mill dryer, raw materials storage, conveyor transfer point bagging, bulk loading or unloading system.

(2) No person shall cause, suffer, allow or permit to be emitted from any stack or vent serving any transfer point, drop point or dust disturbance point any particulate matter in excess of 0.020 gr/dscf.

(3) No person shall cause, suffer, allow or permit to be emitted from any Portland cement plant operation specified in Rule 26.14 (1) and (2), any gases which exceed twenty percent (20%) opacity for an aggregate of more than five (5) minutes in any one (1) hour or more than twenty (20) minutes in any twenty-four (24) hour period. For the purpose of this Rule 26.14(3), the provisions of Rule 26.11 shall not apply to material handling sources located at any Portland cement plant operation.

(4) The owner or operator of any source of particulate matter emissions subject to the limitations in this Rule 26.14 proposing to install and operate a control device or replacement process equipment, or proposing to modify existing process equipment or control device, shall adhere to the increments of progress contained in the following schedule:

a. Final plans for the installation or modification must be submitted before January 1, 1982.

b. Contracts for the control device or process equipment must be awarded or orders must be issued for purchase of component parts before February 1, 1982.

c. Initiation of on-site construction or modification of the control device or process equipment before March 1, 1982.

d. On-site construction, installation of modification completed and final compliance shall be determined before December 31, 1982. Final compliance shall be determined in accordance with methods specified by the director.

(5) Any owner or operator subject to the compliance schedule contained in Rule 26.14(4) shall certify to the director, within thirty (30) days after the deadline for each increment of progress, whether the required increment of progress has been met.

(6) The provisions of Rules 26.21 and 26.22 shall not apply to any owner or operator of any Portland cement plant subject to this Rule 26.14.

Rule 26.15. Rare earth plants.

(1) No person shall cause, suffer, allow or permit to be emitted from any earth plant operation any gases which:

a. Contain particulate matter in excess of 0.100 gr/dscf;

b. Exceed twenty percent (20%) opacity for an aggregate of more than five (5) minutes in any one (1) hour or more than twenty (20) minutes in any twenty-four (24) hour period.

(2) No person shall cause, suffer, allow or permit to be emitted from any transfer point, drop point or dust disturbance point, particulate matter in excess of 0.020 gr/dscf.

Rule 26.16. Rock crushing and quarry operation.

(1) No person shall cause, suffer, allow or permit to be emitted from any rock crushing or quarry operation any particulate matter in excess of:

a. 0.075 pounds per ton of rock crushed from any primary or secondary crushing or primary or secondary crushing or primary or secondary screening equipment;

b. 0.300 pounds per ton of rock crushed from any tertiary crushing or tertiary screening equipment, or any fines mill equipment;

c. 0.250 pounds per ton of rock crushed from any recrusher or recrusher screening equipment;

d. 0.100 pounds per ton of rock crushed from any sand and gravel screening, conveying or handling equipment.

(2) No person shall cause, suffer, allow or permit to be emitted from any rock crushing or quarry operation any particulate matter which exceeds ten percent (10%) opacity for an aggregate of more than fifteen (15) minutes in any one (1) hour or more than sixty (60) minutes in any twenty-four (24) hour period.

Rule 26.17. Synthetic yarn plants.

(1) No person shall cause to be emitted from any synthetic yarn plant any particulate matter in excess of:

a. 1.0 pounds per hour from any spinning machines;

b. 1.2 pounds per hour from any evaporator;

c. 1.0 pounds per hour from any autoclave;

d. 1.5 pounds per hour from any continuous polymerization line.

(2) No person shall cause, suffer, allow or permit to be emitted from any synthetic yarn plant any gases which exceed twenty percent (20%) opacity for an aggregate of more than five (5) minutes in any one (1) hour or more than twenty (20) minutes in any twenty-four (24) hour period.

Rule 26.18. Woodworking plants.

(1) No person shall cause, suffer, allow or permit to be emitted from any woodworking operation any gases which contain particulate matter in excess of:

a. 0.030 gr/dscf from any woodworking operation except sanding;

b. 0.050 gr/dscf from any sanding operation.

(2) No person shall cause, suffer, allow or permit to be emitted from any transfer point, drop point or dust disturbance point any particulate matter in excess of 0.020 gr/dscf.

Rule 26.19. Dumping of material from control equipment.

(1) a. No material from air pollution control equipment shall be dumped on the ground or in the open unless it is thoroughly wet (at least ten percent (10%) average moisture), chemically treated or adequately shielded from the wind to minimize the generation of fugitive dust to an equal level as would be reached by thoroughly wetting. Even wet materials, if dumped in the open, must either be covered over or chemically treated to prevent wind erosion before the material has had opportunity to dry out. For sources not meeting these requirements, a compliance plan for achieving the requirement of this rule must be submitted by January 31, 1981, and purchase orders for any new equipment issued by March 31, 1981. These requirements must be achieved at all plants by July 31, 1981.

b. The director may approve the use of an alternate method of control as a condition of the certificate of operation if it will result in an equivalent emission reduction or a greater reduction on a twenty-four (24) hour basis and an annual basis.

(2) All presently existing accumulations of materials from control equipment must be eliminated, covered or treated so as to prevent wind erosion no later than June 30, 1981. For sources not presently meeting these requirements, a compliance plan for achieving the requirements of this rule must be submitted to the director by November 30, 1980, and purchase orders for any new equipment issued by January 15, 1981.

Rule 26.20. Visible emissions from buildings. No person shall cause, suffer, allow or permit visible emissions from buildings at a plant subject to this Rule 26, other than gases or particulate matter emitted through a stack or flue, with an opacity in excess of five percent (5%) for an aggregate of more than five (5) minutes in any one (1) hour or more than twenty (20) minutes in any twenty-four (24) hour period.

Rule 26.21. (Reserved)

Rule 26.22. (Reserved)

Rule 27. Particulate Matter Controls for New Sources and New Modifications After August 29, 1995.

Rule 27.1. Particulate Matter Best Available Control Technology. Any new source or modification, alteration or reconstruction the installation of which commences after August 29, 1995, that emits or can potentially emit, prior to being controlled, fifteen (15) tons per year or more of PM_{10} emissions, or that emits or can potentially emit, prior to being controlled, twenty-five (25) tons per year or more of particulate matter shall utilize "particulate matter best available control technology" (particulate BACT) as defined in Rule 27.2. If test results at a source subject to Rule 27.1 show more than 15.0 tons per year actual emissions of particulate matter, such source shall forward such test results to the Director. In addition, within sixty (60) days after receiving such test results, such source shall complete PM_{10} emissions testing and forward the results of the PM_{10} emissions testing to the Director.

Rule 27.2. For the purposes of Rule 27, "particulate matter best available control technology" means an emissions limitation (including a visible emissions limitation) based on the maximum degree of reduction for particulate matter which would be emitted from any proposed stationary source or modification, alteration, ore reconstruction which the director, on a case-by-case basis, taking into account energy, environmental, and economic impacts and other costs, determines is achievable for such source or modification through such application of production processes or available methods, systems and techniques, including fuel cleaning or treatment or innovative fuel combination techniques for control of each such pollutant. In no event shall the application of particulate matter best available control technology result in emissions of particulate matter which would exceed the emissions allowed by any applicable limitation established under Rules 15 and 16. If a source demonstrates to the director that technological or economic limitations on the application of measurement methodology to a particular emissions unit would make the imposition of an emissions limitation infeasible, a design, equipment, work practice, operations standard or combination thereof, submitted by the source and approved by the director, may be prescribed instead to satisfy the requirement for the application of particulate matter best available control technology. Such a standard shall, to the degree possible, set forth the emissions reduction achievable by implementation of such design, equipment, work practice or operations standard and shall provide for compliance by means which achieve equivalent results.

Rule 27.3. Reasonable and Proper Emission Limitations. Any new source or modification, alteration or reconstruction the installation of which commences after August 29, 1995, that emits or has the potential to emit at its maximum, prior to being controlled, less than fifteen (15) tons per year of PM_{10} emissions and less than twenty-five (25) tons per year of particulate matter shall achieve "reasonable and proper emission limitations" as defined in Rule 27.4.

Rule 27.4. For the purposes of Rule 27, "reasonable and proper emission limitations" means an emissions limitation (including a visible emission standard) which the director, on a case-by-case basis, determines is reasonably achievable and cost-effective for such new source or modification, alteration or reconstruction through the application of production processes or through available methods, systems, and techniques (including fuel cleaning or treatment or innovative fuel combustion techniques) for control of emissions of particulate matter taking into account the following factors:

(1) The necessity of requiring emissions reductions in order to attain or maintain ambient air quality standards; and

(2) The technology available, the costs, energy and other environmental impacts, and any control equipment in use at the source.

If the director determines that technological or economic limitations on the application of control technology to a particular emissions unit would make the imposition of a quantitative emissions limitation infeasible, a design, equipment, work practice, operational standard, or combination thereof, may be prescribed instead to satisfy the requirement for reasonable and proper emissions reductions.

Rule 28. General Provisions and Applicability for Sulfuric Acid Plants and Oleum Manufacturing Plants.

Rule 28.1. Purpose. The purpose of this Rule 28 is to establish emission standards and other requirements for sulfuric acid plants and for oleum manufacturing plants.

Rule 28.2. Definitions. Words or terms defined in Rule 28 are for the purpose of this rule only and will not affect the definitions of Section 4-2. Unless specifically defined in this Rule 28, the definitions from Section 4-2 will apply:

(1) *Acid mist* means sulfuric acid mist, as measured by EPA Method 8 in Title 40 *Code of Federal Regulations* Part 60, Appendix A, which has been incorporated by reference in Chapter 4, or an equivalent or alternative method, as provided in Title 40 *Code of Federal Regulations* Part 60, Subpart H, which has been incorporated by reference in Chapter 4.

(2) *Deluge system* means a system to overflow an area of a release with an extinguishing agent.

(3) *Oleum manufacturing plant* means any facility producing oleum.

(4) *Sulfuric acid plant* means any facility producing sulfuric acid by the contact process by burning elemental sulfur, alkylation acid, hydrogen sulfide, organic sulfides and mercaptans, or acid sludge or by any other method.

Rule 28.3. Standards.

(1) *Best Available Control Technology.* Any sulfuric acid plant or oleum manufacturing plant or the modification, alteration or reconstruction of a sulfuric acid plant or oleum manufacturing plant shall utilize "best available control technology" for the control of sulfur dioxide emissions and for the control of acid mist emissions during start-up, normal operations and shut-down. For the purposes of this Rule 28, "best available control technology" shall have the same definition as for "Best available control technology (BACT) for Section 4-8(e) and Section 4-41, Rule 25."

(2) *Normal operations.*

a. In no case shall "best available control technology" be less stringent than the requirements of the Standards of Performance for Sulfuric Acid Plants, Title 40 *Code of Federal Regulations* Part 60, Subpart H, which has been incorporated by reference in Chapter 4. Except during startup, no emissions containing sulfuric acid mist shall be discharged from the facility with an opacity in excess of five percent (5%) for an aggregate of more than five (5) minutes in any one (1) hour or more than twenty (20) minutes in any twenty-four (24) hour period.

b. The process equipment and material handling shall be operated in accordance with the facility's leak detection and repair (LDAR) procedures, which shall be submitted to the Director for written approval prior to the issuance of any installation permit, certificate of operation, or Part 70 operating permit. Written approval must be received from the Director prior to the initial start-up of the plant.

(3) *Plant start-up operations.*

a. Acid mist emissions, including fugitive emissions, shall not exceed fifteen-hundredths (0.15) pounds of acid mist emissions per ton of one hundred percent (100%)sulfuric acid produced.

b. Sulfur dioxide emissions shall not exceed one thousand two hundred (1,200) parts per million by volume, averaged over the three (3) consecutive hours immediately following the initiation of sulfur burning.

c. No emissions containing sulfuric acid mist shall be discharged from the facility with an opacity in excess of twenty percent (20%) for an aggregate of more than five (5) minutes in any one (1) hour during startup.

d. A continuous monitoring system for the measurement of sulfur dioxide emissions during start-up shall be installed, calibrated, maintained, and operated by the owner or operator during start-up. The pollutant gas used to prepare calibration gas mixtures for calibration checks shall be sulfur dioxide. EPA Method 8 in Title 40 *Code of Federal Regulations* Part 60, Appendix A, which has been incorporated by reference in Chapter 4, shall be used for conducting monitoring system performance evaluations except that only the sulfur dioxide portion of the Method 8 results shall be used. The span value shall be set at two thousand (2,000) ppm of sulfur dioxide.

e. Plant start-up shall be at the lowest practicable production rate, not to exceed seventy percent (70%) of the maximum production rate, until the sulfur dioxide continuous emissions monitor required under Rule 28.3(3)d. indicates compliance with the best available control technology sulfur dioxide emissions limitations provided in Rule 28.3(1). If a more appropriate indicator (such as blower pressure, furnace temperature, gas strength, blower speed, number of sulfur guns operating, or equivalent operating parameter) can be documented, tested and validated, the Director may accept this in lieu of directly documenting the production rate.

f. If the sulfur dioxide continuous emissions monitor required under Rule 28.3(3)d. indicates that the plant is not in compliance with the sulfur dioxide emissions limitations of Rule 28.3(1) by the end of the third hour after start-up initiation, the plant shall be shut down within the fourth hour after start-up initiation. Restart may occur as soon as practicable following any needed repairs or adjustments, provided that corrective action has been taken, logged, and initialed prior to restart.

g. Plant start-up procedures which minimize sulfur dioxide emissions and acid mist emissions during start-up shall be developed, documented, and submitted to the Director for written approval prior to issuance of any installation permit, certificate of operation, or Part 70 operating permit. Written approval must be received from the Director prior to the initial start-up of the plant. These procedures shall include recording the inlet and outlet temperatures of each catalyst mass; and the concentration, temperature, and flow of circulating acid in each absorbing tower on a written operator log. The plant shall operate in accordance with the approved start-up procedures.

h. Plant start-up shall not commence unless meteorological conditions clearly demonstrate that inversion and/or air stagnation conditions do not exist in the vicinity of the plant.

1. The owner or operator shall develop, document, and implement procedures to be followed during start-up which clearly demonstrate that inversion and/or air stagnation conditions do not exist at the plant at the time of start-up. These procedures shall be submitted to the Director for written approval prior to the issuance of any installation permit, certificate of operation, or Part 70 operating permit. Written approval must be received from the Director prior to the initial start-up of the plant. Any modifications to these procedures shall require the written approval of the Director. Written approval must be received from the Director prior to implementation of the modifications.

2. A record of the meteorological conditions present during each start-up shall be recorded on a written operator log.

(4) *Storage tanks.* Storage tanks used to store concentrated sulfuric acid or oleum at ambient temperature shall meet the design, fabrication, and inspection requirements of the National Association of Corrosion Engineers (NACE) Standard RP0294-94, "Recommended Practice Design, Fabrication, and Inspection of Tanks for Storage of Concentrated Sulfuric Acid and Oleum at Ambient Temperatures," which has been incorporated by reference in Chapter 4.

(5) *Deluge system.* The owner or operator of an oleum manufacturing plant or a sulfuric acid plant where oleum is a product or by-product shall install and maintain a deluge system, which shall be operated in the event of an oleum release.

Rule 29. General Provisions and Applicability for Oleum Transfer Operations.

Rule 29.1. Purpose. The purpose of this Rule 29 is to prevent releases of oleum from oleum transfer facilities.

Rule 29.2. Definitions. Words or terms defined in Rule 29 are for the purpose of this rule only and will not affect the definitions of Section 4-2. Unless specifically defined in this Rule 29, the definitions from Section 4-2 will apply:

(1) *Deluge system* means a system to overflow an area of a release with an extinguishing agent.

(2) *Failure event* means any release of oleum into the ambient air which may expose the public to sulfuric acid and sulfur trioxide (combined) in excess of 0.01 grams per cubic meter or two (2) parts per million calculated as sulfuric acid averaged over any ten (10) consecutive minutes, or any release of oleum of any amount into the ambient air that causes or contributes to cause any of the following health effects: irritated eyes, skin or mucous membranes; headaches; burning sensation in the nose or throat; nausea; difficulty breathing; inflammation of the upper respiratory tract; chronic bronchitis; lung damage; loss of consciousness; or chemical pneumonitis.

(3) *Oleum* means sulfuric acid (H_2SO_4) with any dissolved sulfur trioxide (SO_3).

(4) *Oleum transfer facility* means a facility or operation that loads or unloads oleum into or out of containers.

Rule 29.3. Standards. Any owner or operator of an oleum transfer facility shall meet all of the following requirements:

(1) No owner or operator of an oleum transfer facility shall cause, suffer, allow or permit any oleum release into the ambient air which may expose the public to sulfuric acid and sulfur trioxide (combined) in excess of 0.01 grams per cubic meter or two (2) parts per million calculated as sulfuric acid averaged over any ten (10) consecutive minutes, or any release of oleum of any amount into the ambient air that causes or contributes to cause any of the following health effects: irritated eyes, skin or mucous membranes; headaches; burning sensation in the nose or throat; nausea; difficulty breathing; inflammation of the upper respiratory tract; chronic bronchitis; lung damage; loss of consciousness; or chemical pneumonitis.

(2) All oleum transfers shall be continuously conducted, attended, and monitored by a qualified operator. A qualified operator is a person who is trained under the facility's oleum transfer procedures to conduct an oleum transfer.

(3) All oleum transfers shall be conducted in strict accordance with the facility's written oleum transfer procedures. The oleum transfer procedures shall meet the following requirements:

a. The procedures shall be submitted for written approval by the Director that the requirements of Rule 29.3(3)b. through (3)f. have been met prior to the issuance of an installation permit, certificate of operation, or Part 70 permit. Written approval must be received from the Director prior to the initial start-up of the facility. The Director shall provide a thirty (30) day public comment period followed by a public hearing prior to the initial start-up of the facility and will consider all comments received during the public comment period and the public hearing prior to approval of the procedures.

b. The procedures shall explicitly establish and thoroughly describe a qualified operator training program; an equipment inspection and maintenance plan; and monitoring and warning systems to avoid a failure event as defined in Rule 29.2.

c. The procedures shall detail the steps that must be taken by the qualified operator during the oleum transfer and shall include a written oleum transfer checklist. The checklist must provide for a method that will verify completion of each step in the transfer procedure.

d. The procedures shall detail the approval process that must be followed to change the oleum transfer procedures or the oleum transfer checklist. Any change in procedures must be submitted for advance written approval by the Director;

e. The procedures must be approved and signed by a responsible manager. A responsible manager is a person who is an employee of the facility and who is responsible for the management of the facility.

f. The owner or operator, using a process hazards analysis as described in Title 40 *Code of Federal Regulations* Part 68, Subpart D, Section 68.67, which has been incorporated by reference in Chapter 4, shall predict failure events; identify and evaluate hazards involved in the process; plan, implement, and document at least three (3) consecutive prevention measures for every predicted failure event. A process hazards analysis is a systematic method for reducing the likelihood for an oleum release, and for identifying conditions, component failure, and human activities that may result in emissions to the ambient air. The procedures must contain the written predictions, plans, and prevention measures.

1. Prevention measures include, but are not limited to, flow, level and pressure indicators with interlocks; deadman switches; monitoring systems; documented and verified routine inspection and maintenance programs specified in detail by the oleum transfer procedure; and secondary containment and control equipment.

2. Operator training and documented and verified routine inspection and maintenance programs specified in detail by the oleum transfer procedure, collectively, may count as only one (1) of the three (3) required prevention measures.

3. A component, system or program with an unacceptable probability for failure shall not be considered a prevention measure.

4. As part of the process hazards analysis, methods for reducing the likelihood for a release include an inherent safety review of the operation, which considers process modifications and which minimizes the number of oleum transfers.

g. So that appropriate protective measures, such as shelter in place or evacuation plans, may be instituted, the owner or operator will develop, document, and implement notification procedures to immediately notify the public in the event of an oleum release which may result in a failure event as defined in Rule 29.2. The written notification procedures shall be included in the oleum transfer procedures.

(4) At the time of each transfer, an oleum transfer checklist shall be completed by the qualified operator who attends and conducts the transfer. Immediately following the completion of the transfer, the qualified operator shall sign the completed checklist, which shall include the date and the time of the transfer.

(5) The owner or operator of an oleum transfer facility shall vent all pressure relief devices to a secondary containment system, which is a system designed to contain and control a release of oleum in order to avoid a failure event as defined in Rule 29.2. In lieu of controlling any pressure relief device on a tank truck or railroad tankcar, an additional pressure relief device may be installed on the stationary vent line to the tank truck or railroad tankcar. This additional pressure

relief device shall be vented to a secondary containment system and shall be designed to relieve at less than eighty percent (80%) of the set point of the tank truck or railroad tankcar pressure relief device.

(6) Oleum transfer checklists for each transfer shall be retained for at least two (2) years following the date of the transfer and shall be available for inspection by the Director or his designated representatives during normal business hours.

(7) In the event of an oleum release, the owner or operator of an oleum transfer facility shall immediately report the release to the Director and to the local emergency services. This shall mean an immediate telephone report to the Director and to the local emergency services, followed up by a written report submitted to the Director within seven (7) days after the release.

(8) The owner or operator of an oleum transfer facility shall install and maintain a deluge system, which shall be operated in the event of an oleum release to prevent a failure event as defined in Rule 29.2.

(Code 1986, § 4-41; Ord. No. 9171, §§ 6-8, 10—13, 5-30-89; Ord. No. 9652, § 1, 12-17-91; Ord. No. 9846, §§ 3—8, 3-9-93; Ord. No. 10269, §§ 1—3, 7-25-95; Ord. No. 10277, §§ 15—26, 28, 8-15-95; Ord. Secs. 4-42—4-49. Reserved.

ARTICLE III. PART 70 SOURCE REGULATION AND PERMITS

Sec. 4-50. Part 70 sources.

The provisions, requirements, limitations, exceptions and other terms of this ordinance apply to all Part 70 sources and emissions units located at all Part 70 sources, as are hereinafter defined, which are now existing or hereafter may be constructed or modified so as to become or to have the potential to become a Part 70 source (or an emissions unit at a Part 70 source) and does not apply to other sources. Part 70 sources are not subject to the procedural permitting requirements of Section 4-8 of the Chattanooga Air Pollution Control Ordinance except that Part 70 sources (and emissions units located thereat or thereon) will be required to apply for installation permits in accordance with section 4-8(a) of the Chattanooga Air Pollution Control Ordinance if modifications to or new construction of a Part 70 source are subject to the following:

(a) Section 4-41, Rule 18 of the Chattanooga Air Pollution Control Ordinance;

(b) Section 4-41, Rule 25.3 of the Chattanooga Air Pollution Control Ordinance;

(c) Section 4-41, Rule 23 or Rule 27 of the Chattanooga Air Pollution Control Ordinance;

(d) Any standard or other requirement pursuant to regulations promulgated under Section 111 of the Act [42 U.S.C. § 7411] in Title 40 CFR Part 60, which has been incorporated by reference in Chapter 4; or

(e) Case-by-case determinations made pursuant to sections 112(g) and (j) of the Act [42 U.S.C. § 7412(g) and (j)] as set forth at section 4-53 "Applicable requirement" (4) of this ordinance.

All other sources that are not Part 70 sources remain subject to the Chattanooga Air Pollution Control Ordinance but without regard to this enactment. The other (non-Part 70) sources are exempt from the terms

hereof, until such later time as by amendment hereof they are brought within the scope hereof. Nothing herein shall be construed to use the authority of the permitting agency to modify acid rain program requirements.
(Ord. No. 10114, § 2, 9-27-94; Ord. No. 10786, § 51, 10-27-98; Ord. No. 13998, § 77, 6-27-23)

Sec. 4-51. Permitting authority.

The permitting authority, as is hereinafter defined, has authority to issue, terminate, modify, revoke and reissue permits in accordance with the provisions hereof and to enforce the requirements, conditions and elements of a Part 70 permit and also to enforce the requirements for obtaining a permit and to collect the permit fees provided for herein and to enforce, in all ways permissible under law, the requirements and provisions of this ordinance. No Part 70 source or emissions unit at a Part 70 source may operate without the permit required herein, unless specifically excepted or exempted by this ordinance.
(Ord. No. 10114, § 2, 9-27-94)

Sec. 4-52. Program overview.

(a) The regulations and requirements of this ordinance provide for the establishment of a comprehensive air quality permitting system consistent with the requirements of Title V of the Clean Air Act (Act) (42 U.S.C. § 7401, et seq.) and 40 CFR Part 70. This ordinance and these regulations and requirements define the procedures and elements required by the ordinance for operating permits.

(b) All sources subject to these regulations must have a permit to operate that assures compliance by the source with all applicable requirements and with the requirements of this ordinance.

(c) In the case of Federal intervention in the permit process, the Administrator of EPA has reserved the right to implement this operating permit program, in whole or in part, or the Federal program contained in regulations promulgated under Title V of the Act.

(d) The requirements of Title 40 Code of Federal Regulations Part 70 "State Operating Permit Programs" (Revised as of July 1, 2023), which are incorporated herein by reference in Chapter 4 as requirements of this municipality pursuant to the provisions of T.C.A. § 68-201-115 and § 10-7-121, including provisions regarding schedules for submission and approval or disapproval of permit applications, shall apply to the permitting of affected sources under the acid rain program, except as provided herein or modified in regulations promulgated under Title IV of the Act (acid rain program) in Title 40 Code of Federal Regulations Part 72 "Permits Regulation," Part 75 "Continuous Emission Monitoring," and Part 76 "Acid Rain Nitrogen Oxides Emission Reduction Program" (Revised as of July 1, 2023), which are also incorporated herein by reference in Chapter 4 as requirements of this municipality pursuant to the provisions of T.C.A. § 68-201-115 and § 10-7-121. If the provisions or requirements of Title 40 CFR Part 72 conflict with or are not included in this ordinance, the Part 72 provisions and requirements shall apply and take precedence.

(e) The actions of the permitting authority shall not be used to modify any acid rain program requirements.
(Ord. No. 10114, § 2, 9-27-94; Ord. No. 13998, § 78, 6-27-23; Ord. No. 14165, § 17, 10-29-24)

Sec. 4-53. Definitions.

The following definitions apply to this part of the Chattanooga Air Pollution Control Ordinance. Except as specifically provided in this section, terms used in this part retain the meaning accorded them under the applicable requirements of the Act. In the event that there are conflicts in the definition or contextual use of a term in this ordinance and the definition of that term in the Chattanooga Air Pollution Control

Ordinance, the definition here shall apply in this Part 70 program and the definition in other parts shall apply there. Unless a word or phrase is specifically defined in section 4-53, the definitions from Section 4-2 will apply.

"Act" means the Clean Air Act, as amended, 42 U.S.C. § 7401, et seq.

"Actual emissions" means the actual rate of emissions in tons per year of any regulated pollutant (for presumptive fee calculation) emitted from a Part 70 source over the preceding calendar year or any other period determined by the permitting authority to be representative of normal source operation and consistent with the fee schedule approved pursuant to this section. Actual emissions shall be calculated using the unit's actual operating hours, production rates, and in-place control equipment, types of materials processed, stored, or combusted during the preceding calendar year or such other time period established by the permitting authority pursuant to the preceding sentence. [See section 4-60(b)(2)(iii)]

"Administrative permit amendment" means a permit revision that:

(1) Corrects typographical errors;

(2) Identifies a change in the name, address, or phone number of any person identified in the permit, or provides a similar minor administrative change at the source;

(3) Requires more frequent monitoring or reporting by the permittee;

(4) Allows for a change in ownership or operational control of a source where the permitting authority determines that no other change in the permit is necessary, provided that a written agreement containing a specific date for transfer of permit responsibility, coverage, and liability between the current and new permittee has been submitted to the permitting authority;

(5) Incorporates into the Part 70 permit the requirements from preconstruction review permits authorized under an EPA-approved program, provided that such a program meets procedural requirements substantially equivalent to the requirements of 40 CFR §§ 70.7 and 70.8 that would be applicable to the change if it were subject to review as a permit modification, and compliance requirements substantially equivalent to those contained in 40 CFR § 70.6; or

(6) Incorporates any other type of change which the Administrator has determined as part of the approved Part 70 program to be similar to those in paragraphs (1) through (4) of this definition, provided that such "other type of change" has been identified in this ordinance by amendment subsequent to the action of the Administrator.

"Administrator" means the Administrator of the United States Environmental Protection Agency.

"Affected source" shall have the meaning given to it under Title IV of the Act which is a source that includes one (1) or more affected units.

"Affected States" are all States:

(1) Whose air quality may be affected and that are contiguous to the State of Tennessee; or

(2) That are within fifty (50) miles of the permitted source.

"Affected unit" shall have the meaning given to it under Title IV of the Act which is a unit that is subject to emission reduction requirements or limitations under Title IV of the Act.

"Applicable requirements" mean all of the following requirements in the Act, as they apply to emissions units in a Part 70 source (including requirements that have been promulgated or approved by EPA through rulemaking at the time of issuance but have future-effective compliance dates) which are specifically as follows:

(1) Any standard or other requirement provided for in the applicable implementation plan approved or promulgated by EPA through rulemaking under Title I of the Act that implements the relevant requirements of the Act, including any revisions to that plan promulgated in 40 CFR Part 52 where the same have been legally adopted by ordinance in Chattanooga, Tennessee;

(2) Any term or condition of any preconstruction permits issued pursuant to regulations promulgated under Title I, including parts C and D, of the Act in Title 40 CFR Part 51, Subpart I, or Title 40 CFR Part 60, which have been incorporated by reference in Chapter 4;

(3) Any standard or other requirement pursuant to regulations promulgated under Section 111 of the Act [42 U.S.C. § 7411] in Title 40 CFR Part 60, which has been incorporated by reference in Chapter 4;

(4) Any standard or other requirement promulgated under section 112 of the Act [42 U.S.C. Section 7412], including any requirement concerning accident prevention under section 112(r)(7) of the Act [42 U.S.C. Section 7412(r)(7)] in 40 CFR Part 61; 40 CFR Part 63; and 40 CFR Part 68, which have been incorporated herein by reference in Chapter 4 pursuant to the provisions of T.C.A. 68-201-115. No owner or operator may install or modify a Part 70 source that is a major source of hazardous air pollutants [as defined in section 112(b) of the Act (42 U.S.C. § 7412] unless the maximum achievable control technology emission limitation promulgated under section 112 of the Act and incorporated by reference at Section 4-53 as an applicable requirement will be met, and provided further that the maximum achievable control technology emission limitation determination shall be made by the permitting authority on a case-by-case basis as an interim measure pending such promulgation where such promulgation has not yet occurred pursuant to Section 4-41, Rule 16.10. If a major source of hazardous air pollutants has executed an enforceable agreement with the Administrator pursuant to the Title 42 U.S. C. Section 7412(i)(5) Early Reductions Program that contains more stringent requirements or more stringent emissions limitations than would otherwise be applicable under this ordinance or the Chattanooga Air Pollution Control Ordinance, the Part 70 permit issued to it shall include the requirements and emissions limitations contained in that agreement, unless the major source is subsequently released from said enforceable agreement and such release is confirmed in a writing signed by the Administrator, or designee, and submitted to the director;

(5) Any standard or other requirement of the acid rain program promulgated under Title IV of the Act and which are incorporated by reference at Section 4-52(d) of this ordinance;

(6) Any standard or other requirement governing solid waste incineration promulgated under Section 129 of the Act [42 U.S.C. § 7429], including Title 40 CFR Part 60, Subpart Ea "Standards of Performance for Municipal Waste Combustors for Which Construction is Commenced After December 20, 1989 and On or Before September 20, 1994," which have been incorporated by reference in Chapter 4, and standards or other requirements that have been identified in this ordinance by amendment subsequent to the action of the Administrator;

(7) Any standard or other requirement for consumer and commercial products, under section 183(e) of the Act [42 U.S.C. § 7511b.(e)] provided that these standards or other requirements have been identified in this ordinance by amendment subsequent to the action of the Administrator;

(8) Any standard or other requirement for tank vessels, under section 183(f) of the Act [42 U.S.C. § 7511b.(f)] provided that these standards or other requirements have been identified in this ordinance by amendment subsequent to the action of the Administrator;

(9) Any standard or other requirement of the regulations promulgated to protect stratospheric ozone under Title VI of the Act in Title 40 Code of Federal Regulations Part 82 "Protection of Stratospheric Ozone" (Revised as of July 1, 2023), which are incorporated herein by reference in Chapter 4 as requirements of this municipality pursuant to the provisions of T.C.A. § 68-201-115 and § 10-7- 121, unless the Administrator has determined that such requirements need not be contained in a Part 70 permit;

(10) Any national ambient air quality standard or increment or visibility requirement under part C of Title I of the Act, but only as it would apply to temporary sources permitted pursuant to section 504(e) of the Act [42 U.S.C. § 7661c.(e)];

(11) All requirements of Title 40 CFR Part 70, which have been incorporated by reference at Section 4-52(d) of this ordinance;

(12) Any standard or requirement set forth in Section 4-41 of the Chattanooga Air Pollution Control Ordinance. If a federal regulation is promulgated that does have, or would have, application to a Part 70 source or emissions unit, the Board shall cause the Bureau to prepare within sixty (60) days a draft ordinance for consideration at a public hearing and the Board shall within one hundred twenty (120) days make a recommendation to the City concerning a proposed ordinance. During the interim period following such federal promulgation but preceding local adoption and enforceability of such a standard, each Part 70 permit issued to a source that is subject to such a federal applicable requirement shall include a statement that such source is subject to such federal applicable requirement, followed by the appropriate legal citation for such requirement; and

(13) Any standard or other requirement for compliance assurance monitoring in Title 40 CFR Part 64 promulgated at 62 FR 54940-54947; October 22, 1997, which has been incorporated by reference in Chapter 4.

"Board" means the Chattanooga-Hamilton County Air Pollution Control Board.

"Bureau" means the Chattanooga-Hamilton County Air Pollution Control Bureau.

"Certification" shall mean a notarized attested statement under oath by a responsible official of the truth, accuracy, and completeness that, based on information and belief formed after reasonable inquiry the statements and information in the document or submittal are true, accurate and complete. It shall constitute a certification under T.C.A. 68-201-112, as amended in 1994.

"Designated representative" shall have the meaning given to it in section 402(26) of the Act [42 U.S.C. § 7651a.(26)] which is a responsible person or official authorized by the owner or operator of a unit to represent the owner or operator in matters pertaining to the holding, transfer, or disposition of allowances allocated to a unit, and the submission of and compliance with permits, permit applications, and compliance plans for the unit.

"Director" means the director of the Chattanooga-Hamilton County Air Pollution Control Bureau.

"Draft permit" means the version of a permit for which the permitting authority offers public participation under Section 4-58(h) of this ordinance or affected State review under Section 4-59 of this ordinance.

"Emissions allowable under the permit" means a legally enforceable permit term or condition determined at issuance to be required by an applicable requirement that establishes an emissions limit (including a work practice standard) or an enforceable emissions cap that the source has assumed to avoid an applicable requirement to which the source would otherwise be subject.

"Emissions unit" means any part or activity of a stationary source that emits or has the potential to emit any regulated air pollutant or any pollutant listed under section 112(b) of the Act [42 U.S.C. § 7412(b)]. This term is not meant to alter or affect the definition of the term "unit" for purposes of any other part of the local ordinance.

The "EPA" or the "Administrator" means the Administrator of the EPA or his/her designee.

"Final permit" means the version of a Part 70 permit issued by the permitting authority that has completed all review procedures required by this ordinance and by federal law.

"Fugitive emissions" are those emissions which could not reasonably pass through a stack, chimney, vent, or other functionally-equivalent opening.

"General permit" means a Part 70 permit that has been issued pursuant to and meets the requirements of Section 4-57(d) of this ordinance.

"Local governments" means Hamilton County, Tennessee, and all included municipalities.

"Local program" (for this part of the ordinance) means Part 70 program as hereinafter defined.

"Major source" means any stationary source [or any group of stationary sources that are located on one (1) or more contiguous or adjacent properties, and are under common control of the same person (or persons under common control)], belonging to a single major industrial grouping and that are described in paragraphs (1), (2), or (3) of this definition. For the purposes of defining "major source," a stationary source or group of stationary sources shall be considered part of a single industrial grouping if all of the pollutant emitting activities at such source or group of sources on contiguous or adjacent properties belong to the same Major Group (i.e., all have the same two (2) digit code) as described in the Standard Industrial Classification Manual, 1987.

(1) A major source under section 112 of the Act [42 U.S.C. § 7412], which is defined as:

(i) For pollutants other than radionuclides, any stationary source or group of stationary sources located within a contiguous area and under common control that emits or has the potential to emit, in the aggregate, ten (10) tons per year (tpy) or more of any hazardous air pollutant which has been listed pursuant to section 112(b) of the Act [42 U.S.C. § 7412(b)], twenty-five (25) tpy or more of any combination of such hazardous air pollutants, or such lesser quantity as the Administrator may establish by rule. Notwithstanding the preceding sentences, emissions from any oil or gas exploration or production well (with its associated equipment) and emissions from any pipeline compressor or pump station shall not be aggregated with emissions from other similar units, whether or not such units are in a contiguous area or under common control, to determine whether such units or stations are major sources; or

(ii) For radionuclides, "major source" shall have the meaning identified in this ordinance by amendment subsequent to the action of the Administrator.

(2) A major stationary source of air pollutants, as defined in section 302 of the Act [42 U.S.C. § 7602(j)], that directly emits or has the potential to emit, one hundred (100) tpy or more of any air pollutant (including any major source of fugitive emissions of any such pollutant, as determined by rule by the Administrator). The fugitive emissions of a stationary source shall not be considered in determining whether it is a major stationary source for the purposes of section 302(j) of the Act [42 U.S.C. § 7602(j)], unless the source belongs to one (1) of the following categories of stationary source:

(i) Coal cleaning plants (with thermal dryers);

(ii) Kraft pulp mills;

(iii) Portland cement plants;

(iv) Primary zinc smelters;

(v) Iron and steel mills;

(vi) Primary aluminum ore reduction plants;

(vii) Primary copper smelters;

(viii) Municipal incinerators capable of charging more than fifty (50) tons of refuse per day;

(ix) Hydrofluoric, sulfuric, or nitric acid plants;

(x) Petroleum refineries;

(xi) Lime plants;

(xii) Phosphate rock processing plants;

(xiii) Coke oven batteries;

(xiv) Sulfur recovery plants;

(xv) Carbon black plants (furnace process);

(xvi) Primary lead smelters;

(xvii) Fuel conversion plant;

(xviii) Sintering plants;

(xix) Secondary metal production plants;

(xx) Chemical process plants;

(xxi) Fossil-fuel boilers (or combination thereof) totaling more than two hundred fifty million (250,000,000) British thermal units per hour heat input;

(xxii) Petroleum storage and transfer units with a total storage capacity exceeding three hundred thousand (300,000) barrels;

(xxiii) Taconite ore processing plants;

(xxiv) Glass fiber processing plants;

(xxv) Charcoal production plants;

(xxvi) Fossil-fuel-fired steam electric plants of more than two hundred fifty million (250,000,000) British thermal units per hour heat input; or

(xxvii) Any other stationary source category, which as of August 7, 1980, is being regulated under Section 111 or 112 of the federal Clean Air Act.

(xxviii) Any other stationary source category, which as of August 7, 1980, is being regulated under Section 111 or 112 of the federal Clean Air Act.

(3) A major stationary source as defined in part D of Title I of the Act, including:

(i) For ozone nonattainment areas, sources with the potential to emit one hundred (100) tpy or more of volatile organic compounds or oxides of nitrogen in areas classified as "marginal" or "moderate," fifty (50) tpy or more in areas classified as "serious," twenty-five (25) tpy or more in areas classified as "severe," and ten (10) tpy or more in areas classified as "extreme"; except that the references in this paragraph to one hundred (100), fifty (50), twenty-five (25), and ten (10) tpy of nitrogen oxides shall not apply with respect to any source for which the Administrator has made a finding, under section 182(f)(1) or (2) of the Act [42 U.S.C. § 7511a.(f)(1) or (2)], that requirements under section 182(f) of the Act [42 U.S.C. § 7511a.(f)] do not apply;

(ii) For ozone transport regions established pursuant to section 184 of the Act [42 U.S.C. § 7511c], sources with the potential to emit fifty (50) tpy or more of volatile organic compounds;

(iii) For carbon monoxide nonattainment areas (1) that are classified as "serious," and (2) in which stationary sources contribute significantly to carbon monoxide levels as determined under rules issued by the Administrator, sources with the potential to emit fifty (50) tpy or more of carbon monoxide; and

(iv) For particulate matter (PM-10) nonattainment areas classified as "serious," sources with the potential to emit seventy (70) tpy or more of PM-10.

"Modification" means any physical change in, or change in the method of operation of, a regulated air pollutant source which increases the actual emissions of any regulated air pollutant emitted by such source or increases its potential to emit any regulated air pollutant or which results in the emission of any regulated air pollutant not previously emitted by it.

"Owner or operator" means any person who owns, leases, operates, controls, or supervises a source.

"Part 70 application" means an application which fully complies with the requirements of Section 4-56 of this ordinance.

"Part 70 general permit" means a Part 70 permit issued under Section 4-57(d) of this ordinance.

"Part 70 permit" or "permit" (unless the context suggests otherwise) means any permit or group of permits covering a Part 70 source that is issued, renewed, amended, or revised pursuant to this ordinance.

"Part 70 program" or "Local program" means the program, established by ordinance, approved by the Administrator under 40 CFR Part 70.

"Part 70 source" means any source subject to the permitting requirements of this ordinance and as required in 40 CFR §§ 70.3(a) and 70.3(b) and as set forth in Section 4-54 of this ordinance.

"Permit modification" means a revision to a Part 70 permit that meets the requirements of 40 CFR § 70.7(e) and Section 4-58(e) of this ordinance.

"Permit program costs" means all reasonable (direct and indirect) costs required to develop and administer a permit program, as set forth in 40 CFR § 70.9(b) and Section 4-60(b) of this ordinance (whether such costs are incurred by the permitting authority or other agencies that do not issue permits directly, but that support permit issuance or administration).

"Permit revision" means any permit modification or administrative permit amendment.

"Permitting authority" means either of the following:

(1) The Administrator, in the case of EPA-implemented programs; or

(2) The director of the Chattanooga-Hamilton County Air Pollution Control Bureau, acting under delegation of authority from the Board. Upon appeal of a permit issuance, denial, condition, failure to act or other permit action (or any other time that the Chairman of the Board asserts the primacy of the Board), the permitting authority is the Chattanooga-Hamilton County Air Pollution Control Board.

"Potential to emit" means the maximum capacity of a stationary source to emit any air pollutant under its physical and operational design. Any physical or operational limitation on the capacity of a source to emit an air pollutant, including air pollution control equipment and restrictions on hours of operation or on the type or amount of material combusted, stored, or processed, shall be treated as part of its design if the limitation is enforceable under this ordinance and by the Administrator. This term does not alter or affect

the use of this term for any other purposes under any other sections of this ordinance or under the Act, or the term "capacity factor" as used in Title IV of the Act or the regulations promulgated thereunder at 40 CFR Part 72 adopted by reference in Section 4-52(d) of this ordinance.

"Proposed permit" means the version of a permit that the permitting authority proposes to issue and forwards to the Administrator for review in compliance with 40 CFR § 70.8.

"Regulated air pollutant" means the following:

(1) Nitrogen oxides or any volatile organic compounds;

(2) Any pollutant for which a national ambient air quality standard has been promulgated in Title 40 Code of Federal Regulations Part 50 "National Primary and Secondary Ambient Air Quality Standards" (Revised as of July 1, 2023), the requirements of which are incorporated herein by reference in Chapter 4 as requirements of this municipality pursuant to the provisions of T.C.A. § 68-201- 115 and § 10-7-121;

(3) Any pollutant that is subject to any standard that has been promulgated under Section 111 of the Act [42 U.S.C. § 7411] in Title 40 CFR Part 60, which has been incorporated by reference in Chapter 4, or Section 4-41, Rule 15 of this ordinance;

(4) Any Class I or II substance subject to a standard promulgated under or established by Title VI of the Act [42 U.S.C. § 7411] in Title 40 CFR Part 82, which has been incorporated by reference at Section 4-53 "Applicable requirements" (9) of this ordinance;

(5) Any pollutant subject to a standard that has been promulgated under Section 112 of the Act [42 U.S.C. § 7412] in Title 40 CFR Part 61 or Title 40 CFR Part 63, which have been incorporated by reference in Chapter 4, or Title 40 Code of Federal Regulations Part 68 "Chemical Accident Prevention Provisions" (Revised as of July 1, 2023), the requirements of which are incorporated herein by reference in Chapter 4 as requirements of this municipality pursuant to the provisions of T.C.A. § 68-201-115 and § 10-7-121, including the following:

(i) Any pollutant subject to requirements under section 112(j) of the Act [42 U.S.C. § 7412(j)]. If the Administrator fails to promulgate a standard by the date established pursuant to section 112(e) of the Act [42 U.S.C. § 7412(e)], any pollutant for which a subject source would be a major shall be considered to be regulated on the date eighteen (18) months after the applicable date established pursuant to section 112(e) of the Act [42 U.S.C. § 7412(e)]; and

(ii) Any pollutant for which the requirements of section 112(g)(2) of the Act [42 U.S.C. § 7412(g)(2)] have been met, but only with respect to the individual source subject to section 112(g)(2) of the Act [42 U.S.C. § 7412(g)(2)] requirements.

"Regulated pollutant (for presumptive fee calculation)," which is used only for purposes of Section 4-60 of this ordinance, means any "regulated air pollutant" except the following:

(1) Carbon monoxide;

(2) Any pollutant for which a national ambient air quality standard has been promulgated in Title 40 Code of Federal Regulations Part 50 "National Primary and Secondary Ambient Air Quality Standards" (Revised as of July 1, 2021), the requirements of which are incorporated herein by reference in Chapter 4 as requirements of this municipality pursuant to the provisions of T.C.A. ? 68-201-115 and ? 10-7-121;

(3) Any pollutant that is a regulated air pollutant solely because it is subject to a standard or regulation under section 112(r) of the Act [42 U.S.C. § 7412(r)] which is incorporated herein by reference pursuant to the provisions of T.C.A. § 68-201-115.

(4) Any pollutant resulting from any insignificant activity listed at Section 4-56(c)(11) and Section 4-56(c)(12) of this ordinance.

"Renewal" means the process by which a permit is reissued at the end of its term.

"Research and development facility" means any stationary source whose primary purpose is to conduct research and development into new processes and products, where such source is operated under the close supervision of technically trained personnel and is not engaged in the manufacture of products for commercial sale in commerce, except where such sales do not exceed two percent (2%) of the gross receipts of the source for which it is conducting the research and development.

"Responsible official" means one (1) of the following:

(1) For a corporation: a president, secretary, treasurer, or vice-president of the corporation in charge of a principal business function. For corporations qualifying under the criteria below, a "responsible official" may be any other person who performs similar policy or decision-making functions for the corporation, or a duly authorized representative of such person if the representative is responsible for the overall operation of one (1) or more manufacturing, production, or operating facilities applying for or subject to a permit and either:

(i) the facilities employ more than two hundred fifty (250) persons or have gross annual sales or expenditures exceeding twenty-five million dollars ($25,000,000.00) (in second quarter 1980 dollars); or

(ii) the delegation of authority to such representative is approved in advance by the permitting authority;

(2) For a partnership or sole proprietorship: a general partner or the proprietor, respectively;

(3) For a municipality, State, Federal, or other public agency: either a principal executive officer or ranking elected official. For the purposes of this part, a principal executive officer of a Federal agency includes the chief executive officer having responsibility for the overall operations of a principal geographic unit of the agency (e.g., a Regional Administrator of EPA); or

(4) For affected sources:

(i) The designated representative in so far as actions, standards, requirements, or prohibitions are concerned under Title IV of the Act or any applicable requirement promulgated thereunder which are adopted by reference at Section 4-52(d) of this ordinance; and

(ii) The designated representative for any other purposes under 40 CFR Part 70.

"Section 502(b)(10) changes" are changes that contravene an express permit term. Such changes do not include changes that would violate applicable requirements or contravene federally enforceable permit terms and conditions that are monitoring (including test methods), recordkeeping, reporting, or compliance certification requirements.

"Significant change" shall have the meaning set forth in Section 4-58(e)(3)(i) of this ordinance.

"State" means any non-Federal permitting authority, including any local agency, interstate association, or statewide program. Where such meaning is clear from the context, "State" shall have its conventional meaning. For purposes of the acid rain program, the term "State" shall be limited to authorities within the 48 contiguous States and the District of Columbia as provided in section 402(14) of the Act [42 U.S.C. § 7651a.(14)].

"State Implementation Plan," "Implementation Plan" or "SIP" means the Chattanooga portion of the Tennessee State Implementation Plan.

"Stationary source" means any building, structure, facility, or installation that emits or may emit any regulated air pollutant or any pollutant listed under section 112(b) of the Act [42 U.S.C. § 7412(b)].

"Synthetic minor source" means a source that would otherwise be considered a Part 70 source, due to its potential to emit, if it were not for a mutually agreed upon, more restrictive, federally enforceable limitation, contained in an installation permit, or certificate of operation issued pursuant to Section 4-8 of the Chattanooga Air Pollution Control Ordinance upon the potential to emit of that source under its physical and operational design. All emissions limitations, controls, and other requirements imposed by such permit or certificate of operation shall be at least as stringent as any other applicable limitations and requirements contained in the Chattanooga Air Pollution Control Ordinance and enforceable thereunder.

"Temporary locations" means the locations that conform to Section 4-57(e) of this ordinance.
(Ord. No. 10114, § 2, 9-27-94; Ord. No. 10297, §§ 2, 3, 10-3-95; Ord. No. 10786, §§ 52, 59, 10-27-98; Ord. No. 12054, § 30, 12-11-07; Ord. No. 13998, §§ 79—89, 6-27-23; Ord. No. 14165, §§ 18—20, 10-29-24)

Sec. 4-54. Applicability.

(a) Part 70 sources. This ordinance applies to emissions units at Part 70 sources and to Part 70 sources which are defined to be:

(1) Any major source;

(2) Any source, including an area source, subject to a standard, limitation, or other requirement under section 111 of the Act [42 U.S.C. § 7411];

(3) Any source, including an area source, subject to a standard or other requirement under section 112 of the Act, except that a source is not required to obtain a permit solely because it is subject to regulations or requirements under section 112(r) of the Act [42 U.S.C. § 7412(r)];

(4) Any affected source; and

(5) Any source in a source category designated by the Administrator pursuant to 40 CFR § 70.3 and which, in the event of such designation, shall be included into local law by amendment to the ordinance.

(b) Source category exemptions.

(1) The following sources listed in paragraph (a) of this section that are not major sources, affected sources, or solid waste incineration units required to obtain a permit pursuant to section 129(e) of the Act [42 U.S.C. § 7429], are not Part 70 sources and are exempted from the obligation to obtain a Part 70 permit until such time as specified below:

a. Perchloroethylene Dry Cleaning Facilities. Pursuant to Title 40 CFR Part 63, § 63.320 of Subpart M—National Perchloroethylene Air Emission Standards for Dry Cleaning Facilities, as amended at 61 FR 27788 on June 3, 1996, a source subject to Subpart M that is neither a 'major source', as defined in Section 4-2, nor a source located at a major source, is deferred from Part 70 source operating permit program requirements until December 9, 1999. Each source subject to this deferral shall submit its Part 70 permit application not later than December 9, 2000. Each source subject to this deferral shall meet the compliance schedule as stated in Title 40 CFR Part 63, § 63.320, which has been incorporated by reference in Chapter 4.

(2) In the case of non-major sources subject to a standard or other requirement promulgated under either section 111 or section 112 of the Act [42 U.S.C. § 7411 or 7412] after July 21, 1992, the

Administrator has reserved the right to determine whether to exempt any or all such applicable sources from the requirement to obtain a Part 70 permit and such determination will be incorporated thereafter by amendment of this ordinance.

(3) Any source listed in paragraph (a) of this section which has been declared exempt from the requirement to obtain a permit under this section may opt to apply for a permit under a Part 70 program.

(4) The following source categories are exempted from the obligation to obtain a Part 70 permit:

(i) All sources and source categories that would be required to obtain a permit solely because they are subject to 40 CFR Part 60, Subpart AAA — Standards of Performance for New Residential Wood Heaters; and

(ii) All sources and source categories that would be required to obtain a permit solely because they are subject to 40 CFR Part 61, Subpart M — National Emission Standard for Hazardous Air Pollutants for Asbestos, § 6l.145, Standard for Demolition and Renovation.

(5) Research and development facilities and operations (R & D operations) are not exempt sources or exempt emissions units, but R & D operations are entitled to special treatment. The permitting authority will treat an R & D facility as separate from the manufacturing facility with which it is co-located. The R & D facility will be treated as though it were a separate source and is required to have a Part 70 permit only if the R & D facility itself is a major source.

(c) Emissions units and Part 70 sources.

(1) For major sources, the permitting authority shall include in the permit all applicable requirements for all relevant emissions units in the major source.

(2) For any non-major source subject to the Part 70 program under paragraphs (a) or (b) of this section, the permitting authority shall include in the permit all applicable requirements applicable to emissions units that cause the source to be subject to the Part 70 program.

(d) Fugitive emissions. Fugitive emissions from a Part 70 source shall be included in the Part 70 permit application and the Part 70 permit in the same manner as stack emissions, regardless of whether the source category in question is included in the list of sources contained in the definition of major source.

(e) Synthetic minor sources. A Part 70 source may choose to request federally enforceable physical or operational limitations on its potential to emit in order to avoid applicability of this ordinance. Such source must:

(1) Comply with all requirements of Section 4-8 of the Chattanooga Air Pollution Control Ordinance;

(2) Undergo public participation requirements. This requires that notice of a draft initial certificate(s) of operation for a synthetic minor source shall be given to the general public at least thirty (30) days in advance of a public hearing on the draft initial certificate(s) of operation and shall provide at least thirty (30) days for public comment. Such notice shall be given by publication as an electronic notice (e-notice) on the Bureau website for the duration of the public comment period and by other means designated by the Director, if necessary. In addition, a copy of the draft certificate(s) of operation for a synthetic minor source shall be delivered to the U.S. Environmental Protection Agency at least thirty (30) days in advance of a public hearing on the draft certificate(s) of operation. Such advance notice must be given and a public hearing must be held prior to issuance of any certificate of operation to a synthetic minor source. Any certificate of operation issued to a synthetic minor source shall contain a statement of basis comparing the source's potential to emit with the synthetic limit to emit and a description of the procedures to be followed that will insure that the limit on which the Director bases a determination that a source is a synthetic minor source and not a "major source," as defined in this ordinance, is not exceeded;

(3) Submit a written request to the permitting authority within twelve (12) months of becoming subject to this ordinance seeking synthetic minor source status. This request must contain the proposed physical and operational limitations on potential to emit; and

(4) Be granted synthetic minor source status and maintain the operational and other criteria by which it gained that designation.

(Ord. No. 10114, § 2, 9-27-94; Ord. No. 10786, § 53, 10-27-98; Ord. No. 13998, § 90, 6-27-23)

Sec. 4-55. Local program submittals and transition.

(a) The permitting authority shall develop and the Board shall adopt by Resolution, the following:

(1) A complete program description describing how the municipality through the permitting authority intends to carry out its responsibilities under 40 CFR Part 70.

(2) (i) Copies of the permit form(s), application form(s), and reporting form(s) that the permitting authority intends to employ in its program; and

(ii) Relevant guidance issued by the permitting authority to assist in the implementation of its permitting program, including criteria for monitoring source compliance (e.g., inspection strategies).

(3) A demonstration, consistent with Section 4-60(c) of this ordinance and with 40 CFR § 70.9, that the permit fees required by the program are sufficient to cover permit program costs.

(Ord. No. 10114, § 2, 9-27-94)

Sec. 4-56. Permit applications.

(a) *Duty to apply.* For each Part 70 source, the owner or operator shall submit to the permitting authority a timely and complete permit application in accordance with the requirements of 40 CFR Part 70 and the requirements of this ordinance.

(1) *Timely application.*

(i) A timely application for a source applying for a Part 70 permit for the first time is one (1) that is submitted within twelve (12) months after the source becomes subject to this ordinance.

(ii) Part 70 sources or emissions units at Part 70 sources required to meet the requirements under section 112(g) of the Act [42 U.S.C. § 7412], or to have a permit under the preconstruction review program approved into the applicable implementation plan under part C or D of Title I of the Act, shall file a complete application to obtain the Part 70 permit or permit revision within twelve (12) months after commencing operation or on or before such earlier date as the permitting authority may establish. Any operation prior to obtaining a fully approved Part 70 permit shall be subject to any applicable requirements of the provisions of this ordinance. Where an existing Part 70 permit would prohibit such construction or change in operation, the source must obtain a permit revision before commencing operation.

(iii) For purposes of permit renewal, a timely application is one (1) that is submitted at least six (6) months prior to the date of permit expiration.

(iv) Applications for initial phase II acid rain permits shall be submitted to the permitting authority by January 1, 1996 for sulfur dioxide, and by January 1, 1998 for nitrogen oxides.

(2) *Complete application.* To be deemed complete, an application must provide all information required pursuant to paragraph (c) of this section, except that applications for permit revision need supply such information only if it is related to the proposed change. Information required under

paragraph (c) of this section must be sufficient to evaluate the subject source and its application and to determine all applicable requirements. The application shall require that a responsible official certify the submitted information consistent with paragraph (d) of this section. Unless the permitting authority determines that an application is not complete within sixty (60) days of receipt of the application, such application shall be deemed to be complete, except as otherwise provided in Section 4-58(a)(4) of this ordinance. If, while processing an application that has been determined or deemed to be complete, the permitting authority determines that additional information is necessary to evaluate or take final action on that application, it may request such information in writing and set a reasonable deadline for a response. The source shall furnish the required information. The source's ability to operate without a Part 70 permit, as set forth in Section 4-58(b) of this ordinance, shall be in effect from the date the application is determined or deemed to be complete until the final permit is issued, provided that the applicant submits any requested additional information by the deadline specified by the permitting authority. Any terms and conditions effective in the most recently issued installation permits and certificates of operation issued to a Part 70 source in accordance with Section 4-8 of the Chattanooga Air Pollution Control Ordinance prior to the effective date of its initial issued Part 70 permit shall continue in full force and effect pending final action on the application. A completeness determination shall be made within sixty (60) days of receipt of the application.

(3) *Confidential information.* In the case where a source has submitted information to the permitting authority under a claim of confidentiality, the permitting authority may also require the source to submit a copy of such information directly to the Administrator.

(b) *Duty to supplement or correct application.* Any applicant who fails to submit any relevant facts or who has submitted incorrect information in a permit application shall, upon becoming aware of such failure or incorrect submittal, promptly submit such supplementary facts or corrected information. In addition, an applicant shall provide additional information as necessary to address any requirements that become applicable to the source after the date it filed a complete application but prior to release of a draft permit.

(c) *Standard application form and required information.* The permitting authority shall provide for a standard application form or forms. Information as described below for each emissions unit at a Part 70 source shall be included in the application. The Administrator has reserved the overriding authority under 40 CFR § 70.5(c) to approve or disapprove a list of insignificant activities and emissions levels. Subject to the approval of the Administrator and effective only after such approval, the activities listed at Section 4-56(c)(11) of this ordinance are deemed to be insignificant activities that need not be included in the permit application. Subject to the approval of the Administrator and effective only after such approval, the activities listed at Section 4-56(c)(12) of this ordinance are deemed to be insignificant activities because of size or production rate that must be included in the permit application in accordance with the permit forms as approved by the board pursuant to Section 4-55(a)(2) of this ordinance. The activities listed at Section 4-56(c)(12) need not comply with the requirements of Section 4-56(c)(1) through (c)(9) of this ordinance. An application may not omit information needed to determine the applicability of, or to impose, any applicable requirement, or to evaluate the fee amount required under the schedule approved pursuant to 40 CFR § 70.9. The forms and attachments chosen, however, shall include the elements specified below:

(1) Identifying information, including company name and address (or plant name and address if different from the company name), owner's name and agent, and telephone number and names of plant site manager/contact.

(2) A description of the source's processes and products (by Standard Industrial Classification Code) including any associated with each alternate scenario identified by the source.

(3) The following emissions-related information:

(i) All emissions of pollutants for which the source is major, and all emissions of regulated air pollutants. A permit application shall describe all emissions of regulated air pollutants emitted from any emissions unit, except where such units are exempted under this paragraph (c). The permitting authority shall require additional information related to the emissions of air pollutants sufficient to verify which requirements are applicable to the source, and other information necessary to collect any permit fees owed under the fee schedule approved pursuant to Section 4-60(b) of this ordinance.

(ii) Identification and description of all points of emissions described in paragraph (c)(3)(i) of this section in sufficient detail to establish the basis for fees and applicability of requirements of the Act.

(iii) Emissions rates in tons per year (tpy) and in such terms as are necessary to establish compliance consistent with the applicable standard reference test method.

(iv) The following information to the extent it is needed to determine or regulate emissions: fuels, fuel use, raw materials, production rates, and operating schedules.

(v) Identification and description of air pollution control equipment and compliance monitoring devices or activities.

(vi) Limitations on source operation affecting emissions or any work practice standards, where applicable, for all regulated pollutants at the Part 70 source.

(vii) Other information required by any applicable requirement (including information related to stack height limitations developed pursuant to section 123 of the Act [42 U.S.C. § 7423]).

(viii) Calculations on which the information in items (i) through (vii) above is based.

(4) The following air pollution control requirements:

(i) Citation and description of all applicable requirements, and

(ii) Description of or reference to any applicable test method for determining compliance with each applicable requirement.

(5) Other specific information that may be necessary to implement and enforce other applicable requirements of the Act or of this part or to determine the applicability of such requirements.

(6) An explanation of any proposed exemptions from otherwise applicable requirements.

(7) Additional information as determined to be necessary by the permitting authority to define alternative operating scenarios identified by the source pursuant to Section 4-57(a)(9) of this ordinance or to define permit terms and conditions implementing Section 4-58(i) or Section 4-57(a)(10) of this ordinance.

(8) A compliance plan for all Part 70 sources that contains all the following:

(i) A description of the compliance status of the source with respect to all applicable requirements.

(ii) A description as follows:

(A) For applicable requirements with which the source is in compliance, a statement that the source will continue to comply with such requirements.

(B) For applicable requirements that will become effective during the permit term, a statement that the source will meet such requirements on a timely basis.

(C) For requirements for which the source is not in compliance at the time of permit issuance, a narrative description of how the source will achieve compliance with such requirements.

(iii) A compliance schedule as follows:

(A) For applicable requirements with which the source is in compliance, a statement that the source will continue to comply with such requirements.

(B) For applicable requirements that will become effective during the permit term, a statement that the source will meet such requirements on a timely basis. A statement that the source will meet in a timely manner applicable requirements that become effective during the permit term shall satisfy this provision, unless a more detailed schedule is expressly required by the applicable requirement.

(C) A schedule of compliance for sources that are not in compliance with all applicable requirements at the time of permit issuance. Such a schedule shall include a schedule of remedial measures, including an enforceable sequence of actions with milestones, leading to compliance with any applicable requirements for which the source will be in noncompliance at the time of permit issuance. This compliance schedule shall resemble and be at least as stringent as that contained in any judicial consent decree or administrative order to which the source is subject. Any such schedule of compliance shall be supplemental to, and shall not sanction noncompliance with, the applicable requirements on which it is based.

(iv) A schedule for submission of certified progress reports no less frequently than every six (6) months for sources required to have a schedule of compliance to remedy a violation.

(v) The compliance plan content requirements specified in this paragraph shall apply and be included in the acid rain portion of a compliance plan for an affected source, except as specifically superseded by regulations promulgated under Title IV of the Act which are incorporated by reference in Section 4-52(d) of this ordinance with regard to the schedule and method(s) the source will use to achieve compliance with the acid rain emissions limitations.

(9) Requirements for compliance certification, including the following:

(i) A certification of compliance with all applicable requirements by a responsible official consistent with paragraph (d) of this section and section 114(a)(3) of the Act [42 U.S.C. § 7414];

(ii) A statement of methods to be used for determining compliance, including a description of monitoring, recordkeeping, and reporting requirements and test methods;

(iii) A schedule for submission of compliance certifications during the permit term, to be submitted no less frequently than annually, or more frequently if specified by the underlying applicable requirement or by the permitting authority; and

(iv) A statement indicating the source's compliance status with any applicable enhanced monitoring and compliance certification requirements of the Act provided that these requirements have been identified in this ordinance by amendment subsequent to the action of the Administrator.

(10) The use of nationally-standardized forms for acid rain portions of permit applications and compliance plans, as required by regulations promulgated under Title IV of the Act.

(11) The following activities, due to de minimis emissions levels, are deemed to be insignificant activities that need not be included in the permit application provided that potential emissions of each criteria pollutant from an activity listed in § 4-56(c)(11) by a Part 70 source are less than five

(5) tons per year; and provided that potential emissions of any single hazardous air pollutant from an activity listed in § 4-56(c)(11) by a Part 70 source are less than one thousand (1,000) pounds per year; and provided that the activity involves no potential emissions of any Class I substance or Class II substance as defined in Title 42 U.S.C. 7671; and further provided that the activity listed in § 4-56(c)(11) is not subject to an applicable requirement, as that term is defined in § 4-53. Potential emissions of any air pollutant that is both a criteria pollutant and a hazardous air pollutant shall be subject to the more stringent threshold of one thousand (1,000) pounds per year for the purposes of § 4-56(c)(11).

(i) Mobile sources such as: automobiles, trucks, buses, locomotives, planes, boats, and ships. This exemption only applies to the emissions from the internal combustion engines used exclusively to propel such vehicles;

(ii) Equipment used on farms for soil preparation, tending or harvesting of crops, or for preparation of feed to be used on the farm where prepared, except if subject to Title 40 CFR Part 60, Subpart DD, incorporated by reference in § 4-41, Rule 15;

(iii) Barbecue pits and cookers; if the products are edible (intended for human consumption), and are sold on site, or at one (1) location;

(iv) Any air emission or air emission unit at a domestic residence for domestic use except where open burning requires permit issuance or is expressly prohibited;

(v) Wood smoking operations to cure tobacco in barns;

(vi) Operations exempted under Section 4-41, Rule 6 of the Chattanooga Air Pollution Control Ordinance;

(vii) Natural gas mixing and treatment operations including sampling and testing, except if subject to Title 40 CFR Part 60, Subparts KKK or LLL, incorporated by reference in § 4-41, Rule 15;

(viii) Wire drawing including drawing coolants and lubricants provided that they are water based;

(ix) Open air drying of wood;

(x) Exterior washing of trucks and vehicles, except with cleaners containing volatile organic compounds;

(xi) Sealing or cutting plastic film or foam with heat or hot wires, except processes that emit chlorofluorocarbons;

(xii) Combustion units designed and used exclusively for comfort heating purposes employing liquid petroleum gas, or natural gas as fuel;

(xiii) Comfort air conditioning systems or comfort ventilating systems which are not used to remove air contaminants generated by or released from specific units of equipment, except any activity subject to an applicable requirement promulgated under Title VI of the Act in Title 40 CFR Part 82;

(xiv) Water cooling towers (except for those at nuclear power plants), water treatment systems for process cooling water or boiler feedwater, and water tanks, reservoirs, or other water containers designed to cool, store, or otherwise handle water (including rainwater) that has not been in contact with gases or liquids containing carbon compounds, sulfur compounds, halogens or halogen compounds, cyanide compounds, inorganic acids, or acid gases, except for those using chromium-based water treatment chemicals;

(xv) Equipment used for hydraulic, or hydrostatic testing;

(xvi) Equipment used exclusively to store or hold dry natural gas, except if subject to Title 40 CFR Part 60, Subparts KKK or LLL, incorporated by reference in § 4-41, Rule 15;

(xvii) Gasoline, diesel fuel, and fuel oil handling facilities, equipment, and storage tanks, except those subject to Section 4-53 "Applicable Requirements" (3) of this chapter and Section 4-41, Rule 25.7, Rule 25.8, Rule 25.9, and Rule 25.10 of this chapter.

(xviii) Blast cleaning equipment using a suspension of abrasives in water;

(xix) Laboratory equipment used exclusively for chemical and physical analyses, including ventilating and exhaust systems for laboratory hoods used for air contaminants other than radioactive air contaminants;

(xx) Reserved;

(xxi) Equipment used for inspection of metal products;

(xxii) Brazing, soldering or welding operations which do not release hexavalent chromium compounds or hazardous air pollutants subject to regulations promulgated pursuant to Section 112 of the Act;

(xxiii) Laundry dryers, extractors, or tumblers used for fabrics cleaned with water solutions of bleach or detergents;

(xxiv) Foundry sand mold forming equipment producing molds to which no heat is applied and from which no organics are emitted;

(xxv) Reserved;

(xxvi) Mixers, blenders, roll mills, or calenders for rubber or plastics where no materials in powder form are added and in which no organic solvents, dilutents, or thinners are used;

(xxvii) Vacuum cleaning systems used exclusively for industrial, commercial, or residential housekeeping purposes, except those systems used to collect hazardous air contaminants subject to Section 4-53 "Applicable Requirement" (3) of this ordinance;

(xxviii) Reserved;

(xxix) Repairs or general maintenance not involving structural changes where no new or permanent facilities are installed, not conducted as part of a manufacturing process, not related to the source's primary business activity, not otherwise triggering a permit modification or permanent increase in emissions, and not subject to control requirements for volatile organic compounds or hazardous air pollutants;

(xxx) Alkaline/phosphate washers and associated burners;

(xxxi) Outdoor heaters fueled by kerosene;

(xxxii) Livestock and poultry feedlots;

(xxxiii) Reserved;

(xxxiv) Blueprint copiers and photocopying;

(xxxv) Reserved;

(xxxvi) Reserved;

(xxxvii) Funeral homes, excluding crematoriums;

(xxxviii) Gas flares or flares used solely to indicate danger to the public;

(xxxix) Firefighting equipment and the equipment used to train firefighters;

(xl) Equipment used for cooking food for immediate human consumption;

(xli) Blacksmith forges;

(xlii) Clean steam condensate and steam relief vents;

(xliii) Boiler water treatment operations, excluding cooling towers;

(xliv) Reserved;

(xlv) Herbicide and pesticide dilution and application activities for on site use;

(xlvi) Routine building maintenance, lawn maintenance, house-keeping, and administrative activities, such as painting buildings, roofing, sandblasting, paving parking lots, lawn care activities, all clerical activities, and all janitorial activities;

(xlvii) Miscellaneous activities and equipment, such as: cafeteria vents, bathroom vents, locker room vents, copying, blue print machines, decommissioned equipment, dumpsters, fire training, refrigerators, and space heaters;

(xlviii) Cold storage refrigerator equipment, excluding equipment that uses a Class I substance or a Class II substance as defined in Title 42 U.S.C. 7671;

(xlix) Equipment used for portable steam cleaning;

(l) Non-routine clean out of tanks and equipment for the purposes of worker entry or in preparation for maintenance or decommissions;

(li) Sampling connections used exclusively to withdraw materials for testing and analysis, including air contaminant detectors and vent lines;

(lii) Laboratories in primary and secondary schools and in schools of higher education used for instructional purposes;

(liii) Equipment used exclusively for rolling, forging, pressing, stamping, spinning, drawing, or extruding either hot or cold metals unless their emissions exceed any applicable regulated amount;

(liv) Reserved;

(lv) Grain, metal or mineral extrusion process;

(lvi) Equipment used exclusively for mixing and blending water-based adhesives and coatings at ambient temperatures and from which no organics are released;

(lvii) Reserved;

(lviii) Steam heated wood drying kilns, not used for chemically treated wood;

(lix) Unpaved roadways and parking areas not regularly used for traffic unless permits have specific conditions limiting fugitive emissions;

(lx) Warehouse activities, including the storage of packaged raw materials and finished goods, excluding activities that emit hazardous air pollutants or volatile organic compounds;

(lxi) Electric stations, including transformers, battery charging and substations, excluding activities that emit polychlorinated biphenyls (PCBs);

(lxii) Compressors and vacuum producing equipment not fueled by gasoline or diesel;

(lxiii) Groundwater monitoring wells;

(lxiv) Reserved;

(lxv) Use of materials for marking and grading of lumber, and the storage of lumber;

(lxvi) Reserved;

(lxvii) Reserved;

(lxviii) Equipment used in the production of aqueous inks in which no organic solvents, dilutents, or thinners are used;

(lxix) Equipment used to transport or store process wastewater streams to a wastewater treatment facility (i.e. floor drains, sumps, drain headers, manhole covers);

(lxx) Vacuum seal pot and vacuum pumps;

(lxxi) Presses used exclusively for extruding metals, minerals, plastics, rubber, or wood except where halogenated carbon compounds or hydrocarbon organic solvents are used as foaming agents. Presses used for extruding scrap materials or reclaiming scrap materials are not insignificant activities;

(lxxii) Tank trucks, railcars, barges, and trailers, excluding transfer and loading operations that are subject to an applicable requirement, as defined in § 4-53 of this chapter, and excluding internal cleaning operations that emit hazardous air pollutants or volatile organic compounds;

(lxxiii) Dumpsters;

(lxxiv) Environmental field sampling activities;

(lxxv) Cleaning, polishing, and other housekeeping activities associated with custodial duties;

(lxxvi) Instrument air dryers and distribution;

(lxxvii) Automatic oiling operations (e.g., oiler on chains);

(lxxviii) Machine blowdown with air for cleanup;

(lxxix) Architectural, structural, and maintenance coating operations in which the articles being coated are coated in place, excluding activities that are part of a manufacturing process or that are part of the source's primary business activity;

(lxxx) Sand blasting operations in which the operations are conducted on articles which are fixed in place, excluding activities that are part of a manufacturing process or that are part of the source's primary business activity;

(lxxxi) Welding operations for maintenance or field fabrication in which the articles being welded are fixed in place;

(lxxxii) Sanitary sewer systems;

(lxxxiii) Reserved;

(lxxxiv) Use of office equipment and supplies;

(lxxxv) Treatment systems for potable water; and

(lxxxvi) Industrial-Commercial-Institutional Steam Generating Insignificant Activities are as follows:

Bunker room exhaust;

Coal sampling and weighing operations;

Vents from ash transport systems not operating at positive pressure (e.g. ash hoppers);

Coal combustion by-product disposal (except for dry stacking and intermittent ash hauling and disposal);

Building ventilation other than boiler room, coal handling, and ash loading (e.g. turbine room, battery room);

Lubrication of equipment except vents from oil vapor extractors;

Hydrogen vents;

Steam vents;

Air compressor and distribution systems;

Fugitive dust from operation of a passenger automobile, station wagon, pickup truck, or van;

Pressure relief valves;

Test gases and bottled gases;

Emissions from a laboratory (If a facility manufactures or produces products for profit in any quantity, it may not be considered to be a laboratory under this item);

Safety devices such as fire extinguishers;

Equipment used for hydraulic or hydrostatic testing;

Food preparation for onsite consumption;

Boiler room ventilation; and

Oil vapor extractor (e.g. turbine seal oil, turbine lube oil).

(lxxxvii) Reserved;

(12) The following activities, due to size and production rate, are deemed to be insignificant activities that must be included in the permit application in accordance with § 4-56 of this chapter provided that potential emissions of each criteria pollutant from an activity listed in § 4-56(c)(12) by a Part 70 source are less than five (5) tons per year; and provided that potential emissions of any single hazardous air pollutant from an activity listed in § 4-56(c)(12) by a Part 70 source are less than one thousand (1,000) pounds per year; and provided that the activity involves no potential emissions of any Class I substance or Class II substance as defined in Title 42 U.S.C. 7671; and further provided that the activity listed in § 4-56(c)(12) is not subject to an applicable requirement, as that term is defined in § 4-53. Potential emissions of any air pollutant that is both a criteria pollutant and a hazardous air pollutant shall be subject to the more stringent threshold of one thousand (1,000) pounds per year for the purposes of § 4-56(c)(12).

(i) Fuel burning equipment of less than five hundred thousand (500,000) Btu per hour capacity. This exemption shall not apply where the total capacity of all fuel burning equipment operated at a fuel burning installation exceeds two million (2,000,000) Btu per hour;

(ii) A single stack of an air contaminant source that emits no regulated gaseous pollutants or any pollutants defined at Section 4-53 "Regulated Air Pollutant" (5) of this ordinance and which does not have potential emissions, prior to being controlled, of more than 0.50 pound per hour of particulate matter, provided that the total of such emissions at an air contaminant source to which this insignificant activity designation is being applied amounts to less than 2.00 pounds per hour. For the purpose of this subparagraph, an air contaminant source includes all sources located within a contiguous area and under common control. This insignificant activity designation does not apply to incinerators or sources emitting lead or lead compounds.

(iii) Natural gas or propane-fired stationary internal combustion engines or gas turbines with less than five million (5,000,000) BTU/hour heat input.

(iv) Processes used for the curing of rubber products and plastic products, except when emitting more than 1 pound per hour of volatile organic compounds. If applicable, associated heat input using natural gas, #2 fuel oil, or propane shall not exceed five million (5,000,000) BTU per hour.

(v) Surface coating and degreasing operations which do not exceed a combined total usage of more than sixty (60) gallons/month of coatings, thinners, clean-up solvents, and degreasing solvents, at any one (1) location.

(vi) Fuel burning sources that are either gas fired or #2 oil fired with a heat input rate under five million (5,000,000) BTU/hour, where the combined total heat input rate at each location does not exceed five million (5,000,000) BTU/hour. This exemption does not apply to gas fired turbines greater than five million (5,000,000) BTU/hour.

(vii) Machining of metals where total solvent usage does not exceed more than sixty (60) gallons/month at any one (1) location.

(viii) Non-continuous solvent recycling units with less than sixty (60) gallons capacity.

(ix) Hand-held sprayer and airbrush graphic arts operations in which total organic solvent emissions from such operations at a facility do not exceed fifteen (15) pounds per day.

(x) Emission units not otherwise exempt under this paragraph with uncontrolled emissions of one hundred (100) pounds per year or less of any Class I or Class II substance subject to a standard promulgated under or established by Title VI of the Act concerning stratospheric ozone protection.

(xi) Any change in the activity or level of operation of an air emissions unit that has the potential to increase emissions of any regulated air pollutant by less than five (5) tons per year unless the change in the activity or level of operation increases the air emissions unit's potential to emit any regulated air pollutant to above five (5) tons per year or if the change in the activity or level of operation is subject to Section 4-53 "Applicable Requirements" (3) and (4) of this ordinance.

(xii) Industrial wastewater treatment facilities which do not use air stripping or air sparging and do not release more than one-half (0.5) tons/year of any regulated pollutant.

(xiii) Process equipment burning natural gas or #2 fuel oil with a heat input rate under five million (5,000,000) BTU/hour where the combined total heat input rate at each facility does not exceed five million (5,000,000) BTU/hour. Only the fuel burning emissions from these sources are considered insignificant activities.

(xiv) All storage tanks with a capacity of no more than one thousand (1,000) gallons (including fifty-five (55) gallon drums used only for storage) except those emitting any hazardous air pollutant as set forth at Section 4-53 "Applicable Requirements" (4) of this ordinance.

(xv) All process tanks with a capacity of no more than one thousand (1,000) gallons where the combined total emissions from such tanks are less than one-half (0.5) tons of any regulated air pollutant combined.

(xvi) Equipment used for compression molding and injection molding of plastics, excluding processes that involve the use of acrylics, polystyrene and related copolymers, and plasticizer, and limited to the blowing agents oxygen, nitrogen, carbon dioxide, air that is a mixture of gases with a composition of approximately seventy-eight percent (78%) nitrogen and twenty-one percent (21%) oxygen by volume, or inert gas.

(xvii) All gas fired, #2 oil fired, infrared, and electric ovens with a heat input of no more than five million (5,000,000) BTU/hour which have no emissions other than products of fuel combustion, unless they are associated with a source subject to § 4-53 "Applicable requirement" (3) of this chapter.

(xviii) Powder coating operations.

(xix) An "emergency generator" which is used when loss of primary electrical power occurs for reasons beyond the control of the source. In no event shall an "emergency generator" be operated for a period of time longer than five (5) consecutive days or more than a total of twenty (20) days in any calendar year, unless a source demonstrates to the director with clear and convincing evidence that reasonably unforeseeable events beyond the control of

the source require use of the "emergency generator" for an additional period of time. The source shall maintain a written record of each loss of primary electrical power, including a record of the loss.

(xx) Equipment used exclusively for rolling, forging, pressing, stamping, spinning or extruding either hot or cold plastics that do not emit hazardous air pollutants.

(xxi) Lubricants and waxes used for machinery lubrication.

(xxii) Surface coating operations using hand-held, non-refillable aerosol containers.

(d) Any application form, report, or compliance certification submitted pursuant to these regulations shall contain a certification by a responsible official of truth, accuracy, and completeness. This certification and any other certification required under this ordinance shall state that, based on information and belief formed after reasonable inquiry, the statements and information in the document are true, accurate, and complete.

(e) Transition plan. It is required that:

(1) Submittal of permit applications by all Part 70 sources shall occur within one (1) year after the date of approval of the permit program by the Administrator.

(2) Final action shall be taken on at least one-third (1/3) of such applications each year over a period not to exceed three (3) years after the date of approval of the permit program by the Administrator. Complete permit applications shall be processed in the order received with the first third of the Part 70 permits issued within one (1) year after the applications are submitted to the first third received; the second third within two (2) years after the applications are submitted to remaining sources as determined by a random lottery; and the third issued within three (3) years after the applications are submitted to the remaining sources. Initial issuance of Part 70 permits may be for three (3), four (4) or five (5) year permit terms at the discretion of the director.

(3) Any complete permit application containing an early reduction demonstration under section 112(i)(5) of the Act [42 U.S.C. § 7412] shall be acted on within 9 months of receipt of the complete application; and

(4) Submittal of permit applications and the permitting of affected sources shall occur in accordance with the deadlines in Title IV of the Act and set forth at Section 4-56(a)(1)(iv) of this ordinance and the applicable requirements promulgated under Title IV of the Act and incorporated by reference in this ordinance at Section 4-52(d).

(Ord. No. 10114, § 2, 9-27-94; Ord. No. 10297, § 4, 10-3-95; Ord. No. 10378, §§ 1—6, 2-20-96; Ord. No. 10786, § 54, 10-27-98; Ord. No. 12054, § 31, 12-11-07; Ord. No. 13998, §§ 91—97, 6-27-23)

Sec. 4-57. Permit content.

The permitting authority shall issue and enforce permits in this municipality which conform with these provisions and shall require compliance therewith:

(a) *Standard permit requirements.* Each permit issued under this part shall include the following elements:

(1) Emission limitations and standards, including those operational requirements and limitations that assure compliance with all applicable requirements at the time of permit issuance and all requirements of 40 CFR Part 70 that apply to the emissions units and to the source.

(i) The permit shall specify and reference the origin of and authority for each term or condition, and identify any difference in form as compared to the applicable requirement upon which the term or condition is based.

(ii) The permit shall state that, where an applicable requirement of the Act is more stringent than an applicable requirement of regulations promulgated under Title IV of the Act and incorporated by reference in this ordinance at Section 4-52(d), both provisions shall be incorporated into the permit and shall be legally enforceable.

(iii) Because the Chattanooga Air Pollution Control Ordinance allows a determination of an alternative emission limit at a source, equivalent to that contained in Section 4-41 of the Chattanooga Air Pollution Control Ordinance, to be made in the permit issuance, renewal, or significant modification process, if the permitting authority elects to use such process, any permit containing such equivalency determination shall contain provisions to ensure that any resulting emissions limit has been demonstrated to be quantifiable, accountable, enforceable, and based on replicable procedures.

(2) *Permit duration.* The permitting authority shall issue permits for a fixed term of five (5) years in the case of affected sources, and for a term not to exceed five (5) years in the case of all other Part 70 sources. Notwithstanding this requirement, the permitting authority shall issue permits for solid waste incineration units combusting municipal waste subject to standards under section 129(e) of the Act [42 U.S.C. § 7429(e)] for a period not to exceed twelve (12) years and shall review such permits at least every five (5) years. Any permit issued for a term of more than three (3) years shall contain a condition that if EPA promulgates regulations or requirements which would be applicable to the source or any emissions unit of the source, then the permit will be reopened by agreement and the applicable requirement incorporated into the permit. Acceptance of the permit by the source constitutes consent to the agreement.

(3) *Monitoring and related recordkeeping and reporting requirements.*

(i) Each permit shall contain the following requirements with respect to monitoring:

(A) All monitoring and analysis procedures or test methods required under applicable monitoring and testing requirements, including 40 CFR Part 64, which has been incorporated by reference in Chapter 4, and any other procedures and methods promulgated pursuant to sections 504(b) [42 U.S.C. § 7661c.(b)] or 114(a)(3) [42 U.S.C. § 7414(a)(3)] of the Act provided that these methods and procedures have been identified in this ordinance by amendment subsequent to the action of the Administrator. If more than one (1) monitoring or testing requirement applies, the permit may specify a streamlined set of monitoring or testing provisions provided the specified monitoring or testing is adequate to assure compliance at least to the same extent as the monitoring or testing applicable requirements that are not included in the permit as a result of such streamlining;

(B) Where the applicable requirement does not require periodic testing or instrumental or noninstrumental monitoring (which may consist of recordkeeping designed to serve as monitoring), periodic monitoring sufficient to yield reliable data from the relevant time period that are representative of the source's compliance with the permit, as reported pursuant to paragraph (a)(3)(iii) of this section. Such monitoring requirements shall assure use of terms, test methods, units, averaging periods, and other statistical conventions consistent with the applicable requirement. The permitting authority shall determine whether and in what cases recordkeeping provisions are sufficient to meet the requirements of this paragraph (a)(3)(i)(B); and

(C) As necessary, requirements concerning the use, maintenance, and, where appropriate, installation of monitoring equipment or methods.

(ii) With respect to recordkeeping, the permit shall incorporate all applicable recordkeeping requirements and require, where applicable, the following:

(A) Records of required monitoring information that include the following:

(1) The date, place as defined in the permit, and time of sampling or measurements;

(2) The date(s) analyses were performed;

(3) The company or entity that performed the analyses;

(4) The analytical techniques or methods used;

(5) The results of such analyses; and

(6) The operating conditions as existing at the time of sampling or measurement;

(B) Retention of records of all required monitoring data and support information for a period of at least five (5) years from the date of the monitoring sample, measurement, report, or application. Support information includes all calibration and maintenance records and all original strip-chart recordings for continuous monitoring instrumentation, and copies of all reports required by the permit.

(iii) With respect to reporting, the permit shall incorporate all applicable reporting requirements and require the following:

(A) Submittal of reports of any required monitoring at least every six (6) months. All instances of deviations from permit requirements must be clearly identified in such reports. All required reports must be certified by a responsible official consistent with Section 4-56(d) of this ordinance.

(B) Prompt reporting of deviations from permit requirements, including those attributable to upset conditions as defined in the permit, the probable cause of such deviations, and any corrective actions or preventive measures taken. The permitting authority shall define "prompt" in the permit in relation to the degree and type of deviation likely to occur and the applicable requirements.

(4) A permit condition prohibiting emissions exceeding any allowances that the source lawfully holds under Title IV of the Act or the regulations promulgated thereunder and incorporated by reference in this ordinance at Section 4-52(d).

(i) No permit revision shall be required for increases in emissions that are authorized by allowances acquired pursuant to the acid rain program, provided that such increases do not require a permit revision under any other applicable requirement.

(ii) No limit shall be placed on the number of allowances held by the source. The source may not, however, use allowances as a defense to noncompliance with any other applicable requirement.

(iii) Any such allowance shall be accounted for according to the procedures established in regulations promulgated under Title IV of the Act and incorporated by reference in this ordinance at Section 4-52(d).

(5) A severability clause to ensure the continued validity of the various permit requirements in the event of a challenge to any portions of the permit.

(6) Provisions stating the following:

(i) The permittee must comply with all conditions of the Part 70 permit. Any permit noncompliance constitutes a violation of both the ordinance and the federal Act and is grounds for joint or several enforcement action; for permit termination, revocation and reissuance, or modification; or for denial of a permit renewal application.

(ii) It shall not be a defense for a permittee in an enforcement action that it would have been necessary to halt or reduce the permitted activity in order to maintain compliance with the conditions of this permit.

(iii) The permit may be modified, revoked, reopened, and reissued, or terminated for cause. The filing of a request by the permittee for a permit modification, revocation and reissuance, or termination, or of a notification of planned changes or anticipated noncompliance does not stay any permit condition.

(iv) The permit does not convey any property rights of any sort, or any exclusive privilege.

(v) The permittee shall furnish to the permitting authority, within a reasonable time, any information that the permitting authority may request in writing to determine whether cause exists for modifying, revoking and reissuing, or terminating the permit or to determine compliance with the permit. Upon request, the permittee shall also furnish to the permitting authority copies of records required to be kept by the permit or, for information claimed to be confidential, the permittee may furnish such records directly to the Administrator along with a claim of confidentiality.

(7) A provision to ensure that a Part 70 source pays fees to the permitting authority consistent with the fee schedule approved pursuant to 40 CFR § 70.9 and set forth in Section 4-60 of this ordinance.

(8) *Emissions trading.* A provision stating that no permit revision shall be required, under any economic incentives, marketable permits, emissions trading and other similar programs or processes which have been approved by the permitting authority for changes that are provided for in the permit, but only when and where emissions trading is allowable and has been approved.

(9) Terms and conditions for reasonably anticipated operating scenarios identified by the source in its application as approved by the permitting authority. Such terms and conditions:

(i) Shall require the source, contemporaneously with making a change from one (1) operating scenario to another, to record in a log at the permitted facility a record of the scenario under which it is operating;

(ii) May extend the permit shield described in paragraph (f) of this section to all terms and conditions under each such operating scenario; and

(iii) Must ensure that the terms and conditions of each such alternative scenario meet all applicable requirements and all the requirements of this ordinance.

(10) Terms and conditions, if the permit applicant requests them, for the trading of emissions increases and decreases in the permitted facility, to the extent that the applicable requirements set forth in Section 4-53 of this ordinance provide for trading such increases and decreases without a case-by-case approval of each emissions trade. Such terms and conditions:

(i) Shall include all terms required under Sections 4-57(a) and (c) of this ordinance to determine compliance;

(ii) May extend the permit shield described in paragraph (f) of this section to all terms and conditions that allow such increases and decreases in emissions; and

(iii) Must meet all applicable requirements and requirements of this ordinance.

(b) *Federally-enforceable requirements.*

(1) All terms and conditions in a Part 70 permit, including any provisions designed to limit a source's potential to emit, are enforceable by the Administrator and citizens under the Act.

(2) Notwithstanding paragraph (b)(1) of this section, the permitting authority shall specifically designate as not being federally enforceable under the Act any terms and conditions included in the permit that are not required under the Act or under any of its applicable requirements.

(c) *Compliance requirements.* All Part 70 permits shall contain the following elements with respect to compliance:

(1) Consistent with paragraph (a)(3) of this section, compliance certification, testing, monitoring, reporting, and recordkeeping requirements sufficient to assure compliance with the terms and conditions of the permit. Any document (including reports) required by a Part 70 permit shall contain a certification by a responsible official that meets the requirements of Section 4-56(d) of this ordinance.

(2) Inspection and entry requirements that require that, upon presentation of credentials and other documents as may be required by law, the permittee shall allow the permitting authority or an authorized representative to perform the following:

(i) Enter upon the permittee's premises where a Part 70 source is located or emissions-related activity is conducted, or where records must be kept under the conditions of the permit;

(ii) Have access to and copy, at reasonable times, any records that must be kept under the conditions of the permit;

(iii) Inspect at reasonable times any facilities, equipment (including monitoring and air pollution control equipment), practices, or operations regulated or required under the permit; and

(iv) As authorized by the Act or by this ordinance, sample or monitor at reasonable times substances or parameters for the purpose of assuring compliance with the permit or applicable requirements.

(v) For purposes of (ii), (iii), and (iv) above, reasonable times shall be considered to be customary business hours, unless reasonable cause exists to suspect noncompliance with the Chattanooga Air Pollution Control Ordinance or any "Applicable requirement," as defined in Section 4-53 of this ordinance or with any permit issued by the permitting authority and the director specifically authorizes a designee to inspect a facility at any other time.

(3) A schedule of compliance consistent with Section 4-56(c)(8) of this ordinance.

(4) Progress reports consistent with an applicable schedule of compliance and Section 4-56(c)(8) of this ordinance to be submitted at least semiannually, or at a more frequent period if specified in the applicable requirement or by the permitting authority. Such progress reports shall contain the following:

(i) Dates for achieving the activities, milestones, or compliance required in the schedule of compliance, and dates when such activities, milestones or compliance were achieved; and

(ii) An explanation of why any dates in the schedule of compliance were not or will not be met, and any preventive or corrective measures adopted.

(5) Requirements for compliance certification with terms and conditions contained in the permit, including emission limitations, standards, or work practices. Permits shall include each of the following:

(i) The frequency (not less than annually or such more frequent periods as specified in the applicable requirement or by the permitting authority) of submissions of compliance certifications;

(ii) In accordance with Section 4-57(a)(3) of this ordinance, a means for monitoring the compliance of the source with its emissions limitations, standards, and work practices;

(iii) A requirement that the compliance certification include all of the following (provided that the identification of applicable information may cross-reference the permit or previous reports, as applicable):

(A) The identification of each term or condition of the permit that is the basis of the certification;

(B) The identification of the method(s) or other means used by the owner or operator for determining the compliance status with each term and condition during the certification period, and whether such methods or other means provide continuous or intermittent data. Such methods and other means shall include, at a minimum, the methods and means required under Section 4-57(a)(3). If necessary, the owner or operator shall also identify any other material information that must be included in the certification to comply with Section 113(c)(2) of the Act, which prohibits knowingly making a false certification or omitting material information;

(C) The status of compliance with the terms and conditions of the permit for the period covered by the certification, based on the method or means designated in Section 4-57(c)(5)(iii)(B). The certification shall identify each deviation and take it into account in the compliance certification. The certification shall also identify as possible exceptions to compliance any periods during which compliance is required and in which an excursion or exceedance as defined under Title 40 CFR Part 64 occurred; and

(D) Such other facts as the permitting authority may require to determine the compliance status of the source.

(iv) A requirement that all compliance certifications be submitted to the Administrator as well as to the permitting authority; and

(v) Such additional requirements as may be required under sections 114(a)(3) and 504(b) of the Act [42 U.S.C. § 7661c.(b) and § 7414(a)(3)].

(6) Such other provisions as the permitting authority may require.

(d) *Part 70 general permits.*

(1) The permitting authority may, after notice and opportunity for public participation provided under Section 4-58(h) of this ordinance, issue a general permit covering numerous similar sources. Any such general permit shall comply with all requirements applicable to other Part 70 permits and shall identify criteria by which sources may qualify for the Part 70 general permit. To sources that qualify, the permitting authority shall grant the conditions and terms of the Part 70 general permit. Notwithstanding the shield provisions of paragraph (f) of this section, the source shall be subject to enforcement action for operation without a Part 70 permit if the source is later determined not to qualify for the conditions and terms of the Part 70 general permit. Part 70 general permits shall not be authorized for affected sources under the acid rain program unless otherwise provided in regulations promulgated under Title IV of the Act which are incorporated by reference in Section 4-52(d) of this ordinance nor for non-Part 70 sources.

(2) Part 70 sources that would qualify for a general permit must apply to the permitting authority for coverage under the terms of the general permit or must apply for a Part 70 permit consistent with Section 4-56 of this ordinance. The permitting authority may, in the

general permit, provide for applications which deviate from the requirements of Section 4-56 of this ordinance, provided that such applications meet the requirements of Title V of the Act, and include all information necessary to determine qualification for, and to assure compliance with, the general permit. Without repeating the public participation procedures required under Section 4-58(h) of this ordinance, the permitting authority may grant a source's request for authorization to operate under a general permit, but such a grant shall not be a final permit action for purposes of judicial review.

(e) *Temporary sources.* The permitting authority may issue a single permit authorizing emissions from similar operations by the same source owner or operator at multiple temporary locations. The operation must be temporary and involve at least one (1) change of location during the term of the permit. No affected source shall be permitted as a temporary source. Permits for temporary sources shall include the following:

(1) Conditions that will assure compliance with all applicable requirements at all authorized locations;

(2) Requirements that the owner or operator notify the permitting authority at least ten (10) days in advance of each change in location; and

(3) Conditions that assure compliance with all other provisions of this section.

(f) *Permit shield.*

(1) Except as provided in this ordinance, the permitting authority shall, upon request by the responsible official who submits an application, expressly include in a Part 70 permit a provision stating that compliance with the conditions of the permit shall be deemed compliance with any applicable requirements as of the date of permit issuance, provided that:

(i) Such applicable requirements are included and are specifically identified in the permit; or

(ii) The permitting authority, in acting on the permit application or revision, determines in writing that other requirements specifically identified are not applicable to the source, and the permit includes the determination or a concise summary thereof.

(2) A Part 70 permit that does not expressly state that a permit shield exists shall be presumed not to provide such a shield.

(3) Nothing in this paragraph or in any Part 70 permit shall alter or affect the following:

(i) The provisions of section 303 of the Act [42 U.S.C. § 7603] (emergency orders), including the authority of the Administrator or the permitting authority under that section;

(ii) The liability of an owner or operator of a source for any violation of applicable requirements prior to or at the time of permit issuance;

(iii) The applicable requirements of the acid rain program, consistent with section 408(a) of the Act [42 U.S.C. § 7651g.(a)]; or

(iv) The ability of EPA to obtain information from a source pursuant to section 114 of the Act [42 U.S.C. § 7414] or of the permitting authority to obtain information from a source pursuant to this ordinance.

(Ord. No. 10114, § 2, 9-27-94; Ord. No. 10786, §§ 55, 56, 60, 10-27-98; Ord. No. 12054, § 32, 12-11-07; Ord. No. 14165, § 21, 10-29-24)

Sec. 4-58. Permit issuance, renewal, reopenings, and revisions.

(a) *Action on application.*

(1) A permit, permit modification, or renewal may be issued only if all of the following conditions have been met:

(i) The permitting authority has received a complete application for a permit, permit modification, or permit renewal, except that a complete application need not be received before issuance of a general permit under Section 4-57(d) of this ordinance;

(ii) Except for modifications qualifying for minor permit modification procedures under Section 4-58(e)(1) and (2) of this ordinance, the permitting authority has complied with the requirements for public participation under paragraph (h) of this section 4-58;

(iii) The permitting authority has complied with the requirements for notifying and responding to affected States under Section 4-59(b) of this ordinance;

(iv) The conditions of the permit provide for compliance with all applicable requirements and the requirements of this ordinance; and

(v) The Administrator has received a copy of the proposed permit and any notices required under 40 CFR §§ 70.8(a) and 70.8(b), and has not objected to issuance of the permit under 40 CFR § 70.8(c) within the time period specified therein.

(vi) No permit for a solid waste incineration unit may be issued by an agency, instrumentality or person that is also responsible, in whole or in part, for the design and construction or operation of the unit.

(2) Except as provided under the initial transition plan provided for under Section 4-56(e) of this ordinance or under Title IV or Title V of the Act for the permitting of affected sources under the acid rain program, the permitting authority takes final action on each permit application (including a request for permit modification or renewal) within eighteen (18) months, or such lesser time established by the permitting authority, after receiving a complete application.

(3) Priority shall be given to taking action on applications for construction or modification under Title I, parts C and D of the Act.

(4) The permitting authority shall promptly provide notice to the applicant of whether the application is complete. Unless the permitting authority requests additional information or otherwise notifies the applicant of incompleteness within sixty (60) days of receipt of an application, the application shall be deemed complete. For modifications processed through minor permit modification procedures, such as those in paragraphs (e)(1) and (2) of this section, a completeness determination is not required.

(5) The permitting authority shall provide a statement that sets forth the legal and factual basis for the draft permit conditions (including references to the applicable statutory or regulatory provisions). The permitting authority shall send this statement to EPA and to any other person who requests it.

(6) The submittal of a complete application shall not affect the requirement that any source or emissions unit at a Part 70 source have a preconstruction permit under Title I of the Act.

(b) *Requirement for a permit.* Except as provided in the following sentence, Section 4-58(i)(1) of this ordinance, and paragraphs Section 4-58(e)(1)(v) and (2)(v) of this ordinance, no Part 70 source may operate after the time that it is required to submit a timely and complete application under this ordinance after its approval by EPA, except in compliance with a permit issued under a Part 70 program. If a Part 70 source submits a timely and complete application for permit issuance (including for renewal), the source's failure to have a Part 70 permit is not a violation of this ordinance until the permitting authority takes final

action on the permit application, except as noted in this section. This protection shall cease to apply if, subsequent to the completeness determination made pursuant to paragraph (a)(4) of this section, and as required by Section 4-56(a)(2) of this ordinance, the applicant fails to submit by the deadline specified in writing by the permitting authority any additional information identified as being needed to process the application.

(c) *Permit renewal and expiration.*

(1) (i) Permits being renewed are subject to the same procedural requirements, including those for public participation, affected State and EPA review, that apply to initial permit issuance; and

(ii) Permit expiration terminates the source's right to operate unless a timely and complete renewal application has been submitted consistent with paragraph (b) of this section and Section 4-56(a)(1)(iii) of this ordinance.

(2) If the permitting authority fails to act in a timely way on a permit renewal, EPA may override the permitting authority to terminate or revoke and reissue the permit.

(3) If a timely and complete application for a permit renewal is submitted, consistent with Section 4-56(a)(2) of this ordinance, but the permitting authority has failed to issue or deny the renewal permit before the end of the term of the previous permit, then:

(i) The permit shall not expire until the renewal permit has been issued or denied and any permit shield that may be granted pursuant to Section 4-57(f) of this ordinance may extend beyond the original permit term until renewal; or

(ii) All the terms and conditions of the permit including any permit shield that may have been granted under this ordinance or pursuant to Section 4-57(f) of this ordinance shall remain in effect until the renewal permit has been issued or denied.

(4) Consistent with the requirements of this ordinance and 40 CFR Part 70, the permitting authority is authorized to terminate, modify, or revoke and reissue permits for cause.

(5) The permitting authority shall make available to the public for inspection any permit application, compliance plan, permit, and monitoring and compliance certification report pursuant to section 503(e) of the Act [42 U.S.C. § 7661b.(e)], except for information entitled to confidential treatment pursuant to section 114(c) of the Act [42 U.S.C. § 7414]. The contents of a Part 70 permit shall not be entitled to protection under section 114(c) of the Act [42 U.S.C. § 7414].

(d) *Administrative permit amendments.*

(1) An "administrative permit amendment" is a permit revision that:

(i) Corrects typographical errors;

(ii) Identifies a change in the name, address, or phone number of any person identified in the permit, or provides a similar minor administrative change at the source;

(iii) Requires more frequent monitoring or reporting by the permittee;

(iv) Allows for a change in ownership or operational control of a source where the permitting authority determines that no other change in the permit is necessary, provided that a written agreement containing a specific date for transfer of permit responsibility, coverage, and liability between the current and new permittee has been submitted to the permitting authority;

(v) Incorporates into the Part 70 permit the requirements from preconstruction review permits authorized under an EPA-approved program, provided that such a program meets procedural requirements substantially equivalent to the requirements of Section 4-58 and Section 4-59

of this ordinance that would be applicable to the change if it were subject to review as a permit modification, and compliance requirements substantially equivalent to those contained in Section 4-57 of this ordinance; or

(vi) Incorporates any other type of change which the Administrator has determined as part of the approved Part 70 program to be similar to those in paragraphs (d)(1)(i) through (iv) of this section provided that such "other type of change" has been identified in this ordinance by amendment subsequent to the action of the Administrator.

(2) Administrative permit amendments for purposes of the acid rain portion of the permit shall be governed by regulations promulgated under Title IV of the Act which are incorporated by reference in this ordinance at Section 4-52(d).

(3) Administrative permit amendment procedures. An administrative permit amendment may be made by the permitting authority consistent with the following:

(i) The permitting authority shall take no more than sixty (60) days from receipt of a request for an administrative permit amendment to take final action on such request, and may incorporate such changes without providing notice to the public or affected States provided that it designates any such permit revisions as having been made pursuant to this section of this ordinance.

(ii) The permitting authority shall submit a copy of the revised permit to the Administrator.

(iii) The source may implement the changes addressed in the request for an administrative amendment immediately upon submittal of the request.

(4) The permitting authority may, upon taking final action granting a request for an administrative permit amendment, allow coverage by the permit shield in Section 4-57(f) of this ordinance for administrative permit amendments made pursuant to paragraph (d)(1)(v) of this section which meet the relevant requirements of Sections 4-57, 4-58, and 4-59 of this ordinance for significant permit modifications.

(e) *Permit modification.* A permit modification is any revision to a Part 70 permit that cannot be accomplished under the program's provisions for administrative permit amendments under paragraph (d) of this section. A permit modification for purposes of the acid rain portion of the permit shall be governed by regulations promulgated under Title IV of the Act which are incorporated by reference in this ordinance at Section 4-52(d).

(1) *Minor permit modification procedures.*

(i) *Criteria.*

(A) Minor permit modification procedures may be used only for those permit modifications that:

(1) Do not violate any applicable requirement;

(2) Do not involve significant changes to existing monitoring, reporting, or recordkeeping requirements in the permit;

(3) Do not require or change a case-by-case determination of an emission limitation or other standard, or a source-specific determination for temporary sources of ambient impacts, or a visibility or increment analysis;

(4) Do not seek to establish or change a permit term or condition for which there is no corresponding underlying applicable requirement and that the source has assumed to avoid an applicable requirement to which the source would otherwise be subject. Such terms and conditions include:

(A) A federally enforceable emissions cap assumed to avoid classification as a modification under any provision of Title I of the Act; and

(B) An alternative emissions limit approved pursuant to regulations promulgated under section 112(i)(5) of the Act [42 U.S.C. § 7412(i)(5)];

(5) Are not modifications under any provision of Title I of the Act; and

(6) Are not required by this ordinance to be processed as a significant modification.

(B) Notwithstanding paragraphs (e)(1)(i)(A) and (e)(2)(i) of this section, minor permit modification procedures may be used for permit modifications involving the use of economic incentives, marketable permits, emissions trading, and other similar approaches, to the extent that such minor permit modification procedures are explicitly provided for in an applicable implementation plan or in applicable requirements promulgated by EPA.

(ii) *Application.* An application requesting the use of minor permit modification procedures shall meet the requirements of Section 4-56(c) of this ordinance and shall include the following:

(A) A description of the change, the emissions resulting from the change, and any new applicable requirements that will apply if the change occurs;

(B) The source's suggested draft permit;

(C) Certification by a responsible official, consistent with Section 4-56(d) of this ordinance, that the proposed modification meets the criteria for use of minor permit modification procedures and a request that such procedures be used; and

(D) Completed forms for the permitting authority to use to notify the Administrator and affected States as required under 40 CFR § 70.8.

(iii) *EPA and affected State notification.* Within 5 working days of receipt of a complete permit modification application, the permitting authority shall meet its obligation under Section 4-59(a)(1) and (b)(1) of this ordinance to notify the Administrator and affected States of the requested permit modification. The permitting authority promptly shall send any notice required under Section 4-59(b)(2) of this ordinance to the Administrator.

(iv) *Timetable for issuance.* The permitting authority may not issue a final Part 70 permit modification until after EPA's forty-five (45) day review period or until EPA has notified the permitting authority that EPA will not object to issuance of the permit modification, whichever is first, although the permitting authority can approve the permit modification prior to that time. In the event of an objection by the Administrator, the director shall follow the procedures set forth at Section 4-59(c) of this ordinance. Within ninety (90) days of the permitting authority's receipt of an application under minor permit modification procedures or fifteen (15) days after the end of the Administrator's forty-five (45) day review period under Section 4-59(c) of this ordinance, whichever is later, the permitting authority shall:

(A) Issue the permit modification as proposed;

(B) Deny the permit modification application;

(C) Determine that the requested modification does not meet the minor permit modification criteria and should be reviewed under the significant modification procedures; or

(D) Revise the draft permit modification and transmit to the Administrator the new proposed permit modification as required by 40 CFR § 70.8(a).

(v) *Source's ability to make change.* The source is allowed to make the change proposed in its minor permit modification application immediately after it files such application. After the source makes the change allowed by the preceding sentence, and until the permitting authority takes any of the actions specified in paragraphs (e)(1)(iv)(A) through (C) of this section, the source must comply with both the applicable requirements governing the change and the proposed permit terms and conditions. During this time period, the source need not comply with the existing permit terms and conditions it seeks to modify. However, if the source fails to comply with its proposed permit terms and conditions during this time period, the existing permit terms and conditions it seeks to modify may be enforced against it.

(vi) *Permit shield.* The permit shield under Section 4-57(f) of this ordinance may not extend to minor permit modifications.

(2) *Group processing of minor permit modifications.* Consistent with this paragraph, the permitting authority may modify the procedure outlined in paragraph (e)(1) of this section to process groups of a source's applications for certain modifications eligible for minor permit modification processing.

(i) *Criteria.* Group processing of modifications may be used only for those permit modifications:

(A) That meet the criteria for minor permit modification procedures under paragraph (e)(1)(i)(A) of this section; and

(B) That collectively are below the threshold level approved by the Administrator as part of the approved program. This threshold shall be ten percent (10%) of the emissions allowed by the permit for the emissions unit for which the change is requested, twenty percent (20%) of the applicable definition of major source in Section 4-53 of this ordinance, or five (5) tons per year, whichever is least.

(ii) *Application.* An application requesting the use of group processing procedures shall meet the requirements of Section 4-56(c) of this ordinance and shall include the following:

(A) A description of the change, the emissions resulting from the change, and any new applicable requirements that will apply if the change occurs.

(B) The source's suggested draft permit.

(C) Certification by a responsible official, consistent with Section 4-56(d) of this ordinance, that the proposed modification meets the criteria for use of group processing procedures and a request that such procedures be used.

(D) A list of the source's other pending applications awaiting group processing, and a determination of whether the requested modification, aggregated with these other applications, equals or exceeds the threshold set under paragraph (e)(2)(i)(B) of this section.

(E) Certification, consistent with Section 4-56(d) of this ordinance, that the source has notified EPA of the proposed modification. Such notification need only contain a brief description of the requested modification.

(F) Completed forms for the permitting authority to use to notify the Administrator and affected States as required under Section 4-59 of this ordinance.

(iii) *EPA and affected State notification.* On a quarterly basis or within five (5) business days of receipt of an application demonstrating that the aggregate of a source's pending applications

equals or exceeds the threshold level set under paragraph (e)(2)(i)(B) of this section, whichever is earlier, the permitting authority promptly shall meet its obligation under Section 4-59(a)(1) and (b)(1) of this ordinance to notify the Administrator and affected States of the requested permit modifications. The permitting authority shall send any notice required under Section 4-59(b)(2) of this ordinance to the Administrator.

(iv) *Timetable for issuance.* The provisions of paragraph (e)(1)(iv) of this section shall apply to modifications eligible for group processing, except that the permitting authority shall take one (1) of the actions specified in paragraphs (e)(1)(iv)(A) through (D) of this section within one hundred eighty (180) days of receipt of the application or fifteen (15) days after the end of the Administrator's forty-five (45) day review period under Section 4-59(c) of this ordinance, whichever is later.

(v) *Source's ability to make change.* The provisions of paragraph (e)(1)(v) of this section shall apply to modifications eligible for group processing.

(vi) *Permit shield.* The provisions of paragraph (e)(1)(vi) of this section shall also apply to modifications eligible for group processing.

(3) *Significant modification procedures.*

(i) *Criteria.* Significant modification procedures shall be used for applications requesting permit modifications that do not qualify as minor permit modifications or as administrative amendments. The permitting authority shall follow these criteria in determining whether a change is significant: Any change in existing monitoring permit terms or conditions and every relaxation of reporting or recordkeeping permit terms or conditions shall be considered significant. Nothing herein shall be construed to preclude the permittee from making changes consistent with this part that would render existing permit compliance terms and conditions irrelevant.

(ii) Significant permit modifications shall meet all requirements of this ordinance, including those for applications, public participation, review by affected States, and review by EPA, as they apply to permit issuance and permit renewal. The permitting authority shall design and implement this review process to complete review on the majority of significant permit modifications within nine (9) months after receipt of a complete application.

(f) *Reopening for cause.*

(1) Each issued permit shall include provisions specifying the conditions under which the permit will be reopened prior to the expiration of the permit. A permit shall be reopened and revised under any of the following circumstances:

(i) Additional applicable requirements under the Act become applicable by ordinance amendment to a major Part 70 source with a remaining permit term of three (3) or more years. Such a reopening shall be completed not later than eighteen (18) months after promulgation of the applicable requirement. No such reopening is required if the effective date of the requirement is later than the date on which the permit is due to expire, unless the original permit or any of its terms and conditions has been extended pursuant to Section 4-58(c)(3) of this ordinance.

(ii) Additional requirements (including excess emissions requirements) become applicable to an affected source under the acid rain program. Upon approval by the Administrator and amendment of this ordinance, excess emissions offset plans shall be incorporated into the permit by the permitting authority.

(iii) The permitting authority or EPA determines that the permit contains a material mistake or that inaccurate statements were made in establishing the emissions standards or other terms or conditions of the permit.

(iv) The Administrator or the permitting authority determines that the permit must be revised or revoked to assure compliance with the applicable requirements.

(2) Proceedings to reopen and issue a permit shall follow the same procedures as apply to initial permit issuance and shall affect only those parts of the permit for which cause to reopen exists. Such reopening shall be made as expeditiously as practicable.

(3) Reopenings under paragraph (f)(1) of this section shall not be initiated before a notice of such intent is provided to the Part 70 source by the permitting authority at least thirty (30) days in advance of the date that the permit is to be reopened, except that the permitting authority may provide a shorter time period in the case of an emergency.

(g) *Reopenings for cause by EPA.*

(1) If the Administrator finds that cause exists to terminate, modify, or revoke and reissue a permit pursuant to paragraph (f) of this section, the Administrator is required by federal law to notify the permitting authority and the permittee of such finding in writing.

(2) The permitting authority shall, within ninety (90) days after receipt of such notification, forward to EPA a proposed determination of termination, modification, or revocation and reissuance, as appropriate. The Administrator may extend this ninety (90) day period for an additional ninety (90) days if he finds that a new or revised permit application is necessary or that the permitting authority must require the permittee to submit additional information.

(3) The Administrator is required by federal regulations to review the proposed determination from the permitting authority within ninety (90) days of receipt.

(4) The permitting authority shall have ninety (90) days from receipt of an EPA objection to follow the procedures set forth at Section 4-59(c) of this ordinance in an effort to resolve any objection that EPA makes.

(5) If the permitting authority fails to submit a proposed determination pursuant to paragraph (g)(2) of this section or fails to resolve any objection pursuant to paragraph (g)(4) of this section, the Administrator is required by federal law to exercise override authority and to terminate, modify, or revoke and reissue the permit after taking the following actions:

(i) Providing at least thirty (30) days' notice to the permittee in writing of the reasons for any such action. This notice may be given during the procedures in paragraphs (g)(1) through (4) of this section.

(ii) Providing the permittee an opportunity for comment on the Administrator's proposed action and an opportunity for a hearing.

(h) *Public participation.* Except for modifications qualifying for minor permit modification procedures, all permit proceedings, including initial permit issuance, significant modifications, and renewals, shall provide adequate procedures for public notice including offering an opportunity for public comment and a hearing on the draft permit. These procedures include the following:

(1) Notice shall be given: by publication as an electronic notice (e-notice) on the Bureau website, along with a copy of the draft permit, for the duration of the public comment period; to persons on a mailing list developed by the Bureau, including those who request in writing to be on the list; and by other means designated by the Director, if necessary, to assure adequate notice to the affected public;

(2) The notice shall identify the affected facility; the name and address of the permittee; the name and address of the permitting authority processing the permit; the activity or activities involved in the permit action; the emissions change involved in any permit modification; the name, address, and telephone number of a person from whom interested persons may obtain additional information, including copies of the permit draft, the application, all relevant supporting materials, including the compliance plan, and monitoring and compliance certification report pursuant to section 503(e) of the Act, except for information entitled to confidential treatment pursuant to Section 114(c) of the Act [the contents of a Part 70 permit shall not be entitled to confidential treatment under section 114(c) of the Act.], and all other materials available to the permitting authority that are relevant to the permit decision; a brief description of the comment procedures required by this part; and the time and place of any hearing that may be held, including a statement of procedures to request a hearing (unless a hearing has already been scheduled);

(3) The permitting authority shall provide such notice and opportunity for participation by affected States as is provided for by Section 4-59 of this ordinance;

(4) *Timing.* The permitting authority shall provide at least thirty (30) days for public comment and shall give notice of any public hearing at least thirty (30) days in advance of the hearing.

(5) The permitting authority shall keep a record of the commentors and also of the issues raised during the public participation process so that the Administrator may fulfill his obligation under section 505(b)(2) of the Act [42 U.S.C. § 7661d.(b)(2)] to determine whether a citizen petition may be granted, and such records shall be available to the public. [40 CFR § 70.7]

(i) *Operational Flexibility.* Consistent with paragraphs (i)(1) through (3) of this section changes within a permitted facility are allowed without requiring a permit revision, if the changes are not modifications under any provision of Title I of the Act and the changes do not exceed the emissions allowable under the permit (whether expressed therein as a rate of emissions or in terms of total emissions): Provided that the facility provides the Administrator and the permitting authority with written notification as required below in advance of the proposed changes, which shall be a minimum of seven (7) days, unless the permitting authority provides a different time frame for emergencies. The source, permitting authority, and EPA shall attach each such notice to their copy of the relevant permit. The following provisions implement this requirement:

(1) The source shall be allowed to make section 502(b)(10) of the Act [42 U.S.C. § 7661a.(b)(10)] changes without requiring a permit revision, if the changes are not modifications under any provision of Title I of the Act and the changes do not exceed the emissions allowable under the permit (whether expressed therein as a rate of emissions or in terms of total emissions).

(i) For each such change, the written notification required above shall include a brief description of the change within the permitted facility, the date on which the change will occur, any change in emissions, and any permit term or condition that is no longer applicable as a result of the change.

(ii) The permit shield described in 40 CFR § 70.6(f) and Section 4-57(f) of this ordinance shall not apply to any change made pursuant to this paragraph 4-58(i)(1).

(2) If the applicant in possession of a certificate of alternate control (issued pursuant to section 4-13 of the Chattanooga Air Pollution Control Ordinance) for an operating permit requests them, the permitting authority shall include terms and conditions for the trading of emissions increases and decreases in the permitted source, to the extent that the applicable requirements in the certificate of alternate control provide for trading such increases and decreases without a case-by-case approval of each emissions trade.

(i) Such terms and conditions:

(A) Shall include all terms required under this ordinance and the Chattanooga Air Pollution Control Ordinance to determine compliance; and

(B) Must meet all applicable requirements in the Chattanooga Air Pollution Control Ordinance that are not altered by the certificate of alternate control.

(ii) Under this paragraph (i)(2)(ii), a seven (7) day advance written notification is required and shall include the following information: when the proposed change will occur, a description of each such change, any change in emissions, the permit requirements with which the source will comply using the emissions trading provisions of the applicable implementation plan, and the pollutants emitted subject to the emissions trade. The notice shall also refer to the provisions with which the source will comply in the applicable certificate of alternate control and that provide for the emissions trade.

(iii) The permit shield described in 40 CFR § 70.6(f) and in Section 4-57(f) of this ordinance shall not extend to any change made under this paragraph (i)(2). Compliance with the permit requirements that the source will meet using the emissions trade shall be determined only to the extent that requirements of an applicable certificate of alternate control authorize the emissions trade.

(3) The permitting authority shall, if a permit applicant requests it, issue permits that contain terms and conditions, including all terms required under Section 4-57(a) and (c) of this ordinance to determine compliance, allowing for the trading of emissions increases and decreases in the permitted facility solely for the purpose of complying with a federally-enforceable emissions cap that is established in the permit independent of otherwise applicable requirements. The permit applicant shall include in its application proposed replicable procedures and permit terms that ensure the emissions trades are quantifiable and enforceable. The permitting authority shall not be required to include in the emissions trading provisions any emissions units for which emissions are not quantifiable or for which there are no replicable procedures to enforce the emissions trades. The permit shall also require compliance with all applicable requirements.

(i) Under this paragraph (i)(3), the written notification required above shall state when the change will occur and shall describe the changes in emissions that will result and how these increases and decreases in emissions will comply with the terms and conditions of the permit.

(ii) The permit shield described in 40 CFR § 70.6(f) and Section 4-57(f) of this ordinance may extend to terms and conditions that allow such increases and decreases in emissions.

(j) *Off permit changes.* The source may make changes that are not addressed or prohibited by the permit, other than those described in paragraph (k) of this section, to be made without a permit revision, only after the source meets the requirements of (1) through (3) of this paragraph.

(1) Each such change shall meet all applicable requirements and shall not violate any existing permit term or condition.

(2) Sources must provide contemporaneous written notice to the permitting authority and EPA of each such change, except for changes that qualify as insignificant under the provisions adopted pursuant to 40 CFR § 70.5(c) or Sections 4-56(c)(11) and (c)(12) of this ordinance. Such written notice shall describe each such change, including the date, any change in emissions, pollutants emitted, and any applicable requirement that would apply as a result of the change.

(3) The change shall not qualify for the shield under 40 CFR § 70.6(f) or Section 4-57(f) of this ordinance.

(4) The permittee shall keep a record describing changes made at the source that result in emissions of a regulated air pollutant subject to an applicable requirement, but not otherwise regulated under the permit, and the emissions resulting from those changes. The records shall be retained until the changes are incorporated into subsequently issued permits.

(k) No source shall make, without a permit revision, changes that are not addressed or prohibited by the Part 70 permit, if such changes are subject to any requirements under Title IV of the Act or are modifications under any provision of Title I of the Act.

(l) *Sharing of information.* Any information obtained or used in the administration of this Part 70 program shall be available to EPA upon request without restriction and in a form specified by the Administrator, including computer-readable files to the extent practicable. If the information has been submitted to the permitting authority under a claim of confidentiality, the permitting authority may require the source to submit this information to the Administrator directly. Where the permitting authority submits information to the Administrator under a claim of confidentiality, the permitting authority shall submit that claim to EPA when providing information to EPA under this section. Any information obtained from a permitting authority or Part 70 source accompanied by a claim of confidentiality will be treated in accordance with the applicable regulations.
(Ord. No. 10114, § 2, 9-27-94; Ord. No. 10786, § 61, 10-27-98; Ord. No. 13998, § 98, 6-27-23)

Sec. 4-59. Permit review by EPA and affected States.

(a) *Transmission of information to the Administrator.*

(1) The permitting authority shall provide to the Administrator a copy of each permit application (including any application for permit modification), each proposed permit, and each final Part 70 permit. The applicant may be required by the permitting authority to provide a copy of the permit application (including the compliance plan) directly to the Administrator. Upon agreement with the Administrator, the permitting authority may submit to the Administrator a permit application summary form and any relevant portion of the permit application and compliance plan, in place of the complete permit application and compliance plan. To the extent practicable, the preceding information shall be provided in computer-readable format compatible with EPA's national database management system.

(2) If the Administrator waives the requirements of paragraphs (a)(1) and (b)(1) of this section for any category of sources (including any class, type, or size within such category) other than major sources those requirements need not be complied with.

(3) The permitting authority shall keep for five (5) years such records and submit to the Administrator such information as the Administrator may reasonably require to ascertain whether the local program complies with the requirements of the Act or of 40 CFR Part 70.

(b) *Review by affected States.*

(1) The permitting authority shall give notice of each draft permit to any affected State on or before the time that the permitting authority provides this notice to the public under 40 CFR § 70.7(h), except to the extent 40 CFR § 70.7(e)(2) or (3) requires the timing of the notice to be different.

(2) The permitting authority, as part of the submittal of the proposed permit to the Administrator [or as soon as possible after the submittal for minor permit modification procedures allowed under 40 CFR § 70.7(e)(2) or (3)], shall notify the Administrator and any affected State in writing of any refusal by the permitting authority to accept all recommendations for the proposed permit that the affected State submitted during the public or affected State review period. The notice shall include the permitting authority's reasons for not accepting any such recommendation.

(c) *EPA objection.*

(1) If the Administrator, pursuant to Title 40 CFR 70.8(c), objects to the issuance of an operating permit for which an application must be transmitted to the U.S. EPA Administrator pursuant to Title 40 CFR 70.8(a), in writing within forty-five (35) days after receipt of the proposed operating

permit and all necessary supporting information, then the director shall not issue the operating permit and shall review the objection, including the statement of the Administrator's reasons for objection and description of the terms and conditions that the operating permit must include to respond to the objection.

(i) If the director, upon such review, agrees with the Administrator and finds that the cause for the objection requires permit revision, then the director shall revise the proposed permit to include those terms and conditions that the Administrator describes as necessary to respond to the objection.

(ii) If, however, upon such review the director does not agree with the Administrator and finds that no cause exists to include the terms and conditions suggested by the Administrator in the permit, the director shall forthwith take the following action:

(A) Offer the permittee the opportunity to voluntarily incorporate into the permit or delete from the permit the terms and conditions necessary to accommodate the concerns and resolve the objection of the Administrator. If the permittee agrees to the terms and conditions described by the Administrator, then the permit shall be issued so as to be acceptable to the Administrator, all of which shall be accomplished in a timely manner under schedules agreeable to the Administrator.

(B) If the permittee declines to voluntarily agree to adopt and incorporate into the permit the requirements necessary to accommodate the concerns of the Administrator and to resolve all objections of the Administrator pursuant to Title 40 CFR 70.8(c), then the director shall notify the permittee that the permit as issued has no federal force and effect; that it is merely a local government permit; that the permit does not qualify as a federal operating permit under Title V of the Clean Air Act Amendments of 1990 or Title 40 CFR Part 70; and that the permit, as a non-federal permit may not afford a shield to the permittee against federal civil or criminal enforcement action.

(2) Failure of the permitting authority to do any of the following also shall constitute grounds for an objection by the Administrator:

(i) Comply with paragraphs (a) or (b) of this section;

(ii) Submit to the Administrator any information necessary to review adequately the proposed permit; or

(iii) Process the permit under the procedures approved to meet Section 4-58(h) of this ordinance except for administrative permit modifications, operating changes that do not require permit revision, or minor permit modifications.

(3) Under 40 CFR 70.8 (c)(4) the Administrator has retained overriding authority to issue or deny permits in accordance with the requirements of the Federal program promulgated Title V of the Act.

(4) If the permitting authority fails, within ninety (90) days after the date of an objection under paragraph (c)(1) of this section, to revise and submit a proposed permit in response to the objection, the Administrator has the authority to issue or deny the permit in accordance with the requirements of the Federal program promulgated under Title V of the Act.

(d) *EPA objection after permit issuance.* If the permitting authority has issued a permit prior to receipt of an EPA objection under this paragraph, the Administrator retains authority to modify, terminate, or revoke such permit, and may do so consistent with the procedures in 40 CFR § 70.7. If the director agrees that the Administrator's objection is well taken, the director will issue a revised permit that satisfies EPA's

objection. If the director does not agree that the Administrator's objection is well taken, then the director shall follow the procedures hereinabove set forth at (c)(1) through (c)(3). In any case, the source will not be in violation of the requirement to have submitted a timely and complete application.

(e) *Public petitions to the Administrator.* If the Administrator does not object in writing under paragraph (c) or (d) of this section, any person may petition the Administrator within sixty (60) days after the expiration of the Administrator's forty-five (45) day review period to make such objection. Any such petition shall be based only on objections to the permit that were raised with reasonable specificity during the public comment period provided for in Section 4-58(h) of this ordinance, unless the petitioner demonstrates that it was impracticable to raise such objections within such period, or unless the grounds for such objection arose after such period. If the Administrator objects to the permit as a result of a petition filed under this paragraph, the permitting authority shall not issue the permit until EPA's objection has been resolved, except that a petition for review does not stay the effectiveness of a permit or its requirements if the permit was issued after the end of the forty-five (45) day review period and prior to an EPA objection. If the director agrees that the Administrator's objection is well taken, the director will issue a revised permit that satisfies EPA's objection. If the director does not agree that the Administrator's objection is well taken, then the director shall follow the procedures hereinabove set forth at (c)(1) through (c)(3).

(f) *Prohibition on default issuance.* Consistent with 40 CFR § 70.4(b)(3)(ix), for the purposes of Federal law and Title V of the Act, a Part 70 permit (including a permit renewal or modification) will not issue until affected States and EPA have had an opportunity to review the proposed permit as required under this section.
(Ord. No. 10114, § 2, 9-27-94)

Sec. 4-60. Fee determination and certification.

(a) *Fee Requirement.* The owners or operators of Part 70 sources shall pay annual fees, or the equivalent over some other period, that are sufficient to cover the Part 70 permit program costs and any fee required by this section will be used solely for Part 70 permit program costs.

(b) *Fee schedule adequacy.*

(1) Overriding federal law requires that there be a fee schedule that results in the collection and retention of revenues sufficient to cover the Part 70 permit program costs. These costs are required to include, but are not limited to, the costs of the following activities as they relate to the Part 70 operating permit program for stationary sources:

(i) Preparing generally applicable regulations or guidance regarding the Part 70 permit program or its implementation or enforcement;

(ii) Reviewing and acting on any application for a Part 70 permit, permit revision, or permit renewal, including the development of an applicable requirement as part of the processing of a Part 70 permit, or permit revision or renewal;

(iii) General administrative costs of running the Part 70 permit program, including the supporting and tracking of permit applications, compliance certification, and related data entry;

(iv) Implementing and enforcing the terms of any Part 70 permit (not including any court costs or other costs associated with an enforcement action), including adequate resources to determine which sources are subject to the program;

(v) Emissions and ambient monitoring;

(vi) Modeling, analyses, or demonstrations;

(vii) Preparing inventories and tracking emissions; and

(viii) Providing direct and indirect support to sources under the Small Business Stationary Source Technical and Environmental Compliance Assistance Program contained in section 507 of the Act [42 U.S.C. § 7661(f)] in determining and meeting their obligations under the Act.

(2) (i) The fee schedule may be presumed to meet the requirements of paragraph (b)(1) of this section if it would result in the collection and retention of an amount not less than twenty-five dollars ($25.00) per year (as adjusted pursuant to the criteria set forth in paragraph (b)(2)(iv) of this section) times the total tons of the actual emissions of each regulated pollutant (for presumptive fee calculation) emitted from Part 70 sources.

(ii) There may be excluded from such calculation:

(A) The actual emissions of sources for which no fee is required under paragraph (b)(4) of this section;

(B) The amount of a Part 70 source's actual emissions of each regulated pollutant (for presumptive fee calculation) that the source emits in excess of four thousand (4,000) tpy;

(C) A Part 70 source's actual emissions of any regulated pollutant (for presumptive fee calculation), the emissions of which are already included in the minimum fees calculation; or

(D) The insignificant quantities of actual emissions not required in a permit application pursuant to Section 4-56(c) of this ordinance relative to approved insignificant activities.

(iii) "Actual emissions" means the actual rate of emissions in tons per year of any regulated pollutant (for presumptive fee calculation) emitted from a Part 70 source over the preceding calendar year or any other period determined by the permitting authority to be representative of normal source operation and consistent with the fee schedule approved pursuant to this section. Actual emissions shall be calculated using the unit's actual operating hours, production rates, and in-place control equipment, types of materials processed, stored, or combusted during the preceding calendar year or such other time period established by the permitting authority pursuant to the preceding sentence.

(iv) The $25 per ton per year used to calculate the presumptive minimum amount to be collected under a fee schedule, as described in paragraph (b)(2)(i) of this section, shall be increased each year by the percentage, if any, by which the Consumer Price Index for the most recent calendar year ending before the beginning of such year exceeds the Consumer Price Index for the calendar year 1989. Such calculation shall be made in accordance with the provisions of Section 4-60(e)(4) of this ordinance.

(A) The Consumer Price Index for any calendar year is the average of the Consumer Price Index for all-urban consumers published by the Department of Labor, as of the close of the twelve (12) month period ending on August 31 of each calendar year.

(B) The revision of the Consumer Price Index which is most consistent with the Consumer Price Index for the calendar year 1989 shall be used.

(3) The fee schedule herein established may include emissions fees, application fees, service-based fees or other types of fees, or any combination thereof, to meet the requirements of paragraph (b)(1) or (b)(2) of this section. Nothing in the provisions of this section shall require the permitting authority to calculate fees on any particular basis or in the same manner for all Part 70 sources, all classes or categories of Part 70 sources, or all regulated air pollutants, provided that the permitting authority collects a total amount of fees sufficient to meet the program support requirements of paragraph (b)(1) of this section. Where there is more than one allowable method of calculating the annual fee, the owner (or operator) may select the method.

(4) Notwithstanding any other provision of this section, during the years 1995 through 1999 inclusive, no fee for purposes of the Part 70 program shall be required to be paid with respect to emissions from any affected unit under section 404 of the Act.

(5) The permitting authority shall provide a detailed accounting that the fee schedule meets the requirements of paragraph (b)(1) of this section if:

(i) The fee schedule that would result in the collection and retention of an amount less than that presumed to be adequate under paragraph (b)(2) of this section; or

(ii) The Administrator determines, based on comments rebutting the presumption in paragraph (b)(2) of this section or on his/her own initiative, that there are serious questions regarding whether the fee schedule is sufficient to cover the permit program costs.

(c) *Fee demonstration.* The permitting authority shall provide a demonstration that the fee schedule selected will result in the collection and retention of fees in an amount sufficient to meet the requirements of this section.

(d) *Use of required fee revenue.* The demonstration shall contain an initial accounting (and periodic updates as required) of how required fee revenues are used solely to cover the costs of meeting the various functions of the Part 70 permitting program.

(e) The initial fee schedule is as follows:

(1) The owner or operator or the "responsible official" of a Part 70 source shall pay an annual emission fee to the Bureau based on "regulated pollutant (for presumptive fee calculation)" as those terms are defined in Section 4-53 of this chapter. The minimum annual emission fee charged to a Part 70 source will be eight thousand dollars ($8,000.00).

(2) The annual emission fee for any Part 70 source shall be based on its allowable emissions until the end of the first annual accounting period following issuance of its initial Part 70 operating permit. No later than twelve (12) months after issuance of its initial Part 70 operating permit, the owner or operator or responsible official of the Part 70 source shall notify the director in writing of its choice to base its annual emissions fee for the remainder of its initial operating permit term, as elected by the source, on either its allowable emissions or its actual emissions.

(3) The annual emissions fees described in subsection 4-60(e)(6) of this ordinance shall apply after the enactment date of this ordinance and approval by the Administrator. A source subject to this ordinance shall be required to pay the required fee prior to issuance of its Part 70 operating permit. Said fees shall be collected by the bureau and remitted to the treasurer of the City of Chattanooga as the fiscal agent of the board. (See 40 CFR 70.9(b)(2)(iii) and (iv))

(4) If the owner or operator or responsible official chooses actual emissions as its fee basis, the magnitude of the source's emissions must be proven to the satisfaction of the Director. The procedure for quantifying actual emission rates shall be specified in the operating permit. The costs of proving the actual emission rates on an annualized basis shall be borne by the Part 70 source. The required payment shall be based upon the actual emissions documentation submitted by the source and subject to correction by the Bureau after inspection of the source.

(i) Once the choice of a fee basis has been declared, it may be altered by written request to the director only during the following periods of eligibility: (1) at least one hundred eighty (180) days prior to expiration of the initial Part 70 operating permit or (2) at least one hundred eighty (180) days prior to renewal of an expiring Part 70 operating permit.

(5) The due date for Part 70 source annual emission fees is November 1st of each calendar year beginning November 1, 1995. Part 70 sources with annual emission fees in excess of fifty thousand dollars ($50,000.00) may elect to make four (4) equal payments according to the following schedule:

1st Payment November 1st

2nd Payment February 1st

3rd Payment May 1st

4th Payment August 1st

(6) The rate at which annual emission fees are assessed shall be the "Part 70 presumptive minimum fee rate" of sixty-five dollars and thirty-eight cents ($65.38) per ton as adjusted for each annual accounting period by the percentage, if any, by which the Consumer Price Index for All Urban Consumers (CPI-U) for the most recent completed twelve (12)-calendar month period of September through August exceeds the CPI-U for the twelve-(12) calendar month period of September 2024 through August 2025. This adjusted Part 70 presumptive minimum fee rate is calculated annually by the U.S. Environmental Protection Agency using the preceding criteria. The CPI-U is compiled by the Bureau of Labor Statistics of the U.S. Department of Labor.

(7) An emission cap of four thousand (4,000) tons per year per "regulated pollutant (for presumptive fee calculation)" for a Part 70 source per Part 70 source SIC code shall apply to actual or allowable-based emission fees. An emission fee will not be charged for emissions in excess of the cap(s) or for carbon monoxide.

(8) In the case where a Part 70 source is shutdown such that it has operated only during a portion of the annual accounting period and permits are forfeited to the director, the appropriate fee shall be calculated on a prorated basis over the period of time that the permits were active in the annual accounting period. A Part 70 source that is shutdown, but wishes to retain its operating permit, shall pay a maintenance fee equivalent to forty percent (40%) of the fee that would be charged had it chosen the allowable emission based annual emission fee. If the source chooses this option in the midst of an annual accounting period, the fee will be prorated according to the number of months that the source was in the maintenance fee status.

(9) Part 70 sources choosing an allowable based annual emission fee must conform to the following requirements:

(i) If the Part 70 source wishes to restructure its allowable emissions for the purposes of lowering its annual emission fees, a mutually agreed upon, more restrictive regulatory requirement may be established to reduce its allowable emissions and thus its annual emission fee. The more restrictive requirement must be specified in the permit, and must specify the method used to determine compliance with the limitation. The documentation procedure to be followed by the Part 70 source must also be included to insure that the limit is not exceeded. Restructuring the allowable emissions is permissible only at the expiration of the initial operating permit or at the renewal of an expiring operating permit, and only if a written request for restructuring is filed with the director at least one hundred twenty (120) days prior to the beginning of the annual accounting period for which the change is requested.

(ii) Beginning November 1, 1995, and each November 1st thereafter, any Part 70 source paying annual emission fees based on allowable emissions shall file an allowable emissions analysis with the director which summarizes its allowable emissions of all "regulated

pollutants (for presumptive fee calculation)" at the Part 70 source. Based upon its allowable emissions analysis, the Part 70 source shall pay a minimum annual emission fee calculated at sixty percent (60%) of the current annual emission fee rate.

(iii) Beginning November 1, 1997, and each November 1st thereafter, a Part 70 source subject to annual emission fees based on actual emissions shall file an actual emissions analysis with the director which (1) specifies the method(s) used to quantify its emissions at each emission point and as fugitive emissions and (2) which summarizes its actual emissions of all regulated pollutants.

(iv) The bureau will compile a report of all actual based and allowable based annual emission fees that it receives for the annual accounting period and reconcile the report to the bureau's operating budget for the corresponding fiscal year. If insufficient revenues were received for the budgeted direct and indirect costs of the bureau's regulatory activities pertaining to Part 70 sources, supplemental fees for the sources choosing to pay a fraction of the annual emission fee rate on an allowable tonnage basis will be required. The supplemental fees for those Part 70 sources choosing allowable emissions shall be calculated and presented to the board at its January meeting following the fiscal year under consideration. Upon board approval, supplemental fees shall be assessed against all Part 70 sources choosing allowable based annual emission fees. However, no Part 70 source shall be charged an annual emission fee based on a dollar per ton rate greater than the current emission fee for actual based emission fees. The supplemental fee assessment will be sent to the Part 70 source via certified mail and is due within thirty (30) days after receipt of the assessment. The director may extend this due date an additional ninety (90) days where the director finds that the Part 70 source owner or operator's supplemental fee notice was mailed by the bureau to an incorrect mailing address. If a Part 70 source owner or operator is aggrieved by a supplemental fee, the bureau will explain the procedures used to calculate the fee. If a dispute continues after the explanation, the matter may be appealed to the board as a contested case hearing provided that the dispute is not based upon:

(A) The quantity of "regulated pollutants (for presumptive fee calculation)" allowable emission tonnages that were reported by the Part 70 source in its allowable emissions analysis for the period in dispute and/or;

(B) The supplemental allowable emission annual emission fee rate set by the board pursuant to subection 4-60(b)(10)(iv) of this ordinance for the period in dispute.

Exceedance of a restructured allowable emission limitation shall be viewed by the board as circumvention of the required annual emission fee and a matter for which enforcement action must be pursued.

(10) A newly constructed Part 70 source, or an existing source modifying operations such that it becomes a Part 70 source in the midst of the standard November 1st through October 31st annual accounting period, shall pay allowable based annual emissions fees for the fractional remainder of the annual accounting period commencing upon start-up. At the beginning of the next annual accounting period, the Part 70 source's owner or operator or "responsible official" may choose to pay annual emission fees based on actual or allowable emissions.

(11) An additional fee of 5.0 percent of the outstanding amount, compounded monthly, shall be assessed for any Part 70 permit fee that has not been paid by thirty (30) days after the due date that is indicated on the corresponding invoice. Said fee shall be collected by the Bureau and remitted to the City of Chattanooga finance officer as fiscal agent for the Board who shall accumulate such fees in an account dedicated to the Board for air pollution control activities.

(Ord. No. 10114, § 2, 9-27-94; Ord. No. 10297, § 5, 10-3-95; Ord. No. 10786, § 57, 10-27-98; Ord. No. 10924, § 16, 11-2-99; Ord. No. 12054, §§ 33, 34, 12-11-07; Ord. No. 13221, §§ 16, 17, 9-19-17; Ord. No. 14324, §§ 11-13, 2-17-26)

Sec. 4-61. Judicial Review—Failure to Take Final Action.

Solely for the purposes of obtaining judicial review in State court for failure to take final action, "final permit action" shall include the failure of the permitting authority to take final action on an application for a permit, permit renewal or permit revision within the time specified in this ordinance or such lesser time as may be established by the Board.

If sources are permitted to make changes subject to post hoc review under subsection 4-58(e)(1) of this ordinance the failure of the permitting authority to take final action within ninety (90) days of receipt of an application requesting minor permit modification procedures shall be deemed to be final action subject to judicial review. If a source is permitted to make changes subject to post hoc review under subsection 4-58(e)(2) of this ordinance the failure of the permitting authority to take final action within one hundred eighty (180) days of receipt of an application requesting modifications subject to group processing requirements shall be deemed to be final action subject to judicial review.

Except as provided under the initial transition plan provided for under subsection 4-56(e) of this ordinance or under Title IV of the Act, final action shall be taken on each permit within the time prescribed by, or established under, subsection 4-58(a)(2) of this ordinance.

The failure of the permitting authority to take final action within the time herein prescribed constitutes an action upon which the source (or other person with "standing") may seek a writ of mandamus (T.C.A. 29-25-101 et seq.) or a writ of certiorari (T.C.A. 27-9-101 et seq.) whichever is applicable. If a writ of mandamus is sought it shall require the permitting authority to issue or deny the permit, and shall not attempt to establish the terms, conditions, requirements or elements of the permit.
(Ord. No. 10114, § 2, 9-27-94)

Sec. 4-62. Final action—Administrative and Judicial Review.

Except as provided under the initial transition plan provided for under subsection 4-56(e) of this ordinance or under Title IV of the Act final action shall be taken on each permit within the time prescribed by subsection 4-58(a)(2) of this ordinance.

The failure of the permitting authority to take action within the time hereinabove prescribed constitutes an action upon which the source (or other person with "standing") may seek a writ of mandamus (T.C.A. 29-25-101 et seq.) or writ of certiorari (T.C.A. 27-9-101 et seq.) whichever is appropriate in the circumstances of the case. If a writ of mandamus is sought it shall require the permitting authority to either issue or deny the permit, but not attempt to establish the terms or conditions of the permit.

If review of final permit action is sought on grounds of contest arising after the time prescribed by T.C.A. 27-9-101 et seq., the grounds must be brought initially to the attention of the Board by petition with a request for special hearing setting forth the time constraints. Certiorari under T.C.A. 27-9-101 et seq. will be from the action of the Board on that petition, provided that the application for certiorari under T.C.A. 27-9-101 et seq. must in any event be filed prior to the 91st day after the new grounds arose.

If the final permit action being challenged is the failure of the Board to take action, upon a petition for final permit action by the board after failure of the director to take action, the contestant may file for the appropriate writ in State Court at any time following the expiration of the time allowances hereinabove provided and before the Board denies the permit or issues the final permit.
(Ord. No. 10114, § 2, 9-27-94)

Sec. 4-63. Judicial Review of Terms and Conditions of Permit.

The exclusive means for obtaining judicial review of the terms and conditions of permits shall be by certiorari under T.C.A. 27-9-101 et seq. but only after all administrative remedies have been exhausted.

In those cases where certiorari is appropriate under T.C.A. 27-9-101 et seq. the source shall, at such time as the source deems timely, petition the Board to exercise its own authority to override the Director and take appropriate final permit action so as to permit the source to meet the prescribed time constraints in obtaining judicial review. Such petition to the Board shall be filed in sufficient time to allow the Chairperson (or Vice-Chairperson, in the absence of the Chairperson) to call a special meeting of the Board and to allow the Board to hold a hearing, to deliberate and to take appropriate action within the time limits prescribed in this ordinance for final permit action.

Such administrative and judicial review on permit actions shall be available to the applicant, to any person who participated in the hearing process provided pursuant to subsection 4-58(h) of this ordinance and to any other person who, under the law of Tennessee, has "standing" to obtain judicial review of such action. The application for such judicial review is required to be prior to the 91st day following final permit action. The person seeking judicial review under this provision must exhaust administrative remedies and is required to appeal to the Board from any action of the director and in a contested case final permit action is the action of the board following a hearing, or opportunity for hearing, by the contestant or contestants. The petition for certiorari for judicial review under T.C.A. § 27-9-101 et seq. must be for review of action of the Board and not from action of the director. It must be filed within the time specified in that Statute and in no event more than ninety (90) days after the final permit action by the board.
(Ord. No. 10114, § 2, 9-27-94)

Sec. 4-64. Hearings and Review.

Except as hereinabove provided all other enforcement proceedings, adjudicatory hearings, administrative review, administrative remedies, appeals to the Board, petitions to the Board and all judicial review of Board actions shall be governed and controlled by the provisions of section 4-17 and section 4-18 of the Chattanooga Air Pollution Control Ordinance of Chapter 4 of the Chattanooga City Code.
(Ord. No. 10114, § 2, 9-27-94)

Sec. 4-65. Enforcement.

(a) Whenever the permitting authority has reason to believe that a violation of any provision of this ordinance has occurred, the board or director may cause written notice to be served upon the alleged violator or violators. The notice shall specify the provision of this ordinance or permit alleged to be violated and the date, time, place and general nature of the alleged violation or violations thereof and may include an order that necessary action be taken within a reasonable time. The notice provided for in this subsection may be served by the sheriff or a deputy sheriff of the county; or by a police officer of this city; or by a special police officer of this city; or by a special deputy sheriff; or may be served in any other manner prescribed for the service of a writ of summons by the statutes of the state or by the Tennessee Rules of Civil Procedure. Any such order shall become final unless, no later than thirty (30) days after the date the notice and order are served, the person or persons named therein request in writing a hearing before the board and file a notice of appeal and a bond pursuant to subsection 4-18(e) of the Chattanooga Air Pollution Control Ordinance. Upon such request, the board shall hold a hearing. In lieu of an order, the board may require that the alleged violator or violators appear before the board for a hearing at a time and place specified in the notice and answer the charges complained of, or the board may initiate action pursuant to any applicable provisions of this ordinance, or the statutes of the state, or the acts of Congress of the United States, or the board may initiate action pursuant to any provisions or doctrines of the law of this state.

(b) The Board may issue cease and desist orders after a hearing or opportunity for hearing before the Board.

(c) The Board may file suit in the name of the Board in state or federal court for judicial aid in enforcement of any administrative order.

(d) The permitting authority may terminate, modify, or revoke and reissue permits for cause.

(e) *Enforcement.* The permitting authority shall have the enforcement authority established in section 4-51 of this ordinance and shall have the following enforcement authority to address violations of this ordinance by part 70 sources including those that submit a written request for treatment as a synthetic minor source, (or emissions units thereat or thereon) or violations of permit requirements or conditions:

(1) To restrain or enjoin immediately and effectively any person by administrative order or by suit in court from engaging in any activity in violation of a permit that is presenting an imminent and substantial endangerment to the public health or welfare, or the environment;

(2) To seek injunctive relief in court to enjoin any violation of any program requirement, including permit conditions, without the necessity of a prior revocation of the permit; and

(3) To assess civil penalties and sue in court to recover same and to seek criminal remedies, including fines, according to the following:

(i) Civil penalties shall be recoverable for the violation of any applicable requirement as that term is defined in this ordinance; any permit term or condition; any fee or filing requirement; any duty to allow or carry out inspection, entry or monitoring activities, or any regulation or orders issued by the permitting authority; operation of a part 70 source or of an emissions unit at a part 70 source without a part 70 permit at any time that the part 70 source is required to have an issued part 70 permit, except as otherwise provided in this ordinance; and operation of a source that submits a written request for treatment as a synthetic minor source that is denied such treatment that operates without a part 70 permit at any time that the source or an emissions unit at the source is required to have an issued part 70 permit, except as otherwise provided in this ordinance. Each day of operation without an issued part 70 permit as described in this paragraph constitutes a separate violation. These penalties shall be recoverable in a maximum amount of not less than $25,000 per day per violation. Mental state shall not be an element of proof for civil violations.

(ii) To bring civil actions to collect permit fees when necessary and to bring action to require compliance with the permit requirements of this ordinance.

(iii) Criminal fines shall be recoverable against any person who knowingly violates any applicable requirement; any permit condition; or any fee or filing requirement. These fines shall be coverable in a maximum amount of not less than twenty-five thousand dollars ($25,000.00) per day per violation.

(iv) Criminal fines shall be recoverable against any person who knowingly makes any false material statement, representation or certification in any form, in any notice or report required by a permit, or who knowingly renders inaccurate any required monitoring device or method. These fines shall be recoverable in a maximum amount of not less than twenty-five thousand dollars ($25,000.00) per day per violation.

(v) For the prosecution of criminal action under (e)(3)(iii) or (e)(3)(iv) above the permitting authority shall follow and comply with the provisions of T.C.A. 68-201-112 and shall notify the District Attorney General of the violation.

(f) *Burden of proof.* The burden of proof and degree of knowledge or intent required under State law for establishing violations under paragraph (e)(3) of this section shall be no greater than the burden of proof or degree of knowledge or intent required under the Act.

(g) *Appropriateness of penalties and fines.* A civil penalty or criminal fine assessed, sought, or agreed upon by the permitting authority under paragraph (e)(3) of this section shall be appropriate to the violation. The Board may consider emergency circumstances in mitigation or reduction in assessing a penalty, and shall consider those factors enumerated in § 113(e)(1) [42 U.S.C. 7413(e)(1)] of the Act and those factors enumerated in T.C.A. 68-201-106, as well as those factors set forth at Section 4-4(e) of this ordinance. An emergency means any situation arising from sudden and reasonably unforeseeable events beyond the control of the source, including acts of God, which situation requires immediate corrective action to restore normal operation, and that causes the source to exceed a technology-based emission limitation under the permit, due to unavoidable increases in emissions attributable to the emergency. An emergency shall not include noncompliance to the extent caused by improperly designed equipment, lack of preventative maintenance, careless or improper operation, or operator error.
(Ord. No. 10114, § 2, 9-27-94; Ord. No. 10297, § 6, 10-3-95; Ord. No. 13221, § 18, 9-19-17; Ord. No. 14165, § 22, 10-29-24)

Sec. 4-66. Severability.

If any section, part of a section, sentence, clause or phrase of this Ordinance is for any reason declared to be unconstitutional or otherwise invalid by any court of competent jurisdiction, such decision shall not affect the validity of any other portion of this ordinance, and only such invalid portion shall be elided from this ordinance.
(Ord. No. 10114, § 2, 9-27-94)

Sec. 4-67. Titles.

The titles appearing as headings within this ordinance are for convenience only and shall not be deemed to be an aid to the construction of this ordinance.
(Ord. No. 10114, § 2, 9-27-94)

Sec. 4-68. Incorporation of documents by reference.

The following documents are hereby incorporated by reference in Chapter 4 as requirements of this municipality pursuant to the provisions of T.C.A. § 68-201-115 and § 10-7-121:

(a) The following appendices of Title 40 Code of Federal Regulations Part 50 (Revised as of July 1, 2023):

(1) Appendix A-1 "Reference Measurement Principle and Calibration Procedure for the Measurement of Sulfur Dioxide in the Atmosphere (Ultraviolet Fluorescence Method),"

(2) Appendix A-2 "Reference Method for the Determination of Sulfur Dioxide in the Atmosphere (Pararosaniline Method),"

(3) Appendix B "Reference Method for the Determination of Suspended Particulate Matter in the Atmosphere (High-Volume Method),"

(4) Appendix C "Measurement Principle and Calibration Procedure for the Measurement of Carbon Monoxide in the Atmosphere (Non-Dispersive Infrared Photometry),"

(5) Appendix D "Reference Measurement Principle and Calibration Procedure for the Measurement of Ozone in the Atmosphere (Chemiluminescence Method),"

(6) Appendix F "Measurement Principle and Calibration Procedure for the Measurement of Nitrogen Dioxide in the Atmosphere (Gas Phase Chemiluminescence),"

(7) Appendix G "Reference Method for the Determination of Lead in Total Suspended Particulate Matter,"

(8) Appendix H "Interpretation of the 1-Hour Primary and Secondary National Ambient Air Quality Standards for Ozone,"

(9) Appendix I "Interpretation of the 8-Hour Primary and Secondary National Ambient Air Quality Standards for Ozone,"

(10) Appendix J "Reference Method for the Determination of Particulate Matter as PM10 in the Atmosphere,"

(11) Appendix K "Interpretation of the National Ambient Air Quality Standards for Particulate Matter,"

(12) Appendix L "Reference Method for the Determination of Fine Particulate Matter as PM2.5 in the Atmosphere,"

(13) Appendix N "Interpretation of the National Ambient Air Quality Standards for PM2.5,"

(14) Appendix O "Reference Method for the Determination of Coarse Particulate Matter as PM10-2.5 in the Atmosphere,"

(15) Appendix P "Interpretation of the Primary and Secondary National Ambient Air Quality Standards for Ozone,"

(16) Appendix Q "Reference Method for the Determination of Lead in Particulate Matter as PM10 Collected From Ambient Air,"

(17) Appendix R "Interpretation of the National Ambient Air Quality Standards for Lead,"

(18) Appendix S "Interpretation of the Primary National Ambient Air Quality Standards for Oxides of Nitrogen (Nitrogen Dioxide),"

(19) Appendix T "Interpretation of the Primary National Ambient Air Quality Standards for Oxides of Sulfur (Sulfur Dioxide)," and

(20) Appendix U "Interpretation of the Primary and Secondary National Ambient Air Quality Standards for Ozone";

(b) Title 40 Code of Federal Regulations Part 51, Subpart I "Review of New Sources and Modifications" (Revised as of July 1, 2023);

(c) The following appendices of Title 40 Code of Federal Regulations Part 51 (Revised as of July 1, 2023):

(1) Appendix M "Recommended Test Methods for State Implementation Plans,"

(2) Appendix P "Minimum Emission Monitoring Requirements,"

(3) Appendix S "Emission Offset Interpretative Ruling," Section IV "Sources That Would Locate in a Designated Nonattainment Area," and

(4) Appendix W "Guideline on Air Quality Models";

(d) Title 40 Code of Federal Regulations Part 58 "Ambient Air Quality Surveillance" and its Appendix B "Quality Assurance Requirements for Prevention of Significant Deterioration (PSD) Air Monitoring" (Revised as of July 1, 2023);

(e) Title 40 Code of Federal Regulations Part 64 "Compliance Assurance Monitoring" (Revised as of July 1, 2023);

(f) Title 40 Code of Federal Regulations § 70.4(b)(3)(viii) (Revised as of July 1, 2023);

(g) The following appendices of Title 40 Code of Federal Regulations Part 75 (Revised as of July 1, 2023):

(1) Appendix A "Specifications and Test Procedures,"

(2) Appendix B "Quality Assurance and Quality Control Procedures,"

(3) Appendix C "Missing Data Estimation Procedures,"

(4) Appendix D "Optional SO2 Emissions Data Protocol for Gas-Fired and Oil-Fired Units,"

(5) Appendix E "Optional NO^x Emissions Estimation Protocol for Gas-Fired Peaking Units and Oil-Fired Peaking Units,"

(6) Appendix F "Conversion Procedures," and

(7) Appendix G "Determination of CO2 Emissions";

(h) Title 40 Code of Federal Regulations Part 257, Subpart A "Classification of Solid Waste Disposal Facilities and Practices," § 257.2 "Definitions" (Revised as of July 1, 2023);

(i) The following sections of Title 40 Code of Federal Regulations Part 258 "Criteria for Municipal Solid Waste Landfills" (Revised as of July 1, 2023):

(1) Subpart D "Design Criteria," § 258.40 "Design criteria," and

(2) Subpart F "Closure and Post-Closure Care," § 258.60 "Closure criteria";

(j) American Society for Testing and Materials (ASTM) Designation D 3266-91, Standard Test Method for Automated Separation and Collection of Particulate and Acidic Gaseous Fluoride in the Atmosphere (Double Paper Tape Sampler Method), 1994 Annual Book of ASTM Standards Volume 11.03;

(k) American Society for Testing and Materials (ASTM) Designation D 323-94, Standard Test Method for Vapor Pressure of Petroleum Products (Reid Method), 1994 Annual Book of ASTM Standards Volume 5.01;

Sec. 5-206. Reserved.

ARTICLE I. IN GENERAL

Secs. 5-1—5-15. Reserved.

ARTICLE II. BEER BOARD*

Sec. 5-16. Established.

There is hereby established a board of nine (9) members, to be known as the "Beer Board of Chattanooga." The wrecker board established in section 35-149 of this code shall be separated from the beer board, effective March 5, 2024.
(Ord. No. 14090, § 1, 3-12-24)

Sec. 5-17. Definitions.

Applicant means any person or entity who submits or is seeking to submit an application for a beer permit pursuant to this section.

Beer means beer, ale, or other malt beverages, or any other beverages having alcoholic content of not more than eight percent (8%) by weight, except wine as defined in Tenn Code section 57-3-101; provided, however, that no more than forty-nine percent (49%) of the overall alcoholic content of such beverage may be derived from the addition of flavors or other nonbeverage ingredients containing alcohol.

Caterer is a person engaged in offering food and beverage service for a fee at various locations that: (a) operates a permanent catering hall or restaurant; (b) has a complete and adequate commercial kitchen; and (c) is a licensed as a caterer by the state department of health or whose catering hall is licensed as a restaurant by the state department of health.

Establishment means a building or business for which a permit is issued.

Owner shall mean the owner of a business to which a permit is issued, whether a person, firm, corporation, joint-stock company, syndicate, or association. If the owner is a corporation, a change in ownership shall occur when control of at least fifty (50%) percent of the stock of the corporation is transferred to a new owner.

Permittee means the holder of a beer permit issued pursuant to this section.

Retail sale means a sale to a consumer or to any person for any purpose other than for resale.

Wholesale shall mean a sale to any person for purposes of resale.
(Ord. No. 14090, § 1, 3-12-24)

Sec. 5-18. Term; filling vacancies; chairman and secretary.

(a) The members of the beer board shall be appointed by the mayor, subject to confirmation by the city council. Full time employees of the city shall not be eligible for appointment to the beer board.

(b) The members of the beer board shall be appointed so that they shall hold office for staggered terms. The members appointed from districts 6, 8, and 9 shall be initially appointed for one (1) year terms. The members appointed from districts 3, 4, and 5 shall be initially appointed for two (2) year terms. The members appointed from districts 1, 2, and 7 shall be initially appointed for three (3) year terms.

***State law reference—**Authority to provide for board before which beer license applications are made, T.C.A § 57-5-106.

(c) After the initial appointments, terms of all members shall be for three (3) years. All members shall continue to serve until their successors are appointed.

(d) In the event of a vacancy on the beer board, the mayor, subject to confirmation by the city council, shall fill the same for the remainder of the term and each new appointee shall be a resident of the district of the vacant seat.

(e) The beer board shall organize and select its own chairperson, vice-chairperson, and secretary. Officers of the board shall be elected annually, but no officer may serve more than two (2) consecutive terms in the same office.
(Ord. No. 14090, § 1, 3-12-24)

Sec. 5-19. Time, place of meetings.

The beer board shall meet on the first and third Thursday of each month at 9:00 a.m. in the assembly room at the city hall. The board may call special meetings as required with sufficient notice.
(Ord. No. 14090, § 1, 3-12-24)

Sec. 5-20. Inspectors to be appointed.

The Chief of Police shall designate beer inspectors and assign them to the regulatory unit for the purpose of enforcing the laws, ordinances, and rules regulating the distribution, possession, storage, or sale of beer at wholesale or retail. Such inspectors shall have all the powers and authority of regular police officers.
(Ord. No. 14090, § 1, 3-12-24)

Sec. 5-21. Authority to grant or deny permits.

(a) All applications for the issuance or renewal of beer permits shall be made to the regulatory unit.

(b) The regulatory unit may approve any new beer permits (temporary or permanent) that meet the requirements of the applications.

(c) The regulatory unit may defer an application to the beer board for approval.

(d) If an applicant is denied a permit, the applicant shall be able to appeal to the beer board for a final determination of permit approval. The appeal shall be heard by the beer board who will review the application and decide to affirm or reverse the decision of the regulatory unit.
(Ord. No. 14090, § 1, 3-12-24)

Sec. 5-22. When beer permit denied, waiting period; nonconforming use location.

When an application for a beer permit is denied for reasons relating to the location of the premises, no other application or reapplication shall be filed by any person for a beer permit at such location during a twelve (12) month period after such denial by the beer board. All beer permits currently issued to locations that constitute a nonconforming use under the zoning ordinances may be renewed, but no new permit shall be granted for the sale of beer at a location that now or hereafter constitutes a nonconforming use.
(Ord. No. 14090, § 1, 3-12-24)

Sec. 5-23. Authority over violations of beer code.

(a) The regulatory unit shall have authority to investigate suspected violations by permit holders and issue citations to the beer board for violation of any law regulating the sale, storage, and transportation of alcoholic beverages or for any violation of any provision of this Code.

(b) The hearing officer shall conduct a public hearing in accordance with Article VI of this Chapter.

(c) The beer board, after receiving a decision from the Hearing Officer, shall have the authority to revoke or suspend any permits issued by it under this division.

(d) The beer board may offer a permit holder the alternative of paying a civil penalty not to exceed two thousand five hundred dollars ($2,500) for each offense of making or permitting any sales to minors or a civil penalty not to exceed one thousand dollars ($1,000) for any other offense. If a civil penalty is offered as an alternative to revocation or suspension, the holder shall have seven (7) days within which to pay the civil penalty before the revocation or suspension shall be imposed. If the civil penalty is paid within that time, the revocation or suspension shall be deemed withdrawn, and any right to appeal is deemed waived by the permit holder.

(e) In addition, the beer board shall have the power to require additional training in the case of violation of this section or any other section of the beer code.

(f) The beer board shall follow the requirements of the "Tennessee Responsible Vendor Act of 2006" T.C.A. §57-5-108(a) as they pertain to any responsible vendor as certified by the State of Tennessee Alcoholic Beverage Commission. The burden shall be on the permit holder to establish that it is a responsible vendor.

(g) Nothing in this Chapter shall be construed as interfering with the enforcement of any law or ordinance by another duly authorized agency.

(h) Nothing in this Chapter shall be construed as interfering with the enforcement of any contractual or legal right against a permittee by a third party.

(i) Beer permits shall be revoked in any manner inconsistent T.C.A. §57-5-108.
(Ord. No. 14090, § 1, 3-12-24; Ord. No. 14167(7), § 1, 11-5-24)

Sec. 5-24. Violations to be reported; other officers to cooperate.

The regulatory unit shall issue citations under this chapter. Police officers and inspectors shall report suspected violations by a licensee for investigation by the regulatory unit. All police officers and inspectors and the city treasurer or their assistants shall cooperate with and furnish all information requested by the beer board and the administrative hearing officer.
(Ord. No. 14090, § 1, 3-12-24)

Sec. 5-25. No surrender of permit.

No beer permit shall be surrendered after the holder thereof has been cited before the beer board for an alleged violation and while any charges or citations are still pending.
(Ord. No. 14090, § 1, 3-12-24)

Sec. 5-26. Finality of decisions and right to appeal.

The decisions of the beer board are final, and any party aggrieved thereby may appeal the outcome in accordance with Tennessee Code Annotated §57-5-108.

Sec. 5-27. Penalty.

Violation of this article shall constitute grounds for the revocation of the license, or for a suspension in the discretion of the beer board.
(Ord. No. 14090, § 1, 3-12-24)

ARTICLE III. BEER (AS DEFINED AT T.C.A. § 57-5-101(b), AND AMENDMENTS THERETO)

DIVISION 2. PERMITS

Sec. 5-28. Dealing is permitted subject to law.

The manufacture, distribution, sale, transportation, storage, and possession of beer is governed by the Tennessee Code Annotated, this Code, and permit requirements of this chapter. (Code 1986, § 5-41; Ord. No. 13127 , § 1, 12-13-16)
(Ord. No. 14090, § 1, 3-12-24)

Sec. 5-29. Not transferable.

No permit issued by the beer board or regulatory unit under the provisions of this division shall be transferred from one (1) person to another.
(Ord. No. 14090, § 1, 3-12-24)

Sec. 5-30. To be posted.

(a) The permit issued under this division shall be posted in a conspicuous place on the premises of the permittee.

(b) Vendors shall post signs informing customers of the vendor's policy against selling beer to underage persons. The signs shall not be less than eight and one-half inches by five and one-half inches (8 ½ x 5 ½), and shall contain the following language: IF YOU ARE UNDER 21 YEARS OF AGE AND ARE IN POSSESSION OF BEER, YOU COULD LOSE YOUR DRIVER'S LICENSE.
(Ord. No. 14090, § 1, 3-12-24)

Sec. 5-31. Maximum quantity to be possessed without permit.

(a) Possession of more than three (3) cases of beer requires a permit as a:

(i) Wholesale distributor; or

(ii) Retail dealer; or

(iii) Nonrecurring social function, signed by the chief of police specifying the amount to be purchased and the time within which such purchase shall be made. The distributor making such sale return or mail the permit authorizing the sale to the chief of police by 12:00 noon of the next succeeding business day after such sale.

(b) A retail dealer in beer shall not sell or deliver to any person more than three (3) cases of such beverages on any one (1) day.
(Ord. No. 14090, § 1, 3-12-24)

Sec. 5-32. Same- required for liquor by the drink establishments.

Any person holding a liquor-by-the-drink license must also have a beer permit to sell beer for consumption on the premises.
(Ord. No. 14090, § 1, 3-12-24)

Sec. 5-33. Retailers to purchase from a wholesaler who has a permit.

It shall be unlawful for any person holding a permit for the sale at retail of beer or other beverages of like alcoholic content to purchase beer or such other beverages from anyone other than a brewer, wholesaler or distributor who has been issued a permit to carry on business in the city.
(Ord. No. 14090, § 1, 3-12-24)

Sec. 5-34. Solicitations of home delivery service prohibited.

Any person who is engaged in accepting orders and making deliveries of beer in the city shall be known and considered as operating a home delivery service of beer, and it shall be unlawful for any person engaged in the business of home delivery to solicit, either in person or by telephone, the sale or delivery of beer, or to make sales or deliveries except on voluntary calls or orders from customers.
(Ord. No. 14090, § 1, 3-12-24)

Sec. 5-35. Reports required of permittees.

(a) *Wholesalers.* Each wholesaler or wholesale distributor of beer or other beverages of like alcoholic content in the city shall file with the city treasurer the name of the brewer such wholesaler or wholesale distributor represents, together with the name of the beer sold at wholesale or distributed in the city. In the event of a change of breweries, such wholesaler or distributor shall immediately furnish the city treasurer with the name of any additional brewery represented. Any wholesaler or wholesale distributor making sales of beer or other beverages of like alcoholic content from the platform, or from an established place of business or other place, shall make a report in writing of such sales, giving the name and address of the purchaser and the quantity of beverages purchased. Such report shall be delivered or mailed to the chief of police by 12:00 noon of the following business day.

(b) *Operators of vehicles.* Any person operating a vehicle, either for himself or a distributor, who sells beer or other beverages of like alcoholic content to any person other than a retailer who has been issued a permit shall make a report in writing of such sale, giving the name and address of the person to whom the sale was made, which shall be delivered or mailed to the chief of police by 12:00 noon of the following business day.

(c) *Retailers.* Any retail permittee selling or delivering one (1) or more cases of beer shall make a report in writing of such sale or delivery, giving the name and address of the person to whom the sale was made. Such report shall be delivered or mailed to the chief of police by 12:00 noon of the following business day.
(Ord. No. 14090, § 1, 3-12-24)

Sec. 5-36. Hours regulated.

(a) No permittee under this article may sell or give away alcoholic beverages or malt beverages on the licensed premises between the hours of 3:00 a.m. and 8:00 a.m. on Monday through Saturday or between the hours of 3:00 a.m. and 10:00 a.m. on Sundays.

(b) In addition to the requirements set forth in subsection (a) above, no permittee under this article with an on premise permit may permit alcoholic beverages or malt beverages to be consumed on the licensed premises between the hours of 3:00 a.m. and 8:00 a.m. on Monday through Saturday or between the hours of 3:00 a.m. and 10:00 a.m. on Sundays. All alcoholic beverages or malt beverages and all alcoholic beverages or malt beverages glasses and containers must be clear off tables at the end of serving hours. This subsection shall not apply to off premise permits.

(c) No permittee whose permit authorizes sale for on premise consumption shall be open for business except during hours authorized by this section for consumption of alcoholic beverages or malt beverages on the licensed premises. However, this section shall not apply to an on premise consumption permittee

having a dining room seating capacity of at least fifty (50) people at tables whose annual sales of food prepared in a fully functioning and sanitary kitchen, non-alcoholic beverages, non-malt beverages, and other commodities sold upon the premises comprise more than fifty percent (50%) of the permittee's annual gross sales and where the sale of malt beverages and alcoholic beverages is merely incidental to the business or to a theater as defined at Tenn. Code Ann. § 57-4-102(37). The burden of proof shall be on the permit holder to establish their percentage of sales of food, non-alcoholic beverages, non-malt beverages, and other commodities.

(d) No person who holds a beer permit for premise consumption shall allow any person under the age of twenty-one (21) to be in, frequent or loiter about the premises of the licensee unless such underage person is accompanied by their parent or their legal guardian after 6:00 o'clock p.m. However, this section shall not apply to an on premise consumption permittee having a dining room seating capacity of at least fifty (50) people at tables whose annual sales of food prepared in a fully functioning and sanitary kitchen, non-alcoholic beverages, and other commodities upon the premises comprise more than fifty percent (50%) of the permittee's annual gross sales and where the sale of beer and alcoholic beverages is merely incidental to the business or to a theater as defined at Tenn. Code Ann. § 57-4-102(37). The burden of proof shall be on the permit holder to establish their percentage of sales of food, non-alcoholic beverages, and other commodities. Any establishment violating this provision shall, after the first offense, be required by the Beer Board to present a plan as to how the establishment will ensure there will be no further violations. Any violation may result in the permittee's license being suspended and, once a plan is submitted, three (3) subsequent violations within any twelve (12) month period, calculated from the date of the first subsequent violation, shall result in the revocation of the beer permit. The provisions of this subsection shall not apply to a temporary permit.
(Ord. No. 14090, § 1, 3-12-24)

Sec. 5-37. Privilege tax required.

Permanent Beer Permit Holders shall pay an annual privilege tax of one hundred dollars ($100.00). New permits shall pay this tax on a prorated basis.
(Ord. No. 14090, § 1, 3-12-24)

Sec. 5-38. Application fee required.

(a) Any applicant for a permanent beer permit must pay an application fee of two hundred fifty dollars ($250.00) to the city treasurer. This fee is non-refundable and non-transferable and shall be in addition to any other fees or taxes specified herein.

(b) Any applicant for a temporary beer permit must pay to the city treasurer an application fee of one hundred dollars ($100.00)for a one-day permit plus fifty dollars ($50.00) for each additional day of the temporary beer permit, providing, however, that the maximum fee for a temporary thirty (30) day beer permit is two hundred fifty dollars ($250.00). This fee is non-refundable and non-transferable and shall be in addition to any other fees or taxes specified herein.
(Ord. No. 14090, § 1, 3-12-24)

Sec. 5-39. Application requirements.

(a) The application for a permanent beer permit shall contain the following information:

(i) The name of the applicant;

(ii) Name of the applicant's business;

(iii) Applicant's Social Security Number or Federal Tax ID;

(iv) Address of business or location of premises permitted;

(v) At least one (1) phone number of record that a business will use to Name and address of persons, firms, corporations, joint-stock companies, syndicates, or associations having at least a five percent (5%) ownership interest in the applicant;

(vi) Selection of permit type: on-premises consumption, off premises consumption or both;

(vii) Sworn and notarized statement that all facts included in the application are true, correct, and applicant has read and understood the Chattanooga beer code; and
